THE CHICAGO DAILY NEWS

ALMANAC

AND YEAR-BOOK

FOR

1917

COMPILED BY JAMES LANGLAND, M. A.

ISSUED BY

THE CHICAGO DAILY NEWS COMPANY

[Copyright, 1916, by The Chicago Daily News Company.]

PREFACE.

Many things of more than ordinary importance occurred in 1916 concerning which information will often be required in the months and years to come. To a large extent this information will be found in the present issue of the Almanac and Year-Book. It is not possible to enumerate here all the subjects dealt with in the volume, but the following may be mentioned:

The European war, with its tremendous battles on land and sea, its huge cost in men and money, its cabinet upheavals and its diplomatic disputes. Much space is devoted to telling the year's developments in this mighty struggle.

The awakening of America to its lack of national defense. All the essential facts in the "preparedness" campaign are given. Congress passed bills intended to strengthen the army and navy. These and other measures in the same direction are given either in full or in slightly condensed form.

The railway eight hour controversy. The Adamson law and the circumstances under which it was passed aroused widespread comment, and the indications are that the matter will continue to be a topic of discussion for some time to come. The demands of the railroad brotherhoods, the position taken by President Wilson and the action taken by congress are given in detail.

The presidential campaign. The story of each national party convention is told, each party platform is published in full, and comprehensive election tables from every state in the union are presented.

The Mexican-American crisis. The events which brought the two countries to the verge of war are described.

To make room for data relating to these and innumerable other matters, the size of the book has been increased by thirty-two pages. The index has also been amplified.

ALMANAC AND YEAR-BOOK FOR 1917

Astronomical calculations prepared by Berlin H. Wright, DeLand, Fla.

All the calculations in this Almanac and Year-Book are based upon mean or clock time unless otherwise stated. The sun's rising and setting are for the upper limb, corrected for parallax and refraction. In the case of the moon no correction is needed, as in the sun, for 'parallax and refraction'; with her they are of an oppo-

site nature and just balance each other. The figures given, therefore, are for the moon's center on a true horizon such as the ocean affords.

The calculations in each of the geographical divisions of each calendar page will apply with sufficient accuracy to all places in contiguous zones indicated by the heading of the divisions.

BEGINNING AND LENGTH OF SEASONS.

Sun enters: Sign.	Constel.	Long.	lat.	Date.	Eastern time.	Central time.			D. H. M.
♈	270°	♈	Dec.	21..	10:59 p. m.	9:59 p. m.	1916	Winter begins and lasts.....	89 0 39
♉	0°	♉	Mar.	20..	11:38 p. m.	10:38 p. m.	1917	Spring begins and lasts.....	92 19 36
♊	90°	♊	June	21..	7:14 p. m.	6:14 p. m.	1917	Summer begins and lasts.....	93 14 47
♋	180°	♋	Sept.	23..	10:01 a. m.	9:01 a. m.	1917	Autumn begins and lasts.....	89 18 45
♌	270°	♌	Dec.	22..	4:46 a. m.	3:46 a. m.	1917	Winter begins. Tropical year.....	365 5 47

ERAS OF TIME.

The Gregorian year 1917 corresponds to the following eras:

The latter part of the 141st and the beginning of the 142d year of the independence of the United States.

The year 1335-36 of the Mohammedan era; the year 1336 begins Oct. 17.

The year 4614 (nearly) of the Chinese era, beginning now, Jan. 1.

The year 2229 of the Grecian era.

The year 5677-78 of the Jewish era; the year 5678 begins at sunset Sept. 16.

The year 7425-26 of the Byzantine era, beginning Sept. 1.

The year 2577 of the Japanese era.

The year 6630 of the Julian period, and Jan. 1 is the 2,421,230th day since the beginning of the Julian period.

RADIUM AND SOURCES OF SUPPLY.

[From report of United States geological survey.]

Radium is a metal and is described as having a white metallic luster. It has been isolated only once or twice and few people have seen it. Radium is ordinarily obtained from its ores in the form of hydrous sulphate, chloride or bromide, and it is in the form of these salts that it is usually sold and used. These are all white or nearly white substances, whose appearance is no more remarkable than common salt or baking powder. Radium is found in nature in such exceedingly small quantities that it is never visible even when the material is examined with a microscope. Ordinarily radium ore carries only a small fraction of a grain per

ton of material, and radium will never be found in large quantity because it is formed by the decay of uranium, a process which is wonderfully slow, and radium itself decays and changes to other elements so rapidly that it is impossible for it to accumulate naturally in visible masses. Minerals that carry radium, however, are fairly easy to determine. One of them, pitchblende, as generally found, is a black mineral about as heavy as ordinary iron, but much softer. The principal radium mineral, carnotite, has a bright canary yellow color and is generally powdery.

NOTE.—To ascertain any day of the week first look in the table for the year required and under the months are figures which refer to the corresponding figures at the head of the columns of days below. For example: To know on what day of the week July 4 was in the year 1895, in the table of years look for 1895, and in a parallel

line, under July, is figure 1, which directs to column 1, in which it will be seen that July 4 falls on Thursday.

*1752 same as 1772 from Jan. 1 to Sept. 2. From Sept. 14 to Dec. 31 same as 1750 (Sept. 3-13 were omitted).—This Calendar is from Whitaker's London Almanack, with some revisions.

CHART OF THE HEAVENS.

EXPLANATION—The chart of the heavens shows all the bright stars and groups visible in the United States, Canada, Cuba and Hawaii. Stars of the third magnitude are sometimes shown in order to complete a figure.

If a bright, uncharted body be seen near the "ecliptic circle" it must be a planet. To locate the planets or moon refer to the monthly calendar pages in this almanac, find the proper signs on the chart in the "ecliptic circle" and an inspection of that part of the heavens, comparing with the chart, will serve to identify the planet and all surrounding objects.

Because of the earth's motion from west to east (opposite to the direction of the arrow in the chart), the stars rise 4 m. earlier each day or 30 m. per week or 2 hrs. a month. The chart shows the position at 9 p. m. Then if the

position for any other hour be desired, as for 7 p. m., count ahead one month, or back one month for 11 p. m., and so on for any hour of the night, holding the month desired in front as the face looks either to the north or south with name down.

A circle described from the zenith on the "zenith circle" for the desired latitude with a radius of 90 degrees (see graduated meridian) will show what stars are above the horizon. Thus Capella is near the overhead (zenith) point on latitude 40 degrees north Jan. 15, 9 p. m., as will be "big dipper" at 3 a. m. Then from Capella or two stars all the surrounding visible groups can be identified. The "pointers," being 5 degrees apart and always in sight, may be used as a convenient unit of measure; also when visible, the "belt of Orion," 3 degrees, or the sides of the "square of Regulus."

NOTE.—The column "Right Ascension" shows the position of the planet in the ecliptic as it moves past the stars and corresponds to longitude on the earth. Both must have a starting point and longitude is reckoned by general consent from Greenwich, England, while right ascension is measured from the first point of the sign Aries (constellation Pisces) which the prime meridian of the heavens, connecting the poles, passes through. The reader will see these hours from 0 to 24 laid off and marked by Roman letters, as in the above table, in the outer space on the Chart of the Heavens.

Example: It is desired to know the place of Venus May 16. By the above table her place on May 11 is III 1/4 hours and on May 21 IV 1/4 hours, which point on the chart margin connect with the pole star, by a straight edge, as a ruler or envelope margin, and where the line intersects the ecliptic circle, there you will find Venus at the time given, which in this case is about midway between the Pleiades and the Hyades, two prominent objects. Again on July 26 her R. A. is IX 3/4 hours, which falls just to the right or west of the brilliant Regulus in the Sickle, in the constellation Leo.

Lowest ☾.....	19	16	15	11	9	5*	2-29	26	22	19	16	13
Desc. Node.....	8	5	3-31	27	24	20	17	14	10	7	3-30	28
Asc. Node.....	22	19	18	14	11	7	4	1-28	24	21	17	15

*Lowest of the entire year. Highest of the entire year. At the time of full moon in December the moon will be 5° higher up from the southern horizon at its meridian passage than it will be in June when full. This great swing of our luminary of the night is readily understood when we remember that the full moon must always be on the opposite side of the earth from the sun, or just 180° from the sun. Hence, when the sun is highest in June, that full moon which falls nearest the summer

solstice, June 21, will be the lowest, which this year is June 5 or July 5 and conversely at the winter solstice. Of course, these conditions will be reversed south of the equator. The difference in the swing from lowest to highest may be 57°, the inclination of the sun's apparent path around the earth being 23 1/2°, which being multiplied by 2 equals 47°. Then, the inclination of the moon's orbit to the ecliptic being about 5°, there may be 10° more difference, or 57° in all.

CHART SHOWING LIGHT AND DARK MOON IN 1917.

Explanation: The small divisions are of three hours each and each month shows the relative amount of moonlight in the twelve hours from 6 p. m. to 6 a. m. Allowance should be made for the increase of days' length in summer and

decrease in winter months. Thus, Jan. 1 the moon will shine until midnight; all night on the 7th; after 9 p. m. on the 12th; after midnight on the 15th; after 3 a. m. on the 19th, and not at all on the 23d.

SIDEREAL NOON OR MERIDIAN PASSAGE OF THE VERNAL EQUINOX.

Explanation: By the absolute scale of magnitudes stars brighter than Aldebaran and Altair are indicated by fractional or negative quantities: thus Vega 0.2 and Sirius -1.4. As the magnitudes increase the brilliancy decreases, each increase of a unit being equal to a decrease of about two and one-half in brightness.

To ascertain when any star or constellation will be on the upper meridian add the number opposite in the column "For Meridian Passage" to the figures in the table on the following page. "Sidereal Noon," taking note whether such figures be "Morn." or "Eve." If "Morn." and the sum is more than 12h. the result will be Eve, of same day; if "Eve," and the sum is more than

12h. the result will be Morn. of the next day. Having found the time of meridian passage, for the rising subtract and for the setting add the numbers opposite the star in the column headed "For Rising and Setting" (†) and observe the directions as to Morn. and Eve. given for the meridian passage. Those marked (.....) in the last column are circumpolar. Stars having an asterisk (*) in the last columns are to be seen only in the far south and then when near the meridian, as the vapors of the horizon will prevent seeing them when they rise or set. To tell how high up from the nearest point of the horizon a star will be at its meridian passage subtract the star's declination from 90° and if the

result is less than the latitude of the place of the observer that star will neither rise nor set, but is circumpolar, and the difference between that result and the latitude shows the star's altitude above the north point of the horizon or below the southern horizon. Or $(90^\circ - \text{dec.}) - \text{lat.} = \text{alt.}$ or elevation of the star above the nearest point of the horizon at meridian passage for stars of a southern declination. Examples:
 Sidereal noon, Oct. 30, 9:27 p. m.
 Fomalhaut "In Merid." col., 22:48

32:15
 Subtract, 24:00

8:15 p. m. of the 31st.
 time of meridian passage.

Fomalhaut ris. and set. col. add 4:00 for lat. 40° N.

12:15 = 0:15 a. m. of
 Nov. 1, the time
 of setting.

STORY OF OUR WORLD FAMILY FOR A. D. 1917.

THE SUN—In tracing the relationship, origin and age of living and fossil forms, present conditions form the basis of all work. So, likewise, in world study or astronomy. We know that the sun is a dark body surrounded by an envelope of burning gases, in which are all the elements that enter into the earth's structure. Therefore, in the "beginning" of Genesis the earth and sun were one and likewise all the other members of this world family, and a knowledge of our natural laws is the key that opens the door and reveals to us conditions that obtain in other worlds, their weight, size, distance, etc. The bright solar envelope is torn asunder with convulsions, revealing the dark interior (sun spots), large enough to roll a dozen earths into, and when these are largest and most numerous, about every eleven years, the earth trembles in sympathy, evident in earthquakes, volcanic activity and unusual meteorological conditions. Such was the year 1915.

During total eclipses of the sun opportunity is afforded to steal many of his secrets, especially in such eclipses as are of "longest totality," as in 1933, 1980, 2009 and 2038, which leaves much time for gain in knowledge and improvement in apparatus.

MERCURY—Because of his nearness to the sun, this planet is invisible most of the time, and is therefore the least known of our family of naked-eye worlds. Special endeavor must always be made to see him, by knowing the time and place to look, and then he shows up gloriously. This year the conditions will be most favorable near the "break of day," Feb. 1-10 and Oct. 1-10 and near the close of twilight, Jan. 1-10, April 5-15 and Dec. 15-20; always seek him near the sun, rise point of the horizon in the morning and the sunset point in the evening. When an unusually bright "star" is seen at these times and places the observer may be certain of having seen the youngest of our world family to whom no descendants or moons have been vouchsafed, so far as we know.

VENUS—The goddess of beauty will not, however, attract much attention until the evenings of fall and winter, being invisible the latter part of April when hidden from us by the sun and only dimly visible for weeks before and after that, owing to her great distance from us and proximity to the sun. Indeed, she will appear seventeen times larger in December than in May, even though at the first date she will present quite her full phase, while at the last date she will only show a thin crescent or new moon phase. (See the annexed cut and explanation.)

At the beginning of the year Venus will be in Scorpio and about 10° northeast of the red star Antares; enters the western boundary of the Milky Way about Jan. 8, emerging on its eastern side on the 20th and at the end of the handle of the Milkmaid's Dipper; 1° north of moon Jan. 21 and less than 3° south of Mercury Jan. 30. On Feb. 20 the moon will over-

Fomalhaut, dec. 30° S. $90^\circ - 30^\circ = 60^\circ$, — $40^\circ = 20^\circ$, altitude of Fomalhaut in latitude 40° at its meridian passage. To measure celestial distances with the eye keep in mind that one-third of the distance from the zenith to the horizon is 30° . For smaller measurements use the belt of Orion, 3° long, or the sides of the Square of Pegasus; the "pointers" in the "big dipper," which are nearly 5° apart—a convenient celestial yardstick because always to be seen. In the case of a star whose dec. is such as to bring it nearer to the zenith than to a horizon at meridian passage, it will be more convenient to use its zenith distance as a means of locating it. The difference between the latitude and dec. is this zenith distance. If the dec. is greater than the latitude then such distance is to be counted northward, otherwise southward from the zenith.

take her while in Capricornus, just south of the two bright stars in the horns of the Goat, and pass 3° to the south of her, her phase being nearly like A or E in above cut. We will pass on over the period when she is unfavorably situated and pick up her course from July 1, when she will be found midway between Præsepe—the Beehive—and Pollux in Gemini, close to Saturn (1° north) July 4 and in line with Castor and Pollux 5° northwest of her, setting at 9 p. m. with Procyon 15° southwest and Sirius 15° still further southwest; July 26 a little north of Regulus, in the end of the handle of the Sickle in Leo, making an attractive grouping of interesting objects. Præsepe,

As seen in the morning west of sun. As seen in the evening east of sun.

A. April 11, 1917—About fifteen days before superior conjunction with the sun.

B. April 21, 1918—At greatest angular distance west of the sun.

C. March 16, 1918—When brightest as a morning star.

D. In February, 1918—Just after inferior conjunction with the sun.

E. About May 11—Fifteen days after superior conjunction with the sun.

F. About Nov. 30—When at greatest angular distance east of the sun.

G. Jan. 5, 1918—When brightest as an evening star.

H. Feb. 3, 1918—A week before inferior conjunction with the sun.

or the Beehive, which is easily visible to the naked eye on a line joining Venus and Regulus, becomes beautiful under the slightest optical aid, bringing out a wealth of glittering suns. This is only one of the numerous "island universes" of the heavens, similar to the Galaxy, or Milky Way. Imagine our own sun and family in the midst of such a group of suns each far brighter than our brightest stars or planets, satellites, comets, etc., with their ever recurring phenomena. This group has been repeatedly mistaken for a comet and early observers called

it the "Nebula of Cancer," but even a good night glass causes its filmy appearance to disappear and brings out the swarms of twinkling suns.

The latter part of August Venus will be 10° south from Denebola in Leo and 6° north of the moon Aug. 20; by the 10th of September she will be less than 2° north of Spica Virginis and 4° north of the moon Sept. 19 and 30° south of Arcturus on the 20th, entering the Square of Libra Oct. 1. In this vicinity will be found the Northern Crown and 15° to the left of it and on a line connecting it with Vega Lyra is to be seen, as a dim patch of light, another vast "island universe" in the constellation Hercules. This is the largest and richest of the naked-eye star groups and one which, before the time of telescopes, was supposed to be a great nebula. Even a small instrument will so bring out its glories as to compel exclamations of wonder.

By Oct. 15-20 Venus will have passed into Scorpio close to and north of Antares and completes her circuit of the heavens, being close to the moon Oct. 19 (an occultation of the southern latitudes). During November she passes through the constellation Sagittarius just above or north of the Milkmaid's Dipper, and will be 4° south of the moon Nov. 18; will reach her greatest angular distance from the sun (47° 18') Nov. 30, when a line from the north star through the Great Cross to Aquila and extended 30° will reach her. Note that the "Apex of the Heavens" is shown on the chart between Lyra and the Great Cross. It is about this point that our family is revolving. She will be in line with Polaris, Deneb and Job's Coffin Dec. 10 and 30° south of the last, finally attaining her greatest brilliancy and passing 5° south of the moon Dec. 11.

MAKS—Will not be a conspicuous object at any time during the year, because of his nearness to the sun—not in real but angular distance (see chart). Being in conjunction with the sun Feb. 28, he will be quite invisible in February and March. When first easily seen, in June, he will be in close company with Jupiter, being nearest him June 8, when only 3/4° north of him, rising about 3 a. m., with the Pleiades just north of them; 10° north of the moon July 16 and passing just north of Aldebaran in the Hyades near the end of July; Aug. 1 midway between Betelgeuse and Capella and Aug. 14 1/2° north of the moon; Aug. 20 in line with Sirius and Castor, forming a neat triangle with Castor and Pollux; 3° north of the moon Sept. 11 and Sept. 20 in the Beehive; 4° north of Saturn Oct. 1—a beautiful sight; just east of the Beehive; last of October just north of Regulus; 5° north of moon Oct. 10; 6° north Nov. 8 and 8° north Dec. 7. He begins to rise before midnight about Dec. 1 and hence then becomes an evening star, but will not be at his brightest until March, 1918.

JUPITER—Will be on the meridian about 7 p. m. Jan. 1 and may be found about 10° southeast of Algenib at the southeast corner of the Great Square of Pegasus and 30° directly south of the only naked-eye nebula—the "Great Nebula of Andromeda," easily to be seen when well above the horizon in the absence of the moon, on a line connecting Jupiter with the base of Cassiopeia's Chair. With a moderate glass, stars may be seen shining through its filmy mass. Such was the mass of all the matter now embodied in our world family many millions of years ago, or in the "beginning" of the Mosaic account of creation. Along from the middle to the last of June, after Jupiter has passed the sun and is to be seen on the other (west) side of him, as a morning star, he will be about midway between the Pleiades and Hyades and the latter part of August 5° north of Aldebaran. He will go a little farther east until midway between Aldebaran and El Nath and then retrograde or go back westward until the end of the year. His visible near approaches to the moon will be as follows: Jan. 1 and 29, Feb. 25, March 25, April 23, July 14, Aug. 11, Sept. 7, Oct. 5, Nov. 1 and 28 and Dec. 25, in all of which he will be from 3° to 6° south; at east quadrature

Sept. 3 and at opposition, or 180° from the sun, Nov. 29.

SATURN—Will appear to the best advantage at or near the beginning of the year and at its close, being in both instances an all night star and rising near sunset (see chart). No use to seek him in July or August. Jan. 1 he will be in Gemini and about 5° south of Pollux and in line with that star and Castor, with the Beehive a few degrees east. He will be retrograding, or going west past the stars, until April, when he will be between Procyon and Pollux, and he will advance the remainder of the year. His close approach to Mars was mentioned under that head. Castor is the finest double star in the northern heavens. Extra good eyesight, unaided, shows the companion star and the slightest optical aid brings it out plainly.

His near approaches to the moon will be as follows: Jan. 9, 1° north; Feb. 5, March 4 and 31, 3/4° north; April 28, 1° north; May 25, 1 1/2° north; Oct. 10, 3 1/2° north; Nov. 6 and Dec. 4, 4° north.

No attention is given to Uranus or Neptune, as the latter is never to be seen except with a good telescope and knowledge of place, and the former is only just discernible to the normal eye when at his very brightest and no moonlight.

FACTS ABOUT THE SUN AND PLANETS.

Name.	Diameter, miles.	Distance from sun, miles.	Period of rev. days.
Sun	866,400		
Mercury	3,030	36,000,000	88
Venus	7,700	67,200,000	225
Earth	7,918	92,900,000	365
Mars	4,230	141,500,000	687
Jupiter	86,500	483,300,000	4,333
Saturn	73,000	886,000,000	10,759
Uranus	31,900	1,781,900,000	30,687
Neptune	34,800	2,791,600,000	60,181

The sun's surface is 12,000 and its volume 1,300,000 times that of the earth, but the mass is only 332,000 times as great and its density about one-quarter that of the earth. The force of gravity at the surface of the sun is twenty-seven times greater than that at the surface of the earth. The sun rotates on its axis once in 25.3 days at the equator, but the time is longer in the higher latitudes, from which fact it is presumed that the sun is not solid, at least as to its surface.

THE EARTH AND THE MOON.

Earth—The equatorial diameter of the earth is 7,926.5 miles and the polar diameter 7,899.5 miles; equatorial circumference, 25,000. The linear velocity of the rotation of the earth on its axis at the equator is 24,840 miles a day, or 1,440 feet a second; its velocity in its orbit around the sun is approximately nineteen miles per second, the length of the orbit being about 560,000,000 miles. The superficial area of the earth, according to Kneke, the astronomer, is 187,108,580 square miles, of which two-thirds is water and one-third land. The planetary mass is about 256,000,000 cubic miles.

Moon—The moon has a diameter of 2,162 miles, a circumference of about 6,800 miles and a surface area of 14,685,000 square miles. Her mean distance from the earth is 238,840 miles. The volume of the moon is about 1/49th that of the earth and the density about 3% that of water. The time from new moon to new moon is 29 days 12 hours 44.05 minutes. The moon has no atmosphere and no water and is a dead world. Light travels at the rate of 186,300 miles per second. It requires 8 minutes and 8 seconds for light to come from the sun to the earth.

HUNTER'S AND HARVEST MOON.

The full moon nearest to Sept. 21 is popularly known as the "harvest moon." This is because the moon then rises, for several consecutive evenings, at nearly the same hour, giving an unusual number of moonlight evenings. This is the most noticeable in the higher latitudes and quite disappears at the equator.

The "hunter's moon" is the first full moon following the harvest moon.

VISIBILITY OF THE PRINCIPAL PLANETS IN 1917.

Copyright, 1909, by Berlin H. Wright, De Land, Fla.

Explanation: The light spaces show the approximate time and extent of visibility and, with the superior planets, the degree of brilliancy also. Thus Venus will be two hours or 30 degrees west of the sun Jan. 1; invisible the latter part of April and first part of May and 3 hours or 45 degrees east of sun the last of November; Jupiter invisible in May, rising with the sun, and brightest (180 degrees from the sun) in November and December, setting at sunrise—an all night star.

THE PLANETS.

As Morning Stars West of the Sun—Mercury, Feb. 1-10 and Oct. 1-10, rising near the break of day near the sunrise point of the horizon. Venus, until April 26 or as long as visible. Mars, from Feb. 28 to Dec. 12. Jupiter, from May 9 to Sept. 3. Saturn, from July 27 to Nov. 7.

Brightest or Best Seen—Mercury, within the time limits given when an evening or morning

star. Venus, best seen in November, December and January, 1918. Mars, at the close of the year. Jupiter, in November and December. Saturn, in January. Uranus, in August. Neptune, in January.

As Evening Stars East of the Sun—Mercury, Jan. 1-10, April 5-15 and Dec. 15-25, setting at or near the close of evening twilight, near the sunset point of the horizon. Venus, after April 26, or from time when first visible. Mars, until Feb. 28 and after Dec. 12. Jupiter, until May 9 and after Sept. 3. Saturn, until July 27 and after Nov. 7.

Invisible or Very Dim—Mercury, at all other times not included within the dates given above when an evening or morning star. Venus, in April and May. Mars, in February and March. Jupiter, from April 25 to May 20. Saturn, in July and August. Uranus and Neptune, always.

All Night Stars or Planets—Jupiter, in November and December. Saturn, in January.

GREAT SHIP CANALS OF THE WORLD.

Canal.	Opened, year.	Length, miles.	Depth, feet.	Width,* feet.	Cost.
Cape Cod	1914	8	25	150	\$12,000,000
Corinth (Greece)	1893	4	26.25	72	5,000,000
Kronstadt-St. Petersburg (Russia)	1890	16	20.50	220	10,000,000
Elbe and Trave (Germany)	1900	41	72	72	5,831,000
Kaiser Wilhelm or Kiel (Germany)†	1895	61	45	150	94,818,000
Manchester ship (England)	1894	35.5	26	120	75,000,000
Panama (U. S.)	1914	50.5	45	300	375,000,000

Welland (Canada)	1887	26.75	14	100	25,000,000

*At the bottom. †Rebuilt.

ECLIPSES IN THE YEAR 1917.

There will be seven eclipses this year—the greatest number possible in any one year—four of the sun and three of the moon, as follows:

I. Total of the moon Jan. 8, wholly visible throughout North America and partially in South America; the beginning will be visible in central and western Europe, northwest Africa and the central and eastern Pacific region; the ending in northeast Asia and east Australia.

Eclipse Jan. 8, 1917.

As shown in the cut the moon will pass from west to east through the shadow of the earth while at her descending node, so that she will make her exit from the shadow nearly her entire diameter farther south than when she entered it, causing her to be more than totally eclipsed, or 16.4 digits, 12 digits being taken as the moon's apparent diameter. The different phases of the eclipse will be visible as follows:

Washington.* Eastern.†		
Partial begins at (a).....	4:2 a. m.	5:50 a. m.
Total begins.....	1:52 a. m.	2:00 a. m.
Middle at (b).....	2:37 a. m.	2:45 a. m.
Total ends.....	3:21 a. m.	3:29 a. m.
Partial ends at (c).....	4:31 a. m.	4:39 a. m.
Central.† Mountain.†		
Partial begins at (a).....	11:50 p. m. (7th)	10:50 p. m. (7th)
Total begins.....	1:00 a. m.	12:00 p. m.
Middle at (b).....	1:45 a. m.	12:45 p. m.
Total ends.....	2:29 a. m.	1:29 a. m.
Partial ends at (c).....	3:39 a. m.	2:39 a. m.

*Mean time. †Standard time. For intercolonial or Atlantic time add one hour to eastern standard time and for Pacific time subtract one hour from mountain standard time.

II. Partial of the sun Jan. 23, visible more or less in eastern Europe, western Asia and northern Africa.

III. Partial of the sun June 18-19, more or less visible in northern and central Asia and British America. In the United States on the Pacific coast the sun will rise more or less eclipsed on its northern limb on the morning

of the 19th and a very small eclipse will be visible in northern Idaho, northern Oregon, Washington and northwestern Montana. No part of the eclipse will be visible south of a line from Boise, Idaho, to Helena, Mont.

IV. Total of the moon July 4; invisible in the United States. The beginning visible in Africa and partially so in Asia and Europe; the ending in Europe, Africa and South America;

V. Partial of the sun July 18, very small and around the south polar regions.

VI. Annular of the sun Dec. 14, visible as a partial eclipse at sunrise on the coast of Argentina and southern Brazil and at sunset in southern Australia. The path of the annular phase cuts the south pole.

VII. Total of the moon Dec. 28, wholly visible throughout North America and the beginning in South America. Size 12.1 digits, or a trifle more than total, as shown in the cut.

Eclipse of the moon Dec. 28, 1917.

The moon will be at her descending node at the time of this eclipse and hence will be farther south at the end than she was at the beginning of the eclipse, as shown. The time of the various phases will be as follows:

Washington.* Eastern.†		
Partial begins.....	2:57 a. m.	3:05 a. m.
Total begins.....	4:30 a. m.	4:08 a. m.
Middle.....	4:38 a. m.	4:46 a. m.
End of total.....	4:47 a. m.	4:55 a. m.
End of partial.....	6:19 a. m.	6:27 a. m.
Central.† Mountain.†		
Partial begins.....	2:05 a. m.	1:05 a. m.
Total begins.....	3:08 a. m.	2:08 a. m.
Middle.....	3:46 a. m.	2:46 a. m.
End of total.....	3:55 a. m.	2:55 a. m.
End of partial.....	5:27 a. m.	4:27 a. m.

*Mean time. †Standard time. For intercolonial or Atlantic time add one hour to eastern standard time and for Pacific time subtract one hour from mountain time.

SIGNS AND CONSTELLATIONS OF THE ZODIAC.

Until recently it was taken for granted that the present relationship between signs and constellations of the zodiac was generally understood, as all astronomical textbooks mention their disagreement and explain the cause. The numerous letters of inquiry concerning differences between the data in this almanac and certain others show the necessity for this note of explanation.

Thousands of years ago when the zodiac, that belt of the heavens about 16° in width within which move the moon and planets, was formed and divided into twelve parts or seasons called signs, each containing certain star groups called constellations, each was given the name of an object or animal which never did bear any relationship to the configuration of the stars in that group or division, but which did or is supposed to have reference to certain astronomical or other facts. Thus Libra =, the scales or balance, comes at the autumnal equinox when there is an equilibrium or balance between the length of day and night the world over. Aquarius =, the water-bearer, whose sign is the Egyptian sign for running water, comes at the season of greatest rains in Egypt, and so on.

Since the time when these divisions were made and named, owing to the precession of the equinoxes, resulting from the differing polar and equatorial diameters of the earth, the signs have moved back west nearly a whole division or constellation and where ♉ was the first, ♈ now is. Hence, though the sun now enters the sign ♉ March 20, it is a month later when he enters the constellation ♈. It must be apparent, therefore, that any supposed influence or relationship which early astrologers attributed to the position of the sun, moon or planets when in certain of these divisions can no longer exist, as the sign now only represents that space or division of the zodiac where the controlling constellation was 2,000 or more years ago, but is not now. Nevertheless, some almanacs still give the signs for the moon's place, which is very misleading to those who attempt to follow her in her course among the stars. Hence, this almanac gives the constellation and discards the ancient picture of the disembodying man as relics of the age of superstition. The sign is retained for sun's place in connection with the seasons and sun's path through the zodiac each month because of its relationship to the equinoxes and solstices.

TIME AND STANDARDS OF TIME.

Various kinds of time are in use in this country:

1. **Astronomical Time or Mean Solar Time**—This is reckoned from noon through the twenty-four hours of the day and is used mainly by astronomical observatories and in official astronomical publications. It is the legal time of the dominion of Canada, though "standard" and "mean" time are in general use there as in this country.

2. **Mean Local Time**—This is the kind that was in almost universal use prior to the introduction of standard time. This time was based upon the time when the mean sun^{*} crosses the meridian, and the day begins at midnight. When divided into civil divisions—years, months, weeks, days, etc.—it is sometimes called civil time.

3. **Standard Time**—For the convenience of the railroads and business in general a standard of time was established by mutual agreement in 1883 and by this calculation trains are now run and local time is regulated. By this system the United States, extending from 65° to 125° west longitude, is divided into four time sections, each of 15° of longitude, exactly equivalent to one hour (7½° or 30m. on each side of a meridian), commencing with the 75th meridian. The first or eastern section includes all territory between the Atlantic coast and an irregular line drawn from Buffalo to Charleston, S. C., the latter city being

its southernmost point. The second or central section includes all the territory between this eastern line and another irregular line extending from Bismarck, N. D., to the mouth of the Rio Grande. The third or mountain section includes all the territory between the last named line and nearly the western borders of Idaho, Nevada and Arizona. The fourth or Pacific section includes all the territory of the United States between the boundary of the mountain section and the Pacific coast. Inside of each of these sections standard time is uniform and the time of each section differs from that next to it by exactly one hour, as shown on the map.

*Owing to the eccentricity of the earth's orbit and the inclination of the equator to the ecliptic, the apparent motion of the sun is retarded or accelerated according to the earth's place in its orbit. Hence, to take the actual sun as a guide would necessitate years, days and their subdivisions of unequal length. Therefore an imaginary or "mean sun" was invented. The difference between apparent and mean time is called the "equation of time" and may amount to a quarter of an hour in twenty-four hours. It is the difference between the figures in "Sun at noon mark" column in calendar and twelve hours. The figures on a correct sun dial give the apparent time.

STANDARDS OF TIME.

The following is the table of times, based upon the meridians used by the United States and Canada:

NAME OF TIME.	Degrees.	Central meridian from Greenwich.	Nearest place.
Intercolonial or Atlantic.....	60	4 hours west.....	About 34° degrees east of Halifax, N.S.
Eastern.....	75	5 hours west.....	Between New York and Philadelphia
Central.....	90	6 hours west.....	St. Louis and New Orleans.
Mountain.....	105	7 hours west.....	Denver, Col.
Pacific.....	120	8 hours west.....	1½° degrees east of Sacramento, Cal.
Sitka.....	135	9 hours west.....	¼ degree east of Sitka, Alaska.
Tahiti.....	150	10 hours west.....	¾ degree west of the island of Tahiti
Hawaii.....	157½	10 hrs. 31 min. west.	Near center of Molokai.

It is obvious that to express the time of rising and setting of the sun and moon in standard time would limit the usefulness of such data to the single point or place for which it was computed, while in mean time it is practically correct for places as widely separated as the width

of the continent, and persons having obtained the mean time by the rising or setting of the sun or moon may easily ascertain the correct standard time of any event by making use of the following table and map:

STANDARD TIME TABLE.

To obtain standard time, add or subtract the figures given to local time.

Gr. Haven, Mich.—Cent.....Sub. 13		

The heavy dotted lines show the arbitrary (standard) divisions of time in the United States. The plus and minus marks on either side of the meridian lines show whether it is necessary to add to or subtract from the mean time of points east or west of these lines to arrive at actual

standard time. Example: Chicago is $2\frac{1}{2}^\circ$ east of the 90th meridian; therefore Chicago local time is $2\frac{1}{2} \times 4 = 10$ to be subtracted from mean time = standard time, and for Boston standard (eastern) time, 16m. must be subtracted from mean time.

DIFFERENCE IN TIME.

When it is 12 o'clock noon Monday in New York, N. Y., or other places having eastern time, the corresponding time in the cities named below is:

Aden, Arabia.....	8:00 p. m.,	Monday
Amsterdam, Holland.....	5:20 p. m.,	Monday
Apia, Samoa.....	5:33 a. m.,	Tuesday
Berlin, Germany.....	5:53 p. m.,	Monday
Bern, Switzerland.....	5:29 p. m.,	Monday
Bombay, India.....	9:51 p. m.,	Monday
Bremen, Germany.....	5:33 p. m.,	Monday
Brussels, Belgium.....	5:17 p. m.,	Monday
Calcutta, India.....	10:53 p. m.,	Monday
Chicago, Ill.....	*11:00 a. m.,	Monday
Christiania, Norway.....	5:42 p. m.,	Monday
City of Mexico, Mexico.....	10:24 a. m.,	Monday
Colon, Panama.....	11:40 a. m.,	Monday
Constantinople, Turkey.....	6:56 p. m.,	Monday
Copenhagen, Denmark.....	5:40 p. m.,	Monday
Denver, Colorado.....	*10:00 a. m.,	Monday
Dublin, Ireland.....	4:34 p. m.,	Monday
Edinburgh, Scotland.....	4:47 p. m.,	Monday
Hamburg, Germany.....	5:10 p. m.,	Monday
Havana, Cuba.....	11:39 a. m.,	Monday
Havre, France.....	5:00 p. m.,	Monday
Hongkong, China.....	12:37 a. m.,	Tuesday
Honolulu, Hawaii.....	6:29 a. m.,	Monday

NOTE.—The place where "the day begins" or where dates are changed by navigators is at or near the 180th degree of longitude. Here an irregular line has been drawn from north to south which is called the "international date line." It is not straight because in case it

Lisbon, Portugal.....	5:00 p. m.,	Monday
Liverpool, England.....	4:48 p. m.,	Monday

WEIGHTS AND MEASURES USED IN THE UNITED STATES.

LONG MEASURE.		MARINERS' MEASURE.		LIQUID MEASURE.	
12 inches	= 1 foot.	6 feet	= 1 fathom.	4 gills	= 1 pint.
3 feet	= 1 yard.	120 fathoms	= 1 cable length.	2 pints	= 1 quart.
5½ yards	= 1 rod.	7½ cable lengths	= 1 statute mile.	4 quarts	= 1 gallon.
40 rods	= 1 furlong.	5,280 feet	= 1 nautical mile.	31½ gallons	= 1 barrel.
8 furlongs	= 1 mile.	6,080 feet	= 1 marine league.	2 barrels	= 1 hogshead.
SQUARE MEASURE.		CUBIC MEASURE.		DRY MEASURE.	
144 square inches	= 1 square foot.	1,728 cubic inches	= 1 cubic foot.	2 pints	= 1 quart.
9 square feet	= 1 square rod.	27 cubic feet	= 1 cubic yard.	8 quarts	= 1 peck.
30¼ square yards	= 1 square rod.	128 cubic feet	= 1 cord of wood or stone.	4 pecks	= 1 bushel.
160 square rods	= 1 acre.	1 gallon contains	231 cubic inches.		
640 acres	= 1 square mile.	1 bushel contains	2,150.4 cubic inches.		
36 square miles	= 1 township.	A cord of wood is 8 ft. long, 4 ft. wide & 4 ft. high.			
CIRCULAR MEASURE.		APOTHECARIES' WEIGHT.		AVOIRDUPOIS WEIGHT.	
60 seconds	= 1 minute.	20 grains	= 1 scruple	27 11-32 grains	= 1 dram.
60 minutes	= 1 degree.	3 scruples	= 1 dram.	16 drams	= 1 ounce.
360 degrees	= 1 circle.	8 drams	= 1 ounce.	16 ounces	= 1 pound.
1 degree	= 60 geographic miles.	12 ounces	= 1 pound.	2,000 lbs.	= 1 short ton.
1 geographic mile	= 1.1527 statute miles.			2,240 lbs.	= 1 long ton.
1 degree of the equator	= 69.124 statute miles.				
TROY WEIGHT.		TIME MEASURE.		CLOTH MEASURE.	
24 grains	= 1 penny-weight.	60 seconds	= 1 minute.	2½ inches	= 1 nail.
20 pennywts	= 1 ounce.	60 minutes	= 1 hour.	4 nails	= 1 quarter.
12 ounces	= 1 pound.	24 hours	= 1 day.	4 quarters	= 1 yard.
		365 days	= 1 year.		
		100 years	= 1 century.		
SURVEYORS' MEASURE.		COUNTING.		STATIONERS' TABLE.	
7.92 inches	= 1 link.	12 things	= 1 dozen.	24 sheets	= 1 quire.
25 links	= 1 rod.	12 dozen	= 1 gross.	20 quires	= 1 ream.
4 rods	= 1 chain.	12 gross	= 1 great gross.	2 reams	= 1 bundle.
10 chains	= 1 furlong.	20 things	= 1 score.	5 bundles	= 1 bale.
8 furlongs	= 1 mile.				
				SIZES OF BOOKS.	
					Pages. Leaves. Sheet.
				Folio.....	4 2 1
				Quarto (4to).....	8 4 1
				Octavo (8vo.).....	16 8 1
				Duodecimo (12mo.).....	24 12 1
				Octodecimo (18mo.).....	36 18 1

THE METRIC SYSTEM.

The metric system is in general use in all the principal nations of Europe and America with the exception of Great Britain, Russia and the United States, where it is authorized but not compulsory. Its use for scientific purposes is common throughout the world.

WEIGHTS.

Milligram (.001 gram)	= .00154 grain.
Centigram (.01 gram)	= .1543 grain.
Decigram (.1 gram)	= 1.5432 grains.
Gram	= 15.432 grains.
Decagram (10 grams)	= .3527 ounce.
Hectogram (100 grams)	= 3.5274 ounces.
Kilogram (1,000 grams)	= 2.2046 pounds.
Myriagram (10,000 grams)	= 22.046 pounds.
Quintal (100,000 grams)	= 220.46 pounds.
Millier or tonneau-ton (1,000,000 grams)	= 2,204.6 lbs.

DRY.

Milliliter (.001 liter)	= .061 cubic inch.
Centiliter (.01 liter)	= .6102 cubic inch.
Deciliter (.1 liter)	= 6.1022 cubic inches.
Liter	= .908 quart.
Decaliter (10 liters)	= 9.08 quarts.
Hectoliter (100 liters)	= 2.38 bushels.
Kiloliter (1,000 liters)	= 1.308 cubic yards.

LIQUID.

Milliliter (.001 liter)	= .0388 fluid ounce.
Centiliter (.01 liter)	= .388 fluid ounce.
Deciliter (.1 liter)	= .845 gill.
Liter	= 1.0567 quarts.
Decaliter (10 liters)	= 2.6418 gallons.
Hectoliter (100 liters)	= 26.417 gallons.
Kiloliter (1,000 liters)	= 264.18 gallons.

LENGTH.

Millimeter (.001 meter)	= .0394 inch.
Centimeter (.01 meter)	= .3937 inch.
Decimeter (.1 meter)	= 3.937 inches.
Meter	= 39.37 inches.
Decameter (10 meters)	= 39.37 inches.
Hectometer (100 meters)	= 328 feet 10 inches.
Kilometer (1,000 meters)	= 6,213.7 miles (3,280 ft. 10 inches).
Myriameter (10,000 meters)	= 6,213.7 miles.

SURFACE.

Centare (1 square meter)	= 1.55 sq. inches.
Are (100 square meters)	= 119.6 sq. yards.
Hectare (10,000 sq. meters)	= 2.471 acres.

METRIC EQUIVALENTS.

1 gram	= 0.035480 grain.
1 ounce	= 28.3495 grams.

1 pound	= 0.45359 kilogram.
1 dram (apoth.)	= 3.6967 grams.
1 scruple (apoth.)	= 1.2322 grams.
1 quart (dry)	= 1.1012 liters.
1 peck (dry)	= 8.8088 liters.
1 bushel	= 0.35239 hectoliter.
1 quart (liq.)	= 0.94636 liter.
1 gallon	= 3.78543 liters.
1 inch	= 25.401 millimeters.
1 inch	= 2.5401 centimeters.
1 foot	= 0.0254 meter.
1 yard	= 0.9144 meter.
1 mile	= 1.6093 kilometers.
1 sq. inch	= 645.16 sq. millimeters.
1 sq. foot	= 0.0929 sq. meter.
1 sq. yard	= 0.8361 sq. meter.
1 sq. mile	= 2.5899 sq. kilometers.
1 acre	= 0.4047 hectare.
1 cubic inch	= 16.387 cubic millimeters.
1 cubic foot	= 0.02832 cubic meter.
1 cubic yard	= 0.7645 cubic meter.

ELECTRICAL UNITS DEFINED.

Ohm—Unit of resistance; represents resistance offered to an unvarying electric current by a column of mercury at the temperature of ice, 14,5421 grams in mass, of a cross-sectional area of 1.00003 square millimeters and of the length of 106.3 centimeters.

Ampere—Unit of current; decomposes .0009324 of a gram of water in one second or deposits silver at the rate of .00118 of a gram per second, when passed through a solution of nitrate of silver in water.

Volt—Unit of electromotive force; one volt equals one ampere of current passing through a substance having one ohm of resistance.

Coulomb—Unit of quantity; amount of electricity transferred by a current of one ampere in one second.

Farad—Unit of capacity; capacity of a condenser charged to a potential of one volt by one coulomb. A microfarad is one-millionth of a farad.

Joule—Unit of work; equivalent to energy expended in one second by one ampere current in one ohm resistance.

Watt—Unit of power; equivalent to work done at the rate of one joule per second. A kilowatt is 1,000 watts.

LINCOLN MEMORIAL COMMISSION.

Chairman—William Howard Taft, New Haven, Conn.

Joseph G. Cannon, Danville, Ill.

George P. Wetmore, Newport, R. I.

Samuel W. McCall, Winchester, Mass.

Speaker Champ Clark, Washington, D. C.

Senator Thomas S. Martin, Washington, D. C.

Joseph C. S. Blackburn, Versailles, Ky.

Special Resident Commissioner—Joseph C. S. Blackburn.

Secretary—Henry A. Vale, 2415 20th street, Washington, D. C.

Executive and Disbursing Officer—Col. William W. Harts, U. S. A.

The Lincoln memorial commission was created by an act of congress approved Feb. 9, 1911, to devise and construct a memorial of Abraham Lincoln in the city of Washington, D. C. A design submitted by Henry Bacon, a New York architect, was formally accepted by congress Feb. 9, 1912. The memorial, which will stand in Potomac park, is to be a colonnaded edifice containing a statue of Abraham Lincoln, a memorial of the Gettysburg speech, a memorial of the second inaugural address and a symbol of the union of the states. Its cost is limited to \$2,000,000. Ground was broken Feb. 12, 1914. The salary of the special resident commissioner is \$5,000 a year.

WEATHER FORECASTS AND SIGNALS.

The operations of the weather bureau of the department of agriculture are based on observations of the weather taken at about 200 observatories throughout the United States at the same moment of time and telegraphed daily to Washington, D. C., and to other important cities. These observations, comprising barometric pressure, temperature, precipitation, winds and clouds, are entered upon outline charts of the United States by means of symbols, forming the "daily weather map," from which the forecasts are made. These forecasts are issued every day for every state in the union, and whenever necessary special warnings are sent out of storms,

frosts, cold waves, heavy snows and floods. In addition to the main office in Washington, there are subordinate forecast centers in Chicago, New Orleans, Denver, San Francisco and Portland, Ore. Weather forecasts for a week in advance are now sent out from Washington.

The forecasts are first telegraphed to about 2,300 principal distributing points, whence they are further disseminated by telegraph, telephone and through the mail by means of forecast cards, rural free delivery slips and newspapers.

It is estimated that the total number of persons in the United States to whom the weather forecasts are available is more than 4,000,000.

No. 1. White flag.	No. 2. Blue flag.	No. 3 White and blue flag.	No. 4. Black triangu- lar flag.	No. 5. White flag with black square in center.
				
Clear or fair weather.	Rain or snow.	Local rain or snow.	Temperature.	Cold wave.

WEATHER FLAGS.

When No. 4 is placed above No. 1, 2 or 3 it indicates warmer; when below, colder; when not displayed, the temperature is expected to remain

about stationary. During the late spring and early fall the cold-wave flag is used to indicate anticipated frosts.

Small craft. Northwest winds. Southwest winds. Northeast winds. Southeast winds. "Hurricane" signal.

STORM-WARNING FLAGS.

Small craft warning—A red pennant indicates that moderately strong winds are expected.

Storm warnings—A red flag with a black center indicates that a storm of marked violence is expected. The pennants displayed with the flags indicate the direction of the wind: Red, easterly; white, westerly (from southwest to north). The pennant above the flag indicates that the wind is expected to blow from the northerly quadrants; below, from southerly quadrants.

By night a red light indicates easterly winds and a white light above a red light westerly winds. Two red flags, with black centers, displayed one above the other, indicate the expected approach of tropical hurricanes, and also of those extremely severe and dangerous storms which occasionally move across the lakes and northern Atlantic coast. Hurricane warnings are not displayed at night.

ABBREVIATIONS OF TITLES, DEGREES, ETC.

Following is a list of some of the more common abbreviations used after the names of persons to designate title, rank, degree, membership in societies, orders or public bodies, etc.:

- A. R. A.—Associate of the Royal Academy.
- B. A.—Bachelor of Arts.
- Bart.—Baronet.
- B. D.—Bachelor of Divinity.
- B. Sc.—Bachelor of Science.
- C. B.—Companion of the Bath.
- C. E.—Civil Engineer.
- C. I. E.—Companion of Order of Indian Empire.
- C. J.—Chief Justice.
- C. M. G.—Companion of Order of St. Michael and St. George.
- C. V. O.—Companion of Victorian Order.
- D. D.—Doctor of Divinity.
- D. Sc.—Doctor of Science.
- D. S. O.—Distinguished Service Order.
- F. R. G. S.—Fellow of the Royal Geographical Society.
- F. R. S.—Fellow of the Royal Society.
- J. P.—Justice of the Peace.
- K. C.—King's Counsel.
- K. C. B.—Knight Commander of the Bath.

- K. C. M. G.—Knight Commander of Order of St. Michael and St. George.
- K. C. V. O.—Knight Commander of the Victorian Order.
- K. G.—Knight of the Garter.
- L. H. D.—Doctor of Humanities.
- L.L. B.—Bachelor of Laws.
- L.L. D.—Doctor of Laws.
- Litt. D.—Doctor of Literature.
- M. A.—Master of Arts.
- M. C.—Member of Congress.
- M. D.—Doctor of Medicine.
- M. P.—Member of Parliament.
- M. V. O.—Member of the Victorian Order.
- N. A.—National Academician.
- O. M.—Order of Merit.
- P. C.—Privy Councillor.
- Ph. D.—Doctor of Philosophy.
- R. A.—Royal Academician.
- S. J.—Society of Jesus.
- S. T. D.—Doctor of Sacred Theology.
- U. S. A.—United States Army.
- U. S. N.—United States Navy.
- V. C.—Victoria Cross.

THERMOMETERS COMPARED.

There are three kinds of thermometers, with varying scales, in general use throughout the world—the Fahrenheit, Reaumur and centigrade. The freezing and boiling points on their scales compare as follows:

Thermometer.	Freezing pt.	Boiling pt.
Fahrenheit	32 degrees	212 degrees
Reaumur	zero	80 degrees
Centigrade	zero	100 degrees

The degrees on one scale are reduced to their equivalents on another by these formulas:

Fahrenheit to Reaumur—Subtract 32, multiply by four-ninths.
 Fahrenheit to Centigrade—Subtract 32, multiply by five-ninths.
 Reaumur to Fahrenheit—Multiply by nine-fourths, add 32.
 Reaumur to Centigrade—Multiply by five-fourths.
 Centigrade to Fahrenheit—Multiply by nine-fifths, add 32.
 Centigrade to Reaumur—Multiply by four-fifths.

COMPARATIVE SCALES.

TELEGRAPH SYSTEMS OF THE UNITED STATES.

[From reports of federal census bureau.]

The figures are for the year ending Dec. 31, 1912, and cover commercial operating companies only.

LAND TELEGRAPH SYSTEMS.

Number of companies or systems.....	22
Miles of pole line.....	*247,528
Miles of single wire owned and leased	†1,814,196
Number of messages.....	†103,536,418
Number of telegraph offices.....	30,781
Income, total.....	\$56,293,469
Telegraph traffic.....	\$52,337,211
All other sources.....	\$3,956,258
Net income for the year.....	\$53,381,044
Expenses, total.....	\$52,862,425
General operation and maintenance.....	\$39,067,011
Interest and taxes.....	\$2,740,827
All other expenses.....	\$11,054,587
Assets, total.....	\$191,516,700
Construction and equipment.....	\$143,910,631
Stocks and bonds.....	\$17,122,592
Cash and current assets.....	\$29,672,528
Profit and loss deficit.....	\$810,949
Liabilities, total.....	\$191,516,700
Capital stock.....	\$194,274,435
Funded debt.....	\$34,741,000
Reserves.....	\$5,254,329
Accounts payable.....	\$12,175,433
Dividends, taxes and interest.....	\$1,460,738
Sundries.....	\$23,447,146
Profit and loss surplus.....	\$10,163,619
Net surplus.....	\$9,362,670
Capitalization—Stock outstanding, par value.....	\$104,274,435
Dividends on stock.....	\$3,139,861
Funded debt.....	\$34,741,000
Average number employes.....	35,639
Salaries and wages.....	\$23,797,980

*Exclusive of pole line wholly used by railroads. †Does not include 22,816 nautical miles of ocean cable operated by one land telegraph company. Exclusive also of 314,329 miles of wire wholly owned and operated by railway companies for their own business. ‡Does not include land messages sent over its 207 miles of leased land wire by a wireless company, nor ocean cable messages. §Exclusive of ocean cable messages.

WIRELESS TELEGRAPH SYSTEMS.

Number of companies or systems.....	4
Number of messages.....	*235,091
Number of tower stations.....	74
Income, total.....	\$669,158

Net income.....	\$4,738
Expenses, total.....	\$664,420
General operations and maintenance.....	\$588,712
Interest and taxes.....	\$7,826
All other expenses.....	\$67,882
Assets, total.....	\$10,377,197
Construction and equipment.....	\$1,305,770
Cash and current assets.....	\$9,171,427
Liabilities, total.....	\$10,377,197
Capital stock.....	\$9,602,570
Floating debt and mortgages.....	\$18,483
Accounts payable.....	\$583,160
Profit and loss surplus.....	\$172,984
Capitalization—Stock outstanding, par value.....	\$9,602,570
Average number employes.....	958
Salaries and wages.....	\$393,606

*Includes 5,013 land messages sent over a leased land wire by a wireless company doing land telegraph business also.

OCEAN CABLE SYSTEMS (U. S.).

Number of companies or systems*.....	7
Nautical miles of ocean cable*.....	67,676
Number of messages*.....	†5,841,280
Income, total.....	\$8,469,374
Telegraph traffic.....	\$8,065,798
All other sources.....	\$403,576
Net income.....	\$2,962,847
Expenses, total.....	\$5,516,527
General operation.....	\$4,008,218
Interest and taxes.....	\$1,244,654
All other expenses.....	\$263,755
Assets, total.....	\$107,583,155
Construction and equipment.....	\$78,136,115
Stocks and bonds, treasury stock, etc.	\$16,811,087
Cash and current assets.....	\$12,635,953
Liabilities, total.....	\$107,583,155
Capital stock.....	\$55,489,400
Funded debt and reserves.....	\$43,549,451
Accounts payable.....	\$1,459,797
Dividends due and sundries.....	\$667,229
Profit and loss surplus.....	\$6,497,278
Capitalization—Stock outstanding, par value.....	\$55,489,400
Dividends on stock.....	\$3,040,200
Average number employes.....	1,656
Salaries and wages.....	\$1,167,014

*Includes returns for Western Union Telegraph company, but no segregation could be made of financial statistics or employes for the cable business of this company. †Number for one company estimated by company reporting.

	1902 1,512,527	1,053,866	1,996,024	493	
U't'd States...	1912 20,248,326	8,729,592	13,735,658	245	
	1907 12,999,364	6,118,578	10,400,433	958	
	1902 4,900,451	2,371,044	5,070,554	553	

*The number of messages reported by the Bell telephone system includes only completed calls, while the figures for all other companies may include some original calls not necessarily completed: such as calls that the operator reports as "Line busy" or "Does not answer." †Exclusive of companies with an annual income of less than \$5,000.

MAIL, TELEGRAPH AND TELEPHONE.

The following figures compare the telephone traffic with messages sent by mail or by telegraph in Europe and the United States in 1912. By mail is meant pieces of first class matter and by telephone the number of conversations:

Message.	Europe.		United States.	
	Number.	Pct.	Number.	Pct.
Mail	17,775,000,000	71.2	10,212,000,000	39.4
Telegrams	388,000,000	1.5	113,000,000	.4
Telephone	6,809,000,000	27.3	15,600,000,000	60.2
Total	24,972,000,000	100.0	25,925,000,000	100.0

Total 24,972,000,000 100.0 25,925,000,000 100.0

GREAT AMERICAN INVENTIONS IN LAST FIFTY YEARS.

[Compiled by Franklin K. Lane, secretary of the Interior.]

Invention, inventor and date.
 Telephone—Bell, 1876.
 Typewriter—Sholes, 1878.
 Cash register—Patterson, 1885.
 Incandescent lamp—Edison, 1880.
 Talking machine—Edison, 1878.
 Electric furnace reduction—Cowles, 1885.
 Electrolytic alkali production—Castner, 1890.
 Transparent photograph film—Eastman, 1888.
 Motion picture machine—Edison, 1893.
 Buttonhole sewing machine—Reece, 1881.
 Carborundum—Acheson, 1891.
 Calcium Carbide—Willson, 1888.
 Artificial graphite—Acheson, 1896.
 Split phase induction motor—Tesla, 1887.
 Air brake—Westinghouse, 1869.
 Electric welding—Thomson, 1889.
 Type bar casting—Mergenthaler, 1885.
 Chainstitch shoe sewing machine—French & Meyers, 1881.
 Single type composing machine—Lanston, 1887.
 Continuous process match machine—Beecher, 1888.
 Chrome tanning—Schulz, 1884.
 Disk plows (modern type)—Hardy, 1896.
 Welt machine—Goodyear, 1871.
 Electric lamp—Brush, 1879.
 Recording adding machine—Burroughs, 1888.
 Celluloid—Hyatt, 1870.
 Automatic knot tying harvester machine—Appleby, 1880.
 Water gas—Lowe, 1875.

	1914.	1915.
Number connected stations....	2,855,985	2,995,321
Total stations.....	3,648,993	9,151,221
Employees	142,527	156,294
Exchange connections daily....	27,049,225	25,183,799
Toll connections daily.....	798,949	819,030

COMBINED BALANCE SHEETS.

	1907.	1915.

IMPORTANT FOREIGN INVENTIONS.

Electric steel—Heroult, France, 1900.
 Dynamite—Nobel, Sweden, 1867.
 Artificial alizarine (dye)—Grabe and Lieberman, Germany, 1869.
 Siphon recorder—Thompson, England, 1874.
 Gas engine, Otto cycle—Otto, Germany, 1877.
 Wireless telegraphy—Marconi, Italy, 1900.
 Smokeless powder—Vielle, France, 1886.
 Diesel oil motor—Diesel, Germany, 1900.
 Centrifugal creamer—De Laval, Sweden, 1880.
 Manganese steel—Hadfield, England, 1884.
 Electric transformer—Gaulard and Gibbs, England, 1883.
 Cyanide process for extracting metal—Arthur and De Forrest, 1888.
 Mantle burner—Welsbach, Austria, 1890.
 By-product coke oven—Hoffman, Austria, 1893.
 X-rays—Roentgen, Germany, 1896.

SHIPPING DATA.

[Compiled by Charles H. Hughes.]

SHIPPING MEASURE.

One register ton=100 cubic feet.
 One United States shipping ton=40 cubic feet or 32.14 United States bushels or 31.16 imperial bushels.
 One British shipping ton=42 cubic feet or 32.72 imperial bushels or 33.75 United States bushels.

MARINER'S MEASURE.

6 feet=1 fathom.
 120 fathoms=1 cable length.
 5,280 feet=1 statute or land mile.
 6,080 feet=1 knot or nautical mile.
 3 knots=1 league.

CIRCULAR MEASURE.

60 seconds=1 minute.
 60 minutes=1 degree.
 90 degrees=1 quadrant.
 4 quadrants or 360 degrees=1 circumference.

SHIPPING WEIGHT

16 ounces=1 pound.
 112 pounds=One hundredweight.
 20 hundredweight or 2,240 pounds=1 ton.

Corn (on cob).....	70	One gallon of crude	
Malt.....	34	oil.....	8½
Onions.....	57		

STORAGE SPACE REQUIRED FOR DIFFERENT MATERIALS.

Example—A steamer has a capacity of 180,000 cubic feet for carrying coal. How many tons will she carry?

From the table, average American coal stows 43 cubic feet per ton of 2,240 pounds, so 180,000÷43=4,186 tons—the number she would carry.

Note—The following table is based on a ton of 2,240 pounds. If the cubic feet per ton of 2,000 pounds is required, multiply the figures given by .892.

DEFINITIONS.

Displacement is the amount of water displaced by a vessel. If a vessel is floating in equilibrium in still water, the weight of the water she displaces equals the weight of the vessel herself with everything on board.

The displacement in cubic feet when floating in salt water divided by 35 (36 if in fresh water) gives the total weight of a ship and her cargo in tons, as 35 cubic feet of salt water weighs one ton (2,240 pounds) and 36 of fresh water the same amount.

The displacement of a steel vessel is calculated to the molded lines (that is to the outside of the frames) and no allowance is made as a rule for the thickness of the shell plating. For wooden vessels (motor boats, tugs, lighters, etc.) the displacement is calculated to the outside of the planking.

Dead weight is the carrying capacity of a vessel and includes the tons of cargo and coal.

Register ton measurement is the measurement based on a ton of 2,240 pounds occupying 100 cubic feet.

Gross tonnage is the measurement in register tons of the interior capacity of the entire ship.

Net tonnage is the measurement in register tons upon which payment is made, and is the volume of the space available for cargo and passengers.

Block coefficient is the ratio of the volume of the displacement to the volume of a block having the same length, breadth and draft as the vessel. Cargo vessels have block coefficients ranging from .75 to .85, while fast passenger steamers have block coefficients of about .65.

If the length, width and draft of a vessel are multiplied by the block coefficient and this product divided by the weight of water per ton (36 cubic feet for fresh and 35 for salt water per ton of 2,240 pounds) the displacement of the vessel will be obtained.

SHIPPING TERMS.

f. o. b. steamer (free on board steamer); goods to be delivered on board steamer by seller at no extra charge to purchaser.

f. a. s. steamer (free at side steamer); goods to be delivered at side of steamer by seller.

f. l. a. steamer (free from alongside steamer); the seller pays lighterage charges in the port of destination from the steamer.

c. i. f. (cost, insurance and freight); the goods are delivered to the purchaser with the insurance and freight paid by the seller.

c. f. (cost and freight); the goods are delivered to the purchaser with the freight paid by the seller, but no insurance.

f. o. (free over side); the goods are delivered over the side of a vessel; that is, to a lighter or on to a pier, without any extra charge to the purchaser.

Bill of lading (b. l.) is a receipt for goods delivered to a carrier for transportation. The bills of lading of some steamship companies contain the following clause: "Freight is to be considered earned at time of receipt of shipment and is to be paid whether vessel or goods are lost or not." In foreign trade bills of lading are generally made out in triplicate, one for the shipper, one for the consignee and one for the captain of the vessel.

"With exchange" on a draft means that the party on whom the draft is drawn is to pay the cost of collection.

Demurrage—A charge for delay in loading or unloading a vessel.

Lay days are the days agreed upon by the shipper and captain or agent of a vessel for loading and discharging a cargo, beyond which a demurrage will be paid to the owners of the vessel. Sundays and legal holidays do not count unless the term "running days" is inserted, in which case all days are included.

Manifest—A document signed by the captain of a vessel containing a list of the goods and merchandise on board with their destination, for the use of the custom house officials. By United States Revised Statutes 2807 it is required to contain the names of the ports of loading and destination, a description of the vessel and her port, names of owners and master, names of consignees and of passengers and lists of the passenger's baggage and of the sea stores.

Clearance papers—When ready for sea the custom officials must be provided with a detail manifest of the ship's cargo. If the port charges have been paid and her cargo is properly accounted for, then the collector of the port will furnish the captain with clearance papers, without which the vessel must not leave port.

Drawback—A refund of duties paid on imported material that is used in the manufacture of goods that are exported. The United States government allows the exporter the import duty paid, less 1 per cent.

Salvage—The reward granted by law for saving life and property at sea.

Jettison—The throwing overboard of a part of

the cargo or any article on board of a ship for the purpose of lightening the ship in case of necessity.

Bill of health—A certificate stating that the vessel comes from a port where no contagious disease prevails, and that none of the passengers (if carried) nor the crew at the time of departure was infected with any disease.

MARINE INSURANCE.

A contract of marine insurance is a contract of indemnity whereby the insurer undertakes to indemnify the insured in the manner and to the extent agreed against marine losses; i. e., the losses incident to marine adventure.

Unless specially mentioned in the policy, goods are not insured until they are on board of the vessel which is to carry them. Below are brief outlines of clauses and terms occurring in policies.

General average—Suppose a vessel springs a leak and to save her from sinking the captain throws overboard a portion of her cargo. The last shipment loaded on board is generally the first to come out.

If the shipment is fully insured the underwriters will pay the amount assessed against the goods, but whether the goods are insured or not the general average will make good to the owner the value of the goods which were jettisoned less the assessment which the owner is called upon to pay. It is safe to figure that all policies of insurance on goods cover and protect the merchant against assessments in general average.

Thus a merchant can suffer considerable loss by reason of assessment levied against his goods in general average, although the goods arrive at their destination in a perfectly sound condition—but such losses can be fully covered by insurance.

Free of particular average (f. p. a.)—Under American conditions it is understood that no claim for partial loss or damage will be allowed by the underwriters unless the loss or damage is caused by the vessel's having been burned, stranded, sunk or in collision.

With average (w. a.)—This means that no claim will be made on the underwriters for partial loss caused by sea perils unless the damage amounts to 5 per cent or more of the value of the shipment.

Free of all average (f. a. a.)—This, as the clause signifies, means free of all average.

Collision or ruling or running down clause (r. d. c.)—This is a clause in which the underwriters take a burden of a proportion, usually three-quarters, of the damage inflicted on other vessels by collision for which the insured vessel is held to blame. Sometimes this clause is extended to cover the whole of the assured's liabilities arising out of the damage done to property by the collision of the insured vessel with another and the clause is then known as the "four-fourths running down clause."

Inchamsee clause—This clause covers loss of or damage to hull and machinery through the negligence of master, mariners, engineers and pilots, or through explosions, bursting of boilers, breakage of shafts or through any latent defect in the machinery or hull, provided such loss or damage has not resulted from want of due diligence by the owners of the ship or by the manager.

*Returns not complete. †Returns not available. European war would last three years led to an exceptional development of shipbuilding by the

maritime powers not actively engaged in war. In the first six months of 1916 the United States launched and put into operation 192 ships of 228,016 gross tons (each over 100 tons)—more than the entire year's output for 1914 or 1915.

On July 1, 1916, private American shipyards were building or had on order 385 steel merchant ships of 1,225,784 gross tons, indicating a total output by the United States for the twelve months of 351 steel ships of 672,106 gross tons.

DISASTERS TO SHIPPING.

Expended for maintenance and repairs	5,027,752.71

*Fiscal year ended June 30.

FUNCTIONS AND DUTIES.

Under an act of congress approved Jan. 28, 1915, it was provided that in lieu of the then existing revenue cutter service and life saving service there should be established an organization to be known as the coast guard which was to constitute a part of the military forces of the United States, operating under the secretary of the navy in time of war and under the treasury department in time of peace. The revenue cutter service had existed since 1790, while the life saving service had its beginning in 1848, although it was not made into a separate establishment until June 18, 1878. The consolidation of the two services was completed in 1915. The coast guard being a part of the military forces of the government, the military system of the former revenue cutter service was utilized as a basis for the organization of the coast guard. The transfer of the personnel of the former life saving service to the coast guard was accomplished by issuing appointments as commissioned officers, warrant officers and petty officers to the district superintendents, keepers and No. 1 surfmen, respectively, and regularly enlisting the surfmen. The total authorized complement of warrant officers, petty officers and men is 3,886. The pay of the commissioned personnel, except for the grade of district superintendent, corresponds with the pay and allowances of like rank in the army. The pay of warrant officers and enlisted men remains the same as before the consolidation of the services. Warrant officers are appointed by the secretary of the treasury and hold their appointments during good behavior. Petty officers and other men are enlisted for periods of one year. Warrant and petty officers receive 10 per cent increase for every five years of service, not to exceed 40 per cent in all. Enlisted men receive an increase for each three years of continuous service up to and including fifteen years.

The authorized commissioned personnel of the coast guard is 255, divided into the following grades: One captain commandant, 6 senior captains, 31 captains, 37 first lieutenants, 42 second lieutenants, 42 third lieutenants, 1 engineer in chief, 6 captains of engineers, 28 first lieutenants of engineers, 22 second lieutenants of engineers, 24 third lieutenants of engineers, 2 constructors with rank of first lieutenant, 1 district superintendent with relative rank of captain, 3 district superintendents with relative rank of first lieutenant, 4 district superintendents with rela-

tive rank of second lieutenant, and 5 district superintendents with relative rank of third lieutenant. A coast guard academy is maintained in New London, Conn. June 30, 1915, there were seven cadets of the line and six cadets engineers at the academy. The school course extends over three years and embraces instruction in professional and academic subjects. Admission is by competitive examination and candidates must be not less than 18 nor more than 24 years of age. Candidates for the engineer corps must be not less than 21 nor more than 26 years of age.

By law the officers of the revenue cutter service rank as follows:

Captain commandant, with colonel in army and captain in navy.
 Senior captain and engineer in chief, with lieutenant-colonel in army and commander in the navy.
 Captain and captain of engineers, with major in army and lieutenant-commander in navy.
 First lieutenant and first lieutenant of engineers, with captain in army and senior lieutenant in navy.
 Second lieutenant and second lieutenant of engineers, with first lieutenant in army and junior lieutenant in navy.
 Third lieutenant and third lieutenant of engineers, with second lieutenant in army and ensign in navy.

DUTIES OF COAST GUARD.

In general the duties of the coast guard may be classified as follows:

1. Rendering assistance to vessels in distress and saving life and property.
2. Destruction or removal of wrecks, derelects and other floating dangers to navigation.
3. Extending medical aid to United States vessels engaged in deep sea fisheries.
4. Protection of the customs revenue.
5. Operating as a part of the navy in time of war or when the president shall direct.
6. Enforcement of law and regulations governing anchorage of vessels in navigable waters.
7. Enforcement of law relative to quarantine and neutrality.
8. Suppression of mutinies on merchant vessels.
9. Enforcement of navigation and other laws governing merchant vessels and motor boats.
10. Enforcement of law to provide for safety of life on navigable waters during regattas and marine parades.
11. Protection of game and the seal and other fisheries in Alaska, etc.
12. Enforcement of sponge fishing law.

In addition to the foregoing the services of the coast guard include many other things, such as warning vessels running into danger, medical and surgical aid to the sick and injured, recovery and burial of bodies cast up by the waters, extinguishing fires, maintenance of public order, acting as pilots in emergencies and furnishing transportation to other branches of the public service.

EQUIPMENT.

The equipment of the coast guard consists of twenty-four cruising cutters, eighteen harbor cutters and 259 coast stations. The stations are distributed as follows: First district (Maine and New Hampshire), 15; second district (Massachusetts), 32; third district (Rhode Island and Fishers island), 10; fourth district (Long island), 30; fifth district (New Jersey), 41; sixth district (coast between Delaware and Chesapeake bays), 19; seventh district (Virginia south of Chesapeake bay), 34; eighth district (South Carolina, Georgia and east coast of Florida), 9; ninth district (coast of United States on Gulf of Mexico), 8; tenth district (Lakes Erie and Ontario and Louisville, Ky.), 12; eleventh district (Lakes Huron and Superior), 19; twelfth district (Lake Michigan), 31; thirteenth district (California, Oregon, Washington and Nome, Alaska), 19.

Following are the names, dates of construction (in parentheses), chief dimensions, tonnage, arma-

ment, speed and headquarters of the vessels of the coast guard:

CRUISING CUTTERS.

Acushnet (1908)—Length, 152 feet; beam, 29 feet; draft, 13 feet 9 inches; displacement, 800 tons; two one-pounder guns; speed, 12½ knots; Woods Hole, Mass.

Algonquin (1898)—Length, 205 feet 6 inches; beam, 32 feet; draft, 13½ feet; displacement, 1,181 tons; four six-pounder guns; speed, 16 knots; San Juan, P. R.

Androscoogin (1908)—Length, 210 feet; beam, 35 feet 2 inches; draft, 17½ feet; displacement, 1,600 tons; four six-pounder guns; Portland, Me.

Apache (1891)—Length, 183 feet; beam, 29 feet; draft, 9 feet 3 inches; displacement, 700 tons; three three-pounder guns; Baltimore, Md.

Bear (1874)—Length, 193 feet; beam 23½ feet; draft, 18 feet 2 inches; displacement, 1,700 tons; speed, 8 knots; three six-pounder guns; San Diego, Cal.

Gresham (1897)—Length, 205½ feet; beam, 32 feet; draft, 12½ feet; displacement, 1,090 tons; speed, 17 knots; four six-pounder guns; Boston, Mass.

Itasca (1833)—Length, 189½ feet; beam, 32 feet; draft, 13 feet 10 inches; displacement, 980 tons; speed, 14½ knots; four six-pounder guns; practice ship.

McCulloch (1897)—Length, 219 feet; beam, 32 feet 6 inches; draft, 15 feet 11 inches; displacement, 1,400 tons; four six-pounder guns; San Francisco, Cal.

Manning (1897)—Length, 205 feet; beam, 32 feet; draft, 13 feet 9 inches; displacement, 1,150 tons; speed, 17 knots; four six-pounder guns; Astoria, Ore.

Miami (1912)—Length, 190 feet; beam, 32½ feet; draft, 14 feet 1 inch; displacement, 1,300 tons; three six-pounder guns; speed, 12½ knots; Key West, Fla.

Mohawk (1902)—Length, 205½ feet; beam, 32 feet; draft, 12 feet 7 inches; displacement, 1,150 tons; four six-pounder guns; New York, N. Y.

Morrill (1889)—Length 145 feet 3 inches; beam, 24 feet; draft, 9½ feet; displacement, 420 tons; one three-pounder gun; Detroit, Mich.

Onondaga (1898)—Length, 205½ feet; beam, 32 feet; draft, 13 feet 2 inches; displacement, 1,190 tons; four six-pounder guns; Norfolk, Va.

Ossipee (1915)—Length, 165 feet 10 inches; beam, 32 feet; draft, 11 feet 6 inches; displacement, 908 tons; four rapid-fire six-pounder guns; speed 12½ knots; Portland, Me.

Pamlico (1907)—Length, 158 feet; beam, 30 feet; draft, 5 feet 8 inches; displacement, 450 tons; two three-pounder guns; Newbern, N. C.

Seminole (1900)—Length, 188 feet; beam, 29½ feet; draft, 11 feet 8 inches; displacement, 845 tons; nominal speed, 16½ knots; four six-pounder guns; Wilmington, N. C.

Serrano (1908)—Length, 204 feet; beam, 34 feet; draft, 17 feet 3 inches; displacement, 1,445 tons; speed, 12½ knots; four six-pounder guns; used exclusively as a derelict destroyer; New York, N. Y.

Snomish (1907)—Length, 152 feet; beam, 29 feet; draft, 15 feet 5 inches; displacement, 880 tons; two one-pounder guns; used chiefly for life saving purposes on north Pacific coast; Port Angeles, Wash.

Tallapoosa (1915)—Length, 165 feet 10 inches; beam, 32 feet; draft, 11 feet 6 inches; displacement, 912 tons; speed, 12½ knots; oil burner; four rapid-fire six-pounders; Mobile, Ala.

Thetis (1881)—Length, 188½ feet; beam, 29 feet; draft, 17 feet 10 inches; displacement, 1,250 tons; three three-pounders; Honolulu, H. I.

Tuscarora (1902)—Length, 178 feet; beam, 30 feet; draft, 10 feet 11 inches; displacement, 740 tons; one three-pounder gun; Milwaukee, Wis.

Unaiga (1912)—Length, 190 feet; beam, 32½ feet; draft, 14 feet 1 inch; displacement, 1,180 tons; speed, 12½ knots; three six-pounder guns; Seattle, Wash.

Windom (1896)—Length, 170 feet 8 inches; beam, 27 feet; draft, 9½ feet; displacement, 670 tons; three three-pounder guns; Galveston, Tex.

Yamacraw (1909)—Length, 191 feet 8 inches; beam, 32½ feet; draft, 13 feet; displacement, 1,080 tons; four six-pounders; Savannah, Ga.

HARBOR CUTTERS AND LAUNCHES.

Alert (1907)—Launch; length, 61½ feet; Mobile, Ala.

Arcata (1903)—Tug; length, 85 feet; displacement, 140 tons; Port Townsend, Wash.

Calumet (1894)—Harbor boat; length, 94½ feet; displacement, 170 tons; New York, N. Y.

Davey (1908)—Harbor vessel; length, 92½ feet; displacement, 180 tons; New Orleans, La.

Golden Gate (1896)—Harbor vessel; length, 110 feet; displacement, 240 tons; San Francisco, Cal.

Guard (1914)—Harbor craft; length, 67½ feet; Mare Island navy yard.

Guide (1907)—Motor boat; length, 70 feet; New York, N. Y.

Guthrie (1895)—Harbor vessel; length, 88 feet; displacement, 150 tons; Baltimore, Md.

Hartley (1875)—Harbor vessel; length, 64½ feet; displacement, 65 tons; San Francisco, Cal.

Hudson (1893)—Harbor vessel; length, 96½ feet; displacement, 180 tons; New York, N. Y.

Mackinac (1903)—Harbor vessel; length, 110 feet; displacement, 240 tons; Sault Ste. Marie, Mich.

Manhattan (1873)—Harbor vessel; length, 102 feet; displacement, 145 tons; New York, N. Y.

Panrose (1883)—Launch; length, 67 feet; Pensacola, Fla.

Scout (1896)—Steam launch; length, 63 feet; Seattle, Wash.

Vigilant (1910)—Motor launch; length, 45 feet; Sault Ste. Marie, Mich.

Winnisimmet (1903)—Harbor vessel; length, 96½ feet; displacement, 180 tons; Boston, Mass.

Wissahickon (1904)—Harbor vessel; length, 96½ feet; displacement, 195 tons; Philadelphia, Pa.

STATION SHIP.

Colfax—Length, 179 feet 5 inches; beam, 25 feet; draft, 10 feet; displacement, 486 tons; used as station ship at service depot, Arundel Cove, Md.

AREAS OF OCEANS AND GREAT LAKES

Oceans—	Sq. miles.		Sq. miles.
Antarctic	5,731,350	Huron	23,800
Arctic	4,781,000	Michigan	22,450
Atlantic	34,891,400	Nyassa	12,000
Indian	17,084,000	Ontario	7,240
Pacific	67,699,630	Superior	31,200
Lakes—Baikal	13,000	Tanganyika	15,000
Chad	50,000	Victoria Nyanza	26,500
Erie	9,960	Winnipeg	9,000
Great Bear	10,000		
Great Slave	12,000		

AVERAGE DEPTH OF OCEANS AND SEAS.

	Feet.		Feet.
Antarctic	10,800	Caribbean	7,614
Arctic	5,160	China	402
Atlantic	12,200	Japan	7,320
Indian	11,136	Mediterranean	4,560
Pacific	12,960	Mexico, Gulf of	4,632
Baltic	122	North	300
Bering	900	Okhotsk	5,040

The mean depth of all the oceans and seas is estimated to be from 2 to 2½ miles.

MONEY SPENT FOR CHEWING GUM.

In the last ten years, according to figures compiled by the department of commerce, the United States has spent for the chicle used in the manufacture of chewing gum nearly \$35,000,000. The normal annual imports of chicle amount to 7,000,000 pounds, costing about \$2,500,000, to which are to be added American customs duties of

some \$750,000. Chicle is the dried milky juice of the sapodilla tree and it is imported chiefly from Mexico, British Honduras, Venezuela and the Central American republics. That imported from Canada comes from British possessions in the tropics.

THE PANAMA CANAL.

CANAL STATISTICS (OFFICIAL).

Length from deep water to deep water—50.5 miles.
 Length on land—46.5 miles.
 Length at summit level—31.7 miles.
 Bottom width of channel—Maximum, 1,000 feet;
 minimum (in Culebra cut), 300 feet.
 Depth—Minimum, 41 feet; maximum, 45 feet.
 Summit level—85 feet above mean tide.
 Locks in pairs—12.
 Locks, usable length—1,000 feet.
 Locks, usable width—110 feet.
 Gatun lake, area—164 square miles.
 Gatun lake, channel depth—85 to 45 feet.
 Concrete required—6,000,000 cubic yards.
 Time of transit through canal—10 to 12 hours.
 Time of passage through locks—3 hours.
 Length of relocated Panama railroad—46.2 miles.
 Canal Zone area—About 448 square miles.
 Canal Zone area owned by United States—About
 322 square miles.
 French buildings acquired—2,150.
 French buildings used—1,537.
 Value of utilized French equipment—\$1,000,000.
 Canal force, average at work—About 39,000.
 Estimated total cost of canal—\$375,000,000.

PANAMA CANAL OFFICIALS.*

EXECUTIVE DEPARTMENT.

Governor—Maj.-Gen. G. W. Goethals, U. S. A.
 Executive Secretary—C. A. McIlwaine.
 Chief Division of Civil Affairs—Crede H. Cal-
 houn.

*The Panama canal commission went out of
 existence April 1, 1914, and was succeeded by the
 permanent organization, with departments and
 officers as outlined above.

CHRONOLOGY.

First exploration of route 1527.
 Advocated by Humboldt 1803.
 Panama railroad built 1850-1855.
 Panama canal company formed by De Lesseps 1879.
 Work on canal begun Feb. 24, 1881.
 Canal company failed Dec. 11, 1888.

De Lesseps and others sentenced to prison for
 fraud Feb. 9, 1893.
 New French canal company formed October, 1894.
 De Lesseps died Dec. 7, 1894.
 Hay-Pauncefote treaty superseding the Clayton-
 Bulwer treaty signed Nov. 18, 1901; ratified by
 senate Dec. 16; ratified by Great Britain Jan.
 20, 1902.

Canal property offered to the United States for
 \$40,000,000 Jan. 9, 1902; accepted Feb. 16, 1903.
 Bill authorizing construction of canal passed by
 house of representatives Jan. 9, 1902; passed by
 senate June 19, 1902; approved June 23, 1902.
 Canal treaty with Colombia signed Jan. 22, 1903;
 ratified by Senate March 17, 1903; rejected by
 Colombia Aug. 12, 1903.

Revolution in Panama Nov. 3, 1903.
 Canal treaty with Panama negotiated Nov. 18,
 1903; ratified by republic of Panama Dec. 2, 1903;
 ratified by United States senate Feb. 23, 1904.
 Canal commissioners appointed Feb. 23, 1904.
 Papers transferring canal to the United States
 signed in Paris April 22, 1904.

Bill for government of Canal Zone passed by
 the senate April 15, 1904; passed by the house
 April 21; approved April 26.
 Canal property at Panama formally turned over
 to the United States commissioners May 4, 1904.
 Work begun by Americans May 4, 1904.

President outlines rules for the government of
 the Canal Zone and war department takes
 charge of the work May 9, 1904.

Gen. George W. Davis appointed first governor
 of Canal Zone May 9, 1904.
 John F. Wallace appointed chief engineer May
 10, 1904; resigned June 29, 1905.

Republic of Panama paid \$10,000,000 May 21, 1904.
 First payment on \$40,000,000 to French canal com-
 pany made May 24, 1904.

Lorin C. Collins appointed Supreme court judge
 for Canal Zone June 17, 1905.

New commission with Theodore P. Shonts as
 chairman named April 3, 1905; Shonts resigned
 March 4, 1907.

John F. Stevens appointed chief engineer June
 29, 1905; resigned Feb. 26, 1907.

Lieut.-Col. George W. Goethals appointed chief
 engineer Feb. 26, 1907.

Gatun dam finished, June 14, 1913.

Dry excavation completed, Sept. 10, 1913.

First vessel lifted through Gatun locks, Sept.
 26, 1913.

Gamboua dike blown up, Oct. 10, 1913.

First vessels pass through Miraflores locks, Oct.
 14, 1913.

Permanent organization of canal administration
 in effect April 1, 1914; Col. George W. Goethals
 first governor; existence of isthmian canal
 commission ended.

First freight barges go through canal from ocean
 to ocean May 14, 1914.

First steamship (the Cristobal) passes through
 canal Aug. 13, 1914.

Canal opened for general traffic Aug. 15, 1914.

Canal blocked by slides, September, 1915, to
 April, 1916.

DESCRIPTION OF CANAL.

The entire length of the Panama canal from
 deep water in the Atlantic to deep water in the
 Pacific is 50.5 miles. Its length on land is 46.5
 miles. In passing through the canal from the
 Atlantic to the Pacific a vessel enters a channel
 with a bottom width of 500 feet in Limon bay
 and follows this for about seven miles to Gatun,
 where it enters a series of three locks in flight
 and is lifted eighty-five feet to the level of the
 Gatun lake. It sails at full ocean speed through
 this lake. In a channel varying from 1,000
 to 500 feet in width, for a distance of about
 twenty-four miles, to Bas Obispo, where it en-
 ters the Culebra cut, which on April 23, 1915, was
 by executive order named the Gaillard cut in
 honor of Col. D. D. Gaillard, who died from
 disease contracted while a member of the isthmi-
 an canal commission. It sails through the cut
 a distance of about nine miles, in a channel
 with a bottom width of 300 feet, to Pedro Mi-
 guel. There it enters a lock and is lowered 30½
 feet to a small lake at an elevation of 54½
 feet above sea level, and sails through this for

about 1½ miles to Miraflores. There it enters two locks in series and is lowered to sea level, passing out into the Pacific through a channel 3½ miles in length, with a bottom width of 500 feet. The depth of the approach channel on the Atlantic side, where the tidal oscillation does not exceed 1½ feet, is 41 feet at mean tide, and on the Pacific side, where the maximum oscillation is 23 feet, the depth is 45 feet at mean tide.

GATUN DAM.

The Gatun dam, which forms Gatun lake by impounding the waters of the Chagres river and other streams, is nearly 1½ miles long measured on its crest, nearly half the wide in its base, about 400 feet wide at the water surface, about 100 feet wide at the top and its crest is at an elevation of 115 feet above mean sea level, or 30 feet above the normal level of the lake. The top and upstream slope are riprapped. The spillway is a concrete lined opening 1,200 feet long and 300 feet wide, cut through a hill of rock nearly in the center of the dam, the bottom of the opening being ten feet above sea level. It is fitted with gates and machinery for regulating the water level of the lake.

The water level of Gatun lake, extending through the Gaillard cut, is maintained at the south end by an earth dam connecting the locks at Pedro Miguel with the high ground to the westward, about 1,700 feet long, with its crest at an elevation of 105 feet above mean tide. A small lake between the locks at Pedro Miguel and Miraflores is formed by dams connecting the walls of Miraflores locks with the high ground on either side. The dam to the westward is of earth, about 2,700 feet long, having its crest about 15 feet above the water in Miraflores lake. The east dam is of concrete, about 500 feet long, and forms a spillway for Miraflores lake, with crest gates similar to those at the spillway of the Gatun dam.

GATUN LAKE.

Gatun lake covers an area of 164 square miles, with a depth in the ship channel varying from 85 to 45 feet. Throughout the first 16 miles from Gatun the width of the channel is 1,000 feet; then for 4 miles it is 800 feet and for 4 miles more 500 feet, when the entrance to Culebra cut, at Bas Obispo, is reached. The water level in the cut is that of the lake and the bottom width of the channel is 300 feet.

THE LOCKS.

There are twelve locks in the canal, all in duplicate: three pairs in flight at Gatun, with a combined lift of 85 feet; one pair at Pedro Miguel, with a lift of 30½ feet, and two pairs at Miraflores, with a combined lift of 54½ feet at mean tide. The dimensions of all are the same. The usable length of 1,000 feet and a usable width of 110 feet. Each lock is a chamber, with walls and floors of concrete and water tight gates at each end.

RULES FOR VESSELS.

Prior to sending a vessel through the Panama canal its owner or agent must make a deposit with the government to cover its canal expenses. Usually this deposit is made with an assistant United States treasurer. When the ship enters the harbor at either terminal port it is boarded by officers who examine its bill of health and clearance, see that its certificate of canal measurement is properly made out and ascertain what it needs in matters of fuel, supplies, extra men to handle the lines during the passage of the locks, etc. In all stages of its transit of the canal the vessel must have on board a government pilot. There is no charge for this service. As soon as the vessel starts on its transit of the canal the fact is telephoned to all the stations along the course so that there is exact knowledge at each station all the time of the status of the traffic. The course is equipped with all requisite signals and facilities for mooring, like sidings.

The transit of the canal requires about ten hours, of which approximately three hours are spent in the locks. In the sea level channels

and the Gaillard cut the speed is limited to six knots; through Gatun lake vessels may make ten, twelve and fifteen knots, according to the width of the channel. In the locks the vessels are under control of the lock-operating force. They are towed through the lock chambers by electric locomotives operating on tracks on the side walls. Six locomotives are used for the larger vessels, three on each wall. Two keep forward of the vessel, pulling and holding her head to the center of the chamber; two aft, holding the vessel in check, and two slightly forward amidships, which do most of the towing. Except in the locks towing is not required and vessels proceed under their power. Tug service for sailing ships is at the rate of \$15 per hour.

TOLLS.

On merchant vessels carrying passengers or cargo, \$1.20 per net vessel ton—each 100 cubic feet—of actual earning capacity.

On vessels in ballast without passengers or cargo, 40 per cent less than the rate of tolls for vessels with passengers or cargo.

Upon naval vessels other than transports, colliers, hospital ships and supply ships, 50 cents per displacement ton.

Upon army and navy transports, colliers, hospital ships and supply ships, \$1.20 per net ton, the vessels to be measured by the same rules as are employed in determining the net tonnage of merchant vessels.

LABOR FORCE.

June 21, 1916, the actual working force of the Panama canal was 19,527; of the Panama railroad, 3,621, and of contractors, 314, a total effective working force of 23,462; of these 19,970 were silver and 3,492 gold employees, the latter being composed almost exclusively of white Americans.

TRAFFIC STATISTICS.

Fiscal years ended June 30.

	1915.	1916.	*Per cent.
Number of vessels.....	1,088	787	72.3
Net tonnage	3,843,035	2,479,761	64.5
Tons of cargo.....	4,969,792	3,140,046	63.4
Tolls	\$4,343,383	\$2,399,830	55.3

*Per cent 1916 of 1915.

The canal was closed from the middle of September, 1915, to the middle of April, 1916, by slides. There were thus only five months of the fiscal year 1916 in which the canal was in normal operation.

During the fiscal year ending with the close of business on June 30, 1916, the total receipts from vessels passing through the canal were \$2,399,830.42. The total amount expended for the operation and maintenance of the canal during the same time was \$6,999,750.15. This left a deficit in the account of \$4,599,919.73. In other words, for every \$1 spent by the government for maintenance and operation it received back in tolls 34.23 cents. During the preceding fiscal year the tolls had exceeded the expenses by \$276,656.38, which represented a profit of .67 per cent on the expenditure for operation for maintenance alone, not counting anything for interest on the money invested or for depreciation of plant.

It is to be noted that more than half of the total spent for operation and maintenance in the fiscal year 1916 was for dredging in the Gaillard (formerly Culebra) cut, the sum spent for this purpose being \$3,513,350.06. The increased cost in this matter was due to the slides on both banks of the canal north of Gold and Contractors' hills, which caused the suspension of traffic and a great falling off in the tolls collected for the year.

The total toll collections from the beginning until July 1, 1916, amounted to \$6,787,832.79; by months the tolls collected in the fiscal year 1916 were: July, \$573,365.67; August, \$496,792.03; September, \$349,498.30; October and November, nothing; December, \$10,826; January, \$654.39; February, \$334; March, \$413.80; April, \$235,618.44; May, \$368,023.79; June, \$363,799.

The vessels passing through the canal in each direction during the fiscal year 1916 were distributed over the principal trade routes as follows:

ATLANTIC TO PACIFIC.

*Includes miscellaneous expenses.

NATIONALITY OF VESSELS USING CANAL.

The number of vessels of various nations passing through the canal from Aug. 15, 1914, to July 1, 1916, was as follows: From the Atlantic to the Pacific—American, 347; British, 413; Chilean, 32; Danish, 21; Dutch, 15; French, 2; Honduran, 3; Italian, 2; Japanese, 23; Nicaraguan, 1; Norwegian, 35; Panamanian, 6; Peruvian, 17; Russian, 6; Swedish, 12; total, 941. From the Pacific to the Atlantic—American, 362; British, 404; Chilean, 36; Danish, 21; Dutch, 6; French, 2; Honduran, 3; Italian, 1; Japanese, 7; Nicaraguan, 1; Norwegian, 51; Panamanian, 3; Peruvian, 16; Russian 1; Swedish, 19; Argentinian, 1; total, 934; the grand total of vessels passing through the canal in that period was 1,875.

CANAL ZONE.

The Canal Zone contains about 443 square miles. It begins at a point three marine miles from mean low water mark in each ocean and extends for five miles on each side of the center line of the route of the canal. It includes the group of islands in the Bay of Panama, named Perico, Naos, Culebra and Flamenco. The cities of Panama and Colon are excluded from the zone, but the United States has the right to enforce sanitary ordinances and maintain public order there in case the republic of Panama should not be able to do so.

PANAMA RAILROAD.

The Panama railroad and the steamships run in connection with it between New York and Colon are owned and operated by the United States government. It practically parallels the canal nearly the whole distance. It is 46½ miles long and runs between the cities of Colon and Panama.

NUMBER OF THE STARS.

According to the best astronomers the number of stars that can be seen by a person of average eyesight is only about 7,000. The number visible

through the telescope has been estimated by J. E. Gore at 70,000,000 and by Profs. Newcomb and Young at 100,000,000.

MINES AND QUARRIES IN THE UNITED STATES.

[From reports of census bureau, 1912 and 1913.]

In 1909 in the United States, exclusive of Alaska, Hawaii, Porto Rico and other outlying noncontiguous territory, 23,632 operators conducted 27,249 mines and quarries and 186,443 petroleum and natural gas wells. Of the operators 3,749 were engaged solely in development work upon which, in 1909, the sum of \$31,548,736 was expended. In Alaska in 1909 there were 673 operators, who employed 8,025 persons, in the mining industry. The total expenses of these operators amounted to \$13,220,200, while the capital invested was reported as \$47,749,164. The total value of products was \$16,933,427, of which amount \$16,327,752 consisted of gold and silver. In Hawaii and Porto Rico the total value of product for the eighteen operators reported was only \$26,414.

The total number of persons engaged in connection with producing mines, quarries and wells, as reported on Dec. 15, 1909, or nearest representative day, was 1,139,332, of whom wage earners numbered 1,065,283, proprietors and firm members 29,922 and salaried employes 44,127. In mines, quarries and wells for which development work only was carried on there was a total of 27,616 persons, of whom 21,499 were wage earners. Of the total number of persons, 1,166,948, employed in productive and nonproductive mines, 1,158,776 were men 16 years of age and over, and 8,173 were boys under 16 years of age. Distributed by sex, 1,162,840 were male and 4,108 female, the latter being employed in supervisory and clerical capacities.

The total capital invested in all mining enterprises on Dec. 31, 1909, as reported, was \$3,662,527,064, of which \$3,380,525,841 was invested in productive enterprises and \$282,001,223 in those in which development work only was carried on.

MINERAL PRODUCTION OF ALASKA.

The mineral production of Alaska in 1915 amounted in value to \$32,854,229, or \$13,788,563 more than in 1914 and far more than that of any previous annual output in the thirty-six years that mining has been carried on in the territory. The statistics for the year 1915 show that the value of the gold produced was \$16,702,144, copper \$15,139,129 and silver \$543,393. Tin, lead, antimony, marble, gypsum and a small

amount of petroleum and coal brought the total value of the mineral products to \$32,854,229. Since 1880 the territory has produced gold, silver, copper, tin and other minerals to the value of \$800,953,751. The gold production alone to the close of 1915 amounted to \$260,858,943, of which \$158,192,992 came from the placers and the remainder from lode deposits.

COPYRIGHT LAWS OF THE UNITED STATES.

The act to amend and consolidate the acts respecting copyright, in force July 1, 1909, as amended by the act approved Aug. 24, 1912, provides that any person entitled thereto, upon complying with the provisions of the law, shall have the exclusive right (a) to print, reprint, publish, copy and vend the copyrighted work; (b) to translate the copyrighted work or make any other version of it if it be a literary work; to dramatize it if it be a nondramatic work; to convert it into a novel or other nondramatic work if it be a drama; to arrange or adapt it if it be a musical work; to finish it if it be a model or design for a work of art; (c) to deliver or authorize the delivery of the copyrighted work if it be a lecture, sermon, address or similar production; (d) to perform the copyrighted work publicly if it be a drama or, if it be a dramatic work and not reproduced in copies for sale, to vend the manuscript or any record thereof; to make or to procure the making of any transcription or record thereof by which it may in any manner be exhibited, performed or produced, and to exhibit, perform or produce it in any manner whatsoever; (e) to perform the copyrighted work publicly for profit if it be a musical composition and for the purpose of public performance for profit and to make any arrangement or setting of it in any system of notation or any form of record in which the thought of an author may be read or reproduced.

So far as it secures copyright controlling the parts of instruments serving to reproduce mechanically the musical work the law includes only compositions published after the act went into effect; it does not include the works of a foreign author or composer unless the country of which he is a citizen or subject grants similar rights to American citizens. Whenever the owner of a musical copyright has used or permitted the use of the copyrighted work upon the part of instruments serving to reproduce mechanically the musical work, any other person may make a similar use of the work upon the payment to the owner of a royalty of 2 cents on each such part manufactured. The reproduction or rendition of a musical composition by or upon coin-operated machines shall not be deemed a public performance for profit unless a fee is charged for admission to the place where the reproduction occurs.

The works for which copyright may be secured include all the writings of an author.

The application for registration shall specify to which of the following classes the work in which copyright is claimed belongs:

- (a) Books, including composite and cyclopedic works, directories, gazetteers and other compilations.
- (b) Periodicals, including newspapers.
- (c) Lectures, sermons, addresses, prepared for oral delivery.
- (d) Dramatic or dramatic-musical compositions.
- (e) Musical compositions.
- (f) Maps.
- (g) Works of art; models or designs for works of art.
- (h) Reproductions of a work of art.
- (i) Drawings or plastic works of a scientific or technical character.
- (j) Photographs.
- (k) Prints and pictorial illustrations.
- (l) Motion picture photo plays.
- (m) Motion pictures other than photo plays.

These specifications do not, however, limit the subject matter of copyright as defined in the law nor does any error in classification invalidate the copyright protection secured.

Copyright extends to the work of a foreign author or proprietor only in case he is domiciled in the United States at the time of the first publication of his work or if the country of which he is a citizen grants similar copyright protection to citizens of the United States.

Any person entitled thereto by the law may secure copyright for his work by publication thereof with the notice of copyright required by the act, and such notice shall be affixed to each copy published or offered for sale in the United

States. Such person may obtain registration of his claim to copyright by complying with the provisions of the act, including the deposit of copies, whereupon the register of copyrights shall issue to him a certificate as provided for in the law. Copyright may also be had of the works of an author of which copies are not reproduced for sale by the deposit with claim of copyright of one complete copy, if it be a lecture or similar production, or a dramatic or musical composition; of a title and description, with one print taken from each scene or act, if the work be a motion picture photo play; of a photographic print if it be a photograph; of a title and description, with not less than two prints taken from different sections of a complete motion picture, if the work be a motion picture other than a photo play, or of a photograph or other identifying reproduction thereof if it be a work of art or a plastic work or drawing.

After copyright has been secured there must be deposited in the copyright office in Washington, D. C., two complete copies of the best edition thereof, which copies, if the work be a book or periodical, shall have been produced in accordance with the manufacturing provisions of the act, or if such work be a contribution to a periodical for which contribution special registration is requested one copy of the issue or issues containing such contribution. Failure to deposit the copies within a given time after notice from the register of copyrights makes the proprietor of the copyright liable to a fine of \$100 and twice the retail price of the work, and the copyright becomes void.

The text of all books and periodicals specified in paragraphs (a) and (b) above, except the original text of a book of foreign origin in a language other than English, must in order to secure protection be printed from type set within the limits of the United States, either by hand, machinery or other process, and the printing of the text and the binding of the books must also be done within the United States. An affidavit of such manufacture is required.

The notice of copyright required consists either of the word "copyright" or the abbreviation "copr.," accompanied by the name of the copyright proprietor, and if the work be a printed literary, musical or dramatic work, the notice must also include the year in which the copyright was secured by publication. In the case, however, of copies of works specified in paragraphs (f) to (k) inclusive (given above) the notice may consist of the letter C inclosed within a circle, accompanied by the initials, monogram, mark or symbol of the copyright proprietor, provided his name appears elsewhere on the copies. In the case of a book or other printed publication notice shall be applied on the title page or on the page immediately following, or if a periodical either upon the title page or upon the first page of text of each separate number or under the title heading; or if a musical work upon its title page or the first page of music.

Where the copyright proprietor has sought to comply with the law with respect to notice, the omission of such notice by mistake from a particular copy or copies shall not invalidate the copyright or prevent recovery for infringement against any person who, after actual notice of the copyright, begins an undertaking to infringe it, but shall prevent the recovery of damages against an innocent infringer who has been misled by the omission of the notice.

In the case of a book in English published abroad before publication in this country, the deposit in the copyright office within thirty days of one copy of the foreign edition, with a request for the reservation of the copyright, secures for the author or owner an ad interim copyright for thirty days after such deposit is made.

The copyright secured by the act endures for twenty-eight years from the date of the first publication. In the case of any posthumous work, periodical, encyclopedic or other composite work upon which the copyright was originally secured by the proprietor thereof, or of any work

copyrighted by a corporate body, or by an employer for whom such work is made for hire, the proprietor of such copyright shall be entitled to a renewal of the copyright in such work for the further term of twenty-eight years when application for such renewal shall have been made within one year prior to the expiration of the original term. In the case of any other copyrighted work, including a contribution by an individual author to a periodical or to a cyclopedic or other composite work when such contribution has been separately copyrighted, the author of such work, if living, or the heirs, executors or next of kin, if the author be dead, shall be entitled to a renewal of the copyright for a further term of twenty-eight years. In default of such application for renewal the copyright in any work shall end at the expiration of twenty-eight years.

If any person shall infringe the copyright in any work protected under the copyright laws of the United States, such person shall be liable:

(a) To an injunction restraining such infringement.

(b) To pay to the copyright proprietor such damages as the copyright proprietor may have suffered due to the infringement, as well as all the profits which the infringer shall have made from such infringement, and in proving profits the plaintiff shall be required to prove sales only and the defendant shall be required to prove every element of cost which he claims, or in lieu of actual damages or profits such damages as to the court shall appear to be just, and in assessing such damages the court may, in its discretion, allow the amounts as hereinafter stated (in numbered paragraphs), but in the case of a newspaper reproduction of a copyrighted photograph such damages shall not exceed the sum of \$200 nor be less than \$50, and such damages shall in no other case exceed the sum of \$250 and shall not be regarded as a penalty. In the case of the infringement of an undramatized or nondramatic work by means of motion pictures, where the infringer shows that he was not aware that he was infringing, the damages shall not exceed \$100; in the case of the infringement under like circumstances of a copyrighted dramatic or dramatico-musical work the entire sum recoverable shall not exceed \$5,000 nor be less than \$250.

1. In the case of a painting, statue or sculpture, \$10 for every infringing copy made or sold by or found in the possession of the infringer or his agents or employees.

2. In the case of any work enumerated in the list (given above) of works for which copyright may be asked, except a painting, statue or sculpture, \$1 for every infringing copy.

3. In the case of a lecture, sermon or address, \$50 for every infringing delivery.

4. In the case of dramatic or dramatico-musical or a choral or orchestral composition, \$100 for the first and \$50 for every subsequent infringing performance; in the case of other musical compositions, \$10 for every infringing performance.

(c) To deliver up on oath all articles alleged to infringe a copyright.

(d) To deliver up on oath for destruction all the infringing copies or devices, as well as all plates, molds, matrices or other means for making such infringing copies, as the court may order.

(e) Whenever the owner of a musical copyright has used or permitted the use of the copyrighted work upon the parts of musical instruments serving to reproduce mechanically the musical work, then in case of infringement by the unauthorized manufacture, use or sale of interchangeable parts, such as disks, rolls, bands or cylinders for use in mechanical music-producing machines, no criminal action shall be brought, but in a civil action an injunction may be granted upon such terms as the court may impose and the plaintiff shall be entitled to recover in lieu of profits and damages a royalty as provided in the act.

Any person who shall willfully and for profit infringe any copyright, or willfully aid or abet such infringement, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall

be punished by imprisonment for not exceeding one year or by a fine of not less than \$100 nor more than \$1,000, or both, in the discretion of the court. It is provided, however, that nothing in the act shall prevent the performance of religious or secular works, such as oratorios, cantatas, masses or octavo choruses by public schools, church choirs or vocal societies, provided the performance is for charitable or educational purposes and not for profit.

Any person who shall fraudulently place a copyright notice upon any copyrighted article, or shall fraudulently remove or alter the notice upon any copyrighted article, shall be deemed guilty of a misdemeanor and shall be subject to a fine of not less than \$100 nor more than \$1,000. Any person who shall knowingly sell or issue any article bearing a notice of United States copyright which has not been copyrighted in this country, or who shall knowingly import any article bearing such notice, shall be liable to a fine of \$100.

During the existence of the American copyright in any book the importation of any piratical copies thereof or of any copies not produced in accordance with the manufacturing provisions of the copyright law, or of any plates of the same not made from type set in this country, or any copies produced by lithographic or photo-engraving process not performed within the United States, is prohibited. Except as to piratical copies this does not apply:

(a) To works in raised characters for the blind;

(b) To a foreign newspaper or magazine, although containing matter copyrighted in the United States printed or reprinted by authority of the copyright owner, unless such newspaper or magazine contains also copyright matter printed without such authorization;

(c) To the authorized edition of a book in a foreign language of which only a translation into English has been copyrighted in this country;

(d) To any book published abroad with the authorization of the author or copyright proprietor under the following circumstances:

1. When imported, not more than one copy at a time, for individual use and not for sale, but such privilege of importation shall not extend to a foreign reprint of a book by an American author copyrighted in the United States;

2. When imported by or for the use of the United States;

3. When imported for use and not for sale, not more than one copy of any such book in any one invoice, in good faith, by or for any society or institution incorporated for educational, literary, philosophical, scientific or religious purposes, or for the encouragement of the fine arts, or for any college, academy, school or seminary of learning, or for any state school, college, university or free public library in the United States;

4. When such books form parts of libraries or collections purchased en bloc for the use of societies, institutions or libraries, or form parts of the library or personal baggage belonging to persons or families arriving from foreign countries and are not intended for sale.

No criminal actions shall be maintained under the copyright law unless the same be begun within three years after the cause of action arose.

Copyright may be assigned, mortgaged or bequeathed by will.

There shall be appointed by the librarian of congress a register of copyrights at a salary of \$4,000 a year and an assistant register at \$3,000 a year.

These with their subordinate assistants shall perform all the duties relating to the registration of copyrights. The register of copyrights shall keep such record books in the copyright office as are required to carry out the provisions of the law, and whenever deposit has been made in the copyright office of a copy of any work under the provisions of the act he shall make entry thereof.

In the case of each entry the person recorded as the claimant of the copyright shall be entitled to a certificate of registration under seal of the copyright office.

The register of copyrights shall receive and the persons to whom the services designated are rendered shall pay the following fees: For the registration of any work subject to copyright, \$1, which sum is to include a certificate of registration under seal: Provided, That in the case of photographs the fee shall be 50 cents where a certificate is not demanded. For every additional certificate of registration made, 50 cents. For recording and certifying any instrument of writing for the assignment of copyright or license, or for any copy of such certificate or license, duly certified, if not over 300 words in length, \$1; if more than 300 and less than 1,000, \$2; if more than 1,000 words in length, \$1 additional for each 1,000 words or fraction thereof over 300 words. For recording the notice of use or acquiescence specified in the act, 25 cents for each notice of not over fifty words and an additional

25 cents for each additional 100 words. For comparing any copy of an assignment with the record of such document in the copyright office and certifying the same under seal, \$1. For recording the extension or renewal of copyright, 50 cents. For recording the transfer of the proprietorship of copyrighted articles, 10 cents for each title of a book or other article in addition to the fee for recording the instrument of assignment. For any requested search of copyright office records, indexes or deposits, 50 cents for each full hour consumed in making such search. Only one registration at one fee shall be required in the case of several volumes of the same book deposited at the same time.

For copyright blanks and additional information as to copyright relations address the register of copyrights, library of congress, Washington, D. C.

PASTEURIZATION OF MILK.

The term "pasteurization," as applied to milk, should mean a process of heating to 145 degrees Fahrenheit and holding at that temperature for 30 minutes, but as applied under commercial conditions it is the process of heating for a short or long period, as the different methods demand, at temperatures usually between 140 and 185 degrees. The process is followed by rapid cooling. The term originated from the experiments of Louis Pasteur in France with wine and beer when, by means of heating, he prevented abnormal fermentation and souring.

When the process of pasteurization is properly performed it affords protection from disease breeding bacteria such as the tuberculosis, typhoid, diphtheria and dysentery bacillus. Such bacteria when heated at 140 degrees for 20 minutes or more lose their ability to produce disease. Pasteurization of milk is also reported to be a preventive of septic sore throat, scarlet fever and the foot and mouth disease.

There are three processes of pasteurization of milk used in the United States. The first is known as the flash or continuous process; the second as the holder or holding process, and the third as pasteurization in the bottle. The flash process consists in heating rapidly to the pasteurization temperature, then cooling quickly. The milk is heated from 30 seconds to 1 minute, usually at a temperature of 160 degrees or more. In the holder process the milk is heated rapidly to temperatures of 140 to 150 degrees and held for approximately 30 minutes, after which it is rapidly cooled.

Pasteurization in bottles may be done in two ways. One method is to put the raw milk into

bottles with water tight seal caps, then immersing them in hot water until heated to 145 degrees and holding them at that temperature for 20 or 30 minutes. The cooling is accomplished by lowering the temperature of the water until that of the milk reaches 50 degrees. The second method is the same except that instead of water tight caps devices are used which fit over the tops and necks of the bottles, thereby protecting the ordinary paper caps from the water which is sprayed on the bottles for the purpose of heating or cooling. A modification of the present holder process is that of bottling hot pasteurized milk. The milk is heated to 145 degrees for 30 minutes and put into bottles which have been steamed and heated for 2 minutes immediately before filling. After filling and capping with ordinary caps the bottles may be cooled at once by any of the systems in which the caps are protected. Low temperature pasteurization is declared to be the best from bacteriological, chemical and economical standpoints.

The cost of pasteurizing milk has been found to average three-tenths of a cent (\$.00313) a gallon. Pasteurization is of value from a commercial standpoint, as it increases the keeping quality of milk and prevents financial loss by souring. It does not prevent the ultimate souring of milk, but it does delay the process.

The foregoing facts are taken from a professional paper written by S. Henry Ayers, bacteriologist, dairy division, United States department of agriculture. It is entitled "The Present Status of the Pasteurization of Milk" and was published as bulletin No. 342 of the department Jan. 8, 1916.

DAYLIGHT SAVING SYSTEM ADOPTED.

The so called daylight saving plan by which the clocks are set forward one hour during the long days of summer was adopted by most of the countries in the north of Europe in 1916. The nations in which the system was put into effect included Britain, France, Germany, Italy, Holland, Norway, Sweden and Denmark. In England the law was operative from May 21 to Sept. 30; in France, from June 14 to Oct. 1; in Sweden, from May 15 to Sept. 30; Norway, from May 22 to Oct. 1; Germany, May 1 to Sept. 30, and in Italy from June 4 to Sept. 30.

In general the laws provide that factories, banks, stores, trains, theaters, restaurants and other industrial, financial and trade establish-

ments shall conform to the new schedule, beginning and closing their activities one hour earlier in the day than under the old system, though by the clock the time is the same. In the large cities in the united kingdom the parks were obliged to keep open one hour later than usual to give the people the benefit of more fresh air.

In the United States the daylight saving plan was adopted in some cases by individual firms and by a few municipalities, but chiefly on account of the great inconvenience it would cause to the railroads it was not generally favored. There was no national or state legislation on the subject.

FUEL BRIQUET INDUSTRY IN 1915.

More than \$1,000,000 worth of briquets were made out of waste coal dust in 1915, the exact production being 221,537 short tons valued at \$1,035,716. This was the largest output in the United States for any year with the exception of 1914. The manufacture of this type of fuel is, however, still in its infancy, and, according to C. E. Leshner of the United States geological

survey, a good many years will probably elapse before the briquet industry assumes very large proportions. The work of briquetting this low grade material and converting it into fuel suitable for higher uses is, however, practicable conservation and as such deserves far more attention than it now receives in this country.

APPLICATIONS FOR PATENTS.

[Condensed from Rules of Practice in the United States patent office.]

A patent may be obtained by any person who has invented or discovered any new and useful art, machine, manufacture or composition of matter, or any new and useful improvement thereof not previously patented or described in this or any other country, for more than two years prior to his application, unless the same is proved to have been abandoned. A patent may also be obtained for any new design for a manufacture, bust, statue, alto-relievo or bas-relief; for the printing of woolen, silk or other fabrics; for any new impression, ornament, pattern, print or picture to be placed on or woven into any article of manufacture; and for any new, useful and original shape or configuration of any article of manufacture, upon payment of fees and taking the other necessary steps.

Applications for patents must be in writing, in the English language and signed by the inventor if alive. The application must include the first fee of \$15, petition, specification and oath, and drawings, model or specimen when required. The petition must be addressed to the commissioner of patents and must give the name and full address of the applicant, must designate by title the invention sought to be patented, must contain a reference to the specification for a full disclosure of such invention and must be signed by the applicant.

The specification must contain the following in the order named: Name and residence of the applicant with title of invention; a general statement of the object and nature of the invention; a brief description of the several views of the drawings (if the invention admits of such illustration); a detailed description; claim or claims; signature of inventor and signatures of two witnesses. Claims for a machine and its product and claims for a machine and the process in the performance of which the machine is used must be presented in separate applications, but claims for a process and its product may be presented in the same application.

The applicant, if the inventor, must make oath or affirmation that he believes himself to be the first inventor or discoverer of that which he seeks to have patented. The oath or affirmation must also state of what country he is a citizen and where he resides. In every original application the applicant must swear or affirm that the invention has not been patented to himself or to others with his knowledge or consent in this or any foreign country for more than two years prior to his application, or on an application for a patent filed in any foreign country by himself or his legal representatives or assigns more than seven months prior to his application. If appli-

cation has been made in any foreign country, full and explicit details must be given. The oath or affirmation may be made before any one who is authorized by the laws of his country to administer oaths.

Drawings must be on white paper with india ink and the sheets must be exactly 10x15 inches in size, with a margin of one inch. They must show all details clearly and without the use of superfluous lines.

Applications for reissues must state why the original patent is believed to be defective and tell precisely how the errors were made. These applications must be accompanied by the original patent and an offer to surrender the same; or, if the original be lost, by an affidavit to that effect and certified copy of the patent. Every applicant whose claims have been twice rejected for the same reasons may appeal from the primary examiners to the examiners in chief upon the payment of a fee of \$10.

The duration of patents is for seventeen years except in the case of design patents, which may be for three and a half, seven or fourteen years, as the inventor may elect.

Schedule of fees and prices:

Original application.....	\$15.00
On issue of patent.....	20.00
Design patent (3½ years).....	10.00
Design patent (7 years).....	15.00
Design patent (14 years).....	30.00
Caveat	10.00
Reissue	30.00
First appeal.....	10.00
Second appeal.....	20.00

For certified copies of printed patents:

Specifications and drawing, per copy.....	\$0.05
Certificate	.25
Grant	.50
For manuscript copies of records, per 100 words	.10
If certified, for certificate.....	.25
Blue prints of drawings, 10x15, per copy....	.25
Blue prints of drawings, 7x11, per copy....	.15
Blue prints of drawings, 5x8, per copy.....	.05
For searching records of titles, per hour....	.50
For the Official Gazette, per year, in United States	5.00

REGISTRATION OF TRADE-MARKS.

Under the law passed by congress Feb. 20, 1905, and effective April 1, 1905, citizens of the United States, or foreigners living in countries affording similar privileges to citizens of the United States, may obtain registration of trade-marks used in commerce with foreign nations, or among the several states, or with Indian tribes, by complying with the following requirements: First, by filing in the patent office an application therefor in writing, addressed to the commissioner of patents, signed by the applicant, specifying his name, domicile, location and citizenship; the class of merchandise and the particular description of goods comprised in such class to which the trade-mark is appropriated; a statement of the mode in which the same is applied and affixed to goods, and the length of time during which the trade-mark has been used. With this statement shall be filed a drawing of the trade-mark, signed by the applicant or his attorney, and such number of specimens of the trade-mark as may be required by the commissioner of patents. Second, by paying into the treasury of the United States the sum of \$10 and otherwise complying with the require-

ments of the law and such regulations as may be prescribed by the commissioner of patents.

The application must be accompanied by a written declaration to the effect that the applicant believes himself to be the owner of the trade-mark sought to be registered and that no other person or corporation has the right to use it; that such trade-mark is in use and that the description and drawing presented are correct. Trade-marks consisting of or comprising immoral or scandalous matter, the coat of arms, flag or other insignia of the United States or of any state or foreign nation cannot be registered. Fees for renewal of trade-marks and for filing opposition to registration are \$10 each; for appeals from examiners to the commissioner of patents, \$15 each.

Further information may be had by applying to the commissioner of patents, Washington, D. C.

UNITED STATES CIVIL SERVICE.

Civil service act approved Jan. 16, 1883.

Officers—Three commissioners are appointed by the president to assist him in classifying the government offices and positions, formulating rules and enforcing the law. Their office is in Washington, D. C. The chief examiner is appointed by the commissioners to secure accuracy, uniformity and justice in the proceedings of the examining boards. The secretary to the commission is appointed by the president.

General Rules—The fundamental rules governing appointments to government positions are found in the civil service act itself. Based upon these are many other regulations formulated by the commission and promulgated by the president from time to time as new contingencies arise. The present rules were approved March 20, 1903, and went into effect April 15, 1903. In a general way they require that there must be free, open examinations of applicants for positions in the public service; that appointments shall be made from those graded highest in the examinations; that appointments to the service in Washington shall be apportioned among the states and territories according to population; that there shall be a period (six months) of probation before any absolute appointment is made; that no person in the public service is for that reason obliged to contribute to any political fund or is subject to dismissal for refusing to so contribute; that no person in the public service has any right to use his official authority or influence to coerce the political action of any person. Applicants for positions shall not be questioned as to their political or religious beliefs and no discrimination shall be exercised against or in favor of any applicant or employee on account of his religion or politics. The classified civil service shall include all officers and employees in the executive civil service of the United States except laborers and persons whose appointments are subject to confirmation by the senate.

Examinations—These are conducted by boards of examiners chosen from among persons in government employ and are held twice a year in all the states and territories at convenient places. In Illinois, for example, they are usually held at Cairo, Chicago and Peoria. The dates are announced through the newspapers or by other means. They can always be learned by applying to the commission or to the nearest postoffice or custom house. Those who desire to take examinations are advised to write to the commission in Washington for the "Manual of Examinations," which is sent free to all applicants. It is revised semiannually to Jan. 1 and July 1. The January edition contains a schedule of the spring examinations and the July edition contains a schedule of the fall examinations. Full information is given as to the methods and rules governing examinations, manner of making application, qualifications required, regulations for rating examination papers, certification for and chances of appointment, and as far as possible it outlines the scope of the different subjects of general and technical examinations. These are practical in character and are designed to test the relative capacity and fitness to discharge the duties to be performed. It is necessary to obtain an average percentage of 70 to be eligible for appointment, except that applicants entitled to preference because of honorable discharge from the military or naval service for disability resulting from wounds or sickness incurred in the line of duty need obtain but 65 per cent. The period of eligibility is one year.

Qualifications of Applicants—No person will be examined who is not a citizen of the United States; who is not within the age limitations prescribed; who is physically disqualified for the service which he seeks; who has been guilty of criminal, infamous, dishonest or disgraceful conduct; who has been dismissed from the public service for delinquency and misconduct or has failed to receive absolute appointment after probation; who is addicted to the habitual use of intoxicating liquors to excess, or who has made a false statement in his application. The age

limitations in the more important branches of the public service are: Postoffice, 18 to 45 years; rural letter carriers, 17 to 55; internal revenue, 21 years and over; railway mail, 18 to 35; light-house, 18 to 50; life saving, 18 to 45; general departmental, 20 and over. These age limitations are subject to change by the commission. They do not apply to applicants of the preferred class. Applicants for the position of railway mail clerk must be at least 5 feet 6 inches in height, exclusive of boots or shoes, and weigh not less than 135 pounds in ordinary clothing and have no physical defects. Applicants for certain other positions have to come up to similar physical requirements.

Method of Appointment—Whenever a vacancy exists the appointing officer makes requisition upon the civil service commission for a certification of names to fill the vacancy, specifying the kind of position vacant, the sex desired and the salary. The commission thereupon takes from the proper register of eligibles the names of three persons standing highest of the sex called for and certifies them to the appointing officer, who is required to make the selection. He may choose any one of the three names, returning the other two to the register to await further certification. The time of examination is not considered, as the highest in average percentage on the register must be certified first. If after a probationary period of six months the name of the appointee is continued on the roll of the department in which he serves the appointment is considered absolute.

Removals—No person can be removed from a competitive position except for such cause as will promote the efficiency of the public service and for reasons given in writing. No examination of witnesses nor any trial shall be required except in the discretion of the officer making the removal.

Salaries—Entrance to the department service is usually in the lowest grades, the higher grades being generally filled by promotion. The usual entrance grade is about \$900, but the applicant may be appointed at \$840, \$760 or even \$600.

EARTHQUAKES AND ERUPTIONS IN RECENT TIMES.

ST. PIERRE, MARTINIQUE.

(Eruption of Mont Pelee.)

Date—May 8, 1902.

Lives lost—30,000.

Property destroyed (not estimated).

MOUNT VESUVIUS.

(Eruption.)

Date—April 8-11, 1906.

Lives lost—About 200.

Towns suffering damage—Torre del Greco, Torre Annunziata, Boscorecase, Ottajano, San Giuseppe, Portici, Caserta, Nola and San Giorgio.

SAN FRANCISCO, CAL.

(Earthquake and fire.)

Date—April 18, 1906.

Lives lost—452.

Persons injured—1,500.

Persons made homeless—265,000.

Property loss—\$350,000,000 (estimated).

Loss of insurance companies—\$132,823,067.21.

Buildings destroyed—6,000.

Blocks or squares burned—453.

Area of burned district—3.96 square miles.

Relief appropriation by congress—\$2,500,000.

Relief subscription—\$11,000,000.

VALPARAISO, CHILE.

(Earthquake.)

Date—Aug. 16, 1906.

Lives lost—1,500.

Property loss—\$100,000,000.

KINGSTON, JAMAICA.

(Earthquake.)

Date—Jan. 14, 1907.

Lives lost—1,100.

Persons injured—2,000.

Property loss—\$25,000,000.

Buildings destroyed—6,000.

Area of ruined district—50 acres.

Area affected by earthquake—300 acres.

Duration of first shock—38 seconds.

Duration of fire after earthquake—40 hours.

SICILY AND CALABRIA.

(Earthquake.)

Date—Dec. 28, 1908.

Day of week—Monday.

Hour—5:23 a. m.

Duration of shock—35 seconds.

Lives lost—76,433.

Persons injured—95,470.

Persons made homeless—1,100,000.

Property destroyed—(No estimate attempted).

Region affected—Northeastern Sicily and southwestern Calabria.

Chief cities and towns destroyed or damaged—in Sicily: Messina, Faro, Santa Teresa, Scallete. In Calabria: Reggio, Galliciano, San Giovanni, San Eufemia, Pellaro, Palmi, Cannitello.

CARTAGO, COSTA RICA.

(Earthquake.)

Date—May 5, 1910.

Hour—7 p. m.

Lives lost—1,500.

TURKEY.

(Earthquake.)

Date—Aug. 9, 1912.

Lives lost—3,000.

Persons injured—6,000.

Persons homeless—40,000.

SAKURA, JAPAN.

(Eruption and earthquakes.)

Date—Jan. 12, 1914.

Lives lost—43.

Houses destroyed—855.

Persons made destitute—20,000.

Property loss (not estimated).

SICILY.

(Earthquake.)

Date—May 8-9, 1914.

Lives lost—200.

Persons injured—1,000.

CENTRAL ITALY.

(Earthquake.)

Date—Jan. 13, 1915.

Hour—7:55 a. m.

Duration of shock—30 seconds.

Lives lost—29,978.

Provinces affected—Aquila, Caserta and Rome.

Communes damaged—372.

Largest city destroyed—Avezzano.

HISTORY OF COLLAR AND SHIRT INDUSTRY.

[From department of commerce report.]

Separate collars for men's shirts are said to have been first made about 1825 by the wife of a blacksmith in Troy, N. Y. This woman did the family washing and ironing and realized that shirts with separate collars would not have to be washed as often as did shirts with collars attached. She applied the idea not only by making separate collars for her husband's shirts, but by making them also for sale. This innovation attracted the attention of the Rev. Ebenezer Brown, a retired Methodist minister, who kept a small dry goods store in Troy. With the aid of the women members of his own family, the Rev. Mr. Brown, about 1829, began offering "string collars" for sale and soon developed a profitable new branch of his business. The demand for "store" collars increased and during the thirties and forties several companies were formed to carry on the manufacture of separate collars, cuffs and shirt bosoms, either in con-

nection with the manufacture of shirts or as a separate industry. The sewing machine was introduced into the collar industry in 1852 and steam power in 1855. Electric cutting machines were introduced about 1870, buttonholing machines about 1880 and button sewing machines about ten years later. The collar and cuff industry has been centered in Troy from the first. In 1909 80.46 per cent of the collars and cuffs manufactured in the whole country was manufactured in that city.

The manufacture of shirts was founded as a systematic industry in 1832 in New York, and in 1869 that city manufactured 27.74 per cent of the total output of the country. Troy and Albany produced 8.85 per cent, Philadelphia 8.68 per cent, Baltimore 8.53 per cent and St. Louis 4.07 per cent. New York state and Pennsylvania produced more than half the shirts made in the country.

"Population by Marital Condition" this volume.

FIRE AND EXPLOSION AT JERSEY CITY, N. J.

Fire resulting in the explosion of munitions caused the loss of six or more lives and the destruction of property valued at nearly \$20,000,000 in and near the National Dock and Storage company's plant on Black Tom island or peninsula, Jersey City, N. J., early on Sunday morning, July 30, 1916. How the fire originated could not be ascertained with any degree of certainty. It seems to have started soon after midnight either among some freight cars of the Lehigh Valley railroad or on a barge containing explosives to be shipped to the allies. It continued to burn until it got beyond the control of the railroad employees and the Jersey City fire department was called upon for assistance. There followed a series of explosions, the first and most violent of which occurred at 2:08 a. m. It caused a shock felt all over the metropolitan district of New York and was even noticed as far away as Philadelphia. It shattered plate and other glass in Jersey City and New York to the value of approximately \$1,000,000.

Black Tom island is really a peninsula which extends out from the Jersey shore toward Bedloe's island, in New York bay. The peninsula was utilized for the warehouses of the National Dock and Storage company, for a grain elevator belonging to the Lehigh Valley line and for a number of piers reached by railroad tracks. There were many cars loaded with explosives on the peninsula and at the piers were a considerable number of barges loaded with the same kind of freight.

In detail the losses occasioned by the fire and explosion were estimated as follows:

National Dock and Storage company.....	\$12,000,000
Lehigh Valley railroad.....	1,000,000
Central Railroad of New Jersey.....	50,000
Ammunition in cars and barges.....	5,000,000
Other barges.....	260,000
Plate and other glass.....	1,000,000
Damage to buildings, etc.....	335,000
Total.....	19,645,000

*Marriages may be annulled for causes making them void from the beginning.

†No divorce allowed, but marriages may be annulled.

NOTE—The above table presents only the principal causes for divorce in the various states. The words "Yes" and "No" are not always to be taken without qualification, but as being applicable under certain conditions. The word "Void" may indicate that a marriage may be

absolutely void for the cause named, that it may be voidable or that it may be annulled by court proceedings. Bigamy, it may be added, is a cause for divorce or annulment of marriage in practically all of the states.

FOREST FIRES IN ONTARIO, CANADA.

Forest fires in the northern part of the province of Ontario, Canada, caused the loss of about 400 lives July 29-31, 1916. Several small towns were entirely destroyed and many of the inhabitants burned to death. Fifty-seven perished in Mushka, a French-Canadian settlement; thir-

ty-four at Matheson; eighteen at Cochrane; fifteen at Iroquois Falls, and fifteen at Ramore. The others were lost in various smaller places scattered through the forests. Hundreds of square miles of bush and farm lands were burned over.

*At which marriage is legal. †Age below which parental consent is necessary. ‡No specific provision; common law usually applies. §Prohibited

when either of parties is incapable of entering into a civil contract.

AMERICAN HALL OF FAME.

"The Hall of Fame for Great Americans" is the name of a building on University Heights in New York city, in which are inscribed on bronze tablets the names of famous American men and women. Nominations for the honor are made by the public and are submitted to a committee of 100 eminent citizens. In the case of men fifty-one votes are required and in the case of women forty-seven. The first balloting took place in October, 1900, when the following were chosen:

George Washington.
Abraham Lincoln.
Daniel Webster.
Benjamin Franklin.
Ulysses S. Grant.
John Marshall.
Thomas Jefferson.
Ralph W. Emerson.
H. W. Longfellow.
Robert Fulton.
Horace Mann.
Henry W. Beecher.

James Kent.
Joseph Story.
John Adams.
Washington Irving.
Jonathan Edwards.
Samuel F. B. Morse.
David G. Farragut.
Henry Clay.
Nathaniel Hawthorne.
George Peabody.
Robert E. Lee.
Peter Cooper.

Ell Whitney.
John J. Audubon.
William E. Channing.
Gilbert Stuart.
Asa Gray.

CHOSEN IN 1905.

John Quincy Adams.
James Russell Lowell.
William T. Sherman.
James Madison.
John G. Whittier.
Alexander Hamilton.
Louis Agassiz.
John Paul Jones.*
Mary Lyon.
Emma Willard.
Maria Mitchell.

CHOSEN IN 1910.

Harriet Beecher Stowe.
Oliver Wendell Holmes.

Edgar Allan Poe.
Roger Williams.*
James Fenimore Cooper
Phillips Brooks.
William Cullen Bryant.
Frances E. Willard.
Andrew Jackson.
George Bancroft.
John Lothrop Motley.

CHOSEN IN 1915.

Francis Parkman.
Mark Hopkins.
Elias Howe.
Joseph Henry.
Rufus Choate.
Daniel Boone.

*Reconsidered under a new rule and failed of re-election.

NATIONAL PARKS IN THE UNITED STATES.

Zoological	District of Columbia	Mar. 2, 1889	170

*In charge of secretary of war.

NOTES ON NATIONAL PARKS.

Abraham Lincoln Homestead—Farm near Hodgenville, Ky., with log cabin in which Abraham Lincoln was born.

Antietam—Battle field of the civil war in Washington county, Maryland.

Casa Grande Ruin—Remains of a large prehistoric building near Florence, Ariz.

Chickamauga and Chattanooga—Battle fields of the civil war in the vicinity of Chattanooga, Tenn.

Crater Lake—Park contains remarkable mountain, lake and fine scenery in the Cascade range, Klamath county, Oregon; may be reached from Klamath Falls or from Medford on the Southern Pacific road.

General Grant—In Fresno and Tulare counties, California; forest and mountain scenery; reached from Sanger on the Southern Pacific road.

Gettysburg—Battle field of the civil war in southeastern Pennsylvania.

Glacier—Tract of mountainous country in northern Montana with glaciers, lakes, forests and peaks.

Hawaii—Includes celebrated volcanoes Kilauaea, Mauna Loa and Haleakala; main feature is Lava lake at Kilauaea.

Hot Springs Reservation—Tract of land in Garland county, Arkansas, noted for its springs of warm mineral waters.

Lassen Volcanic—Contains volcanic and other peaks, hot springs, mud geysers, ice caves, lakes of volcanic glass, canyons and forests.

Mesa Verde—In the extreme southwestern part of Colorado; contains pueblo and other ruins; reached from Mancos on the Rio Grande Southern road.

Mount Rainier—Mountain district in southern Washington; reached from Ashford on the Tacoma Eastern railroad and from Fairfax on the Northern Pacific road.

Platt—Tract of land containing sulphur springs in Murray county, Oklahoma; reached by Santa Fe and St. Louis & San Francisco railroads.

Rock Creek—Park in outskirts of Washington, D. C.

Rocky Mountain—Tract of mountainous land of great scenic beauty in Grand, Boulder and Larimer counties, Colorado; contains forests, lakes and peaks; reached by Union Pacific and other roads.

Sequoia—Mountain tract in Tulare county, California, containing forest of big trees; reached from Visalia.

Shiloh—Battle field of civil war in Hardin county, southern Tennessee.

Sully's Hill—On the shore of Devil's lake, North Dakota; contains elevation on which Gen. Alfred Sully with a few men withstood a

band of Indians for several days in 1863; reached from Devil's Lake, Narrows and Tokio stations on the Great Northern road.

Vicksburg—Battle field of civil war near city of same name in Mississippi.

Wind Cave—Canyon and extensive cave in Custer county, South Dakota, twelve miles from Hot Springs, on the Northwestern and Burlington roads; in Black Hills region.

Yellowstone—Famous park in Wyoming, Montana and Idaho, containing geysers and many other natural phenomena as well as beautiful mountain, lake and river scenery; reached from stations on the Northern Pacific, Burlington and Oregon Short Line roads.

Yosemite—Splendid valley in the Sierras in Mariposa county, California; reached from Merced on the Santa Fe and Southern Pacific roads by way of the Yosemite Valley railroad.

Zoological—Park in Washington, D. C., devoted to the zoological collection of the government; adjoins Rock Creek park.

PRESERVATION OF AMERICAN ANTIQUITIES.

By law approved June 8, 1906, entitled "An act for the preservation of American antiquities," the president of the United States is authorized, in his discretion, to declare by proclamation historic landmarks, historic and prehistoric structures and other objects of historic or scientific interest that are situated upon lands owned or controlled by the United States, to be national monuments. Under such authority the following monuments have been created:

Name and state.	Year.	Acres.
Big Hole battle field, Mont.	1919	8
Cabrillo, Cal.	1913	1.5
Chaco canyon, N. M.	1907	20,629
Cinder cone, Cal.	1907	5,130
Colorado, Col.	1911	13,883
Devil's tower, Wyo.	1906	1,152
Devil postpile, Cal.	1911	800
El Morro, N. M.	1906	160
Gila cliff dwellings, N. M.	1907	160
Gran Quivira, N. M.	1909	160
Grand canyon, Ariz.	1908	806,400
Jewel cave, S. D.	1908	1,280
Lassen peak, Cal.	1907	1,280
Lewis and Clark cavern, Mont.	1908	160
Montezuma castle, Ariz.	1906	160
Mount Olympus, Wash.	1909	608,640
Muir Woods, Cal.	1908	295
Mukuntuweap, Utah	1909	15,440
Natural bridges, Utah	1909	2,740
Navajo, Ariz.	1909	600
Oregon caves, Ore.	1909	450
Petrified forest, Ariz.	1906	25,625

Name and state.	Year.	Acres.
Shoshone cavern, Wyo.	1909	210
Sitka, Alaska	1910	57
Tonto, Ariz.	1907	640
Tumacacori, Ariz.	1908	10
Wheeler, Col.	1903	300

*Administered by department of agriculture;

others by interior department, except the Big

Hole battle field, which is under the war de-

partment.

NOTES ON NATIONAL MONUMENTS.

Big Hole battle field—Scene of fight at Big Hole pass on Big Hole or Wisdom river, Aug. 9, 1877, between Nez Perce Indians under Chief Joseph and a small force of soldiers commanded by Col. John Gibbon; in Silver Bow county, Montana; reached from Melrose.

Cabrillo statue—At Point Loma, Cal.; land first sighted by Juan Rodriguez Cabrillo, discoverer of California, when he approached San Diego bay, Sept. 28, 1542; site of about 1½ acres set aside for heroic statue of Cabrillo.

Chaco canyon—Located in San Juan and McKinley counties, New Mexico; contains extensive prehistoric communal or pueblo ruins.

Cinder cone—An elevation in Lassen county in northern California; is of importance as illustrating volcanic activity in the vicinity 200 years ago.

Colorado—Extraordinary examples of erosion in Mesa county, western Colorado; reached from Grand Junction.

Devil postpile—Natural formations, including Rainbow waterfalls, within the Sierra national forest in California; area set aside is on middle fork of San Joaquin river.

Devil's tower—A lofty and isolated rock in Crook county, Wyoming; is an extraordinary example of the effect of erosion in the higher mountains.

El Morro—An elevation near Wingate station on the Santa Fe railroad in New Mexico; contains prehistoric ruins and interesting rock inscriptions.

Gila cliff dwellings—In the Mogollon mountains, New Mexico; known also as the Gila Hot Springs cliff houses; are among the best preserved remains of the cliff dwellers of the southwest.

Gran Quivira—Ruined town not far from Manzano in the central part of New Mexico; remains of large cathedral and chapel and of many houses thought to date from prehistoric times.

Grand canyon—In northwestern Arizona; greatest eroded canyon within the United States.

Jewel cave—A natural formation of scientific interest within the Black Hills national forest in Custer county, South Dakota.

Lassen peak—In natural forest of same name in Shasta county, northern California; marks the southern terminus of the long line of extinct volcanoes in the Cascade range, from which one of the greatest volcanic fields in the world extends.

Lewis and Clark cavern—An extraordinary limestone cavern near Limespur, Jefferson county, Montana.

Montezuma castle—Large prehistoric ruin or cliff dwelling on Beaver creek, Arizona.

Mount Olympus—Mountain in the state of Washington; has extensive glaciers and on its slopes are the breeding grounds of the Olympic elk.

Muir woods—In Marin county, California; an extensive growth of redwood trees of great age and size; land presented to the government by William Kent of Chicago.

Mukuntuweap—Canyon in southeastern Utah through which flows the north fork of the Rio Virgin or Zion river; an extraordinary example of canyon erosion.

Natural bridges—Rock formations in southeastern Utah extending over streams or chasms; have loftier heights and greater spans than any other similar formations known; reserved as extraordinary examples of stream erosion.

Navajo—Within the Navajo Indian reservation in Arizona; includes a number of prehistoric cliff dwellings and pueblo ruins new to science.

Oregon caves—Within the Siskiyou national forest in Oregon; caves are of natural formation and of unusual scientific interest and importance.

Petrified forest—Deposits of fossilized or mineralized wood in Gila and Apache counties, Arizona.

Pinnacles—A series of natural formations of rock with a number of caves underlying them; located within Pinnacles national forest in California.

Rainbow bridge—An extraordinary natural bridge in southeastern Utah, having an arch which in form and appearance is much like a rainbow; is 309 feet high and 278 feet span; of scientific interest as an example of eccentric stream erosion.

Shoshone cavern—A cave in Big Horn county, Wyoming, of unknown extent, but of many windings and ramifications and containing vaulted chambers of large size, magnificently decorated with sparkling crystals and beautiful stalactites, and containing pits of unknown depth.

Sitka—Tract of about fifty-seven acres within public park, near Sitka, Alaska; battle ground of Russian conquest of Alaska in 1804; site of former village of Kiki-Siti tribe, the most warlike of Alaska Indians; contains numerous totem poles constructed by the Indians, recording the genealogical history of their several clans.

Tonto—Comprises two prehistoric ruins of ancient cliff dwellings in Gila county, Arizona.

Tumacacori—Ruin of an ancient Spanish mission of brick, cement and mortar in Santa Cruz county, Arizona.

Wheeler—Volcanic formations illustrating erratic erosion; in Rio Grande and Cochetopa national forests in southwestern Colorado.

NOTE—The above figures are for arid land alone and do not include rice land. The statistics of number of farms and the acreage irrigated are for 1909; the cost is to July 1, 1910.

The total length of ditches used for irrigation in 1910 was 125,591 miles and there were 6,812 reservoirs having a combined capacity of 12,581,129 acre-feet. The number of pumping plants reported was 13,906 and the acreage supplied by them 477,625. The relative importance of the several classes of irrigation enterprises is shown by the following percentages of acreage irrigated in 1909:

	Per cent.
United States reclamation service	2.9
United States Indian service	1.3
Carey act enterprises	2.1
Irrigation districts	3.8
Co-operative enterprises	33.8
Individual and partnership enterprises	45.5
Commercial enterprises	10.6

Classified by source of water supply, the acreage irrigated was as follows: From streams, by gravity, 12,763,797; by pumping, 157,775; from wells, by flowing, 144,400; by pumping, 307,496; from reservoirs, 98,193; from lakes, by gravity, 58,284; by pumping, 12,354; from springs, 196,186.

CROPS ON IRRIGATED LAND (1909).

State.	Acreage.	Value.	Val. per acre.
Arizona	171,302	\$4,718,100	\$27.54
California	1,196,767	52,057,007	43.50
Colorado	1,650,356	39,478,994	23.92
Idaho	772,684	16,582,213	21.46
Kansas	22,118	477,025	21.57
Montana	909,342	14,635,960	16.99
Nebraska	137,211	1,973,860	14.39
Nevada	356,079	5,339,475	15.00
New Mexico	230,034	5,706,922	24.80
North Dakota	3,273	56,215	17.18
Oklahoma	2,806	51,995	18.53
Oregon	368,911	7,489,255	20.30
South Dakota	38,438	505,684	13.16
Texas	58,227	2,645,385	45.43
Utah	579,744	14,642,792	25.26
Washington	160,483	7,994,531	49.82
Wyoming	583,786	7,362,983	12.61
Total	7,241,561	181,617,396	25.09

The percentages of the total acreage devoted to important crops on irrigated lands were: Alfalfa, 30.6; wild grasses, 21.1; oats, 10.2; wheat, 7.6; barley, 3.3; orchard fruits, 3.3; other tame or cultivated grasses, 3; grains cut green, 2.9; timothy alone, 2.8; sugar beets, 2.5; timothy and clover mixed, 2.5; potatoes, 2.3; corn, 1.8; tropical and subtropical fruits, 1.4. Crops grown on irrigated land show an excess yield of 28.6 per cent over those grown on unirrigated land.

IRRIGATION FOR RICE GROWING.

The total acreage irrigated for rice growing in Louisiana, Texas and Arkansas in 1909 was 694,800, of which 54.7 per cent was in Louisiana, 41.3 per cent in Texas and 4 per cent in Arkansas. The enterprises which were completed or under way in 1910 were reported as capable of irrigating 950,706 acres in that year and of serving ultimately a total of 1,134,322 acres. The total cost of rice irrigation enterprises to July 1, 1910, was \$13,587,639.

ORDER OF PRESIDENTIAL SUCCESSION.

In case of the removal, death, resignation or disability of both the president and vice-president, then the secretary of state shall act as president until the disability of the president or vice-president is removed or a president is elected. The rest of the order of succession is: Secretary of the treasury, secretary of war, at-

torney-general, postmaster-general, secretary of the navy, secretary of the interior, secretary of agriculture and secretary of commerce. The acting president, in case congress is not in session, must call a special session, giving twenty days' notice.

LIBRARY OF CONGRESS.

The library of congress was established in 1800 in the city of Washington, D. C. It was burned in 1814, and in 1851 lost 35,000 volumes by fire. The present library building, which cost \$6,347,000, was opened to the public in November, 1897. It is located a short distance east of the capitol and is the largest and finest building of its kind in the world.

June 30, 1915, the library contained 2,363,873 books and pamphlets, 147,553 maps, 727,808 pieces

of music and 385,757 photographs, prints, engravings and lithographs. The copyright office is a distinct division of the library with its own force of employees. The total number of employees in the library is 552 and the annual cost of maintenance is now about \$850,000, including \$200,000 for printing and binding.

The librarian of congress is Herbert Putnam, salary, \$6,500; chief assistant librarian, Appleton P. C. Griffin, \$4,000.

HOLIDAYS IN THE UNITED STATES.

GENERALLY OR LOCALLY OBSERVED.

Arbor Day—Usually fixed by governor.
 Bennington Battle Day—Aug. 16.
 Christmas Day—Dec. 25.
 Columbus Day—Oct. 12.
 Confederate Memorial Day—See Decoration day.
 Davis, Jefferson, Birthday—June 3.
 Decoration Day—Federal, May 30; confederate, April 26 (Alabama, Georgia, Florida, Mississippi) and May 10 (North and South Carolina).
 Election Days—See Election Calendar.
 Fire Prevention Day—Oct. 9.
 Flag Day—June 14; designated by governor.
 Georgia Day—Feb. 12.
 Independence Day—July 4.
 Jefferson's Birthday—April 13.
 Labor Day—First Monday in September.
 Landing Day—July 25 (Porto Rico).
 Lee's Birthday—Jan. 19.
 Lincoln's Birthday—Feb. 12.
 Maine (Battle Ship) Day—Feb. 15.
 Mardi Gras—February (New Orleans).
 McKinley Day—Jan. 29.
 Mecklenburg Independence Declaration—May 20.
 Memorial Day—See Decoration day.
 Mothers' Day—Second Sunday in May.
 New Orleans, Battle of—Jan. 8.
 New Year's Day—Jan. 1.
 Patriots' Day—April 19 (Maine, Massachusetts).
 Pioneers' Day—July 15 (Idaho), July 24 (Utah).
 Texas Independence Day—March 2.
 Thanksgiving Day—Last Thursday in November.
 Washington's Birthday—Feb. 22.

HOLIDAYS IN THE VARIOUS STATES.

Alabama—Jan. 1; Jan. 19 (Lee's birthday); Feb. 22; Mardi Gras (the day before Ash Wednesday, first day of Lent); Good Friday (the Friday before Easter); April 26 (Confederate Memorial day); June 3 (Jefferson Davis' birthday); July 4; Labor day (first Monday in September); Thanksgiving day (last Thursday in November); Dec. 25.
 Alaska—Jan. 1; Feb. 22; May 30 (Memorial day); July 4; Thanksgiving day; Dec. 25.
 Arizona—Jan. 1; Arbor day (first Monday in February); Feb. 22; May 30; July 4; general election day; Thanksgiving day; Dec. 25.
 Arkansas—Jan. 1; Feb. 22; July 4; Thanksgiving day; Oct. 12 (Columbus day); Dec. 25.
 California—Jan. 1; Feb. 22; May 30; July 4; Sept. 9 (Admission day); Labor day (first Monday in September); Oct. 12; general election day in November; Thanksgiving day; Dec. 25.
 Colorado—Jan. 1; Feb. 22; Arbor and School day (third Friday in April); May 30; July 4; first Monday in September; general election day; Oct. 12; Thanksgiving day; Dec. 25; every Saturday afternoon from June 1 to Aug. 31 in the city of Denver.
 Connecticut—Jan. 1; Feb. 12 (Lincoln's birthday); Feb. 22; Good Friday; May 30; July 4; Labor day (first Monday in September); Thanksgiving day; Dec. 25.
 Delaware—Jan. 1; Feb. 12; Feb. 22; May 30; July 4; first Monday in September; Oct. 12; Thanksgiving day; Dec. 25.
 District of Columbia—Jan. 1; Feb. 22; March 4 (Inauguration day); May 30; July 4; first Monday in September; Thanksgiving day; Dec. 25.
 Florida—Jan. 1; Jan. 19 (Lee's birthday); Arbor day (first Friday in February); Feb. 22; April 26 (Confederate Memorial day); June 3 (Jefferson Davis' birthday); July 4; first Monday in September; Thanksgiving day; general election day; Dec. 25.
 Georgia—Jan. 1; Jan. 19 (Lee's birthday); Feb. 22; April 26 (Confederate Memorial day); June 3 (Jefferson Davis' birthday); July 4; first Monday in September; Thanksgiving day; Arbor day (first Friday in December); Dec. 25.
 Idaho—Jan. 1; Feb. 22; Arbor day (first Friday after May 1); July 4; first Monday in September; Oct. 12; general election day; Thanksgiving day; Dec. 25.
 Illinois—Jan. 1; Feb. 12 (Lincoln's birthday); Feb. 22; May 30; July 4; Labor day (first Monday in September); Oct. 12 (Columbus day); general, state, county and city election days;

Saturday afternoons; Thanksgiving day; Dec. 25; Arbor, Bird, Flag and Mothers' days are appointed by the governor, but are not legal holidays. Like McKinley day (Jan. 29), "Remember the Maine" day (Feb. 15), Douglas day (April 23), they are observed by special exercises, flag displays, etc.; banks are not closed. Arbor and Bird days usually come on the third Friday of April in the northern part of the state and the fourth Friday of October in the southern part. Flag day is June 14 and Mothers' day the second Sunday in May.
 Indiana—Jan. 1; Feb. 22; May 30; July 4; first Monday in September; Oct. 12; general election day; Thanksgiving day; Dec. 25.
 Iowa—Jan. 1; Feb. 22; May 30; July 4; first Monday in September; general election day; Thanksgiving day; Dec. 25.
 Kansas—The only holidays by statute are Feb. 12; Feb. 22; May 30; Labor day (first Monday in September) and Arbor day; Oct. 12; but the days commonly observed in other states are holidays by general consent.
 Kentucky—Jan. 1; Feb. 22; May 30; first Monday in September; Oct. 12; Thanksgiving day; general election day; Dec. 25.
 Louisiana—Jan. 1; Jan. 8 (anniversary of the battle of New Orleans); Feb. 22; Mardi Gras (day before Ash Wednesday); Good Friday (Friday before Easter); April 26 (Confederate Memorial day); July 4; Nov. 1 (All Saints' day); general election day; fourth Saturday in November (Labor day, in the parish of New Orleans only); Dec. 25; every Saturday afternoon in New Orleans.
 Maine—Jan. 1; Feb. 22; Good Friday; May 30; July 4; Labor day; Thanksgiving day; Dec. 25.
 Maryland—Jan. 1; Feb. 22; May 30; July 4; first Monday in September; Sept. 12 (Defenders' day); Oct. 12; general election day; Dec. 25; every Saturday afternoon.
 Massachusetts—Jan. 1; Feb. 22; April 19 (Patriots' day); May 30; July 4; first Monday in September; Oct. 12; Thanksgiving day; Dec. 25.
 Michigan—Jan. 1; Feb. 22; Oct. 12; general election day; May 30; July 4; first Monday in September; Thanksgiving day; Dec. 25.
 Minnesota—Jan. 1; Feb. 12; Feb. 22; Good Friday (Friday before Easter); May 30; July 4; first Monday in September; Thanksgiving day; general election day; Dec. 25; Arbor day (as appointed by the governor).
 Mississippi—First Monday in September; by common consent July 4, Thanksgiving day and Dec. 25 are observed as holidays.
 Missouri—Jan. 1; Feb. 22; May 30; July 4; Labor day; Oct. 12; general election day; Thanksgiving day; Dec. 25; every Saturday afternoon in cities of 100,000 or more inhabitants.
 Montana—Jan. 1; Feb. 22; Arbor day (third Tuesday in April); May 30; July 4; first Monday in September; Oct. 12; general election day; Thanksgiving day; Dec. 25; any day appointed by the governor as a fast day.
 Nebraska—Jan. 1; Feb. 22; Arbor day (April 22); May 30; July 4; first Monday in September; Thanksgiving day; Dec. 25.
 Nevada—Jan. 1; Feb. 22; July 4; Thanksgiving day; Dec. 25.
 New Hampshire—Feb. 22; fast day appointed by the governor; May 30; July 4; first Monday in September; Thanksgiving day; general election day; Dec. 25.
 New Jersey—Jan. 1; Feb. 12; Feb. 22; May 30; July 4; first Monday in September; Oct. 12; general election day; Thanksgiving and fast days, and every Saturday afternoon.
 New Mexico—Jan. 1; July 4; Thanksgiving and fast days; Dec. 25; Decoration, Labor and Arbor days appointed by the governor.
 New York—Jan. 1; Feb. 12; Feb. 22; May 30; July 4; first Monday in September; Oct. 12; general election day; Thanksgiving and fast days; Dec. 25; every Saturday afternoon.
 North Carolina—Jan. 1; Jan. 19 (Lee's birthday); May 10 (Confederate Memorial day); May 20 (anniversary of the signing of the Mecklenburg declaration of independence); July 4; state election day in August; first Thursday in Sep-

tember (Labor day); Thanksgiving day; Dec. 25; every Saturday afternoon.

North Dakota—Jan. 1; Feb. 12; Feb. 22; May 30; July 4; Arbor day (when appointed by the governor); general election day; Thanksgiving day; Dec. 25.

Ohio—Jan. 1; Feb. 22; May 30; July 4; first Monday in September; Oct. 12; general election day; Thanksgiving day; Dec. 25; every Saturday afternoon in cities of 50,000 or more inhabitants.

Oklahoma—Jan. 1; Feb. 22; May 30; July 4; Oct. 12; general election day; Thanksgiving day; Dec. 25.

Oregon—Jan. 1; Feb. 22; May 30; first Saturday in June; July 4; first Monday in September; general election day; Thanksgiving day; public fast day; Dec. 25.

Pennsylvania—Jan. 1; Feb. 12; Feb. 22; May 30; Good Friday; July 4; first Monday in September; Oct. 12; general election day; Thanksgiving day; Dec. 25; every Saturday afternoon.

Philippines—Jan. 1; Feb. 22; Thursday and Friday of Holy week; July 4; Aug. 13; Thanksgiving day; Dec. 25; Dec. 30.

Porto Rico—Jan. 1; Feb. 22; Good Friday; May 30; July 4; Dec. 25 (Landing day); Thanksgiving day; Dec. 25.

Rhode Island—Jan. 1; Feb. 22; second Friday in May (Arbor day); May 30; July 4; first Monday in September; Oct. 12; general election day; Thanksgiving day; Dec. 25.

South Carolina—Jan. 1; Jan. 19 (Lee's birthday); Feb. 22; May 10 (Confederate Memorial day); June 8 (Jefferson Davis' birthday); general election day; Thanksgiving day; Dec. 25, 26, 27.

South Dakota—Same as in North Dakota.

Tennessee—Jan. 1; Good Friday; May 30; July 4; first Monday in September; general election day; Thanksgiving day; Dec. 25; every Saturday afternoon.

Texas—Jan. 1; Feb. 22 (Arbor day); March 2 (anniversary of Texas Independence); April 21 (anniversary of battle of San Jacinto); July 4; first Monday in September; Oct. 12; general election day; appointed fast days; Thanksgiving day; Dec. 25.

Utah—Jan. 1; Feb. 22; April 15 (Arbor day); May 30; July 4; July 24 (Pioneer day); first Monday in September; Thanksgiving day and appointed fast days; Dec. 25.

Vermont—Jan. 1; Feb. 22; May 30; July 4; Aug. 16 (Bennington Battle day); Labor day; Oct. 12; Thanksgiving day; Dec. 25.

Virginia—Jan. 1; Jan. 19 (Lee's birthday); Feb. 22; July 4; first Monday in September; Thanksgiving and appointed fast days; Dec. 25; every Saturday afternoon.

Washington—Jan. 1; Feb. 12 (Lincoln's birthday); Feb. 22; May 30; July 4; first Monday in September; Oct. 12; general election day; Thanksgiving day; Dec. 25.

West Virginia—Jan. 1; Feb. 12; Feb. 22; May 30; July 4; Labor day; general election day; Thanksgiving day; Dec. 25.

Wisconsin—Jan. 1; Feb. 22; May 30; July 4; first Monday in September; general election day; Thanksgiving day; Dec. 25.

Wyoming—Jan. 1; Feb. 12; Feb. 22; May 30; July 4; first Monday in September; general election day; Dec. 25.

The national holidays, such as July 4, New Year's, etc., are such by general custom and observance and not because of congressional legislation. Congress has passed no laws establishing holidays for the whole country. It has made Labor day a holiday in the District of Columbia, but the law is of no effect elsewhere. It has also designated the second Sunday in May as Mothers' day.

DESTRUCTIVE FIRE IN BERGEN, NORWAY.

The most destructive fire that ever occurred in Bergen, Norway, broke out Jan. 15, 1916. Practically the whole of the principal retail business district was burned, including stores of all kinds, business offices, hotels, telephone exchange, schools and dwelling houses. In all, 369 buildings were destroyed. The total loss was estimated at \$22,400,000. The insurance value of buildings burned, the value fixed by government authority beyond which buildings may not be

insured, was \$3,200,000. About 3,000 persons were made homeless by the fire.

MOLDE PARTLY DESTROYED.

Two days after the great fire in Bergen, another Norwegian city, Molde, was visited by a conflagration which swept away about 100 business houses, manufactories and dwellings, causing a loss of approximately \$1,000,000.

Massachusetts	3,747,546	Washington	1,565,810
Michigan	3,074,560	West Virginia	1,399,320
Minnesota	2,296,024	Wisconsin	2,513,758
Mississippi	1,964,122	Wyoming	182,264
Missouri	3,420,143		
Montana	466,214	Total	102,826,309
Nebraska	1,277,750	*April 15, 1910.	

NOTE—Estimates of population are required primarily for use in the census bureau in calculating death rates and per capita averages for years other than the census year. The so-called arithmetical method was adopted for computing these estimates. It is the simplest and it has been shown by experience to come nearer in accuracy in the majority of cases than any other formula. It rests on the assumption that the increase in population each year since the enumeration is equal to the annual increase from 1900 to 1910.

UNITED STATES AND POSSESSIONS.

[United States census bureau estimate as of Jan. 1, 1917.]

Continental United States	102,826,309

North Carolina	1,591,077	748,375
Ohio	4,908,559	118,339
Oklahoma	1,766,516	260,018
Pennsylvania	8,033,610	122,357
South Carolina	712,601	877,414
Tennessee	1,766,238	488,516
Texas	3,502,022	755,332
Virginia	1,449,401	700,608
West Virginia	1,262,721	70,189

Only states having 50,000 or more, or at least 10 per cent of their population colored, are in-

cluded in the above table. (See also "Population by Color or Race.")

COLORED POPULATION OF CITIES.

Estimated as of July 1, 1914.

Atlanta, Ga.	60,187	Memphis, Tenn.	57,372
Baltimore, Md.	88,314	Nashville, Tenn.	38,034
Birmingham, Ala.	65,512	New Orleans, La.	95,529
Boston, Mass.	16,293	New York, N. Y.	1,109,337
Chicago, Ill.	60,827	Philadelphia, Pa.	91,652
Cincinnati, O.	51,720	Pittsburgh, Pa.	27,899
Columbus, O.	14,428	Richmond, Va.	49,413
Indianapolis, Ind.	24,281	St. Louis, Mo.	45,023
Kansas City, Mo.	26,904	San Francisco, Cal.	15,175
Los Angeles, Cal.	19,101	Washington, D.C.	101,339

NOTE—The foregoing list includes only the largest cities having a considerable colored population. The census bureau made no estimates for such cities as Albany, N. Y., Buffalo, N. Y., Cleveland, O., Omaha, Neb., Minneapolis, Minn., Milwaukee, Wis., and St. Paul, Minn., having a comparatively small negro population. The negro population of all large cities is given elsewhere in this volume.

METROPOLITAN DISTRICTS IN THE UNITED STATES (1910).

Statistics have been compiled by the bureau of the census showing the population of the chief cities of the United States together with their suburbs, comprising what may be termed "metropolitan districts." A district of this character is defined as consisting of the city together with the urban portion of the territory lying within ten miles of the city limits. The following table shows the metropolitan districts of cities having a population of 200,000 or more in 1910:

City.	Metropolitan City district.	proper.	Outside.
New York	6,474,568	4,766,883	1,707,685
Chicago	2,446,921	2,185,283	261,638
Philadelphia	1,972,342	1,549,008	423,334
Boston	1,520,470	670,585	849,885
Pittsburgh	1,042,855	533,905	508,950
St. Louis	828,733	687,029	141,704
San Francisco-Oakland	686,873	416,912	119,787
Oakland	150,174		
Baltimore	658,715	558,485	100,230
Cleveland	613,270	560,663	52,607
Cincinnati	563,804	363,591	200,213
Minneapolis-St. Paul	526,256	301,408	10,104
St. Paul		214,744

CENSUS OF 1910 AND 1900.

The thirteenth census of the United States was taken by the bureau of the census as of April 15, 1910. It included continental United States, the territories of Alaska and Hawaii and Porto Rico; also persons in the military and naval service who were stationed abroad. The population according to this division, compared with that in 1900, was:

	1910.	1900.
Alaska.....	64,356	63,592
Hawaii.....	191,909	154,001

Porto Rico.....	1,118,012	*953,243
Soldiers and sailors abroad.....	55,608	91,219

Noncontiguous territory.....	1,429,885	1,262,055
Continental United States.....	91,972,266	75,994,675

United States (area of enu- meration).....	93,402,151	*77,256,630
---	------------	-------------

*Census of 1899. †Includes 953,243 persons enumerated in Porto Rico in 1899.

POPULATION OF THE UNITED STATES AT EACH CENSUS (1790-1840).

CENTER OF POPULATION AND MEDIAN LINES.

The center of population, according to the bureau of the census, may be said to represent the center of the gravity of the population. If the surface of the United States be considered as a rigid plane without weight, capable of sustaining the population distributed thereon, individuals being assumed to be of equal weight, and each, therefore, to exert a pressure on any supporting pivotal point directly proportional to his

distance from the point, the pivotal point on which the plane balances would, of course, be its center of gravity, and this is the point referred to by the term "center of population" as used by the census bureau in its reports.

The median point, which may be described as the numerical center of population, is in no sense a center of gravity. In determining the median point distance is not taken into account,

and the location of the units of population is considered only in relation to the intersecting median lines—as being north or south of the median parallel and east and west of the meridian.

The position of the center of population and its movement during each decade since 1790 are shown in the following table:

Census year.	North latitude.			West longitude.			Approximate location by important towns.	Movement in miles during preceding decade.			
	D.	M.	S.	D.	M.	S.		Direct line.	West-ward.	North-ward.	South-ward.
1790....	39	16	30	76	11	18	..23 miles east of Baltimore, Md.....

*West Virginia formed part of Virginia until 1863.

MEDIAN LINES.

In connection with the definition of the median point another method of presenting facts with regard to the geographical distribution of the population has been noted, involving the location of median lines. A parallel of latitude is determined which evenly divides the population so that the population north of that parallel is the same as that south. Similarly, a meridian of longitude is determined which divides the population evenly as between east and west. In calculating these median lines it is necessary, in the case of the square degrees of latitude and longitude which are traversed by the lines themselves, to assume that the population is evenly distributed through these square degrees or to make an estimated adjustment where this is obviously not the case.

The eastern terminus of the median parallel, according to the census of 1910, is on the New Jersey coast near Seagirt. In its course west this line passes through central New Jersey, leaving the state near Burlington and entering Pennsylvania a few miles north of Philadelphia, thence passing through Norristown and continu-

ing through southern Pennsylvania and across the northern extremity of West Virginia, leaving the latter state at a point a few miles north of Wheeling. It nearly bisects Ohio, Indiana and Illinois, crossing about ten miles north of Columbus, O.; twenty-five miles north of Indianapolis, Ind., and about twenty miles north of Springfield, Ill. Through Missouri it runs about thirty miles south of the Iowa and Missouri line, thence passing through Nebraska about ten miles north of its southern boundary, and across the northern part of Colorado, passing about five miles north of Boulder City. Its location in Utah is about forty-five miles south of Salt Lake City. There are no large towns near its course across the northern part of Nevada and California. The western terminus of the median parallel is on the Pacific coast, in Humboldt county, California, about five miles north of Point Delgada and twenty miles south of Cape Mendocino, the point of continental United States extending farthest west.

The median meridian starts at Whitesfish point, on the northern peninsula of Michigan, near the eastern end of Lake Superior, thence passing

south about twenty-five miles west of Lansing and through Indiana about ten miles west of the Indiana-Ohio boundary and twenty-five miles west of Cincinnati. South of the Ohio river it bisects Kentucky, crosses eastern Tennessee and leaves that state twenty miles east of Chattanooga. Through Georgia it passes close to the Georgia-Alabama line, about two miles west of Columbus, Ga., leaving the state near the intersection of the Alabama, Georgia and Florida boundary lines. It then crosses the northwestern part of Florida and terminates in the Gulf of Mexico at the city of Apalachicola. The following table shows the movement of the median lines from 1880 to 1910, inclusive:

Census year.	Median parallel, north latitude.			Median meridian, west longitude.			Movement in miles, parallel, meridian, westward.		
	D.	M.	S.	D.	M.	S.	N.	E.	W.
1880.....	39	57	00	84	7	12			
1890.....	40	2	51	84	40	1	6.6		27.0
1900.....	40	4	22	84	51	29	2.4		10.8
1910.....	40	6	24	84	59	59	2.3		7.5

MEDIAN POINT.

The exact location of the median point is indicated by the median lines already shown; in the following table its approximate location with reference to certain towns is described:

APPROXIMATE LOCATION BY IMPORTANT TOWNS.	
1880.....	16 miles nearly due west of Springfield, O.
1890.....	5 miles southwest of Greenville, O.
1900.....	In Spartanburg, Ind.
1910.....	3 miles south of Winchester, Ind.

New Hampshire	430,572	57.7	19.2	22.5					

MOTHER TONGUE OF FOREIGN WHITE STOCK (1910).

In the following tables, prepared by the federal census bureau, the foreign white stock referred to is the aggregate white population of the United States which is foreign either by birth or by parentage. It embraces all foreign born whites and all native whites having one or both parents foreign born. It must be remembered that the foreign stock as here defined only includes the first and second generations—immigrants and native children of immigrants—and does not include the grandchildren or great-grandchildren of immigrants. In other words, the figures do not include the exact relative importance of the several ethnic stocks in the total population.

The eight major mother-tongue stocks in the United States, arranged in the order of their importance, are shown in the following table:

Mother tongue.	Number.	†Per cent.
English and Celtic*	10,037,420	31.1
German	8,817,271	27.3
Italian	2,151,422	6.7
Polish	1,707,640	5.3
Yiddish and Hebrew	1,676,762	5.2
Swedish	1,445,869	4.5
French	1,357,169	4.2
Norwegian	1,009,854	3.1
Total eight mother tongues.	28,203,407	87.5
Other mother tongues	4,039,975	12.5
All mother tongues	32,243,382	100.0

*Includes persons reporting Irish, Scotch or Welsh. †Per cent of distribution.

The census bureau classifies as urban population that residing in cities and other incorporated places of 2,500 inhabitants or more. The proportion of the total population of continental United States living in urban and rural territory at the censuses of 1910 and 1900 was as follows:

	1910.		1900.	
	Population.	Pr.ct.	Population.	Pr.ct.
Urban	42,623,383	46.3	30,797,185	40.5
Rural	49,348,883	53.7	45,197,390	59.5

Total91,972,266 100.0 75,994,575 100.0
In 1890 the per cent of urban population was
36.1 and of the rural 63.9; in 1880 the urban was
29.5 and the rural 70.5.

By geographic divisions the per cent of urban and rural population in 1910 was as follows:

Division.....	Total.....	Urban.....	Rural.....
New England.....	7.1	12.8	2.2
Middle Atlantic.....	21.0	32.2	11.3
East North Central.....	19.8	22.6	17.5

INCREASE IN URBAN AND RURAL POPULATION

INCREASE IN URBAN AND RURAL POPULATION.

Comparing the rate of growth in urban and rural communities, it is shown by the census bureau that during the period between the census of 1900 and that of 1910 the increase in urban population in continental United States was 11,143,738, or 84.8 per cent, while the increase in rural population was 4,963,853, or 11.2 per cent. There had been an increase in urban population in every state, while in six states there had been an actual decrease in rural population. These states were: New Hampshire, 5.4 per cent; Vermont, 4.2 per cent; Ohio, 1.3 per cent; Indiana, 5.1 per cent; Iowa, 7.2 per cent; Missouri, 5.1 per cent.

Alaska with a gross area of 590,884 square miles has a population of 0.1 per square mile; Hawaii, 6,449 square miles, 29.3 per square mile, and Porto Rico, 3,435 square miles, 325.5 per square mile.

NOTE—The density of population is obtained by dividing the population of each state and of continental United States by its total land area in square miles at each census.

*North Dakota territory, 0.9. †Oklahoma and Indian territory combined, less than one-tenth.

POPULATION PER SQUARE MILE LAND AREA.

Census year.	Continental United States.	Persq. mile.

DWELLINGS AND FAMILIES IN THE UNITED STATES (1910).

In census usage a "dwelling" is any building in which one or more persons reside. A mere cabin, or room in a warehouse, occupied by a single person, is a census dwelling, while, on the other hand, an apartment house containing many families constitutes only one dwelling. Only occupied dwellings are included in the following tables. The term "family" as used in census reports means a household or group of persons, whether related by blood or not, who share a common abode, usually also sharing the same table. If one person lives alone he constitutes a family, while, on the other hand, those who dwell in a hotel or institution in which many people live are also treated as forming a single family. There is, however, no considerable difference between the average size of all families under the census usage and the average size of what are commonly termed families or households in popular speech. In 1900 the difference for the United States as a whole was only 0.1 per cent.

At each census from 1850 to 1910 a decrease was shown in the average number of persons per dwelling and the average number per family. The decrease in the average number per dwelling has been due to the decrease in the average per family, the influence of which has been partly offset by the increased construction of tenements and other dwellings containing more than one family.

In 1910 there were 7,254,242 dwellings and 9,499,765 families in urban communities, while there were 10,551,603 dwellings and 10,755,790 families

in rural communities. For urban communities the number of persons to a dwelling averaged 5.9 and to a family 4.5; for rural communities the number of persons to a dwelling averaged 4.7 and to a family 4.6.

ILLITERACY IN THE UNITED STATES (1910).

The following statistics, except where otherwise specified, relate only to persons 10 years of age or over. The bureau of the census classifies as illiterate all persons 10 years of age or over who are unable to write, regardless of their ability to read.

PERCENTAGE OF ILLITERACY.

The following table shows the total population 10 years of age and over and the number and percentage of illiterate by color or race, nativity and parentage:

Class.	Population.	Illiterate.	Pct.
White	63,933,870	3,184,633	5.0
Native	50,989,341	1,534,272	3.0
Native parentage.....	37,081,278	1,378,884	3.7
Foreign or mixed parentage	13,908,063	155,388	1.1
Foreign born	12,944,529	1,650,361	12.7
Negro	7,317,922	2,227,731	30.4
Indian	188,753	85,445	45.3
Chinese	68,924	10,891	15.8
Japanese	67,661	6,213	9.2
All other.....	3,135	1,250	39.9

United States.....71,580,270 5,516,163 7.7

The corresponding percentages of illiterates at three previous censuses were: 1880, 17.0; 1890, 13.3; 1900, 10.7.

ILLITERACY BY SEX.

Class.	Male.		Female.	
	Illiterate.	Pct.	Illiterate.	Pct.
White	1,962,505	5.0	1,522,128	4.9
Native	796,055	3.1	738,217	2.9
Native parentage	715,926	3.8	662,953	3.7

*Per 100,000 of general population.

Number of blind per 100,000 general population of the same race and nativity in 1900: White, 58.2; native white, 55; foreign born white, 74.5; colored, 94.6; negro, 90; Indian, 302.6; Chinese, Japanese, etc., 23.2.

BLIND IN OTHER COUNTRIES.

Some of the foreign countries in which the number of blind per 100,000 of general population is high are:

Bahamas (1901).....	251.2
Danish Antilles (1901).....	278.4
Jamaica (1911).....	209.3
St. Lucia (1901).....	244.6
Cyprus (1901).....	730.3
Malta and Gozo.....	201.2
Russia (European, 1897).....	201.6
Formosa (1905).....	515.7
Philippines (1903).....	226.3

Egypt (1907).....	1,325.1
Uganda (1911).....	317.7
Number of blind in the leading countries of Europe per 100,000 of general population:	
Austria (1910).....	69.4
Belgium (1910).....	43.5
Bulgaria (1905).....	132.4
Denmark (1911).....	52.7
England-Wales (1911).....	73.0
Finland (1900).....	119.0
France (1901).....	70.6
Germany (1900).....	60.9

Hungary (1900).....	100.6
Ireland (1911).....	98.2
Italy (1901).....	117.5
Netherlands (1909).....	46.3
Norway (1910).....	92.6
Portugal (1911).....	132.8
Roumania (1899).....	83.4
Russia (1897).....	201.6
Scotland (1911).....	69.7
Serbia (1900).....	94.1
Sweden (1900).....	66.4
Switzerland (1896).....	72.2

DEAF AND DUMB IN THE UNITED STATES (1910).

Valparaiso	8,460	8,733	5,140	5,902
Vladivostok	17,036	17,445	4,706	4,357
Wellington	11,500	11,773	5,809	6,415
Yokohama	13,040	14,471	4,526	4,240

*Via Panama canal. †Approximately. ‡Eastern end and railroad. †Western end.

HIGHEST POINT IN EACH STATE.

[From table compiled by the United States geological survey.]

State and place.	Elevation.
Alabama, Cheaw-ha mountain.....	2,407
Alaska, Mount McKinley.....	20,300
Arizona, San Francisco peak.....	12,611
Arkansas, Magazine and Blue mountains.....	2,800
California, Mount Whitney.....	14,501
Colorado, Mounts Elbert and Massive.....	14,402
Connecticut, Bear mountain.....	2,353
Delaware, Centerville.....	440
District of Columbia, Tenley.....	420
Florida, Mount Pleasant.....	301
Georgia, Brasstown Bald mountain.....	4,768
Idaho, Hyndman peak.....	12,076
Illinois, Charles mound, Jo Daviess county.....	1,241
Indiana, Charles, Randolph county.....	1,210
Iowa, five miles southeast of Sibley.....	1,670
Kansas, west boundary no. of Arkansas river.....	4,135
Kentucky, Big Black m't'n, Harlan county.....	4,100
Louisiana, summits in western parishes.....	400
Maine, Mount Katahdin (west).....	5,273
Maryland, Backbone mountain.....	3,340
Massachusetts, Mount Greylock.....	5,505
Michigan, Porcupine mountain.....	2,023
Minnesota, Mesabi range, St. Louis Co.....	1,920
Mississippi, Holly Springs.....	600
Missouri, Tom Sauk mountain.....	1,750
Montana, Granite peak.....	12,850
Nebraska, Banner county.....	5,350
Nevada, Wheeler peak.....	13,058
New Hampshire, Mount Washington.....	6,293
New Jersey, High Point.....	1,809
New Mexico, North Truchas peak.....	13,306
New York, Mount Marcy.....	5,344
North Carolina, Mount Mitchell.....	6,711

State and place.	Elevation.
North Dakota, south part of Bowman county.....	3,550
Ohio, Campbell's hill, Logan county.....	1,550
Oklahoma, West End Cimarron county.....	4,750
Oregon, Mount Hood.....	11,225
Pennsylvania, Blue Knob.....	3,136
Rhode Island, Durdur hill.....	805
South Carolina, Sassafras mountain.....	3,548
Tennessee, Mount Harney peak.....	7,242
Texas, El Capitan, Guadalupe mountain.....	6,636
Utah, King's peak.....	13,493
Vermont, Mount Mansfield.....	4,364
Virginia, Mount Rogers.....	5,719
Washington, Mount Rainier.....	14,408
West Virginia, Spruce Knob.....	4,860
Wisconsin, Rib hill, Marathon county.....	1,940
Wyoming, Mount Gannett.....	13,785
Guam, Mt. Jummulong Mangloc.....	1,274
Hawaii, Mauna Kea.....	13,823
Philippines, Mount Apo.....	9,610
Porto Rico, Luquillo mountains.....	5,352

LONGEST RIVERS IN THE WORLD.

River.	Miles.	River.	Miles.
Mississippi-Mo.	4,194	Mekong	2,600
Nile	3,670	Niger	2,600
Amazon	3,300	Yenesel	2,500

UNITED STATES MORTALITY STATISTICS.

[Bureau of the census report.]

DEATHS PER 1,000 OF POPULATION IN THE REGISTRATION AREA.

Annual average.

	1906-10	1911	1912	1913	1914	1915.
Registration area.....	15.1	14.2	13.9	14.1	13.6	13.5
Registration states.....	15.0	13.9	13.6	13.9	13.4	
Cities in registration states.....	16.3	15.1	14.7	15.0	14.5	
Rural part of registration states.....	13.4	12.7	12.4	12.7	12.3	

The registration area includes twenty-five states, the District of Columbia and thirty-two cities in nonregistration states, containing 66.8 per cent of the total estimated population of continental United States. The total number of deaths reported in this area in 1915 was 823,938. The estimated population of the area was 67,336,992 and the death rate was consequently 13.5 per 1,000 of population.

IN REGISTRATION STATES.

Death rates per 1,000 population.

State.	1908	1909	1910	1911	1912	1913	1914	1915.

DEATH OF JAMES J. HILL.

James J. Hill, builder of the Great Northern railroad, capitalist and one of the most widely known men in the United States, died at his home in St. Paul, Minn., May 29, 1916. Born near Guelph, Ont., Sept. 16, 1838, he was not quite 78 at the time of his death. He established himself in St. Paul in 1856 and engaged in the fuel and transportation business. Mr. Hill secured control of the St. Paul & Pacific railroad, reorganized it as the St. Paul, Minneapolis & Manitoba line and became its general manager and subsequently its president. The road became part of the Great Northern system which Mr.

Hill built up until it reached Puget sound, with branches extending into Canada and steamers running to Japan and China. It was in large part due to his efforts that the northern part of the United States from Lake Superior to the Pacific coast was quickly settled and made productive. Mr. Hill was an able speaker and writer and on subjects dealing with finance, agriculture and industry in general he was regarded as an authority. His fortune at the time of his death was estimated at well above \$100,000,000.

POETS LAUREATE OF ENGLAND.

John Dryden, 1670-1689.	Colley Cibber, 1730-1757.	William Wordsworth, 1843-1850.
Thomas Shadwell, 1659-1692.	William Whitehead, 1758-1785.	Alfred Tennyson, 1850-1892.
Nabum Tate, 1692-1715.	Thomas Warton, 1785-1790.	Alfred Austin, 1896-1913.
Nicholas Rowe, 1715-1718.	Henry James Pye, 1790-1813.	Robert Bridges, 1913.
Laurence Eusden, 1718-1730.	Robert Southey, 1813-1843.	

NATIONAL WEALTH OF THE UNITED STATES.

The national wealth of the United States is estimated by the United States census bureau at \$187,739,000,000, or \$1,965 for each man, woman and child in the country. The total includes the value of all kinds of real, personal and other property, taxable and exempt in the United States exclusive of Alaska, Hawaii, Porto Rico and the Philippines. Omitting the value of property exempt from taxation for the reason that it was not included in the figures for 1850, 1860 and 1870, the wealth for the several census years is as follows:

	Total.	Per cap.
1812.....	\$175,426,000,000	\$1,836
1840.....	100,273,000,000	1,234
1890.....	120,305,000,000	1,083

Year.	Total.	Per cap.
1890.....	\$61,204,000,000	\$971
1880.....	41,642,000,000	830
1870.....	24,055,000,000	624
1860.....	16,160,000,000	514
1850.....	7,126,000,000	308

Including exempt and all other classes of property the estimated national wealth in each of the census years, 1880 to 1912, was:

Year.	Total.	Per cap.
1912.....	\$187,739,000,000	\$1,965
1904.....	107,104,000,000	1,318
1900.....	88,517,000,000	1,165
1890.....	65,037,000,000	1,036
1880.....	43,642,000,000	870

VALUE OF SPECIFIED CLASSES OF PROPERTY (1912).

Furniture, carriages and kindred property.....	8,463,216,222

Total.....187,739,071,096

COMPARATIVE WEALTH OF NATIONS.

In its report on the national wealth of the United States in 1912 the census bureau quotes the following statement concerning the wealth of the principal nations as given by Augustus D. Webb, the fellow of the Royal Statistical Society,

and published in the New Dictionary of Statistics for 1911:	
Country.....	Amount.
United States (1904).....	*\$107,104,192,410
British empire (1903).....	*108,279,625,000
United kingdom.....	*72,997,500,000
Canada.....	*6,569,775,000
Australasia.....	*5,353,150,000
India.....	*14,599,500,000
South Africa.....	*2,919,900,000
Rest of empire.....	*5,839,800,000
France ("recently").....	†46,798,500,000
Denmark (1900).....	†1,946,600,000
Germany (1908).....	†7,864,000,000
Austria (1903).....	†4,518,903,000
New Zealand (1905).....	†1,605,345,000
Cap of Good Hope (1907).....	†428,339,492
*Total wealth. †Private wealth. ‡Fixed property.	

The census bureau also quotes the following figures from Dr. Karl Helfferich's "Germany's Economic Progress and Economic Wealth":

Country.....	Total wealth.
German empire (1910-1911).....	\$68,020,000,000
France (1908).....	to 76,160,000,000
England (not stated).....	55,391,000,000
United States (not stated).....	54,740,000,000
United States (not stated).....	119,000,000,000

VALUE OF PUBLIC PROPERTIES OF STATES (1913).

Under 16 years of age.....	162,246	89,746	72,500

WEIGHTS OF DIAMONDS AND FINENESS OF GOLD.

The weight of diamonds and other precious stones is expressed in metric carats. The unit which has been officially adopted by the United States and most of the countries in Europe. Until July 1, 1913, there were three different standards in use in the United States, although the one generally accepted was 205.3 milligrams. This was usually subdivided on the binary system, the smallest subdivision being 1-64 of the carat. The new carat is subdivided on the decimal system.

	14 39-64		

The fineness of gold is also expressed in carats. Pure gold is said to be twenty-four carats fine. If it contains eight parts of a baser metal or alloy it is only sixteen carats fine. The carats therefore indicate the proportion of pure gold to alloy. Most of the gold used by jewelers is about fourteen carats fine, having ten parts of alloy.

IMMIGRATION INTO THE UNITED STATES.

NICARAGUA CANAL TREATY.

Ratified by United States senate Feb. 13, 1916.

The government of the United States of America and the government of Nicaragua, being animated by the desire to strengthen their ancient and cordial friendship by the most sincere co-operation for all purposes of mutual advantage and interest and to provide for the possible future construction of an interoceanic ship canal by way of the San Juan river and the Great Lake of Nicaragua, or by any route over Nicaraguan territory whenever the construction of such canal shall be deemed by the government of the United States conducive to the interests of both countries, and the government of Nicaragua wishing to facilitate in every way possible the successful maintenance and operation of the Panama canal, the two governments have resolved to conclude a convention to these ends and have accordingly appointed as their plenipotentiaries:

The president of the United States, the Hon. William Jennings Bryan, secretary of state, and the president of Nicaragua, Senor Gen. Don Emiliano Chamorro, envoy extraordinary and minister plenipotentiary of Nicaragua to the United States.

Whereas, Having exhibited to each other their respective full powers, found to be in good and due form, have agreed upon and concluded the following articles:

Article I. The government of Nicaragua grants in perpetuity to the government of the United States, forever free from all taxation or other public charge, the unumbered exclusive rights necessary and convenient to the construction, operation and maintenance of an interoceanic canal by way of the San Juan river and the Great Lake of Nicaragua or by way of any other route over Nicaraguan territory, the details of the terms upon which such canal shall be constructed, operated and maintained to be fixed by mutual consultation between the two governments whenever the construction of such canal shall be decided upon.

Art. II. To enable the government of the United States to protect the Panama canal and the proprietary rights granted to the government of the United States by the foregoing article, and also to enable the government of the United States to take any measure necessary to the ends contemplated herein, the government of Nicaragua hereby leases for a term of ninety-nine years to the government of the United States the islands in the Caribbean sea known as Great Corn island and Little Corn island; and the government of Nicaragua further grants to the government of the United States for a like period of ninety-nine years the right to establish, operate and maintain a naval base at such place on the territory of Nicaragua bordering on the Gulf of Fonseca as the government of the United States may select. The government of the United States may have the option of renewing for a further term of ninety-

nine years the above leases and grants upon the expiration of their respective terms, it being expressly agreed that the territory hereby leased and the naval base which may be maintained under the grant aforesaid shall be subject exclusively to the laws and sovereign authority of the United States during the terms of such lease and grant and of any renewal or renewals thereof.

Art. III. In consideration of the foregoing stipulations and for the purposes contemplated by this convention and for the purposes of reducing the present indebtedness of Nicaragua, the government of the United States shall, on the date of the exchange of ratification of this convention, pay for the benefit of the republic of Nicaragua the sum of \$3,000,000 United States gold coin, of the present weight and fineness, to be deposited to the order of the government of Nicaragua in such bank or banks or with such banking corporation as the government of the United States may determine, to be applied by Nicaragua upon its indebtedness or other public purposes for the advancement of the welfare of Nicaragua in a manner to be determined by the two high contracting parties, all such disbursements to be made by orders drawn by the minister of finance of the republic of Nicaragua and approved by the secretary of state of the United States or by such person as he may designate.

Art. IV. This convention shall be ratified by the high contracting parties in accordance with their respective laws and the ratifications thereof shall be exchanged at Washington as soon as possible.

In witness whereof the respective plenipotentiaries have signed the present treaty and have affixed thereto their seals.

Done at Washington, in duplicate, in the English and the Spanish languages, on the 5th day of August, in the year 1914.

WILLIAM JENNINGS BRYAN (seal).

EMILIANO CHAMORRO (seal).

AMERICAN SENATE AMENDMENT.

That, whereas Costa Rica, Salvador and Honduras have protested against the ratification of said convention in the fear or belief that said convention might in some respect impair existing rights of said states; therefore, it is declared by the senate that in advising and consenting to the ratification of the said convention, as amended, such advice and consent are given with the understanding, to be expressed as a part of the instrument of ratification, that nothing in said convention is intended to affect any existing right of any of the said named states.

RATIFIED BY NICARAGUA.

The state department in Washington was notified April 8 that the treaty had been unanimously ratified by the Nicaraguan senate.

FASTEST VOYAGES ACROSS THE ATLANTIC.

Queenstown to New York, Raunt's Rock to Ambrose channel lightship (short course), 4 days 10 hours 48 minutes, by the Mauretania, Sept. 11-15, 1910; long course (2,891 miles), 4 days 17 hours 6 minutes, Mauretania, Feb. 13-15, 1909.

New York to Queenstown, 4 days 13 hours 41 minutes, by the Mauretania, Sept. 15-20, 1909.

Hamburg to New York, 5 days 11 hours 54 minutes, by the Deutschland, Sept. 2-8, 1908.

Cherbourg to New York, 5 days 11 hours 9 minutes, by the Kronprinzessin Cecilie, Aug. 19-25, 1908.

New York to Cherbourg, 5 days 16 hours, by the Kaiser Wilhelm der Grosse, Jan. 4-10, 1900.

New York to Southampton, 5 days 20 hours, by the Kaiser Wilhelm der Grosse, March 30-April 5, 1900.

Havre to New York, 6 days 1 hour 12 minutes, by La Provence, Sept. 6-13, 1907.

New York to Southampton, 5 days 17 hours 8

minutes, by the Kaiser Wilhelm der Grosse, Nov. 23-29, 1897.

New York to Havre, 6 days 2 hours 48 minutes, by La Provence, May 31-June 6, 1906.

New York to Plymouth (short course), 2,962 miles, 5 days 7 hours 28 minutes, by the Deutschland, Sept. 5-10, 1900; (long course), 3,080 miles, 5 days 9 hours 55 minutes, Kaiser Wilhelm II., Aug. 18-24, 1908.

Plymouth to New York, 5 days 15 hours 46 minutes, by the Deutschland, July 7-12, 1900.

Mobile, Ireland, to Cape Race, N. F., 4 days 10 hours, by the Virginian (turbine), June 9-13, 1905.

The best day's run by any steamer was 676 knots, made by the Mauretania, January, 1911.

Distances: New York to Southampton, 3,100 miles; to Plymouth, 2,962 miles; to Queenstown, 2,800 miles; to Cherbourg, 3,047 miles; to Havre, 3,170 miles; to Hamburg, 3,820 miles.

Swine.....	68,047,000	8.40	571,890,000

The states having the largest number of farm animals of each of the above kinds Jan. 1, 1916, were:

Horses—Iowa, 1,584,000; Illinois, 1,452,000; Texas, 1,180,000; Kansas, 1,109,000; Missouri, 1,094,000; Nebraska, 1,028,000; Ohio, 901,000; Minnesota, 872,000; Indiana, 854,000; North Dakota, 801,000; South Dakota, 759,000; Oklahoma, 743,000; Wisconsin, 712,000; Michigan, 680,000; New York, 609,000; Pennsylvania, 602,000.

Mules—Texas, 768,000; Missouri, 329,000; Georgia, 315,000; Mississippi, 292,000; Oklahoma, 282,000; Alabama, 281,000; Tennessee, 272,000; Kansas, 245,000; Arkansas, 240,000; Kentucky, 229,000.

Milch cows—Wisconsin, 1,675,000; New York, 1,530,000; Iowa, 1,391,000; Minnesota, 1,210,000; Texas, 1,119,000; Illinois, 1,047,000; Pennsylvania, 971,000; Ohio, 922,000; Michigan, 847,000; Missouri, 827,000; Kansas, 762,000; Indiana, 672,000; Nebraska, 650,000; California, 568,000.

Cattle (other than milch cows)—Texas, 5,121,000; Iowa, 2,737,000; Nebraska, 2,237,000; Kansas, 1,945,000; Missouri, 1,555,000; California, 1,554,000; Wisconsin, 1,313,000; Illinois, 1,239,000; Minnesota, 1,232,000; Oklahoma, 1,186,000; Colorado, 1,096,000; New Mexico, 1,090,000; South Dakota, 1,064,000; New York, 939,000; Montana, 894,000; Ohio, 872,000; Arizona, 838,000; Florida, 772,000; Indiana, 738,000; Georgia, 686,000; Pennsylvania, 657,000.

Sheep—Wyoming, 4,338,000; Montana, 3,941,000; New Mexico, 3,440,000; Idaho, 3,102,000; Ohio, 3,067,000; Oregon, 2,563,000; California, 2,450,000; Texas, 2,156,000; Utah, 2,089,000; Arizona, 1,849,000; Colorado, 1,839,000; Nevada, 1,532,000; Missouri, 1,416,000; Iowa, 1,274,000; Indiana, 1,058,000; Illinois, 907,000; Pennsylvania, 856,000; New York, 849,000; West Virginia, 796,000; Virginia, 734,000; Wisconsin, 664,000.

Swine—Iowa, 9,069,000; Missouri, 4,505,000; Illinois, 4,489,000; Nebraska, 4,266,000; Indiana, 4,167,000; Ohio, 3,713,000; Texas, 3,197,000; Kansas, 2,815,000; Georgia, 2,348,000; Wisconsin, 2,142,000; Minnesota, 1,716,000; Alabama, 1,715,000; Kentucky, 1,709,000; Mississippi, 1,615,000; North Carolina, 1,601,000; Arkansas, 1,589,000; Louisiana, 1,553,000; Tennessee, 1,531,000; Oklahoma, 1,491,000; Michigan, 1,462,000; South Dakota, 1,314,000; Pennsylvania, 1,210,000; West Virginia, 1,027,000.

FARMS AND FARM PROPERTY IN THE UNITED STATES.

[From census bureau report.]

SUMMARY FOR 1910 AND 1900.

	1910 (Apr. 15).	1900 (June 1).	Amount.	Increase.*	P'r. ct.
Population	91,972,266	75,994,575	15,977,691	21.0	
Urban population†.....	42,623,383	31,609,645	11,013,738	34.8	
Rural population†.....	49,348,883	44,384,930	4,963,953	11.2	
Number of all farms.....	5,361,502	5,737,372	624,130	10.9	
Land area of the country, acres.....	1,903,289,600	1,903,461,760	172,160		
Land in farms, acres.....	878,798,325	838,581,774	40,206,551	4.8	
Improved land in farms, acres.....	478,451,750	414,498,487	63,953,263	15.4	
Average acreage per farm.....	135.1	146.2	11.1	-5.5	
Average improved acreage per farm.....	75.2	72.2	3.0	4.2	
Per cent of total land area in farms.....	46.2	44.1			
Per cent of land in farms improved.....	54.4	49.4			
Per cent of total land area improved.....	25.1	21.8			
Value of farm property, total.....	\$40,991,449,090	\$20,439,901,164	\$20,551,547,926	100.5	
Land	28,475,674,169	13,058,007,995	15,417,666,174	118.1	
Buildings	6,325,451,528	3,556,639,496	2,768,812,032	77.9	
Implements and machinery.....	1,265,149,783	749,775,970	515,373,813	68.7	
Domestic animals, poultry and bees.....	4,925,173,610	3,075,477,703	1,849,695,907	60.1	
Average value of all property per farm.....	6.444	3.563	2.881	80.9	
Av. value of all property per acre of land in farms.....	46.64	24.37	22.27	91.4	
Average value of land per acre.....	32.40	15.57	16.83	108.1	

*A minus sign (—) denotes decrease. †Population of incorporated places having, in 1910, 2,500 or more inhabitants. The figure for 1900 does not represent the urban population according to that

census, but is the population in that year of the territory classified as urban in 1910. ‡Total, exclusive of urban.

*Kafir corn and milo maize are cereals belonging to the millet family and used in this country mainly as feed for live stock. They are making headway as dry farming crops in sections of light rainfall.

LARGEST YIELD PER ACRE OF VARIOUS CROPS.

[Reported by United States department of agriculture.]

(The figures are for 1915 and are in each case only for areas of from one to fifty acres.)

Wheat—117 bushels, Island county, Wash.; second largest, 108 bushels, Twin Falls county, Idaho.

Oats—132.7 bushels, Skagit county, Wash.; second, 166 bushels, Logan county, Col.

Barley—122.5 bushels, Twin Falls county, Idaho; second, 116 bushels, same county.

Flaxseed—30 bushels, Fergus and Teton counties, Mont.; second, 29 bushels, Potter county, S. D. and Ottertall county, Minn.

White potatoes—790 bushels, Eldorado county, Cal.; second, 743 bushels, Yakima county, Wash.

Sweet potatoes—600 bushels, Roane county, Tenn.; second, 575 bushels, Williamsburg county, S. C.

Tobacco—3,000 pounds, Effingham county, Ga.; second 2,500 pounds, Jefferson county, Ind.

Cotton—6,000 pounds, Toombs county, Ga.; second, 5,000 pounds, Fannin county, Tex.

Rye—54 bushels, Lincoln county, Neb.; second, 47 bushels, Roseau county, Minn.

HISTORY OF THE COMMISSION FORM OF GOVERNMENT.

[From census bureau report.]

Washington, D. C., which came under the commission plan on June 11, 1878, by act of congress, was the first city in the United States to adopt permanently this form of government. The application of the commission plan to the capital of the United States grew out of the relation of the national government to the federal city, and the capital was not at that time considered an example to other municipalities. The real beginning of the movement toward commission government in American cities was made in Galveston, Tex., in 1901. A destructive storm having overwhelmed the city in 1900, leaving it prostrate financially, the government was placed in the hands of a commission in the following year. The experience of Galveston under the commission plan was such that in 1905 it was adopted by Houston, Tex. Three more cities adopted the commission form in the calendar year 1907, two in 1908, eight in 1909, seven in 1910, fourteen in 1911, fourteen in 1912, twenty in 1913, seven in 1914 and three in the early part of 1915. According to the latest information available six more such cities recently have adopted the plan by popular vote, and in four of them it already has gone into effect. Thus there are eighty-five cities of more than 30,000 inhabitants which are governed by commissions at this time (Feb. 1, 1916). These cities vary in population from 32,809 inhabitants in Boise, Idaho, to 465,000 in Buffalo, N. Y. and are scattered throughout twenty-seven states, in addition to the District of Columbia, ranging from Massachusetts to Washington and from South Carolina to California. Five of them are in New England, thirty in other northern states east of the Mississippi, sixteen in northern states between the Mississippi river and the Pacific coast states, nine in the Pacific coast states and twenty-five in the south.

The total population of the eighty-five commission cities on Feb. 1, 1916, is estimated at 7,677,000, or 41 per cent of the aggregate population of the 195 cities of 30,000 to 500,000 inhabitants which were covered by the bureau's latest inquiry. Confining the figures to cities of 30,000 to 300,000 inhabitants, there are now operating under the commission form eighty-two such cities, with a total population of 6,480,000, or 45 per cent of the aggregate population of the 184 cities within these size limits. During the last ten years the commission plan also has been adopted by many cities of fewer than 30,000 inhabitants.

COMMISSION-MANAGER CITIES.

Corrected to April 1, 1916.

City.	Population.	Date in operation.
Sumter, S. C.	8,109	Jan., 1913

Alpena, Mich.	12,706	April, 1916

City.	Population.	Date in operation.
Santa Barbara, Cal.	11,659	Jan. 1, 1916
San Angelo, Tex.	10,321	April, 1916
St. Augustine, Fla.	5,494	April, 1915
Westerville, O.	1,903	Jan. 1, 1916
Elizabeth City, N. C.	8,412	1915
Webster City, Iowa.	5,208	Jan. 1, 1916
San Jose, Cal.	28,946	July 1, 1916
Watertown, N. Y.	26,730	Jan. 1, 1917
Portsmouth, Va.	33,190	
Albion, Mich.	5,533	Jan. 1, 1916
Brownsville, Tex.	10,517	Jan. 1, 1916

In addition there are officers called managers in the following towns, which do not have commission-manager charters or lack some of the fundamental features of the plan: Staunton and Fredericksburg, Va.; Norwood, Mass.; Inglewood and San Diego, Cal.; Glencoe and River Forest, Ill.; Grove City and Titusville, Pa.; Morris, Minn.; Clarinda and Iowa Falls, Iowa; Clark, S. D.; Tucson, Ariz.; Roswell, N. M.; Terrell, Tex.; Grand Haven, Mich.; Alhambra, Cal. In Canada: Port Arthur, Ont., and Maisonneuve, P. Q.

There are statewide laws permitting cities to adopt this plan in Massachusetts, New York, Virginia, Ohio and Iowa.

Salaries of city managers range from \$1,500 to \$12,500 a year. H. M. Waite of Dayton, O., receiving the latter sum.

MICHIGAN COPPER PRODUCTION IN 1915.

[From U. S. geological survey report.]

The total refined copper produced amounted to 238,956,410 pounds, as compared with 153,009,748 pounds in 1914 and with 231,112,228 pounds in 1912, the record production previous to 1915. At an average price of 17.5 cents per pound the copper output of Michigan had a value of about \$41,800,000 for 1915. The copper mines produced 585,933 ounces of silver in 1915, valued at \$297,068.

TIN PLATE AND TERNE PLATE PRODUCTION, 1914.

[From U. S. census report.]

Returns were received from thirty-one establishments engaged in the industry in 1914, whose output of coated plates amounted to 2,039,566,144 pounds, valued at \$66,270,345, comprising 1,901,331,895 pounds of tin plate, valued at \$60,255,024, and 138,234,249 pounds of terne plate (steel or iron plates or sheets coated with an alloy of tin and lead, known as terne mixture), valued at \$6,015,321. The tin plate product comprised 1,855,892,526 pounds of coke plate, valued at \$58,450,853, and 45,439,369 pounds of charcoal plate (steel and iron), valued at \$1,807,171. The value

of all other products was \$2,072,617, making a total of \$68,342,962 for the value of all products in 1914.

Of the thirty-one establishments reported for 1914, thirteen were located in Pennsylvania, eight in West Virginia, seven in Ohio and one each in Illinois, Indiana and Maryland.

PRODUCTION BY CENSUS YEARS.

THE SHERMAN ANTITRUST LAW.

Passed by the 51st congress and approved July 2, 1890.

Section 1. Every contract, combination in the form of trust or otherwise or conspiracy in restraint of trade or commerce among the several states or with foreign nations is hereby declared to be illegal. Every person who shall make any such contract or engage in any such combination or conspiracy shall be deemed guilty of a misdemeanor, and on conviction thereof shall be punished by fine not exceeding \$5,000 or by imprisonment not exceeding one year, or by both said punishments, in the discretion of the court.

Sec. 2. Every person who shall monopolize or attempt to monopolize or combine or conspire with any person or persons to monopolize any part of the trade or commerce among the several states or with foreign nations shall be deemed guilty of a misdemeanor, and on conviction thereof shall be punished by fine not exceeding \$5,000 or by imprisonment not exceeding one year, or by both said punishments, in the discretion of the court.

Sec. 3. Every contract, combination in form of trust or otherwise or conspiracy in restraint of trade or commerce in any territory of the United States or of the District of Columbia, or in restraint of trade or commerce between any such territory and another, or between any such territory or territories and any state or states or the District of Columbia or with foreign nations, or between the District of Columbia and any state or states or foreign nations, is hereby declared illegal. Every person who shall make any such contract or engage in any such combination or conspiracy shall be deemed guilty of a misdemeanor, and on conviction thereof shall be punished by fine not exceeding \$5,000 or by imprisonment not exceeding one year, or by both said punishments, in the discretion of the court.

Sec. 4. The several Circuit courts of the United States are hereby invested with jurisdiction to prevent or restrain violations of this act; and it shall be the duty of the several district attorneys of the United States, in their respective districts, under the direction of the attorney-general, to institute proceedings in equity to prevent and restrain such violations. Such proceedings may be by way of petition

setting forth the case and praying that such violation shall be enjoined or otherwise prohibited. When the parties complained of shall have been duly notified of such petition the court shall proceed as soon as may be to the hearing and determination of the case; and pending such petition and before final decree the court may at any time make such temporary restraining order or prohibition as shall be deemed just in the premises.

Sec. 5. Whenever it shall appear to the court before which any proceeding under section 4 of this act may be pending that the ends of justice require that other parties should be brought before the court, the court may cause them to be summoned, whether they reside in the district in which the court is held or not; and subpoenas to that end may be served in any district by the marshal thereof.

Sec. 6. Any property owned under any contract or by any combination or pursuant to any conspiracy (and being the subject thereof) mentioned in section 1 of this act and being in the course of transportation from one state to another or to a foreign country shall be forfeited to the United States and may be seized and condemned by like proceedings as those provided by law for the forfeiture, seizure and condemnation of property imported into the United States contrary to law.

Sec. 7. Any person who shall be injured in his business or property by any other person or corporation by reason of anything forbidden or declared unlawful by this act may sue therefor in any Circuit court of the United States in the district in which the defendant resides or is found, without respect to the amount in controversy, and shall recover threefold the damages by him sustained and the cost of suit, including a reasonable attorney's fee.

Sec. 8. That the word "person" or "persons" wherever used in this act be deemed to include corporations and associations existing under or authorized by the laws of either the United States, the laws of any of the territories, the laws of any state or the laws of any foreign country.

THE MONROE AND DRAGO DOCTRINES.

The "Monroe doctrine" was enunciated by President Monroe in his message to congress Dec. 2, 1823. Referring to steps taken to arrange the respective rights of Russia, Great Britain and the United States on the northwest coast of this continent, the president went on to say:

"In the discussions to which this interest has given rise, and in the arrangements by which they may terminate, the occasion has been deemed proper for asserting, as a principle in which the rights and interests of the United States are involved, that the American continents, by the free and independent condition which they have assumed and maintain, are henceforth not to be considered as subjects for future colonization by any European power."
* * * We owe it, therefore, to candor and to the amicable relations existing between the United States and those powers to declare that we should consider any attempt on their part to extend their system to any portion of this hemisphere as dangerous to our peace and safety. With the existing colonies or dependencies of any European power we have not interfered and shall not interfere. But with the governments who have declared their independence and maintain it, and whose independence we have, on great consideration and on just principles, acknowledged, we could not view any interposition for the purpose of oppressing them or controlling in any other manner their destiny by any European power in any other light than as the manifestation of an unfriendly disposition toward the United States."

DRAGO DOCTRINE.

When in the winter of 1902-03 Germany, Britain and Italy blockaded the ports of Ven-

ezuela in attempt to make the latter country settle up its debts Dr. L. F. Drago, a noted jurist of Argentina, maintained that force cannot be used by one power to collect money owing to its citizens by another power. Prominence was given to the contention by the fact that it was officially upheld by Argentina and favored by other South American republics. The principle embodied has become generally known as the "Drago doctrine."

LODGE RESOLUTION.

In connection with the reported attempt of Japan to obtain land for the establishment of a naval base in Magdalena bay, on the western coast of Mexico, the senate of the United States adopted the following resolution Aug. 2, 1912:

"Resolved, That when any harbor or other place in the American continents is so situated that the occupation thereof for naval or military purposes might threaten the communications or the safety of the United States, the government of the United States could not see without grave concern the possession of such harbor or other place by any corporation or association which has such relation to another government, not American, as to give that government practical power of control for national purposes."

THE PULSE AT DIFFERENT AGES.

Newborn infants, per minute.....	130 to 140
First year, per minute.....	115 to 130
Second year, per minute.....	95 to 110
Third year, per minute.....	85 to 95
Seventh to fourteenth year, per minute.....	80 to 90

In old age, per minute.....	60 to 75

Foreign Governments.

Rulers and cabinets of the leading countries, with the latest statistics of their area, population, exports and imports. Revised to Dec. 11, 1916.

GREAT BRITAIN.

Government—King, George V.; heir-apparent, Edward Albert, prince of Wales.
Prime Minister—David Lloyd George.
Minister Without Portfolio—Arthur Henderson.
Lord High Chancellor—Sir Robert B. Finlay.
Minister Without Portfolio—Lord Milner.
Lord President of the Council—Earl Curzon.
Chancellor of the Exchequer—Andrew Bonar Law.

Foreign Affairs Secretary—Arthur J. Balfour.
Home Affairs Secretary—Sir George Cave.
Colonial Secretary—Walter Hume Long.
Secretary for India—Joseph Austen Chamberlain.
Secretary for War—Earl of Derby.
Minister of Munitions—Dr. Christopher Addison.
First Lord of the Admiralty—Sir Edward Carson.
President of the Board of Trade—Sir Albert Stanley.
President of the Local Government Board—Lord Rhonda.

Postmaster-General—Albert Illingworth.
Chief Secretary for Ireland—Henry E. Duke.
Secretary for Scotland—R. Munro.
President Board of Agriculture—Rowland Prothero.
First Commissioner of Works—Sir Alfred M. Mond.

Minister of Blockade—Lord Robert Cecil.
Attorney-General—Sir Frederick E. Smith.
Minister of Pensions—George N. Barnes.
Chancellor of the Duchy of Lancaster—Sir Frederick Lawley.

Solicitor-General—Gordon Hewart.
Lord Lieutenant of Ireland—Lord Wimborne.
Lord Advocate—James A. Clyde.
Minister of Labor—John Hodge.
Food Controller—Lord Devonport.
Shipping Controller—Sir Joseph P. Maclay.
President Board of Education—Herbert A. L. Fisher.

*Members war cabinet or council.

The British parliament, in which the highest legislative authority is vested, consists of the house of lords and the house of commons.

Area and Population—The total area of England, Scotland, Ireland, Wales, the Isle of Man and the Channel Islands is 121,391 square miles; the total for the British empire is 11,498,825 square miles. The total population of the empire in 1911 was 421,178,965. The population of the united kingdom April 3, 1911, when the last census was taken, was: England, 34,945,290; Wales, 2,025,202; Scotland, 4,759,445; Ireland, 4,390,219; Isle of Man, 52,034; Channel Islands, 96,900. Total, 45,369,090.

The cities of England and Wales having more than 100,000 population each were in 1911:

London	4,522,961	Sunderland	151,162
Liverpool	746,566	Oldham	147,495
Manchester	714,427	Blackburn	133,064
Birmingham	525,960	Brighton	131,250
Leeds	445,568	Gateshead	116,928
Sheffield	454,853	Derby	123,433
Bristol	357,059	Southampton	119,039
West Ham	239,102	Plymouth	112,042
Bradford	238,505	Norwich	121,493
Newcastle	266,671	Birkenhead	130,832
Kingston-upon-		Preston	117,113
Hull	278,024	Halifax	101,556
Nottingham	259,942	Burnley	106,337
Leicester	227,242	Middlesbrough	104,787
Salford	231,330	Stockport	108,693
Portsmouth	231,165	South Shields	106,649
Stoke-on-Trent	234,552	Coventry	106,377
Cardiff	132,280	Huddersfield	107,825
Bolton	180,885	Swansea	114,673
Croydon	169,559		

The figures given in the above table for London are for the inner or registration district alone. Including the outer belt of suburban towns, which

are within the metropolitan police district, the population of "Greater London" April 3, 1911, was 7,251,358.

Population of the chief cities in Scotland in 1911:	
Glasgow	784,455
Edinburgh	320,315
Aberdeen	133,084
Dundee	185,000
Paisley	84,477
Leith	80,489
Greenock	68,941
Perth	36,995
Kilmarnock	34,729
Govan	33,725
Partick	68,848
Coatbridge	43,237

The total population of Ireland in 1911 was 4,380,219, against a total of 4,453,775 in 1901.

Population of the chief cities of Ireland in 1911:	
Dublin	309,272
Belfast	385,492
Cork	76,632
Limerick	83,403
Londonderry	40,799
Waterford	27,430
Galway	15,936
Dundalk	13,128
Drogheda	12,425
Newry	12,456
Lurgan	12,135
Lisburn	12,172
Wexford	11,455
Sligo	11,163
Kilkenny	13,112
Kingstown	17,227
Portadown	11,727
Ballymena	11,376
Clonmel	10,277

Exports and Imports—The total imports of the British empire in 1915 were \$6,893,360,500; of the united kingdom, \$4,372,724,000. Total exports of the empire, \$5,051,696,600; of the united kingdom, \$2,647,115,700. The total exports of the united kingdom to the United States in 1916 were \$308,443,223; imports, \$1,518,046,203.

INDIA.

Government—Governor-general, Baron Frederic Chelmsford. Legislative authority vested in a council of sixty-eight members, thirty-six being official and thirty-two nonofficial.

Area and Population—The total area of British India is 1,773,088 square miles. The total population according to the census of March 10, 1911, is 315,132,527, divided among the provinces as follows:

Ajmer-Marwara	501,395	Madras	41,405,404
Assam	34,018,527	Northwest prov.	
Bengal	52,668,269	inces	2,196,933
Bombay presi-		United prov.	
dency	19,672,642	inces	47,182,044
Burma	12,115,217	Punjab	19,974,956
Central prov.		Baluchistan	414,412
inces	13,916,308	Andamans	26,459
Coorg	174,976		

Population of the large cities in 1911:

Calcutta	1,222,313	Delhi	232,837
Bombay	979,445	Lahore	228,687
Madras	518,600	Cawnpore	178,557
Haidarabad	500,623	Agra	185,449
Lucknow	259,758	Ahmedabad	215,835
Rangoon	293,316	Allahabad	171,697
Benares	203,804	Poona	153,586

Imports and Exports—Imports in 1915, \$589,368,700; exports, \$653,278,900. Imports from the United States, \$19,298,150; exports, \$71,745,626.

DOMINION OF CANADA.

Government—The Canadian parliament consists of eighty-seven life senators and a house of commons of 221 members, there being one representative for every 25,367 of population, based upon the census of 1901. The governor-general is the duke of Devonshire, appointed in 1916; and the council is made up of the following: Premier, Robert L. Borden; minister of agriculture, Martin Burrell; customs, John D. Reid; finance, T. White; inland revenue, E. L. Fataud; interior, William J. Roche; justice, C. J. Doherty; labor, T. W. Crothers; marine, fisheries and naval service, J. D. Hazen; militia (vacancy); postmaster-general (vacancy); public works, Robert Rogers; railways and canals, Francis Cochrane; secretary of state and minister of mines, Pierre Blondin; trade and commerce, George E. Foster; ministers without portfolio, A. E. Kemp.

J. A. Lougheed, George H. Perley. The governor-general gets a salary of \$50,000 a year, the premier \$12,000 and the other ministers \$7,000 each.

Area and Population—The total area of Canada is 3,729,665 square miles, of which 3,603,910 is land area.

Area of provinces:

Province.	Sq. miles.	Province.	Sq. miles.
Alberta	255,285.00	N. Brunswick	27,985.11

COMMONWEALTH OF AUSTRALIA.
 July 9, 1900, the British parliament passed an act empowering the six provinces of Australia to form a federal union and Jan. 1, 1901, the new commonwealth was proclaimed at Sydney, N. S. W. Its first parliament was opened May 9, 1901, by the prince of Wales (now George V.), heir-apparent to the British throne, acting for his father, King Edward VII. The capital at present is in Melbourne.

Government.—The federal parliament is made up of a senate of thirty-six members, six from each original state, and a house of representatives of seventy-five members, apportioned as follows: New South Wales, 27; Victoria, 21; Queensland, 10; South Australia, 7; Western Australia, 5; Tasmania, 5. The king is represented by the governor-general. He and the council of seven ministers exercise the executive power. The governor-general is paid a salary of \$50,000 a year. The governor-general is Ronald C. Munro-Ferguson. The ministers are: W. M. Hughes, prime minister and treasurer; F. G. Tudor, trade and customs; G. F. Pearce, defense; W. Webster, postmaster-general; Hugh Mahon, external affairs; King O'Malley, home affairs; W. G. Higgs, treasurer; J. A. Jensen, navy.

Area and Population.—The commonwealth has a total area of 2,974,581 square miles, divided among the states as follows:
 New South Wales, 310,372
 Victoria, 87,884
 Queensland, 670,550
 South Australia,, 380,070
 North'n Territory, 523,620
 West'n Australia, 975,920
 Tasmania, 26,215

The total population of the commonwealth as enumerated April 2, 1911, was 4,455,005, divided among the states as follows:
 New South Wales, 1,648,448
 Victoria, 1,315,551
 Queensland, 605,813
 South Australia, 408,558
 North'n Territory, 3,310

The population of Melbourne in 1911 was 600,160; Sydney (1911), 636,353; Adelaide (1911), 192,429; Wellington (1911), 70,729; Brisbane (1911), 143,514.
Exports and Imports.—The total exports of the states in the commonwealth in 1915 were \$333,001,500; total imports, \$321,903,700. Australia in 1916 exported merchandise valued at \$54,174,324 to the United States and imported merchandise worth \$59,245,084.

UNION OF SOUTH AFRICA.

Sept. 29, 1909, the British parliament passed an act empowering the four self-governing colonies of South Africa—Cape of Good Hope, Natal, Transvaal and Orange Free State—to form a federal government to be known as the Union of South Africa. This was proclaimed May 31, 1910, at Pretoria, the seat of government, other services taking place at Cape Town, the seat of the legislature.

The executive government is vested in the king, represented by a governor-general, and an executive council and in ten ministers of state. Legislative power is vested in a parliament consisting of a senate and a house of assembly. The senate contains forty members, eight of whom are nominated by the governor-general in council and thirty-two elected by the four provinces, each of which is entitled to eight senators. The assembly consists of 121 members, chosen in electoral divisions as follows: The Cape of Good Hope, 51; Natal, 17; Transvaal, 36; Orange Free State, 17. Senators are elected for ten years and

assemblymen for five. The English and Dutch languages are both official.

Imports and Exports.—The total imports of the four states in 1915 were valued at \$159,053,500 and the exports at \$314,871,000. Exports to the United States in 1915, \$4,947,311; imports, \$14,727,964.

Governor-General.—Viscount Buxton of Newtimber. **Cabinet:** Premier and minister of native affairs, Gen. Louis Botha; finance, railways and harbors, Henry Burton; defense, J. C. Smuts; railways, Henry Burton; justice, N. J. de Wet; education and mines, F. S. Malan; interior and public works, Sir T. Watt; agriculture, H. C. Van Heerden; lands, H. Mentz; posts and telegraphs, Sir Mairing Beck; without portfolio, J. A. C. Graaf.

Province.	Area.	Population.
Cape of Good Hope.....	276,995	2,564,965
Natal	85,290	1,194,043
Transvaal	110,426	1,686,212
Orange Free State.....	50,389	523,174
Total	473,100	5,973,394

ALBANIA.

Albania is an autonomous kingdom created at a conference of ambassadors in London May 30, 1913, as a result of the Balkan wars. Its territory formerly comprised the Turkish provinces of Scutari and Yanina. It has an area of 11,317 square miles and a population of nearly 1,000,000. Until the outbreak of the European war in August, 1914, it was governed by a king (impret) and an international commission. William I., prince of Wied, was the first king, but he was on the throne only half a year, an insurrection compelling him to leave the capital, Durazzo, Sept. 2, 1914. Since then the country has been in a state of disorder. The Austrians captured the greater part of it in the winter of 1915-1916.

AUSTRIA-HUNGARY.

Government.—Emperor of Austria and king of Hungary, Charles I. (Charles Francis Joseph); heir-apparent, Archduke Francis Joseph Otto. **Joint or common ministry:** Foreign Affairs—Count Czernin von Chudenitz. War—Gen. Krobatin. Finance—Baron Stephan Burian.

Cabinet for Austria: Premier—Count Clarm-Martiniz. Interior—Herr von Handel. Commerce—Dr. Urban. Finance—Alexander Spitzmueller, Railways—Dr. Z. von Forster. Instruction—Baron Hussarek. Agriculture—Count Clarm-Martiniz. Justice—Herr von Schenk. National Defense—Gen. Friedrich Baron Georgl. Labor—Herr von Truka.

Cabinet for Hungary: Premier—Count Stephan Tisza. Interior—Johann Sandor. Finance—Johann Teleszky. Defense—Samuel Hazay. Justice—Dr. Eugen Balogh. Commerce—Baron John Harkanyi. Agriculture—Baron Emeric Ghillanyi. Education—Dr. Adalbert Yankovich. Minister for Croatia and Slavonia—Emmerich von Hildeghety.

The empire of Austria and the kingdom of Hungary are sovereign states, each with its own constitution, legislative bodies and system of administration, co-ordinate in rank and mutually independent within the domain of home affairs. Foreign representation (embassies and consulates), the army and navy, customs (import and export duties) and the administration of the annexed provinces (Bosnia and Herzegovina) are, however, conducted in common. Legislation on matters affecting the interests of the dual monarchy as a whole is entrusted to the delegations—two bodies of sixty members each, chosen from among members of the two legislative chambers of Austria and Hungary respectively.

Area and Population.—Area of Austria, 115,903 square miles; of Hungary, 125,395 square miles.

The population of Austria in 1910 was 28,324,940. The population of Hungary in 1910 was 20,886,787. Total population for both countries in 1910 was 49,211,727.

Largest cities of Austria in 1910:

Vienna	2,081,498	Braun	125,737
Trieste	229,475	Czernowitz	87,128
Prague	223,741	Pilsen	80,343
Lemberg	206,113	Linz	67,817
Cracow (1909)	151,886	Pola	58,081
Gratz	151,781		

Largest cities of Hungary in 1910:

Budapest	880,371	Pozsony	78,293
Szeged	118,328	Temesvar	72,555
Szabodka	94,610	Kecskemet	66,834
Debreczen	92,729	Arad	63,166
Zagrab	79,038	Hodmevazsaraholy	62,445

Imports and Exports—The value of the imports into the Austro-Hungarian customs territory in 1914 was \$573,580,000; exports, \$419,980,000. Chief imports are cotton, coal, wool, maize, tobacco, coffee and wines; principal exports lumber and wool manufactures, sugar, eggs, barley, lignite, malt, leather, gloves and shoes. Imports from the United States in 1916, \$152,929; exports to United States, \$1,481,570.

BELGIUM.

Government—King, Albert I. Cabinet: Premier and Minister of War—Ch. de Broqueville. Foreign Affairs—Baron Beyens. Interior—Paul Berryer. Finance—M. Levie. Justice—H. Carton de Wiart. Agriculture and Public Works—G. Helleputte. Industry and Labor—M. A. Hubert. Science and Arts—P. Poulet. Colonies—J. Renkin. Railways—A. Van de Vyvere. Marine, Posts and Telegraphs—P. Segers.

The legislative power is vested in the king, senate and chamber of representatives. The senate has 120 members and the chamber 186, or one for every 40,000 inhabitants.

Area and Population—Total area, 11,373 square miles. Total population in 1910, 7,423,784; estimated population, 1912, 7,551,357. Population of the largest cities Dec. 31, 1912:

Antwerp	312,884	Liege	170,634
Brussels (capital)	663,647	Ghent	167,477

Imports and Exports—The imports in the first six months of 1914 amounted to \$460,630,000 and the exports to \$370,795,000. The trade with the United States in 1916 was: Imports, \$21,844,638; exports, \$1,478,579. Chief imports in normal times are cereals, textiles and metal goods; chief exports, cereals, raw textiles, furs, iron, glass, hides, chemicals and machinery.

BULGARIA.

Government—King, Ferdinand. Legislation is enacted by the soubazie, a single chamber of 209 members elected for five years. Bulgaria in 1908 declared itself independent of Turkey, under the suzerainty of which country it had been an autonomous principality. Premier—M. Radoslavoff.

Area and Population—Area, 43,310 square miles. Population in 1914, 4,752,997. Population of Sofia, the capital, 102,769.

Imports and Exports—Exports in 1914, \$28,812,300; imports, \$44,586,800. Exports to the United States in 1916, \$95,395; imports, \$44,223. The exports are mainly cereals and the imports textiles.

DENMARK.

Government—King, Christian X.; heir-apparent, Prince Christian Frederick. Cabinet: Premier and Minister of Justice—Carl Theodor. Finance—Christopher Hansen. Foreign Affairs—Erik Seavenius. Home Affairs—Ove Rode. Agriculture—Kr. Pederson. Instruction—Rev. K. Nielsen. Commerce—J. H. Juergensen. Defense—P. Munch.

Legislative authority is vested in the landsting and folkething. The former, which is the upper house, has 66 members, twelve of whom

are appointed for life, the remainder being elected for terms of eight years. The folkething, or lower house, has 114 members, each elected for three years.

Area and Population—Denmark's area is 15,582 square miles and total population in 1911, 2,775,076. Copenhagen, the capital, has a population of 462,161; with suburbs, 637,453.

Imports and Exports—Total exports in 1914, \$240,357,200; imports, \$220,913,300. The imports from the United States in 1916 were \$55,662,411; exports, \$3,421,921. Leading articles of export are butter, pork, eggs and lard; of import, textiles, cereals, wood, iron manufactures and coal.

FRANCE.

Government—President, Raymond Poincare; term expires 1920.

Premier and Minister of Foreign Affairs—*Aristide Briand.

Justice—Rene Viviani.

Public Instruction—Prof. Paul Painleve.

Colonies—Gaston Doumergue.

Finance—*Alexandre Ribot.

War—*Gen. Hubert L. Yautey.

Marine—*Rear-Admiral Lacaze.

Munitions—*Albert Thomas.

Interior—Louis J. Malvy.

Public Works—Marcel Sembat.

Commerce and Agriculture—Etienne Clementel.

Labor and National Subsistence—M. Herriot.

Without Portfolio—Jules Guesde, Emil Combes, Leon Bourgeois, Denys Cochin, M. de Freycinet.

*Cabinet of national defense.

Legislative authority is vested in the chamber of deputies and the senate. The former has 602 members, each of whom is elected for four years. The senate has 300 members, elected for nine years. The presidential term is seven years.

Area and Population—France has a total area of 207,054 square miles. The area of the French colonies and dependencies throughout the world is 4,367,746 square miles. Total population (1911) of France proper, 39,601,509. Population of the principal cities in 1911:

Paris	2,888,110	Nantes	170,585
Marseilles	550,619	Toulouse	149,576
Lyons	523,796	St. Etienne	148,656
Bordeaux	261,678	Nice	142,940
Lille	217,807	Havre	136,159

Imports and Exports—The total imports in 1915 amounted to \$1,614,905,000; exports, \$604,460,000. Exports to the United States in 1916, \$102,077,620; imports from, \$630,672,504. The chief exports are textiles, wine, raw silk, wool, small wares and leather; imports, wine, raw wool, raw silk, timber and wood, leather, skins and linen.

GERMANY.

Government—Emperor and king of Prussia, Wilhelm II.; heir-apparent, Prince Friedrich Wilhelm. Cabinet officers: Imperial Chancellor—Dr. Theobald von Bethmann-Hollweg.

Foreign Affairs—Dr. Alfred Zimmermann.

Interior—Herr Dr. Carl Helfferich.

Navy—Admiral Eduard von Capelle.

Justice—Herr Dr. Lisso.

Colonies—Herr Dr. Solf.

Treasury—Count Siegfried von Roedern.

Postal Affairs—Dr. Reinhold Kraetke.

Commerce—Herr Reinhold Sydow.

President of Imperial Railway Administration—Herr von Breitenbach.

Railways—Herr Wackerzapp.

Imperial Exchequer—Herr von Magdeburg.

Imperial Bank—Herr Havenstein.

The Prussian minister of war, Lieut.-Gen. von Stein, while nominally having jurisdiction over Prussian army affairs only, represents the imperial government in the reichstag in military matters and is, for all practical purposes, German secretary of war. Of the various independent states of Germany only the kingdoms of Prussia, Saxony, Bavaria and Wurttemberg have their own ministers of war.

Legislative authority is vested in a bundesrat, or senate, of 61 members, and a reichstag, or

house, of 397 members. The latter are elected for five year terms on a popular franchise and the senators are appointed from the state governments for each session.

Area and Population—The area of the states in the empire is 208,780 square miles; area of dependencies about 1,027,820 square miles; grand total, 1,236,600 square miles.

The last federal census was taken Dec. 1, 1910. According to this the population of the empire was 64,925,993. The estimated population of the foreign dependencies is 13,946,200. State population in 1910:

Prussia	40,165,219	Saxe-Meiningen	278,762
Bavaria	6,887,291	Anhalt	331,128
Württemberg	2,437,574	Saxe-Coburg-	
Baden	2,142,833	Gotha	257,177
Saxony	4,806,661	Saxe-Altenburg	216,128
Hesse	1,282,219	Lippe	150,937
Mecklenburg-		Schwarzburg-	
Schwerin	639,958	Rud	100,702
Oldenburg	483,042	Schwarzburg-	
Brunswick	494,339	Sond	89,917
Saxony	417,149	Reuss, junior	
Mecklenburg-		branch	152,752
Strelitz	106,442	Schaumburg-	
Hamburg	1,014,664	Lippe	46,652
Reuss, elder		Waldeck	61,707
branch	72,769	Alsace-Lorraine	1,874,014
Lubeck	116,599		
Bremen	295,715	Total	64,925,293

German cities having more than 150,000 inhabitants in 1910 included the following:

Berlin	2,071,257	Elxdorf	237,289
Hamburg	931,035	Stettin	236,113
Munich	596,467	Duisburg	229,483
Leipzig	589,850	Dortmund	214,226
Dresden	548,308	Kiel	211,627
Cologne	516,527	Mannheim	193,902
Breslau	512,105	Halle-on-Saale	180,843
Frankfurt am.M.	414,576	Strassburg	178,891
Duesseldorf	358,728	Schoeneberg	172,823
Nurnberg	333,142	Altona	172,628
Charlottenburg	305,978	Danzig	170,837
Hanover	302,376	Eberfeld	170,195
Essen	294,653	Geleckenkirchen	169,513
Chemnitz	287,807	Barmen	169,214
Stuttgart	286,218	Posen	156,691
Magdeburg	279,629	Aachen	156,143
Bremen	247,437	Cassel	153,196
Koenigsberg	245,994		

Exports and Imports—Total exports (first six months of 1914), \$1,246,240,000; total imports, \$1,346,570,000. No details of Germany's commerce since the war began have been made public.

During the fiscal year ended June 30, 1916, Germany exported \$13,945,743 worth of merchandise to the United States and imported merchandise valued at \$288,851.

SOVEREIGNS OF STATES.

Anhalt—Duke, Friedrich II.

NORWAY.

Government—King, Haakon VII.; crown prince, Olaf.

President of Council and Minister of Agriculture—Gunnar Knudsen.

Foreign Affairs—M. Ihen.

Justice—Lars Abrahamson.

Commerce—C. Fris-Peterson.

Labor—M. Omholt.

Finance—M. Blehr.

Education and Worship—M. Lovland.

Defense—Gen. Holtfodt.

Legislative authority is vested in the storting, consisting of 123 members elected for three years through universal suffrage by men and women.

The storthing consists of two houses, the odelsting and the lagthing. The former is made up of three-fourths of the members of the storthing and the latter of one-fourth.

Area and Population—The total area of Norway is 124,130 square miles. Total population in December, 1910, 2,391,782. Christiania in 1910 had a population of 241,834 and Bergen 76,867.

Imports and Exports—The value of the imports in 1914 was \$141,819,175; exports, \$98,597,500. Exports to the United States in 1916, \$6,851,714; imports, \$53,678,126. The chief exports are timber and wood manufactures, wood pulp, malty food, paper and minerals; imports, breadstuffs, groceries, yarn, textiles, vessels and machinery.

PORTUGAL.

Government—President, Bernardina Machada. Cabinet:

Premier and Minister of Colonies—Dr. Almeida. Foreign Affairs—Senhor Auguste Soares.

Justice—Senhor M. de Curvalho.

Public Works—Senhor Antonio M. Silva.

War—Gen. Norton de Mattos.

Marine—Senhor Victor H. A. Coutinho.

Finance—Dr. Afonso Costa.

Instruction—Senhor Joaquim P. Martins.

Legislative authority is vested in a national council of 164 members and an upper house of 71 members. The first elections were held May 28, 1911, and the assembly opened June 19.

Area and Population—Total area, including Azores and Madeira, 35,490 square miles. Area of possessions in Africa and Asia, 801,060 square miles. The population of the home country with the Azores and Madeira in 1911 was 5,957,985; of the colonies in Africa and Asia, 9,139,444. In 1910 Lisbon had a population of 356,009 and Oporto 167,955.

Imports and Exports—Total imports in 1913, \$39,939,590; total exports, \$36,683,210. Imports from the United States in 1916, \$14,721,874; exports to the United States, \$7,171,295. The chief imports are foodstuffs, cotton, sugar, fish, wool, leather, coal and coffee; chief exports, wine, sardines, copper ore, olives and figs.

ROUMANIA.

Government—King, Ferdinand.

Legislative authority is vested in a senate of 120 members elected for eight years and a chamber of deputies of 183 members elected for four years.

Area and Population—The total area is 53,689 square miles. The population in 1899 was 5,956,690; in 1914, 7,508,009. Population of the principal towns (in 1912): Bukharest, 338,109; Jassy, 75,882; Galatz, 71,719; Braila, 64,730.

Exports and Imports—The value of the exports in 1913 was \$134,141,000; of the imports, \$118,002,500. The chief exports are cereals and the leading imports are textiles. Exports to the United States in 1916, \$20,079; imports from, \$111,537.

RUSSIA.

Government—Czar, Nicholas II.; heir-apparent, Grand Duke Alexis.

Premier—Alexander Trepoff.

Minister of Foreign Affairs—M. Pokrovsky.

Finance—M. Bark.

Interior—M. Protopoff.

Instruction—Count Ignatieff.

Imperial House and Domains—Gen. W. Friedericksz.

Justice—M. Makaroff.

Agriculture—M. Naumoff.

Commerce—Prince Chakhovsky.

Railways—(Vacancy).

Controller—M. Kheritonoff.

Procureur of the Holy Synod—Alexander Volzin.

War—Gen. Shuvayeff.

Navy—Vice-Admiral Grigorovich.

Legislative authority is vested in the czar, duma and council of the empire.

Area and Population—Area, 8,764,586 square miles.

Total population in 1914, 178,378,800. Population of the principal cities:

Petrograd (1914) 2,133,100	Khar'kov (1913) 249,698
Moscow (1915) 1,817,100	Yekaterinoslav (1912) 220,446
Warsaw (1915) 789,289	Saratov (1913) 235,300
Odessa (1912) 631,040	Vilna (1913) 203,940
Lodz (1910) 415,604	Kazan (1913) 194,246
Riga (1913) 558,000	
Kiev (1913) 626,313	

Imports and Exports—The total value of the imports in 1915 was \$557,000,000; of the exports, \$198,600,000. The exports to the United States in 1916 amounted in value to \$3,613,986; imports from the United States, \$183,259,605. The chief exports are foodstuffs, timber, oil, furs and flax; imports, raw cotton, wool, metals, leather, hides, skins and machinery.

FINLAND.

Grand Duke—The emperor of Russia.

The grand duchy of Finland, though nominally autonomous, is now practically a province of Russia. It has a parliament of 200 members chosen by direct election. The right to vote is possessed by men and women alike after they reach their 24th year. The area of Finland is 125,689 square miles and the population Jan. 1, 1914, was 3,231,936.

SERBIA.

Government—King, Peter I. (Karageorgievitch); heir-apparent, Prince Alexander (second son); premier, N. P. Pashitch. Legislative authority is vested in a single chamber, called "skupshina," of 180 elected members.

Area and Population—Area, 33,891 square miles. Population in 1910, 2,911,701; in 1914, 4,547,990. The capital, Belgrade, had 90,890 inhabitants before the war with Austria. Nish, the war capital, had 24,949 inhabitants in 1911.

Exports and Imports—Total value of exports in 1912, \$18,595,000; imports, \$14,705,000. Exports to the United States in 1916, \$50; imports, \$385,995. The exports are mainly agricultural products and animals and the imports cotton and woolen goods and metals.

SPAIN.

Government—King, Alfonso XIII.; heir-apparent, Prince Alfonso. Cabinet:

Premier—Conde de Romanones.

Foreign Affairs—Don Amalio Gimeno.

Interior—Senor Don Ruiz Jimenez.

Finance—Don Santiago Alba.

War—Gen. Augustin Laque.

Marine—Admiral Miranda.

Public Works—Don Rafael Gasset.

Public Instruction—Don Julio Burell.

Justice—Don Antonio Barroso.

Area and Population—Total area, 194,783 square miles. Total population of Spain Jan. 1, 1914, 20,355,986. Population of large cities (1910):

Madrid 599,807	Saragossa 105,788
Barcelona 587,411	Cartagena 96,983
Valencia 233,348	Bilbao 92,514
Seville 155,366	Granada 77,425
Malaga 153,045	Valladolid 67,742
Murcia 124,935	Cadiz 67,174

Imports and Exports—The exports of Spain in 1915 amounted to \$252,736,000; imports, \$241,863,675. Total exports to the United States in 1916, \$27,864,130; imports, \$52,771,652. Chief exports are wine, sugar, timber, animals, glassware and pottery; imports, cotton and cotton manufactures, machinery, drugs and chemical products.

SWEDEN.

Government—King, Gustaf V.; crown prince, Gustaf Adolf.

Minister of State and Minister of War—Dr. K. Hammarskjöld.

Foreign Affairs—K. A. Wallenberg.

Finance—M. Vernersten.

Marine—M. Brostrom.

Education—Dr. K. G. Westman.

Interior—O. F. von Sydow.

Agriculture—Baron Beck-Friis.

Justice—B. F. Hasselrot.

Legislative authority is vested in a parliament

of two chambers, the first of which has a membership of 150 and the second 230. Members of the upper house are elected for nine years and those of the lower for three years. The first chamber is elected by municipal representatives. To be eligible one must own real estate worth at least 80,000 crowns or pay taxes on an income of at least 4,000 crowns. The second chamber constituents must have an income of at least 800 crowns or own real estate worth at least 1,000 crowns.

Area and Population—The total area of Sweden is 172,376 square miles. The population Dec. 31, 1913, was 5,522,405. The population of the principal cities at the same time was:

Stockholm	332,085	Norköping	46,180
Göteborg	178,030	Gäddede	35,736
Malmö	98,821	Helsingborg	34,742

Imports and Exports—The total imports in 1914 were valued at \$200,124,850; exports, \$212,652,830. Exports to the United States in 1916, \$11,846,881; imports, \$51,939,182. The leading articles of export are timber and machinery; of import, textile goods and foodstuffs.

SWITZERLAND.

Government—President of federal council (1917)—Edmund Schultheiss.

Vice-President—Herr Galonder of Trina.

Legislative authority is vested in a state and a national council, the former having 44 and the latter 167 members. The national councilors are elected directly by the people; the state councilors are elected in some cantons by the people and in others by the cantonal legislature. The chief executive authority is vested in the bundesrath, or federal council, one member of which is the chief of one of the federal departments. Its decrees are enacted as a body. Its members are elected president in rotation.

Switzerland owns its main railroads, its telegraph and telephone system and monopolizes the manufacture and sale of alcohol.

Area and Population—Total area, 15,976 square miles. The population, according to the census of July 1, 1913, was 3,877,210. Population of the largest cities (1913):

Zürich	205,000	Bern	94,700
Basel	137,000	Lausanne	74,000
Geneva	135,700	St. Gallen	40,000

Exports and Imports—Total exports in 1914, \$227,374,000; imports, \$292,327,700. Exports to the United States in 1916, \$21,775,413; imports, \$8,156,147. The articles chiefly exported are cottons, silks, clocks and watches; imported, foodstuffs, silk, minerals and metals, clothing and animals.

THE NETHERLANDS.

Government—Queen, Wilhelmina; prince consort, Henry of Mecklenburg-Schwerin; heir, Princess Juliana. Cabinet:

Prime Minister and Minister of the Interior—Mr. P. W. A. Cort van der Linden.
Foreign Affairs—Jonkheer Dr. J. Loudon.
Agriculture, Commerce, Industry and Labor—Mr. F. E. Posthuma.

War—Maj.-Gen. N. Bosboom.

Navy—Mr. J. J. Rambonne.

Justice—Dr. B. Ort.

Finance—Dr. Anton van Gijn.

Colonies—Mr. Th. B. Pleyte.

Public Works—Dr. C. Lely.

Legislative authority is vested in the states-general, composed of two chambers, the first having 50 members and the second 100. The latter are elected directly and the former by the provincial states.

Area and Population—The area of Holland, or the Netherlands, is 12,648 square miles. The total population Dec. 31, 1914, was 6,339,705. That of the chief cities Dec. 31, 1914, was:

Amsterdam	609,084	Groningen	82,809
Rotterdam	472,520	Haarlem	71,883
The Hague	312,430	Arnhem	66,129
Utrecht	127,086	Leiden	59,560

Imports and Exports—In 1913 Holland imported \$1,567,700,000 worth of merchandise and exported \$1,233,200,000. In 1916 the exports to the

United States amounted to \$32,518,800 and the imports from the same country to \$99,232,930. Chief imports are iron and steel and their manufactures, textiles, coal, cereals and flour; exports, butter, sugar and cheese.

TURKEY.

Government—Sultan, Mehmed V. Cabinet: Grand Vizier and Minister for Foreign Affairs—Prince Said Halim Pasha.

President Council of State—Ibrahim Bey.

Sheik-ul-Islam—Mussa Kiazim Effendi.

Minister of the Interior—Talaat Bey.

Marine—Mahmut Pasha.

Finance—Djavid Bey.

Public Instruction—Achmed Bey.

Public Works—Abbas Halim Pasha.

War—Gen. Enver Pasha.

Posts and Telegraphs—Shukri Bey.

Commerce—Ahmed Nessim Bey.

A constitutional form of government was adopted July 24, 1908, with legislative authority vested in a parliament.

Area and Population—The area of Turkey in Europe is 8,644 of whole empire, 710,224 square miles. The total population of all parts of the empire is 21,273,000. Constantinople has about 1,203,000 inhabitants.

Exports and Imports—The total exports in 1912 amounted in value to \$172,871,605 and the imports to \$129,907,759. The exports to the United States in 1916 amounted to \$151,606 in value and the imports to \$41,221. The principal articles imported are cloth and clothing, sugar, coffee, flour, rice and manufactures of iron; exports, grapes, silk, grain, cocoons, wool, cotton, carpets, hides and skins.

ASIA.

AFGHANISTAN.

Ameer, Habibullah Khan; population, about 6,000,000; area, 250,000 square miles. No statistics as to imports and exports of Afghanistan are available. The chief productions are preserved fruits, spices, wool, silk, cattle and tobacco.

BOKHARA.

Ameer, Sayid Mir Alim Khan; heir, Sayid Mir Ibrahim. The area of Bokhara is about 83,000 square miles and the population 1,250,000. The products are corn, tobacco, fruit, silk and hemp. Since 1873 Bokhara has been a dependency of Russia.

CHINA.

Government—President, Li Yuan-hung; premier, Tuan Chi-jui. The president and vice-president are each elected for a term of five years. Legislative power is nominally vested in a single house assembly, but it is practically only an advisory body. The president possesses autocratic powers and China is a republic in name only.

Area and Population—Total area of China; with dependencies, 3,913,560 square miles; estimated population, 320,050,000.

Exports and Imports—The total exports in 1914 amounted to \$235,582,200 and the imports to \$372,321,400. During the fiscal year 1916 goods to the value of \$26,358,251 were imported from the United States. The total exports in the same period to the United States amounted to \$72,405,278. The articles imported from America consist mainly of flour, kerosene, sago, india rubber, shoes, ginseng, quicksilver, white shirting, drills and broadcloth. Among the leading exports are tea, furs, wool, mats, fans, essential oils, straw braid, silks, hair, hides and hemp.

JAPAN.

Government—Emperor, Yoshihito; crown prince, Hirohito. Cabinet:

Premier and Minister of Finance—Lieut.-Gen. Count Seiki Terauchi.

Foreign Affairs—Viscount Ichiro Motono.

Interior—Baron Shimpei Goto.

Finance—(Vacancy.)

War—Lieut.-Gen. Kenichi Oshima.

Navy—Vice-Admiral Tomasaburo Kato.

Justice—Itasu Matsumuro.
Education—Ryohei Okada.
Agriculture and Commerce—Ren Nakashoji.
Communications—Baron Kenjiro Den.

Legislative authority is vested in the emperor and the imperial diet. This consists of the house of peers and the house of representatives, the former having about 375 and the latter 381 members.

Area and Population—The total area of Japan is 260,738 square miles. The population according to the census of Dec. 31, 1915, was 54,282,898 exclusive of Formosa, the Pescadores and the south half of Sakhalin. The total population, including Korea, Formosa and Sakhalin, was 74,990,190 in 1915. Cities having more than 100,000 inhabitants are (1915):

Tokyo	2,056,126	Kobe	442,167
Osaka	1,395,823	Nagasaki	161,174
Kyoto	509,380	Hiroshima	167,130
Yokohama	367,574	Kanazawa	129,804
Nagoya	452,043	Kure	128,141

Imports and Exports—The total imports in 1915 amounted in value to \$265,160,069; exports, \$352,736,884. In 1916 the imports from the United States were valued at \$75,098,188 and the exports to the same country at \$147,644,228. The chief exports are raw silk, cotton, yarn, copper, coal and tea; imports, sugar, cotton, iron and steel, machinery, petroleum and wool.

CHOSEN (KOREA).

Formerly an empire, but now a Japanese colony. Estimated area, 86,000 square miles. Population in 1915, 17,405,645. Seoul, the capital, has 302,686 inhabitants.

KHIVA.

Khan, Seyid Asfendiar Khan; heir-apparent, Nasry Tycuara; area, 24,000 square miles; population, 646,000. Products are cotton and silk. Khiva is a Russian vassal state.

PERSIA.

Shah or emperor, Sultan Ahmad Shah. Under the constitution granted in 1906 legislative authority was vested in a national council of 156 members and a senate of 60 members. The area of Persia is about 628,000 square miles and the population 9,500,000. Imports in 1915, \$41,610,150; exports, \$33,004,800. Imports from the United States in 1916, \$13,495; exports to, \$583,456. Teheran, the capital, has a population of about 280,000. Chief among the products are silk, fruits, wheat, barley and rice.

SIAM.

King, Chowfa Maha Vajiruvudh. Area, 195,000 square miles; population (1910), 8,149,487. Bangkok, the capital, has 628,675 inhabitants. The imports in 1915 were \$30,044,850, and the exports \$38,914,950. Imports from the United States in 1916, \$741,430; exports to, \$237,250. Chief among the exports are rice, teak and marine products; imports, cotton goods and opium.

AFRICA.

ABYSSINIA.

Empress, Ulzero Zeodita. Total area of Abyssinia 432,432 square miles; populations, 8,000,000. The exports are coffee, hides and skins, gum, wax, gold and ivory.

ALGERIA.

Algeria is a colony of France. Governor-general, M. Lutaud. Area, 343,500 square miles; population in 1911, 5,563,828. Chief imports are cotton, skins and furs and woodwork; exports, wine, sheep and cereals.

EGYPT.

Sultan, Hussein Kamil Pasha. Total area of Egypt, 350,000 square miles; area of the Anglo-Egyptian Sudan, 984,520 square miles. The population of Egypt proper in 1907 was 11,189,978; of the Anglo-Egyptian Sudan, 3,000,000. Population of Cairo, 654,476; Alexandria, 332,246. Great Britain formally declared Egypt a protectorate of the empire Dec. 17, 1914. The total exports in 1915 were valued at \$135,234,300 and the imports at \$96,644,965. Imports from the United States in 1916, \$7,791,421; exports to, \$33,254,943. The exports consist chiefly of cereals, raw cotton and provisions; imports, wool, coal, textiles and metal manufactures.

BELGIAN KONGO.

Kongo was made a Belgian colony in 1908. The estimated area is 909,654 square miles and the negro population about 15,000,000. Europeans numbered 5,465 in January, 1912. Among the leading articles of export are ivory, rubber, cocoa, palm nuts, palm oil, copal gum and coffee. Total imports in 1913, \$11,528,700; exports, \$16,692,950. Exports to the United States (1916), \$72,859; imports, \$41,625.

LIBERIA.

President, Daniel E. Howard; vice-president, S. G. Harmon. Legislative power is vested in a senate of nine members and a house of representatives of fourteen members. The total area of the republic is about 40,000 square miles and the population 2,120,000. The exports in 1913 were valued at \$1,112,187 and the imports at \$1,411,237. Imports from the United States in 1916, \$34,677; exports to, \$89,900.

MOROCCO.

Sultan, Mulai Youssef. Morocco is a French protectorate. Area about 219,000 square miles; population, 5,000,000. Total imports in 1914, \$55,619,600; exports, \$9,677,200. Imports from the United States in 1916, \$348,980; exports to, \$313,662.

MADAGASCAR.

Governor-general, Albert Picque. Madagascar is a French colony governed by a council of administration. The area is 228,000 square miles and the population (1911) 3,153,511. The capital is Antananarivo with a population of 63,115. Imports in 1914, \$9,471,300; exports, \$9,286,600. Exports to United States (1916), \$313,666; imports from, \$348,980.

TUNIS.

Bey, Sidi Mohammed Ben Nasr Bey; heir-presumptive, Sidi Mohammed Ben Mamoun Bey. Tunis is under the protectorate of France and that country is represented by a resident-general. Total area, 50,000 square miles; population in 1911, 1,780,527. Imports in 1914, \$26,497,500; exports, \$21,324,600.

MEXICO.

Government—The republic of Mexico is divided into twenty-seven states, three territories and one federal district, each with a local government, but all subject to the federal constitution. Representatives are elected for two years for each 40,000 inhabitants. The senators, of whom there are fifty-six, are elected by the people in the same manner as representatives. The president holds office four years and may be elected for several consecutive terms. (See "Revolutions in Mexico" in this volume.)

Area and Population—The total area, including islands, is 785,881 square miles. The population, according to the federal census of 1910, is 15,063,207. The population of leading cities of the republic follows: City of Mexico (capital), 470,659; Guadalajara, 118,799; Puebla, 104,214; Morerey, 81,005; San Luis Potosi, 82,946; Pachuca, 38,620; Aguascalientes, 44,800; Zacatecas, 25,905; Durango, 34,085; Toluca, 31,247; Leon, 63,263; Merida, 61,999; Queretaro, 35,011; Morelia, 39,116; Oaxaca, 37,469; Orizaba, 32,894; Chihuahua, 39,061; Vera Cruz, 29,164.

Commerce—The chief exports of Mexico are precious metals, coffee, tobacco, hemp, sisal, sugar, dyeswoods and cabinet woods, cattle and hides and skins. In 1914 the total exports amounted to \$92,333,000; total imports for the same year were \$60,831,070. The trade of Mexico is chiefly with the United States, Great Britain, France, Germany and Spain. In 1916 the imports from the United States were \$48,308,542; exports to, \$97,676,544.

SOUTH AMERICAN REPUBLICS.

ARGENTINE REPUBLIC.

President, Hipolito Irogoven; capital, Buenos Aires. Area, 1,153,119 square miles. Population (1912), 7,467,878; Buenos Aires, 1,560,165 (Jan. 1, 1914). Total exports in 1915, \$558,280,600; imports, \$226,892,700. Exports to the United States in 1916, \$112,512,420; imports, \$65,993,611. Chief exports, sheep, wool, cattle, hides, frozen meats and wheat; imports, machinery, agricultural implements, railway cars, engines and supplies and manufactures of iron and steel.

BOLIVIA.

President, Gen. Ismael Montes; capital, Sucre. Area, 514,155 square miles. Population (1915), 2,889,970. LaPaz, 100,097; Chocachamba, 31,014; Sucre, 29,686. Total exports in 1915, \$33,951,300; imports, \$7,893,200; exports to the United States in 1916, \$204,904; imports, \$1,367,891. Chief exports, silver, tin, copper, coffee, rubber; imports, provisions, clothing, hardware, spirits, silks and woollens.

BRAZIL.

President, Wenceslau Braz; capital, Rio de Janeiro. Area, 3,218,991 square miles. Population (estimated 1913), 24,308,219; Rio de Janeiro (1911), 1,128,637; Sao Paulo (1911), 450,000; Bahia, 290,000; Pernambuco, 150,000. Exports (1915), \$264,850,000; imports, \$150,444,000. Exports to the United States in 1916, \$132,663,984; imports, \$41,202,277. Chief exports, coffee, sugar, tobacco, cotton and rubber; imports, cotton goods, manufactures of iron and steel, furniture, mineral oils, breadstuffs and provisions.

CHILE.

President, Juan Luis Sanfuentes; capital, Santiago. Area, 292,580 square miles. Population in 1914, 3,596,541; Santiago, 397,941; Valparaiso, 187,240; Concepcion, 69,776. Total exports in 1914, \$112,373,250; imports, \$101,734,450. Exports to the United States in 1916, \$64,154,859; imports, \$24,289,652. Chief exports, nitrate, wool, hides and leather; imports, sugar, coal, cotton goods, cashmeres, oil, galvanized iron.

COLOMBIA.

President, Dr. Jose Vicente Concha; capital, Bogota. Area, 440,846 square miles. Population in 1912, 5,472,604; Bogota, 121,257. Total exports (1914), \$32,632,550; total imports, \$20,979,230. Exports to the United States in 1916, \$21,458,029; imports, \$11,125,232. Chief exports, gold, silver and other minerals, coffee, cocoa, cattle, sugar, tobacco and rubber; imports, manufactures of iron and steel, cotton goods.

ECUADOR.

President, Alfredo B. Moreno; capital, Quito. Area, 116,000 square miles. Population, 1,500,000; Quito, 70,000; Guayaquil, 80,000. Total exports in 1914, \$12,952,120; imports, \$8,762,587. Exports to the United States in 1916, \$5,843,290; imports, \$3,462,040. Chief exports, coffee, cocoa, rice, sugar, rubber, cabinet woods, chemicals and minerals; imports, cotton, provisions, manufactures of iron and steel, clothing and mineral oil.

PARAGUAY.

President, Dr. Emanuel Franco; capital, Asuncion. Area, 171,770 square miles. Population (estimated 1912), 800,000; Asuncion (1912), 80,000. Total exports in 1915, \$5,409,950; imports, \$2,340,500. Exports to the United States in 1916, \$53,337; imports, \$73,452. Chief exports, mate (or Paraguay tea), tobacco, hides, timber, oranges; imports, cotton goods, machinery and provisions.

PERU.

President, Don Jose Prado; capital, Lima. Area, 722,461 square miles. Population (estimated 1913), at 4,500,000; Lima, 143,500; Callao, 34,346. Total exports in 1914, \$43,838,925; imports, \$24,139,625. Exports to the United States in 1916, \$24,326,639; imports, \$10,173,176. Chief exports, cotton, coffee, sugar, cinchona, india rubber, dyes and medicinal plants; imports, woollens, cotton, machinery and manufactures of iron.

URUGUAY.

President, Dr. Feliciano Viera; capital, Montevideo. Area, 72,153 square miles. Population (1914), 1,315,714; Montevideo (1916), 378,446. Total exports in 1915, \$33,290,900; imports, \$34,979,600. Exports to the United States in 1916, \$14,475,473; imports, \$10,274,426. Chief exports, animal and agricultural products; imports, manufactured articles.

VENEZUELA.

President, Gen. Juan Vicente Gomez; capital, Caracas. Area, 393,976 square miles. Population (1915), 2,816,484; Caracas, 75,000. Total exports in 1915, \$20,519,940; imports, \$11,685,300. Exports to the United States in 1916, \$14,942,448; imports, \$8,999,272. Chief exports, coffee, hides, cabinet woods, rubber and chemicals; imports, machinery, manufactures of iron and steel, provisions, furniture and mineral wools.

CENTRAL AMERICAN STATES.

COSTA RICA.

President, Don Alfredo Gonzalez; capital, San Jose. Area, 23,000 square miles. Population (1914), 420,179; San Jose, 34,784. Total exports (1914), \$11,176,350; imports, \$7,770,465. Exports to the United States in 1916, \$4,335,415; imports, \$3,512,840. Chief exports, coffee and bananas; imports, cotton, machinery, iron and steel manufactures, woollens and worsteds.

GUATEMALA.

President, Manuel E. Cabrera; capital, Guatemala de Nueva. Area, 48,290 square miles. Population (1914), 2,003,579; of the capital, 90,000. Total exports (1915), \$1,566,550; imports, \$5,072,450. Exports to the United States in 1916, \$8,724,728; imports, \$3,847,101. Chief exports, coffee and bananas; imports, cotton and cereals.

HONDURAS.

President, Dr. Francisco Bertrand; capital, Tegucigalpa. Area, 44,275 square miles. Population (1910), 553,446; Tegucigalpa, 22,137. Total exports (1915), \$3,858,000; imports, \$5,875,000. Exports to the United States in 1916, \$2,978,473; imports, \$4,607,423. Chief exports, bananas, coffee, cattle, coconuts and wood; chief import, cotton.

NICARAGUA.

President, Senor Adolfo Diaz; capital, Managua. Area, 49,200 square miles. Population, (1914), 703,540; Managua, 34,872; Leon, 62,569. Total exports (1913), \$7,712,000; imports, \$5,770,000. Exports to the United States in 1916, \$2,394,824; imports, \$3,138,595. Chief exports, cattle and coffee; imports, flour, wine, beer, barbed wire, cotton goods, sewing machines, kerosene, calico and talow.

PANAMA.

President, Ramon Valdez. Independence of Panama declared Nov. 3, 1903; constitution adopted Feb. 13, 1904. Legislative power is vested in a national assembly composed of deputies elected by the people. The ratio of representation is one deputy for each 10,000 inhabitants. The term of office is four years. The area of the republic is 32,380 square miles and the population (1912), 336,742; city of Panama (1915), 60,028; Colon, 26,000. The exports to the United States in the fiscal year ended June 30, 1916, amounted to \$5,336,299, and the imports to \$23,602,598. The chief articles of export are bananas, rubber, coffee and pearls.

SALVADOR.

President, Carlos Melendez; capital, San Salvador. Area, 7,225 square miles. Population (1914), 1,225,835; San Salvador, 66,800. Total exports (1914), \$9,716,945; imports, \$4,958,614. Exports to the United States in 1916, \$2,129,868; imports, \$3,043,515. Chief exports, coffee, indigo, sugar, tobacco and balsams; imports, cotton, spirits, flour, iron goods, silk and yarn.

CUBA.

Government—President, Gen. Mario Menocal; vice-president, Enrique Jose Varona; terms expire May 20, 1917.

Under the constitution the legislative power is exercised by two elective bodies—the house of representatives and the senate, conjointly called congress. The senate is composed of four senators from each of the six provinces, elected for eight years by the provincial councilmen, and by a double number of electors, constituting together an electoral board.

The house of representatives is composed of one representative for each 25,000 inhabitants or fraction thereof over 12,500, elected for four years by direct vote. One-half of the members of the house are elected every two years. The salary of members of congress is \$3,600 a year.

Organization of the Republic.—The organization of the republic of Cuba, begun in 1900, was practically completed on the 20th of May, 1902, when the military occupation of the island by the United States came to an end and Gen. Tomas Estrada Palma was inaugurated as first president.

Area and Population—The total area of Cuba is 44,164 square miles. The population in 1914 was 2,471,531.

Population of provinces (1914):

Havana	651,266	Matanzas	270,483
Santa Clara.....	567,277	Pinar del Rio....	257,893
Oriente	567,639	Camaguey	154,567

Population of principal cities in 1914:

Havana	350,906	Halgulain	65,232
Cienfuegos	80,305	Pinar del Rio....	51,935
Camaguey	76,581	Santa Clara.....	54,835
Matanzas	53,931	Guantanamo	51,036
Manzanillo	59,544	Sancti Spiritus...	55,407
Santiago	61,531		

About 70 per cent of the population is white. Imports and Exports—The total imports in 1915 amounted to \$138,132,000 and the exports to \$219,447,000. The imports from the United States in 1916 were valued at \$127,040,067 and the exports at \$228,977,567. The principal articles of export are sugar, tobacco and cigars, iron and manganese ore, fruit, coffee, cocoa, molasses

and sponges; of import, animals, breadstuffs, coal and coke, iron and steel, wood, liquor, cotton, chemicals and vegetables.

HAITI.

President, Sudre Dartigave. The area of Haiti is 10,204 square miles and the population about 2,500,000. Coffee, cocoa and logwood are the leading articles sold. Total exports (1912), \$17,285,485; imports (1914), \$7,612,792. Exports to the United States in 1916, \$2,560,340; imports, \$6,435,567.

SANTO DOMINGO.

President, Federico H. Carvajal. The republic has an area of 19,325 square miles and a population (1913) of 708,000. Santo Domingo, the capital, has 22,000 inhabitants. In 1913 the exports amounted to \$10,470,900 and the chief articles shipped were coffee, cocoa and mahogany; imports, \$9,272,000. Exports to the United States in 1916, \$13,456,653; imports, \$7,581,358.

TREATY BETWEEN THE UNITED STATES AND HAITI.

The following treaty, giving the United States a large measure of control over the affairs of the republic of Haiti, was negotiated in September, 1915, but was not made public until February, 1916, when it was ratified by the senate of the United States:

ARTICLE 1.

The government of the United States will, by its good offices, aid the Haitian government in the proper and efficient development of its agricultural, mineral and commercial resources and in the establishment of the finances of Haiti on a firm and solid basis.

ARTICLE 2.

The president of Haiti shall appoint, upon nomination by the president of the United States, a general receiver and such aids and employees as may be necessary, who shall collect, receive and apply all customs duties on imports and exports accruing at the several custom houses and ports of entry of the republic of Haiti.

The president of Haiti shall appoint, upon nomination by the president of the United States, a financial adviser, who shall be an officer attached to the ministry of finance, to give effect to whose proposals and labors the minister will lend efficient aid. The financial adviser shall devise an adequate system of public accounting, aid in increasing the revenues and adjusting them to the expenses, inquire into the validity of the debts of the republic, enlighten both governments with reference to all eventual debts, recommend improved methods of collecting and applying the revenues and make such other recommendations to the minister of finance as may be deemed necessary for the welfare and prosperity of Haiti.

ARTICLE 3.

The government of the republic of Haiti will provide by law or appropriate decrees for the payment of all customs duties to the general receiver and will extend to the receivership and to the financial adviser all needful aid and full protection in the execution of the powers conferred and duties imposed herein; and the United States on its part will extend like aid and protection.

ARTICLE 4.

Upon the appointment of the financial adviser the government of the republic of Haiti, in co-operation with the financial adviser, shall collate, classify, arrange and make full statement of all the debts of the republic, the amounts, character, maturity and condition thereof and the interest accruing and the sinking fund requisite to their final discharge.

ARTICLE 5.

All sums collected and received by the general receiver shall be applied, first, to the payment of the salaries and allowances of the general

receiver, his assistants and employees and expenses of the receivership, including the salary and expenses of the financial adviser, which salaries will be determined by previous agreement; second, to the interest and sinking fund of the public debt of the republic of Haiti; and, third, to the maintenance of the constabulary referred to in article 10, and then the remainder to the Haitian government for purposes of current expenses.

In making these applications the general receiver will proceed to pay salaries and allowances monthly and expenses as they arise, and on the 1st of each calendar month will set aside in a separate fund the quantum of the collection and receipts of the previous month.

ARTICLE 6.

The expenses of the receivership, including salaries and allowances of the general receiver, his assistants and employees and the salary and expenses of the financial adviser shall not exceed 5 per centum of the collections and receipts from customs duties, unless by agreement by the two governments.

ARTICLE 7.

The general receiver shall make monthly reports of all collections, receipts and disbursements to the appropriate officer of the republic of Haiti and to the department of state of the United States, which reports shall be open to inspection and verification at all times by the appropriate authorities of each of the said governments.

ARTICLE 8.

The republic of Haiti shall not increase its public debt except by previous agreement with the president of the United States and shall not contract any debt or assume any financial obligation unless the ordinary revenues of the republic available for that purpose, after defraying the expenses of the government, shall be adequate to pay the interest and provide a sinking fund for the final discharge of such debt.

ARTICLE 9.

The republic of Haiti will not without a previous agreement with the president of the United States modify the customs duties in a manner to reduce the revenues therefrom; and in order that the revenues of the republic may be adequate to meet the public debt and the expenses of the government, to preserve tranquillity and to promote material prosperity, the republic of Haiti will co-operate with the financial adviser in his recommendations for improvement in the method of collecting and disbursing the revenues and for new sources of needed income.

ARTICLE 10.

The Haitian government obligates itself, for the preservation of domestic peace, the security of individual rights and full observance of the

provisions of this treaty, to create without delay an efficient constabulary, urban and rural, composed of native Haitians. This constabulary shall be organized and officered by Americans appointed by the president of Haiti upon nomination by the president of the United States. The Haitian government shall clothe these officers with the proper and necessary authority and uphold them in the performance of their functions. These officers will be replaced by Haitians as they, by examination conducted under direction of a board to be selected by the senior American officer of this constabulary and in the presence of a representative of the Haitian government, are found to be qualified to assume such duties. The constabulary herein provided for shall, under the direction of the Haitian government, have supervision and control of arms and ammunition, military supplies and traffic therein throughout the country. The high contracting parties agree that the stipulations in this article are necessary to prevent factional strife and disturbances.

ARTICLE 11.

The government of Haiti agrees not to surrender any of the territory of the republic of Haiti, by sale, lease or otherwise, or jurisdiction over such territory to any foreign government or power, nor to enter into any treaty or contract with any foreign power or powers that will impair or tend to impair the independence of Haiti.

ARTICLE 12.

The Haitian government agrees to execute with the United States a protocol for the settlement, by arbitration or otherwise, of all pending pecuniary claims of foreign corporations, companies, citizens or subjects against Haiti.

ARTICLE 13.

The republic of Haiti, being desirous to further the development of its natural resources, agrees to undertake and execute such measures as in the opinion of the high contracting parties

may be necessary for the sanitation and public improvement of the republic, under the supervision and direction of an engineer or engineers to be appointed by the president of Haiti upon nomination by the president of the United States and authorized for that purpose by the government of Haiti.

ARTICLE 14.

The high contracting parties shall have authority to take such steps as may be necessary to insure the complete attainment of any of the objects comprehended in this treaty; and, should the necessity occur, the United States will lend an efficient aid for the preservation of Haitian independence and the maintenance of a government adequate for the protection of life, property and individual liberty.

ARTICLE 15.

The present treaty shall be approved and ratified by the high contracting parties in conformity with their respective laws and the ratifications thereof shall be exchanged in the city of Washington as soon as may be possible.

ARTICLE 16.

The present treaty shall remain in full force and virtue for the term of ten years, to be counted from the day of exchange of ratifications, and further for another term of ten years if, for specific reasons presented by either of the high contracting parties, the purpose of this treaty has not been fully accomplished.

In faith whereof the respective plenipotentiaries have signed the present convention in duplicate, in the English and French languages, and have thereunto affixed their seals.

Done at Port au Prince, Haiti, the 16th day of September in the year of our Lord one thousand nine hundred and fifteen.

ROBERT BEALE DAVIS, JR.,

Charge d'Affaires of the United States.

LOUIS BORNO,

Secretary of State for Foreign Affairs and Public Instruction.

DISTURBANCES IN SANTO DOMINGO.

Factional differences led the senate of Santo Domingo to begin impeachment proceedings against Gen. Juan Jimenes, president of the republic, May 2. The opposition party was led by Gen. Arias, who wished to overthrow the government on the pretext that it had violated the constitution in drafting the budget. To prevent disorder the American authorities in Washington intervened and sent Rear-Admiral Caperton to the scene with the cruiser Prairie. May 5 fighting began in Santo Domingo city and marines were landed from the Prairie to protect the American legation. William W. Russell, the American minister, warned the factions that armed intervention would result if hostilities

did not cease. On May 7 President Jimenes resigned and Gen. Arias a few days later was compelled to resign as secretary of war. May 15 American marines took possession of the city to guarantee the free election by congress of a provisional president. Subsequently Jacinto de Castro was elected to that position.

In the latter part of May and in June some clashes occurred between the marines under Admiral Caperton and the rebels, in one of which Capt. Herbert L. Hirschinger was killed. July 1 there was another encounter, in which twenty-seven rebels were killed, the Americans having one killed and eight wounded. After that the situation was improved.

FOOT AND MOUTH DISEASE ERADICATED.

The campaign against the foot and mouth disease came to an end in March, 1916. On the 31st of that month the secretary of agriculture issued an order removing all quarantines and restrictions against the shipment and movement of live stock. The order signed specifically removed the quarantine from a small territory in Christian county, Illinois, the last area which was under suspicion. Along with the removal of this local quarantine the various federal orders restricting shipment of cattle were rescinded. Upon notification that the United States

was free from the disease all foreign governments which placed embargoes on American cattle removed those embargoes.

The magnitude of the work of eradication and control carried on by farmers, shippers and the state and federal governments is shown by the fact that, before controlled, the disease had gained a temporary footing in twenty-two states and the District of Columbia. The disease appeared and was controlled in 289 different counties.

REPUBLIC MAINTAINED IN CHINA.

The movement begun in August, 1915, to restore the monarchical form of government in China was defeated by the southern republicans in 1916 and President Yuan Shih-kai was compelled to renounce his aspirations to become emperor. Elections were held in October and November, 1915, to decide upon the proposed change and the vote was unanimous in favor of a monarchy but the suspicion was then entertained that the whole proceeding was engineered by the president and his friends, who organized the chou an hui, or "peace party," and that no one dared to oppose them. Japan, supported by Great Britain, informed China that the time for a change in the form of government was inopportune and President Yuan Shih-kai and his cabinet announced that the formal restoration of the monarchy would be postponed.

Toward the close of December a revolution was begun in Yunnan province under the leadership of Tsai Ao, a former governor with military training. The province declared its independence and formed a republic. The government sent an army of 30,000 men to quell the uprising, but the force was defeated Jan. 16, 1916, in Szechwan province. Later many of Yuan Shih-kai's troops joined the rebels. Jan. 21 it was announced in Peking that the coronation of Yuan Shih-kai as emperor had been postponed indefinitely on account of the rebellion in southern China. Tung Chih-yao, military governor, and Jen Kao-tse, civil governor of the "Republic of Yunnan," sent letters to the foreign legations in Peking Jan. 23 that the new republic would respect all Chinese treaties, agreements and obligations antedating the monarchical movement but would repudiate all others. They requested the powers to remain neutral and promised protection for foreigners. This promise was kept.

Kweichow province joined in the rebellion and its governor was forced to flee. The rebels suffered some temporary checks in January and February, especially in Szechwan province, where most of the fighting took place. March 17 it was announced that the province of Kwangsi had declared its independence and joined in the rebellion. The continued and rapid spread of the revolt, which extended to six provinces, together with the failure of the government troops to make any headway against the rebels, led Yuan Shih-kai and his cabinet to issue a mandate March 22 announcing the abandonment of the monarchy and the resumption of the republic. The document recited that the revolution proved that the demand for a monarchy was not unan-

imous and therefore Yuan Shih-kai rejected the emperorship and resumed the presidency. March 28 the state council rescinded all monarchical legislation, restored all the laws affected by the monarchical movement and then adjourned permanently.

While fighting continued in some places pending a settlement between the rebels and the government, the action taken by the state council tended to restore peace. Kwangsi province canceled its declaration of independence early in April. On the other hand the important Kwangtung province, of which Canton is the capital, declared its independence April 6, after a conference of military and naval officers and citizens with the provincial governor, Lung Chikuang. The example of Kwangtung was followed April 12 by the province of Chekiang, which declared its independence at its capital, Hangchow. April 13 the governor of Kiangsi province announced his independence of the administration of President Yuan Shih-kai.

DEATH OF YUAN SHIH-KAI.

Conditions in the republic failed to improve, the government at Peking being unable to subdue the rebels. This was the situation when at 1 o'clock on the morning of June 6 it was announced that President Yuan Shih-kai was dead. He passed away in his palace in Peking after a brief illness from stomach trouble, followed by a nervous breakdown. There were rumors of poisoning and also of suicide, but these were denied. Yuan Shih-kai was provisional president for eighteen months and was elected the first president of the Chinese republic Oct. 13, 1913. He was 57 years of age at the time of his death.

Li Yuan-hung, vice-president of the republic, succeeded to the presidency immediately and without any formality except taking the oath. No disturbances followed the change of administration and on June 9 the provinces of Szechwan, Huanan, Chekiang and Shensi rescinded their declarations of independence and reasserted their loyalty to the Peking government. It was taken for granted that this was the end of the revolution and that the movement for the restoration of the monarchy had been definitely crushed.

In a mandate issued June 30 President Li Yuan-hung proclaimed the restoration of the Nankin provisional constitution as demanded by the revolutionists, and ordered the parliament disbanded by Yuan Shih-kai in 1913 to be reconvened Aug. 1. Tuan Chi-jui was appointed premier.

EXPLOSION ON AMERICAN SUBMARINE E-2.

Four men were killed and ten others injured by an explosion of gas on the United States submarine E-2, Jan. 25, 1916, while the craft was undergoing repairs in the drydock of the Brooklyn navy yard. One of the men who lost their lives was an enlisted electrician, while the other three were civilian workmen. The men were busy in the battery compartment when the explosion occurred. Though the hull was not damaged all the delicate machinery of

the interior was completely wrecked. A board of inquiry investigated the accident and submitted its findings to the navy department Jan. 13. The conclusion was that the explosion was due to an excessive amount of gas, chiefly hydrogen, generated from the new Edison storage batteries, forming with the air a highly explosive mixture. Ignition was caused by a spark, the origin of which was not determined.

ARCTIC AND ANTARCTIC EXPLORATION.

THE SHACKLETON EXPEDITION.

Sir Ernest Shackleton's antarctic expedition, the object of which was to cross the entire south polar area from the Weddell sea to Ross sea, proved a failure owing to a series of misfortunes, the most serious of which was the wrecking of the explorer's own ship, the *Endurance* (formerly the *Polaris*). The plan in brief was this: Shackleton was to enter the antarctic regions by way of South Georgia and make a landing on the coast of the Weddell sea. Then with a limited number of men he was to aim for the south pole and thence proceed over the Scott or the Amundsen route or possibly by a new route to Ross sea. In the meantime his ship, the *Endurance*, was to return to the north. Another ship, the *Aurora*, was to start from Australia and go to the great ice barrier in Ross sea, where it was to land men and provisions for the purpose of laying down depots to await the coming of Shackleton and his men.

In March, 1916, word was received by radio from the *Aurora* that the ship had been damaged by the ice and owing to the bad season was unable to accomplish its mission. It returned to Port Chalmers, New Zealand, April 3. The *Aurora* had made several attempts to find secure winter quarters, but blizzards and ice conditions prevented. In January, 1915, it passed Cape Crozier and proceeded east along the barrier. Jan. 24 a party of three men with dogs succeeded in getting ashore and set out for the Bluff to lay a depot, taking some stores with them for the purpose. The next day Capt. Mackintosh and two other members of the party left the ship for a sledge trip with dogs. Jan. 31 six men started on a journey to the south, but returned safely in a few days and went aboard the ship. Others also went ashore to do scientific work. The ship was moored off Cape Evans, but could find no safe place to remain in during the winter and on May 6 a violent blizzard drove the *Aurora* out into the ice pack, which carried her north along the coast to Cape Adare and west of the Bailey islands. When the ship was ninety miles south of Coulman island she lost her rudder and her hull was severely strained by the ice pressure. This obliged her to make her way back to the north as best she could.

When the *Aurora* was driven away by the storm there were ten men ashore, including Capt. A. E. Mackintosh, H. E. Wild, Ernest Joyce, J. Cope, A. Stevens, A. Spencer Smith, Victor Hayward and three others known as Gaze, Richards and Jack. They were fairly well provided with stores, but had insufficient clothing and fuel.

Having left South Georgia in December, 1914, the *Endurance* proceeded south for about 1,000 miles through the waters obstructed by icebergs until Jan. 10, 1915, Coats Land was sighted. A little later a new land with 200 miles of coast was discovered and was named Caird Coast by Sir Ernest Shackleton, after one of the patrons of the expedition. The weather turned very cold and the ship became so tightly wedged into the ice that she never got free. No landing could be made and those on board had to be content to remain on the drifting vessel, doing such scientific work as was possible. They discovered that where New South Greenland was reputed to be there was 1,900 fathoms of water. On Oct. 16 heavy pressure forced the ship right up on the ice and Oct. 27 icebergs pierced the sides, and in a few seconds the vessel was practically destroyed, although it continued to float until Nov. 20, when it sank.

Everybody on board the *Endurance* was compelled to take to the ice and make a precarious camp near the wreck. By cutting holes in the sides of the ship before it sank the members of the expedition got out about 100 cases of food. Shackleton found that the expedition was 346 miles from Paulet island, and an effort was made to reach it, but high pressure ridges and

the drift of the ice prevented. Some of the dog teams had to be killed for food. April 12 the party escaped to the open sea and in three open boats finally reached Elephant island on the 15th after suffering severe privations. A cave was hollowed out of the ice and this became the temporary home of the shipwrecked men.

Shackleton decided that the only way to save the lives of the party was to go to South Georgia, 750 miles away, and organize a relief expedition. With five volunteers he set out in an open boat, leaving the main party on Elephant island, to await his return. The journey across the stormy sea was an extremely perilous one. Starting April 24, the leader and his comrades were out fourteen days before they sighted the shores of South Georgia. On May 9 and 10 they encountered snowstorms and winds of hurricane force which prevented them from approaching the land, but on the 18th Shackleton and two men started across the island and on May 20, after thirty-six hours of continuous marching over glaciers, mountain ridges and snowfields, they reached Stromness, a Norwegian whaling station. Here a small whaler was obtained and it started south May 26, but bad ice conditions compelled it to return.

Sir Ernest then went to Port Stanley, Falkland islands, where he got into communication with the Uruguayan government, which on June 8 sent the steamship *Insituto Pesca* to Port Stanley, where it took Shackleton on board. This effort also proved abortive on account of the heavy ice conditions and the ship returned to Port Stanley June 27. The undaunted explorer then went to Punta Arenas, Chile, where the British resident provided and equipped for him the seventy-ton schooner *Emma*. On this he started July 12 for Elephant island, but again he failed to reach the marooned men owing to gales and ice fields and was forced to return to Port Stanley, where he arrived Aug. 4.

On Aug. 26 Shackleton left Punta Arenas on the steamship *Yelcho* on his fourth attempt at a rescue. This time he succeeded in reaching and rescuing the twenty-two men left by him on Elephant island in charge of Frank Wild, the second in command. He brought them all safely back to Punta Arenas Sept. 3. The men had suffered severely from exposure and insufficient rations, but they were all well when the *Yelcho* took them off the island Aug. 30.

STEFANSSON EXPEDITION.

Vilhjalmar Stefansson, commander of the Canadian government expedition formed to explore the arctic regions north of Alaska and British Columbia, continued at work throughout 1916 without returning to civilization. It was his purpose further to explore the new land discovered by him in 1915 to the north of Prince Patrick island, details of which were given in the Almanac and Year-Book for 1916. The southern party under Rudolph Anderson, Stefansson's chief subordinate, who had been exploring and charting the coast line bordering on the Union and Dolphin straits and the Coronation gulf region, east of the Mackenzie river mouth, returned to Nome, Alaska, Aug. 15, 1916, on the power schooner *Alaska*. Daniel Blue, engineer, died at Bailey island in May, 1915, but with this exception all of the little party which left on the *Alaska* in July, 1913, returned in safety. The working base of the southern party was in Bernard harbor, Coronation gulf. The *Alaska* brought about thirty tons of specimens gathered in the arctic regions.

AMUNDSEN NORTH POLE EXPEDITION.

Capt. Roald Amundsen, discoverer of the north-west passage and the first man to reach the south pole, is planning an expedition to the north pole. If the European war is ended in 1917 he will start for the arctic regions about midsummer and enter the ice at the beginning of

September east of Bennett's land, north of Siberia and some 240 miles farther east than the point where Nansen began his drift in the Fram. Amundsen will use a smaller vessel than the Fram, but specially constructed and of shallow draft. He will not, according to his plans as formulated in 1916, carry an aeroplane or a wireless outfit. The expedition will have provisions for six years, but the leader expects that the return will be made in from three to five years. The vessel which is being constructed for the voyage will be a schooner of about 300 tons with three masts and equipped with a motor capable of driving it nine miles an hour without the help of sails. The crew will be limited to eight. Twelve dogs will be taken along to be used for the return trip in case the schooner is wrecked.

BORDEN-LANE EXPEDITION.

The Great Bear, a large gasoline schooner, owned jointly by Capt. Louis L. Lane and John Borden of Chicago, sailed from Seattle July 26, 1916, with the owners and a crew of thirty men to hunt whale and big game in the arctic regions and also, if possible, to take supplies to Vilhjalmr Stefansson, the explorer. All went well until Aug. 10, when the vessel, which had been sailed by dead reckoning owing to fog, ran on Pinnacle rock, twenty-five miles northwest of Nome, Alaska, and was wrecked. All on board were able to get into boats and escape to St. Matthew's island, about seven miles away. They saved a considerable amount of provisions from the wreck and suffered little hardship. They were rescued by the United States coast guard cutter McCulloch on the morning of Aug. 25 and brought to Nome.

CROCKER LAND EXPEDITION.

Prof. Maurice C. Tanquary, zoologist of the Crocker Land expedition under Dr. Donald MacMillan, arrived in Copenhagen, Denmark, in the latter part of May, 1916, and Ensign Fitzhugh Green, U. S. N., another member of the party, followed him a few weeks later. Both con-

firmed the news made known in 1915 that the land which members of the Peary expedition supposed they saw in 1906 and called Crocker Land had no existence in fact, and that what the explorers actually saw was merely a mirage. The members of the expedition were all well when Tanquary and Green left them at Parker Snow bay, east of Etah. They reported having received valuable assistance from the Danish explorer, Knud Rasmussen, Peter Freuchen and others. The Grenfell mission schooner George B. Cluett, which went to the relief of the expedition in July, 1915, returned to Battle Harbor, Labrador, Sept. 7, 1916, but did not bring Dr. MacMillan, Dr. E. O. Hovey or other scientists back, as they had decided to continue their explorations in northern Greenland and to return later on by way of Denmark.

FLAG OF THE UNITED STATES.

EXECUTIVE ORDER.

The executive order of Oct. 29, 1912, is hereby revoked and for it is substituted the following:

Whereas, "An act to establish the flag of the United States," approved on the 4th of April, 1818, reading as follows:

"Section 1. Be it enacted, etc., That from and after the 4th day of July next, the flag of the United States be thirteen horizontal stripes, alternate red and white; that the union be twenty stars, white in a blue field.

"Section 2. And be it further enacted, That on the admission of every new state into the union, one star be added to the union of the flag; and that such addition shall take effect on the 4th of July then next succeeding such admission," fails to establish proportions; and

Whereas, investigation shows some sixty-six different sizes of national flags, and of varying proportions, in use in the executive departments;

It is hereby ordered that national flags and union jacks for all departments of the government, with the exception noted under (a), shall conform to the following proportions:

- Hoist (width) of flag, 1.
- Fly (length) of flag, 1.9.
- Hoist (width) of union, 7-13.
- Fly (length) of union, 7-13.
- Width of each stripe, 1-13.

(a). Exception: The colors carried by troops and camp colors shall be the sizes prescribed for the military service (army and navy).

Limitation of the number of sizes: With the exception of colors under note (a) the sizes of flags manufactured or purchased for the government departments will be limited to those with the following hoists:

- (1), 20 feet; (2), 19 feet (standard); (3),

14.35 feet; (4), 12.19 feet; (5), 10 feet; (6), 8.94 feet; (7), 5.14 feet; (8), 5 feet; (9), 3.52 feet; (10), 2.90 feet; (11), 2.37 feet; (12), 1.31 feet.

Union jacks: The size of the jack shall be the size of the union of the national flag with which it is flown.

Position and size of stars: The position and size of each star for the union of the flag shall be as indicated on a plan which will be furnished to the departments by the navy department. From this plan can be determined the location and size of stars for flags of any dimensions. Extra blue prints of this plan will be furnished upon application to the navy department.

Order effective: All national flags and union jacks now on hand or for which contracts have been awarded shall be continued in use until un-serviceable, but all those manufactured or purchased for government use after the date of this order shall conform strictly to the dimensions and proportions herein prescribed.

WOODROW WILSON.

The White House, May 29, 1916.

The national flag of the United States now consists of thirteen alternate red and white stripes, representing the original thirteen states, and a blue field on which are forty-eight white stars arranged in six rows of eight stars each, representing the forty-eight states now constituting the union. The last two stars were added in 1912 when New Mexico and Arizona were officially admitted as states. June 14 is generally observed as flag display day.

Laws are in force in some of the states forbidding the desecration or mutilation of the flag or its use in any way for advertising purposes. A federal law forbids the use of the national flag on trade marks.

Canadian Pacific railway, 12,994; gross earnings year ended June 30, 1916, \$129,481,885.74; working expenses, \$80,255,965; net earnings, \$49,225,920.46.

RAILROAD STATISTICS TO JUNE 30, 1915.

[From interstate commerce commission report.]

The statistics given herewith cover the fiscal year ended June 30, 1915, and are summarized from the annual reports of railroad companies having operating revenues of more than \$100,000 for the year and also of companies owning property operated under lease or other agreement by those carriers:

Miles of line operated.....	257,569
Miles of track operated.....	391,141
Second track.....	28,645
Third track.....	2,714
Fourth track.....	1,925
Yard track.....	99,910
Other track.....	378
Locomotives in service.....	65,099
Steam.....	64,855
Other.....	264
Cars in service.....	2,507,977
Passenger.....	65,705
Freight.....	2,356,338
Company service.....	95,934
Freight capacity, tons.....	92,225,541
Employees (class 1 and 2 roads).....	1,409,342
Compensation for year.....	\$1,164,844,430
Capital outstanding.....	\$21,127,959,078
Dividends declared.....	\$328,477,938
Dividends, average per cent.....	6.29
Passengers carried.....	976,303,602
Passengers carried one mile.....	32,247,563
Tons freight carried.....	1,802,018,177

WRECK OF UNITED STATES CRUISER MEMPHIS.

The United States armored cruiser Memphis was driven ashore on the rocks of the outer harbor at Santo Domingo City at 4:30 p. m., Aug. 29, 1916, and became a complete wreck. A heavy sea came up suddenly and the ship was unable to get up steam in time to save itself. In the effort to do so a steam pipe burst, severely injuring a number of men, two of them fatally. Many of the crew were on shore and more than a score of these who were returning to the Memphis in a launch when the hurricane came up were drowned. Altogether forty-one lives

were lost, while more than seventy were injured. The gunboat Castine had a narrow escape from destruction in the same harbor, but after dragging close to the rocks managed to put out to sea.

The Memphis was of 14,500 tons and had a speed of twenty-two knots an hour, its horsepower being 23,900. It had a complement of 990 men. The vessel was launched in 1904 and was first named the Tennessee. It was the flagship of the cruiser squadron of the Atlantic fleet. It was commanded by Capt. E. L. Beach.

DOMESTIC COMMERCE OF THE UNITED STATES.

It was estimated by The Annalist of New York that the total domestic trade of the United States in the calendar year 1915 amounted to \$507,000,000,000. The foreign trade of the country in the same year amounted to about \$5,350,000,000, or only about 1.1 per cent of the home trade. Irving Fisher, the economist, estimated the total business transacted in the United States in 1913 at \$477,000,000,000 and in 1914 at

\$449,000,000,000. "Based on the increases in gross railroad earnings and bank clearings, fairly accurate measures of any change in the volume of business," says The Annalist, "the total turnover in 1915 must therefore have exceeded that for any previous year, more especially as the level of—prices was undoubtedly well above that for any other like period."

UNITED STATES CUSTOMS DUTIES.

Following are the existing tariff rates placed by the Underwood-Simmons act of 1913 on articles in common use or of extensive importation. A list of the principal articles on the free list is appended. Amounts given in dollars and cents are specific and the percentages are ad valorem duties. The abbreviation "n. s. p." means "not specially provided for."

DUTIABLE LIST.

SCHEDULE A—CHEMICALS, OILS AND PAINTS.

Acids: Boracic, $\frac{3}{4}$ c lb.; citric, 5c lb.; formic, $\frac{1}{4}$ c lb.; gallic, 6c lb.; lactic and oxalic, $\frac{1}{4}$ c lb.; pyrogallic, 12c lb.; salicylic, $\frac{2}{4}$ c lb.; tannic, 5c lb.; tartaric, $\frac{3}{4}$ c lb.; acids n. s. p., 15%.

Albumen, dried egg, 2c lb.

Alkalies and compounds of, n. s. p., 15%.

Alumina and compounds, n. s. p., 15%.

Ammonia, carbonate and muriate, $\frac{3}{4}$ c lb.; liquid anhydrous, $\frac{2}{4}$ c lb.; ammoniacal gas liquor, 10%.

Argols, crude, and calcium tartrate, crude, 5%; with more than 90 per cent of potassium bitartrate, cream of tartar, Rochelle salts, $\frac{2}{4}$ c lb.

Balsams, natural and crude, 10%; advanced in value, 15%.

Barium, chloride of, $\frac{1}{4}$ c lb.; dioxide of, $\frac{1}{4}$ c lb.; carbonate of, precipitated, 15%.

Blackening, all kinds, 15%.

Bleaching powder, chloride of lime, 1-10c lb.

Caffeine, \$1 lb.; compounds of, 25%.

Calomel, corrosive sublimate, 15%.

Chalk, manufactured, 25%.

Chemical and medicinal compounds, 10c lb. and 20% to 40c lb. and 20%.

Chemical and medicinal compounds in individual packages of $\frac{2}{4}$ lbs. or less, 20% to 25%.

Chloroform, 2c lb.

Coal tar dyes, n. s. p., 30%.

Coal tar products, not dyes, n. s. p., 5% to 15%.

Cobalt, oxide of, 10c lb.

Collodion, 15%; compounds, 25% to 40%.

Drugs, natural materials for, advanced in value, 10%.

Dyestuffs (see Emergency Revenue Act, this volume).

Ergot, 10c lb.

Ethers, 4c to 5c lb.; ethers n. s. p., 20%.

Extracts for dyeing, $\frac{3}{4}$ c lb.

Formaldehyde, 1c lb.

Fusel oil, $\frac{1}{4}$ c lb.

Gelatin, glue and glue size, 1c lb.; valued at above 10c lb., 15% to 25%.

Glycerin, crude, 1c lb.; refined, 2c lb.

Gums, crude, n. s. p., \$1 lb.; arabic, $\frac{1}{4}$ c lb.; camphor, crude, 1c lb.; camphor, refined, 5c lb.

Ink and ink powders, 15%.

Iodoform, 15c lb.

Leaves and roots, $\frac{1}{4}$ c to 10c lb.

Licorice, extracts of, 1c lb.

Lime, citrate of, 1c lb.

Magnesia, 1-10c to $\frac{3}{4}$ c lb.

Menthol, 50c lb.

Oils, fish, n. s. p., 2c gal.; whale, 5c gal.; sperm, 8c gal.; oils and greases, n. s. p., 15%.

Oils, expressed, castor, 12c gal.; flaxseed and linseed, 10c gal.; olive, 20c to 30c gal.; other expressed oils, n. s. p., 15%.

Oils, distilled and essential, 10% to 20% or 6c to 25c lb.

Opium, crude, \$3 to \$6 lb.; derivatives of, \$2 to \$3 oz.

Perfumery, cosmetics, dentifrices, if with alcohol, 40c lb. and 60%; without alcohol, 60%; perfumes, n. s. p., 20%.

Plasters, curative, 15%.

Pigments, 5% to 25%; lead, 25%; zinc oxide, 10% to 15%; varnishes, 10%; enamel paints, n. s. p., 20%.

Potash, bicarbonate and chloride of, $\frac{1}{4}$ c lb.; chromate or bichromate of, 1c lb.; saltpeter, refined, \$7 ton.

Soaps, perfumed, toilet, 30%; medicinal, 20%; castile and unperfumed, 10%; other, n. s. p., 10%.

Soda, benzoate of, 5c lb.; alkalies and sulphites of, $\frac{1}{4}$ c lb.; sal soda, $\frac{1}{4}$ c lb.

Sponges, 10%; bleached, 15%.

Talcum, 15%.

Vanillin, 10c oz.; vanilla beans, 30c lb.

SCHEDULE B—EARTHES, EARTHENWARE AND GLASS-WARE.

Brick, 10%; glazed, decorated, 15%.

Cement, 10%.

Tiles, $\frac{1}{4}$ c to 5c sq. ft.; 20% to 30%.

Lime, 5%.

Gypsum, 10%.

Pumice stone, unmanufactured, 5%; manufactured, $\frac{1}{4}$ c lb. or 25%.

Clays or earths, unmanufactured, n. s. p., 50c ton; manufactured, \$1 to \$1.50 ton.

Mica, unmanufactured, 4c lb. to 25%; manufactured, 30%.

Earthenware, common, not ornamented, 15%; ornamented, 20% to 30%.

Earthenware of nonvitrified absorbent body, 35% to 40%.

China and porcelain wares, 50% to 55%.

Gas retorts, 10%.

Glass bottles, 30% to 45%.

Glass, window, $\frac{1}{4}$ c to 2c lb.; cylinder and crown, 3c to 10c sq. ft.; cast plate, 6c to 12c sq. ft. and 4% additional if ground, frosted, etc.

Spectacles, 35%.

Lenses, 25%.

Opera glasses, optical instruments, n. s. p., 35%.

Telescopes, microscopes, photographic lenses, 25%.

Mirrors, stained glass windows, manufactures of glass, n. s. p., 30%.

Marble, breccia, onyx, rough, 50c cu. ft.; dressed, 75c cu. ft.; paving tiles of, 6c to 10c superficial ft.; mosaic cubes, 20% to 35%.

Marble, breccia, onyx, alabaster, jet, manufactured into monuments, vases, etc., 45%.

Stone, building, manufactured, 25%; unmanufactured, 3c cu. ft.

Grindstones, \$1.50 ton.

Slates, n. s. p., 10%.

SCHEDULE C—METALS AND MANUFACTURES OF.

Chrome metal and other alloys used in manufacture of steel, n. s. p., 15%.

Bar and other rolled or hammered iron, n. s. p., 5%.

Beams, girders and other structural iron and steel, 10%.

Boiler or other plate of iron and steel, n. s. p., 12%.

Iron and steel anchors, 12%; antifriction balls, 35%.

Hoop, band or scroll iron or steel, n. s. p.; barrel hoops of iron and steel, 10%.

Railway fishplates and splice bars, 10%.

Iron or steel sheets with other metals imposed thereon, tin plates,terne plates, 15%.

Steel bars, mill shafting, castings, not containing alloys, 15%.

Rivet, screw, fence, nail and other iron or steel wire rods, 10%.

Round iron or steel wire, 15%; wire rope, 30%.

Anvils, 15%.

Automobiles valued at \$2,000 or more, 45%; under \$2,000, 30%; parts, 30%.

Bicycles, motorcycles, and parts, 25%.

Axles of iron and steel, 10%.

Blacksmiths' hammers and other tools of iron and steel, 10%.

Nuts and washers, 5% to 30%.

Cast iron pipe, 10%.

Chains, n. s. p., 20%; sprocket and machine, 25%.

Iron and steel tubing, n. s. p., 20%.

Knives, razors, etc., with folding blades, 35% to 55%.

Knives, table, etc., with fixed blades, and without handles, 25%; with handles, 30%.

Files and rasps, 25%.

Muskets and rifles, muzzle loading, 15%; breech-loading guns, 35%.

Needles, 20%.

Fishhooks and fishing tackle, except lines and nets, 30%.

Steel plates for engraving, stereotype plates, electrolyte plates, 15%; lithographic plates of stone, 25%.

Saws, 12%.

Screws, 25%.

Aluminum, crude, 2c lb.; in plates, bars, rods, $\frac{3}{4}$ c lb.
 Antimony, 10% to 25%.
 Argentine, German silver, unmanufactured, 15%.
 Bronze, 25%.
 Copper, 5%.
 Gold leaf, 35%.
 Silver leaf, 30%.
 Tinsel wire, 6% to 40%.
 Buckles, metal, 15%.
 Lead-bearing ores, $\frac{3}{4}$ c lb. on lead therein.
 Lead dross, bullion, in pigs and bars, 25% on lead therein.
 Metallic mineral substances n. s. p., 10%.
 Nickel, 10%; in sheets or strips, 20%.
 Pens, metallic, n. s. p., 8c gross.
 Penholders, gold pens, combination penholders, 25%.
 Pins, metal, not jewelry, 20%.
 Type and type metal, 15%.
 Watches and clocks, 30%.
 Zinc-bearing ores, 10% on zinc therein; in blocks, pigs or sheets, 15%.
 Steam engines, locomotives, printing presses, machine tools, 15%; lace-making machines, 25%.
 Articles of gold, silver and platinum, n. s. p., 50%; of iron, steel, lead, copper, brass, nickel, pewter, zinc or aluminum, n. s. p., 20%.

SCHEDULE D—WOOD AND MANUFACTURES OF.

Brier, ivy or laurel root, unmanufactured, 10%.
 Cedar, lignum-vite, ebony, box, mahogany, rosewood, satinwood, in boards and planks, 10%; veneers of wood, 15%.
 Paving posts, railroad ties, telegraph poles, 10%.
 Casks, barrels, packing boxes, 15%.
 Boxes for fruit, 15%.
 Chair cane or reeds, 10%; manufactures of osier or willow, 25%.
 Toothpicks, 25%.
 Blinds, screens of wood, bamboo, 20%; if dyed or ornamented, 25%.
 Furniture of wood, manufactures of wood, n. s. p., 15%.

SCHEDULE E—SUGAR, MOLASSES, AND MANUFACTURES OF.

Sugars, sirups and concentrated molasses testing not above 75 degrees, 71-100c lb.; for every additional degree, 26-1000c lb.; molasses not above 40 degrees, 15%; testing above 40 degrees, 24c to 44c gal.
 Maple sugar and sirup, 3c lb.; glucose or grape sugar, $\frac{1}{4}$ c lb.; sugar cane in natural state, 15%.
 Saccharin, 65c lb.
 Sugar candy and confectionery, n. s. p., valued at 15c lb. or less, 2c lb.; valued at more than 15c lb., 25%.

SCHEDULE F—TOBACCO AND MANUFACTURES OF.

Wrapper tobacco, leaf tobacco, unstemmed, \$1.85 lb.; stemmed, \$2.50 lb.
 All other tobacco n. s. p., 55c lb.; scrap tobacco, 35c lb.
 Snuff, 55c lb.
 Cigars and cigarettes, \$4.50 lb. and 25%.

SCHEDULE G—AGRICULTURAL PRODUCTS AND PROVISIONS.

Horses and mules, 10%.
 Live animals n. s. p., 10%.
 Barley, 15c bu.; barley malt, 25c bu.; pearled or bulled, 1c lb.
 Macaroni, vermicelli, 1c lb.
 Oats, 6c lb.; oatmeal, 30c 100 lbs.
 Rice, cleaned, 1c lb.; uncleaned, $\frac{3}{4}$ c lb.
 Biscuits and cakes containing confectionery or nuts, 25%.
 Butter and butter substitutes, $2\frac{1}{2}$ c lb.
 Cheese, 20%.
 Beans and lentils n. s. p., 25c bu.
 Beets, 5%.
 Beans, peas, in tins, jars, etc., 1c lb.
 Vegetables, prepared, 25%; in natural state, n. s. p., 15%.
 Pickles n. s. p., 25%.
 Cider, 2c gal.
 Eggs, preserved, 2c lb.; dried, 10c lb.
 Hay, \$2 ton.
 Honey, 10c gal.
 Hops, 16c lb.
 Garlic, 1c lb.

Onions, 20c bu.
 Peas, green or dried, in bulk, 10c bu.; split peas, 20c bu.; peas in packages, $\frac{1}{4}$ c lb.
 Orchids, palms, azalea indica, cut flowers, 25%; other flowers, \$1 to \$10 per 1,000.
 Fruit plants, \$1 per 1,000; rose plants, 4c each; nursery and greenhouse stock, n. s. p., 15%.
 Seeds: Castor, 15c bu.; oil seeds, n. s. p., 20c bu.; poppy, 15c lb.; canary seed, $\frac{1}{4}$ c lb.; caraway, 1c lb.; anise, 2c lb.; carrot, parsley, parsnip, radish, turnip, rutabaga, 3c lb.; other seeds, 5c to 6c lb.
 Straw, 50c ton.

Fish packed in oil, 25%; in tin packages, 15%.
 Apples, peaches, quinces, cherries, plums and pears 10c bu.; berries, edible, in natural condition, $\frac{1}{4}$ c qt.; cranberries, 10%; dried or prepared fruits, n. s. p., 1c lb.
 Figs, 2c lb.; plums, prunes, 1c lb.; raisins, 2c lb.; dates, 1c lb.; currants, $\frac{1}{4}$ c lb.; olives, 15c gal.

Grapes in barrels, 25c cu. ft.
 Lemons, limes, oranges in packages of $1\frac{1}{4}$ cu. ft. or less, 18c per package; in larger packages up to 5 cu. ft., 55c to 70c per package; in packages exceeding 5 cu. ft. or in bulk, $\frac{1}{4}$ c lb.
 Pineapples in packages, 6c cu. ft. of package; in bulk, \$5 per 1,000.

Almonds, not shelled, 3c lb.; shelled, 4c lb.
 Filberts, walnuts, not shelled, 2c lb.; shelled, 4c lb.
 Peanuts, unshelled, $\frac{3}{4}$ c lb.; shelled, $\frac{3}{4}$ c lb.
 Nuts, n. s. p., 1c lb.
 Venison, game, $\frac{1}{4}$ c lb.; game birds, dressed, 30%.

Poultry, live, 1c lb.; dead, 2c lb.
 Chicory root, unground, 1c lb.; ground, 2c lb.
 Chocolate and cocoa, unsweetened, n. s. p., 8%; sweetened, n. s. p., valued at 20c lb. or less, 2c lb.; at more than 20c lb., 25%.

Cocoa butter, $\frac{3}{4}$ c lb.
 Dandelion root, substitutes for coffee, 2c lb.
 Starch, potato, 1c lb.; other starch, $\frac{1}{4}$ c lb.
 Spices, unground, 1c to 18c lb.; ground, 20% additional.

Vinegar, 4c gal.

SCHEDULE H—SPIRITS, WINES AND OTHER BEVERAGES.

Brandy and other distilled spirits, \$2.60 proof gal.
 Cordials, liqueurs, bitters, etc., containing spirits, \$2.60 proof gal.
 Bay rum, \$1.75 gal.
 Champagne in bottles of more than 1 pint to 1 quart, \$9.60 doz.; of more than $\frac{1}{2}$ pint to 1 pint, \$4.80 doz.; $\frac{1}{2}$ pint or less, \$2.40 doz.; more than 1 quart, in addition to \$9.60 doz. bottles, on excess quantity above 1 quart at rate of \$3 gal.

Still wines, 45c to 60c gal. or \$1.85 per case.
 Ale, porter, stout, beer, in bottles or jugs, 45c gal.; not in bottles or jugs, 23c gal.
 Malt extract, fluid, in casks, 23c gal.; in bottles or jugs, 45c gal.; solid, 45%.
 Fruit juices, 70c to 80c gal. and in addition \$2.07 proof gal. on alcohol.
 Ginger ale or beer, lemonade, soda water, containing no alcohol, 12c to 28c doz. bottles, according to size.
 Mineral waters, 10c to 20c doz. bottles, according to size; in bottles of more than 1 quart, 18c gal.; in bulk, 8c gal.

SCHEDULE I—COTTON MANUFACTURES.

Cotton thread, yarn, warps, not combed, bleached, dyed, mercerized or colored, 5% to 27 $\frac{1}{2}$ %, according to number.
 Spool thread of cotton, crochet, darning and embroidery cottons, 15%.
 Cotton cloth, not bleached, dyed, printed, figured or mercerized, 7 $\frac{1}{2}$ % to 30%, according to number.
 Cloth of cotton and silk, 30%; waterproof cloth of cotton, 25%.
 Cotton handkerchiefs, not hemmed, n. s. p., 25%; hemmed, 30%.
 Cotton clothing, ready made, 30%.
 Plushes, velvets, chiefly of cotton, 40%.
 Curtains and other articles of cotton chenille, 35%.
 Stockings, hose, of cotton, made on knitting machines, n. s. p., 20%.

Stockings, hose, of cotton, made on machines or knit by hand, valued at not more than 70c per doz. pair, 30%; valued at more than 70c and not more than \$1.20, 40%; valued at more than \$1.20, 50%.

Cotton gloves, 35%.

Cotton underwear, 30%.

Cotton bandings, belts, cords, suspenders, 25%.

Cotton table damask, 25%.

Cotton towels, quilts, blankets, 25%.

Cotton lace window curtains, 35% to 45%.

Cotton cloth, n. s. p., 30%.

SCHEDULE J—FLAX, HEMP AND JUTE AND MANUFACTURES OF.

Single yarns of jute, 15% to 20%.

Cables of istle, manila, etc., 1c lb.

Threads of flax, hemp or ramie, 20% to 25%.

Single yarns of flax, hemp or ramie, 10% to 20%.

Gill nettings, nets and seines of flax, hemp or ramie, 25%.

Floor mattings of straw, 2½c sq. yd.

Carpets, mats, rugs of flax, hemp, jute, 30%.

Tapes of flax, 20%.

Linooleum, 20% to 35%.

Linen shirt collars and cuffs, 30%.

Wearing apparel of flax, hemp or ramie, 40%.

Articles of flax, hemp or ramie, n. s. p., 40%.

Handkerchiefs of flax, hemp or ramie, 35% to 40%.

Plain woven fabrics of flax, hemp or ramie, n. s. p., 30%.

Istle or tampoico, dressed, dyed and combed, 20%.

SCHEDULE K—WOOL AND MANUFACTURES OF.

Combed wool or tops advanced beyond scoured condition, n. s. p., 8%.

Yarns of wool, 18%.

Woolen cloth, 35%; cloth of cattle or horse hair, 25%; plushes, velvets, etc., of wool, 40%;

stockings, hose, made on knitting machines, all wool, 20%; stockings, selvaged, fashioned or shaped by machine or by hand, valued at not more than \$1.20 per doz. pairs, 30%; valued at more than \$1.20, 40%.

Blankets and flannels of wool, 25% to 30%.

Women's and children's dress goods of wool, n. s. p., 35%.

Clothing, ready made, including shawls, of wool, 35%.

Webbings, suspenders, beltings, cords, etc., of wool, 35%.

Aubusson, Axminster, moquette and chenille carpets, 35%.

Saxony, Wilton and Tournay velvet carpets, 30%.

Brussels carpets, 25%.

Tapestry Brussels carpets, 20%.

Treble ingrain, three-ply carpets, 20%.

Carpets and rugs woven whole for rooms, 50%.

Hair of Angora goat, alpaca, 15%; tops of, 20%; yarns of, 25%; cloth of, 40%; plushes and velvets of, 45%.

SCHEDULE L—SILKS AND SILK GOODS.

Carded or combed silk, 20c lb.

Spun silk or schappe silk yarn, 35%.

Velvets, plushes, chenilles of silk, 50%.

Silk handkerchiefs and mufflers, 40% to 50%.

Ribbons, etc., of silk, 45%.

Clothing of silk, 50%.

Woven fabrics of silk, n. s. p., 45%.

Artificial or imitation silk fabrics and articles, 35% to 60%.

SCHEDULE M—PAPERS AND BOOKS.

Sheathing paper, roofing felt, paper-box board, 5%.

Printing paper, japan paper, suitable for books and newspapers but not for covers or bindings, n. s. p., valued above 5c lb., 12%; in the case of imports from countries charging an export duty or export license fee on printing paper or wood pulp an additional duty equal to the highest export duty or export charge shall be imposed. (See Emergency Revenue Act, this volume.)

Copying paper, tissue paper, filtering paper, 30%.

Paper with surface coated in any way, 25% to 40%.

Lithographed pictures, cards, booklets, 15c to 60c lb.

Writing paper, 25%.

Paper envelopes, 15%.

Books of all kinds, bound or unbound, including blank books, engravings, photographs, etchings, maps, charts, music in books or sheets, 15%.

Albums, 25%.

Playing cards, 60%.

Postcards, not including American views, printed except by lithographic process, 25%.

SCHEDULE N—SUNDRIES.

Beads, 35%.

Braids, ramie hat, 40%.

Braids of straw, grass, willow, etc., suitable for ornamenting hats, not trimmed, 15% to 25%; trimmed, 40%.

Brooms, 15%; brushes and feather dusters, 35%.

Bristles, sorted, 7c lb.

Buttons, 15% to 40%.

Cork and articles of, 12c to 15c lb.; cork paper, 35%; manufactures of cork, n. s. p., 30%.

Dice, dominoes, chessmen, billiard balls, etc., of ivory, bone or other materials, 50%.

Dolls, marbles and toys not of china, porcelain, earthen or stone ware, 35%.

Emery, 1c lb.; emery wheels, 20%.

Firecrackers, 6c lb.; fireworks, 10c lb.

Matches, 3c per gross of 144 boxes; not in boxes, ½c per 1,000 matches; wax matches, tapers, 25%; white phosphorus matches not admitted.

Percussion caps, cartridges, 15%; blasting caps, \$1 per 1,000; mining fuses, 15%.

 Tea, n. s. p.; tea plants.
 Teeth, natural.
 Textbooks.
 Tin ore, tin in bars, blocks or pigs.
 Tobacco stems.
 Tungsten-bearing ores.
 Typewriters.
 Uranium.
 Wax, vegetable or mineral.
 Wearing apparel, articles of personal adorn-
 ment, toilet articles and similar personal ef-
 fects, not for sale or for other persons than
 the owners. In the case of residents of the
 United States returning from abroad all wear-
 ing apparel, personal and household effects
 taken by them out of the United States to for-
 eign countries shall be admitted free of duty,
 without regard to their value, upon their iden-
 tity being established under appropriate rules

and regulations to be prescribed by the secretary of the treasury. Up to but not exceeding \$100 in value of articles acquired abroad by such residents of the United States for personal or household use or as souvenirs or curios, but not bought on commission or intended for sale, shall be admitted free of duty.

Whalebone, unmanufactured.

Wheat and wheat flour except when imported from a country imposing a duty on wheat and wheat flour exported from the United States.

Wire for fencing or baling purposes.

Wood: Logs, timber, pulp woods, kindling wood, firewood, hop poles, hoop poles, fence posts, posts for wheels, posts, sawed boards, laths, pickets, palings, staves, shingles, ship timber, broom handles.

Wood pulp, mechanically ground, chemical and rag pulp.

Wool of the sheep, hair of the camel and other like animals.

Wool waste.

Works of art: Original paintings, drawings, artists' proof etchings unbound, engravings unbound, printed by hand, original sculptures; works of art imported for exhibition purposes or for presentation to a public institution.

Works of art (except rugs and carpets) which shall have been produced more than 100 years prior to the date of importation.

SPECIAL PROVISIONS.

TRADE AGREEMENTS.

For the purpose of readjusting the present duties on importations into the United States and at the same time to encourage the export trade of this country, the president of the United States is authorized and empowered to negotiate trade agreements with foreign nations wherein mutual concessions are made looking toward freer trade relations and further reciprocal expansion of trade and commerce: Provided, however, That said trade agreements before becoming operative shall be submitted to the congress of the United States for ratification or rejection.

MARKING AND BRANDING.

All articles of foreign manufacture or production which are capable of being marked, stamped, branded or labeled, without injury, shall be marked, stamped, branded or labeled in

legible English words, in a conspicuous place that shall not be covered or obscured by any subsequent attachments or arrangements, so as to indicate the country of origin. All packages containing imported articles shall be marked, stamped, branded or labeled so as to indicate legibly and plainly in English words the country of origin and the quantity of their contents.

DISCRIMINATING DUTIES.

A discriminating duty of 10 per centum ad valorem, in addition to the duties imposed by law, shall be levied, collected and paid on all goods, wares or merchandise which shall be imported in vessels not of the United States, or which, being the production or manufacture of any foreign country not contiguous to the United States, shall come into the United States from such contiguous country; but this discriminating duty shall not apply to goods, wares or merchandise which shall be imported in vessels not of the United States entitled at the time of such importation by treaty or convention or act of congress to be entered in the ports of the United States on payment of the same duties as shall then be payable on goods, wares and merchandise imported in vessels of the United States, nor to such foreign products or manufactures as shall be imported from such contiguous countries in the usual course of strictly retail trade.

No goods, wares or merchandise, unless in cases provided for by treaty, shall be imported into the United States from any foreign port or place, except in vessels of the United States, or in such foreign vessels as truly and wholly belong to the citizens or subjects of that country of which the goods are the growth, production or manufacture, or from which such goods, wares or merchandise can only be, or most usually are, first shipped for transportation. All goods, wares or merchandise imported contrary to this section, and the vessel wherein the same shall be imported, shall be forfeited to the United States.

The preceding subsection shall not apply to vessels or goods, wares or merchandise imported in vessels of a foreign nation which does not maintain a similar regulation against vessels of the United States.

DISCOUNT FOR AMERICAN SHIPS.

A discount of 5 per centum on all duties imposed by this act shall be allowed on such goods, wares and merchandise as shall be imported in vessels admitted to registration under the laws of the United States: Provided, That nothing in this subsection shall be so construed as to abrogate or in any manner impair or affect the provisions of any treaty concluded between the United States and any foreign nation.

SYNOPSIS OF TARIFF LEGISLATION SINCE 1884.

Morrison Bills—First bill presented to 43th congress during Chester A. Arthur's administration; proposed a horizontal reduction of 20 per cent with free iron ore, coal and lumber; defeated in house April 15, 1884, by vote of 159 to 155; house heavily democratic and senate republican. Second bill presented to 49th congress during Grover Cleveland's first administration; similar to first bill, proposing free wool, salt and lumber; defeated in house June 17, 1886, by a vote of 157 to 140; house democratic, senate republican.

Mills Bill—Presented to 50th congress during Cleveland's first administration; provided for free lumber and wool, reduction on pig iron and abolition of specific duties on cotton; passed by house July 21, 1888, by vote of 162 to 149, but failed in senate; house democratic, senate republican.

McKinley Bill—Passed by 51st congress during Benjamin Harrison's administration; became law Oct. 6, 1890; high protective measure, though remitting duties on sugar and providing for reciprocity treaties; both houses of congress republican.

Wilson Bill—Passed by 53d congress during Cleveland's second administration; became law Aug. 17, 1894, without the president's signature; both houses democratic; measure reduced duties in some cases and made additions to free list, notably wool.

Dingley Bill—Passed by 54th congress during McKinley's administration; approved July 24, 1897; passed by house 205 yeas to 122 nays, 27 members not voting; passed by senate 38 yeas to 23 nays, 23 not voting; house contained 206 republicans and 134 democrats and senate 46 republicans and 34 democrats; measure raised rates to produce more revenue, but was similar in many respects to the McKinley act.

Payne-Aldrich Bill—Passed at extra session of 61st congress in first year of President William H. Taft's administration; approved Aug. 5, 1909; passed the house by a vote of 217 to 161 and the senate by a vote of 45 to 34. The conference vote in the house was 195 yeas to 133 nays, twenty republicans voting in the negative and two democrats in the affirmative. In the senate the vote on the final conference report was 47 to 31, seven republicans voting against it. In general the revision of the Dingley act was in the direction of lower duties, but there were some increases.

Underwood-Simmons Bill—Passed by 63d congress at extra session called immediately after President Wilson's inauguration in 1913; house and senate democratic. The bill made many reductions in the tariff duties as fixed by the Payne-Aldrich law and placed numerous articles on the free list. It also contained a section establishing a tax on incomes.

COINS OF THE UNITED STATES (1792-1915.)

GOLD COINS.

Fifty Dollar Piece.—Panama-Pacific International Exposition—Authorized Jan. 16, 1915; weight, 1,290 grains; fineness, .900; total coined to June 30, 1915, \$30,000.

Double Eagles.—Authorized to be coined, act of March 3, 1849; weight, 516 grains; fineness, .900. Total amount coined to June 30, 1915, \$2,415,146-120. Full legal tender.

Eagles.—Authorized to be coined, act of April 2, 1792; weight, 270 grains; fineness, .916 $\frac{3}{4}$; weight changed, act of June 23, 1834, to 258 grains; fineness changed, act of June 28, 1834, to .899225; fineness changed, act of June 18, 1837, to .900. Total amount coined to June 30, 1915, \$511,229,100. Full legal tender.

Half-Eagles.—Authorized to be coined, act of April 2, 1792; weight, 135 grains; fineness, .916 $\frac{3}{4}$; weight changed, act of June 23, 1834, to 129 grains; fineness changed, act of June 28, 1834, to .899225; fineness changed, act of Jan. 18, 1837, to .900. Total amount coined to June 30, 1915, \$387,108,970. Full legal tender.

Quarter-Eagles.—Authorized to be coined, act of April 2, 1792; weight, 67.5 grains; fineness, .916 $\frac{3}{4}$; weight changed, act of June 23, 1834, to 64.5 grains; fineness changed, act of June 28, 1834, to .899225; fineness changed, act of June 18, 1837, to .900. Total amount coined to June 30, 1915, \$43,126,225. Full legal tender.

Quarter Eagle.—Panama-Pacific International Exposition—Authorized Jan. 16, 1915; weight, 64.5 grains; fineness, .900; total coined to June 30, 1915, \$25,000.

Three-Dollar Piece.—Authorized to be coined, act of Feb. 21, 1853; weight, 77.4 grains; fineness, .900; coinage discontinued, act of Sept. 26, 1890. Total amount coined, \$1,619,376. Full legal tender.

One Dollar.—Authorized to be coined, act of March 3, 1849; weight, 25.8 grains; fineness, .900; coinage discontinued, act of Sept. 26, 1890. Total amount coined, \$19,499,337. Full legal tender.

One Dollar.—Louisiana Purchase Exposition—Authorized June 28, 1902; weight, 25.8 grains; fineness, .900. Total amount coined, \$250,000.

One Dollar.—Lewis and Clark Exposition—Authorized April 13, 1905; weight, 25.8 grains; fineness, .900. Total amount coined, \$600.

One Dollar.—Panama-Pacific International Exposition—Authorized Jan. 16, 1915; weight, 28.8 grains; fineness, .900; total coined to June 30, 1915, \$5,500.

SILVER COINS.

Dollar.—Authorized to be coined, act of April 2, 1792; weight, 416 grains; fineness, .8924; weight changed, act of Jan. 18, 1837, to 412 $\frac{1}{2}$ grains; fineness changed, act of Jan. 18, 1837, to .900; coinage discontinued, act of Feb. 12, 1873. Total amount coined to Feb. 12, 1873, \$3,031,238. Coinage reauthorized, act of Feb. 23, 1876; coinage discontinued after July 1, 1891, except for certain purposes, act of July 14, 1890. Amount coined to June 30, 1915, \$578,303,848. Full legal tender except when otherwise provided in the contract.

Trade Dollar.—Authorized to be coined, act of Feb. 12, 1873; weight, 420 grains; fineness, .900; legal tender limited to \$5, act of June 22, 1874 (rev. stat.); coinage limited to export demand and legal tender quality repealed, joint resolution July 22, 1876; coinage discontinued, act of Feb. 19, 1887. Total amount coined, \$35,965,924.

Lafayette Souvenir Dollar.—Authorized by act of March 3, 1899; weight, 412 $\frac{1}{2}$ grains; fineness, .900. Total amount coined, \$50,000.

Half-Dollar.—Authorized to be coined, act of April 2, 1792; weight, 208 grains; fineness, .8924; weight changed, act of Jan. 18, 1837, to 206 $\frac{1}{4}$ grains; fineness changed, act of Jan. 18, 1837, to .900; weight changed, act of Feb. 21, 1853, to 192 grains; weight changed, act of Feb. 12, 1873, to 12 $\frac{1}{2}$ grains, or 122.9 grains. Total amount coined to June 30, 1915, \$189,834,011. Legal tender, \$10.

Columbian Half-Dollar.—Authorized to be coined, act of Aug. 5, 1892; weight, 192.9 grains; fineness, .900. Total amount coined, \$2,500,000. Legal tender, \$10.

Half Dollar.—Panama-Pacific International Exposition—Authorized Jan. 16, 1915; weight, 192.9;

fineness, .900; coined to June 30, 1915, \$30,000. **Quarter-Dollar.**—Authorized to be coined, act of April 2, 1792; weight, 104 grains; fineness, .8924; weight changed, act of Jan. 18, 1837, to 103 $\frac{3}{4}$ grains; fineness changed, act of Jan. 18, 1837, to .900; weight changed, act of Feb. 21, 1853, to 96 grains; weight changed, act of Feb. 12, 1873, to 6 $\frac{1}{4}$ grains, or 96.45 grains. Total amount coined to June 30, 1915, \$102,737,827. Legal tender, \$10.

Columbian Quarter-Dollar.—Authorized to be coined, act of March 3, 1893; weight, 96.45 grains; fineness, .900. Total amount coined, \$10,000. Legal tender, \$10.

Twenty-Cent Piece.—Authorized to be coined, act of March 3, 1875; weight, 5 grains, or 7.16 grains; fineness, .900; coinage prohibited, act of May 2, 1878. Total amount coined, \$271,000.

Dime.—Authorized to be coined, act of April 2, 1792; weight, 4.6 grains; fineness, .8924; weight changed, act of Jan. 18, 1837, to 4 $\frac{1}{4}$ grains; fineness changed, act of Jan. 18, 1837, to .900; weight changed, act of Feb. 21, 1853, to 38.4 grains; weight changed, act of Feb. 12, 1873, to 2 $\frac{1}{2}$ grains, or 38.58 grains. Total amount coined to June 30, 1915, \$73,383,754.70. Legal tender, \$10.

Half-Dime.—Authorized to be coined, act of April 2, 1792; weight, 20.8 grains; fineness, .8924; weight changed, act of Jan. 18, 1837, to 20 $\frac{1}{2}$ grains; fineness changed, act of Jan. 18, 1837, to .900; weight changed, act of Feb. 21, 1853, to 19.2 grains; coinage discontinued, act of Feb. 12, 1873. Total amount coined, \$4,880,219.40.

Three-Cent Piece.—Authorized to be coined, act of March 3, 1851; weight, 12 $\frac{1}{2}$ grains; fineness, .750; weight changed, act of March 3, 1853, to 11.52 grains; fineness changed, act of March 3, 1853, to .900; coinage discontinued, act of Feb. 12, 1873. Total amount coined, \$1,282,087.20.

MINOR COINS.

Five-Cent (nickel).—Authorized to be coined, act of May 16, 1866; weight, 7.16 grains; composed of 75 per cent copper and 25 per cent nickel. Total amount coined to June 30, 1915, \$42,750-429.35. Legal tender for \$1, but reduced to 25 cents by act of Feb. 12, 1873.

Three-Cent (nickel).—Authorized to be coined, act of March 3, 1865; weight, 30 grains; composed of 75 per cent copper and 25 per cent nickel. Total amount coined, \$941,349.48. Legal tender for 60 cents, but reduced to 25 cents by act of Feb. 12, 1873. Coinage discontinued, act of Sept. 26, 1890.

Two-Cent (bronze).—Authorized to be coined, act of April 22, 1864; weight, 96 grains; composed of 95 per cent copper and 5 per cent tin and zinc. Coinage discontinued, act of Feb. 12, 1873. Total amount coined, \$912,020.

Cent (copper).—Authorized to be coined, act of April 2, 1792; weight, 264 grains; weight changed, act of Jan. 14, 1793, to 208 grains; weight changed, by proclamation of the president, Jan. 26, 1796, in conformity with act of March 3, 1795, to 168 grains; coinage discontinued, act of Feb. 21, 1857. Total amount coined, \$1,562,887.44.

Cent (nickel).—Authorized to be coined, act of Feb. 21, 1857; weight, 72 grains; composed of 88 per cent copper and 12 per cent nickel. Coinage discontinued, act of April 22, 1864. Total amount coined, \$2,007,720.

Cent (bronze).—Authorized, act of April 22, 1864; weight, 48 grains; composed of 95 per cent copper and 5 per cent tin and zinc. Total amount coined to June 30, 1915, \$23,454,816.67. Legal tender, 25 cents.

Half-cent (copper).—Authorized to be coined, act of April 2, 1792; weight, 132 grains; weight changed, act of Jan. 14, 1793, to 104 grains; weight changed by proclamation of the president, Jan. 26, 1796, in conformity with act of March 3, 1795, to 84 grains; coinage discontinued, act of Feb. 21, 1857. Total amount coined, \$39,926.11.

WORK OF THE 64TH CONGRESS—FIRST SESSION.

Session began Dec. 6, 1915; ended Sept. 8, 1916.

Total appropriations, \$1,894,035,739.73.

Act for making further and more effectual provision for the national defense; passed by house March 23; by senate April 18; approved June 8.

Act making appropriations for the navy, with provisions for its increase, etc.; passed by house June 2; by senate July 12; approved Aug. 29.

Act making appropriations for the support of the army; passed by house June 26; by senate July 27; approved Aug. 29.

Act making appropriations for fortifications and other works of defense; passed by house June 22; by senate June 30; approved July 6.

Act to increase the revenue; passed by house July 10; by senate Sept. 5; approved Sept. 8.

Act to declare the purpose of the United States as to the future political status of the people of the Philippine Islands and to provide a more autonomous government for those islands; passed by senate Feb. 4; by house May 1; approved Aug. 29.

Act to establish a United States shipping board for the purpose of encouraging, developing and creating a naval auxiliary, etc.; passed by house May 20; by senate Aug. 18; approved Sept. 7.

Act to provide government aid in the construction of rural post roads; passed by house Jan. 25; by senate May 8; approved July 11.

Act to provide for the creation of twelve federal land banks and permit the establishment of joint-stock land banks for the purpose of making loans on farm lands (the federal farm loan act); passed by senate May 4; by house May 15; approved July 17.

Joint resolution for drafting militia into regular army; passed by house June 23; by senate June 26; approved July 1.

Act to appropriate \$200,000 for training the organized militia or national guard; passed house May 4; passed senate May 22; approved June 12.

Act establishing in the war and navy departments, respectively, a roll designated as the army and navy medal of honor roll; passed by house Feb. 9; by senate April 20; approved April 27.

Act providing for an increase in the number of cadets at the United States military academy; passed by senate March 22; by the house April 17; approved May 4.

Act to prevent interstate commerce in the products of child labor; passed by house Feb. 2; by senate Aug. 8; approved Sept. 1.

Act to provide compensation for employees of the United States suffering injuries while in the performance of their duties; passed by house July 13; by senate Aug. 19; approved Sept. 7.

Act to establish an eight hour day for employees of carriers engaged in interstate and foreign commerce; passed by house Sept. 1; by senate Sept. 2; approved Sept. 3 and 5.

Act to establish a national park service; passed by house July 1; by senate Aug. 5; approved Aug. 25.

Act to establish a national park in the territory of Hawaii; passed by house April 17; by senate June 3; approved Aug. 1.

Act to establish the Lassen Volcanic National park in the Sierra Nevada mountains, California; passed by house June 10; by senate July 27; approved Aug. 9.

Act to accept deed of gift to Abraham Lincoln homestead and log cabin; passed by house April 12; by senate June 3; approved July 17.

Act for erecting a suitable memorial to John Ericsson; passed by house Aug. 7; by senate Aug. 12; approved Aug. 31.

Act incorporating the American Academy of Arts and Letters; passed by senate Feb. 17, 1916; by house April 13; approved April 17.

Act to incorporate the Boy Scouts of America;

passed by house March 6; by senate May 31; approved June 15.

Act repealing provisos in tariff act of 1913 for duty free sugar and molasses after May 1, 1916; passed by house March 16; by senate April 22; approved April 27.

Act for the coinage of a McKinley souvenir gold dollar; passed by house Feb. 7; by senate Feb. 15; approved Feb. 23.

Joint resolution to provide for holding the Texas bicentennial and Pan-American exposition in 1918; passed by senate May 19; by house May 22; approved June 5.

Act amending the postal savings system act; passed by house Jan. 6; passed by senate March 15; approved May 18.

Act making appropriations for the department of agriculture and containing "United States cotton futures act," "United States grain standards act" and "United States warehouse act"; passed by house May 2; by senate July 12; approved Aug. 11.

Act making appropriations to supply urgent deficiencies in appropriations for military and naval establishments (caused by Mexican crisis); passed by house June 28; by senate June 29; approved July 1.

EMERGENCY REVENUE ACT.

INCOME TAX.

There shall be levied and collected annually upon the entire net income received by every individual, a citizen or resident of the United States, a tax of 2 per cent. and a like tax shall be levied upon the net income received from all sources within the United States by every individual, a nonresident alien, including interest on bonds, notes or other interest bearing obligations of residents.

In addition to this normal tax of 2 per cent there shall be levied and collected the following additional income taxes on the total net income of individuals:

On amount exceeding \$20,000 and under \$40,000, 1 per cent.
 Exceeding \$40,000 and under \$60,000, 2 per cent.
 Exceeding \$60,000 and under \$80,000, 3 per cent.
 Exceeding \$80,000 and under \$100,000, 4 per cent.
 Exceeding \$100,000 and under \$150,000, 5 per cent.
 Exceeding \$150,000 and under \$200,000, 6 per cent.
 Exceeding \$200,000 and under \$250,000, 7 per cent.
 Exceeding \$250,000 and under \$300,000, 8 per cent.
 Exceeding \$300,000 and under \$500,000, 9 per cent.
 Exceeding \$500,000 and under \$1,000,000, 10 per cent.
 Exceeding \$1,000,000 and under \$1,500,000, 11 per cent.
 Exceeding \$1,500,000 and under \$2,000,000, 12 per cent.
 Exceeding \$2,000,000, 13 per cent.

Net income of a taxable person includes gains, profits, salaries, wages, compensation for personal service, or from professions, vocations, businesses, trade, commerce or sales, or dealings in property and also from rent, dividends and securities. The additional tax includes undistributed profits.

The following income is exempt from the law: Proceeds of life insurance paid to individual beneficiaries upon the death of the insured.

Amount received by the insured as a return of premiums paid by him under life insurance, endowment or annuity contracts.

Value of property acquired by gift, bequest, devise or descent.

Interest upon obligations of a state or political subdivisions thereof, or on obligations of the United States.

Interest on securities issued under the farm loan act.

Compensation of the president of the United States and of United States judges.

Compensation of state officers and employees.

Deductions allowed:

1. Necessary expenses in carrying on any business or trade, not including personal, living or family expenses.

2. Interest paid on indebtedness.

3. Taxes paid within the year imposed by the United States, by any foreign country and by any state or taxing subdivision of any state, not including those assessed against local benefits.

4. Losses incurred in business or trade, or arising from fires, storms, shipwreck or other casualty, and from theft, not compensated for by insurance or otherwise.

5. In transactions entered into for profit, but not connected with his business or trade, the losses actually sustained to an amount not exceeding the profits from the same.

6. Worthless debts.

7. Reasonable allowance for wear and tear of property.

8. Reasonable allowance for reduction in flow of oil and gas wells and for depletion of mines.

Personal exemption: For the purpose of the normal tax only there shall be allowed as an exemption in the nature of a deduction from the amount of the net income of each person, the sum of \$3,000, plus \$1,000 additional if the person making the return be a head of a family or a married man with a wife living with him, or plus the sum of \$1,000 additional if the person making the return be a married woman with a husband living with her, but in no event shall this additional exemption of \$1,000 be deducted by both a husband and a wife. Only one deduction of \$4,000 shall be made from the aggregate income of both husband and wife when living together.

The provisions of the law with regard to returns made by persons and corporations subject to the income tax and to assessments and administration are substantially the same as under the old law.

Corporations: There shall be levied and collected upon the total net income received by every corporation, joint stock company or insurance company, organized in the United States, a tax of 2 per cent, and a like tax shall be paid by every foreign corporation upon the total net income received by it from all sources within the United States. Following are exemptions from the tax on corporation incomes:

The income received by any—

1. Labor, agricultural or horticultural organization.

2. Mutual savings bank not having a capital stock represented by shares.

3. Fraternal beneficiary society, order or association, operating under the lodge system or for the exclusive benefit of the members of a fraternity itself operating under the lodge system, and providing for the payment of life, sick, accident or other benefits to the members of such society, order or association or their dependents.

4. Domestic building and loan association and co-operative banks without capital stock, organized and operated for mutual purposes and without profit.

5. Cemetery company owned and operated exclusively for the benefit of its members.

6. Corporation or association organized and operated exclusively for religious, charitable, scientific or educational purposes, no part of the net income of which inures to the benefit of any private stockholder or individual.

7. Business league, chamber of commerce or board of trade, not organized for profit and no part of the net income of which inures to the benefit of any private stockholder or individual.

8. Civic league organized not for profit but social welfare.

9. Pleasure and recreation clubs not run for profit.

10. Farmers' or other mutual hail, cyclone, mutual or co-operative company, mutual irrigation or ditch company, mutual or co-operative telephone company or like organization of a purely local character, the income of which consists of assessments, etc., collected from members for expenses.

11. Farmers', fruit growers' and like associations operated as sales agents for the purpose of marketing the products of the members.

12. Corporations organized for the sole purpose

of holding title to property, collecting income therefrom and turning over amount, less expenses, to an organization which itself is exempt from an income tax.

13. Federal land banks and national farm loan associations.

14. Joint stock land banks as to income derived from bonds or debentures, of other joint stock land banks or any federal land bank belonging to such joint stock land bank.

There shall not be taxed any income derived from any public utility or from the exercise of any essential governmental function accruing to any state or territory or any political subdivision thereof. This includes the Philippines and Porto Rico.

Deductions to be made from the gross incomes of corporations include:

1. Ordinary and necessary expenses.

2. Losses sustained and not covered by insurance; allowance for wear and tear of property; reduction in production of oil and gas wells; depletion of mines.

3. Amount of interest paid on indebtedness.

4. Taxes imposed by the United States, any state or any taxing subdivision of any state, not including those assessed against local benefits.

ESTATE OR INHERITANCE TAX.

A tax, equal to the following percentages of the net estate, to be determined as provided by the act, is hereby imposed upon the transfer of the net estate of every decedent dying after the passage of this act, whether a resident or non-resident of the United States:

One per cent of the amount of such net estate not in excess of \$50,000.

Two per cent of amount by which such net estate exceeds \$50,000 and does not exceed \$150,000.

Three per cent of amount exceeding \$150,000 and not exceeding \$250,000.

Four per cent of amount exceeding \$250,000 and not exceeding \$450,000.

Five per cent of amount exceeding \$450,000 and not exceeding \$1,000,000.

Six per cent of amount exceeding \$1,000,000 and not exceeding \$2,000,000.

Seven per cent of amount exceeding \$2,000,000 and not exceeding \$3,000,000.

Eight per cent of amount exceeding \$3,000,000 and not exceeding \$4,000,000.

Nine per cent of amount exceeding \$4,000,000 and not exceeding \$5,000,000.

Ten per cent of amount by which estate exceeds \$5,000,000.

The value of the gross estate of the decedent shall be determined by including the value at the time of his death of all property, real or personal, tangible or intangible, wherever situated:

(a) To the extent of the interest therein of the decedent at the time of his death which after his death is subject to the payment of the charges against his estate and the expenses of its administration and is subject to distribution as part of his estate.

(b) To the extent of any interest therein of which the decedent has at any time made a transfer, or with respect to which he has created a trust, in contemplation of or intended to take effect in possession or enjoyment at or after his death, except in the case of a bona fide sale for a fair consideration in money or money's worth. Any transfer of a material part of his property in the nature of a final disposition or distribution thereof, made by the decedent within two years prior to his death without such a consideration, shall, unless shown to the contrary, be deemed to have been made in contemplation of death within the meaning of this title; and

(c) To the extent of the interest therein held jointly or as tenants in the entirety by the decedent and any other person, or deposited in banks or other institutions in their joint names and payable to either or the survivor, except such part thereof as may be shown to have originally belonged to such person and never to have belonged to the decedent.

For the purpose of this title stock in a domestic corporation owned and held by a nonresident

decedent shall be deemed property within the United States, and any property of which the decedent has made a transfer or with respect to which he has created a trust within the meaning of subdivision (b) of this section shall be deemed to be situated in the United States, if so situated either at the time of the transfer or the creation of the trust, or at the time of the decedent's death.

Sec. 203. For the purpose of the tax the value of the net estate shall be determined—

(a) In the case of a resident, by deducting from the value of the gross estate—

(1) Such amounts for funeral expenses, administration expenses, claims against the estate, unpaid mortgages, losses incurred during the settlement of the estate, arising from fires, storms, shipwreck or other casualty, and from theft, when such losses are not compensated for by insurance or otherwise, support during the settlement of the estate of those dependent upon the decedent, and such other charges against the estate as are allowed by the laws of the jurisdiction, whether within or without the United States, under which the estate is being administered; and

(2) An exemption of \$50,000;

(b) In the case of a nonresident, by deducting from the value of that part of his gross estate which at the time of his death is situated in the United States that proportion of the deductions specified in paragraph (1) of subdivision (a) of this section which the value of such part bears to the value of his entire gross estate, wherever situated. But no deductions shall be allowed in the case of a nonresident unless the executor includes in the return required to be filed the value at the time of his death of that part of the gross estate of the nonresident not situated in the United States.

Sec. 204. The tax shall be due one year after the decedent's death. If the tax is paid before it is due a discount at the rate of 5 per centum per annum, calculated from the time payment is made to the date when the tax is due, shall be deducted. If the tax is not paid within ninety days after it is due interest at the rate of 10 per centum per annum from the time of the decedent's death shall be added as part of the tax, unless because of claims against the estate, necessary litigation or other unavoidable delay the collector finds that the tax cannot be determined, in which case the interest shall be at the rate of 6 per centum per annum from the time of the decedent's death until the cause of such delay is removed, and thereafter at the rate of 10 per centum per annum. Litigation to defeat the payment of the tax shall not be deemed necessary litigation.

Sec. 205. The executor, within thirty days after qualifying as such, or after coming into possession of any property of the decedent, whichever event first occurs, shall give written notice thereof to the collector. The executor shall also, at such times and in such manner as may be required by the regulations made under this title, file with the collector a return under oath in duplicate, setting forth (a) the value of the gross estate of the decedent at the time of his death, or, in case of a nonresident, of that part of his gross estate situated in the United States; (b) the deductions allowed under section 203; (c) the value of the net estate of the decedent as defined in section 203; and (d) the tax paid or payable thereon, or such part of such information as may at the time be ascertainable and such supplemental data as may be necessary to establish the correct tax.

Return shall be made in all cases of estates subject to the tax or where the gross estate at the death of the decedent exceeds \$50,000, and in the case of every nonresident any part of whose gross estate is situated in the United States. If the executor is unable to make a complete return as to any part of the gross estate of the decedent, he shall include in his return a description of such part and the name of every person holding a legal or beneficial interest therein, and upon notice from the collector such person shall in like

manner make a return as to such part of the gross estate. The commissioner of internal revenue shall make all assessments of the tax under the authority of existing administrative special and general provisions of the law relating to the assessment and collection of taxes.

Sec. 206. If no administration is granted upon the estate of a decedent, or if no return is filed as provided in section 205, or if a return contains a false or incorrect statement of a material fact, the collector or deputy collector shall make a return and the commissioner of internal revenue shall assess the tax thereon.

Sec. 207. The executor shall pay the tax to the collector or deputy collector. If for any reason the amount of the tax cannot be determined, the payment of a sum of money sufficient, in the opinion of the collector, to discharge the tax shall be deemed payment in full of the tax, except as in this section otherwise provided. If the amount so paid exceeds the amount of the tax as finally determined, the commissioner of internal revenue shall refund such excess to the executor. If the amount of the tax as finally determined exceeds the amount so paid the commissioner shall notify the executor of the amount of such excess. From the time of such notification to the time of the final payment of such excess part of the tax, interest shall be added thereto at the rate of 10 per centum per annum, and the amount of such excess shall be a lien upon the entire gross estate, except such part thereof as may have been sold to a bona fide purchaser for a fair consideration in money or money's worth.

The collector shall grant to the person paying the tax duplicate receipts, either of which shall be sufficient evidence of such payment, and shall entitle the executor to be credited and allowed the amount thereof by any court having jurisdiction to audit and settle his accounts.

Sec. 208. If the tax herein imposed is not paid within sixty days after it is due the collector shall, unless there is reasonable cause for further delay, commence appropriate proceedings in any court of the United States, in the name of the United States, to subject the property of the decedent to be sold under the judgment or decree of the court. From the proceeds of such sale the amount of the tax, together with the costs and expenses of every description to be allowed by the court, shall be first paid, and the balance shall be deposited according to the order of the court, to be paid under its direction to the person entitled thereto. If the tax or any part thereof is paid by or collected out of that part of the estate passing to or in the possession of any person other than the executor in his capacity as such, such person shall be entitled to reimbursement out of any part of the estate still undistributed or by a just and equitable contribution by the persons whose interest in the estate of the decedent would have been reduced if the tax had been paid before the distribution of the estate or whose interest is subject to equal or prior liability for the payment of taxes, debts or other charges against the estate, it being the purpose and intent of this title that so far as is practicable and unless otherwise directed by the will of the decedent the tax shall be paid out of the estate before its distribution.

Sec. 209. Unless the tax is sooner paid in full, it shall be a lien for ten years upon the gross estate of the decedent, except that such part of the gross estate as is used for the payment of charges against the estate and expenses of its administration, allowed by any court having jurisdiction thereof, shall be divested of such lien.

If the decedent makes a transfer of, or creates a trust with respect to, any property in contemplation of or intended to take effect in possession or enjoyment at or after his death (except in the case of a bona fide sale for a fair consideration in money or money's worth) and if the tax in respect thereto is not paid when due, the transferee or trustee shall be personally liable for such tax, and such property to the extent of the decedent's interest therein at the time of such transfer, shall be subject to a like

lien equal to the amount of such tax. Any part of such property sold by such transferee or trustee to a bona fide purchaser for a fair consideration in money or money's worth shall be divested of the lien and a like lien shall then attach to all the property of such transferee or trustee, except any part sold to a bona fide purchaser for a fair consideration in money or money's worth.

Sec. 210. Whoever knowingly makes any false statement in any notice or return required to be filed by this title shall be liable to a penalty of not exceeding \$5,000, or imprisonment not exceeding one year, or both, in the discretion of the court.

Whoever fails to comply with any duty imposed upon him by section 205, or, having in his possession or control any record, file or paper, containing or supposed to contain any information concerning the estate of the decedent, fails to exhibit the same upon request to the commissioner of internal revenue or any collector or law officer of the United States, or his duly authorized deputy or agent, who desires to examine the same in the performance of his duties under this title, shall be liable to a penalty of not exceeding \$500, to be recovered, with costs of suit, in a civil action in the name of the United States.

Sec. 211. All administrative, special and general provisions of law, including the laws in relation to the assessment and collection of taxes, not heretofore specifically repealed, are hereby made to apply to this title so far as applicable and not inconsistent with its provisions.

Sec. 212. The commissioner of internal revenue, with the approval of the secretary of the treasury, shall make such regulations and prescribe and require the use of such books and forms as he may deem necessary to carry out the provisions of this title.

MUNITION MANUFACTURERS' TAX.

Sec. 301. (1) Every person manufacturing (a) gunpowder and other explosives, excepting blasting powder and dynamite used for industrial purposes; (b) cartridges, loaded and unloaded, caps or primers, exclusive of those used for industrial purposes; (c) projectiles, shells or torpedoes of any kind, including shrapnel, loaded or unloaded, or fuses, or complete rounds of ammunition; (d) firearms of any kind and appendages, including small arms, cannon, machine guns, rifles and bayonets; (e) electric motor boats, submarine or submersible vessels or boats, or (f) any part of any of the articles mentioned in (b), (c), (d) or (e), shall pay for each taxable year, in addition to the regular income tax, an excise tax of 12½ per cent upon the entire net profits actually received or accrued for said year from the sale or disposition of such articles manufactured within the United States. No tax shall be paid upon net profits received in 1916 from the sale of such articles under contracts executed by such person prior to Jan. 1, 1916.

(2) This section shall cease to be of effect at the end of one year after the termination of the present European war, which shall be evidenced by the proclamation of the president of the United States declaring such war to have ended.

Sec. 302. In computing net profits under the provisions of this title there shall be allowed as deductions from the gross amount received or accrued for the taxable year from the sale or disposition of such articles manufactured within the United States the following items:

(a) The cost of raw materials entering into the manufacture.

(b) Running expenses, including rentals, cost of repairs and maintenance, heat, power, insurance, management, salaries and wages.

(c) Interest paid within the taxable year on debts or loans contracted to meet the needs of the business, and the proceeds of which have been actually used to meet such needs;

(d) Taxes of all kinds paid during the taxable year with respect to the business or property relating to the manufacture;

(e) Losses actually sustained within the taxable year in connection with the business of manufacturing such articles, including losses from

fire, flood, storm or other casualty, and not compensated for by insurance or otherwise; and

(f) A reasonable allowance according to the conditions peculiar to each concern, for amortization of the values of buildings and machinery, account being taken of the exceptional depreciation of special plants.

Sec. 303. If any person manufactures any article specified in section 301 and, during any taxable year or part thereof, whether under any agreement, arrangement or understanding, or otherwise, sells or disposes of any such article at less than the fair market price obtainable therefor, either (a) in such a manner as directly or indirectly to benefit such person or any person directly or indirectly interested in the business of such person, or (b) with intent to cause such benefit, the gross amount received or accrued for such year or part thereof from the sale or disposition of such article shall be taken to be the amount which would have been received or accrued from the sale or disposition of such article if sold at the fair market price.

Sec. 304. On or before the 1st day of March, 1917, and the 1st day of March in each year thereafter, a true and accurate return under oath shall be made by each person manufacturing articles specified in section 301 to the collector of internal revenue for the district in which such person has his principal office or place of business, in such form as the commissioner of internal revenue, with the approval of the secretary of the treasury, shall prescribe, setting forth specifically the gross amount of income received or accrued from the sale or disposition of the articles specified in section 301, and from the total thereof deducting the aggregate items of allowance authorized in section 302, and such other particulars as to the gross receipts and items of allowance as the commissioner of internal revenue, with the approval of the secretary of the treasury, may require.

Sec. 305. All such returns shall be transmitted forthwith by the collector to the commissioner of internal revenue, who shall, as soon as practicable, assess the tax found due and notify the person making such return of the amount of tax for which such person is liable, and such person shall pay the tax to the collector on or before thirty days from the date of such notice.

Sec. 306. If the secretary of the treasury or the commissioner of internal revenue shall have reason to be dissatisfied with the return as made, or if no return is made, the commissioner is authorized to make an investigation and to determine the amount of net profits and may assess the proper tax accordingly. He shall notify the person making, or who should have made, such return and shall proceed to collect the tax in the same manner as provided in this title, unless the person so notified shall file a written request for a hearing with the commissioner within thirty days after the date of such notice, and on such hearing the burden of establishing to the satisfaction of the commissioner that the gross amount received or accrued or the amount of net profits, as determined by the commissioner, is incorrect shall devolve upon such person.

Sec. 307. The tax may be assessed on any person for the time being owning or carrying on the business, or on any person acting as agent for that person in carrying on the business, or where a business has ceased, on the person who owned or carried on the business, or acted as agent in carrying on the business immediately before the time at which the business ceased.

Sec. 308. For the purpose of carrying out the provisions of this title the commissioner of internal revenue is authorized, personally or by his agent, to examine the books, accounts and records of any person subject to this tax.

Sec. 309. No person employed by the United States shall communicate, or allow to be communicated, to any person not legally entitled thereto any information obtained under the provisions of this title, or allow any such person to inspect or have access to any return furnished under the provisions of this title.

Sec. 310. Whoever violates any of the provisions of this title or the regulations made thereunder, or who knowingly makes false statements in any return, or refuses to give such information as may be called for, is guilty of a misdemeanor and upon conviction shall in addition to paying any tax to which he is liable, be fined not more than \$10,000, or imprisoned not exceeding one year, or both, in the discretion of the court.

Sec. 311. All administrative, special and general provisions of law relating to the assessment and collection of taxes not specifically repealed are hereby made to apply to this title so far as applicable and not inconsistent with its provisions.

Sec. 312. The commissioner of internal revenue, with the approval of the secretary of the treasury, shall make all necessary regulations for carrying out the provisions of this title, and may require any person subject to such provisions to furnish him with further information whenever in his judgment the same is necessary to collect the tax provided herein.

MISCELLANEOUS TAXES.

There shall be levied and collected a tax of \$1.50 on all beer, lager beer, ale, porter and other similar fermented liquor brewed or manufactured and sold within the United States for every barrel containing not more than thirty-one gallons, and at a like rate for any other quantity or for the fractional parts of a barrel authorized and defined by law.

Upon all still wines, including vermouth, and upon all artificial or imitation wines or compound sold as wine hereafter produced in or imported into the United States, and upon all like wines there shall be levied, collected and paid taxes at rates as follows:

On wines containing not more than 14 per centum of absolute alcohol, 4 cents per wine gallon, the per centum of alcohol taxable under this section to be reckoned by volume and not by weight.

On wines containing more than 14 per centum and not exceeding 21 per centum of absolute alcohol, 10 cents per wine gallon.

On wines containing more than 21 per centum and not exceeding 24 per centum of absolute alcohol, 25 cents per wine gallon.

All such wines containing more than 24 per centum of absolute alcohol by volume shall be classed as distilled spirits and shall pay tax accordingly.

The taxes imposed by this section shall be paid by stamp on removal of the wines from the custom house, winery or other bonded place of storage for consumption or sale, and every person hereafter producing, or having in his possession or under his control when this section takes effect, any wines subject to the tax imposed in this section shall file such notice, describing the premises on which such wines are produced or stored; shall execute a bond in such form; shall make such inventories under oath, and shall, prior to sale or removal for consumption, affix to each cask or vessel containing such wine such marks, labels or stamps as the commissioner of internal revenue, with the approval of the secretary of the treasury, may from time to time prescribe, and the premises described in such notice shall, for the purpose of this section, be regarded as bonded premises.

Upon all domestic and imported sparkling wines, liqueurs, cordials and similar compounds remaining in the hands of dealers when this section takes effect, or thereafter removed from the place of manufacture or storage for sale or consumption, there shall be levied and paid, by stamp, taxes as follows:

On each bottle or other container of champagne or sparkling wine, 3 cents on each one-half pint or fraction thereof.

On each bottle or other container of artificially carbonated wine, $1\frac{1}{2}$ cents on each one-half pint or fraction thereof.

On each bottle or other container of liqueurs, cordials or similar compounds, by whatever name sold or offered for sale, containing sweet wine, fortified with grape brandy, $1\frac{1}{2}$ cents on each one-half pint or fraction thereof.

SPECIAL TAXES.

On and after Jan. 1, 1917, special taxes shall be imposed as follows:

1. Every corporation, joint stock company or association organized for profit and having a capital stock represented by shares, and every insurance company, shall pay annually an excise tax equivalent to 50 cents for each \$1,000 of the fair value of its capital stock. An exemption of \$99,000 shall be allowed from the capital stock. Corporations organized under the laws of any foreign country and engaged in business in the United States shall pay annually a special excise tax of 50 cents for each \$1,000 of capital actually invested in the transaction of its business in the United States.

2. Stock brokers shall pay \$30. Every person, firm or company, whose business it is to negotiate purchases or sales of stocks, bonds, exchange, bullion, coined money, bank notes, promissory notes or other securities, for others, shall be regarded as a broker.

3. Pawnbrokers shall pay \$50. Every person, firm or company whose business or occupation it is to take or receive, by way of pledge, pawn or exchange, any goods, wares or merchandise, or any kind of personal property whatever, as security for the repayment of money loaned thereon, shall be deemed a pawnbroker.

4. Ship brokers shall pay \$20. Every person, firm or company whose business it is as a broker to negotiate freights and other business for the owners of vessels, or for the shippers or consignors, consignees of freight carried by vessels, shall be regarded as a ship broker under this section.

5. Custom house brokers shall pay \$10. Every person, firm or company whose occupation it is, as the agent of others, to arrange entries and other custom house papers, or transact business at any port of entry relating to the importation or exportation of goods, wares or merchandise, shall be regarded as a custom house broker.

6. Proprietors of theaters, museums and concert halls, where a charge for admission is made, having a seating capacity of not more than 250, shall pay \$25; having a seating capacity of more than 250 and not exceeding 500, shall pay \$50; having a seating capacity exceeding 500 and not exceeding 800, shall pay \$75; having a seating capacity of more than 800, shall pay \$100. Every edifice used for the purpose of dramatic or operatic or other representations, plays or performances, for admission to which entrance money is received, not including halls or armories rented or used occasionally for concerts or theatrical representations, shall be regarded as a theater. In cities, towns or villages of 5,000 inhabitants or less the amount of such payment shall be one-half of that above stated.

7. The proprietor or proprietors of circuses shall pay \$100. Every building, space, tent or area where feats of horsemanship or acrobatic sports or theatrical performances not otherwise provided for in this section are exhibited shall be regarded as a circus. No special tax paid in one state, territory or the District of Columbia shall exempt exhibitions from the tax in another state, territory or the District of Columbia, and but one special tax shall be imposed for exhibitions within any one state, territory or district.

8. Proprietors or agents of all other public exhibitions or shows for money not enumerated in this section shall pay \$10: Provided, That a special tax paid in one state, territory or the District of Columbia shall not exempt exhibitions from the tax in another state, territory or the District of Columbia, and but one special tax shall be required for exhibitions within any one state, territory or the District of Columbia: Provided further, That this paragraph shall not apply to chautauques, lecture lyceums, agricultural or industrial fairs or exhibitions held under the auspices of religious or charitable associations: Provided further, That an aggregation of entertainments, known as a street fair, shall not pay a larger tax than \$100 in any state, territory or in the District of Columbia.

9. Proprietors of bowling alleys and billiard

rooms shall pay \$5 for each alley or table. Every building or place where bowls are thrown or where games of billiards or pool are played, except in private homes, shall be regarded as a bowling alley or a billiard room, respectively.

Sec. 408. On and after Jan. 1, 1917, special taxes on tobacco, cigar and cigarette manufacturers shall be, and hereby are, imposed annually as follows, the amount of such annual taxes to be computed in all cases on the basis of the annual sales for the preceding fiscal year:

Manufacturers of tobacco whose annual sales do not exceed 50,000 pounds shall each pay \$3; Manufacturers of tobacco whose annual sales exceed 50,000 and do not exceed 100,000 pounds shall each pay \$6;

Manufacturers of tobacco whose annual sales exceed 100,000 and do not exceed 200,000 pounds shall each pay \$12;

Manufacturers of tobacco whose annual sales exceed 200,000 pounds shall each pay at the rate of 8 cents per 1,000 pounds or fraction thereof;

Manufacturers of cigars whose annual sales do not exceed 50,000 cigars shall each pay \$2;

Manufacturers of cigars whose annual sales exceed 50,000 and do not exceed 100,000 cigars shall each pay \$3;

Manufacturers of cigars whose annual sales exceed 100,000 and do not exceed 200,000 cigars shall each pay \$5;

Manufacturers of cigars whose annual sales exceed 200,000 and do not exceed 400,000 cigars shall each pay \$12;

Manufacturers of cigars whose annual sales exceed 400,000 cigars shall each pay at the rate of 5 cents per 1,000 cigars or fraction thereof.

Manufacturers of cigarettes, including small cigars weighing not more than three pounds per 1,000, shall each pay at the rate of 3 cents for every 10,000 cigarettes or fraction thereof.

The provisions under this title shall take effect on the day after the passage of the act except where it is otherwise specifically provided.

DYESTUFFS.

On and after the day following the passage of this act, except as otherwise specially provided for, there shall be levied, collected and paid upon the articles named in this section when imported from any foreign country, except the Philippines, Guam and Tutulla, the rates of duties which are prescribed in this title, namely:

FREE LIST.

Group I. Acenaphthene, anthracene having a purity of less than 25 per cent, benzol, carbazol having a purity of less than 25 per cent, cresol, cumol, fluorene, metacresol having a purity of less than 90 per cent, methylantracene, methylnaphthalene, naphthalene having a solidifying point of less than 79 degrees centigrade, orthocresol having a purity of less than 90 per cent, paracresol having a purity of less than 90 per cent, pyridin, quinolin, toluol, xylol, crude coal tar, pitch of coal tar, dead or cressote oil, anthracene oil, all other distillates which on being subjected to distillation yield in the portion distilling below 200 degrees centigrade a quantity of tar acids less than 5 per cent of the original distillate, and all other products that are found naturally in coal tar, whether produced or obtained from coal tar or other source, and not otherwise specially provided for in this title, shall be exempt from duty.

DUTIABLE LIST.

Group II. Amidonaphthol, amidophenol, amidosalicylic acid, anilin oil, anilin salts, anthracene having a purity of 25 per cent or more, anthraquinone, benzoic acid, benzaldehyde, benzylchloride, benzidin, blinitrobenzol, blinitrochlorobenzol, blinitroanaphthalene, blinitrotoluol, carbazol having a purity of 25 per cent or more, chlorophthalic acid, cumidin, dimethylanilin, dianisidin, dioxnaphthalene, diphenylamin, metacresol having a purity of 90 per cent or more, methylantracquinone, metanilic acid, naphthalene having a solidifying point of 79 degrees centigrade or above, naphthylamin, naphthol, naphthylenediamin, nitrobenzol, nitrotoluol, nitro-

naphthalene, nitrannlin, nitrophenylenediamin, nitrotoluylenediamin, orthocresol having a purity of 90 per cent or more, phenol, phthalic acid, phthalic anhydride, phenylenediamin, phenylnaphthylamin, resorcin, salicylic acid, sulphalnic acid, toluidin, tolidin, toluenylenediamin, xylidin or any sulphoacid or sulphoacid salt of any of the foregoing, all similar products obtained, derived or manufactured in whole or in part from the products provided for in Group I, and all distillates which on being subjected to distillation yield in the portion distilling below 200 degrees centigrade a quantity of tar acids equal to or more than 5 per centum of the original distillate, all the foregoing not colors, dyes or stains, photographic chemicals, medicinals, flavors or explosives, and not otherwise provided for in this title, and provided for in the paragraphs of the act of Oct. 3, 1913, which are hereinafter specifically repealed, 15 per centum ad valorem.

Group III. All colors, dyes or stains, whether soluble or not in water, color acids, color bases, color lakes, photographic chemicals, medicinals, flavors, synthetic phenolic resin, or explosives, not otherwise specially provided for in this title, when obtained, derived or manufactured in whole or in part from any of the products provided for in Groups I, and II., natural alizarin and indigo, and colors, dyes or color lakes obtained, derived or manufactured therefrom, 30 per centum ad valorem.

On and after the day following the passage of this act, in addition to the duties provided, there shall be levied, collected and paid upon all articles contained in Group II. a special duty of 2½ cents per pound and upon all articles contained in Group III. (except natural and synthetic alizarin, and dyes obtained from alizarin, anthracene and carbazol; natural and synthetic indigo and all indigoids, whether or not obtained from indigo; and medicinals and flavors) a special duty of 5 cents per pound.

During the period of five years beginning five years after the passage of this act such special duties shall be annually reduced by 20 per centum of the rate imposed by this section, so that at the end of such period such special duties shall no longer be assessed, levied or collected; but if, at the expiration of five years from the date of the passage of this act, the president finds that there is not being manufactured or produced within the United States as much as 60 per centum in value of the domestic consumption of the articles mentioned in Groups II. and III. he shall by proclamation so declare, whereupon the special duties imposed by this section on such articles shall no longer be assessed, levied or collected.

PRINTING PAPER.

Paragraph 322 schedule M and paragraph 567 of the free list of the act entitled "An act to reduce tariff duties and to provide revenue for the government, approved Oct. 3, 1913, be amended so that the same shall read as follows:

322. Printing paper (other than paper commercially known as handmade or machine handmade paper, japan paper and imitation japan paper by whatever name known), unsized, sized or glued, suitable for the printing of books and newspapers, but not for covers or bindings, not specially provided for in this section, valued at above 5 cents per pound, 12 per cent ad valorem. Provided, however, That if any country, dependency, province or other subdivision of government shall impose any export duty, export license fee or other charge of any kind whatsoever (whether in the form of additional charge or license fee or otherwise) upon printing paper, wood pulp or wood for use in the manufacture of wood pulp, there shall be imposed upon printing paper, valued above 5 cents per pound, when imported either directly or indirectly from such country, dependency, province or other subdivision of government, an additional duty equal to the highest export duty or other export charge imposed by such country dependency, province or other subdivision of government, upon either

printing paper or upon an amount of wood pulp, or wood for use in the manufacture of wood pulp necessary to the manufacture of such printing paper.

567. Printing paper (other than paper commercially known as handmade or machine-made paper, japan paper, and imitation japan paper by whatever name known), unsized, sized, or glued, suitable for the printing of books and newspapers, but not for covers or bindings, not specially provided for in this section, valued at not above 5 cents per pound, decalcomania paper not printed.

TARIFF COMMISSION.

Sec. 700. A commission is hereby created and established to be known as the United States tariff commission (hereinafter in this title referred to as the commission), which shall be composed of six members, who shall be appointed by the president, by and with the consent of the senate, not more than three of whom shall be members of the same political party. In making said appointments members of different parties shall alternate as nearly as may be practicable. The first members appointed shall continue in office for terms of two, four, six, eight, ten and twelve years, respectively, from the date of the passage of this act, the term of each to be designated by the president, but their successors shall be appointed for terms of twelve years, except that any person chosen to fill a vacancy shall be appointed only for the unexpired term of the member whom he shall succeed. The president shall designate annually the chairman and vice-chairman of the commission. No member shall engage actively in any other business, function or employment. Any member may be removed by the president for inefficiency, neglect of duty or malfeasance in office. A vacancy shall not impair the right of the remaining members to exercise all the powers of the commission, but no vacancy shall extend beyond any session of congress.

Sec. 701. Each commissioner shall receive a salary of \$7,500 per year, payable monthly. The commission shall appoint a secretary, who shall receive a salary of \$5,000 per year, payable in like manner, and it shall have authority to employ and fix the compensations of such special experts, examiners, clerks and other employees as the commission may from time to time find necessary for the proper performance of its duties.

With the exception of the secretary, a clerk to each commissioner and such special experts as the commission may from time to time find necessary for the conduct of its work, all employees of the commission shall be appointed from lists of eligibles to be supplied by the civil service commission and in accordance with the civil service law.

All of the expenses of the commission, including all necessary expenses for transportation incurred by the commissioners or by their employees under their orders in making any investigation or upon official business in any other places than at their respective headquarters, shall be allowed and paid on the presentation of itemized vouchers therefor approved by the commission.

Unless otherwise provided by law, the commission may rent suitable offices for its use, and purchase such furniture, equipment and supplies as may be necessary.

The principal office of the commission shall be in the city of Washington, but it may meet and exercise all its powers at any other place. The commission may, by one or more of its members, or by such agents as it may designate, prosecute any inquiry necessary to its duties in any part of the United States or in any foreign country.

Sec. 702. It shall be the duty of said commission to investigate the administration and fiscal and industrial effects of the customs laws of this country now in force or which may hereafter be enacted, the relations between the rates of duty on raw materials and finished or partly finished products, the effects of ad valorem and specific

duties and of compound specific and ad valorem duties, all questions relative to the arrangement of schedules and classification of articles in the several schedules of the customs law, and, in general, to investigate the operation of customs laws, including their relation to the federal revenues, their effect upon the industries and labor of the country, and to submit reports of its investigations as hereafter provided.

Sec. 703. The commission shall report at the disposal of the president of the United States, the committee on ways and means of the house of representatives, and the committee on finance of the senate, whenever requested, all information at its command, and shall make such investigations and reports as may be requested by the president or by either of said committees or by either branch of the congress, and shall report to congress on the first Monday of December of each year hereafter a statement of the methods adopted and all expenses incurred, and a summary of all reports made during the year.

Sec. 704. The commission shall have power to investigate the tariff relations between the United States and foreign countries, commercial treaties, preferential provisions, economic alliances, the effect of export bounties and preferential transportation rates, the volume of importations compared with domestic production and consumption, and conditions, causes and effects relating to competition of foreign industries with those of the United States, including dumping and cost of production.

Sec. 705. Upon the organization of the commission, the cost of production division in the bureau of foreign and domestic commerce in the department of commerce shall be transferred to said commission, and the clerks and employees of said division shall be transferred to and become clerks and employees of the commission and all records, papers and property of the said division and of the former tariff board shall be transferred to and become the records, papers and property of the commission.

Sec. 706. For the purpose of carrying this title into effect the commission or its duly authorized agent or agents shall have access to and the right to copy any document, paper or record, pertinent to the subject matter under investigation, in the possession of any person, firm, co-partnership, corporation or association engaged in the production, importation or distribution of any article under investigation, and shall have power to summon witnesses, take testimony, administer oaths, and to require any person, firm, co-partnership, corporation or association to produce books or papers relating to any matter pertaining to such investigation. Any member of the commission may sign subpoenas, and members and agents of the commission, when authorized by the commission, may administer oaths and affirmations, examine witnesses, take testimony and receive evidence.

Such attendance of witnesses and the production of such documentary evidence may be required from any person in the United States at any designated place of hearing. And in case of disobedience to a subpoena the commission may invoke the aid of any District court of the United States in requiring the attendance and testimony of witnesses and the production of documentary evidence, and such court within the jurisdiction of which the inquiry is carried on may, in case of contumacy or refusal to obey a subpoena issued to any corporation or other person, issue an order requiring such corporation or other person to appear before the commission, or to produce documentary evidence if so ordered, or to give evidence touching the matter in question, and any failure to obey such order of the court may be punished by such court as a contempt thereof.

Upon the application of the attorney-general of the United States, at the request of the commission, any such court shall have jurisdiction to issue writs of mandamus commanding compliance with this title or any order of the commission made in pursuance thereof.

The commission may order testimony to be

taken by deposition in any proceeding or investigation under this title at any stage of such proceeding or investigation. Such depositions may be taken before any person designated by the commission and having power to administer oaths. Such testimony shall be reduced to writing by the person taking the deposition, or under his direction, and shall then be subscribed by the deponent. Any person, firm, copartnership, corporation or association may be compelled to appear and depose and to produce documentary evidence in the same manner as witnesses may be compelled to appear and testify and produce documentary evidence before the commission, as hereinbefore provided.

Witnesses summoned before the commission shall be paid the same fees and mileage that are paid witnesses in the courts of the United States, and witnesses whose depositions are taken and the persons taking the same, except employees of the commission, shall severally be entitled to the same fees and mileage as are paid for like services in the courts of the United States: Provided, That no person shall be excused, on the ground that it may tend to incriminate him or subject him to a penalty or forfeiture, from attending and testifying, or producing books, papers, documents and other evidence, in obedience to the subpoena of the commission; but no natural person shall be prosecuted or subjected to any penalty or forfeiture for or on account of any transaction, matter or thing as to which, in obedience to a subpoena and under oath, he may so testify or produce evidence, except that no person shall be exempt from prosecution and punishment for perjury committed in so testifying.

Sec. 707. The said commission shall in appropriate matters act in conjunction and co-operation with the treasury department, the department of commerce, the federal trade commission or any other departments or independent establishments of the government, and such departments and independent establishments of the government shall co-operate fully with the commission for the purposes of aiding and assisting in its work, and, when directed by the president, shall furnish to the commission, on its request, all records, papers and information in their possession relating to any of the subjects of investigation by said commission and shall detail, from time to time, such officials and employees to said commission as he may direct.

Sec. 708. It shall be unlawful for any member of the United States tariff commission, or for any employee, agent or clerk of said commission, or any other officer or employee of the United States, to divulge, or to make known in any manner whatever not provided for by law, to any person, the trade secrets or processes of any person, firm, copartnership, corporation or association embraced in any examination or investigation conducted by said commission, or by order of said commission, or by order of any member thereof. Any offense against the provisions of this section shall be a misdemeanor and be punished by a fine not exceeding \$1,000, or by imprisonment not exceeding one year, or both, in the discretion of the court, and such offender shall also be dismissed from office or discharged from employment. The commission shall have power to investigate the Paris economy pact and similar organizations and arrangements in Europe.

Sec. 709. There is hereby appropriated, for the purpose of defraying the expense of the establishment and maintenance of the commission, including the payment of salaries herein authorized out of any money in the treasury of the United States not otherwise appropriated, the sum of \$300,000 for the fiscal year ending June 30, 1917, and for each fiscal year thereafter a like sum is authorized to be appropriated.

UNFAIR COMPETITION.

Sec. 800. When used in this title the term "person" includes partnerships, corporations and associations.

Sec. 801. It shall be unlawful for any person importing or assisting in importing any articles

from any foreign country into the United States, commonly and systematically to import, sell or cause to be imported or sold such articles within the United States at a price substantially less than the actual market value or wholesale price of such articles, at the time of exportation to the United States, in the principal markets of the country of their production, or of other foreign countries to which they are commonly exported, after adding to such market value or wholesale price, freight, duty and other charges and expenses necessarily incident to the importation and sale thereof in the United States: Provided, That such act or acts be done with the intent of destroying or injuring an industry in the United States, or of preventing the establishment of an industry in the United States, or of restraining or monopolizing any part of trade and commerce in such articles in the United States.

Any person who violates or combines or conspires to violate this section is guilty of a misdemeanor, and on conviction thereof shall be punished by a fine not exceeding \$5,000, or imprisonment not exceeding one year, or both, in the discretion of the court.

Any person injured in his business or property by reason of any violation of or combination or conspiracy to violate this section may sue therefor in the District court of the United States for the district in which the defendant resides or is found or has an agent, without respect to the amount in controversy, and shall recover threefold the damages sustained, and the cost of the suit, including a reasonable attorney's fee. The foregoing provisions shall not be construed to deprive the proper state courts of jurisdiction in actions for damages thereunder.

Sec. 802. If any article produced in any foreign country is imported into the United States under any agreement, understanding or condition that the importer thereof or any other person in the United States shall not use, purchase or deal in, or shall be restricted in his using, purchasing or dealing in the articles of any other person, there shall be levied, collected and paid thereon, in addition to the duty otherwise imposed by law, a special duty equal to double the amount of such duty: Provided, That the above shall not be interpreted to prevent the establishing in this country on the part of a foreign producer of an exclusive agency for the sale in the United States of the products of said foreign producer or merchant, nor to prevent such exclusive agent from agreeing not to use, purchase or deal in the article of any other person, but this proviso shall not be construed to exempt from the provisions of this section any article imported by such exclusive agent if the agent is required by the foreign producer or if it is agreed between such agent and such foreign producer that any agreement, understanding or condition set out in this section shall be imposed by such agent upon the sale or other disposition of such article to any person in the United States.

Sec. 803. The secretary of the treasury shall make such rules and regulations as are necessary for the carrying out of the provisions of section 802.

Sec. 804. Whenever any country, dependency or colony shall prohibit the importation of any article the product of the soil or industry of the United States and not injurious to health or morals, the president shall have power to prohibit, during the period such prohibition is in force, the importation into the United States of similar articles, or in case the United States does not import similar articles from that country, then other articles, the products of such country, dependency or colony.

And the secretary of the treasury, with the approval of the president, shall make such rules and regulations as are necessary for the execution of the provisions of this section.

RETALIATORY CLAUSES.

Sec. 805. Whenever during the existence of a war in which the United States is not engaged the president shall be satisfied that there is reasonable ground to believe that under the

laws, regulations or practices of any country, colony or dependency, contrary to the law and practice of nations, the importation into their own or any other country, dependency or colony of any article the product of the soil or industry of the United States and not injurious to health or morals is prevented or restricted, the president is authorized and empowered to prohibit or restrict during the period such prohibition or restriction is in force the importation into the United States of similar or other articles, products of such country, dependency or colony as in his opinion the public interest may require; and in such case he shall make proclamation stating the article or articles which are prohibited from importation into the United States; and any person or persons who shall import, or attempt or conspire to import, or be concerned in importing, such article or articles, into the United States contrary to the prohibition in such proclamation, shall be liable to a fine of not less than \$2,000 nor more than \$50,000, or to imprisonment not to exceed two years, or both, in the discretion of the court. The president may change, modify, revoke or renew such proclamation in his discretion.

Sec. 106. Whenever, during the existence of a war in which the United States is not engaged, the president shall be satisfied that there is reasonable ground to believe that any vessel, American or foreign, is, on account of the laws, regulations or practices of a belligerent government making or giving any undue or unreasonable preference or advantage in any respect whatsoever to any particular person, company, firm or corporation, or any particular description of traffic in the United States or its possessions or to any citizens of the United States residing in neutral countries abroad, or is subjecting any particular person, company, firm or corporation or any particular description of traffic in the United States or its possessions, or any citizens of the United States residing in neutral countries abroad, to any undue or unreasonable prejudice, disadvantage, injury or discrimination in regard to accepting, receiving, transporting or delivering or refusing to accept, receive, transfer or deliver any cargo, freight or passengers, or in any other respect whatsoever, he is hereby authorized and empowered to direct the detention of such vessels by withholding clearance or by formal notice forbidding departure, and to revoke, modify or renew any such direction.

Whenever, during the existence of a war in which the United States is not engaged, the president shall be satisfied that there is reasonable ground to believe that under the laws, regulations or practices of any belligerent country or government, American ships or American citizens are not accorded any of the facilities of commerce which the vessels or citizens of that belligerent country enjoy in the United States or its possessions, or are not accorded by such belligerent equal privileges or facilities of trade with vessels or citizens of any nationality other than that of such belligerent, the president is hereby authorized and empowered to withhold clearance from one or more vessels of such belligerent country until such belligerent shall restore to such American vessels and American citizens reciprocal liberty of commerce and equal facilities of trade; or the president may direct that similar privileges and facilities, if any, enjoyed by vessels or citizens of such belligerent in the United States or its possessions be refused to vessels or citizens of such belligerent; and in such case he shall make proclamation at his discretion, stating the facilities and privileges which shall be refused, and the belligerent to whose vessels or citizens they are to be refused, and thereupon the furnishing of such prohibited privileges and facilities to any vessel or citizen of the belligerent named in such proclamation shall be unlawful; and he may change, modify, revoke or renew such proclamation; and any person or persons who shall furnish or attempt or conspire to furnish or be concerned in furnishing or in the concealment of furnishing fac-

ilities or privileges to ships or persons contrary to the prohibition in such proclamation shall be liable to a fine of not less than \$2,000 nor more than \$50,000 or to imprisonment not to exceed two years, or both, in the discretion of the court.

In case any vessel which is detained by virtue of this act shall depart or attempt to depart from the jurisdiction of the United States without clearance or other lawful authority, the owner or master or person or persons having charge or command of such vessel shall be severally liable to a fine of not less than \$2,000 nor more than \$10,000, or to imprisonment not to exceed two years, or both, and in addition such vessel shall be forfeited to the United States.

The president of the United States is hereby authorized and empowered to employ such part of the land or naval forces of the United States as shall be necessary to carry out the purposes of this act.

Unless otherwise herein specially provided, this act shall take effect on the day following its passage and all provisions of any act or acts inconsistent with the provisions of this act are hereby repealed. (Approved Sept. 8, 1916.)

UNITED STATES SHIPPING BOARD.

There is created a board to be known as the United States shipping board. It shall be composed of five commissioners to be appointed by the president, by and with the consent of the senate. The first commissioners appointed shall remain in office for terms of two, three, four, five and six years respectively, but their successors shall be appointed for terms of six years. The commissioners shall be appointed with due regard to their fitness for the efficient discharge of the duties imposed on them. Not more than three of them shall be from the same political party. No commissioner shall be in the employ of or hold any official relation to any common carrier by water subject to the act or be financially interested therein.

Each member of the board shall receive a salary of \$7,500 a year. The board shall appoint a secretary at a salary of \$5,000 a year and shall employ and fix the compensation of such attorney, officers, naval architects, experts and other employees as it may find necessary for the performance of its duties. All the employees of the board except the secretary, a clerk to each commissioner, the attorneys, naval architects, special experts and examiners shall be supplied by the civil service commission.

The board, with the approval of the president, is authorized to have constructed and equipped in American shipyards and navy yards or elsewhere, giving preference, other things being equal, to domestic yards, or to purchase, lease or charter vessels suitable, as far as the commercial requirements of the marine trade of the United States may permit, for use as naval auxiliaries or army transports, or for other naval or military purposes, and to make necessary repairs and alterations on such vessels. Neither the board nor any corporation formed under section 11 of the act in which the United States is then a stockholder shall purchase, lease or charter any vessel—

(a) Which is then engaged in the foreign or domestic commerce of the United States, unless it is about to be withdrawn from such commerce without any intention on the part of the owner to return it thereto within a reasonable time;

(b) Which is under the registry or flag of a foreign country, which is then engaged in war;

(c) Which is not adapted, or cannot easily be adapted, to the purposes specified in this section;

(d) Which, upon expert examination made under the direction of the board, is not without alteration or repair found to be at least 75 per cent as efficient as at the time it was originally put in commission as a seaworthy vessel.

The president may transfer to the board, either permanently or for limited periods, such vessels belonging to the war or navy department as are suitable for commercial uses and not required for

military or naval use in time of peace, or cause to be transferred to the board vessels owned by the Panama Railroad company and not required in its business.

The board, upon terms and conditions prescribed by it and approved by the president, may charter, lease or sell to any person, a citizen of the United States, any vessel so purchased, constructed or transferred.

Any vessel purchased, chartered or leased from the board may be registered or enrolled and licensed, or both, as a vessel of the United States and entitled to the benefits and privileges appertaining thereto. Foreign built vessels admitted to American registry or enrollment and license, and vessels owned, chartered or leased by any corporation in which the United States is a stockholder, and vessels sold, leased or chartered to any person, a citizen of the United States, as provided in the act, may engage in the coastwise trade of the United States.

Every vessel purchased, chartered or leased from the board shall, unless otherwise authorized by the board, be operated only under such registry, or enrollment and license. Such vessels while employed solely as merchant vessels shall be subject to all laws, regulations and liabilities governing merchant vessels, whether the United States be interested therein as owner, in whole or in part. No such vessel, without the approval of the board, shall be transferred to a foreign registry or flag, or sold; nor, except under regulations prescribed by the board, be chartered or leased.

When the United States is at war, or during any national emergency the existence of which is declared by proclamation of the president, no vessel registered or enrolled and licensed under the laws of the United States shall, without the approval of the board, be sold, leased or chartered to any person not a citizen of the United States, or transferred to a foreign registry or flag. No vessel registered or enrolled and licensed under the laws of the United States, or owned by any person a citizen of the United States, except one which the board is prohibited from purchasing, shall be sold to any person not a citizen of the United States or transferred to a foreign registry or flag, unless such vessel is first tendered to the board at the price in good faith offered by others, or, if no such offer, at a fair price to be determined in the manner provided in section 10.

Any vessel sold, chartered, leased, transferred or operated in violation of this section shall be forfeited to the United States, and whoever violates any provision of this section shall be guilty of a misdemeanor and subject to a fine of not more than \$5,000 or to imprisonment of not more than five years, or both such fine and imprisonment.

Sec. 10. The president, upon giving to the person interested such reasonable notice in writing as in his judgment the circumstances permit, may take possession absolutely or temporarily, for any naval or military purpose, of any vessel purchased, leased or chartered from the board: Provided, That if, in the judgment of the president, an emergency exists requiring such action he may take possession of any such vessel without notice.

Thereafter, upon ascertainment by agreement or otherwise, the United States shall pay the person interested the fair actual value based upon normal conditions at the time of taking of the interest of such person in every vessel taken absolutely, or if taken for a limited period, the fair charter value under normal conditions for such period. In case of disagreement as to such fair value it shall be determined by appraisers, one to be appointed by the board, one by the person interested, and a third by the two so appointed. The finding of such appraisers shall be final and binding upon both parties.

Sec. 11. The board, if in its judgment such action is necessary to carry out the purposes of this act, may form under the laws of the District of Columbia one or more corporations for the purchase, construction, equipment, lease,

charter, maintenance and operation of merchant vessels in the commerce of the United States. The total capital stock thereof shall not exceed \$50,000,000. The board may, for and on behalf of the United States, subscribe to, purchase and vote not less than a majority of the capital stock of any such corporation, and do all other things in regard thereto necessary to protect the interests of the United States and to carry out the purposes of this act. The board, with the approval of the president, may sell any or all of the stock of the United States in such corporation, but at no time shall it be a minority stockholder therein: Provided, That no corporation in which the United States is a stockholder, formed under the authority of this section, shall engage in the operation of any vessel constructed, purchased, leased, chartered or transferred under the authority of this act unless the board shall be unable, after a bona fide effort, to contract with any person a citizen of the United States for the purchase, lease or charter of such vessel under such terms and conditions as may be prescribed by the board.

The board shall give public notice of the fact that vessels are offered and the terms and conditions upon which a contract will be made and shall invite competitive offerings. In the event that the board shall determine that it is unable to enter into contract with such private parties for the purchase, lease or charter of such vessel, it shall make a full report to the president and if he shall approve it he shall make an order declaring that the conditions have been found to exist which justify the operation of such vessel by a corporation formed under the provisions of this section.

At the expiration of five years from the conclusion of the present European war the operation of vessels on the part of any such corporation in which the United States is then a stockholder shall cease and the corporation shall stand dissolved. The vessels and property of any such corporation shall revert to the board. The board may sell, lease or charter such vessels and shall dispose of the property other than vessels on the best available terms.

The board shall investigate the relative cost of building merchant vessels in the United States and in foreign maritime countries, and the relative cost, advantages and disadvantages of operating in the foreign trade vessels under United States registry and under foreign registry. It shall examine the rules under which vessels are constructed abroad and in the United States, and the methods of classifying and rating same, and it shall examine into the subject of marine insurance and ascertain what steps may be necessary to develop an ample marine insurance system as an aid to the development of an American merchant marine. It shall investigate the navigation laws of the United States and make such recommendations to congress as it deems proper for the improvement and revision of such laws. The board shall make an annual report with its recommendations to congress on or before Dec. 1 of each year.

For the purpose of carrying out the provisions of the act no liability shall be incurred exceeding a total of \$50,000,000 and the secretary of the treasury, upon the request of the board, approved by the president, shall from time to time issue and sell or use any of the bonds of the United States now available in the treasury under the acts of Aug. 5, 1909; Feb. 4, 1910, and March 2, 1911, relating to the issue of bonds for the construction of the Panama canal, to a total amount not to exceed \$50,000,000. The proceeds of such bonds and the net proceeds of all sales, charters and leases of vessels and of sales of stock made by the board, and all other moneys received by it from any source, shall be covered into the treasury to the credit of the board.

No common carrier by water shall directly or indirectly—

1. Pay, or allow, or enter into any combination, agreement, or understanding, express or implied, to pay or allow a deferred rebate to any shipper.
2. Use a fighting ship either separately or in

conjunction with any other carrier, through agreement or otherwise.

3. Retaliate against any shipper by refusing, or threatening to refuse, space accommodations when such are available, or resort to other discriminating or unfair methods, because such shipper has patronized any other carrier or has filed a complaint charging unfair treatment, or for any other reason.

4. Make any unfair or unjustly discriminatory contract with any shipper based on the volume of freight offered, or unfairly treat or unjustly discriminate against any shipper in the matter of (a) cargo space accommodations or other facilities, due regard being had for the proper loading of the vessel and the available tonnage; (b) the loading and landing of freight in proper condition; or (c) the adjustment and settlement of claims.

Any carrier who violates any provision of this section shall be guilty of a misdemeanor punishable by a fine of not more than \$25,000 for each offense.

It shall be unlawful for any common carrier by water, either alone or in conjunction with any other person, directly or indirectly—

1. To make or give any undue or unreasonable preference or advantage to any particular person, locality or description of traffic in any respect whatsoever, or to subject any particular person, locality or description of traffic to any undue or unreasonable prejudice or disadvantage in any respect whatsoever.

2. To allow any person to obtain transportation for property at less than the regular rates then established and enforced on the line of such carrier, by means of false billing, false classification, false weighing, false report of weight or by any other unjust or unfair device or means.

3. To induce, persuade or otherwise influence any marine insurance company or underwriter or agent thereof not to give a competing carrier by water as favorable a rate of insurance on vessel or cargo, having due regard to the class of vessel or cargo, as is granted to such carrier or other person subject to this act.

No common carrier by water in foreign commerce shall demand, charge or collect any rate, fare or charge which is unjustly discriminatory between shippers or ports, or unjustly prejudicial to exporters of the United States as compared with their foreign competitors. Whenever the board finds that any such rate, fare or charge is demanded, charged or collected it may alter the same to the extent necessary to correct such unjust discrimination or prejudice.

Every such carrier and every other person subject to this act shall establish, observe and enforce just and reasonable regulations and practices relating to or connected with the receiving, handling, storing or delivering of property. Whenever the board finds that any such regulation or practice is unjust or unreasonable it may determine, prescribe and order enforced a just and reasonable regulation or practice.

Every common carrier by water in interstate commerce shall establish, observe and enforce just and reasonable rates, fares, charges, classifications and tariffs and just and reasonable regulations and practices relating thereto and to the issuance, form and substance of tickets, receipts and bills of lading, the manner and method of presenting, marking, packing and delivering property for transportation, the carrying of personal, sample and excess baggage, the facilities for transportation and all other matters relating to or connected with the receiving, handling, transporting, storing or delivering of property.

Every such carrier shall file with the board and keep open to public inspection the maximum rates, fares and charges for or in connection with transportation between points on its own route; and, if a through route has been established, the maximum rates, fares and charges for or in connection with transportation between points on its own route and points on the route of any other carrier by water.

No such carrier shall demand, charge or collect a greater compensation for such transporta-

tion than the rates, fares and charges filed in compliance with this section, except with the approval of the board and after ten days' public notice stating the increase proposed to be made; but the board for good cause shown may waive such notice.

Whenever the board finds that any rate, fare, charge, classification, tariff, regulation or practice demanded, charged, collected or observed by such carrier is unjust or unreasonable, it may determine and order enforced a just and reasonable maximum rate, fare, charge, classification, tariff, regulation or practice.

Whenever a common carrier by water in interstate commerce reduces its rates on the carriage of any species of freight to or from competitive points below a fair and remunerative basis with the intent of driving out or otherwise injuring a competitive carrier by water, it shall not increase such rates until, after a hearing, the board finds that such proposed increase rests upon changed conditions other than the elimination of competition.

It shall be unlawful for any common carrier by water or any officer, receiver, trustee, lessee, agent or employee of such carrier knowingly to disclose to any person other than the shipper or consignee any information concerning the nature, kind, quantity, destination, consignee or routing of any property delivered for transportation, which information may be used to the detriment or prejudice of such shipper or consignee or carrier. The board may require any common carrier by water to file with it any periodical or special report appertaining to the business of such carrier.

The board shall have power, and it shall be its duty, whenever complaint shall be made to it, to investigate the action of any foreign government with respect to the privileges afforded and burdens imposed upon vessels of the United States engaged in foreign trade whenever it shall appear that the laws, regulations or practices of any foreign government operate in such a manner that vessels of the United States are not accorded equal privileges in foreign trade with vessels of such foreign countries or vessels of other foreign countries either in trade to or from the ports of such foreign country or in respect of the passage or transportation through such foreign country of passengers or goods intended for shipment or transportation in such vessels of the United States, either to or from ports of other foreign country or to or from ports of other foreign countries. It shall be the duty of the board to report the results of its investigation to the president with its recommendations and the president is hereby authorized and empowered to secure by diplomatic action equal privileges for vessels of the United States engaged in such foreign trade. And if by such diplomatic action the president shall be unable to secure such equal privileges then the president shall advise congress as to the facts and his conclusions by special message, if deemed important in the public interest, in order that proper action may be taken thereon.

Whoever violates any provision of this act, except where a different penalty is provided, shall be guilty of a misdemeanor, punishable by fine of not to exceed \$5,000.

This act shall not be construed to affect the power or jurisdiction of the interstate commerce commission, or to confer upon the board concurrent power or jurisdiction over any matter within the power or jurisdiction of such commission; nor shall this act be construed to apply to intrastate commerce.

For the fiscal year ending June 30, 1917, the sum of \$100,000 is hereby appropriated for the purpose of defraying the expenses of the establishment and maintenance of the board, including the payment of salaries.

The secretary of the treasury is authorized to refuse a clearance to any vessel or other vehicle laden with merchandise destined for a foreign or domestic port whenever he shall have satisfactory reason to believe that the master, owner or other officer of such vessel or other vehicle

refuses or declines to accept or receive freight or cargo in good condition tendered for such port of destination or for some intermediate port of call, together with the proper freight or transportation charges therefor, by any citizen of the United States, unless the same is fully laden and has no space accommodations for the freight or cargo so tendered, due regard being had for the proper loading of such vessel or vehicle, or unless such freight or cargo consists of merchandise for which such vessel or vehicle is not adaptable. (Approved Sept. 7, 1916.)

GOVERNMENT OF THE PHILIPPINES.

The title and preamble of the Philippine act follow:

"An act to declare the purpose of the people of the United States as to the future political status of the people of the Philippine islands, and to provide a more autonomous government for those islands.

"Whereas it was never the intention of the people of the United States in the incipency of the war with Spain to make it a war of conquest or for territorial aggrandizement, and

"Whereas it is, as it has always been, the purpose of the people of the United States to withdraw their sovereignty over the Philippine islands and to recognize their independence as soon as a stable government can be established therein; and

"Whereas for the speedy accomplishment of such purpose it is desirable to place in the hands of the people of the Philippines as large a control of their domestic affairs as can be given them without, in the meantime, impairing the exercise of the rights of sovereignty by the people of the United States, in order that, by the use and exercise of popular franchise and governmental powers, they may be the better prepared to fully assume the responsibilities and enjoy all the privileges of complete independence: Therefore

"Be it enacted by the senate and house of representatives of the United States of America in congress assembled, That the provisions of this act and the name 'The Philippines' as used in this act shall apply to and include the Philippine islands ceded to the United States government by the treaty of peace concluded between the United States and Spain on the 11th day of April, 1899, the boundaries of which are set forth in Article III. of said treaty, together with those islands embraced in the treaty between Spain and the United States concluded at Washington on the 7th day of November, 1900."

Section 2 of the act defines the citizenship of the Philippine islands and section 3 contains the bill of rights. Section 4 provides that all expenses, except those for defenses, barracks and other works undertaken by the United States, shall be paid by the government of the Philippines. Section 5 provides that the statutory laws of the United States hereafter enacted shall not apply to the Philippines except when they so specifically provide. Section 6 declares that the laws now in force in the Philippines shall continue in force except as altered by the present act or by act of congress of the United States. Section 7 provides that the legislative authority conferred by the act shall have power, when not inconsistent with the act, to amend or repeal any law, civil or criminal, continued in force by the act as it may from time to time see fit. Under section 8 the general legislative power is granted to the Philippine legislature, authorized by the act. In section 9 it is provided that all the property and rights acquired by the United States under the treaty of peace with Spain, except military reservations and certain other lands, shall be placed under control of the government of the islands, but acts of the Philippine legislature with reference to land of the public domain, timber and mining shall not become law until approved by the president of the United States, such approval to be given within six months. Section 10 declares that while this act provides that the Philippine government

shall have the authority to enact a tariff law the trade relations between the islands and the United States shall continue to be governed exclusively by laws of the congress of the United States. Tariff acts or acts amendatory to the tariff of the Philippine islands shall not become law until they shall receive the approval of the president of the United States, nor shall any act of the Philippine legislature affecting immigration or the currency or coinage laws of the Philippines become a law until it has been approved by the president of the United States.

It is provided in section 11 that no export duties shall be levied or collected on exports from the Philippine islands, but taxes and assessments on property and license fees for franchises and privileges, and internal taxes, direct or indirect, may be imposed for the purposes of the Philippine government and the provincial and municipal governments, as may be provided by acts of the Philippine legislature, and, where necessary to anticipate taxes and revenues, bonds and other obligations may be issued by the Philippine government or any provincial or municipal government therein. The entire indebtedness of the Philippine government created by the authority conferred herein shall not exceed at any one time the sum of \$15,000,000, exclusive of those obligations known as friar land bonds, nor that of any province or municipality a sum in excess of 7 per centum of the aggregate tax valuation of its property at any one time.

PHILIPPINE LEGISLATURE.

Sections 12 to 20 inclusive deal with the creation, duties and powers of the Philippine legislature. There shall be two houses, a senate and house of representatives. Senators are to be elected for terms of six years and representatives for terms of three years. Senators must be more than 30 years of age and able to read and write either the Spanish or English language. Representatives must be more than 25 years of age and must be able to read and write either the Spanish or English language. The Philippine islands are divided into twelve senatorial districts and ninety representative districts. There shall be two senators for each senatorial district and one representative for each representative district. The governor-general of the Philippine islands shall appoint, without the consent of the senate and without restriction as to residence, senators and representatives who will, in his opinion, best represent the senate district and those representative districts which may be included in the territory not now represented in the Philippine assembly. The legislature shall hold annual sessions beginning Oct. 16. Every bill that is passed must be approved by the governor-general before it becomes a law. In case a bill is passed over his veto by a two-thirds vote in each house it shall be presented to the president of the United States for approval.

All laws enacted by the Philippine legislature shall be reported to the congress of the United States, which reserves the power and authority to annul the same. If, at the termination of any fiscal year, the appropriations necessary for the support of government for the ensuing fiscal year shall not have been made, the several sums appropriated in the last appropriation bills for the objects and purposes therein specified, so far as the same may be done, shall be deemed to be reappropriated for the several objects and purposes specified in said last appropriation bill; and until the legislature shall act in such behalf the treasurer shall, when so directed by the governor-general, make the payments.

At the first meeting of the Philippine legislature and triennially thereafter there shall be chosen by the legislature, two resident commissioners to the United States, who shall hold their office for a term of three years beginning with the 4th day of March following their election, and who shall be entitled to an official recognition as such by all departments upon presentation to the president of a certificate of election by the governor-general of the islands. Each of the resident commissioners shall, in addition to the salary and the sum in lieu of

mileage now allowed by law, be allowed the same sum for stationery and for the pay of necessary clerk hire as is now allowed to the members of the house of representatives of the United States, and the franking privilege allowed by law to members of congress. No person shall be eligible to election as resident commissioner who is not a bona fide elector of the islands and who does not owe allegiance to the United States and who is not more than 30 years of age and who does not read and write the English language. The present two resident commissioners shall hold office until the 4th of March, 1917.

GOVERNOR-GENERAL.

Section 21 provides that the supreme executive power shall be vested in an executive officer, whose official title shall be "The governor-general of the Philippine islands." He shall be appointed by the president, by and with the consent of the senate of the United States, and hold his office at the pleasure of the president. The governor-general shall reside in the Philippines during his official incumbency and maintain an office at the seat of government. He shall appoint, with the consent of the Philippine senate, such officers as may now be appointed by the governor-general or such as he is authorized by this act to appoint. He shall have general supervision and control of all the departments and bureaus and shall be commander in chief of all the locally created armed forces and militia. He is vested with the exclusive power to grant pardons and reprieves and remit fines and forfeitures, and may veto any legislation enacted. Within ten days of each regular session of the legislature he shall submit a budget of receipts and expenses, which shall be the basis of the annual appropriation bill. He shall be responsible for the faithful execution of the laws of the Philippine islands and of the United States operative within the islands. Whenever it becomes necessary he may call upon the commanders of the military and naval forces of the United States in the islands or the locally created armed forces to prevent or suppress lawless violence, invasion, insurrection or rebellion. When public safety requires it he may suspend the privileges of the writ of habeas corpus or place the islands under martial law.

PHILIPPINE COMMISSION ENDED.

It is provided in section 22 that the executive departments of the Philippine government shall continue as at present with certain exceptions. When the Philippine legislature provided for by the act shall organize the Philippine commission shall cease to exist.

The Philippine legislature may thereafter by appropriate legislation increase the number or abolish any of the executive departments or make such changes in the names and duties thereof as it may see fit, and shall provide for the appointment and removal of the heads of the executive departments by the governor-general. All executive functions of the government must be directly under the governor-general or within one of the executive departments under the supervision and control of the governor-general. There is established a bureau, to be known as the bureau of non-Christian tribes, which bureau shall be embraced in one of the executive departments to be designated by the governor-general, and shall have general supervision over the public affairs of the inhabitants of the territory represented in the legislature by appointive senators and representatives.

Sections 23, 24 and 25 provide for the appointment by the president of the United States of a vice-governor, an auditor and a deputy auditor of the Philippine islands, and define their duties and powers.

COURT PROVISIONS.

In section 26 it is provided that the Supreme court and the courts of first instance of the Philippine islands shall possess and exercise jurisdiction as heretofore provided and such additional jurisdiction as shall hereafter be prescribed

by law. The Municipal courts of the islands shall possess and exercise jurisdiction as now provided by law, subject in all matters to such alteration and amendment as may be hereafter enacted by law; and the chief justice and associate justices of the Supreme court shall hereafter be appointed by the president, by and with the advice and consent of the senate of the United States. The judges of the court of first instance shall be appointed by the governor-general, by and with the advice and consent of the Philippine senate. The admiralty jurisdiction of the Supreme court and courts of first instance shall not be changed except by act of congress.

Section 27 provides that the Supreme court of the United States shall have jurisdiction to review, revise, reverse, modify or affirm the final judgments and decrees of the Supreme court of the Philippine islands in all actions, cases, causes and proceedings now pending therein or hereafter determined thereby in which the constitution or any statute, treaty, title, right or privilege of the United States is involved or in causes in which the value in controversy exceeds \$25,000, or in which the title or possession of real estate exceeding in value the sum of \$25,000 is involved or brought in question.

GRANTS OF FRANCHISES.

Section 28 provides that the government of the Philippine islands may grant franchises and rights, including the authority to exercise the right of eminent domain, for the construction and operation of works of public utility and service, and may authorize such works to be constructed and maintained over and across the public property of the United States, including streets, highways, squares and reservations, and over similar property of the government of the islands, and may adopt rules and regulations under which the provincial and municipal governments may grant the right to use and occupy such public property belonging to said provinces or municipalities. No private property shall be damaged or taken for any purpose under this section without just compensation, and that such authority to take and occupy land shall not authorize the taking, use or occupation of any land except such as is required for the actual necessary purposes for which the franchise is granted, and that no franchise or right shall be granted to any individual, firm or corporation except under the conditions that it shall be subject to amendment, alteration or repeal by the congress of the United States, and that lands or right of use and occupation of lands thus granted shall revert to the governments by which they were respectively granted upon the termination of the franchises and rights under which they were granted or upon their revocation or repeal. All franchises or rights granted under this act shall forbid the issue of stock or bonds except in exchange for actual cash or for property at a fair valuation equal to the par value of the stock or bonds so issued; shall forbid the declaring of stock or bond dividends, and, in the case of public service corporations, shall provide for the effective regulation of the charges thereof, for the official inspection and regulation of the books and accounts of such corporations, and for the payment of a reasonable percentage of gross earnings into the treasury of the Philippine islands or of the province or municipality within which such franchises are granted and exercised. It shall be unlawful for any corporation organized under this act, or for any person, company, or corporation receiving any grant, franchise, or concession from the government of the islands, to use, employ or contract for the labor of persons held in involuntary servitude; and any person, company or corporation so violating the provisions of this act shall forfeit all rights, grants or franchises for doing business in the islands, and in addition shall be deemed guilty of an offense and shall be punished by a fine of not more than \$10,000.

SALARIES.

In section 29 it is provided that the salaries of all the officials of the Philippines not ap-

pointed by the president, including deputies, assistants and other employees, shall be such and be so paid out of the revenues of the Philippines as shall from time to time be determined by the Philippine legislature; and, if the legislature shall fail to make an appropriation for such salaries, the salaries so fixed shall be paid without the necessity of further appropriations therefor. The salaries of all officers and all expenses of the offices of the various officials of the Philippines appointed as herein provided by the president shall also be paid out of the revenues of the Philippines. The annual salaries of the following named officials appointed by the president and so to be paid shall be: The governor-general, \$18,000; in addition thereto he shall be entitled to the occupancy of the buildings heretofore used by the chief executive of the Philippines, with the furniture and effects therein, free of rental; vice-governor, \$10,000; chief justice of the Supreme court, \$5,000; associate justices of the Supreme court, \$7,500 each; auditor, \$6,000; deputy auditor, \$3,000.

Section 30 declares that the provisions of the foregoing section shall not apply to provincial and municipal officials; their salaries and the compensation of their deputies, assistants and other help, as well as all other expenses incurred by the provinces and municipalities, shall be paid out of the provincial and municipal revenues in such manner as the Philippine legislature shall provide. Section 31 provides that all laws or parts of laws applicable to the Philippines not in conflict with any of the provisions of this act are continued in force and effect. (Approved Aug. 29, 1916.)

CHILD LABOR LAW.

No producer, manufacturer or dealer shall ship or deliver for shipment in interstate or foreign commerce any article or commodity the product of any mine or quarry in the United States, in which within thirty days prior to the time of the removal of such product therefrom children under the age of 16 years have been employed or permitted to work, or any article or commodity the product of any mill, cannery, workshop, factory or manufacturing establishment in the United States in which within thirty days prior to the removal of such product therefrom children under the age of 14 years have been employed or permitted to work, or children between the ages of 14 years and 16 years have been employed or permitted to work more than eight hours in any day, or more than six days in any week, or after the hour of 7 p. m., or before the hour of 6 a. m. A prosecution and conviction of a defendant for the shipment or delivery for shipment of any article or commodity under the conditions herein prohibited shall be a bar to any further prosecution against the same defendant for shipments or deliveries for shipment of any such article or commodity before the beginning of such prosecution.

The attorney-general, the secretary of commerce and the secretary of labor shall constitute a board to make and publish from time to time uniform rules and regulations for carrying out the provisions of the act.

For the purpose of securing the proper enforcement of the act the secretary of labor, or any person duly authorized by him, shall have authority to enter and inspect at any time mines, quarries, mills, canneries, workshops, factories, manufacturing establishments and other places in which goods are produced or held for interstate commerce; and the secretary of labor shall have authority to employ such assistance for the purposes of this act as may from time to time be authorized by appropriation or other law.

It shall be the duty of each district attorney to whom the secretary of labor shall report any violation of the act, or to whom any state factory or mining or quarry inspector, commissioner of labor, state medical inspector, or school attendance officer, or any other person shall present satisfactory evidence of any violation,

to cause appropriate proceedings to be begun and prosecuted in the proper courts of the United States without delay for the enforcement of the penalties in such cases herein provided. Nothing in this act shall be construed to apply to bona fide boys' and girls' canning clubs recognized by the agricultural department of the several states and of the United States.

Any person who violates any of the provisions of section 1 of this act, or who refuses or obstructs entry or inspection authorized by section 3 of this act, shall for each offense prior to the first conviction of such person be punished by a fine of not more than \$200, and shall for each offense subsequent to such conviction be punished by a fine of not more than \$1,000, nor less than \$100, or by imprisonment for not more than three months, or by both such fine and imprisonment, in the discretion of the court. No dealer shall be prosecuted under the provisions of this act for a shipment, delivery for shipment or transportation who establishes a guaranty issued by the person by whom the goods shipped or delivered for shipment or transportation were manufactured or produced, resident in the United States, to the effect that such goods were produced or manufactured in a mine or quarry in which within thirty days prior to their removal therefrom no children under the age of 16 years were employed or permitted to work, or in a mill, cannery, workshop, factory or manufacturing establishment, in which within thirty days prior to the removal of such goods therefrom no children under the age of 14 years were employed or permitted to work, nor children between the ages of 14 years and 16 years employed or permitted to work more than eight hours in any day or more than six days in any week or after the hour of 7 p. m., or before the hour of 6 a. m.; and in such event, if the guaranty contains any false statement of a material fact, the guarantor shall be amenable to prosecution and to the fine or imprisonment provided by this section for violation of the provisions of this act. The guaranty, to afford the protection above provided, shall contain the name and address of the person giving the same; and provided further, that no manufacturer or dealer shall be prosecuted under this act for the shipment, delivery for shipment or transportation of a product of any mine, quarry, mill, cannery, workshop, factory or manufacturing establishment, if the only employment therein, within thirty days prior to the removal of such product therefrom, of a child under the age of 16 years has been that of a child as to whom the producer or manufacturer has in good faith procured, at the time of employing such child, and has since in good faith relied upon and kept on file a certificate, issued in such form, under such conditions and by such persons as may be prescribed by the board, showing the compliance of such child with that the shipment, delivery for shipment or transportation was not prohibited by this act. Any person who knowingly makes a false statement or presents false evidence in or in relation to any such certificate or application therefor shall be amenable to prosecution and to the fine or imprisonment provided by this section for violations of this act. In any state designated by the board, an employment certificate or other similar paper as to the age of the child, issued under the laws of that state and not inconsistent with the provisions of this act, shall have the same force and effect as a certificate herein provided for.

The word "person" as used in this act shall be construed to include any individual or corporation or the members of any partnership or other unincorporated association. The term "ship or deliver for shipment in interstate or foreign commerce" as used in this act means to transport or to ship or deliver for shipment from any state or territory or the District of Columbia to or through any other state or territory or the District of Columbia or to any foreign country; and in the case of a dealer means only to transport or to ship or deliver for ship-

ment from the state, territory or district of manufacture or production.

This act shall take effect from and after one year from the date of its passage. (Approved Sept. 1, 1916.)

COMPENSATION FOR DISABLED EMPLOYEES.

The United States shall pay compensation for the disability or death of an employe [in federal service] resulting from a personal injury sustained while in the performance of his duty. No compensation shall be paid if the injury or death is caused by willful misconduct or intoxication. If the disability is total the employe shall receive a monthly compensation equal to 66 2-3 per cent of his monthly pay. If the injury is partial he shall receive a monthly compensation equal to 66 2-3 per cent of the difference between his monthly pay and his monthly wage earning capacity after the beginning of the injury. If a partially disabled employe refuses to work, if suitable work is secured for him, he shall receive no compensation.

The monthly compensation for total disability shall not be more than \$66.67, nor less than \$33.33, unless the employe's monthly pay is less than \$33.33, in which case his monthly compensation shall be the full amount of his monthly pay. The monthly compensation for partial disability shall not be more than \$66.67.

The United States shall furnish its injured employes reasonable medical, surgical and hospital services and supplies where practicable. Where it is not practicable the services shall be furnished by private physicians and hospitals approved by the United States employes' compensation commission, and be paid for out of the employe's compensation.

If death results from the injury within six years the United States shall pay to the following persons for the following periods a monthly compensation equal to the following percentages of the deceased employe's monthly pay, subject to the modification that no compensation shall be paid where the death takes place more than one year after the cessation of disability resulting from such injury, or, if there has been no disability preceding death, more than one year after the injury:

(a) To the widow, if there is no child, 35 per centum. This compensation shall be paid until her death or marriage.

(b) To the widower, if there is no child, 35 per centum if wholly dependent for support upon the deceased employe at the time of her death. This compensation shall be paid until his death or marriage.

(c) To the widow or widower, if there is a child, the compensation payable under clause (a) or clause (b) and in addition thereto 10 per centum for each child, not to exceed a total of 66 2-3 per centum for such widow or widower and children. The compensation payable on account of any child shall cease when he dies, marries or reaches the age of 18, or, if over 18 and incapable of self-support, becomes capable of self-support.

(d) To the children, if there is no widow or widower, 35 per centum for one child and 10 per centum additional for each additional child, not to exceed a total of 66 2-3 per centum, divided among such children share and share alike. The compensation of each child shall be paid until he dies, marries or reaches the age of 18, or, if over 18 and incapable of self-support, becomes capable of self-support. The compensation of a child under legal age shall be paid to its guardian.

(e) To the parents, if one is wholly dependent for support upon the deceased employe at the time of his death and the other is not dependent to any extent, 25 per cent; if both are wholly dependent, 20 per centum to each; if one is or both are partly dependent, a proportionate amount in the discretion of the commission.

The above percentages shall be paid if there

is no widow, widower or child. If there is a widow, widower or child, there shall be paid so much of the above percentages as, when added to the total percentages payable to the widow, widower and children, will not exceed a total of 66 2-3 per centum.

(f) To the brothers, sisters, grandparents and grandchildren, if one is wholly dependent upon the deceased employe for support at the time of his death, 20 per centum to such dependent; if more than one are wholly dependent, 30 per centum, divided among such dependents share and share alike; if there is no one of them wholly dependent, but one or more partly dependent, 10 per centum, divided among such dependents share and share alike.

The above percentages shall be paid if there is no widow, widower, child or dependent parent. If there is a widow, widower, child or dependent parent, there shall be paid so much of the above percentages as, when added to the total percentage payable to the widow, widower, children and dependent parents, will not exceed a total of 66 2-3 per centum.

(g) The compensation of each beneficiary under clauses (e) and (f) shall be paid for a period of eight years from the time of the death, unless before that time he, if a parent or grandparent, dies, marries or ceases to be dependent, or, if a brother, sister or grandchild dies, marries or reaches the age of 18, or, if over 18 and incapable of self-support, becomes capable of self-support. The compensation of a brother, sister or grandchild under legal age shall be paid to his or her guardian.

If death results from the injury within six years the United States shall pay to the personal representative of the deceased employe burial expenses not to exceed \$100.

There is created a commission to be known as the United States employes' compensation commission and to be composed of three commissioners appointed by the president, with the consent of the senate, one of whom shall be designated by the president as chairman. No commissioner shall hold any other office or position under the United States. No more than two of the commissioners shall be members of the same political party. One shall be appointed for two years, one for four and one for six years; all subsequent appointments shall be for six years. The salary of each commissioner shall be \$4,000 a year. The principal office shall be in Washington, D. C.

For the fiscal year ending June 30, 1917, the sum of \$50,000 is appropriated for the salaries and expenses of the commission and \$500,000 to be set aside as an employes' compensation fund. (Approved Sept. 7, 1916.)

GRAIN STANDARDS ACT.

The grain standards act, incorporated in the agricultural appropriation bill of 1916, authorizes the secretary of agriculture to investigate the handling and grading of grain and to establish standards for corn, wheat, rye, oats, barley, flaxseed and other grains. Whenever such standards are established for any grain, the act forbids the shipment or delivery for shipment, in interstate or foreign commerce originating in the United States, of any such grain which is sold, offered for sale, or consigned for sale by grade, unless it is inspected and graded by a licensed inspector, either at the place of shipment, at a point in transit or at the destination. In case no licensed inspector is located either at the point of shipment or at the point of destination, the grain may be shipped without inspection, in which event either party to the transaction may refer any dispute as to the grade to the secretary of agriculture.

When grain shipped or delivered for shipment in interstate or foreign commerce is required to be inspected and graded by a licensed inspector, it is made unlawful for any person to represent that it is of a grade other than that stated in a certificate issued in compliance with the act.

The act permits the shipment in interstate or foreign commerce of grain sold by sample or by type, or under any description which is not false and misleading and does not include any of the terms of the official grain standards.

The secretary of agriculture is authorized to examine grain that has been offered to conform to any grade of the official grain standards, or that has been shipped in interstate or foreign commerce. If, after an opportunity for hearing has been given to the interested parties, it is determined that any such grain has been incorrectly certified or has been sold under false or misleading description, he may publish his findings. Appeals may be made to the secretary of agriculture in disputed questions of grade. Every person employed to inspect and grade grain is prohibited from certifying the grain according to the official grain standards unless he holds a license issued by the secretary of agriculture. Any person who presents satisfactory evidence of competency may secure a license as a grain inspector. The object of the act is to simplify the relations between producers, dealers and consumers. Under these grades, fairly used, the grower or shipper of a superior quality of grain will be in a position to demand from the buyer the fair value to which the quality of his product entitles him. On the other hand, the producer of a product of inferior quality will receive a lower return.

The act became a law Aug. 11, 1916.

UNITED STATES WAREHOUSE ACT.

The central purpose of the United States warehouse act, which was incorporated in the agricultural appropriation bill of 1916 and which became law Aug. 11 in that year, is to establish a form of warehouse receipt for cotton, grain, wool, tobacco and flaxseed which will make these receipts easily and widely negotiable as delivery orders or as collateral for loans and so of assistance in financing crops. This purpose the act aims to secure by licensing and bonding warehouses under conditions which will insure the integrity of their receipts and make these receipts reliable evidence of the condition, quality, quantity and ownership of the products named which may be stored with them.

The secretary of agriculture is given general authority to investigate the storage, warehousing, classification, weighing and certifying of cotton, wool, grains, tobacco and flaxseed, and to classify warehouses for which licenses are applied for or issued.

He may issue to warehousemen licenses for the conduct of warehouses in which such products may be stored for interstate or foreign commerce, and also of warehouses located in places under the exclusive jurisdiction of the United States in which such products may be stored. Persons who are not warehousemen may also be licensed to accept such products for storage in warehouses owned, operated or leased by any state. Licenses may be issued for periods not exceeding one year, and are renewable. It is not, however, compulsory that any warehouseman be licensed by the secretary of agriculture. The system is wholly permissive.

Every applicant for a license as a warehouseman must agree to comply with the act and the rules and regulations prescribed under it. He must give a bond, with other than personal surety, to secure the performance of his obligations as a warehouseman under the laws of the place in which the warehouse is conducted, under his contract with his depositors and under the United States warehouse act. The right is given to any person injured through its breach to sue in his own name on the bond for any damages sustained by him. When such bond has been given, the warehouse may be designated as bonded under the United States warehouse act.

Licensed warehousemen are not permitted to discriminate between persons desiring to store agricultural products in their warehouses. All agricultural products, except fungible products

(such as grain and the like), of the same kind and grade, for which separate receipts are issued, must be so kept that they may be separately identified and redelivered to the depositor. Warehousemen may mix grain and other fungible products, ordinarily mixed in storage, when they are of the same kind and grade and are delivered from the same mass, but may not mix such products when they are of different grades.

Original receipts must be issued for all agricultural products stored in licensed warehouses, but only when such products are actually stored at the time of the issuance of the receipts.

The act enumerates certain facts which must be stated in all receipts issued by licensed warehousemen. They must show (a) the location of the warehouse, (b) the date of issuance, (c) the consecutive number, (d) whether the products will be delivered to the bearer, to a specified person or to a specified person or his order, (e) the rate of storage charges, (f) a description of the product stored, including the quantity or weight, (g) the grade or other class according to the official standards of the United States for such products, unless there be no such standard, in which event it must be stated according to some recognized standard or according to rules and regulations prescribed by the secretary of agriculture, (h) that they are issued subject to the United States warehouse act and the rules and regulations under it, (i) ownership, if any, of the products by the warehouseman, (j) any lien claimed by the warehouseman for advance made or liabilities incurred, (k) any other facts required by the secretary of agriculture, (l) the signature of the warehouseman, which may be made by his authorized agent. Unless otherwise required by the law of the state in which the warehouse is located, the grade may be omitted at the request of depositors, except in case of fungible agricultural products, if the receipts clearly show that they are not negotiable.

The secretary of agriculture may license competent persons to classify and weigh agricultural products stored in licensed warehouses, and to certify the classification or weight of the products. All grain, flaxseed and other fungible products stored for interstate or foreign commerce in licensed warehouses must be inspected and graded by persons licensed for the purpose. Authority is given to establish official standards for the agricultural products named in the act, and standards established under any other act of congress are adopted for the purpose of the warehouse act.

Upon demand of depositors or holders of receipts, licensed warehousemen, in the absence of some lawful excuse, must deliver products stored without unnecessary delay.

The act expressly provides that nothing contained in it shall be construed to interfere with state laws relating to warehouses, warehousemen, weighers, graders and classifiers or with similar federal laws. On the contrary, the secretary of agriculture is authorized to co-operate with officials charged with the enforcement of such state laws in order to carry out the provisions of the United States warehouse act.

COTTON FUTURES ACT.

The act making appropriations for the department of agriculture for the fiscal year ending June 30, 1917, approved Aug. 11, 1916, contains a re-enactment, effective Sept. 1, 1916, of the United States cotton futures act of Aug. 18, 1914, with a few changes. Authority is conferred upon the secretary of agriculture, in case of disputes referred to him, to include in his findings a complete classification of the cotton for the purposes of delivery on future contracts. Under the act of Aug. 18, 1914, his findings were confined to the specific question of grade, quality or length of staple in dispute. A new section, known as section 6A, is inserted, which provides an optional contract under which parties may, without being subject to tax, agree that, under certain specified conditions, the

buyer may demand delivery of the basis grade named in the contract. The other changes are of a minor character.

NATIONAL PARK SERVICE.

There is created in the department of the interior a service to be called the national park service, which shall be under the charge of a director, who shall be appointed by the secretary and who shall receive a salary of \$4,500 a year. There shall also be appointed by the secretary one assistant director at \$2,500, one chief clerk at \$2,000 and such other employees as the secretary shall deem necessary. The service established shall promote and regulate the use of the federal areas known as national parks, monuments and reservations hereinafter specified by such means and measures as conform to the fundamental purpose of the said parks, monuments and reservations, which purpose is to conserve the scenery and the natural and historic objects and the wild life therein and to provide for the enjoyment of the same in such manner and by such means as will leave them unimpaired for the enjoyment of future generations.

The director shall, under the direction of the secretary of the interior, have the supervision, management and control of the several national parks and national monuments which are now under the jurisdiction of the department of the interior, and of the Hot Springs reservation in the state of Arkansas, and of such other national parks and reservations of like character as may be hereafter created by congress.

The secretary of the interior shall make and publish such rules and regulations as he may deem necessary or proper for the use and management of the parks, monuments and reservations under the jurisdiction of the national park service. He may also, upon terms and conditions to be fixed by him, sell or dispose of timber in those cases where in his judgment the cutting of such timber is required in order to control the attacks of insects or diseases or otherwise conserve the scenery or the natural or historic objects in any such park, monument or reservation. He may also provide in his discretion for the destruction of such animals and of such plant life as may be detrimental to the use of any of said parks, monuments or reservations. He may also grant privileges, leases and permits for the use of land for the accommodation of visitors in the various parks, monuments or other reservations herein provided for, but for periods not exceeding twenty years; and no natural curiosities, wonders or objects of interest shall be leased, rented or granted to any one on such terms as to interfere with free access to them by the public. (Approved Aug. 25, 1916.)

ABRAHAM LINCOLN HOMESTEAD.

The United States accepts title to the lands mentioned in the deed of gift or conveyance now in the possession of the secretary of war, together with all the buildings thereon, especially the log cabin in which Abraham Lincoln was born and the memorial hall inclosing the same, which deed of conveyance was executed April 11, 1916, by the Lincoln Farm association, a corporation, to the United States of America, describing certain lands (137 acres) situated near the town of Hodgenville, Larue county, Ky. The title to such lands and buildings is accepted upon the terms and conditions stated in the conveyance, namely: That the land therein described, together with the buildings and appurtenances thereon, shall be forever dedicated to the purposes of a national park or reservation, the United States of America agreeing to protect and preserve the lands, buildings and appurtenances, and especially the log cabin in which Abraham Lincoln was born and the memorial hall inclosing the same, from spoliation and further disintegration, to the end that they may be preserved for all time, so far as may be; and further agreeing that there shall

never be any charge or fee made to or asked from the public for admission to the park or reservation.

The United States of America also accepts title to the endowment fund of \$50,000 mentioned in the assignment and transfer, now in the possession of the secretary of war, which assignment and transfer was executed on April 11, 1916, by the Lincoln Farm association to the United States of America, turning over all its right, title and interest in and to the endowment fund. Upon the passage of the act and the vesting of the title to the property accepted thereunder in the United States, it shall be under the control of the secretary of war and administered under such regulations not inconsistent with law as he may from time to time prescribe. (Approved July 17, 1916.)

The homestead and cabin were formally transferred to the government Monday, Sept. 4, 1916, when President Wilson spoke to a large assemblage before the Lincoln memorial hall in Larue county, near Hodgenville, Ky. Other speakers were Gen. John B. Castleman of Louisville, Secretary of War Baker, Senator J. S. Williams of Mississippi, Joseph W. Folk of Missouri and Robert J. Collier of New York.

LASSEN VOLCANIC NATIONAL PARK.

The act to establish the Lassen Volcanic National park in the Sierra Nevada mountains in California defines its boundaries and declares that the tract of land so defined shall be set apart as a public park or pleasure ground for the benefit and pleasure of the people of the United States. It is to be known and designated as the Lassen Volcanic National park. The secretary of the interior is given charge of the park with the usual provisions for care and maintenance. (Approved Aug. 9, 1916.)

Lassen peak, which showed volcanic activity only a few years ago, was set apart as a national monument in 1906. Cinder Cone, in its immediate neighborhood, was also thus distinguished at the same time. The new national park includes both of these remarkable volcanic monuments within its area of 82,880 acres. The region is one of extraordinary interest and the only one in the United States exhibiting recent volcanic action. Among its features are Lassen peak, 10,437 feet elevation, and still exhibiting some volcanic activity; North peak, 8,600 feet elevation; Southwest peak, 9,200 feet elevation; Prospect peak, 9,200 feet elevation; Cinder Cone, 6,907 feet elevation; the Devil's Half Acre, showing hot springs; and mud geysers; Bumpass, Morgan and other hot springs; seven lakes, many interesting ice caves and lakes of volcanic glass; numerous trout streams; and beautiful and majestic canyons. There are forests of yellow pine, fir, white pine and lodgepole.

HAWAII NATIONAL PARK.

Certain tracts of land on the islands of Hawaii and Maui, in the territory of Hawaii, are perpetually dedicated and set apart as a public park or pleasure ground for the benefit and enjoyment of the people of the United States, to be known as Hawaii National park. The tracts of land are described in detail. There are two tracts on the island of Hawaii included in the park, with a strip of land wide enough for a road to connect them. One of the tracts contains 35,865 acres and the other 17,920 acres. On the island of Maui the tract made into a park contains 21,150 acres. The Hawaii National park is placed under the executive control of the secretary of the interior. The act contains the usual provisions for the care, improvement and maintenance of the park. (Approved Aug. 1, 1916.)

The Hawaii is the first national park lying outside the continental boundaries of the United States. It sets apart three celebrated Hawaiian volcanoes, Kilauea, Mauna Loa and Haleakala

as national spectacles. Kilauea crater has been nearly continuously active with a lake or lakes of molten lava for a century. Mauna Loa is the largest active volcano and mountain mass in the world, with eruptions about once a decade. Haleakala is a mountain mass 10,000 feet high with a crater rift in its summit eight miles in diameter and 3,000 feet deep, with many high lava cones built up inside the crater. It is probably the largest of all known craters among volcanoes that are technically known as active. The lava lake at Kilauea draws visitors from all over the world. It is a lake of fire 1,000 feet long. Great fountains boil through it fifty feet high, sending quantities of glowing spray over the shore. Mauna Loa is capped with perpetual snow. It is 13,675 feet high. Around the base of these volcanoes are gorgeous tropical forests. Sandalwood, elsewhere extinct, grows there luxuriantly. There are mahogany groves, forests of tree ferns forty feet high and tropical jungles, alternating with green meadows. There are also tracts of desert and wonderful lava caves.

DRAFTING OF MILITIA.

Joint resolution to authorize the president to draft members of the national guard and of the organized militia and members of the national guard and militia reserves into the military service of the United States.

In the opinion of congress an emergency now exists which demands the use of troops in addition to the regular army of the United States and the president is hereby authorized to draft into the military service of the United States, under the provisions of section 111 of the national defense act approved June 3, 1916, so far as the provisions of said section may be applicable and not inconsistent with the terms hereof, any or all members of the national guard and of the organized militia of the several states, territories and the District of Columbia and any and all members of the national guard and organized militia reserves, to serve for the period of the emergency, not exceeding three years, unless sooner discharged: Provided, That all persons so drafted shall, from the date of their draft, stand discharged from the militia during the period of their service under said draft.

Sec. 2. The provisions of section 112 of the national defense act of June 3, 1916, shall be applicable to any officer or enlisted man drafted into the service of the United States pursuant to the provisions of this joint resolution.

Sec. 3. When organizations the members of which are drafted under the provisions of this resolution do not constitute complete tactical units the president may, by combining such organizations, organize battalions, regiments, brigades and divisions, and may appoint officers for such units from the regular army, from the members of such organizations, from those duly qualified and registered pursuant to section 23 of the act of congress approved Jan. 21, 1903, or members of the officers' reserve corps as provided in section 38 of the national defense act of June 3, 1916, officers with rank not above that of colonel to be appointed by the president alone and all other officers to be appointed by the president, by and with the advice and consent of the senate: Provided, That vacancies incident to the appointment of officers of the regular army to the positions in the forces drafted for this emergency may be filled under the provisions of section 8 of the act of April 25, 1914.

Sec. 4. Whenever in time of war or public danger, or during the emergency declared in section 1 of this resolution, two or more officers of the same grade are on duty in the same field, department or command, or organizations thereof, the president may assign the command of the forces of such field, department, or command, or of any organization thereof, without regard to seniority of rank in the same grade. In the absence of such assignment by the president, officers of the same grade shall rank and have precedence in the following order without regard

to date of rank or commission as between officers of different classes, namely: First, officers of the regular army and officers of the marine corps detached for service with the army by order of the president; second, officers of forces drafted into the military service of the United States: Provided, That officers of the regular army holding commissions in forces drafted into the service of the United States shall rank and have precedence under said commissions as if they were commissioned in the regular army; but the rank of officers of the regular army under their commissions in the forces drafted into the service of the United States shall not for the purpose of this resolution be held to antedate muster or draft into the service of the United States. (Approved July 1, 1916.)

EXTRAORDINARY MILITARY EXPENSES.

To meet expenses on account of the military establishment, incurred and to be incurred during the fiscal years 1916 and 1917, because of or incident to an emergency (Mexican) demanding the use of troops in addition to the regular army the following appropriations were made:

Signal service of the army, \$250,000.
Radio installations on Mexican border, \$60,000.
Pay of national guard, \$1,648,000.
Milage of regular army officers mustering in national guard, \$50,000.
Subsistence of the army, \$623,700; regular supplies, \$105,410.
Incidental expenses quartermaster corps, \$57,620.
Horses for cavalry, artillery and engineers, \$8,025,965.
Barracks and quarters, \$35,000.
Transportation, \$9,983,213.83.
Water and sewers at military posts, \$70,000.
Clothing and camp and garrison equipage, \$3,791,160.
Construction and repair of hospitals, \$100,000.
Medical and hospital department, \$1,584,000.
Engineer department, \$820,000.
Marine corps, \$265,000.
Miscellaneous, \$90,250.
Approved July 1, 1916.

ARMY AND NAVY MEDAL OF HONOR ROLL.

There is established in the war and navy departments, respectively, a roll designated as "the army and navy medal of honor roll." The name of each surviving person who has served in the military or naval service of the United States in any war, who has attained or shall attain the age of 65 years, and who has been awarded a medal of honor for having in action involving actual conflict with an enemy distinguished himself conspicuously by gallantry or intrepidity, at the risk of his life, above and beyond the call of duty, and who was honorably discharged from service, shall be entered upon the roll. Application blanks shall be furnished without charge upon request.

Each surviving person whose name shall have been entered upon the roll shall be entitled to and shall receive a special pension of \$10 a month for life, payable quarterly. This pension shall not deprive him of any other pension but shall be in addition thereto. The pension is not subject to any attachment, lien, tax, levy, execution or detention under any process whatever. In case any person has been awarded two or more medals he shall not be entitled to more than one such special pension. Rank in service shall not be considered in applications filed under the act. (Approved April 27, 1916.)

POSTAL SAVINGS ACT AMENDED.

The act of June 25, 1910, authorizing the postal savings system, is amended so as to make that part of section 6 that reads, "but no one shall be permitted to deposit more than \$100 in any one calendar month," read as follows: "but the balance to the credit of any person, upon which interest is payable, shall not exceed \$1,000, exclusive of accumulated interest"; and said act is further amended so that the proviso in section

7 thereof shall read as follows: "Provided, That board of trustees may, in their discretion, and under such regulations as such board may promulgate, accept additional deposits not to exceed in the aggregate \$1,000 for each depositor, but upon which no interest shall be paid." (Approved May 18, 1916.)

MCKINLEY SOUVENIR DOLLAR.

For the purpose of aiding in defraying the cost of completing the work of erecting a memorial in the city of Niles, O., to William McKinley, late president of the United States of America, the secretary of the treasury is authorized to purchase in the market so much gold and bullion as may be necessary for the purpose, from which there shall be coined at the United States mint, Philadelphia, standard gold dollars of the legal weight and fineness, to the number of not exceeding 100,000 pieces, to be known as the McKinley souvenir dollar, the devices and designs upon which coin shall be prescribed by the secretary of the treasury. All provisions of law relative to the coinage and legal tender quality of the standard gold dollar shall be applicable to the coins issued under this act, and when so coined the souvenir dollars shall be delivered, in suitable parcels, at par, and without cost to the United States, to the National McKinley Birthplace Memorial association and the dies shall be destroyed. (Approved Feb. 23, 1916.)

FREE SUGAR PROVISOS REPEALED.

The proviso in paragraph 177 of the tariff act of 1913 reading, "Provided further, That on and after the first day of May, 1916, the articles hereinbefore enumerated in this paragraph shall be admitted free of duty," is repealed. The paragraph in question fixes the tariff rates on sugar and molasses.

The proviso of paragraph 178 of the same act reading, "Provided, That on and after the first day of May, 1916, the articles hereinbefore enumerated in this paragraph shall be admitted free of duty," is repealed. The paragraph in question fixes the tariff rates on maple sugar, maple sirup, glucose or grape sugar and sugar cane. (Approved April 27, 1916.)

WAR TAXES CONTINUED IN FORCE.

The provisions of the act entitled "An act to increase the internal revenue, and for other purposes," approved Oct. 22, 1914 (Statutes at Large, volume thirty-eight, pages 745 to 764, inclusive), are continued in full force and effect until and including Dec. 31, 1916. (Approved Dec. 17, 1915.)

AMERICAN ACADEMY OF ARTS AND LETTERS.

The act incorporating the American Academy of Arts and Letters, after naming the members of the organization (a list of whom will be found on another page of this volume), provides that the purposes of the corporation shall be the furtherance of the interests of literature and the fine arts; that the academy shall consist of not more than fifty regular members and of foreign, domestic and honorary associate members to be elected by the regular members; that the academy shall hold an annual meeting and make an annual report to congress, to be filed with the librarian of congress, and that it may receive bequests and donations for the purpose of furthering the interests of literature and the fine arts. (Approved April 17, 1916.)

BOY SCOUTS INCORPORATED.

Colin H. Livingstone and Ernest P. Bicknell of Washington, D. C.; Benjamin L. Dulancy of Bristol, Tenn.; Milton McRae of Detroit, Mich.; David Starr Jordan of Berkeley, Cal.; F. L. Seely of Asheville, N. C.; A. Stamford White of Chicago, Ill.; Daniel Carter Beard of Flushing, N. Y.; George D. Pratt of Brooklyn, N. Y.; Franklin C. Hoyt, Jeremiah W. Jenks, Charles P. Nell, Frank Presbrey, Edgar M. Robinson, Mortimer L. Schiff and James E. West of New

Y. Y.; Robert Garrett of Baltimore, Md.; John Sherman Hoyt of Newwalk, Conn.; Charles C. Jackson of Boston, Mass.; John H. Nicholson of Pittsburgh, Pa.; William D. Murray of Philadelphia, N. J., and George D. Porter of Philadelphia, Pa., their associates and successors, are created a body corporate of the District of Columbia, where its domicile shall be.

The name of the corporation shall be "Boy Scouts of America," and by that name it shall have perpetual succession, with powers to sue and be sued, to hold such real estate and personal property as may be necessary to its corporate purpose, to receive gifts, bequests, etc. The purpose of the corporation shall be to promote, through organization and co-operation with other agencies, the ability of boys to do things for themselves and others, to train them in scoutcraft and to teach them patriotism, courage, self-reliance and kindred virtues, using the methods which are now in common use by Boy Scouts.

The governing body of the Boy Scouts of America shall consist of an executive board composed of citizens of the United States. The persons mentioned in the first section of the act shall constitute the first executive board. The act provides for annual meetings, reports to congress and kindred matters. (Approved June 15, 1916.)

TEXAS BICENTENNIAL.

Whenever it shall be shown to the satisfaction of the president of the United States that a suitable site has been selected and that adequate provision has been made for buildings and grounds that will enable the Texas Bicentennial and Pan-American exposition to hold an exposition at the city of San Antonio, Tex., on or about the first day of November, 1918, to celebrate the 200th anniversary of the settlement of San Antonio, the president is authorized to invite Spain and all the pan-American countries and nations to take part in the exposition. (Approved June 5, 1916.)

MISSISSIPPI CENTENNIAL EXPOSITION.

The joint resolution provides that the government exhibit at the Panama-California exposition in San Diego, Cal., shall be transferred to the Mississippi Centennial exposition to be held in Gulfport, Miss., from December, 1917, to March, 1918. The sum of \$75,000 is appropriated for the purpose. (Approved Sept. 8, 1916.)

Another joint resolution approved Sept. 8, 1916, authorizes the postmaster-general to provide the postmaster of Gulfport, Miss., with a special canceling die for the exposition.

RELIEF OF U. S. CITIZENS IN MEXICO.

For the relief of destitute American citizens in Mexico, including transportation to their homes in the United States, there is appropriated the sum of \$300,000 to be expended under the direction of the secretary of state, and to be available for the fiscal years 1916 and 1917. American citizens to whom relief is extended or transportation is furnished shall reimburse the United States for all reasonable expenses so incurred on their account, if financially able to do so. (Approved July 14, 1916.)

RELIEF OF FLOOD SUFFERERS.

The sum of \$540,000 is appropriated for the relief of persons suffering and in destitution by reason of recent floods in the states of North Carolina, South Carolina, Georgia, Alabama, Florida, Tennessee and Mississippi; and the secretary of war is authorized to expend so much of the sum as he may deem necessary in supplying such seeds as may be suitable to produce quick growing crops to provide food for the population and animals of the flood areas; and to supply the destitute with some form of employment at a moderate rate of pay. The secretary of war is also authorized to fur-

nish such supplies of the quartermaster and medical departments as he may deem proper, to those who are destitute and unable to work, but for a period not exceeding ninety days from the passage of this resolution. (Approved Aug. 3, 1916.)

The above appropriation, by a joint resolution approved Aug. 24, 1916, was also made available for the relief of flood sufferers in West Virginia.

JOHN ERICSSON MEMORIAL.

The sum of \$35,000, or so much thereof as may be necessary, is hereby authorized for the

erection, in the city of Washington, D. C., of a suitable memorial to John Ericsson, the inventor and constructor of the Monitor, the sum to be expended for the purposes herein named by a commission consisting of the chairman of the committee on the library of the senate, the chairman of the committee on the library of the house of representatives, and the secretary of the navy. The design and location of the memorial and the plan for the treatment of the grounds connected with its site must be approved by the commission of fine arts. (Approved Aug. 31, 1916.)

*Per cent increase 1909 to 1914.
New York, the most populous state, ranked first in the steam laundry industry. There were

614 steam laundries giving employment to 15,489 persons, or 10.4 per cent of the total for the United States. The receipts for work done amounted to \$14,304,964, or 10 per cent of the total for the United States. Pennsylvania, which ranked second in population, was fourth in the steam laundry industry. Illinois, the third in population, was second in number of persons engaged in the industry and third in establishments and amount received for work done, while California, which was twelfth in population, was second in establishments and amount received for work done, and third in number of persons engaged in the industry.

SLATE INDUSTRY IN THE UNITED STATES.

The total value of slate of all kinds sold in the United States in 1915 was \$4,958,515, according to the United States geological survey. This was a decrease of 13 per cent compared with 1914. The sales of roofing slate in 1915 were 967,780 squares, valued at \$3,745,934, and of mill stock 4,576,112 square feet, valued at \$819,672. Blackboard material and school slates decreased nearly 31 per cent. The value of slate exports,

which was \$226,413 in 1913 and \$139,125 in 1914, was only \$46,137 in 1915, the lowest recorded since 1895. England, which has heretofore been the largest user of American slates, did not import any in 1915; neither did Belgium, Denmark, Germany or the Netherlands.

The chief slate producing states are Maryland, New York, Maine, Vermont, Pennsylvania, New Jersey and Virginia.

MOVEMENT FOR BETTER NATIONAL DEFENSE.

AMERICAN PREPAREDNESS CAMPAIGN.

Many reasons impelled the American people in 1915 to begin and in 1916 to carry to a climax a campaign for strengthening the military, naval and industrial defenses of the nation. Some of these reasons were set forth by President Wilson in his message to congress Dec. 7, 1915. Here are a few of his utterances in that message:

"We insist upon security in prosecuting our self-chosen lines of development."

"From the first we have made common cause with all partisans of liberty on this side of the sea and have deemed it as important that our neighbors should be free from all outside domination as that we ourselves should be; have set America aside as a whole for the uses of independent nations and political freemen."

"War has never been a mere matter of men and guns. It is a thing of disciplined right. If our citizens are ever to fight effectively upon a sudden summons, they must know how modern fighting is done and what to do when the summons comes to render themselves immediately available and immediately effective. * * * They must be fitted to play the great role in the world, and particularly in this hemisphere, which they are qualified by principle and by chastened ambition to play."

For these and other reasons the president urged congress to increase the army and navy, to build up the merchant marine, to provide additional revenue, to pass laws punishing disloyalty, to create the right instrumentalities by which to mobilize the country's economic resources in time of national necessity and to make an inquiry into the transportation problem in times of emergency.

Though the defenselessness of the United States from a military point of view had frequently been called to the attention of congress and the public in the annual messages of various secretaries of war and in other ways, it was not until after the sinking of the *Lusitania* and the resulting diplomatic controversies over that and other acts involving disregard of international right in general and American rights in particular that the conviction was brought sharply home to the average citizen that something must be done to put the nation into a position where it would be reasonably secure from attack and where, when it appealed to nations at war to observe the rights of humanity, its words would carry weight. It was felt that so long as the United States had merely a nominal army, and a navy that could not cope with that of any first class naval power, it would be treated with more or less contempt, that its citizens and property rights in foreign countries would never be safe and that it would be distanced in the race for international trade.

Mexico, by its treatment of American citizens and property, not only within the confines of the republic but on the north side of the international boundary, and by its disregard of the representations made to it by the president and the state department, furnished a good example close at hand of the results naturally to be expected where a nation, even though the richest in the world in natural resources, could not immediately enforce its rights or command respect because of lack of adequate military power.

Keenly alive to the vulnerability of the United States to attack and to its helplessness in case an invasion of its territory should be attempted by a foreign power, many of the thoughtful and earnest men of the nation began a campaign for preparedness, not for but against war. In other words, the purpose of the movement was to preserve the peace by being fully prepared to resist aggression. With this end in view organizations were formed to agitate for and promote all means for national security. Under the auspices of these societies mass meetings were held and speeches made in favor of increasing the armed strength of the nation; numerous articles citing the arguments for preparedness were printed in the newspapers and magazines, and strong resolutions on the same subject were

passed by many public bodies. There was opposition by noted peace advocates like William Jennings Bryan and David Starr Jordan and also by various "peace at any price" societies, but so far as could be judged the great majority of the people favored strengthening the national defenses.

This was the general situation when congress began work in December, 1915, and when President Wilson delivered his notable preparedness message to the lawmakers. It developed soon after the opening of the new year that, while the statesmen were agreed that the army and navy must be increased, their views as to methods of procedure did not coincide.

RESIGNATION OF SECRETARY GARRISON.

Lindley M. Garrison, secretary of war, resigned his position Feb. 10, 1916, owing to irreconcilable differences of opinion with President Wilson as to the military policy to be adopted by the country and to the Philippine independence bill before congress. The following correspondence will explain in detail the differences of view held by the chief executive and the secretary of war:

"Jan. 12, 1916.—My Dear Mr. President: In my judgment we are facing a critical juncture with respect to the military part of the national defense program.

"I am convinced that unless the situation is dealt with promptly and effectively we can indulge in no reasonable expectation of any acceptable result.

"So far as the military part of national defense is concerned, there can be no honest or worthy solution which does not result in national forces under the exclusive control and authority of the national government. Any other solution is illusory and not real, is apparent and not substantial.

"There is a perfectly legitimate field of discussion and debate as to the means of obtaining these national forces. The proportion thereof that should be regular standing army, that should be organized reserves of the regular standing army, or should be drawn from the body of citizens for shorter periods of national service than those in the regular standing army, are all legitimate and proper matters for consideration, analysis and discussion.

"But there is absolutely no dissent, from the military standpoint, from the conclusion that the only measure of national defense that possesses any virtue is one which produces national forces. From the beginning of the government to this time, excepting during periods of actual war, the acknowledged weakness and defect of the situation arose out of the lack of any system producing these federal forces. The situation was rendered worse by the presence of state troops, raised, officered, trained and governed by the states, that were assumed to be a military reliance for the nation, when in fact they are not and are made to be. Under the constitution of the United States these state troops must always be governed, officered and trained by the respective states.

"The very first line of cleavage, therefore, which must be encountered and dealt with by the student of the situation is between reliance upon a system of state troops, forever subject to constitutional limitations which render them absolutely insecure as a reliance for the nation, or reliance upon national forces raised, officered, trained and controlled by the national authorities. Upon this subject there does not exist, and there cannot legitimately exist, any difference of opinion among those who are unbiased and who believe in real national security and defense.

"The policy recommended to you and adopted by you squarely placed the nation upon the sure foundation of national forces. If that policy is made effective by legislation there will be secured to this country for the first time a real, stable foundation for the military part of its

national defense. If, however, instead thereof a policy is adopted based upon the state troops as the main reliance of this country for its military arm not only has no advance been made from the deplorable and inexcusable situation in which we have so long been, but an effective block has been placed across the pathway toward a proper settlement. The adoption of such a policy would serve to divide the people into two camps, the subject had been settled and therefore required no further consideration upon their part. It would, therefore, in my judgment, be infinitely worse than an entire failure of all legislative enactment upon the subject. The latter would at least leave it open for future settlement.

"I, of course, am not advised as to the statements of intention made by Mr. Hay to you in the conversations held with you prior to your message to congress at the opening of the present session. I have always felt, and have so expressed myself to you, that the situation in the congress was such that unless you personally exerted the power of your leadership you would not obtain any worthy results in this matter."

"Mr. Hay has now made open declaration of his intention. He announces that he does not intend to press for the enactment of the military policy advocated in your message. With respect to the regular army, he does not purpose giving us the organizations asked for and imperatively necessary if the federal volunteers (so-called continental army) are to be properly trained; he purposes adding a few thousand men to the enlisted strength of the army in its present organization, the adding of a few regiments of field artillery to the existing organizations of the regular army, the entire abandonment of the idea of a federal force of national volunteers and the passing of a bill granting direct federal pay to the enlisted men and officers of the state troops."

"In my judgment the effect of the enactment of Mr. Hay's program would be to set back the whole cause of legitimate, honest national defense in an entirely unjustifiable and inexcusable way. It would be, in my judgment, a betrayal of the trust of the people in this regard. It would be illusory and apparent without any reality or substance."

"There is, unfortunately, very little knowledge and very little intense personal interest in any members of the house concerning military affairs. Apart from the power that always resides in every chairman of committee, Mr. Hay has the additional power of dealing with a subject concerning which the rest of the house has no knowledge and about which it has never concerned itself. In this particular instance his proposal of settling this matter by voting money to the enlisted men and officers of the state troops appeals to the direct personal and political interest of the members. In these circumstances it seems to me to be perfectly clear that unless you interpose your position as leader of the country on this great subject the result will be the lamentable one which I have just described."

"It seems to me equally imperative that this interposition should be immediate. If this proposed program of Mr. Hay is accepted by the committee and by public opinion, and by the house, as a real solution of this vital matter, any position subsequently taken will be negligible so far as substantial results are concerned."

"The issue must be plainly and clearly drawn. It has nothing whatever to do with the numbers of men to be raised or with the means of raising them, as Mr. Hay would have it appear that it has. It is between two absolutely different systems, one of which is based upon the nation's undertaking upon its own responsibility the raising and management of the national troops, and the other of which leaves us in the position that we have always been in since the institution of the government—to rely upon the states doing this thing for the nation—a situation in which the nation is relying upon a military force that

it does not raise, that it does not officer, that it does not train and that it does not control. A mere statement of the situation shows that the two different proposals are as wide apart as any two proposals upon any subject possibly can be."

"Mr. Hay's proposal to include a draft or compulsory provision, so that at the outbreak of war the nation could bring under its control these state troops, utterly fails to meet the essential objections to the perpetuation of the militia system. The difficulty to be dealt with does not arise out of the government not being able to take over these troops in the event of war, but arises out of its inability, under the constitution, to have the essential unity of responsibility, authority and control in the raising, officering, training and governing of its military forces."

"If the public obtains the impression that Mr. Hay's solution is merely another means of accomplishing the same end as your proposed policy, they will accept the same and rest content that their desires have been properly met. If, on the other hand, they are clearly and unmistakably advised that to adopt the policy suggested by Mr. Hay is to make a mockery of all that was worthy and virtuous in the proposal of a proper military policy and that it is a delusion to consider such a solution as a real reliance or security, then there is hope that we can obtain results commensurate with the necessities of the case and with a self-respecting consideration and treatment thereof."

"I cannot, therefore, too strongly urge upon you my view of the imperative necessity of your seeking an occasion at the earliest possible moment to declare yourself with respect to the matter, and, in doing so, to make it clear beyond peradventure that nothing except national forces, raised by the nation and subject to its exclusive authority, responsibility and control, is any real settlement of this issue. Sincerely yours,
LINDLEY M. GARRISON."

The correspondence shows that a conversation between the president and the secretary followed this letter, for on Jan. 14 Mr. Garrison wrote:

"Jan. 14, 1916.—My Dear Mr. President: What you said by way of response to my letter of the 12th requires me to make my position perfectly clear to you."

"You stated that Mr. Hay told you that your proposal of federal volunteers could not be procured and that the same end for which you were striving could be procured by other means—by utilizing the state troops as the basis of the policy and making appropriations of pay to the states conditioned on federal control of the state troops."

"You stated to him that you were not interested in any particular program or means of accomplishing the purpose of securing them, and would accept his proposal if it accomplished that purpose."

"Since the policy that was recommended to you and adopted by you discarded as absolutely impossible a military system based upon state troops and asserted that the only possible basis for a military policy was national forces, it is entirely clear that the proposals are diametrically opposed to each other and are irreconcilable."

"Those who are conscientiously convinced that nothing but national forces can properly be the basis of a policy of national defense cannot possibly accept a policy based upon state forces. It not only does not in my belief offer an acceptable solution, but acts to prevent any proper solution."

"If those who are thus convinced are faced with the necessity of declaring their position on the matter, they can only show their sincerity and good faith by declining to admit the possibility of compromise with respect to this essential, fundamental principle."

"I am thus convinced."

"I feel that we are challenged by the existing situation to declare ourselves promptly, openly

and unequivocally or be charged properly with lack of sincerity and good faith.

"We cannot hope to see our program, based on this essential principle, succeed if we admit the possibility of compromise with respect to it.

"Yours is the ultimate responsibility; yours is the final determination as to the manner in which the situation shall be faced and treated. I fully realize this and I do not desire to cause you the slightest embarrassment on my account: if, therefore, my withdrawal from the situation would relieve you, you should not hesitate for a moment on that account. Sincerely yours,

"LINDLEY M. GARRISON."

To that the president replied:

"Jan. 17, 1916.—My Dear Mr. Secretary: I am very much obliged to you for your letters of Jan. 12 and Jan. 14. They make your views with regard to adequate measures of preparation for national defense sharply clear. I am sure that I already understood just what your views were, but I am glad to have them restated in this succinct and striking way. You believe, as I do, that the chief thing necessary is that we should have a good citizen reserve and that the training, organization and control of that reserve should be under immediate federal direction.

"But, apparently, I have not succeeded in making my own position equally clear to you, though I feel sure that I have made it perfectly clear to Mr. Hay. It is that I am not irrevocably or dogmatically committed to any one plan of providing the nation with such a reserve and am cordially willing to discuss alternative proposals.

"Any other position on my part would indicate an attitude toward the committee on military affairs of the house of representatives which I should in no circumstances feel at liberty to assume. It would never be proper or possible for me to say to any committee of the house of representatives that so far as my participation in legislation was concerned they would have to take my plan or none.

"I do not share your opinion that the members of the house who are charged with the duty of dealing with military affairs are ignorant of them or of the military necessities of the nation. On the contrary, I have found them well informed and actuated by a most intelligent appreciation of the grave responsibilities imposed upon them. I am sure that Mr. Hay and his colleagues are ready to act with a full sense of all that is involved in this great matter both for the country and for the national parties which they represent.

"My own duty toward them is perfectly plain. I must welcome a frank interchange of views and a patient and thorough comparison of all the methods proposed for obtaining the objects we all have in view. So far as my own participation in final legislative action is concerned, no one will expect me to acquiesce in any proposition that I regard as inadequate or illusory. If, as the outcome of a free interchange of views, my own judgment and that of the committee should prove to be irreconcilably different and a bill should be presented to me I could not accept as accomplishing the essential things sought, it would manifestly be my duty to veto it and go to the country on the merits.

"But there is no reason to anticipate or fear such a result, unless we should ourselves take at the outset the position that only the plans of the department are to be considered; and that position it seems to me would be wholly unjustifiable. The committee and the congress will expect me to be as frank with them as I hope they will be with me, and will of course hold me justified in fighting for my own matured opinion.

"I have had a delightfully frank conference with Mr. Hay. I have said to him that I was perfectly willing to consider any plan that would give us a national reserve under unmistakable national control, and would support any such scheme if convinced of its adequacy and wise policy.

More he has not asked or desired. Cordially and sincerely yours,

WOODROW WILSON."

Secretary Garrison's next letter follows:

Feb. 9, 1916.—My Dear Mr. President: Two matters within the jurisdiction of this department are now of immediate and pressing importance and I am constrained to declare my position definitely and unmistakably thereon. I refer, of course, to the Philippine question and the matter of national defense. You know my convictions with respect to each of them.

"I consider the principle embodied in the Clarke amendment an abandonment of the duty of this nation and a breach of trust toward the Filipinos; so believing, I cannot accept it or acquiesce in its acceptance.

"I consider the reliance upon the militia for national defense an unjustifiable imperiling of the nation's safety. It would not only be a sham in itself but its enactment into law would prevent if not destroy the opportunity to procure measures of real, genuine national defense. I could not accept it or acquiesce in its acceptance.

"I am obliged to make my position known immediately upon each of these questions in a speech on Thursday afternoon on the national defense question and in a communication to the house committee having charge of the Philippine question.

"If, with respect to either matter, we are not in agreement upon these fundamental principles, then I could not, with propriety, remain your seeming representative in respect thereto. Our convictions would be manifestly not only divergent but utterly irreconcilable.

"You will appreciate the necessity of timely knowledge upon my part of the determination reached by you with respect to each of these matters, so that I may act advisedly in the premises. Sincerely yours,

"LINDLEY M. GARRISON."

President Wilson replied:

"Feb. 10, 1916.—My Dear Mr. Secretary: In reply to your letter of to-day let me say:

"First, that it is my own judgment that the action embodied in the Clarke amendment to the bill extending further self-government to the Philippines is unwise at this time, but it would clearly be most inadvisable for me to take the position that I must dissent from that action should both houses of congress concur in a bill embodying that amendment. That is a matter upon which I must, of course, withhold judgment until the joint action of the two houses reaches some definite form. What the final action of both houses will be no one at this time can forecast. I am now, of course, engaged in conference with Mr. Jones and others with regard to the possible action of the house of representatives in this matter and do not know what it is likely to be.

"The one obvious thing, it seems to me, is the necessity for calm and deliberate action on our part at this time, when matters of such gravity are to be determined and not only calm and deliberate action, but action which takes into very serious consideration views differing from our own.

"Second, as I have had occasion to say to you, I am not yet convinced that the measure of preparation for national defense which we deem necessary can be obtained through the instrumentality of the national guard under federal control and training, but I feel in duty bound to keep my mind open to conviction on that side and think that it would be most unwise and most unfair to the committee of the house which has such a plan in mind to say that it cannot be done. The bill in which it will be embodied has not yet been drawn, as I learned to-day from Mr. Hay. I should deem it a very serious mistake to shut the door against this attempt on the part of the committee in perfect good faith to meet the essentials of

the program set forth in my message, but in a way of their own choosing.

"As you know, I do not at all agree with you in favoring compulsory enlistment for training and I fear the advocacy of compulsion before the committee of the house on the part of representatives of the department of war has greatly prejudiced the house against the proposal for a continental army, little necessary connection as there is between the plan and the opinion of the chief of staff in favor of compulsory enlistment.

"I owe you this frank repetition of my views and policy in this matter which we have discussed on previous occasions, in the letters which we have exchanged and in conversation. I am very much obliged to you for your own frank avowal of your convictions. I trust that you will feel no hesitation about expressing your personal views on both these subjects on the two occasions to which you refer, but I hope that you will be kind enough to draw very carefully the distinction between your own individual views and the views of the administration.

"You will, of course, understand that I am devoting my energy and attention unsparingly in conference with members of the various committees of congress to an effort to procure an agreement upon a workable and practicable program. This is a time when it seems to me patience on the part of all of us is of the essence in bringing about a consummation of the purpose we all have in mind. Very sincerely yours,
"WOODROW WILSON."

Mr. Garrison thereupon decided that resignation from the cabinet was his only course and wrote:

"Feb. 10, 1916.—My Dear Mr. President: I am just in receipt of yours of Feb. 10 in reply to mine of Feb. 9. It is evident that we hopelessly disagree on what I believe to be fundamental principles. This makes manifest the impropriety of my longer remaining your seeming representative with respect to these matters.

"I hereby tender my resignation as secretary of war, to take effect at your convenience. Sincerely yours,
LINDLEY M. GARRISON."

The president replied:

"Feb. 10, 1916.—My Dear Mr. Secretary: I must confess to feeling a very great surprise at your letter of to-day offering your resignation as secretary of war. There has been no definite action taken yet in either of the matters to which your letter of yesterday referred. The whole matter is under debate and all the influences that work for clarity and judgment ought to be available at this very time.

"But since you have felt obliged to take this action and since it is evident that your feeling in the matter is very great indeed, I feel that I would be only imposing a burden upon you should I urge you to retain the secretaryship of war while I am endeavoring to find a successor. I ought to relieve you at once and do hereby accept your resignation because it is so evidently your desire that I should do so.

"I cannot take this important step, however, without expressing to you my very warm appreciation of the distinguished service you have rendered as secretary of war and I am sure that in expressing this appreciation I am only putting into words the judgment of our fellow citizens far and wide.

"With sincere regret at the action you have felt constrained to take, sincerely yours,
"WOODROW WILSON."

Henry S. Breckinridge, assistant secretary of the war department, resigned on the same date as his chief and his resignation was accepted.

N. D. BAKER SUCCEEDS GARRISON.

Newton D. Baker of Ohio was appointed successor to Lindley M. Garrison as secretary of

war by President Wilson March 7, 1916, and the appointment was confirmed by the senate the same day. Mr. Baker was born in Martinsburg, W. Va., Dec. 3, 1871. He was educated at Johns Hopkins and the Washington and Lee universities. After serving as private secretary to Postmaster-General Wilson in Cleveland's cabinet in 1896-97, he began the practice of law in his native town. Moving to Cleveland, O., in 1902, he became city solicitor, serving in that capacity from 1902 to 1912. He was twice elected mayor of Cleveland on the democratic ticket for the terms 1912-1914 and 1914-1916.

WILSON'S PREPAREDNESS TOUR.

Throughout the winter and spring of 1916 the campaign for preparedness was continued with vigor. Congress seemed apathetic and in part hostile to any material increase in the armed forces of the country and for that reason it was deemed necessary to arouse the people to a full realization of the situation in order that public opinion might make itself effective. President Wilson himself did much to call attention to the pressing need of better national defenses by making an extensive tour and speaking on the subject. He addressed large assemblages in the following cities: New York city, Jan. 27; Pittsburgh, Pa., and Cleveland, O., Jan. 29; Milwaukee and Racine, Wis., and Chicago, Ill., Jan. 31; Des Moines, Iowa City and Davenport, Iowa, Feb. 1; Topeka, Kas., and Kansas City, Mo., Feb. 2, and St. Louis, Mo., Feb. 3. His speeches were well received by the people generally. In substance he advocated a reserve of 500,000 citizen soldiers, trained and equipped with arms and prepared to assist the regular army in time of war, but not a part of that body in time of peace. He also made a number of addresses before various organizations along the same line.

Col. Theodore Roosevelt was, as a matter of course, a strong and outspoken champion of preparedness. In addresses before such organizations as the American Defense society, the National Americanization committee and the National Security league and in editorial articles he advocated compulsory military training on the Swiss system. William Howard Taft in a speech at Poughkeepsie, N. Y., Jan. 2, and on other occasions advocated reasonable preparedness. Some of the other public men who spoke or wrote in favor of preparedness included Charles J. Bonaparte, Charles W. Eliot, Elihu Root, Maj.-Gen. Leonard Wood, Seth Low, G. W. Wickersham, E. H. Gary, H. L. Stimson, Charles S. Whitman, P. Belmont, Newton D. Baker and J. H. Choate. Those who were most prominent in opposing preparedness were William J. Bryan, David Starr Jordan, Henry Ford, A. Pinchot, Dr. F. M. Royce and William H. P. Faunce.

PREPAREDNESS PARADES.

One of the most successful methods of arousing interest in the effort to increase the defensive strength of the United States was to organize preparedness parades. New York city started off with a magnificent demonstration May 13, when more than 125,000 men and women marched through the streets of that city. The example was generally followed throughout the country by cities, large and small. Chicago had 130,214 in line June 3 and claimed to hold the lead in the number of marchers. Here is a list, by no means complete, of the principal preparedness parades held from May 13 to July 22:

New York, N. Y., May 13.....	125,683
Boston, Mass., May 27.....	40,000
Chicago, Ill., June 3.....	130,214
Providence, R. I., June 3.....	55,415
St. Louis, Mo., June 3.....	50,000
New Orleans, La., June 3.....	40,000
Memphis, Tenn., June 3.....	35,000
Portland, Ore., June 3.....	30,000
Salt Lake City, Utah, June 3.....	10,000
Hartford, Conn., June 3.....	17,000
Washington, D. C., June 14.....	60,000
Los Angeles, Cal., June 14.....	54,000
El Paso, Tex., June 14.....	10,000

Atlanta, Ga., July 4..... 25,000
 Milwaukee, Wis., July 4..... 30,187
 San Francisco, Cal., July 22..... 51,319

The San Francisco parade was marred by the explosion of a bomb placed, presumably by anarchists, at Steuart and Market streets, causing the death of six persons and the injury of half a hundred more.

These parades were not of a military character, although the national guard and other soldiers and sailors took part. The vast body of marchers was composed of men and women representing every walk in life and nearly every profession, trade, industry and calling.

MILITARY TRAINING CAMPS.

As was the case in 1915, much attention was paid to military training camps where citizen volunteers of suitable age and physical condition were given instruction by regular army officers in the rudiments of military drill and science. The chief of these camps was at Plattsburg, N. Y. Even women were instructed in special camps in such military duties as they might be able to perform. In the army appropriation bill the sum of \$2,000,000 was set aside for maintaining on military reservations or elsewhere such camps for military instruction and training as might be selected and to furnish the necessary subsistence, transportation and uniforms.

CONVENTION DECLARATIONS.

As will be seen from the national party platforms given in full elsewhere in this volume military and naval preparedness was advocated as a leading feature of their policy by the republicans, progressives and democrats.

PROCEEDINGS IN CONGRESS.

Spurred on by President Wilson's public speeches and personal influence, by the preparedness parades, by newspaper editorials, by addresses by public men, by the activities of the patriotic organizations of the country, by the action of the national party conventions and perhaps most of all by the critical relations of the United States with one or two of the European belligerents and with Mexico, both houses took up the task of making the country's defenses commensurate in some degree with its population and wealth. Opinions differed widely as to methods and there was in some quarters opposition to any increase whatever in the military and naval establishments. Some men, like James Hay of Virginia, chairman of the house committee on military affairs, did all in their power to discourage any marked increase in the strength of the army. Both the bills for army and navy increases met with obstruction and criticism, but these and other measures having in view the bettering of the national defenses were finally forced through both branches of congress. Voting was not on strictly partisan lines and when the final test came the members as a rule cast their ballots in accordance with their personal views.

FIGHT FOR STRONGER ARMY.

March 23 the Hay army bill, though condemned as inadequate by the preparedness advocates, was passed by the house by a vote of 402 to 2. This did not indicate that all those who voted for it were satisfied with its provisions. An amendment offered by Representative Julius Kahn of California providing for an army of 220,000 men was defeated by the close vote of 191 yeas to 213 nays, showing that there was really a strong sentiment for a larger army than that provided for in the Hay bill. Thirty-two democrats voted for the Kahn amendment, while thirty-four republicans voted against it. The two votes against the Hay bill were cast by Representatives Fred A. Britten (Rep.) of Chicago and Meyer London (Soc.) of New York city.

In the senate there was less opposition to an adequate army, though there was a divergence of views as to whether dependence should be

placed on the national guard for a considerable part of the proposed increase in the armed strength or upon volunteer forces. The measure which was advocated by Senator George E. Chamberlain of Oregon, and which was popularly known as the Chamberlain bill, provided both for a federal volunteer army and for federalized national guard forces. This was passed by the senate without a record vote April 18 on the eve of a joint session of both houses of congress to hear a message from the president on the crisis that had arisen between the United States and Germany in relation to the submarine question.

In the meantime, owing to developments in the foreign relations of the United States and the increased pressure of public opinion, sentiment in the house of representatives had crystallized in favor of a large army and when the senate and house bills were sent into conference it was almost a foregone conclusion that the conferees would reject the Hay bill and adopt what in substance was the Chamberlain bill. This came to pass and May 13 it was announced that the conferees had agreed upon an army with a peace strength of approximately 254,000 men. The conference report was agreed to by the senate May 17 and by the house May 20. Those voting against the report in the house were:

Britten.	Morgan, Okla.
Buchanan, Ill.	Nelson.
Gardner.	Platt.
Gillett.	Randall.
Guernsey.	Rogers.
Hadley.	Sanford.
Humphrey, Wash.	Schall.
Husted.	Tavenner.
Johnson, Ky.	Thomas.
Johnson, Wash.	Tinkham.
London.	Walsh.
Mann.	Wheeler.
Moores, Ind.	

FOR A BIGGER NAVY.

While the legislative struggle for a larger army was protracted, the increase of the navy was still more so, and it was not until the close of August that the naval bill was signed by the president. As originally passed by the house on June 2, by a vote of 360 yeas to 4 nays, the measure made no provision for battle ships. It merely provided for five battle cruisers, four scout cruisers, ten destroyers, three seagoing submarines, forty-seven submarines, one fuel ship and one ammunition ship. A motion to adopt the general board's plan for two battle ships and six battle cruisers was defeated by the close vote of 183 yeas to 189 nays. Those voting against a larger navy were chiefly democrats, while most of those favoring the increase were republicans. However, twenty-five democrats voted for a large navy and eighteen republicans against it.

In the senate the question seemed to be chiefly as to whether the navy of the United States should be so increased as to be equal to any other in the world or whether it should be made second in rank. There was a strong sentiment for battle ships of the largest size, this having been brought about by a study of the results of the great naval fight in the North sea. When the bill was finally passed, July 21, it provided for ten battle ships, six battle cruisers, ten scout destroyers, fifty destroyers, nine fleet submarines, fifty-nine other submarines and other ships. The total number of vessels to be constructed in three years was 157 in place of only seventy-two in the house bill. The vote on the bill was seventy-one yeas to eight nays. The senators voting in the negative were Clapp of Minnesota, Curtis of Kansas, Gronna of North Dakota, LaFollette of Wisconsin, Norris of Nebraska and Works of California, republicans, and Thomas of Colorado and Vardaman of Mississippi, democrats.

The bill as it passed the senate was agreed to by the house Aug. 15 by a vote of 283 to 51, the representatives thus completely reversing

their former position. Those voting against concurrence in the measure were:

Anderson.	Kinkaid.
Ayres.	Kitchin.
Bailey.	Lenroot.
Black.	London.
Blackmon.	McClintic.
Buchanan, Ill.	Mondell.
Burnett.	Morgan, Okla.
Campbell.	Nelson.
Connelly.	Page, N. C.
Cox.	Randall.
Cramton.	Shallenberger.
Davis, Minn.	Shouse.
Dies.	Sisson.
Dillon.	Slayden.
Doolittle.	Steele, Iowa.
Ellsworth.	Taggart.
Garrett.	Tavener.
Gray, Ind.	Taylor, Ark.
Hardy.	Thomas.
Haugen.	Thompson.
Helgesen.	Tillman.
Helvering.	Van Dyke.
Hilliard.	Watkins.
Hollingsworth.	Webb.
Huddleston.	Young, N. Dak.
Johnson, Ky.	

Of those voting in the negative thirty-five were democrats, fifteen republicans and one socialist.

In addition to the army and navy bills, congress passed a number of other measures designed to supplement them in strengthening the national defenses. Among them were acts increasing the number of cadets at the United States military academy and the number of midshipmen at the United States naval academy. The main features of the defense program, however, will be found in the acts providing for increasing the military establishments and in some of the appropriation bills.

APPROPRIATIONS FOR DEFENSE.

In a statement made to the house just before the close of the session Representative John J. Fitzgerald of New York, chairman of the committee on appropriations, said that the appropriations for military and naval purposes and for additional seacoast defenses alone amounted to \$885,709,823.00. In addition to this sum expendable before July 1, 1917, contract obligations to be met by appropriation at the next or subsequent sessions of congress had been authorized amounting to \$225,266,325.20, making a grand total of actual appropriations and contract obligations on account of preparedness of \$910,976,148.29. Still further, congress had specifically authorized a definite naval building program involving the construction and armor and armament within the next three years of additional war vessels that would cost \$295,000,000 more when completed and in commission. This sum, added to the amount actually appropriated and the contracts authorized, made a grand total of \$1,205,976,148.29 for preparedness.

The actual appropriations for national defense made by the 64th congress at its first session are shown in the following table:

Army appropriation act.....	\$267,596,530.10
Naval appropriation act.....	313,300,555.84
Fortification appropriation act.....	25,747,550.00
Military academy act.....	1,225,043.57
Sundry civil—Armories and arsenals	4,689,495.00
Military posts	1,616,000.00
Military surveys	35,000.00
Panama canal fortifications.....	4,535,000.00
Deficiency appropriations.....	46,770,648.58
National guard camps.....	200,000.00
Nitrate plant	20,000,000.00
Total	685,709,823.09

ARMY APPROPRIATIONS.

Included in the army appropriation bill, approved Aug. 29, 1916, were the following items:

Pay of officers of the line, \$10,000,000; additional pay for length of service, \$2,225,000.
Pay of officers, national guard, \$9,000,000.
Pay of enlisted men, all grades, \$23,000,000.

Pay of enlisted men, all grades, national guard, \$18,000,000.
Horses for cavalry, artillery, etc., \$2,500,000.
Ordnance stores and ammunition, \$10,000,000.
Small arms target practice, \$3,000,000.
Manufacturing arms, \$5,000,000.
Automatic machine rifles, \$12,000,000.
Armored motor cars, \$5,000,000.
Field artillery, national guard, \$10,000,000.
Ammunition for field artillery, national guard, \$10,000,000.

Arms, uniforms, equipment, etc., national guard, \$2,000,000.
Citizens' training camps, \$2,000,000.
Aviation service, \$13,281,666.
Nitrate supply (in army reorganization act), \$20,000,000.

NAVAL APPROPRIATIONS.

Included in the naval appropriation bill, approved Aug. 29, 1916, were the following items:

Increase of the navy, \$139,345,287.
Aviation, \$3,500,000.
Advisory committee for aeronautics, \$85,000.
Arming and equipping naval militia, \$1,270,737.73.
Naval auxiliaries, \$1,069,460.
Ordnance and ordnance stores, \$6,402,485.
Projectile plant, \$705,611.
Armor plant, \$11,000,000.

APPROPRIATIONS FOR FORTIFICATIONS.

Included in the act making appropriations for fortifications and other works of defense, for the armament thereof and for the procurement of heavy ordnance for trial and service, were the following items:

Construction of guns and mortar batteries, \$2,300,000.
Fire control stations and accessories, \$600,000.
Searchlights, \$226,700.
Sites for fortifications, \$1,400,000.
Purchase, manufacture and test of mountain, field and siege cannon, \$2,821,500.
Purchase, manufacture and test of ammunition for foregoing, \$6,000,000.
Purchase, manufacture and test of seacoast cannon, \$1,284,000.
Purchase, manufacture and test of ammunition for seacoast cannon, \$3,000,000.
Purchase, manufacture and test of ammunition, subcaliber guns, for seacoast, mountain, field and siege artillery practice, \$970,000.
Submarine mines and torpedo experiments, \$123,000.

HAMMOND TORPEDO.

For the procurement of the exclusive rights of John Hays Hammond, Jr., and the Radio Engineering company, New York, to their discoveries and inventions in the art of control by radio-dynamic energy of the movement of waterborne carriers of high explosives, in accordance with a proposal heretofore made by John Hays Hammond, Jr., and said company, \$750,000. The sum is not to be paid except upon the approval by the president of the report of a board of three army and three navy officers to be appointed by him, which report shall be favorable to the acquisition of such rights, such report to be made after a demonstration of the application of said system to the control of torpedoes. In the event that the government acquires the rights mentioned the commissioner of patents is directed to issue the patents to the United States and to keep the applications for patents in the secret archives of the patent office, not open to disclosure even in cases of interference.

For the procurement and installation of one radiodynamic torpedo unit, \$417,000, provided the rights of J. H. Hammond, Jr., and the Radio Engineering company of New York have been acquired by the United States.

INCREASE OF THE ARMY.

Following is the full-text of the "act making further and more effectual provision for the national defense":

Be it enacted by the senate and house of representatives of the United States of America in congress assembled, That the army of the

United States shall consist of the regular army, the volunteer army, the officers' reserve corps, the enlisted reserve corps, the national guard while in the service of the United States, and such other land forces as are now or may hereafter be authorized by law.

Sec. 2. Composition of the Regular Army.—The regular army of the United States, including the existing organizations, shall consist of sixty-four regiments of infantry, twenty-five regiments of cavalry, twenty-one regiments of field artillery, a coast artillery corps, the brigade, division, army corps and army headquarters, with their detachments and troops, a general staff corps, an adjutant-general's department, an inspector-general's department, a judge advocate general's department, a quartermaster corps, a medical department, a corps of engineers, an ordnance department, a signal corps, the officers of the bureau of insular affairs, the militia bureau, the detached officers, the detached noncommissioned officers, the chaplains, the regular army reserve, all organized as hereinafter provided, and the following as now authorized by law: The officers and enlisted men on the retired list; the additional officers; the professors; the corps of cadets; the general army service detachment, and detachments of cavalry, field artillery and engineers and the band of the United States military academy; the post noncommissioned staff officers; the recruiting parties, the recruit depot detachments and unassigned recruits; the service school detachments; the disciplinary guards; the disciplinary organizations; the Indian scouts; and such other officers and enlisted men as are now or may be hereafter provided for: Provided, That hereafter the enlisted personnel of all organizations of the regular army shall at all times be maintained at a strength not below the minimum strength fixed by law; Provided further, That the total enlisted force of the line of the regular army, excluding the Philippine scouts and the enlisted men of the quartermaster corps, of the medical department, and of the signal corps, and the unassigned recruits, shall not at any one time, except in the event of actual or threatened war or similar emergency in which the public safety demands it, exceed 175,000 men: Provided further, That the unassigned recruits at depots or elsewhere shall at no time, except in time of war, exceed by more than seven per centum the total authorized enlisted strength.

Sec. 3. Composition of Brigades, Divisions and So Forth.—The mobile troops of the regular army of the United States shall be organized, as far as practicable, into brigades and divisions. The president is authorized, in time of actual or threatened hostilities or when in his opinion the interests of the public service demand it, to organize the brigades and divisions into such army corps or armies as may be necessary. The typical infantry brigade shall consist of a headquarters and three regiments of infantry. The typical cavalry brigade shall consist of a headquarters and three regiments of cavalry. The typical field artillery brigade shall consist of a headquarters and three regiments of field artillery. The typical infantry division shall consist of a headquarters, three infantry brigades, one regiment of cavalry, one field artillery brigade, one regiment of engineers, one field signal battalion, one aero squadron, one ammunition train, one supply train, one engineer train and one sanitary train. The typical cavalry division shall consist of a headquarters, three cavalry brigades, one regiment of field artillery (horse), one battalion of mounted engineers, one field signal battalion (mounted), one aero squadron, one ammunition train, one supply train, one engineer train and one sanitary train. The typical army corps shall consist of a headquarters, two or more infantry divisions, one or more cavalry brigades or a cavalry division, one field artillery brigade, one telegraph battalion and one field signal battalion, and such ammunition, supply, engineer and sanitary trains as the president may deem necessary. A brigade,

a division, an army corps and an army headquarters shall consist of such officers, enlisted men and civilians as the president may prescribe. Each supply train, ammunition train, sanitary train and engineer train shall consist of such officers and enlisted men and shall be organized as the president may prescribe, the line officers necessary therewith to be detailed under the provisions of sections 26 and 27, act of congress approved Feb. 2, 1901. Nothing herein contained, however, shall prevent the president from increasing or decreasing the number of organizations prescribed for the typical brigades, divisions and army corps, or from prescribing new and different organizations and personnel as the efficiency of the service may require.

Sec. 4. General Officers of the Line.—Officers commissioned to and holding in the army the office of a general officer shall hereafter be known as general officers of the line; officers commissioned to and holding in the army an office other than that of a general officer, but to which the rank of a general officer is attached, shall be known as general officers of the staff. The number of general officers of the line now authorized by law is hereby increased by four major-generals and nineteen brigadier-generals: Provided, That hereafter in time of peace major-generals of the line shall be appointed from officers of the grade of brigadier-general of the line and brigadier-generals of the line shall be appointed from officers of the grade of colonel of the line of the regular army.

Sec. 5. The General Staff Corps.—The general staff corps shall consist of one chief of staff, detailed in time of peace from major-generals of the line; two assistants to the chief of staff, who shall be general officers of the line, one of whom, not above the grade of brigadier-general, shall be the president of the army war college; ten colonels, ten lieutenant-colonels, fifteen majors and seventeen captains, to be detailed from corresponding grades in the army, as in this section hereinafter provided. All officers detailed in the general staff corps shall be detailed therein for periods of four years, unless sooner relieved. While serving in the general staff corps officers may be temporarily assigned to duty with any branch of the army. Upon being relieved from duty in the general staff corps, officers shall return to the branch of the army in which they hold permanent commissions, and no officer shall be eligible to a further detail in the general staff corps until he shall have served two years with the branch of the army in which commissioned, except in time of actual or threatened hostilities. Section 27 of the act of congress approved Feb. 2, 1901, shall apply to each position vacated by officers below the grade of general officer detailed in the general staff corps.

Not more than one-half of all of the officers detailed in said corps shall at any time be stationed or assigned to or employed upon any duty in or near the District of Columbia. All officers detailed in said corps shall be exclusively employed in the study of military problems, the preparation of plans for the national defense and the utilization of the military forces in time of war, in investigating and reporting upon the efficiency and state of preparedness of such forces for service in peace or war or on appropriate general staff duties in connection with troops, including the national guard, or as military attaches in foreign countries, or on other duties not of an administrative nature, on which they can be lawfully and properly employed: Provided, That no officer shall be detailed as a member of the general staff corps other than the chief of staff and the general officers herein provided for as assistants to the chief of staff, except upon the recommendation of a board of five officers not below the rank of colonel, who shall be selected by the president or the secretary of war, and neither the chief of staff nor more than two other members of the general staff corps, nor any officer not a member of

said corps, who shall have been stationed or employed on any duty in or near the District of Columbia within one year prior to the date of convening of any such board, shall be detailed as a member thereof. No recommendation made by any such board shall, for more than one year after the making of such recommendation or at any time after the convening of another such board, unless again recommended by the new board, be valid as a basis for the detail of any officer as a member of the general staff corps, and no alteration whatever shall be made in any report or recommendation of any such board, either with or without the consent of members thereof, after the board shall have submitted such report or recommendation and shall have adjourned sine die: Provided further, That the war college shall remain fully subject to the supervising, co-ordinating and informing powers conferred by law upon members of the general staff corps, and officers for duty as instructors or students in or as attaches of said college may be selected and detailed freely from among members of said corps, but any officer so selected and detailed other than one director shall thereupon cease to be a member of said corps and shall not be eligible for redetail therein so long as he shall remain on said duty, and no officer on the active list of the army shall, for more than thirty days in any calendar year, be attached to or assigned to duty in the war college in any capacity other than that of president, director, instructor or student, or, unless a member of the general staff corps, be attached to or employed in the office of the chief of staff: Provided further, That the organizations heretofore existing in or in connection with the office of the chief of staff under the designations of the mobile army division and the coast artillery division be, and they are hereby, abolished and shall not be re-established. The business heretofore transacted in said divisions, except such as come clearly within the general class specified in and conferred upon members of the general staff corps by the organic act of congress approved Feb. 14, 1903, is hereby transferred as follows, to wit, to the office of the chief of coast artillery, all business apportioned to that office by law or army regulations at the time of the creation of the coast artillery division of the office of the chief of staff; to the office of the adjutant-general or other bureau or bureaus concerned, all other business; and, subject to the exercise of the supervising, co-ordinating and informing powers conferred upon members of the general staff corps by the act of congress last hereinbefore cited, the business transferred by this proviso to certain bureaus or offices shall hereafter be transacted exclusively by or under the direction of the respective heads thereof, and the chief of coast artillery shall be an additional member of the general staff corps and shall also be adviser to and informant of the chief of staff in respect to the business under his charge: Provided further, That hereafter members of the general staff corps shall be confined strictly to the discharge of the duties of the general nature of those specified for them in this section and in the organic act of congress last hereinbefore cited, and they shall not be permitted to assume or engage in work of an administrative nature that pertains to established bureaus or offices of the war department, or that, being assumed or engaged in by members of the general staff corps, would involve impairment of the responsibility or initiative of such bureaus or offices or would cause injurious or unnecessary duplication of or delay in the work thereof: Provided further, That all pay and allowances shall be forfeited by any superior for any period during which, by his order or his suspension, or by reason of his neglect, any subordinate shall violate any of the foregoing provisions of this section: Provided further, That if any officer detailed in the general staff corps, or as an officer of any staff corps or department of the army, shall be promoted to the next higher grade while so serving he may be permitted to serve out the

period of his detail, and the number of officers in the organization in which he shall be serving and in the grade to which he shall have been promoted shall be increased by one for such time as he shall be an additional number in said organization and grade; but the whole number of officers detailed to said organization shall at no time exceed the aggregate of the numbers allowed to the several grades thereof by law other than this proviso.

Sec. 6. The Adjutant-General's Department.—The adjutant-general's department shall consist of the adjutant-general with the rank of brigadier-general, seven adjutants-general with the rank of colonel, thirteen adjutants-general with the rank of lieutenant-colonel and thirty adjutants-general with the rank of major.

Sec. 7. The Inspector-General's Department.—The inspector-general's department shall consist of one inspector-general with the rank of brigadier-general, four inspectors-general with the rank of colonel, eight inspectors-general with the rank of lieutenant-colonel and sixteen inspectors-general with the rank of major.

Sec. 8. The Judge Advocate General's Department.—The judge advocate general's department shall consist of one judge advocate general with the rank of brigadier-general, four judge advocates with the rank of colonel, seven judge advocates with the rank of lieutenant-colonel and twenty judge advocates with the rank of major: Provided, That acting judge advocates may be detailed under the provisions of existing law for separate brigades and for separate general court-martial jurisdictions, and when not immediately required for service with a geographical department, tactical division, separate brigade or other separate general court-martial jurisdiction, acting judge advocates may be assigned to such other legal duty as the exigencies of the service may require: Provided further, That, of the vacancies created in the judge advocate general's department by this act, or such vacancy, not below the grade of major, shall be filled by the appointment of a person from civil life, not less than 45 nor more than 50 years of age, who shall have been for ten years a judge of the Supreme court of the Philippine Islands, shall have served for two years as a captain in the regular or volunteer army and shall be proficient in the Spanish language and laws: Provided further, That so much of the act of congress approved Aug. 24, 1912, as relates to the detachment or detail of officers for duty in the judge advocate general's department shall hereafter be held to apply only to the acting judge advocates authorized by law; and hereafter no officer shall be or remain detached from any command or assigned to any duty or station with intent to enable or aid him to pursue the study of law: And provided further, That no officer of the judge advocate general's department below the rank of colonel shall be promoted therein until he shall have successfully passed a written examination before a board consisting of not less than two officers of the judge advocate general's department, to be designated by the secretary of war, such examination to be prescribed by the secretary of war and to be held at such time anterior to the accruing of the right to promotion as may be for the best interests of the service: Provided, That, should any officer in the grade of major of the judge advocate general's department fail in his physical examination and be found incapacitated for service by reason of physical disability contracted in the line of duty, he shall be retired with the rank to which his seniority entitled him to be promoted; but if he should be found disqualified for promotion for any other reason a second examination shall not be allowed, but the secretary of war shall appoint a board of review, to consist of two officers of the judge advocate general's department superior in rank to the officer examined, none of whom shall have served as a member of the board which examined him. If the unfavorable finding of the examining board is concurred in by the board of review, the officer reported disqualified for promotion shall be honorably discharged from

the service with one year's pay. If the action of the examining board is disapproved by the board of review, the officer shall be considered qualified and shall be promoted: Provided further, That any lieutenant-colonel of the judge advocate general's department who, at his first examination for promotion to the grade of colonel, has been found disqualified for such promotion for any reason other than physical disability incurred in the line of duty, shall be suspended from promotion and his right thereto shall pass successively to such officers next below him in rank as are or may become eligible to promotion under existing law during the period of his suspension; and any such officer suspended from promotion shall be re-examined as soon as practicable after the expiration of one year from the date of the completion of the examination that resulted in his suspension; and if on such re-examination he is found qualified for promotion he shall again become eligible thereto; but if he is found disqualified by reason of physical disability incurred in line of duty in either examination he shall be retired with the rank to which his seniority entitled him to be promoted; and if he is not found disqualified by reason of such physical disability, but is found disqualified for promotion for any other reason in the second examination, he shall be retired without promotion.

Sec. 9. The Quartermaster Corps.—The quartermaster corps shall consist of one quartermaster-general with the rank of major-general, two assistants to the quartermaster-general with the rank of brigadier-general, twenty-one colonels, twenty-four lieutenant-colonels, sixty-eight majors, 180 captains and the pay clerks now in active service, who shall hereafter have the rank, pay and allowances of a second lieutenant, and the president is hereby authorized to appoint and commission them by and with the advice and consent of the senate, second lieutenants in the quartermaster corps, United States army. The total enlisted strength of the quartermaster corps and the number in each grade shall be limited and fixed from time to time by the president in accordance with the needs of the army, and shall consist of quartermaster-sergeants (senior grade), quartermaster-sergeants, sergeants (first class), sergeants, corporals, cooks, privates (first class) and privates. The number in the various grades shall not exceed the following percentages of the total authorized enlisted strength of the quartermaster corps, namely: Quartermaster-sergeants, senior grade, five-tenths of 1 per centum; quartermaster-sergeants, 6 per centum; sergeants, first class, 2 and five-tenths per centum; sergeants, 25 per centum; corporals, 10 per centum; privates, first class, 45 per centum; privates, 9 per centum; cooks, 2 per centum: Provided, That the master electricians now authorized by law for the quartermaster corps shall hereafter be known as quartermaster-sergeants, senior grade, and shall be included in the number of quartermaster-sergeants, senior grade, herein authorized: And provided further, That all work pertaining to construction and repair that has heretofore been done by or under the direction of officers of the quartermaster corps shall, except as otherwise now provided by laws or regulations, hereafter be done by or under the direction of officers of said corps.

Sec. 10. The Medical Department.—The medical department shall consist of one surgeon-general, with the rank of major-general during the active service of the present incumbent of that office, and thereafter with the rank of brigadier-general, who shall be chief of said department; a medical corps, a medical reserve corps within the limit of time fixed by this act, a dental corps, a veterinary corps, an enlisted force, the nurse corps and contract surgeons as now authorized by law, the commissioned officers of which shall be citizens of the United States.

The medical corps shall consist of commissioned officers below the grade of brigadier-general, proportionally distributed among the sev-

eral grades as in the medical corps now established by law. The total number of such officers shall approximately be equal to, but not exceed, except as hereinafter provided, seven for every 1,000 of the total enlisted strength of the regular army authorized from time to time by law: Provided, That if by reason of a reduction by law in the authorized enlisted strength of the army aforesaid the total number of officers in the medical corps commissioned previously to such reduction shall for the time being exceed the equivalent of seven to 1,000 of such reduced enlisted strength, no original appointment to commissioned rank in said corps shall be made until the total number of commissioned officers thereof shall have been reduced below the equivalent of seven to the 1,000 of the said reduced enlisted strength, nor thereafter so as to make the total number of commissioned officers thereof in excess of the equivalent of seven to the 1,000 of said reduced enlisted strength, and no promotion shall be made above the grade of captain in said corps until the number of officers in the grade above that of captain to which the promotion is due shall have been reduced below the proportional number authorized for such grade on the basis of the reduced enlisted strength, nor thereafter so as to make the number of officers in such grade in excess of the proportional number authorized on the basis of said reduced enlisted strength: Provided further, That when in time of war the regular army shall have been increased by virtue of the provisions of this or any other act, the medical officers appointed to meet such increase shall be honorably discharged from the service of the United States when the reduction of the enlisted strength of the army shall take place: Provided further, That persons hereafter commissioned in the medical corps shall be citizens of the United States between the ages of 22 and 30 years and shall be promoted to the grade of captain upon the completion of five years' service in the medical corps and upon passing the examinations prescribed by the president for promotion to the grade of captain in the medical corps: Provided further, That relative rank among captains in the medical corps, who have or shall have attained that rank by operation of law after a period of service fixed thereby, shall be determined by counting all the service rendered by them as officers in said corps and as assistant surgeons in the regular army, subject, however, to loss of files by reason of sentence of court-martial or by reason of failure to pass examination for promotion: Provided further, That hereafter the president shall be authorized to detail not to exceed five officers of the medical department of the army for duty with the military relief division of the American National Red Cross.

The enlisted force of the medical department shall consist of the following personnel, who shall not be included in the effective strength of the army nor counted as a part of the enlisted force provided by law: Master hospital sergeants, hospital sergeants, sergeants (first class), sergeants, corporals, cooks, horseshoers, saddlers, farriers, mechanics, privates (first class) and privates: Provided, That master hospital sergeants shall be appointed by the secretary of war, but no person shall be appointed master hospital sergeant until he shall have passed a satisfactory examination under such regulations as the secretary of war may prescribe before a board of one or more medical officers as to his qualifications for the position, including knowledge of pharmacy, and demonstrated his fitness therefor by service of not less than twelve months as hospital sergeant or sergeant (first class) medical department, or as sergeant (first class) in the hospital corps now established by law; and no person shall be designated for such examination except by written authority of the surgeon-general: Provided further, That original enlistments for the medical department shall be made in the grade of private and re-enlistments and promotions of enlisted men therein, except

as hereinbefore prescribed, and transfers thereto from the enlisted force of the line or other staff departments and corps of the army shall be governed by such regulations as the secretary of war may prescribe: Provided further, That the enlisted men of the hospital corps who are in active service at the time of the approval of this act are hereby transferred to the corresponding grades of the medical department established by this act: Provided further, That the total number of enlisted men in the medical department shall be approximately equal to, but not exceed, except as hereinafter provided, the equivalent of 5 per centum of the total enlisted strength of the army authorized from time to time by law: Provided further, That in time of actual or threatened hostilities the secretary of war is hereby authorized to enlist or cause to be enlisted in the medical department such additional number of men as the service may require: Provided further, That the number of enlisted men in each of the several grades designated below shall not exceed, except as hereinafter provided, the following percentages of the total authorized enlisted strength of the medical department, to wit: Master hospital sergeants, one-half of 1 per centum; hospital sergeants, one-half of 1 per centum; sergeants (first class), 7 per centum; sergeants, 11 per centum; corporals, 5 per centum, and cooks, 6 per centum: Provided further, That the number of horseshoers, saddlers, farriers and mechanics in the medical department shall not exceed one each to each authorized ambulance company or like organization: Provided further, That in said department the number of privates (first class), shall not exceed 25 per centum of the number of privates: Provided further, That if by reason of a reduction by operation of law in the authorized enlisted strength of the army aforesaid the number of noncommissioned officers of any grade in the medical department whose warrants were issued previously to such reduction shall for the time being exceed the percentage hereinabove specified for such grade, no promotion to such grade shall be made until the percentage of noncommissioned officers therein shall have been reduced below that authorized for such grade on the basis of the said reduced enlisted strength, nor thereafter so as to make the percentage of noncommissioned officers therein in excess of the percentage authorized on the basis of the said reduced enlisted strength; but noncommissioned officers may be re-enlisted in the grades held by them previously to such reduction regardless of the percentages aforesaid; and when under this provision the number of noncommissioned officers of any grade exceeds the percentage specified, any noncommissioned officer thereof, not under charges, may be discharged on his own application: Provided further, That privates (first class) of the medical department shall be eligible for ratings for additional pay as follows: As dispensary assistant, \$2 a month; as nurse, \$3 a month; as surgical assistant, \$5 a month: Provided further, That no enlisted man shall receive more than one rating for additional pay under the provisions of this section, nor shall any enlisted man receive any additional pay under such rating unless he shall have actually performed the duties for which he shall be rated.

The president is hereby authorized to appoint and commission, by and with the advice and consent of the senate, dental surgeons, who are citizens of the United States between the ages of 21 and 27 years, at the rate of one for each 1,000 enlisted men of the line of the army. Dental surgeons shall have the rank, pay and allowances of first lieutenants until they have completed eight years' service. Dental surgeons of more than eight but less than twenty-four years' service shall, subject to such examination as the president may prescribe, have the rank, pay and allowances of captains. Dental surgeons of more than twenty-four years' service shall, subject to such examination as the president may prescribe, have the rank, pay and allowances of majors: Provided, That the total number of dental surgeons with rank, pay and allowances of

majors shall not at any time exceed fifteen: And provided further, That all laws relating to the examination of officers of the medical corps for promotion shall be applicable to dental surgeons.

Authority is hereby given to the secretary of war to grant permission, by revocable license to the American National Red Cross to erect and maintain on any military reservations within the jurisdiction of the United States buildings suitable for the storage of supplies, or to occupy for that purpose buildings erected by the United States, under such regulations as the secretary of war may prescribe, such supplies to be available for the aid of the civilian population in case of serious national disaster.

Sec. 11. Corps of Engineers.—The corps of engineers shall consist of one chief of engineers with the rank of brigadier-general, twenty-three colonels, thirty lieutenant-colonels, seventy-two majors, 152 captains, 148 first lieutenants, seventy-nine second lieutenants and the enlisted men hereinafter enumerated. The engineer troops of the corps of engineers shall consist of one band, seven regiments and two mounted battalions.

Each regiment of engineers shall consist of one colonel, one lieutenant-colonel, two majors, eleven captains, twelve first lieutenants, six second lieutenants, two master engineers (senior grade), one regimental sergeant-major, two regimental supply sergeants, two color sergeants, one sergeant bugler, one cook, one wagoner for each authorized wagon of the field and combat train, and two battalions.

Each battalion of a regiment of engineers shall consist of one major, one captain, one battalion sergeant-major, three master engineers (junior grade) and three companies. Each engineer company (regimental) shall consist of one captain, two first lieutenants, one second lieutenant, one first sergeant, three sergeants (first class), one mess sergeant, one supply sergeant, one stable sergeant, six sergeants, twelve corporals, one horseshoer, two buglers, one saddler, two cooks, nineteen privates (first class) and fifty-nine privates: Provided, That the president may, in his discretion, increase a regiment of engineers by two master engineers (senior grade) and two sergeants; each battalion of a regiment of engineers by three master engineers (junior grade), and each engineer company (regimental) by two sergeants, six corporals, one cook, twelve privates (first class) and thirty-four privates.

The engineer band shall consist of one band leader, one assistant band leader, one first sergeant, two band sergeants, four band corporals, two musicians (first class), four musicians (second class), thirteen musicians (third class) and two cooks.

Each battalion of mounted engineers shall consist of one major, five captains, seven first lieutenants, three second lieutenants, one master engineer (senior grade), one battalion sergeant-major, one battalion supply sergeant, three master engineers (junior grade), one corporal, one wagoner for each authorized wagon of the field and combat train and three mounted companies. Each mounted engineer company shall consist of one captain, two first lieutenants, one second lieutenant, one first sergeant, two sergeants (first class), one mess sergeant, one supply sergeant, one stable sergeant, four sergeants, eight corporals, two horseshoers, one saddler, two cooks, two buglers, twelve privates (first class) and thirty-seven privates: Provided, That the president may, in his discretion, increase the battalions of mounted engineers by one master engineer (senior grade), two sergeants and three master engineers (junior grade), and a mounted engineer company by two sergeants, three corporals, eight privates (first class) and twenty-four privates: Provided further, That appropriate officers to command the regiments, battalions and companies herein authorized and for duty with and as staff officers of such organizations shall be detailed from the corps of engineers, and shall not be in excess of the numbers in each grade enumerated in this section. The enlisted force of the corps of engineers and

the officers serving therewith shall constitute a part of the line of the army.

Sec. 12. The Ordnance Department—The ordnance department shall consist of one chief of ordnance with the rank of brigadier-general, ten colonels, fifteen lieutenant-colonels, thirty-two majors, forty-two captains, forty-two first lieutenants, the ordnance sergeants, as now authorized by law, and such other enlisted men of grades now authorized by law as the president may direct: Provided, That ordnance sergeants shall be selected by the secretary of war from the sergeants of the line or ordnance department who shall have served faithfully for eight years, including four years in the grade of noncommissioned officer: Provided further, That vacancies which may occur in the commissioned personnel of the ordnance department shall be subject to the provisions of sections 26 and 27 of the act approved Feb. 2, 1901, the acts approved June 25, 1906, and Feb. 24, 1915, and acts amendatory thereof relating to the ordnance department: Provided further, That hereafter the secretary of war is authorized to detail not to exceed thirty lieutenants from the army at large for duty as student officers in the establishments of the ordnance department for a period of two years, and the completion of the prescribed course of instruction shall constitute the examination for detail in the ordnance department.

Sec. 13. The Signal Corps—The signal corps shall consist of one chief signal officer with the rank of brigadier-general, three colonels, eight lieutenant-colonels, ten majors, thirty captains, seventy-five first lieutenants and the aviation section, which shall consist of one colonel, one lieutenant-colonel, eight majors, twenty-four captains and 114 first lieutenants, who shall be selected from among officers of the army at large of corresponding grades or from among officers of the grade below, exclusive of those serving by detail in staff corps or departments, who are qualified as military aviators, and shall be detailed to serve as aviation officers for periods of four years unless sooner relieved, and the provisions of section 27 of the act of congress approved Feb. 2, 1901, are hereby extended to apply to said aviation officers and to vacancies created in any arm, corps or department of the army by the detail of said officers therefrom, but nothing in said act or in any other law now in force shall be held to prevent the detail or re-detail at any time, to fill a vacancy among the aviation officers authorized by this act, of any officer who, during prior service as an aviation officer of the aviation section, shall become proficient in military aviation.

Aviation officers may, when qualified therefor, be rated as junior military aviators or as military aviators, but no person shall be so rated until there shall have been issued to him a certificate to the effect that he is qualified for the rating, and no certificate shall be issued to any person until an aviation examining board, which shall be composed of three officers of experience in the aviation service and two medical officers, shall have examined him, under general regulations to be prescribed by the secretary of war and published to the army by the war department, and shall have reported him to be qualified for the rating. No person shall receive the rating of military aviator until he shall have served creditably for three years as an aviation officer with the rating of a junior military aviator.

Each aviation officer authorized by this act shall, while on duty that requires him to participate regularly and frequently in aerial flights, receive an increase of 25 per centum in the pay of his grade and length of service under his commission. Each duly qualified junior military aviator shall, while so serving, have the rank, pay and allowances of one grade higher than that held by him under his commission if his rank under said commission be not higher than that of captain, and while on duty requiring him to participate regularly and frequently in

aerial flights he shall receive in addition an increase of 50 per centum in the pay of his grade and length of service under his commission. Each military aviator shall, while so serving, have the rank, pay and allowances of one grade higher than that held by him under his commission if his rank under said commission be not higher than that of captain, and while on duty requiring him to participate regularly and frequently in aerial flights he shall receive in addition an increase of 75 per centum of the pay of his grade and length of service under his commission: Provided further, That the provisions of the act of March 2, 1913, allowing increase of pay and allowances to officers detailed by the secretary of war on aviation duty, are hereby repealed: Provided further, That hereafter married officers of the line of the army shall be eligible equally with unmarried officers, and subject to the same conditions, for detail to aviation duty; and the secretary of war shall have authority to cause as many enlisted men of the aviation section to be instructed in the art of flying as he may deem necessary: Provided further, That hereafter the age of officers shall not be a bar to their first detail in the aviation section of the signal corps, and neither their age nor their rank shall be a bar to their subsequent details in said section: Provided further, That, when it shall be impracticable to obtain from the army officers suitable for the aviation section of the signal corps in the number allowed by law, the difference between that number and the number of suitable officers actually available for duty in said section may be made up by appointments in the grade of aviator, signal corps, and that grade is hereby created. The personnel for said grade shall be obtained from especially qualified civilians who shall be appointed and commissioned in said grade: Provided further, That whenever any aviator shall have become unsatisfactory he shall be discharged from the army as such aviator. The base pay of an aviator, signal corps, shall be \$150 per month, and he shall have the allowances of a master signal electrician and the same percentage of increase in pay for length of service as is allowed to a master signal electrician.

The total enlisted strength of the signal corps shall be limited and fixed from time to time by the president in accordance with the needs of the army, and shall consist of master signal electricians, sergeants (first class), sergeants, corporals, cooks, horseshoers, privates (first class) and privates; the number in each grade being fixed from time to time by the president. The numbers in the various grades shall not exceed the following percentages of the total authorized enlisted strength of the signal corps, namely: Master signal electricians, 2 per centum; sergeants (first class), 7 per centum; sergeants, 10 per centum; corporals, 20 per centum. The number of privates (first class) shall not exceed 25 per centum of the number of privates. Authority is hereby given the president to organize, in his discretion, such part of the commissioned and enlisted personnel of the signal corps into such number of companies, battalions and aero squadrons as the necessities of the service may demand.

Sec. 14. Bureau of Insular Affairs of the War Department—Nothing in this act shall be construed to repeal existing laws relating to the organization of the bureau of insular affairs of the war department.

Sec. 15. Chaplains—The president is authorized to appoint, by and with the advice and consent of the senate, chaplains in the army at the rate of not to exceed, including chaplains now in service, one for each regiment of cavalry, infantry, field artillery and engineers, and one for each 1,200 officers and men of the coast artillery corps, with rank, pay and allowances as now authorized by law: Provided, That in the appointment of chaplains in the regular army preference and priority shall be given to applicant veterans, if otherwise duly qualified, and who shall not have passed the age of 41 years at the time of application, who have rendered honorable

war service in the army of the United States or who have been honorably discharged from such army.

Sec. 16. Veterinarians.—The president is hereby authorized, by and with the advice and consent of the senate, to appoint veterinarians and assistant veterinarians in the army, not to exceed, including veterinarians now in service, two such officers for each regiment of cavalry, one for every three batteries of field artillery, one for each mounted battalion of engineers, seventeen as inspectors of horses and mules and as veterinarians in the quartermaster corps and seven as inspectors of meats for the quartermaster corps; and said veterinarians and assistant veterinarians shall be citizens of the United States and shall constitute the veterinary corps and shall be a part of the medical department of the army.

Hereafter a candidate for appointment as assistant veterinarian must be a citizen of the United States, between the ages of 21 and 27 years, a graduate of a recognized veterinary college or university and shall not be appointed until he shall have passed a satisfactory examination as to character, physical condition, general education and professional qualifications.

An assistant veterinarian appointed under this act shall, for the first five years of service as such, have the rank, pay and allowances of second lieutenant; that after five years of service he shall have the rank, pay and allowances of first lieutenant; that after fifteen years of service he shall be promoted to be a veterinarian with the rank, pay and allowances of captain, and that after twenty years' service he shall have the rank, pay and allowances of a major: Provided, That any assistant veterinarian, in order to be promoted as hereinbefore provided, must first pass a satisfactory examination, under such rules as the president may prescribe, as to professional qualifications and adaptability for the military service; and if such assistant veterinarian shall be found deficient at such examination he shall be discharged from the army with one year's pay.

The veterinarians of cavalry and field artillery now in the army, together with such veterinarians of the quartermaster corps as are now employed in said corps, who at the date of the approval of this act shall have had less than five years' governmental service may be appointed in the veterinary corps as assistant veterinarians with the rank, pay and allowances of second lieutenant; those who shall have had over five years of such service may be appointed in said corps as assistant veterinarians with the rank, pay and allowances of first lieutenant; and those who shall have had over fifteen years of such service may be appointed in said corps as veterinarians with the rank, pay and allowances of captain: Provided, That no such appointment of any veterinarian shall be made unless he shall first pass satisfactorily a practical professional and physical examination as to his fitness for the military service: Provided further, That veterinarians now in the army or in the employ of the quartermaster corps who shall fail to pass the prescribed physical examination because of disability incident to the service and sufficient to prevent them from the performance of duty valuable to the government shall be placed upon the retired list of the army with 75 per centum of the pay to which they would have been entitled if appointed in the veterinary corps as hereinbefore prescribed.

The secretary of war, upon recommendation of the surgeon-general of the army, may appoint in the veterinary corps, for such time as their services may be required, such number of reserve veterinarians as may be necessary to attend public animals pertaining to the quartermaster corps. Reserve veterinarians so employed shall have the pay and allowances of second lieutenant during such employment and no longer: Provided, That such reserve veterinarians shall be graduates of a recognized veterinary college or university and shall pass a satisfactory examination as to character, physical condition, general

education and professional qualifications in like manner as hereinbefore required of assistant veterinarians: such reserve veterinarians shall constitute a list of eligibles for appointment as assistant veterinarians, subject to all conditions hereinbefore prescribed for the appointment of assistant veterinarians.

Within a limit of time to be fixed by the secretary of war, candidates for appointment as assistant veterinarians who shall have passed satisfactorily the examinations prescribed for that grade by this act shall be appointed, in the order of merit in which they shall have passed such examination, to vacancies as they occur, such appointments to be for a probationary period of two years, after which time, if the services of the probationers shall have been satisfactory, they shall be permanently appointed with rank to date from the dates of rank of their probationary appointments. Probationary veterinarians whose services are found unsatisfactory shall be discharged at any time during the probationary period, or at the end thereof, and shall have no further claims against the government on account of their probationary service.

The secretary of war shall from time to time appoint boards of examiners to conduct the veterinary examinations hereinbefore prescribed, each of said boards to consist of three medical officers and two veterinarians.

Sec. 17. Composition of Infantry Units.—Each regiment of infantry shall consist of one colonel, one lieutenant-colonel, three majors, fifteen captains, sixteen first lieutenants, fifteen second lieutenants, one headquarters company, one machine-gun company, one supply company, and twelve infantry companies organized into three battalions of four companies each.

Each battalion shall consist of one major, one first lieutenant, mounted (battalion adjutant), and four companies. Each infantry company in battalion shall consist of one captain, one first lieutenant, one second lieutenant, one first sergeant, one mess sergeant, one supply sergeant, six sergeants, eleven corporals, two cooks, two buglers, one mechanic, nineteen privates (first class) and fifty-six privates.

Each infantry headquarters company shall consist of one captain, mounted (regimental adjutant); one regimental sergeant major, mounted; three battalion sergeants major, mounted; one first sergeant (drum major), two color sergeants, one mess sergeant, one supply sergeant, one stable sergeant, one sergeant, two cooks, one horseshoer, one band leader, one assistant band leader, one sergeant bugler, two band sergeants, four band corporals, two musicians (first class), four musicians (second class), thirteen musicians (third class), four privates (first class), mounted, and twelve privates, mounted.

Each infantry machine gun company shall consist of one captain, mounted; one first lieutenant, mounted; two second lieutenants, mounted; one first sergeant, mounted; one mess sergeant, one supply sergeant, mounted; one stable sergeant, mounted; one horseshoer, five sergeants; six corporals; two cooks, two buglers, one mechanic, eight privates (first class) and twenty-four privates.

Each infantry supply company shall consist of one captain, mounted; one second lieutenant, mounted; three regimental supply sergeants, mounted; one first sergeant, mounted; one mess sergeant, one stable sergeant, one corporal, mounted; one cook, one saddler, one horseshoer and one wagoner for each authorized wagon of the field and combat train: Provided, That the president may in his discretion increase a company of infantry by two sergeants, six corporals, one cook, one mechanic, nine privates (first class) and fifty-one privates; an infantry machine gun company by two sergeants, two corporals, one mechanic, four privates (first class) and twelve privates.

The commissioned officers required for the infantry headquarters, supply and machine gun companies and for the companies organized into

battalions shall be assigned from those hereinbefore authorized.

Sec. 18. Composition of Cavalry Units—Each regiment of cavalry shall consist of one colonel, one lieutenant-colonel, three majors, fifteen captains, sixteen first lieutenants, sixteen second lieutenants, one headquarters troop, one machine gun troop, one supply troop and twelve troops organized into three squadrons of four troops each.

Each squadron shall consist of one major, one first lieutenant (squadron adjutant) and four troops. Each troop in squadron shall consist of one captain, one first lieutenant, one second lieutenant, one first sergeant, one mess sergeant, one supply sergeant, one stable sergeant, five sergeants, eight corporals, two cooks, two horse-shoers, one saddler, two buglers, ten privates (first class) and thirty-six privates.

Each headquarters troop shall consist of one captain (regimental adjutant), one regimental sergeant major, three squadron sergeants major, one first sergeant (drum major), two color sergeants, one mess sergeant, one supply sergeant, one stable sergeant, one sergeant, two cooks, one horse-shoer, one saddler, two privates (first class), nine privates, one band leader, one assistant band leader, one sergeant bugler, two band sergeants, four band corporals, two musicians (first class), four musicians (second class) and thirteen musicians (third class).

Each machine gun troop shall consist of one captain, one first lieutenant, two second lieutenants, one first sergeant, one mess sergeant, one supply sergeant, one stable sergeant, two horse-shoers, five sergeants, six corporals, two cooks, one mechanic, one saddler, two buglers, twelve privates (first class) and thirty-five privates.

Each supply troop shall consist of one captain (regimental supply officer), two second lieutenants, three regimental supply sergeants, one first sergeant, one mess sergeant, one stable sergeant, one corporal, one cook, one horse-shoer, one saddler and one wagoner for each authorized wagon of the field and combat train: Provided, That the president may, in his discretion, increase each troop of cavalry by ten privates (first class) and twenty-five privates; the headquarters troop by two sergeants, five corporals, one horse-shoer, five privates (first class) and eighteen privates; each machine gun troop by three sergeants, two corporals, one mechanic, one private (first class) and fourteen privates; each supply troop by one corporal, one cook, one saddler and one horse-shoer.

The commissioned officers required for the cavalry headquarters, supply and machine gun troops and for the troops organized into squadrons shall be assigned from those hereinbefore authorized.

Sec. 19. Composition of Field Artillery Units—The field artillery, including mountain artillery, light artillery, horse artillery, heavy artillery (field and siege types), shall consist of 126 gun or howitzer batteries organized into twenty-one regiments.

In time of actual or threatened hostilities the president is authorized to organize such number of ammunition batteries and battalions, depot batteries and battalions and such artillery parks with such numbers and grades of personnel and such organization as he may deem necessary.

The officers necessary for such organization shall be supplied from the officers reserve corps provided by this act and by temporary appointments as authorized by section 8 of the act of congress approved April 25, 1914. The enlisted men necessary for such organizations shall be supplied from the regular army reserve provided by this act or from the regular army.

Each regiment of field artillery shall consist of one colonel, one lieutenant-colonel, one captain, one headquarters company, one supply company and such number of gun and howitzer battalions as the president may direct. Nothing shall prevent the assembling, in the same regiment, of gun and howitzer battalions of different calibers and classes.

Each gun or howitzer battery shall consist of one captain, two first lieutenants, two second lieutenants, one first sergeant, one supply sergeant, one stable sergeant, one mess sergeant, six sergeants, thirteen corporals, one chief mechanic, one saddler, two horse-shoers, one mechanic, two buglers, three cooks, twenty-two privates (first class) and seventy-one privates. When no enlisted men of the quartermaster corps are attached for such positions there shall be added to each battery of mountain artillery one packmaster (sergeant, first class), one assistant packmaster (sergeant), and one cargador (corporal).

Each headquarters company of a regiment of two battalions shall consist of one captain, one first lieutenant, one regimental sergeant major, two battalion sergeants major, one first sergeant, two color sergeants, one mess sergeant, one supply sergeant, one stable sergeant, two sergeants, nine corporals, one horse-shoer, one saddler, one mechanic, three buglers, two cooks, five privates (first class), fifteen privates, one band leader, one assistant band leader, one sergeant bugler, two band sergeants, four band corporals, two musicians (first class), four musicians (second class) and thirteen musicians (third class). When a regiment consists of three battalions there shall be added to the headquarters company one battalion sergeant major, one sergeant, three corporals, one bugler, one private (first class) and five privates. When no enlisted men of the quartermaster corps are attached for such positions, there shall be added to each mountain artillery headquarters company one packmaster (sergeant, first class), one assistant packmaster (sergeant) and one cargador (corporal).

Each supply company of a regiment of two battalions shall consist of one captain, one first lieutenant, two regimental supply sergeants, one first sergeant, one mess sergeant, one corporal, one cook, one horse-shoer, one saddler, two privates and one wagoner for each authorized wagon of the field train. When a regiment consists of three battalions there shall be added to the supply company one second lieutenant, one regimental supply sergeant, one private and one wagoner for each additional authorized wagon of the field train.

Each gun or howitzer battalion shall consist of one major, one captain and batteries as follows: Mountain artillery battalions and light artillery gun or howitzer battalions serving with the field artillery of infantry divisions shall contain three batteries; horse artillery battalions and heavy field artillery gun or howitzer battalions shall contain two batteries: Provided, That the president may, in his discretion, increase the headquarters company of a regiment of two battalions by two sergeants, five corporals, one horse-shoer, one mechanic, one private (first class) and six privates; the headquarters company of a regiment of three battalions by one sergeant, seven corporals, one horse-shoer, one mechanic, two cooks, two privates (first class) and seven privates; the supply company of a regiment of two battalions by one corporal, one cook, one horse-shoer and one saddler; the supply company for a regiment of three battalions by one corporal, one cook, one horse-shoer and one saddler; a gun or howitzer battery by three sergeants, seven corporals, one horse-shoer, two mechanics, one bugler, thirteen privates (first class) and thirty-seven privates.

20. Coast Artillery Corps—The coast artillery corps shall consist of one chief of coast artillery with the rank of brigadier-general, twenty-four colonels, twenty-four lieutenant-colonels, seventy-two majors, 360 captains, 360 first lieutenants, 360 second lieutenants, thirty-one sergeants-major (senior grade), sixty-four sergeants-major (junior grade), forty-one master electricians, seventy-two engineers, ninety-nine electrician sergeants (first class), 275 assistant engineers, ninety-nine electrician sergeants (second class), 106 firemen, ninety-three radio sergeants, sixty-two master gunners, 263 first sergeants, 263 supply sergeants, 263 mess ser-

geants, 2,104 sergeants, 3,150 corporals, 526 cooks, 526 mechanics, 526 buglers, 5,225 privates (first class), 15,675 privates and eighteen bands, organized as hereinafter provided for the engineer band. The rated men of the coast artillery corps shall consist of casemate electricians, observers (first class), plotters, chief planters, coxswains, chief loaders, observers (second class), gun commanders and gun pointers. The total number of rated men shall not exceed 1,784. Coxswains shall receive \$9 per month in addition to the pay of their grade.

Sec. 21. Porto Rico Regiment of Infantry.—The Porto Rico regiment of infantry of the United States army shall hereafter have the same organization and the same grades and numbers of commissioned officers and enlisted men as are by this act or shall hereafter be prescribed by law for other regiments of infantry of the army. All vacancies created by this act or occurring hereafter in commissioned officers of said regiment above the grade of second lieutenant and below the grade of colonel shall, except as hereinafter provided to the contrary, be filled by promotion according to seniority in the several grades and within the regiment subject to the examination prescribed by section three of the act of congress approved Oct. 1, 1890, and said section is hereby extended so as to apply in the cases of all officers below the grade of lieutenant-colonel who shall hereafter be examined for promotion in the Porto Rico regiment of infantry, except that the president may prescribe such a system of examination for the promotion of officers of said regiment as he may deem advisable.

The colonel of said regiment shall be detailed by the president from among officers of infantry of the army not below the grade of lieutenant-colonel, for a period of four years unless sooner relieved. Vacancies created by this act in the grade of lieutenant-colonel and major in said regiment shall be filled by appointments from the senior captains in regimental rank of the Porto Rico regiment mentioned in the act of March 4, 1915, and captains and lieutenants of said regiment shall also be eligible for such detached service, transfer, or assignment to duty with other organizations as may be approved by the secretary of war; but vacancies created by such detachment of officers shall not be filled by promotions or appointments.

All men hereafter enlisting in said regiment shall be natives of Porto Rico. All enlistments in the regiment shall hereafter be the same as is provided herein for the regular army, and the regiment, or any part thereof, may be ordered for service outside the island of Porto Rico. The pay and allowances of members of said regiment shall be the same as provided by law for officers and enlisted men of like grades in the regular army.

Vacancies created by this act or occurring hereafter in the grade of second lieutenant in said regiment shall be filled during any calendar year by the appointment by the president, by and with the advice and consent of the senate, of any native of Porto Rico graduated from the United States military academy, and, after such appointment shall have been made or provided for, by like appointment of native citizens of Porto Rico between 21 and 27 years of age.

Provided, That officers of the Porto Rico regiment of infantry, United States army, who held commissions in the Porto Rico provisional regiment of infantry on June 30, 1908, shall now and hereafter take rank in their grades in the same relative order held by them in said Porto Rico provisional regiment of infantry on June 30, 1908, subject to any loss in rank due to failure to pass examinations for promotion or to sentence of court-martial.

Sec. 22. All existing laws pertaining to or affecting the United States military academy and civilian or military personnel on duty thereat in any capacity whatever, the officers and enlisted men on the retired list, the detached and additional officers under the act of

congress approved March 3, 1911, recruiting parties, recruit depots and unassigned recruits, service school detachments, United States disciplinary barracks guards, disciplinary organizations, the Philippine scouts, and Indian scouts shall continue and remain in force except as herein specifically provided otherwise.

Sec. 23. Original Appointments to Be Provisional.—Hereafter all appointments of persons other than graduates of the United States military academy to the grade of second lieutenant in the regular army shall be provisional for a period of two years, at the close of which period such appointments shall be made permanent if the appointees shall have demonstrated, under such regulations as the president may prescribe, their suitability and moral, professional and physical fitness for such permanent appointment, but should any appointee fail so to demonstrate his suitability and fitness, his appointment shall terminate, and should any officer become eligible for promotion to a vacancy in a higher grade and qualify therefor before the expiration of two years from the date of his original appointment, he shall receive a provisional appointment in such higher grade, which appointment shall be made permanent when he shall have qualified for permanent appointment upon the expiration of two years from the date of his original appointment, or shall terminate if he shall fail so to qualify.

Sec. 24. Increase to Be Made in Five Increments.—Except as otherwise specifically provided by this act, the increases in the commissioned and enlisted personnel of the regular army provided by this act shall be made in five annual increments, each of which shall be, in each grade of each arm, corps and department, as nearly as practicable, one-fifth of the total increase authorized for each arm, corps and department. Officers promoted to vacancies created or caused by the addition of the first increment shall be promoted to rank from July 1, 1916, and those promoted to vacancies created or caused by the second increment shall be promoted to rank from July 1, 1917; those promoted to vacancies created or caused by the addition of the third increment shall be promoted to rank from July 1, 1918; those promoted to vacancies created or caused by the addition of the fourth increment shall be promoted to rank from July 1, 1919; and those promoted to vacancies created or caused by the addition of the fifth increment shall be promoted to rank from July 1, 1920: Provided, That in the event of actual or threatened war, or similar emergency, in which the public safety demands it the president is authorized to immediately organize the entire increase authorized by this act, or so much thereof as he may deem necessary, and when, in the judgment of the president, war becomes imminent, all of said organizations that shall then be below the maximum enlisted strength authorized by law shall be raised forthwith to that strength and shall be maintained as nearly as possible thereat so long as war, or the imminence of war, shall continue.

Vacancies in the grade of second lieutenant, created or caused by the increases due to this act, in any fiscal year shall be filled by appointment in the following order: (1) of cadets graduated from the United States military academy during the preceding fiscal year for whom vacancies did not become available during the fiscal year in which they were graduated; (2) under the provisions of existing law, of enlisted men, including officers of the Philippine scouts, whose fitness for promotion shall have been determined by competitive examination; (3) of members of the officers' reserve corps between the ages of 21 and 27 years; (4) of commissioned officers of the national guard between the ages of 21 and 27 years; (5) of such honor graduates, between the ages of 21 and 27 years, of distinguished colleges as are now or may hereafter be entitled to preference by general orders of the war department; and (6) of candidates from civil life between the ages of 21 and 27 years; and the president is authorized to make

the necessary rules and regulations to carry these provisions into effect: Provided, That any such original vacancies not so filled, and remaining at the time of graduation of any class at the United States military academy, may be filled by the appointment of members of that class; and all vacancies in the grade of second lieutenant not created or caused by the increases due to this act shall be filled as provided in the act making appropriation for the support of the army, approved March 3, 1911: Provided further, That enlisted men of the regular army who have completed one year's service with an organization may become candidates for vacancies in the grade of second lieutenant created or caused by the increases due to the operation of this act: Provided further, That appointments to the grade of second lieutenant in the corps of engineers, including those created by this act, shall continue to be made as now provided by law, but that officers of the army or navy of the United States may become candidates for said appointments under the provisions of section 5 of the act of congress approved Feb. 27, 1911, without previously vacating their commissions as officers, and that the secretary of war may, in his discretion, allow persons to become candidates without previously establishing eligibility for appointment as junior engineer under the engineer bureau of the war department: Provided further, That officers appointed to original vacancies in the grade of second lieutenant created or caused by this act shall take lineal and relative rank according to dates of appointment, and the lineal and relative rank of second lieutenants appointed on the same date shall be determined under such regulations as the secretary of war may prescribe: Provided further, That the president may recommission persons who have heretofore held commissions in the regular army and have left the service honorably, after ascertaining that they are qualified for service physically, morally and as to age and military fitness; such recommissioned officers shall take rank at the foot of the respective grades which they held at the time of their separation from the army: Provided further, That the provisions of existing law requiring examinations to determine fitness for promotion of officers of the army are hereby extended to include promotions to all grades below that of brigadier-general: Provided further, That examinations of officers in the grades of major and lieutenant-colonel shall be confined to problems involving the higher functions of staff duties and command: And provided further, That in time of war retired officers of the army may be employed on active duty, in the discretion of the president, and when so employed they shall receive the full pay and allowances of their grade: And provided further, That hereafter any retired officer, who has been or shall be detailed on active duty, shall receive the rank, pay and allowances of the grade, not above that of major, that he would have attained in due course of promotion if he had remained on the active list for a period beyond the date of his retirement equal to the total amount of time during which he has been detailed on active duty since his retirement.

Sec. 25. The Detached Officers.—That on July 1, 1916, the line of the army shall be increased by 822 extra officers of the cavalry, field artillery, coast artillery corps and field arms of the service, of grade from first lieutenant to colonel, inclusive, lawfully available for detachment from their proper arms for duty with the national guard, or other duty the usual period of which exceeds one year. Said extra officers, together with the 200 detached officers provided for by the act of congress approved March 3, 1911, shall, on and after July 1, 1916, constitute the detached officers' list, and all positions vacated by officers assigned to said list, and the officers so assigned, shall be subject to the provisions of section 27 of the act of congress approved Feb. 2, 1901, with reference to details to the staff corps. The total number of officers hereby authorized for each grade on

said list entire shall be in proportion to the total number of officers of the corresponding grade now authorized by law other than this act for all of the said four arms combined, exclusive of second lieutenants and of the 200 extra officers authorized by the act of congress approved March 3, 1911, and exclusive also of the additional officers authorized by the act to restore lineal rank lost through the system of regimental promotion formerly in force; and the total number of officers hereby authorized for each grade in each of said arms on said list shall be in the proportion borne by the number of officers now authorized by law other than this act for such grade and arm to the total number of officers now authorized by law other than this act for the corresponding grade in all of the said four arms combined, exclusive of the extra and additional officers last hereinbefore specified and excluded: Provided, That all vacancies created or caused by the foregoing provisions of this section in grades above that of second lieutenant shall be filled by promotion according to law existing on and before the date of approval of this act, and subject to the examinations prescribed by existing law. As soon as practicable after such promotions shall have been made, there shall be detached from each arm and assigned to the detached officers' list a number of officers of each grade equal to the number of officers of said grade by which said arm shall have been increased by the foregoing provisions of this section; and thereafter any vacancy created or caused in any of the said arms of the service by the assignment of an officer of any grade to said detached officers' list shall be filled, subject to such examination as is now or may hereafter be prescribed by law, by the promotion of the officer who shall be the senior in length of commissioned service of those eligible to promotion in the next lower grade in the arm in which such vacancy shall occur: Provided further, That no officer of any of said arms of the service shall be permitted to remain on said detached officers' list for more than forty-five days unless he shall have been actually present for duty for at least two years out of the last preceding six years with an organization composed of one or more statutory units, or the equivalent thereof, of the arm to which he shall belong. Any vacancy created in said list by the removal of any officer therefrom because he shall not have been present for duty as before prescribed in this proviso shall be filled by the transfer to said list of an officer having the same grade and belonging to the same arm as the officer whose removal from said list shall have created said vacancy; but, except as before prescribed in this proviso, all officers who shall have been assigned to said list shall remain thereon for not less than four years from the respective dates of their assignment thereto, unless in the meantime they shall have been separated entirely from the army, or shall have been promoted or appointed to higher offices, or shall have been retired from active service: Provided further, That after the apportionment of officers to said detached officers' list shall have been made as authorized by this act, whenever any vacancy shall have been caused in said list by the separation of an officer of any grade therefrom, such vacancy shall, except as prescribed in the last preceding proviso, be filled by the detail and assignment to said list of an officer of the corresponding grade in that arm in which there shall be found the officer of the next lower grade who at that time shall be the senior in length of commissioned service of all the officers of the said lower grade in all of the four arms hereinbefore specified; if two or more officers of different arms shall be found to have equal seniority in length of commissioned service in said lower grade, the question of seniority shall be decided by their relative standing on the list of the commissioned officers of the army: Provided further, That, with a view further to equalize inequalities in past promotions of officers of the line of the army, on July 1, 1916, the cavalry shall be increased by

seventeen colonels and the infantry by four colonels, all of whom shall be additional officers in that grade, and shall not be entitled to promotion to which any officer would be entitled if the appointment of the said additional officers had never been authorized, and after July 1, 1919, no vacancies occurring among the said additional officers shall be filled and the offices so vacated shall cease and determine: And provided further, That for the purpose of lessening as much as possible inequalities of promotion due to the increase in the number of officers of the line of the army under the provisions of this act, any vacancies created or caused by this act in commissioned grades below that of lieutenant-colonel in any arm or service may, in the discretion of the president and under such regulations as he may prescribe in furtherance of the purpose stated in this proviso, be filled by the promotion, or transfer without promotion, of officers of other branches of the line of the army; but no such promotion or transfer shall be made in the case of any officer unless it shall have been recommended by an examining board composed of five officers, senior in rank to such officer and of the arm to which the promotion or transfer of such officer shall have been proposed, who, after having made a personal examination of such officer and of his official record, shall have reported him qualified for service in said arm in the grade to which his promotion or transfer shall have been proposed.

Sec. 25. Retirement of Officers of Philippine Scouts.—Captains and lieutenants of Philippine scouts who are citizens of the United States shall hereafter be entitled to retirement under the laws governing the retirement of enlisted men of the regular army, except that they shall be retired in the grade held by them at the date of retirement, shall be entitled to retirement for disability under the same conditions as officers of the regular army, and that they shall receive, as retired pay, the amounts allowed by law, as retired pay and allowances, of master signal officers of the United States army, and no more: Provided, That double time for service beyond the continental limits of the United States shall not be counted for the purposes of this section so as to reduce the actual period of service below twenty years: Provided further, That former officers of the Philippine scouts who, because of disability occasioned by wounds received in action, have resigned or been discharged from the service, or who have heretofore served as such for a period of more than five years and have been retired as enlisted men, shall be placed upon the retired list as officers of Philippine scouts and thereafter receive the retired pay and allowances provided by this section for other officers of Philippine scouts: And provided further, That any former officer of Philippine scouts who vacated his office in the Philippine scouts by discharge or resignation on account of disability contracted in the line of duty and who was subsequently retired as an enlisted man, except any former officer of Philippine scouts who has been retired as an enlisted man by special act of congress, shall be transferred to the retired list created by this section and shall thereafter receive the retired pay and allowances authorized by this section, and no more. Officers of Philippine scouts retired under the provisions of this section shall not form part of the limited retired list now authorized by law.

Sec. 27. Enlistment in the Regular Army.—On and after the first day of November, 1916, all enlistments in the regular army shall be for a term of seven years, the first three years to be in the active service with the organizations of which those enlisted form a part and, except as otherwise provided herein, the last four years in the regular army reserve hereinafter provided for: Provided, That at the expiration of three years' continuous service with such organizations, either under a first or any subsequent enlistment, any soldier may be re-enlisted for another period of seven years, as above provided for, in which event he shall receive his final discharge from his prior enlistment: Provided further, That after the expiration of one year's honor-

able service any enlisted man serving within the continental limits of the United States whose company, troop, battery or detachment commander shall report him as proficient and sufficiently trained may, in the discretion of the secretary of war, be furloughed to the regular army reserve under such regulations as the secretary of war may prescribe, but no man furloughed to the reserve shall be eligible to re-enlist in the service until the expiration of his term of seven years: Provided further, That in all enlistments hereafter accomplished under the provisions of this act three years shall be counted as an enlistment period in computing continuous service pay: Provided further, That any non-commissioned officer discharged with an excellent character shall be permitted, at the expiration of three years in the active service, to re-enlist in the organization from which discharged with the rank and grade held by him at the time of his discharge if he re-enlists within twenty days after the date of such discharge: Provided further, That no person under the age of 18 years shall be enlisted or mustered into the military service of the United States without the written consent of his parents or guardians, provided that such minor has such parents or guardians entitled to his custody and control: And provided further, That the president is authorized to discontinue or utilize the services of postmasters of the second, third and fourth classes in procuring the enlistment of recruits for the army, and for each recruit accepted for enlistment in the army the postmaster procuring his enlistment shall receive the sum of \$5.

In addition to military training, soldiers while in the active service shall hereafter be given the opportunity to study and receive instruction upon educational lines of such character as to increase their military efficiency and enable them to return to civil life better equipped for industrial, commercial and general business occupations. Civilian teachers may be employed to aid the army officers in giving such instruction, and part of this instruction may consist of vocational education either in agriculture or the mechanic arts. The secretary of war, with the approval of the president, shall prescribe rules and regulations for conducting the instruction herein provided for, and the secretary of war shall have the power at all times to suspend, increase or decrease the amount of such instruction offered as may in his judgment be consistent with the requirements of military instruction and service of the soldiers.

Sec. 28. Pay of Certain Enlisted Men.—Hereafter the monthly pay of enlisted men of certain grades of the army created in this act shall be as follows, namely: Quartermaster sergeant, senior grade, quartermaster corps; master hospital sergeant, medical department; master engineer, senior grade, corps of engineers, and band leader, infantry, cavalry, artillery and corps of engineers, \$75; hospital sergeant, medical department, and master engineer, junior grade, corps of engineers, \$65; sergeant (first class), medical department, \$50; sergeant (first class), corps of engineers, regimental supply sergeant, infantry, cavalry, field artillery and corps of engineers; battalion supply sergeant, corps of engineers, and assistant engineer, coast artillery corps, and assistant band leader, infantry, cavalry, artillery and corps of engineers, and sergeant bugler, infantry, cavalry, artillery and corps of engineers, \$40; musician (first class), infantry, cavalry, artillery and corps of engineers; supply sergeant, mess sergeant and stable sergeant, corps of engineers; sergeant medical department, \$36; supply sergeant, infantry, cavalry and artillery; mess sergeant, infantry, cavalry and artillery; cook, medical department; horseshoer, infantry, cavalry, artillery, corps of engineers, signal corps and medical departments; stable sergeant, infantry and cavalry; radio sergeant, coast artillery corps, and musicians (second class), infantry, cavalry, artillery and corps of engineers, \$30; musician (third class), infantry, cavalry, artillery and corps of engineers; corporal, medical department, \$24; saddler, infantry,

try, cavalry, field artillery, corps of engineers and medical department; mechanic, infantry, cavalry and field artillery and medical department; farrier, medical department, and wagoner, infantry, field artillery and corps of engineers, \$21; private (first class), infantry, cavalry, artillery and medical department, \$18; private, medical department, and bugler, \$15. Nothing herein contained shall operate to reduce the pay or allowances now authorized by law for any grade of enlisted men of the army.

Sec. 29. Final Discharge of Enlisted Men.—No enlisted man in the regular army shall receive his final discharge until the termination of his seven-year term of enlistment except upon re-enlistment as provided for in this act or as provided by law for discharge prior to expiration of term of enlistment, but when an enlisted man is furloughed to the regular army reserve his account shall be closed and he shall be paid in full to the date such furlough becomes effective, including allowances provided by law for discharged soldiers: Provided, That when by reason of death or disability of a member of the family of an enlisted man occurring after his enlistment members of his family become dependent upon him for support, he may, in the discretion of the secretary of war, be discharged from the service of the United States or be furloughed to the regular army reserve, upon due proof being made of such condition: Provided further, That when an enlisted man is discharged by purchase while in active service he shall be furloughed to the regular army reserve, unless, in the discretion of the secretary of war, he is given a final discharge from the army.

Sec. 30. Composition of the Regular Army Reserve.—The regular army reserve shall consist of, first, all enlisted men now in the army reserve or who shall hereafter become members of the army reserve under the provisions of existing law; second, all enlisted men furloughed to or enlisted in the regular army reserve under the provisions of this act; and, third, any person holding an honorable discharge from the regular army with character reported at least good who is physically qualified for the duties of a soldier and not over 45 years of age who enlists in the regular army reserve for a period of four years.

Sec. 31. The president is authorized to assign members of the regular army reserve as reserves to particular organizations of the regular army or to organize the regular army reserve, or any part thereof, into units or detachments of any arm, corps or department in such manner as he may prescribe, and to assign to such units and detachments officers of the regular army or of the officers' reserve corps herein provided for; and he may summon the regular army reserve or any part thereof for field training for a period not exceeding fifteen days in each year, the reservists to receive travel expenses and pay at the rate of their respective grades in the regular army during such periods of training; and in the event of actual or threatened hostilities he may mobilize the regular army reserve in such manner as he may determine, and thereafter retain it, or any part thereof, in active service for such period as he may determine the conditions demand: Provided, That all enlistments in the regular army, including those in the regular army reserve, which are in force on the date of the outbreak of war shall continue in force for one year, unless sooner terminated by order of the secretary of war, but nothing herein shall be construed to shorten the time of enlistment prescribed: Provided further, That subject to such regulations as the president may prescribe for their proper identification and location and physical condition, the members of the regular army reserve shall be paid semiannually at the rate of \$24 a year while in the reserve.

Sec. 32. Regular Army Reserve in Time of War.—When mobilized by order of the president, the members of the regular army reserve shall, so long as they may remain in active service, receive the pay and allowances of enlisted men of the regular army of like grades: Provided, That any enlisted man who shall have re-enlisted in

the regular army reserve shall receive during such active service the additional pay now provided by law for enlisted men in his arm of the service in the second enlistment period: Provided further, That upon reporting for duty and being found physically fit for service, members of the regular army reserve shall receive a sum equal to \$3 per month for each month during which they shall have belonged to the reserve, as well as the actual necessary cost of transportation and subsistence from their homes to the places at which they may be ordered to report for duty under such summons: And provided further, That service in the regular army reserve shall confer no right to retirement or retired pay, and members of the regular army reserve shall become entitled to pension only through disability incurred while on active duty in the service of the United States.

Sec. 33. Use of Other Departments of the Government.—The president may, subject to such rules and regulations as in his judgment may be necessary, utilize the services of members and employees of all departments of the government of the United States, without expense to the division, reservist for keeping in touch with, paying and mobilizing the regular army reserve, the enlisted reserve corps and other reserve organizations.

Sec. 34. Re-Enlistment in Time of War.—For the purpose of utilizing as an auxiliary to the regular army reserves the services of men who have had experience and training in the regular army or in the United States volunteers, outside of the continental limits of the United States, in time of actual or threatened hostilities, and after the president shall, by proclamation, have called upon honorably discharged soldiers of the regular army to present themselves for re-enlistment therein within a specified period, subject to such conditions as may be prescribed, any person who shall have been discharged honorably from any service, with character reported as at least good, and who, having been found physically qualified for the duties of a soldier, if not over 50 years of age, shall re-enlist in the line of said army, or in the signal, quartermaster or medical department thereof, within the period that shall be specified in said proclamation, shall receive on so re-enlisting a bounty which shall be computed at the rate of \$8 for each month for the first year of the period that shall have elapsed since his last discharge from the regular army and the date of his re-enlistment therein under the terms of said proclamation; at the rate of \$6 per month for the second year of such period; at the rate of \$4 per month for the third year of such period; and at the rate of \$2 per month for any subsequent year of such period: but no bounty in excess of \$300 shall be paid to any person under the terms of this section.

Sec. 35. Enlisted Men Prohibited from Civil Employment.—Hereafter no enlisted man in the active service of the United States in the army, navy and marine corps, respectively, whether a noncommissioned officer, musician or private, shall be detailed, ordered or permitted to leave his post to engage in any pursuit, business or performance in civil life, for emolument, hire or otherwise, when the same shall interfere with the customary employment and regular engagement of local civilians in the respective arts, trades or professions.

Sec. 36. Sergeants for Duty with the National Guard.—For the purpose of assisting in the instruction of the personnel and care of property in the hands of the national guard the secretary of war is authorized to detail from the infantry, cavalry, field artillery, corps of engineers, coast artillery corps, medical department and signal corps of the regular army not to exceed 1,000 sergeants for duty with corresponding organizations of the national guard and not to exceed 100 sergeants for duty with the disciplinary organizations at the United States disciplinary barracks, who shall be additional to the sergeants authorized by this act for the corps, companies, troops, batteries and detachments from which they may be detailed.

Sec. 37. The Officers' Reserve Corps—For the purpose of securing a reserve of officers available for service as temporary officers in the regular army, as provided for in this act and in section 8 of the act approved April 25, 1914, as officers of the quartermaster corps and other staff corps and departments, as officers for recruit rendezvous and depots, and as officers of volunteers, there shall be organized, under such rules and regulations as the president may prescribe not inconsistent with the provisions of this act, an officers' reserve corps of the regular army. Said corps shall consist of sections corresponding to the various arms, staff corps and departments of the regular army. Except as otherwise herein provided, a member of the officers' reserve corps shall not be subject to call for service in time of peace and whenever called upon for service shall not, without his consent, be so called in a lower grade than that held by him in said reserve corps.

The president alone shall be authorized to appoint and commission as reserve officers in the various sections of the officers' reserve corps, in all grades up to and including that of major, such citizens as, upon examination prescribed by the president, shall be found physically, mentally and morally qualified to hold such commissions. Provided, That the proportion of officers in any section of the officers' reserve corps shall not exceed the proportion for the same grade in the corresponding arm, corps or department of the regular army, except that the number commissioned in the lowest authorized grade in any section of the officers' reserve corps shall not be limited.

All persons now carried as duly qualified and registered pursuant to section 23 of the act of congress approved Jan. 21, 1903, shall, for a period of three years after the passage of this act, be eligible for appointment in the officers' reserve corps in the section corresponding to the arm, corps or department for which they have been found qualified, without further examination, except a physical examination, and subject to the limitations as to age and rank herein prescribed: Provided, That any person carried as qualified and registered in the grade of colonel or lieutenant-colonel pursuant to the provisions of said act on the date when this act becomes effective may be commissioned and recommissioned in the officers' reserve corps with the rank for which he has been found qualified and registered, but when such person thereafter shall become separated from the officers' reserve corps for any reason the vacancy so caused shall not be filled and such office shall cease and determine.

No person shall, except as hereinafter provided, be appointed or reappointed a second lieutenant in the officers' reserve corps after he shall have reached the age of 32 years, a first lieutenant after he shall have reached the age of 36 years, a captain after he shall have reached the age of 40 years, or a major after he shall have reached the age of 45 years. When an officer of the reserve corps shall reach the age limit fixed for appointment or reappointment in the grade in which commissioned he shall be honorably discharged from the service of the United States, and be entitled to retain his official title and, on occasions of ceremony, to wear the uniform of the highest grade he shall have held in the officers' reserve corps: Provided, That nothing in the foregoing provisions as to the ages of officers shall apply to the appointment or reappointment of officers of the quartermaster, engineer, ordnance, signal, judge advocate and medical sections of said reserve corps.

One year after the passage of this act the medical reserve corps, as now constituted by law, shall cease to exist. Members thereof may be commissioned in the officers' reserve corps, subject to the provisions of this act, or may be honorably discharged from the service. The secretary of war may, in time of peace, order first lieutenants of the medical section of the officers' reserve corps, with their consent, to active duty in the service of the United States in such num-

bers as the public interests may require and the funds appropriated may permit, and may relieve them from such duty when their services are no longer necessary. While on such duty they shall receive the pay and allowances, including pay for periods of sickness and leaves of absence, of officers of corresponding rank and length of active service in the regular army.

The commissions of all officers of the officers' reserve corps shall be in force for a period of five years unless sooner terminated in the discretion of the president. Such officers may be re commissioned, either in the same or higher grades, for successive periods of five years, subject to such examinations and qualifications as the president may prescribe and to the age limits prescribed herein: Provided, That officers of the officers' reserve corps shall have rank therein in the various sections of said reserve corps according to grades and to length of service in their grades.

Sec. 33. The Officers' Reserve Corps in War—In time of actual or threatened hostilities the president may order officers of the officers' reserve corps, subject to such subsequent physical examinations as he may prescribe, to temporary duty with the regular army in grades thereof which cannot, for the time being, be filled by promotion, or as officers in volunteer or other organizations that may be authorized by law, or as officers and recruit rendezvous and depots, or on such other duty as the president may prescribe. While such reserve officers are on such service they shall, by virtue of their commissions as reserve officers, exercise command appropriate to their grade and rank in the organizations to which they may be assigned, and shall be entitled to the pay and allowances of the corresponding grades in the regular army, with increase of pay for length of active service, as allowed by law for officers of the regular army, from the date upon which they shall be required by the terms of their orders to obey the same: Provided, That officers so ordered to active service shall take temporary rank among themselves, and in their grades in the organizations to which assigned, according to the dates of orders placing them on active service; and they may be promoted, in accordance with such rank to vacancies in volunteer organizations or to temporary vacancies in the regular army thereafter occurring in the organizations in which they shall be serving: Provided further, That officers of the officers' reserve corps shall not be entitled to retirement or retired pay, and shall be entitled to pension only for disability incurred in the line of duty and while in active service.

Any officer who, while holding a commission in the officers' reserve corps, shall be ordered to active service by the secretary of war shall, from the time he shall be required by the terms of his order to obey the same, be subject to the laws and regulations for the government of the army of the United States, in so far as they are applicable to officers whose permanent retention in the military service is not contemplated.

Sec. 39. Instruction of Officers of the Officers' Reserve Corps—To the extent provided for from time to time by appropriations for this specific purpose, the secretary of war is authorized to order reserve officers to duty with troops or at field exercises, or for instruction, for periods not to exceed fifteen days in any one calendar year, and while so serving such officers shall receive the pay and allowances of their respective grades in the regular army: Provided, That, with the consent of the reserve officers concerned and within the limit of funds available for the purpose, such periods of duty may be extended for reserve officers as the secretary of war may direct: Provided further, That in time of actual or threatened hostilities, after all available officers of any section of the officers' reserve corps corresponding to any arm, corps or department of the regular army shall have been ordered into active service, officers of volunteers may be appointed in such arm, corps or department as may be authorized by law: Provided further, That nothing herein shall operate to

prevent the appointment of any officer of the regular army as an officer of volunteers before all the officers of the officers' reserve corps, or any section thereof, shall have been ordered into active service: And provided further, That in determining the relative rank and the right to retirement of an officer of the regular army, active duty performed by him while serving in the officers' reserve corps shall not be reckoned.

Sec. 40. The Reserve Officers' Training Corps.—The president is hereby authorized to establish and maintain in civil educational institutions a reserve officers' training corps, which shall consist of a senior division organized at universities and colleges requiring four years of collegiate study for a degree, including state universities and those state institutions that are required to provide instruction in military tactics under the provisions of the act of congress of July 2, 1862, donating lands for the establishment of colleges where the leading object shall be practical instruction in agriculture and the mechanic arts, including military tactics, and a junior division organized at all other public or private educational institutions, except that units of the senior division may be organized at those essentially military schools which do not confer an academic degree but which, as a result of the annual inspection of such institutions by the war department, are specially designated by the secretary of war as qualified for units of the senior division, and each division shall consist of units of the several arms or corps in such number and of such strength as the president may prescribe.

Sec. 41. The president may, upon the application of any state institution described in section 40 of this act, establish and maintain at such institution one or more units of the reserve officers' training corps: Provided, That no such unit shall be established or maintained at any such institution until an officer of the army shall have been detailed as professor of military science and tactics, nor until such institution shall maintain under military instruction at least 100 physically fit male students.

Sec. 42. The president may, upon the application of any established educational institution in the United States, other than a state institution described in section 40 of this act, the authorities of which agree to establish and maintain a two years' elective or compulsory course of military training as a minimum for its physically fit male students, which course when entered upon by any student shall, as regards such student, be a prerequisite for graduation, establish and maintain at such institution one or more units of the reserve officers' training corps: Provided, That no such unit shall be established or maintained at any such institution until an officer of the army shall have been detailed as professor of military science and tactics, nor until such institution shall maintain under military instruction at least 100 physically fit male students.

Sec. 43. The secretary of war is hereby authorized to prescribe standard courses of theoretical and practical military training for units of the reserve officers' training corps, and no unit of the senior division shall be organized or maintained at any educational institution the authorities of which fail or neglect to adopt into their curriculum the prescribed courses of military training for the senior division or to devote at least an average of three hours per week per academic year to such military training, and no unit of the junior division shall be organized or maintained at any educational institution the authorities of which fail or neglect to adopt into their curriculum the prescribed courses of military training for the junior division, or to devote at least an average of three hours per week per academic year to such military training.

Sec. 44. Eligibility to membership in the reserve officers' training corps shall be limited to students of institutions in which units of such corps may be established who are citizens of the United States, who are not less than 14 years of age, and whose bodily condition indicates that

they are physically fit to perform military duty or will be so upon arrival at military age.

Sec. 45. The president is hereby authorized to detail such numbers of officers of the army, either active or retired, not above the grade of colonel, as may be necessary, for duty as professors and assistant professors of military science and tactics at institutions where one or more units of the reserve officers' training corps are maintained; but the total number of active officers so detailed at educational institutions shall not exceed 300, and no active officer shall be so detailed who has not had five years' commissioned service in the army. In time of peace retired officers shall not be detailed under the provisions of this section without their consent. Retired officers below the grade of lieutenant-colonel so detailed shall receive the full pay and allowances of their grade, and retired officers above the grade of major so detailed shall receive the same pay and allowances as a retired major would receive under a like detail. No detail of officers on the active list of the regular army under the provisions of this section shall extend for more than four years.

Sec. 46. The president is hereby authorized to detail for duty at institutions where one or more units of the reserve officers' training corps are maintained such number of enlisted men, either active or retired or of the regular army reserve, as he may deem necessary, but the number of active noncommissioned officers so detailed shall not exceed 500, and all active noncommissioned officers so detailed shall be additional in their respective grades to those otherwise authorized for the army. Retired enlisted men or members of the regular army reserve shall not be detailed under the provisions of this section without their consent. While so detailed they shall receive active pay and allowances.

Sec. 47. The secretary of war, under such regulations as he may prescribe, is hereby authorized to issue to institutions at which one or more units of the reserve officers' training corps are maintained, such public animals, arms, uniforms, equipment and means of transportation as he may deem necessary, and to forage at the expense of the United States public animals so issued. He shall require from each institution to which property of the United States is issued a bond in the value of the property issued for the care and safekeeping thereof, and for its return when required.

Sec. 48. The secretary of war is hereby authorized to maintain camps for the further practical instruction of the members of the reserve officers' training corps, no such camps to be maintained for a period longer than six weeks in any one year, except in time of actual or threatened hostilities; to transport members of such corps to and from such camps at the expense of the United States so far as appropriations will permit; to assist them at the expense of the United States while traveling to and from such camps while remaining therein so far as appropriations will permit; to use the regular army, such other military forces as Congress from time to time authorizes, and such government property as he may deem necessary for the military training of the members of such corps while in attendance at such camps; to prescribe regulations for the government of such corps, and to authorize, in his discretion, the formation of company units thereof into battalion and regimental units.

Sec. 49. The president alone, under such regulations as he may prescribe, is hereby authorized to appoint in the officers' reserve corps any graduate of the senior division of the reserve officers' training corps who shall have satisfactorily completed the further training provided for in section 50 of this act, or any graduate of the junior division who shall have satisfactorily completed the courses of military training prescribed for the senior division and the further training provided for in section 50 of this act, and shall have participated in such practical instruction subsequent to graduation as the secretary of war shall prescribe, who shall have arrived at the age of 21 years and who shall agree, under oath in writing,

to serve the United States in the capacity of a reserve officer of the army during a period of at least ten years from the date of his appointment as such reserve officer, unless sooner discharged by proper authority; but the total number of reserve officers so appointed shall not exceed 50,000: Provided, That any graduate, qualified under the provisions of this section undergoing a postgraduate course at any institution shall not be eligible for appointment as a reserve officer while undergoing such postgraduate course, but his ultimate eligibility upon completion of such postgraduate course for such appointment shall not be affected because of his having undergone such postgraduate course.

Sec. 50. When any member of the senior division of the reserve officers' training corps has completed two academic years of service in that division, and has been selected for further training by the president of the institution and by its professor of military science and tactics, and has agreed in writing to continue in the reserve officers' training corps for the remainder of his course in the institution, devoting five hours per week to the military training prescribed by the secretary of war, and has agreed in writing to pursue the courses in camp training prescribed by the secretary of war, he may be furnished, at the expense of the United States, with commutation of subsistence, at such rate, not exceeding the cost of the garrison ration prescribed for the army, as may be fixed by the secretary of war, during the remainder of his service in the reserve officers' training corps.

Sec. 51. Any physically fit male citizen of the United States between the ages of 21 and 27 years, who shall have graduated prior to the date of this act from any educational institution at which an officer of the army was detailed as professor of military science and tactics, and who while a student at such institution completed courses of military training under the direction of such professor of military science and tactics substantially equivalent to those prescribed pursuant to this act for the senior division, shall, after satisfactorily completing such additional practical military training as the secretary of war shall prescribe, be eligible for appointment to the officers' reserve corps and as a temporary additional second lieutenant in accordance with the terms of this act.

Sec. 52. The president alone is hereby authorized to appoint and commission as a temporary second lieutenant of the regular army in time of peace for purposes of instruction, for a period not exceeding six months, with the allowances now provided by law for that grade, but with pay at the rate of \$100 per month, any reserve officer appointed pursuant to sections 49 and 51 of this act and to attach him to a unit of the regular army for duty and training during the period covered by his appointment as such temporary second lieutenant, and upon the expiration of such service with the regular army such officer shall revert to his status as a reserve officer.

Sec. 53. No reserve officer or temporary second lieutenant appointed pursuant to this act shall be entitled to retirement or to retired pay and shall be eligible for pension only for disability incurred in line of duty in active service or while serving with the regular army pursuant to the provisions of this act: Provided, That in time of war the president may order reserve officers appointed under the provisions of this act to active duty with any of the military forces of the United States in any grades not below that of second lieutenant, and while on such active duty they shall be subject to the rules and articles of war: And provided further, That the adjutant general of the army shall, under the direction and supervision of the secretary of war, obtain, compile and keep continually up to date all obtainable information as to the names, ages, addresses, occupations and qualifications for appointment as commissioned officers of the army, of men of time of war or other emergency, of men of suitable ages who, by reason of having received military training in civilian educational institu-

tions or elsewhere, may be regarded as qualified and available for appointment as such commissioned officers.

Sec. 54. Training Camps.—The secretary of war is hereby authorized to maintain, upon military reservations or elsewhere, camps for the military instruction and training of such citizens as may be selected for such instruction and training, upon their application and under such terms of enlistment and regulations as may be prescribed by the secretary of war; to use, for the purpose of maintaining said camps and imparting military instruction and training thereat, such arms, ammunition, accouterments, equipments, tentage, field equipage and transportation belonging to the United States as he may deem necessary; to furnish, at the expense of the United States, uniforms, subsistence, transportation by the most usual and direct route within such limits as to territory as the secretary of war may prescribe, and medical supplies to persons receiving instruction at said camps during the period of their attendance thereat; to authorize such expenditures, from proper army appropriations, as he may deem necessary for water, fuel, light, temporary structures, not including quarters for officers or barracks for men, screening and damages resulting from field exercises, and other expenses incidental to the maintenance of said camps and the theoretical winter instruction in connection therewith; and to sell to persons receiving instruction at said camps, for cash and at cost price plus 10 per centum, quartermaster and ordnance property, the amount of such property sold to any one person to be limited to that which is required for his proper equipment. All moneys arising from such sales shall remain available throughout the fiscal year following that in which the sales are made, for the purpose of that appropriation from which the property sold was authorized to be supplied at the time of the sale. The secretary of war is authorized further to prescribe the courses of theoretical and practical instruction to be pursued by persons attending the camps authorized by this section; to fix the periods during which such camps shall be maintained; to prescribe rules and regulations for the government thereof; and to employ thereat officers and enlisted men of the regular army in such numbers and upon such duties as he may designate.

Sec. 55. The Enlisted Reserve Corps.—For the purpose of securing an additional reserve of enlisted men for military service with the engineer, signal and quartermaster corps and the ordnance and medical departments of the regular army, an enlisted reserve corps, to consist of such number of enlisted men of such grade or grades as may be designated by the president from time to time, is hereby authorized, such authorization to be effective on and after the first day of July, 1916.

There may be enlisted in the grade or grades hereinbefore specified, for a period of four years, under such rules as may be prescribed by the president, citizens of the United States or persons who have declared their intentions to become citizens of the United States, subject to such physical, educational and practical examination as may be prescribed in said rules. For men enlisting in said grade or grades certificates of enlistment in the enlisted reserve corps shall be issued by the adjutant-general of the army, but no such man shall be enlisted in said corps unless he shall be found physically, mentally and morally qualified to hold such certificate and unless he shall be between the ages of 18 and 45 years. The certificates so given shall confer upon the holders when called into active service or for purposes of instruction and training, and during the period of such active service, instruction or training, all the authority, rights and privileges of like grades of the regular army. Enlisted men of the enlisted reserve corps shall take precedence in said corps according to the dates of their certificates of enlistment therein and when called into active service or when called out for purposes of instruction or training shall take precedence next below all other en-

listed men of like grades in the regular army. And the secretary of war is hereby authorized to issue to members of the enlisted reserve corps and to persons who have participated in at least one encampment for the military instruction of citizens, conducted under the auspices of the war department, distinctive rosettes or knots designed for wear with civilian clothing, and whenever a rosette or knot issued under the provisions of this section shall have been lost, destroyed or rendered unfit for use without fault or neglect upon the part of the person to whom it is issued, the secretary of war shall cause a new rosette or knot to be issued to such person without charge therefor. Any person who is not an enlisted man of the enlisted reserve corps and shall not have participated in at least one encampment for the military instruction of citizens, conducted under the auspices of the war department, and who shall wear such rosette or knot shall be guilty of misdemeanor punishable by a fine of not exceeding \$300, or imprisonment not exceeding six months, or both.

The president is authorized to assign members of the enlisted reserve corps as reserves to particular organizations of the regular army or to organize the enlisted reserve corps, or any part thereof, into units or detachments of any arm, corps or department in such manner as he may prescribe, and to assign to such units and detachments officers of the regular army or of the officers' reserve corps, herein provided for.

To the extent provided from time to time by appropriations the secretary of war may order enlisted men of the enlisted reserve corps to active service for purposes of instruction or training for periods not to exceed fifteen days in any one calendar year: Provided, That, with the consent of such enlisted men and within the limits of funds available for such purposes, such periods of active service may be extended for such number of enlisted men as may be deemed necessary.

Enlisted men of the enlisted reserve corps shall receive the pay and allowances of their respective grades, but only when ordered into active service, including the time required for actual travel from the places to which they are ordered and return to their homes: Provided, That said enlisted men shall not be entitled to retirement or retirement pay, nor shall they be entitled to pensions except for physical disability incurred in line of duty while in active service or while traveling under orders of competent authority to or from designated places of duty.

The uniform to be worn by enlisted men of the enlisted reserve corps, except corps insignia, shall be the same as prescribed for enlisted men of the regular army reserve, and that in lieu of any money allowance for clothing there shall be issued to each enlisted man of the enlisted reserve corps in time of peace such articles of clothing and equipment as the president may direct: Provided, That any clothing or other equipment issued to any enlisted man of the said corps shall remain the property of the United States, and in case of loss or destruction of any article, the article so lost or destroyed shall be replaced by issue to the enlisted man and the value thereof deducted from any pay due or to become due him, unless it shall be made to appear that such loss or destruction was not due to neglect or other fault on his part: Provided further, That any clothing or other equipment issued to enlisted men of the enlisted reserve corps which shall have become unserviceable through ordinary wear and tear in the service of the United States shall be received back by the United States and serviceable like articles issued in lieu thereof: Provided further, That when enlisted men of the enlisted reserve corps shall be discharged or otherwise separated from the service, all arms, equipage, clothing and other property issued to them shall be accounted for under such regulations as may be prescribed by the secretary of war.

Any enlisted man of the enlisted reserve corps ordered to active service or for purposes of instruction or training shall, from the time he is

required by the terms of the order to obey the same, be subject to the laws and regulations for the government of the army of the United States.

The secretary of war is hereby authorized to discharge any enlisted member of the enlisted reserve corps when his services shall be no longer required, or when he shall have by misconduct unfitted himself for further service in the said corps: Provided, That any enlisted man of said corps who shall be ordered upon active duty as herein provided and who shall willfully fail to comply with the terms of the order so given him shall, in addition to any other penalty to which he may be subject, forfeit his certificate of enlistment.

In time of actual or threatened hostilities the president may order the enlisted reserve corps, in such numbers and at such times as may be considered necessary, to active service with the regular army, and while on such service members of said corps shall exercise command appropriate to their several grades and rank in the organizations to which they shall be assigned and shall be entitled to the pay and allowances of the corresponding grades in the regular army, with increase of pay for length of service as now allowed by law for the regular army: Provided, That upon a call by the president for a volunteer force the members of the enlisted reserve corps may be mustered into the service of the United States as volunteers for duty with the army in the grades held by them in the said corps, and shall be entitled to the pay and allowances of the corresponding grades in the regular army, with increase of pay for length of service, as now provided by law for the regular army: And provided further, That enlisted men of the enlisted reserve corps shall not acquire by virtue of issuance of certificates of enlistment to them a vested right to be mustered into the volunteer service of the United States.

Sec. 56. Military Equipment and Instructors at Other Schools and Colleges—Such arms, tentage and equipment as the secretary of war shall deem necessary to proper military training shall be supplied by the government to schools and colleges, other than those provided for in sections of this act, having a course of military training prescribed by the secretary of war and having not less than 100 physically fit male students above the age of 14 years, under such rules and regulations as he may prescribe; and the secretary of war is hereby authorized to detail such commissioned and noncommissioned officers of the army to said schools and colleges, other than those provided for in sections 45 and 46 of this act, detailing not less than one such officer or noncommissioned officer to each 500 students under military instruction.

Sec. 57. Composition of the Militia—The militia of the United States shall consist of all able-bodied male citizens of the United States and all other able-bodied males who have or shall hereafter declared their intention to become citizens of the United States who shall be more than 18 years of age, and except as hereinafter provided, not more than 45 years of age, and said militia shall be divided into three classes, the national guard, the naval militia and the unorganized militia.

Sec. 58. Composition of the National Guard—The national guard shall consist of the regularly enlisted militia between the ages of 18 and 45 years organized, armed and equipped as hereinafter provided, and of commissioned officers between the ages of 21 and 64 years.

Sec. 59. Exemptions from Militia Duty—The vice-president of the United States; the officers, judicial and executive, of the government of the United States and of the several states and territories; persons in the military or naval service of the United States; custom house clerks; persons employed by the United States in the transmission of the mail; artificers and workmen employed in the armories, arsenals and navy yards of the United States; pilots; mariners actually employed in the sea service of any citizen or merchant within the United States, shall be exempt from militia duty without regard to age, and all persons who because of religious belief

shall claim exemption from military service, if the conscientious holding of such belief by such person shall be established under such regulations as the president shall prescribe, shall be exempted from militia service in a combatant capacity; but no person so exempted shall be exempt from militia service in any capacity that the president shall declare to be noncombatant.

Sec. 60. Organization of National Guard Units.—Except as otherwise specifically provided herein, the organization of the national guard, including the composition of all units thereof, shall be the same as that which is or may hereafter be prescribed for the regular army, subject in time of peace to such general exceptions as may be authorized by the secretary of war. And the president may prescribe the particular unit or units, as to branch or arm of service, to be maintained in each state, territory or the District of Columbia in order to secure a force which, when combined, shall form complete higher tactical units.

Sec. 61. Maintenance of Other Troops by the States.—No state shall maintain troops in time of peace other than as authorized in accordance with the organization prescribed under this act: Provided, That nothing contained in this act shall be construed as limiting the rights of the states and territories in the use of the national guard within their respective borders in time of peace: Provided further, That nothing contained in this act shall prevent the organization and maintenance of state police or constabulary.

Sec. 62. Number of the National Guard.—The number of enlisted men of the national guard to be organized under this act within one year from its passage shall be for each state in the proportion of 200 such men for each senator and representative in congress from such state, and a number to be determined by the president for each territory and the District of Columbia, and shall be increased each year thereafter in the proportion of not less than 50 per centum until a total peace strength of not less than 800 enlisted men for each senator and representative in congress shall have been reached: Provided, That in states which have but one representative in congress such increase shall be at the discretion of the president: Provided further, That this shall not be construed to prevent any state, territory or the District of Columbia from organizing the full number of troops required under this section in less time than is specified in this section, or from maintaining existing organizations if they shall conform to such rules and regulations regarding organization, strength and armament as the president may prescribe: And provided further, That nothing in this act shall be construed to prevent any state with but one representative in congress from organizing one or more regiments of troops, with such auxiliary troops as the president may prescribe; such organizations and members of such organizations to receive all the benefits accruing under this act under the conditions set forth herein: Provided further, That the word territory as used in this act and in all laws relating to the land militia and national guard shall include and apply to Hawaii, Alaska, Porto Rico and the Canal Zone; and the militia of the Canal Zone shall be organized under such rules and regulations, not in conflict with the provisions of this act, as the president may prescribe.

Sec. 63. Any corps of artillery, cavalry or infantry existing in any of the states on the passage of the act of May 17, 1902, by the laws, customs or usages of said states have been in continuous existence since the passage of said act, under its provisions and under the provisions of section 232 and sections 1625 to 1660, both inclusive, of title 16 of the revised statutes of 1873, and the act of Jan. 21, 1903, relating to the militia, shall be allowed to retain its ancient privileges, subject, nevertheless, to all duties required by law of militia: Provided, That said organizations may be a part of the national guard and entitled to all the privileges of this act, and shall conform in all respects to the organization, discipline and training of the national guard in time of war: Provided further,

That for purposes of training and when on active duty in the service of the United States they may be assigned to higher units, as the president may direct, and shall be subject to the orders of officers under whom they shall be serving.

Sec. 64. Assignment of National Guard to Brigades and Divisions.—For the purpose of maintaining appropriate organization and to assist in instruction and training, the president may assign the national guard of the several states and territories and the District of Columbia to divisions, brigades and other tactical units, and may detail officers either from the national guard or the regular army to command such units: Provided, That where complete units are organized within a state, territory or the District of Columbia the commanding officers thereof shall not be displaced under the provisions of this section.

Sec. 65. Chiefs of Staff of National Guard Divisions.—The president may detail one officer of the regular army as chief of staff and one officer of the regular army or the national guard as assistant to the chief of staff of any division of the national guard in the service of the United States as a national guard organization: Provided, That in order to insure the prompt mobilization of the national guard in time of war or other emergency, the president may, in time of peace, detail an officer of the regular army to perform the duties of chief of staff for each fully organized tactical division of the national guard.

Sec. 66. Adjutants-General of States and So Forth.—The adjutants-general of the states, territories and the District of Columbia and the officers of the national guard shall make such returns and reports to the secretary of war, or to such officers as he may designate, at such times and in such form as the secretary of war may from time to time prescribe: Provided, That the adjutants-general of the territories and of the District of Columbia shall be appointed by the president with such rank and qualifications as he may prescribe, and each adjutant-general for a territory shall be a citizen of the territory for which he is appointed.

Sec. 67. Appropriation, Apportionment and Disbursement of Funds for the National Guard.—A sum of money shall hereafter be appropriated annually, to be paid out of the money in the treasury not otherwise appropriated for the support of the national guard, including the expense of providing arms, ordnance stores, quartermaster stores and camp equipment, and all other military supplies for issue to the national guard and such other expenses pertaining to said guard as are now or may hereafter be authorized by law.

The appropriation provided for in this section shall be apportioned among the several states and territories under just and equitable procedure to be prescribed by the secretary of war and in direct ratio to the number of enlisted men in active service in the national guard existing in such states and territories at the date of apportionment of said appropriation, and to the District of Columbia, under such regulations as the president may prescribe: Provided, That the sum so apportioned among the several states, territories and the District of Columbia shall be available under such rules as may be prescribed by the secretary of war for the actual and necessary expense incurred by officers and enlisted men of the regular army when traveling on duty in connection with the national guard; for the transportation of supplies furnished to the national guard for the permanent equipment thereof; for officers and necessary administrative expenses of officers of the regular army on duty with the national guard; for the expenses of the militia bureau, including clerical services, now authorized for the division of militia affairs; for expenses of enlisted men of the regular army on duty with the national guard, including quarters, fuel, light, medicines and medical attendance, and such expenses shall constitute a charge against the whole sum annually appropriated for the support of the national guard, and shall be paid therefrom and not from the allotment duly apportioned to any particular state, territory or the District of Columbia; for the promotion of rifle practice, including the acquisition, construc-

tion, maintenance and equipment of shooting galleries and suitable target ranges; for the hiring of horses and draft animals for the use of mounted troops, batteries and wagons; for forage for the same, and for such other incidental expenses in connection with lawfully authorized encampments, maneuvers and field instruction as the secretary of war may deem necessary and for such other expenses pertaining to the national guard as are now or may hereafter be authorized by law.

The governor of each state and territory and the commanding general of the national guard of the District of Columbia shall appoint, designate or detail, subject to the approval of the secretary of war, an officer of the national guard of the state, territory or District of Columbia who shall be regarded as property and disbursing officer for the United States. He shall receipt and account for all funds and property belonging to the United States in possession of the national guard of his state, territory or district, and shall make returns and reports concerning the same as may be required by the secretary of war. The secretary of war is authorized, on the requisition of the governor of a state or territory or the commanding general of the national guard of the District of Columbia, to pay to the property and disbursing officer thereof so much of its allotment out of the annual appropriation for the support of the national guard as shall, in the judgment of the secretary of war, be necessary for the purposes enumerated therein. He shall render, through the war department, such accounts of federal funds intrusted to him for disbursement as may be required by the treasury department. Before entering upon the performance of his duties as property and disbursing officer he shall be required to give good and sufficient bond to the United States, the amount thereof to be determined by the secretary of war, for the faithful performance of his duties and for the safe-keeping and proper disposition of the federal property and funds intrusted to his care. He shall, after having qualified as property and disbursing officer, receive pay for his services at a rate to be fixed by the secretary of war, and such compensation shall be a charge against the whole sum annually appropriated for the support of the national guard. Provided, That when traveling in the performance of his official duties under orders issued by the proper authorities he shall be reimbursed for his actual necessary traveling expenses, the sum to be made a charge against the allotment of the state, territory or District of Columbia: Provided further, That the secretary of war shall cause an inspection of the accounts and records of the property and disbursing officer to be made by an inspector-general of the army at least once each year: And provided further, That the secretary of war is empowered to make all rules and regulations necessary to carry into effect the provisions of this section.

Sec. 68. Location of Units—The states and territories shall have the right to determine and fix the location of the units and headquarters of the national guard within their respective borders: Provided, That no organization of the national guard, members of which shall be entitled to and shall have received compensation under the provisions of this act, shall be disbanded without the consent of the president, nor, without such consent, shall the commissioned or enlisted strength of any such organization be reduced below the minimum that shall be prescribed therefor by the president.

Sec. 69. Enlistments in the National Guard—Hereafter the period of enlistment in the national guard shall be for six years, the first three years of which shall be in an active organization and the remaining three years in the national guard reserve, hereinafter provided for, and the qualifications for enlistment shall be the same as those prescribed for admission to the regular army: Provided, That in the national guard the privilege of continuing in active service during the whole of an enlistment period and of re-en-

listing in said service shall not be denied by reason of anything contained in this act.

Sec. 70. Federal Enlistment Contract—Enlisted men in the national guard of the several states, territories and the District of Columbia now serving under enlistment contracts which contain an obligation to defend the constitution of the United States and to obey the orders of the president of the United States shall be recognized as members of the national guard under the provisions of this act for the unexpired portion of their present enlistment contracts. When any such enlistment contract does not contain such obligation, the enlisted man shall not be recognized as a member of the national guard until he shall have signed an enlistment contract and taken and subscribed to the following oath of enlistment, upon signing which credit shall be given for the period already served under the old enlistment contract: "I do hereby acknowledge to have voluntarily enlisted this ____ day of ____, 19____, as a soldier in the national guard of the United States and of the state of ____, for the period of three years in service and three years in the reserve, under the conditions prescribed by law, unless sooner discharged by proper authority. And I do solemnly swear that I will bear true faith and allegiance to the United States of America and to the state of ____, and that I will serve them honestly and faithfully against all their enemies whomsoever, and that I will obey the orders of the president of the United States and of the governor of the state of ____, and of the officers appointed over me according to law and the rules and articles of war."

Sec. 71. Hereafter all men enlisting for service in the national guard shall sign an enlistment contract and take and subscribe to the oath prescribed in the preceding section of this act.

Sec. 72. Discharge of Enlisted Men from the National Guard—An enlisted man discharged from service in the national guard shall receive a discharge in writing in such form and with such classification as is or shall be prescribed for the regular army, and in time of peace discharges may be given prior to the expiration of the term of enlistment under such regulations as the president may prescribe.

Sec. 73. Federal Oath for National Guard Officers—Commissioned officers of the national guard of the several states, territories and the District of Columbia now serving under commissions regularly issued shall continue in office, as officers of the national guard, without the issuance of new commissions: Provided, That said officers have taken or shall take and subscribe to the following oath of office: "I, ____, do solemnly swear that I will support and defend the constitution of the United States and the constitution of the state of ____, against all enemies, foreign and domestic; that I will bear true faith and allegiance to the same; that I will obey the orders of the president of the United States and of the governor of the state of ____; that I make this obligation freely, without any mental reservation or purpose of evasion, and that I will well and faithfully discharge the duties of the office of ____ in the national guard of the United States and of the state of ____, upon which I am about to enter, so help me God."

Sec. 74. Qualifications for National Guard Officers—Persons hereafter commissioned as officers of the national guard shall not be recognized as such under any of the provisions of this act unless they shall have been selected from the following classes and shall have taken and subscribed to the oath of office prescribed in the preceding section of this act: Officers or enlisted men of the national guard; officers on the reserve or unassigned list of the national guard; officers, active or retired, and former officers of the United States army, navy and marine corps; graduates of the United States military and naval academies and graduates of schools, colleges and universities where military science is taught under the supervision of an officer of the regular army, and, for the technical branches and staff

corps or departments, such other civilians as may be especially qualified for duty therein.

Sec. 75. The provisions of this act shall not apply to any person hereafter appointed an officer of the national guard unless he first shall have successfully passed such tests as to his physical, moral and professional fitness as the president shall prescribe. The examination to determine such qualifications for commission shall be conducted by a board of three commissioned officers appointed by the secretary of war from the regular army or the national guard, or both.

Sec. 76. Filling of Vacancies When Drafted into Federal Service—All vacancies occurring in any grade of commissioned officers in any organization in the military service of the United States and composed of persons drafted from the national guard under the provisions of this act shall be filled by the president, as far as practicable, by the appointment of persons similarly taken from said guard, and in the manner prescribed by law for filling similar vacancies occurring in the volunteer forces.

Sec. 77. Elimination and Disposition of Officers—At any time the moral character, capacity and general fitness for the service of any national guard officer may be determined by an efficiency board of three commissioned officers, senior in rank to the officer whose fitness for service shall be under investigation, and if the findings of such board be unfavorable to such officer and be approved by the official authorized to appoint such an officer, he shall be discharged. Commissions of officers of the national guard may be vacated upon resignation, absence without leave for three months, upon the recommendation of an efficiency board, or pursuant to sentence of a court-martial. Officers of said guard rendered surplus by the disbanding of their organizations shall be placed in the national guard reserve. Officers may, upon their own application, be placed in the said reserve.

Sec. 78. The National Guard Reserve—Subject to such rules and regulations as the president may prescribe, a national guard reserve shall be organized in each state, territory and the District of Columbia, and shall consist of such organizations, officers and enlisted men as the president may prescribe, or members thereof may be assigned as reserves to an active organization of the national guard: Provided, That members of said reserve, when engaged in field or coast defense training with the active national guard, shall receive the same federal pay and allowances as enlisted men of like grade on the active list of said guard when likewise engaged: Provided further, That except as otherwise specifically provided in this act no commissioned or enlisted reservist shall receive any pay or allowances out of any appropriation made by congress for national guard purposes.

Sec. 79. Reserve Battalions for Recruit Training—When members of the national guard and the enlisted reserve thereof of any state, territory or the District of Columbia shall have been brought into the service of the United States in time of war, there shall be immediately organized, either from such enlisted reserve or from the unorganized militia, in such state, territory or district, one reserve battalion for each regiment of infantry or cavalry, or each nine batteries of field artillery, or each twelve companies of coast artillery, brought into the service of the United States and such reserve battalion shall constitute the fourth battalion of any such regiment or twelve companies of coast artillery. Reserve battalions shall consist of four companies of such strength as may be prescribed by the president of the United States. When the members of three or more regiments of the national guard of any state, territory or district shall have been brought into the service of the United States the reserve battalions of such regiments may be organized into provisional regiments and higher units. If for any reason there shall not be enough voluntary enlistments to keep the reserve battalions at the prescribed strength, a sufficient number of the unorganized militia shall be drafted into the service of the United States

to maintain each of such battalions at the proper strength. As vacancies occur from death or other causes in any organization in the service of the United States and composed of men taken from the national guard, men shall be transferred from the reserve battalions to the organizations in the field so that such organizations may be maintained at war strength. Officers for the reserve battalions provided for herein shall be drafted from the national guard reserve or coast artillery companies of the national guard or the officers' reserve corps, such officers to be taken, if practicable, from the states, respectively, in which the battalions shall be organized. Officers and noncommissioned officers returned to their home stations because of their inability to perform active field service may be assigned to reserve battalions for duty, and all soldiers invalided home shall be assigned to and carried on the rolls of reserve battalions until returned to duty or until discharged.

Sec. 80. Leaves of Absence for Certain Government Employees—All officers and employees of the United States and of the District of Columbia who shall be members of the national guard shall be entitled to leave of absence from their respective duties, without loss of any pay, time or efficiency rating, on all days during which they shall be engaged in field or coast defense training ordered or authorized under the provisions of this act.

Sec. 81. Militia Bureau of the War Department—The national militia board created by section 11 of the act of May 27, 1908, amending section 20 of the act of Jan. 21, 1903, shall, from the date of the approval of this act, be abolished. The militia division now existing in the war department shall hereafter be known as the militia bureau of said department, shall, like other bureaus of said department, be under the immediate supervision of the secretary of war, and shall not form a part of any other bureau, office or other organization, but the chief of the militia bureau shall be ex officio a member of the general staff corps: Provided, That the president may, in his discretion, assign to duty in the militia bureau as assistants to the chief thereof not to exceed one colonel and one lieutenant-colonel of the national guard, for terms of four years, and any such officer while so assigned shall, subject to such regulations as the president may prescribe, receive out of the whole fund appropriated for the support of the militia the pay and allowances of a regular army officer having the same rank and length of service as said national guard officer, whose service in the organized militia shall be counted in ascertaining his rights under this proviso.

Sec. 82. Armament, Equipment and Uniform of the National Guard—The national guard of the United States shall, as far as practicable, be uniformed, armed and equipped with the same type of uniforms, arms and equipments as are or shall be provided for the regular army.

Sec. 83. The secretary of war is hereby authorized to procure, under such regulations as the president may prescribe, by purchase or manufacture, within the limits of available appropriations made by congress, and to issue from time to time to the national guard upon requisition of the governors of the several states and territories or the commanding general of the national guard of the District of Columbia, such named United States service arms, with all accessories, field artillery material, engineer, coast artillery, signal and sanitary material, accouterments, field uniforms, clothing, equipage, publications and military stores of all kinds, including public animals, as are necessary to arm, uniform and equip for field service the national guard in the several states, territories and the District of Columbia: Provided, That as a condition precedent to the issue of any property as provided for by this act, the state, territory or the District of Columbia desiring such issue shall make adequate provision, to the satisfaction of the secretary of war, for the protection and care of such property: Provided further, That, whenever it shall be shown to the satisfaction of the

secretary of war that the national guard of any state, territory or the District of Columbia is properly organized, armed and equipped for field service, funds allotted to that state, territory or district for the support of its national guard may be used for the purchase, from the war department, of any article issued by any of the supply departments of the army.

Sec. 84. Under such regulations as the president may prescribe, whenever a new type of equipment, small arm or field gun shall have been issued to the national guard of the several states, territories and the District of Columbia, such equipment, small arms and field guns, including all accessories, shall be furnished without charging the cost or value thereof or any expense connected therewith against the appropriations provided for the support of the national guard.

Sec. 85. Each state, territory and the District of Columbia shall, on the receipt of new property issued to replace obsolete or condemned prior issues, turn in to the war department or otherwise dispose of, in accordance with the directions of the secretary of war, all property so replaced or condemned, and shall not receive any money credit therefor.

Sec. 86. Any state, territory or the District of Columbia may, with the approval of the secretary of war, purchase for cash from the war department for the use of the national guard, including the officers thereof, any stores, supplies, material of war and military publications furnished to the army, in addition to those issued under the provisions of this act, at the price at which they shall be listed to the army, with cost of transportation added. The funds received from such sale shall be credited to the appropriation to which they shall belong, shall not be covered into the treasury, and shall be available until expended to replace therewith the supplies sold to the states in the manner herein authorized: Provided, That stores, supplies and material of war so purchased by a state, territory or the District of Columbia may, in time of actual or threatened war, be requisitioned by the United States for use in the military service thereof, and when so requisitioned by the United States and delivered, credit for the ultimate return of such property in kind shall be allowed to such state, territory or the District of Columbia.

Sec. 87. Disposition and Replacement of Damaged Property, and Sec. 88. All military property issued to the national guard as herein provided shall remain the property of the United States. Whenever any such property issued to the national guard in any state or territory or the District of Columbia shall have been lost, damaged or destroyed, or become unserviceable or unsuitable by use in service or from any other cause, it shall be examined by a disinterested surveying officer of the regular army or the national guard, detailed by the secretary of war, and the report of such surveying officer shall be forwarded to the secretary of war, or to such officer as he shall designate to receive such reports; and if it shall appear to the secretary of war from the record of survey that the property was lost, damaged or destroyed through unavoidable causes, he is hereby authorized to relieve the state or territory or the District of Columbia from further accountability therefor. If it shall appear that the loss, damage or destruction of property was due to carelessness or neglect, or that its loss, damage or destruction could have been avoided by the exercise of reasonable care, the money value of such property shall be charged to the accountable state, territory or District of Columbia, to be paid from state, territory or district funds, or any funds other than federal. If the articles so surveyed are found to be unserviceable or unsuitable, the secretary of war shall direct what disposition, by sale or otherwise, shall be made of them; and, if sold, the proceeds of such sale, as well as stoppages against officers and enlisted men, and the net proceeds of collections made from any person or from any state, territory or district

to reimburse the government for the loss, damage or destruction of any property, shall be deposited in the treasury of the United States as a credit to said state, territory or the District of Columbia, accountable for said property, and as a part of and in addition to that portion of its allotment set aside for the purchase of similar supplies, stores or material of war: Provided further, That if any state, territory or the District of Columbia shall neglect or refuse to pay or to cause to be paid the money equivalent of any loss, damage or destruction of property charged against such state, territory or the District of Columbia by the secretary of war after survey by a disinterested officer appointed as hereinbefore provided, the secretary of war is hereby authorized to debar such state, territory or the District of Columbia from further participation in any and all appropriations for the national guard until such payment shall have been made.

Sec. 88. The net proceeds of the sale of condemned stores issued to the national guard and not charged to state allotments shall be covered into the treasury of the United States, as shall also stoppages against officers and enlisted men, and the net proceeds of collections made from any person to reimburse the government for the loss, damage or destruction of said property not charged against the state allotment issued for the use of the national guard.

Sec. 89. Horses for Cavalry and Field Artillery of National Guard—Funds allotted by the secretary of war for the support of the national guard shall be available for the purchase, under such regulations as the secretary of war may prescribe of horses conforming to the regular army standards for the use of field artillery and cavalry of the national guard, said horses to remain the property of the United States and to be used solely for military purposes.

Horses so purchased may be issued not to exceed thirty-two to any one battery or troop, under such regulations as the secretary of war may prescribe; and the secretary of war is further authorized to issue, in lieu of purchase, for the use of such organizations, condemned army horses which are no longer fit for service, but which may be suitable for the purposes of instruction, such horses to be sold as now provided by law when said purposes shall have been served.

Sec. 90. Funds allotted by the secretary of war for the support of the national guard shall be available for the purchase and issue of forage, bedding, shoeing and veterinary services and supplies for the government horses issued to any battery or troop, and for the compensation of competent help for the care of the material, animals and equipment thereof, under such regulations as the secretary of war may prescribe: Provided, That the men to be compensated, not to exceed five for each battery or troop, shall be duly enlisted therein and shall be detailed by the battery or troop commander, under such regulations as the secretary of war may prescribe, and shall be paid by the United States disbursing officer in each state, territory and the District of Columbia.

Sec. 91. Discipline to Conform to That of Regular Army—The discipline (which includes training) of the national guard shall conform to the system which is now or may hereafter be prescribed for the regular army, and the training shall be carried out by the several states, territories and the District of Columbia so as to conform to the provisions of this act.

Sec. 92. Training of the National Guard—Each company, troop, battery and detachment in the national guard shall assemble for drill and instruction, including indoor target practice, not less than forty-eight times each year, and shall, in addition thereto, participate in encampments, maneuvers, or other exercises, including outdoor target practice, at least fifteen days in training each year, including target practice, unless such company, troop, battery, or detachment shall have been excused from participation in any part thereof by the secretary of war: Provided, That credit for an assembly for drill or

for indoor target practice shall not be given unless the number of officers and enlisted men present for duty at such assembly shall equal or exceed a minimum to be prescribed by the president, nor unless the period of actual military duty and instruction participated in by each officer and enlisted man at each such assembly at which he shall be credited as having been present shall be of at least one and one-half hours' duration and the character of training such as may be prescribed by the secretary of war.

Sec. 93. Inspections of the National Guard.—The secretary of war shall cause an inspection to be made at least once each year by inspectors general, and if necessary by other officers of the regular army, detailed by him for that purpose, to determine whether the amount and condition of the property in the hands of the national guard is satisfactory; whether the national guard is organized as hereinbefore prescribed; whether the officers and enlisted men possess the physical and other qualifications prescribed; whether the organization and the officers and enlisted men thereof are sufficiently armed, uniformed, equipped, and being trained and instructed for active duty in the field or coast defense, and whether the records are being kept in accordance with the requirements of this act. The reports of such inspections shall serve as the basis for deciding as to the issue to and retention by the national guard of the military property provided for by this act, and for determining what organizations and individuals shall be considered as constituting parts of the national guard within the meaning of this act.

Sec. 94. Encampments and Maneuvers.—Under such regulations as the president may prescribe the secretary of war is authorized to provide for the participation of the whole or any part of the national guard in encampments, maneuvers, or other exercises, including outdoor target practice, for field or coast defense instruction, either independently or in conjunction with any part of the regular army, and there may be set aside from the funds appropriated for that purpose and allotted to any state, territory or the District of Columbia such portion of said funds as may be necessary for the payment, subsistence, transportation, and other proper expenses of such portion of the national guard of such state, territory or the District of Columbia as shall participate in such encampments, maneuvers, or other exercises, including outdoor target practice, for field and coast-defense instruction; and the officers and enlisted men of such national guard while so engaged shall be entitled to the same pay, subsistence and transportation as officers and enlisted men of corresponding grades of the regular army are or hereafter may be entitled to by law.

Sec. 95. When any part of the national guard participates in encampments, maneuvers, or other exercises, including outdoor target practice, for field or coast-defense instruction at a United States military post, or reservation, or elsewhere, if in conjunction with troops of the United States, the command of such military post or reservation and of the officers and troops of the United States on duty there or elsewhere shall remain with the commander of the United States troops without regard to the rank of the commanding or other officer of the national guard temporarily engaged in the encampments, maneuvers or other exercises.

Sec. 96. Use of Regular Army Personnel.—The secretary of war may detail one or more officers and enlisted men of the regular army to attend any encampment, maneuver or other exercise for field or coast defense instruction of the national guard, who shall give such instruction and information to the officers and men assembled for such encampment, maneuver or other exercise as may be directed by the secretary of war or requested by the governor or by the commanding officer of the national guard there on duty.

Sec. 97. Under such regulations as the president may prescribe the secretary of war may

provide camps for the instruction of officers and enlisted men of the national guard. Such camps shall be conducted by officers of the regular army detailed by the secretary of war for that purpose and may be located either within or without the state, territory or District of Columbia to which the members of the national guard designated to attend said camps shall belong. Officers and enlisted men attending such camps shall be entitled to pay and transportation, and enlisted men to subsistence in addition, at the same rates as for encampments or maneuvers for field or coast defense instruction.

Sec. 98. When any portion of the national guard shall participate in encampments, maneuvers or other exercises, including outdoor target practice, for field or coast defense instruction, under the provisions of this act, it may, after being duly mustered, be paid at any time after such muster for the period from the date of leaving the home rendezvous to date of return thereto as determined in advance, both dates inclusive; and such payment, if otherwise correct, shall pass to the credit of the disbursing officer making the same.

Sec. 99. National Guard Officers and Men at Service Schools, and Sec. 100.—Under such regulations as the president may prescribe, the secretary of war may, upon the recommendation of the governor of any state or territory or the commanding general of the national guard of the District of Columbia, authorize a limited number of selected officers or enlisted men of the national guard to attend and pursue a regular course of study at any military service school of the United States, except the United States military academy; or to be attached to an organization of the same arm, corps or department to which such officer or enlisted man shall belong, for routine practical instruction at or near an army post during a period of field training or other outdoor exercises; and such officer or enlisted man shall receive, from any national guard allotment of funds available for the purpose, the same travel allowances and quarters, or commutation of quarters, and the same pay, allowances and subsistence to which an officer or enlisted man of the regular army would be entitled for attending such school, college or practical course of instruction under orders from proper military authority, while in actual attendance at such school, college or practical course of instruction: Provided, That in no case shall the pay and allowances authorized by this section exceed those of a captain.

Sec. 100. Detail of Officers of Regular Army to Duty with the National Guard.—The secretary of war shall detail officers of the active list of the army to duty with the national guard in each state, territory or District of Columbia, and officers so detailed may accept commissions in the national guard, with the permission of the president and terminable in his discretion, without vacating their commissions in the regular army or being prejudiced in their relative or lineal standing therein. The secretary of war may, upon like application, detail one or more enlisted men of the regular army with each state, territory or District of Columbia for duty in connection with the national guard. But nothing in this section shall be so construed as to prevent the detail of retired officers as now provided by law.

Sec. 101. National Guard, When Subject to Laws Governing Regular Army.—The national guard when called as such into the service of the United States shall, from the time they are required by the terms of the call to respond thereto, be subject to the laws and regulations governing the regular army, so far as such laws and regulations are applicable to officers and enlisted men whose permanent retention in the military service, either on the active list or on the retired list, is not contemplated by existing law.

Sec. 102. System of Courts-Martial for National Guard.—Except in organizations in the service of the United States, court-martial in the national guard shall be of three kinds—namely,

general courts-martial, special courts-martial and summary courts-martial. They shall be constituted like and have cognizance of the same subjects, and possess like powers, except as to punishments, as similar courts provided for by the laws and regulations governing the army of the United States, and the proceedings of courts-martial of the national guard shall follow the forms and modes of procedure prescribed for said similar courts.

Sec. 103. General courts-martial of the national guard not in the service of the United States may be convened by orders of the president, or of the governors of the respective states and territories, or by the commanding general of the national guard of the District of Columbia, and such courts shall have the power to impose fines not exceeding \$200; to sentence to forfeiture of pay and allowances; to a reprimand; to dismissal or dishonorable discharge from the service; to reduction of noncommissioned officers to the ranks; or any two or more of such punishments may be combined in the sentences imposed by such courts.

Sec. 104. In the national guard, not in the service of the United States, the commanding officer of each garrison, fort, post, camp or other place, brigade, regiment, detached battalion or other detached command may appoint special courts-martial for his command; but such special courts-martial may in any case be appointed by superior authority when by the latter deemed desirable. Special courts-martial shall have power to try any person subject to military law, except a commissioned officer, for any crime or offense made punishable by the military laws of the United States, and such special courts-martial shall have the same powers of punishment as do general courts-martial, except that fines imposed by such courts shall not exceed \$100.

Sec. 105. In the national guard, not in the service of the United States, the commanding officer of each garrison, fort, post or other place, regiment or corps, detached battalion, company or other detachment of the national guard may appoint for such place or command a summary court to consist of one officer, who shall have power to administer oaths and to try the enlisted men of such place or command for breaches of discipline and violations of laws governing such organizations; and said court, when satisfied of the guilt of such soldier, may impose fines not exceeding \$25 for any single offense, may sentence noncommissioned officer to reduction to the ranks, may sentence to forfeiture of pay and allowances. The proceedings of such court shall be informal and the minutes thereof shall be the same as prescribed for summary courts of the army of the United States.

Sec. 106. All courts-martial of the national guard, not in the service of the United States, including summary courts, shall have power to sentence to confinement in lieu of fines authorized to be imposed: Provided, That such sentences of confinement shall not exceed one day for each dollar of fine authorized.

Sec. 107. No sentence of dismissal from the service or dishonorable discharge, imposed by a national guard court-martial, not in the service of the United States, shall be executed until approved by the governor of the state or territory concerned or by the commanding general of the national guard of the District of Columbia.

Sec. 108. In the national guard, not in the service of the United States, presidents of courts-martial and summary court officers shall have power to issue warrants to arrest accused persons and to bring them before the court for trial whenever such persons shall have disobeyed an order in writing from the convening authority to appear before such court, a copy of the charge or charges having been delivered to the accused with such order, and to issue subpoenas and subpoenas duces tecum and to enforce by attachment attendance of witnesses and the production of books and papers, and to sentence for a refusal to be sworn or to answer as provided in actions before civil courts.

All processes and sentences of said courts shall be executed by such civil officers as may be prescribed by the laws of the several states and territories, and in any state where no provision shall have been made for such action, and in the territories and the District of Columbia, such processes and sentences shall be executed by a United States marshal or his duly appointed deputy, and it shall be the duty of any United States marshal to execute all such processes and sentences and make return thereof to the officer issuing or imposing the same.

Sec. 109. Pay for National Guard Officers—Certain commissioned officers on the active list belonging to organizations of the national guard of each state, territory and the District of Columbia participating in the apportionment of the annual appropriation for the support of the national guard shall receive compensation for their services, except during periods of service for which they may become lawfully entitled to the same pay as officers of corresponding grades of the regular army, as follows, not to include longevity pay: A captain \$500 per year, and the same pay shall be paid to every officer of higher rank than that of captain; a first lieutenant \$240 per year and a second lieutenant \$200 per year. Regulations to be prescribed by the secretary of war shall determine the amount and character of service that must be rendered by officers to entitle them to the whole or specific parts of the maximum pay hereinbefore authorized: Provided, That all staff officers, aids-de-camp and chaplains shall receive not to exceed one-half of the pay of a captain, except that regimental adjutants and majors and captains in command of machine gun companies, ambulance companies, field hospital companies or sanitary troops shall receive the pay hereinbefore authorized for a captain.

Sec. 110. Pay for National Guard Enlisted Men—Each enlisted man on the active list belonging to an organization of the national guard of a state, territory or the District of Columbia, participating in the apportionment of the annual appropriation for the support of the national guard, shall receive compensation for his services, except during periods of service for which he may become lawfully entitled to the same pay as an enlisted man of corresponding grade in the regular army, at a rate equal to 25 per centum of the initial pay now provided by law for enlisted men of corresponding grades of the regular army: Provided, That such enlisted man shall receive the compensation herein provided if he shall have attended not less than forty-eight regular drills during any one year, and a proportionate amount for attendance upon a lesser number of such drills, not less than twenty-four; and no such enlisted man shall receive any part of said compensation except as authorized by this proviso and the three provisos next following: Provided further, That the compensation provided herein shall be computed for semiannual periods, beginning the first day of January and the first day of July of each year, in proportion to the number of drills attended; and no compensation shall be paid to any enlisted man for the first semiannual period of any year unless he shall have attended during said period at least twenty-four drills, but any lesser number of drills attended during said period shall be reckoned with the drills attended during the second semiannual period in computing the compensation, if any, due him for that year: Provided further, That when any man enters into an enlistment other than an immediate re-enlistment he shall be entitled to proportional compensation for that year if during the remainder of the year he shall attend a number of drills whose ratio to twenty-four is not less than the ratio of the part of the year so served to the whole year; and when any man's enlistment shall expire the compensation, if any, to which he may be entitled shall be determined in like manner: Provided further, That periods of any actual military duty equivalent to the drills herein prescribed (except those periods of service for which members of the national guard may become lawfully entitled to the same pay as officers and enlisted men of the corre-

sponding grades in the regular army) may be accepted as service in lieu of such drills when so provided by the secretary of war.

All amounts appropriated for the purpose of this and the last preceding section shall be disbursed and accounted for by the officers and agents of the quartermaster corps of the army, and all disbursements under the foregoing provisions of this section shall be made as soon as practicable after the 31st day of December and the 30th day of June of each year upon pay rolls prepared and authenticated in the manner to be prescribed by the secretary of war. Provided, That stoppages may be made against the compensation payable to any officer or enlisted man hereunder to cover the cost of public property lost or destroyed by and chargeable to such officer or enlisted man.

Except as otherwise specifically provided herein, no money appropriated under the provisions of this or the last preceding section shall be paid to any person not on the active list, nor to any person over 64 years of age, nor to any person who shall fail to qualify as to fitness for military service under such regulations as the secretary of war shall prescribe, nor to any state, territory or district, or officer or enlisted man in the national guard, militia, or reserve, and until such state, territory or district provides by law that staff officers, including officers of the pay, inspection, subsistence, and medical departments, hereafter appointed shall have had previous military experience and shall hold their positions until they shall have reached the age of 64 years, unless retired prior to that time by reason of resignation, disability, or for cause to be determined by a court-martial legally convened for that purpose, and that vacancies among said officers shall be filled by appointment from the officers of the militia of such state, territory, or district: Provided further, That the preceding proviso shall not apply to any state, territory, or district until sixty days next after the adjournment of the next session of its legislature held after the approval of this act.

Sec. 111. National Guard When Drafted Into Federal Service—When congress shall have authorized the use of the armed land forces of the United States, for any purpose requiring the use of troops in excess of those of the regular army, the president may, under such regulations, including such physical examination, as he may prescribe, draft into the military service of the United States, to serve therein for the period of the war unless sooner discharged, any or all members of the national guard and of the national guard reserve. All persons so drafted shall, from the date of their draft, stand discharged from the militia, and shall from said date be subject to such laws and regulations for the government of the army of the United States as may be applicable to members of the volunteer army, and shall be embodied in organizations corresponding as far as practicable to those of the regular army or shall be otherwise assigned as the president may direct. The commissioned officers of said organizations shall be appointed from among the members thereof, officers with rank not above that of colonel to be appointed by the president alone, and all other officers to be appointed by the president by and with the advice and consent of the senate. Officers and enlisted men in the service of the United States under the terms of this section shall have the same pay and allowances as officers and enlisted men of the regular army of the same grades and the same prior service.

Sec. 112. Rights to Pensions—When any officer or enlisted man of the national guard drafted into the service of the United States in time of war is disabled by reason of wounds or disability received or incurred while in the active service of the United States in time of war, he shall be entitled to all the benefits of the pension laws existing at the time of his service, and in case such officer or enlisted man dies in the active service of the United States in time of war or in returning to his place of residence after being mustered out of such service, or at

any other time in consequence of wounds or disabilities received in such active service, his widow and children, if any, shall be entitled to all the benefits of such pension laws.

Sec. 113. Encouragement of Rifle Practice—The secretary of war shall annually submit to congress recommendations and estimates for the establishment and maintenance of indoor and outdoor rifle ranges, under such a comprehensive plan as will ultimately result in providing adequate facilities for rifle practice in all sections of the country. And that all ranges so established, and all ranges which may have already been constructed, in whole or in part with funds provided by congress shall be open for use by those in any branch of the military or naval service of the United States and by all able-bodied males capable of bearing arms, under reasonable regulations to be prescribed by the controlling authorities and approved by the secretary of war. That the president may detail capable officers and noncommissioned officers of the regular army and national guard to duty at such ranges as instructors for the purpose of training the citizenry in the use of the military arm. Where rifle ranges shall have been so established and instructors assigned to duty thereat, the secretary of war shall be authorized to provide for the issue of a reasonable number of standard military rifles and such quantities of ammunition as may be available for use in conducting such rifle practice.

Sec. 114. Temporary Vacancies in Regular Army Due to Details to the National Guard—In time of war the temporary vacancies created in any grade not above that of colonel among the commissioned personnel of any arm, staff corps, or department of the regular army, through appointments of officers thereof to higher rank in organizations composed of members taken from the national guard, shall be filled by temporary promotions according to seniority in rank from officers holding commissions in the next lower grade in said arm, staff corps, or department, and all vacancies created in any grade by such temporary promotions shall be in like manner filled from, and thus create temporary vacancies in, the next lower grade, and the vacancies that shall remain thereafter in said arm, staff corps, or department and that cannot be filled by temporary promotions, as prescribed in this section, may be filled by the temporary appointment of officers of such number and grade or grades as shall maintain said arm, corps, or department at the full commissioned strength authorized by law: Provided, That in the staff corps and departments subject to the provisions of sections 26 and 27 of the act of Feb. 2, 1901, and acts amendatory thereof, temporary vacancies that cannot be filled by temporary promotions as hereinbefore prescribed shall be filled by temporary details in the manner prescribed in said sections 26 and 27, and acts amendatory thereof, and the resulting temporary vacancies in the branches of the army from which the details shall be so made shall be filled as hereinbefore in this section prescribed: Provided further, That officers temporarily promoted or appointed under the terms of this section shall be promoted or appointed by the president, by and with the advice and consent of the senate, for terms that shall not extend beyond the war or the passing of the emergency for which additional forces were brought into the military service of the United States, and at the termination of the war or the passing of the emergency said officers shall be discharged from the positions held by them under their temporary commissions or appointments, and officers detailed as herein authorized shall be relieved from their temporary details: And provided further, That officers temporarily promoted under the provisions of this section shall not vacate their permanent commissions nor be prejudiced in their relative or lineal standing in the regular army.

Sec. 115. Physical Examination—Every officer and enlisted man of the national guard who shall be called into the service of the United

States as such shall be examined as to his physical fitness under such regulations as the president may prescribe without further commission or enlistment. Provided, That immediately preceding the muster out of an officer or enlisted man called into the active service of the United States he shall be physically examined under rules prescribed by the president of the United States and the record thereof shall be filed and kept in the war department.

Sec. 116. Noncompliance with Federal Act—Whenever any state shall, within a limit of time to be fixed by the president, have failed or refused to comply with or enforce any requirement of this act, or any regulation promulgated thereunder and in aid thereof by the president or the secretary of war, the national guard of such state shall be directed, wholly or in part, as the president may direct, from receiving from the United States any pecuniary or other aid, benefit or privilege authorized or provided by this act or any other law.

Sec. 117. Applicable to Land Forces Only—The provisions of this act in respect to the militia shall be applicable only to militia organized as a land force and not to the naval militia, which shall consist of such part of the militia as may be prescribed by the president for each state, territory or district: Provided, That each state, territory or district maintaining a naval militia herein prescribed may be credited to the extent of the number hereof in the quota that would otherwise be required by section 62 of this act.

Sec. 118. Necessary Rules and Regulations—The president shall make all necessary rules and regulations and issue such orders as may be necessary for the thorough organization, discipline and government of the militia provided for in this act.

Sec. 119. Annual Estimates Required—The secretary of war shall cause to be estimated annually the amount necessary for carrying out the provisions of so much of this act as relates to the militia and the money shall be expended under said provisions except as shall from time to time be appropriated for carrying them out.

Sec. 120. Purchase or Procurement of Military Supplies in Time of Actual or Imminent War—The president, in time of war or when war is imminent, is empowered, through the head of any department of the government, in addition to the present authorized methods of purchase or procurement, to place an order with any individual, firm, association, company, corporation or organized manufacturing industry for such product or material as may be required and which is of the nature and kind usually produced or capable of being produced by such individual, firm, company, association, corporation or organized manufacturing industry.

Compliance with all such orders for products or material shall be obligatory on any individual, firm, association, company, corporation or organized manufacturing industry or the responsible head or heads thereof and shall take precedence over all other orders and contracts theretofore placed with such individual, firm, company, association, corporation or organized manufacturing industry, and any individual, firm, association, company, corporation or organized manufacturing industry or the responsible head or heads thereof owning or operating any plant equipped for the manufacture of arms or ammunition, or parts of ammunition, or any necessary supplies or equipment for the army, and any individual, firm, association, company, corporation or organized manufacturing industry or the responsible head or heads thereof owning or operating any manufacturing plant, which in the opinion of the secretary of war shall be capable of being readily transformed into a plant for the manufacture of arms or ammunition, or parts thereof, or other necessary supplies or equipment, who shall refuse to give to the United States such preference in the matter of the execution of orders, or who shall refuse to manufacture the kind, quantity or quality of arms or ammunition, or the parts thereof, or any necessary supplies or equipment, as ordered by the secretary of war,

or who shall refuse to furnish such arms, ammunition, or parts of ammunition, or other supplies or equipment, at a reasonable price as determined by the secretary of war, then, and in either such case, the president, through the head of any department of the government, in addition to the present authorized methods of purchase or procurement herein provided for, is hereby authorized to take immediate possession of any such plant or plants, and through the ordnance department of the United States army, to manufacture therein in time of war, or when war shall be imminent, such product or material as may be required, and any individual, firm, company, association or corporation, or organized manufacturing industry, or the responsible head or heads thereof, failing to comply with the provisions of this section shall be deemed guilty of a felony, and upon conviction shall be punished by imprisonment for not more than three years and by a fine not exceeding \$50,000.

The compensation to be paid to any individual, firm, company, association, corporation or organized manufacturing industry for its products or material, or as rental for use of any manufacturing plant while used by the United States, shall be fair and just.

The secretary of war shall also make or cause to be made a complete list of all privately owned plants in the United States equipped to manufacture arms or ammunition, or the component parts thereof. He shall obtain full and complete information regarding the kind of arms or ammunition, or the component parts thereof, manufactured or that can be manufactured by each such plant, the equipment in each plant, and the maximum capacity thereof. He shall also prepare, or cause to be prepared, a list of privately owned manufacturing plants in the United States capable of being readily transformed into ammunition factories, where the capacity of the plant is sufficient to warrant transforming such plant or plants into ammunition factories in time of war or when war shall be imminent; and as to all such plants the secretary of war shall obtain full and complete information as to the equipment of each such plant, and he shall prepare comprehensive plans for transforming each such plant into an ammunition factory, or a factory in which to manufacture such parts of ammunition as in the opinion of the secretary of war such plant is best adapted.

The president is hereby authorized, in his discretion, to appoint a board on mobilization of industries essential for military preparedness, non-partisan in character, and to take all necessary steps to provide for such clerical assistance as he may deem necessary to organize and coordinate the work hereinbefore described.

Sec. 121. Investigation as to Government Manufacture of Arms, and So Forth—The secretary of war is hereby authorized to appoint a board of five citizens, two of whom shall be civilians and three of whom shall be officers of the army, to investigate and report on the feasibility, desirability, and practicability of the government's manufacturing arms, munitions and equipment, showing in said report the comparative prices of the arms, munitions, and equipment manufactured in government plants and those manufactured in private plants, the amount of money necessary to build and operate government plants for the manufacture of arms, munitions and equipment; showing also what the government plants and arsenals are now doing in the way of manufacturing arms, munitions and equipment, and what saving has accrued to the government by reason of its having manufactured a large part of its own arms, munitions and equipment for the last four years. And the secretary of war is hereby directed to transmit said report to congress on or before Jan. 4, 1917.

Sec. 122. Investigation Concerning Medals of Honor—A board to consist of five general officers on the retired list of the army shall be convened by the secretary of war, within sixty days after the approval of this act, for the purpose of investigating and reporting upon past awards or issues of the so-called congressional medal of

honor by or through the war department; this with a view to ascertain what medals of honor. If any, have been awarded or issued for any cause other than distinguished conduct by an officer or enlisted man in action involving actual conflict with an enemy by such officer or enlisted man or by troops with which he was serving at the time of such action. And in any case in which said board shall find and report that said medal was issued for any cause other than that hereinbefore specified the name of the recipient of the medal so issued shall be stricken permanently from the official medal of honor list. It shall be a misdemeanor for him to wear or publicly display said medal, and, if he shall still be in the army, he shall be required to return said medal to the war department for cancellation. Said board shall have full and free access to and use of all records pertaining to the award or issue of medals of honor by or through the war department. The actual and necessary expenses of said board and its members shall be paid out of any appropriations available for contingent expenses of the army or the war department.

Sec. 123. Procurement of Gauges, Dies, Jigs, and So Forth, Necessary for Manufacture of Arms, and So Forth.—That the secretary of war be, and he is hereby, authorized to prepare or cause to be prepared, to purchase or otherwise procure, such gauges, dies, jigs, tools, fixtures and other special aids and appliances, including specifications and detailed drawings, as may be necessary for the immediate manufacture, by the government and by private manufacturers, of arms, ammunition and special equipment necessary to arm and equip the land forces likely to be required by the United States in time of war: Provided, That in the expenditure of any sums appropriated to carry out the purposes of this section the existing laws prescribing competition in the procurement of supplies by purchase shall not govern, whenever in the opinion of the secretary of war such action will be for the best interest of the public service.

Sec. 124. Nitrate Supply.—The president of the United States is hereby authorized and empowered to make, or cause to be made, such investigation as in his judgment is necessary to determine the best, cheapest and most available means for the production of nitrates and other products for munitions of war and useful in the manufacture of fertilizers and other useful products by water power or any other power as in his judgment is the best and cheapest to use; and is also hereby authorized and empowered to designate for the exclusive use of the United States, if in his judgment such means is best and cheapest, such site or sites, upon any navigable or nonnavigable river or rivers or upon the public lands, as in his opinion will be necessary for carrying out the purposes of this act; and is further authorized to construct, maintain and operate at or on any site or sites so designated dams, locks, improvements to navigation, power houses and other plants and equipment or other means than water power as in his judgment is the best and cheapest, necessary or convenient for the generation of electrical or other power and for the production of nitrates or other products needed for munitions of war and useful in the manufacture of fertilizers and other useful products.

The president is authorized to lease, purchase or acquire by condemnation, gift, grant or devise such lands and rights of way as may be necessary for the construction and operation of such plants, and to take from any lands of the United States or to purchase or acquire by condemnation materials, minerals and processes, patented or otherwise, necessary for the construction and operation of such plants and for the manufacture of such products.

The products of such plants shall be used by the president for military and naval purposes to the extent that he may deem necessary and any surplus which he shall determine is not required shall be sold and disposed of by him under such regulations as he may prescribe.

The president is hereby authorized and empowered to employ such officers, agents or agencies as may in his discretion be necessary to enable him to carry out the purposes herein specified, and to authorize and require such officers, agents or agencies to perform any and all of the duties imposed upon him by the provisions hereof.

The sum of \$20,000,000 is hereby appropriated, out of any moneys in the treasury not otherwise appropriated, available until expended, to enable the president of the United States to carry out the purposes herein provided for.

The plant or plants provided for under this act shall be constructed and operated solely by the government and not in conjunction with any other industry or enterprise carried on by private capital.

In order to raise the money appropriated by this act and necessary to carry its provisions into effect, the secretary of the treasury, upon the request of the president of the United States, may issue and sell, or use for such purpose or construction hereinabove authorized, any of the bonds of the United States now available in the treasury of the United States under the act of Aug. 5, 1909, the act of Feb. 4, 1910, and the act of March 2, 1911, relating to the issue of bonds for the construction of the Panama canal, to a total amount not to exceed \$20,000,000: Provided, That any Panama canal bonds issued and sold or used under the provisions of this section may be made payable at such time after issue as the secretary of the treasury, in his discretion, may deem advisable, and fix, instead of fifty years after date of issue, as in said act of Aug. 5, 1909, not exceeding fifty years.

Sec. 125. Protection of the Uniform.—It shall be unlawful for any person not an officer or enlisted man of the United States army, navy or marine corps, to wear the duly prescribed uniform of the United States army, navy or marine corps, or any distinctive part of such uniform, or a uniform any part of which is similar to a distinctive part of the duly prescribed uniform of the United States army, navy or marine corps: Provided, That the foregoing provision shall not be construed so as to prevent officers or enlisted men of the national guard from wearing, in pursuance of law and regulations, the uniform lawfully prescribed to be worn by such officers or enlisted men of the national guard; nor to prevent members of the organization known as the Boy Scouts of America, or the naval militia, or such other organizations as the secretary of war may designate, from wearing their prescribed uniforms; nor to prevent persons who in time of war have served honorably as officers of the United States army, navy or marine corps, regular or volunteer, and whose most recent service was terminated by an honorable discharge, muster out or resignation, from wearing, upon occasions of ceremony, the uniform of the highest grade they have held by brevet or other commission in such regular or volunteer service; nor to prevent any person who has been honorably discharged from the United States army, navy or marine corps, regular or volunteer, from wearing his uniform from the place of his discharge to his home, within three months after the date of such discharge; nor to prevent the members of military societies composed entirely of honorably discharged officers or enlisted men, or both, of the United States army, navy, or marine corps, regular or volunteer, from wearing, upon occasions of ceremony, the uniform duly prescribed by such societies to be worn by the members thereof; nor to prevent the instructors and members of the duly organized cadet corps of a state university, state college or public high school offering a regular course in military instruction from wearing the uniform duly prescribed by the authorities of such university, college or public high school to wear by the instructors and members of such cadet corps; nor to prevent the instructors and members of the duly organized cadet corps of any other institution of learning offering a regular course in military instruc-

tion, and at which an officer or enlisted man of the United States army, navy, or marine corps is lawfully detailed for duty as instructor in military science and tactics, from wearing the uniform duly prescribed by the authorities of such institution of learning for wear by the instructors and members of such cadet corps; nor to prevent civilians attendant upon a course of military or naval instruction authorized and conducted by the military or naval authorities of the United States from wearing, while in attendance upon such course of instruction, the uniform authorized and prescribed by such military or naval authorities for wear during such course of instruction; nor to prevent any person from wearing the uniform of the United States army, navy or marine corps in any playhouse or theater or in moving picture films while actually engaged in representing therein a military or naval character not tending to bring discredit or reproach upon the United States army, navy or marine corps: Provided further, That the uniforms worn by officers or enlisted men of the national guard, or by the members of the military societies or the instructors and members of the cadet corps referred to in the preceding proviso shall include some distinctive mark or insignia to be prescribed by the secretary of war to distinguish such uniforms from the uniforms of the United States army, navy and marine corps. And provided further, That the members of the military societies and the instructors and members of the cadet corps hereinbefore mentioned shall not wear the insignia of rank prescribed to be worn by officers of the United States army, navy or marine corps, or any insignia of rank similar thereto.

Any person who offends against the provisions of this section shall, on conviction, be punished by a fine not exceeding \$300, or by imprisonment not exceeding six months, or by both such fine and imprisonment.

Sec. 126. On and after July 1, 1916, an enlisted man when discharged from the service, except by way of punishment for an offense, shall receive $3\frac{1}{2}$ cents per mile from the place of his discharge to the place of his acceptance for enlistment, enrollment or original muster into the service, at his option. Provided, That for sea travel on discharge transportation and subsistence only shall be furnished to enlisted men.

Sec. 127. Nothing in this act shall be held or construed so as to discharge any officer from the regular army or to deprive him of the commission which he now holds therein.

Sec. 128. All laws and parts of laws in so far as they are inconsistent with this act are hereby repealed. (Approved, June 3, 1916.)

INCREASE OF THE NAVY.

The naval appropriation bill, approved Aug. 29, 1916, contained the following provisions for increasing the naval establishment of the United States:

The president of the United States is hereby authorized to undertake prior to July 1, 1919, the construction of the vessels enumerated below:

Ten first class battle ships, carrying as heavy armor and as powerful armament as any vessels of their class, to have the highest practicable speed and greatest desirable radius of action; four of these at a cost, exclusive of armor and armament, not to exceed \$11,500,000 each, to be begun as soon as practicable.

Six battle cruisers, carrying suitable armor and as powerful armament as any vessels of their class, to have the highest practicable speed and greatest desirable radius of action; four of these to cost, exclusive of armor and armament, not to exceed \$16,500,000 each, to be begun as soon as practicable.

Ten scout cruisers, carrying suitable protection and armament suited to their size and type, to have the highest practicable speed and greatest desirable radius of action; four to cost, exclusive of armor and armament, not to exceed \$5,000,000 each, to be begun as soon as practicable.

Fifty torpedo boat destroyers, to have the highest practicable speed and greatest desirable radius of action; twenty to cost, exclusive of armor and armament, not to exceed \$1,200,000 each, to be begun as soon as practicable: Provided, That not less than four of these shall be built on the Pacific coast: Provided further, That the cost of construction on the Pacific coast does not exceed the cost of construction on the Atlantic coast, plus the cost of transportation from the Atlantic to the Pacific.

Nine fleet submarines.

Fifty-eight coast submarines, of which number three to have a surface displacement of about 800 tons each, to cost, exclusive of armor and armament, not to exceed \$1,200,000 each, and twenty-seven, which shall be the best and most desirable and useful type of submarine which can be procured at a cost, exclusive of armor and armament, not to exceed \$700,000 each, shall be begun as soon as practicable; and the sum of \$8,217,000 is hereby appropriated for the construction of said submarines, to be available until expended. Not less than twelve of the submarines herein authorized to be begun as soon as practicable shall be built on the Pacific coast: Provided, That the cost of construction on the Pacific coast does not exceed the cost of construction on the Atlantic coast, plus the cost of transportation from the Atlantic to the Pacific.

One submarine, equipped with the Neff system of submarine propulsion, exclusive of armor and armament, \$250,000: Provided, That the owners of the Neff system of submarine propulsion will construct, in accordance with drawings, plans and specifications provided by them, one coast defense submarine of about 150 tons displacement when submerged, carrying armor and armament similar and equal to that of the "C" class of submarines, with fittings, equipment, machinery, devices, appliances and appurtenances of every kind with latest improvements, complete in all respect and suitable for naval purposes: Provided further, That the money appropriated for this purpose shall not be paid to the builders of said boat until the same has been completed, passed satisfactory service tests and been accepted by the secretary of the navy; but upon such completion, tests and acceptance by the secretary of the navy the sum appropriated shall be paid.

Three fuel ships, one at a cost not to exceed \$1,500,000, to be begun as soon as practicable.

One repair ship.

One transport.

One hospital ship, at a cost not to exceed \$2,350,000, to be begun as soon as practicable.

Two destroyer tenders.

One fleet submarine tender.

Two ammunition ships, one at a cost, exclusive of armor and armament, not to exceed \$2,350,000, to be begun as soon as practicable.

Two gunboats, one at a cost, exclusive of armor and armament, not to exceed \$360,000, to be begun as soon as practicable: Provided, That the sixty-six vessels directed herein to be begun as soon as practicable shall be contracted for or shall be begun in navy yards within six months from the date of the approval of this act.

The secretary of the navy shall build any of the vessels authorized in such navy yards as he may designate should it reasonably appear that the persons, firms or corporations bidding for any of the vessels have entered into any combination the purpose of which is to deprive the government of open competition in letting the contracts.

On account of hulls and outfits of vessels and machinery of vessels heretofore or herein authorized, to be available until expended, \$59,000,194 is appropriated.

On account of submarine torpedo boats heretofore authorized, to be available until expended, \$5,282,593 is appropriated.

Toward the armor and armament for vessels heretofore and herein authorized to be available until expended, \$47,110,000 is appropriated.

Toward ammunition for the vessels herein au-

thorized, to be available until expended, \$19,485,500 is appropriated.

Total increase of the navy heretofore and herein authorized, \$139,345,287.

To provide for the speedy construction of the vessels herein authorized and for the additional cost incident thereto, including the employment of more than one shift of labor per day, overtime work, the secretary of the navy is authorized to increase the total cost of each of the vessels, including armor and armament, not to exceed 20 per cent thereof if any of the vessels be constructed in government navy yards; if any of the vessels be constructed by private contract the secretary of the navy is authorized to prescribe in the contracts provisions for the payment of premiums above the contract price, not to exceed 20 per cent thereof, for the most expeditious delivery of same, with further provisions for penalties for delays and failure to complete within contract time.

If in the judgment of the secretary of the navy the most rapid and economical construction of the battle cruisers authorized herein can be obtained thereby, he may contract for the construction of any or all of them on the basis of actual cost, plus a reasonable profit to be determined by him.

NAVY YARDS.

The secretary of the navy is authorized to improve and equip the navy yards at Puget Sound, Philadelphia, Norfolk, New York, Boston, Portsmouth, Charleston and New Orleans for the construction of such ships herein or as may be hereafter authorized as may be assigned to such yards for construction, and the sum of \$6,000,000, or so much thereof as may be necessary, is hereby appropriated for this purpose: Provided, That the secretary of the navy is authorized to equip the navy yards at Norfolk, Philadelphia, Boston and Puget Sound for the construction of capital ships.

The secretary of war and the secretary of the navy are authorized and directed to report to congress at the earliest practicable date:

1. Specific plans for improvement of the harbors and canals and connecting channels which, in their judgment, will best provide adequate facilities for operations of the fleet for defense of the harbors on the Atlantic, gulf and Pacific coasts of the United States.

2. The feasible extensions requisite to make existing approved projects for improvement of these harbors, canals and channels available for the purposes stated in the foregoing paragraph.

3. The cost of each such several improvements calculated upon the basis of completion thereof under contract within five years.

COURT OF ARBITRATION.

"It is hereby declared to be the policy of the United States to adjust and settle its international disputes through mediation or arbitration, to the end that war may be honorably avoided. It looks with apprehension and disfavor upon a general increase of armament throughout the world, but it realizes that no single nation can disarm, and that without a common agreement upon the subject every considerable power must maintain a relative standing in military strength.

"In view of the premises, the president is authorized and requested to invite, at an appropriate time, not later than the close of the war in Europe, all the great governments of the world to send representatives to a conference which shall be charged with the duty of formulating a plan for a court of arbitration or other tribunal, to which disputed questions between nations shall be referred for adjudication and peaceful settlement, and to consider the question of disarmament and submit their recommendation to their respective governments for approval. The president is hereby authorized to appoint nine citizens of the United States, who, in his judgment, shall be qualified for the mission by eminence in the law and by devotion to the cause of peace, to be representative of the United States in such a conference. The president shall fix the compensation of said repre-

sentatives and such secretaries and other employees as may be needed. Two hundred thousand dollars or so much thereof as may be necessary, is hereby appropriated and set aside and placed at the disposal of the president to carry into effect the provisions of this paragraph.

"If at any time before the construction authorized by this act shall have been contracted for there shall have been established, with the co-operation of the United States of America, an international tribunal or tribunals competent to secure peaceful determinations of all international disputes, and which shall render unnecessary the maintenance of competitive armaments, then and in that case such naval expenditures as may be inconsistent with the engagements made in the establishment of such tribunal or tribunals may be suspended, when so ordered by the president of the United States."

Of each of the sums appropriated by this act, except such as may be required to meet obligations authorized in previous acts, no part shall be used to procure through purchase or contract any vessels, armament or materials which the navy yards, gun factories or other industrial plants operated by the navy department are equipped to supply, unless such government plants are operated at their full capacity for not less than one regular shift each working day, except when the contract costs are less than the cost in the government plants and when these are unable to complete the work within the time required, and except in cases of emergency.

No part of any sum herein appropriated shall be expended for the purchase of structural steel, ship plates, armor, armament or machinery from any persons, firms or corporations who are parties to any existing combination or conspiracy to monopolize the interstate or foreign commerce or trade of the United States, in any such articles, and no purchase of structural steel, ship plates or machinery shall be made at a price in excess of a reasonable profit above the actual cost of the manufacturer.

The secretary of the navy is directed to submit to the congress during its next regular session a report on the largest battle ship which can be undertaken in the United States in the present state of the shipbuilding and engineering sciences and arts, giving due consideration to the present and prospective depths and other limiting dimensions of the docks and harbors of the United States and its possessions and of the locks of the Panama canal; and he shall further report the principal characteristics of such a vessel, giving the displacement, cost, number and size of the guns, thickness of armor, speed and cruising radius, and he shall further report on the desirability of building one or more such vessels.

ARMOR PLANT.

The secretary of the navy is authorized to provide, either by the erection of a factory or by the purchase of a factory, or both, for the manufacture of armor for the vessels of the navy; the factory or factories to have an annual capacity of not less than 20,000 tons of armor; to be located at a place or places approved by the general board of the navy, with especial reference to considerations of safety in time of war; and the sum of \$11,000,000 is hereby appropriated, out of any money in the treasury not otherwise appropriated, to be immediately available for the purposes of this paragraph. And if the United States owns no suitable site or sites, authority is hereby given to acquire by purchase, condemnation or gift such site or sites as may be necessary. The expenditures for drafting, technical, expert and clerical assistance necessary shall be paid from the appropriation herein made. The secretary of the navy shall keep accurate and itemized account of the cost per ton of the product of such factory or factories and report the same to congress in his annual report.

NAVAL FLYING CORPS.

The naval flying corps shall be composed of 150 officers and 350 enlisted men, detailed, ap-

pointed, commissioned, enlisted and distributed in the various grades, ranks and ratings of the navy and marine corps. The number of officers, student flyers and enlisted men shall be in addition to the total number of officers and enlisted men which is now or may hereafter be provided by law for the other branches of the naval service.

The secretary of the navy is authorized to appoint annually in the line of the navy and the marine corps for a period of two years following the passage of this act, fifteen acting ensigns or acting second lieutenants for the performance of aeronautic duties only. Persons so appointed must be citizens of the United States and may be appointed from warrant officers or enlisted men of the naval service or from civil life, and must, at the time of appointment, be not less than 18 or more than 24 years of age. No person shall be so appointed until he has been found physically qualified by a board of medical officers of the navy. Such appointments shall be for a probationary period of three years and may be revoked at any time by the secretary of the navy.

Such acting ensigns and acting second lieutenants shall be detailed to duty in the naval flying corps in aircraft involving actual flying.

Such acting ensigns and acting second lieutenants shall, upon completion of the probationary period of three years, be appointed acting lieutenants of the junior grade, or acting first lieutenants, respectively, by the secretary of the navy for the performance of aeronautic duties only, after satisfactorily passing such examinations as he may prescribe, and after having been recommended for promotion by the examining board and found physically qualified by a board of medical officers of the navy. Such appointments shall be for a probationary period of four years and may be revoked at any time by the secretary of the navy.

Nothing in this act shall be so construed as to prevent the detail of officers and enlisted men of other branches of the navy as student aviators or student airmen in such numbers as the needs of the service may require. Such officers and enlisted men, while detailed as student aviators and student airmen, shall receive the same pay and allowances that are now provided by law for officers and enlisted men of the same grade or rank and rating in the navy detailed for duty with aircraft.

The secretary of the navy is authorized to appoint annually for a period of four years, from enlisted men of the naval service or from citizens of the United States in civil life, not to exceed thirty student flyers for instruction and training in aeronautics who shall receive the same pay and allowances as midshipmen at the United States naval academy. Persons so appointed must, at the time of appointment, be not less than 17 or more than 21 years of age.

The secretary of the navy is authorized to establish aeronautic schools for the instruction and training of student flyers and prescribe the course of instruction and qualifications for certificate of graduation as a qualified aviator.

NAVAL RESERVE FORCE.

There is established under the department of the navy a naval reserve force to consist of six classes designated as follows:

1. The fleet naval reserve.
2. The naval reserve.
3. The naval auxiliary reserve.
4. The naval coast defense reserve.
5. The volunteer naval reserve.
6. The naval reserve flying corps.

The naval reserve force shall be composed of citizens of the United States who, by enrolling under regulations prescribed by the secretary of the navy or by transfer thereto, obligate themselves to serve in the navy in time of war or during the existence of a national emergency, declared by the president. They may then be ordered into active service by the president.

There shall be allowed in the naval reserve force the various ratings, grades and ranks, not above the rank of lieutenant-commander, cor-

responding to those in the navy. Officers of the line may be appointed for deck or engineering duties, as they may elect.

Enrollment and re-enrollment shall be for terms of four years, but members shall in time of peace, when no national emergency exists, be discharged upon their own request upon reimbursing the government for any clothing gratuity that may have been furnished them during their current enrollment. Persons enrolling shall be required to take the oath of allegiance to the United States.

The retainer pay of all members of the naval reserve force, except the volunteer naval reserve, while enrolled in a provisional rank or rating, and until such time as they shall have been confirmed in such rank or rating, shall be \$12 per annum. Thereafter the retainer pay shall be that prescribed for members in the various classes. Retainer pay shall be in addition to any pay to which a member may be entitled by reason of active service.

Enrolled members of the naval reserve force may, in time of war or national emergency, be required to perform active service in the navy throughout the war or until the national emergency ceases to exist. Members of the naval reserve force shall, upon first reporting for active service for training during each period of enrollment, be credited with a uniform gratuity of \$50 for officers and of \$30 for men. Upon reporting for active service in time of war or national emergency the uniform gratuity shall be \$150 for officers and \$60 for men, or the difference between these amounts and any amounts that may have been credited as a uniform gratuity during the current enrollment.

Hereafter, in shipping officers and men for service on board United States auxiliary vessels, preference shall be given to members of the naval reserve force, and after two years from the date of approval of this act no person shall be shipped for such service who is not a member of the naval reserve force herein provided.

The secretary of the navy shall prescribe a suitable flag or pennant that may be flown as an insignia on private vessels or vessels of the merchant service commanded by officers of the naval reserve force: Provided, That it shall not be flown in lieu of the national ensign.

The secretary of the navy is authorized to establish schools or camps of instruction at such times and in such localities as he may deem advisable for the purpose of instructing members and applicants for membership in the naval reserve force. No applicant shall be accepted for instruction unless he agrees to abide by the regulations of the school and pursue the course prescribed by the secretary of the navy. Persons who satisfactorily complete the course will be given certificates of qualification for the rank or rating for which duly qualified, and may be permitted to enroll in the proper class of the reserve in such rank or rating.

FLEET NAVAL RESERVE.

All former officers of the United States naval service, including midshipmen, who have left that service under honorable conditions, and those citizens of the United States who have been, or may be entitled to be, honorably discharged from the naval service after not less than one term of enlistment or after a term of enlistment during minority, and who shall have enrolled in the naval reserve force, shall be eligible for membership in the fleet naval reserve. The secretary of the navy is also authorized to transfer to the fleet naval reserve at any time any enlisted man of the naval service with twenty or more years of naval service and any enlisted man, at the expiration of a term of enlistment, who may then be entitled to an honorable discharge, after sixteen years' naval service.

Men enrolled in the fleet naval reserve with less than eight years' naval service shall be paid at the rate of \$50 per annum; those with eight or more years and less than twelve years' naval service shall be paid at the rate of \$75 per annum, and those with twelve or more years' naval

service shall be paid at the rate of \$100 per annum, such pay to be considered as retainer pay for the obligation on the part of such members to serve in the navy in time of war or national emergency.

Men transferred to the fleet naval reserve shall be governed by the laws and regulations for the government of the navy and shall not be discharged without their consent, except by sentence of a court-martial. They may, upon their own request, upon completing thirty years' service, including naval and fleet naval reserve service, be placed on the retired list of the navy with the pay they were then receiving plus the allowances to which enlisted men of the same rating are entitled on retirement after thirty years' naval service. They shall be required to keep on hand such part of the uniform clothing outfit as may be prescribed by the secretary of the navy.

The secretary of the navy is authorized in time of war or when a national emergency exists to call any enlisted man on the retired list into active service for such duty as he may be able to perform. While so employed such enlisted man shall receive the same pay and allowances they were receiving when placed on the retired list.

NAVAL RESERVE.

Members of the naval reserve force who have been or may be engaged in the seagoing profession, and who have enrolled for general service, shall be eligible for membership in the naval reserve. No person shall be first enrolled in this class who is less than 18 or more than 35 years of age, nor unless he furnishes satisfactory evidence as to his ability and character; nor shall any person be appointed an officer in this class unless he shall have had not less than two years' experience as an officer on board of lake or ocean going vessels.

The minimum active service required of members to qualify for confirmation in their rank or rating in this class shall be three months.

The minimum active service required for maintaining the efficiency of a member of this class shall be three months during each term of enrollment. This active service may be in one period or in periods of not less than three weeks each year.

NAVAL AUXILIARY RESERVE.

Members of the naval reserve force of the seagoing profession, who shall have been employed on American vessels of the merchant marine service of suitable type for use as naval auxiliaries and which shall have been listed as such by the navy department for use in war, shall be eligible for membership in the naval auxiliary reserve. In time of war or national emergency persons in this class shall be required to serve only in vessels of the merchant ship type except in cases of emergency.

NAVAL COAST DEFENSE RESERVE.

Members of the naval reserve force, who may be capable of performing special useful service in the navy or in connection with the navy in defense of the coast, shall be eligible for membership in the naval coast defense reserve. Persons may enroll in this class for service in connection with the naval defense of the coast, such as service with coast defense vessels, torpedo craft, mining vessels, patrol vessels or as radio operators in various ranks or ratings corresponding to those of the navy for which they shall be qualified under regulations prescribed by the secretary of the navy. The secretary of the navy may permit the enrollment in this class of owners and operators of yachts and motor boats suitable for naval purposes in the naval defense of the coast. He is authorized to enter into contract with the owners of such power boats and other craft suitable for war purposes, to take over the same in time of war or national emergency upon payment of a reasonable indemnity.

VOLUNTEER NAVAL RESERVE.

The volunteer naval reserve shall be composed of those members of the naval reserve force who are eligible for membership in any one of the

other classes of the naval reserve force and who obligate themselves to serve in the navy in any one of said classes without retainer pay and uniform gratuity in time of peace.

NAVAL RESERVE FLYING CORPS.

The naval reserve flying corps shall be composed of officers and student flyers who have been transferred from the naval flying corps to the naval reserve flying corps and of enlisted men who shall have been so transferred under the same conditions as those provided by law for enlisted men of the navy transferred to the fleet naval reserve: Provided, That surplus graduates of the aeronautic school may be commissioned as ensigns in the naval reserve flying corps and promoted therein under such regulations as may be prescribed by the president. Members of the naval reserve force skilled in the flying of aircraft or in their design, building or operation shall be eligible for membership in the naval reserve flying corps. The amount of active service required for confirmation in grade, rank or rating, and for maintaining efficiency therein, shall be the same as that required for members of the naval reserve. The retainer pay of members of the naval reserve flying corps shall be the same as that of members of the naval reserve.

MARINE CORPS RESERVE.

A United States marine corps reserve, to be a constituent part of the marine corps and in addition to the authorized strength thereof, is established under the same provisions in all respects (except as may be necessary to adapt the provisions to the marine corps) as those providing for the naval reserve force in this act: Provided, That the marine corps reserve may consist of not more than five classes, corresponding, as near as may be, to the fleet naval reserve, the naval reserve, the naval coast defense reserve, the volunteer naval reserve and the naval reserve flying corps, respectively.

NATIONAL NAVAL VOLUNTEERS.

To provide a force for use in any emergency, including that of actual imminent war, requiring the use of naval forces in addition to those of the regular navy, of which emergency the president shall be the sole judge, there is created a force, to be known as the "national naval volunteers," into which the president alone is authorized, under such regulations as he may prescribe, to at any time enroll, by commission, warrant and enlistment, respectively, and without examination, such number of the officers and men of the various branches of the naval militia as he may decide to so enroll from among those of the naval militia who have theretofore conformed to the standard of professional and physical examination prescribed for such officers and men under section 5 of an act entitled "An act to promote the efficiency of the naval militia and for other purposes," approved Feb. 16, 1914, and who may volunteer for such enrollment; and may also similarly enroll, immediately upon the occurrence of any such emergency (subject to their first or subsequently passing examinations satisfactory to him, or may, if he shall think best, enroll without any examination) such further number of the officers and men of the naval militia as may so volunteer from among those of the naval militia who have not theretofore conformed to said standards. Such officers and men, so enrolled by commission, warrant or enlistment, shall be eligible and liable for call for immediate service in the event of any such emergency.

The president may also, in the event of such emergency, draft into the naval service of the United States and enroll as members of the volunteers as many officers and men of the naval militia as he may think best, and with or without examination, as he may decide, from among those of the naval militia who shall not theretofore have volunteered and been enrolled in the volunteers.

When the national naval volunteers are ordered by the president into the active service they will, from the date such orders are issued until such

time as they may be discharged from such service, be subject to the laws for the government of the navy in so far as those laws may properly be applied to persons not in the regular permanent naval service.

All persons so enrolled shall be held to service in the volunteers during the continuance of any such emergency and during the period of any existing or thereafter ensuing war, unless sooner relieved by order of the president or until reaching the age of 62 years for those in the naval branch and the age of 64 years for those in the marine corps branch, upon attaining which ages such persons, respectively, shall be relieved from such enrollment.

Members of the volunteers may be ordered to duty with the navy or separately, and either within or without the territorial limits of the United States. Any officer or enlisted man of the volunteers disabled while in active service shall be entitled to the benefit of all the pension laws existing at the time of his service for the benefit of members of the United States navy or marine corps. No distinction shall be made between the regular naval service and the national naval volunteers when in active service in respect to promotions or rewards for valorous conduct.

The naval militia shall consist of the regularly enlisted militia between the ages of 18 and 45 years, organized as prescribed for the naval militia by law, and commissioned officers between the ages of 21 and 62 years (naval branch) and 21 and 64 years (marine corps branch): Provided, however, That enlisted men may continue in service after the age of 45 years and until the age of 62 years (naval branch) or 64 years (marine corps branch), provided the service is continuous.

Hereafter the period of enlistment in the naval militia shall be three years. An enlisted man who has served honorably for the full term of his enlistment may re-enlist for a term of one, two or three years, as he may elect.

MARINE CORPS INCREASE.

The president is authorized, when, in his judgment, it becomes necessary to place the country in a complete state of preparedness, to further increase the enlisted strength of the marine corps to 17,400. The distribution in the various grades shall be in the same proportion as that authorized at the time when the president avails himself of the authority herein granted.

CAMPS OF INSTRUCTION.

The secretary of the navy is hereby authorized to establish and maintain at such places as he may designate, and prescribe regulations for the government thereof, marine corps training camps for the instruction of citizens of the United States who make application and are designated for such training; no such camps to be in existence for a period longer than six weeks in each fiscal year, except in time of actual or threatened war; to use marine corps and such other government property as he may deem necessary for the military training of such citizens while in attendance at such camps. The quartermaster's department, United States marine corps, is authorized to sell such articles of uniform, clothing as may be prescribed, at cost price, to the volunteer citizens who are designated to participate in these instructions: Provided, That these citizens shall be required to furnish at their own expense transportation and subsistence to and from these camps, and subsistence while undergoing training therein. The sum of \$31,000 is appropriated to carry into effect the foregoing provisions.

ADDITIONAL NAVY YARDS.

The president is hereby authorized to appoint a commission of five officers of the navy not below the rank of commander to investigate and report at the beginning of the next regular session of congress if practicable, and if not, as soon thereafter as practicable, as to the necessity, desirability and advisability of establishing an additional navy yard or naval station on the Pacific coast of the United States. And if such a

navy yard or naval station be recommended as necessary and advisable, the report shall designate the most suitable site and the estimated cost thereof, together with a detailed statement of the reasons for such designation and the nature and scope of the activities for naval purposes of such yard or station. In arriving at such designation the commission shall take into consideration all strategic and other military considerations as well as all industrial elements necessary for the economical and successful operation of such a yard or station, including local conditions as to labor and material. The report shall also contain an estimated cost of the necessary buildings, shops, piers, sea walls and equipment of said yard or station together with the estimated annual cost of maintenance thereof.

The commission shall also investigate and report upon the necessity, desirability and advisability of improving existing or establishing an additional navy yard or naval station on the Atlantic coast south of Cape Hatteras, or on or near the United States coast of the Gulf of Mexico, or in the Caribbean sea, of a character adequate for the proper naval defense of that portion of the country. The report shall contain all the information of like character as directed in the preceding paragraph relating to the investigation and report as to the Pacific coast.

The commission shall also investigate and report as to the necessity, desirability and advisability of establishing submarine and aviation bases on the Atlantic, Gulf of Mexico and Pacific coasts and other possessions of the United States, and as to the cost and location thereof.

The sum of \$10,000 is appropriated to defray the expenses of the commission, including drafting, technical and clerical assistance in the navy department or elsewhere.

The commission shall also investigate and report as to the necessity, desirability and advisability of abolishing any existing navy yard or naval station, and, if such action is recommended, to report fully the reasons therefor and the advantages to be obtained thereby.

INCREASE OF WEST POINT CADETS.

The corps of cadets at the United States military academy shall hereafter consist of two for each congressional district, two from each territory, four from the District of Columbia, two from natives of Porto Rico, four from each state at large and eighty from the United States at large, twenty of whom shall be selected from among the honor graduates of educational institutions having officers of the regular army detailed as professors of military science and tactics under existing law or any law hereafter enacted for the detail of officers of the regular army to such institutions, and which institutions are designated as "honor schools" upon the determination of their relative standing at the last preceding annual inspection regularly made by the war department. They shall be appointed by the president and shall, with the exception of the eighty appointed from the United States at large, be actual residents of the congressional or territorial district, or of the District of Columbia, or of the island of Porto Rico, or of the states, respectively, from which they purport to be appointed: Provided, That so much of the act of congress approved March 4, 1915, as provides for the admission of successors to any cadet who shall have finished three years of his course at the academy, be repealed: Provided further, That the appointment of each member of the present corps of cadets is validated and confirmed.

The president is authorized to appoint cadets to the United States military academy from among enlisted men, in number as nearly equal as practicable, of the regular army and the national guard between the ages of 19 and 22 years who have served as enlisted men not less than one year, to be selected under such regulations as the president may prescribe: Provided, That the total number so selected shall not exceed 180 at any one time. Under such regulations as the president shall prescribe, the increase in the

number of cadets provided for by the act shall be divided into four annual increments, which shall be as nearly equal as practicable and be equitably distributed among the sources from which appointments are authorized. (Approved, May 4, 1916.)

INCREASE OF MIDSHIPMEN.

Hereafter there shall be allowed at the United States naval academy three midshipmen for each senator, representative and delegate in congress, one for Porto Rico, two for the District of Columbia, ten appointed each year at large and fifteen appointed annually from enlisted men of the navy as now authorized by law. (Approved, Feb. 15, 1916.)

INCREASE OF ENLISTED MEN.

Resolved by the senate and house of representatives of the United States of America in congress assembled, That when in the judgment of the president an emergency arises which makes it necessary, all organizations of the army which are now below the maximum enlisted strength authorized by law shall be raised forthwith to that strength, and shall be maintained as nearly as possible thereat so long as the emergency shall continue: Provided, That the total enlisted strength of any of said arms of the service shall not include unassigned recruits therefor at depots or elsewhere, but such recruits shall at no time exceed by more than 5 per centum the total enlisted strength prescribed for such arms; and the enlisted men now or hereafter authorized by law for other branches of the military service shall be provided and maintained without any impairment of the enlisted strength prescribed for any of said arms. (Approved, March 17, 1916.)

TRAINING OF MILITIA.

For paying the expenses of the organized militia or national guard of any state, territory or of the District of Columbia, which may be authorized by the secretary of war to participate in such encampments as may be established for the field instruction of the troops of the regular army, as provided by sections 15 and 21 of the act of Jan. 21, 1913, entitled "An act to promote the efficiency of the militia and for other purposes," as amended, or as may hereafter be authorized by law, to be immediately available and to remain available until the end of the fiscal year 1917, \$200,000 is hereby appropriated: Provided, That when it is not practicable to obtain the presence of regular troops for a joint encampment, the funds herein appropriated shall be available for such encampments, maneuvers and field instruction for the organized militia or national guard as the secretary of war may prescribe. (Approved, June 12, 1916.)

COUNCIL OF NATIONAL DEFENSE.

Section 2 of the act making appropriations for the support of the army for the fiscal year ending June 30, 1917, approved Aug. 29, 1916, makes the following provision for a council of national defense:

A council of national defense is hereby established for the co-ordination of industries and resources for the national security and welfare, to consist of the secretary of war, the secretary of the navy, the secretary of the interior, the secretary of agriculture, the secretary of commerce and the secretary of labor. The council of national defense shall nominate to the president, and the president shall appoint, an advisory commission, consisting of not more than seven persons, each of whom shall have special knowledge of some industry, public utility or the development of some natural resource, or be otherwise specially qualified. In the opinion of the council, for the performance of the duties hereinafter provided. The members of the advisory commission shall serve without compensation, but shall be allowed actual expenses of travel and subsistence when attending meetings of the commission or engaged in investigations pertaining to its activities. The advisory commission shall hold such meetings as shall be

called by the council or be provided by the rules and regulations adopted by the council for the conduct of its work.

It shall be the duty of the council of national defense to supervise and direct investigations and make recommendations to the president and the heads of executive departments as to the location of railroads with reference to the frontier of the United States, so as to render possible expeditious concentration of troops and supplies to points of defense; the co-ordination of military, industrial and commercial purposes in the location of extensive highways and branch lines of railroad; the utilization of waterways; the mobilization of military and naval resources for defense; the increase of domestic production of articles and materials essential to the support of armies and of the people during the interruption of foreign commerce; the development of seagoing transportation; data as to amounts, location, method and means of production, and availability of military supplies; the giving of information to producers and manufacturers as to the class of supplies needed by the military and other services of the government, the requirements relating thereto, and the creation of relations which will render possible in time of need the immediate concentration and utilization of the resources of the nation.

The council of national defense shall adopt rules and regulations for the conduct of its work, which rules and regulations shall be subject to the approval of the president, and shall provide for the work of the advisory commission to the end that the special knowledge of such commission may be developed by suitable investigation, research and inquiry and made available in conference and report for the use of the council; and the council may organize subordinate bodies for its assistance in special investigations, either by the employment of experts or by the creation of committees of specially qualified persons to serve without compensation, but to direct the investigations of so employed.

The sum of \$200,000, or so much thereof as may be necessary, is hereby appropriated, out of any money in the treasury not otherwise appropriated, to be immediately available for experimental work and investigations undertaken by the council, by the advisory commission, or subordinate bodies, for the employment of a director, expert and clerical expenses and supplies, and for the necessary expenses of members of the advisory commission or subordinate bodies going to and attending meetings of the commission or subordinate bodies. Reports shall be submitted by all subordinate bodies and by the advisory commission to the council, and from time to time the council shall report to the president or to the heads of executive departments upon special inquiries or subjects appropriate thereto, and an annual report to the congress shall be submitted through the president, including as full a statement of the activities of the council and the agencies subordinate to it as is consistent with the public interest, including an itemized account of the expenditures made by the council or authorized by it, in as full detail as the public interest will permit. When deemed proper the president may authorize, in amounts stipulated by him, unvouchered expenditures and report the gross sums so authorized not itemized.

ADVISORY COMMISSION.

Appointed by the president Oct. 11, 1916.

Daniel Willard, president Baltimore & Ohio Railroad company, Baltimore, Md.
Samuel Gompers, president of the American Federation of Labor, Washington, D. C.
Dr. Franklin G. Martin, surgeon, Chicago, Ill.
Howard E. Coffin, automobile engineer, Detroit, Mich.
Bernard Baruch, banker, New York, N. Y.
Dr. Hollis Godfrey, engineer and president of the Drexel Institute, Philadelphia, Pa.
Julius Rosenwald, president of Sears, Roebuck & Co., Chicago, Ill.

RAILWAY EIGHT-HOUR DAY CONTROVERSY.

One of the gravest labor controversies in the history of the United States developed in 1916 owing to the demands made by certain railway employes for an eight hour day and various increases in pay. The matter had been pending for months, but did not attract much public attention until March, when business associations, realizing the seriousness of the situation, began passing resolutions asking that the dispute be settled by arbitration. March 30 representatives of the Order of Railway Conductors, the Brotherhood of Railway Trainmen, the Brotherhood of Locomotive Engineers and the Brotherhood of Locomotive Firemen and Enginemen presented the following list of demands to the general managers of the railroads:

"Article 1. (a) In all road service, 100 miles or less, eight hours or less will constitute a day, except in passenger service. Miles in excess of 100 will be paid for at the same rate per mile.

"(b) On runs 100 miles or less, overtime will begin at the expiration of eight hours.

"(c) On runs of over 100 miles, overtime will begin when the time on duty exceeds the miles run divided by twelve and one-half miles per hour.

"(d) All overtime to be computed on the minute basis and paid for at time and one-half times the pro rata rate.

"(e) No one shall receive less for eight hours or 100 miles than they now receive for a minimum day of 100 miles for the class of engine used or for service performed.

"(f) Time will be computed continuously from time required for duty until released from duty and responsibility at end of day or run.

"Article 2. (a) Eight hours or less will constitute a day in all yard and switching service. The minimum day's pay for eight hours shall not be less than the present day's pay for ten-hour yards. Provided, That in yards having a minimum day of more than ten hours, the present day's pay as in effect Jan. 1, 1916, will be continued with the eight hour day.

"(b) Time to be computed continuously from time required for duty until released from duty and responsibility at end of day or run. All over eight hours within any twenty-four hour period to be computed and paid for at the rate of time and one-half time.

"(c) All overtime to be computed on the minute basis.

"Article 3. (a) Eight hours or less, at present ten hours' pay, will continue a day's work in hostling service.

"(b) Time to be computed continuously from the time required for duty until released from duty and responsibility at end of day or run. All over eight hours within any twenty-four hour period to be computed and paid for at the rate of time and one-half time.

"(c) All overtime to be computed on the minute basis.

"Article 4. Any rates of pay including mileage or arbitrary differentials that are higher, or any rules or conditions of employment contained in individual schedules in effect Jan. 1, 1916, that are more favorable to the employes, shall not be modified or affected by any settlement reached in connection with these proposals. The general committee representing the employes on each railroad will determine which is preferable and advise the officers of their company. Nothing in the settlement that may be reached on the above submitted articles is to be construed to deprive the employes on any railroad from retaining their present rules and accepting any rates that may be agreed upon, or retaining their present rates and accepting any rules that may be agreed upon."

REPLY OF RAILROADS.

In reply to these demands the railroads issued the following statement:

"The present standard of rates and working conditions have been very largely fixed by mediation and arbitration, and this company feels that they are adequate and even liberal

to the employes. This company has no desire to change either the existing rates of pay or the working rules, or to reduce the earning possibilities of the employes under their existing rules, but inasmuch as your proposals contemplate fundamental changes in operating methods and practices on which the schedules have been built up, this company hereby gives notice in conformity with the schedules now in effect that in connection with and as a part of the consideration and disposition of your proposals there shall be open for consideration and disposition those provisions in the schedules or practices thereunder governing compensation in the classes of service affected by your proposals or those in conflict with the following principles as they apply to such classes:

"(a) No double compensation for the same time or service.

"(b) The same classifications for the purposes of compensation to be applied to all members of a train and engine crew.

"(c) Two or more differently paid classes of service performed in the same day or trip to be paid proportionate rates according to the class of service, with not less than a minimum day for the combined service.

"The employes emphatically inform the railroads that the only propositions they will discuss are those they have presented. They close the door on any real discussion by this statement made to every railroad in the country:

"In submitting this proposition we desire that it be understood that all rates, rules and conditions in our agreements not specifically affected by these proposed amendments shall remain unchanged."

"Also, in the last article of their proposals the men reserve the right to accept any part of any settlement that appears to them advantageous, or reject any portion that does not so appear to them, and also to combine new rates with old conditions or old rates with new conditions—that is, the cream off both crocks.

"The railroads make no counterproposals to their employes. What the railroads ask for is an open door. In such a fundamental reconstruction of the wage basis as is proposed by the employes, the railroads insist they have the right to demand a frank discussion as to the rules and regulations interwoven in the present wage structure.

"Many rules and regulations that are fair and equitable on the present basis of pay manifestly would be unfair and inequitable on any other basis of pay. A full and fair discussion of these interwoven rules and regulations, as affected by the radical change in rates demanded by the employes, is what the railroads ask in the letter they have to-day addressed to the brotherhood officials."

Unofficially it was claimed by the railroad managers that what the brotherhoods demanded amounted to an increase of 25 per cent in wages and that if the so called eight hour day were conceded it would mean an increase of \$100,000,000 a year in expenses. The brotherhoods denied that this would be the case.

CONFERENCE IN NEW YORK.

Though it had been hinted by the brotherhoods that a general strike would be called on all the roads after May 1 in case their demands were not complied with, such action was not taken. On the contrary, arrangements were made for a conference between committees representing the railroads and the men to be held in New York, N. Y., beginning June 1. The conference was held, but ended June 15 in a disagreement. The demands of the brotherhoods were identical with those presented March 30. The railroads offered a compromise as to the computation of the time of the road men, or what was called the "yardstick" proposition, but it was rejected by the men. On the last day of the conference the twenty men representing the railroads informed the heads of the four brotherhoods and the 800 delegates that the

railroads must refuse the demand for an eight hour day and time and a half for overtime. They, however, asked that the issue be submitted to federal arbitration, preferably by the interstate commerce commission or under the Newlands act. The labor leaders refused to submit the issues to arbitration and announced that they would by means of a referendum vote get the power to declare a strike of 350,000 track and yard men.

The vote of brotherhood employees was taken and it was announced Aug. 8 that it was overwhelmingly in favor of a strike if the demands were not complied with. On the following day the railroad brotherhoods accepted an offer of the United States board of mediation and conciliation to mediate their differences with the railroads. The board, consisting of William L. Chambers, G. W. Hanger and Martin A. Knapp, had conferences with the railroad managers and the representatives of the brotherhoods Aug. 9, 10 and 11, but neither side to the controversy would yield and the attempt at mediation failed.

PRESIDENT WILSON INTERVENES.

On Aug. 13 President Wilson addressed the following letter to the representatives of the railroads and the brotherhoods:

"The White House, Aug. 13, 1916.

"I have learned with surprise and with keen disappointment that an agreement concerning the settlement of the matters in controversy between the railroads and their employees has proved impossible. A general strike on the railways would at any time have a most far reaching and injurious effect upon the country. At this time the effect might be disastrous. I feel that I have the right, therefore, to request, and I do hereby request, as the head of the government, that before any final decision is arrived at I may have a personal conference with you here. I shall hold myself ready to meet you at any time you may be able to reach Washington. Sincerely yours,

WOODROW WILSON."

The letter was addressed to each of the following:

Elisha Lee, chairman national committee on railroads.

A. B. Garretson, president Order Railway Conductors.

W. S. Stone, grand chief Brotherhood Railroad Engineers.

W. S. Carter, president Brotherhood Railroad Firemen.

W. B. Lee, president Brotherhood Railroad Trainmen.

The letter was delivered by Joseph P. Tumulty, the president's secretary, to the men addressed in New York city on the evening of the day it was written. On the following day representatives of both sides met the president in the white house in Washington and conferred with him. Several other conferences were held, but no progress was made toward an agreement and on Aug. 17 the president telegraphed to many of the railroad presidents to come to Washington to confer with him. They did so and on Aug. 19 the president made a proposition which he outlined to the public in the following statement:

"I have recommended the concession of the eight hour day—that is, the substitution of an eight hour day for the present ten hour day in all the existing practices and agreements. I made this recommendation because I believe the concession right. The eight hour day now, undoubtedly, has the sanction of the judgment of society in its favor and should be adopted as a basis for wages, even where the actual work to be done cannot be completed within eight hours.

"Concerning the adjustments which should be made in justice to the railroads and their stockholders in the payments and privileges to which their men are now entitled, if such adjustments are necessary, there is a wide divergence of opinion.

"The railroads which have already adopted the eight hour day do not seem to be at any serious disadvantage in respect to their cost of

operation as compared with the railroads that have retained the ten hour day, and calculations as to the cost of the change must, if made now, be made without regard to any possible administrative economies or readjustments. Only experience can make it certain what rearrangements would be fair and equitable either on behalf of the men or on behalf of the railroads. That experience would be a definite guide to the interstate commerce commission, for example, in determining whether, as a consequence of the change, it would be necessary and right to authorize an increase of rates for the handling and carriage of freight (for passenger service is not affected).

"I, therefore, proposed that the demand for extra pay for overtime made by the men and the contingent proposals of the railroad authorities be postponed until facts shall have taken the place of calculation and forecast with regard to the effects of a change to the eight hour day; that, in the meantime, while experience was developing the facts, I should seek, and, if need be, obtain, authority from the congress to appoint a small body of impartial men to observe and thoroughly acquaint themselves with the results, with a view to reporting to congress at the earliest possible time the facts disclosed by their inquiries, but without recommendation of any kind; and that it should then be entirely open to either or both parties to the present controversy to give notice of a termination of the present agreements, with a view to instituting inquiry into suggested readjustments of pay or practice.

"This seems to me a thoroughly practical and entirely fair program, and I think that the public has the right to expect its acceptance."

PRESIDENT APPEALS TO CONGRESS.

President Wilson's plan was not acceptable to the railway executives, who were firm for the arbitration of the eight hour day demand. A deadlock ensued and on the 27th the brotherhood heads secretly issued an order for a strike at 7 a. m., Sept. 4 (Labor day). After consulting some of the senate and house leaders the president finally went to the capitol, Aug. 29, and delivered the following address at a joint session of the two houses:

"Gentlemen of the Congress: I have come to you to seek your assistance in dealing with a very grave situation which has arisen out of the demand of the employees of the railroads engaged in freight train service that they be granted an eight hour working day, safeguarded by payment for an hour and a half of service for every hour of work beyond the eight.

"The matter has been agitated for more than a year. The public has been made familiar with the demands of the men and the arguments urged in favor of them, and even more familiar with the objections of the railroads and their counterdemand that certain privileges now enjoyed by their men and certain bases of payment worked out through many years of contest be reconsidered, especially in their relation to the adoption of an eight hour day. The matter came some three weeks ago to a final issue and resulted in a complete deadlock between the parties. The means provided by law for the mediation of the controversy failed and the means of arbitration for which the law provides were rejected. The representatives of the railway executives proposed that the demands of the men be submitted in their entirety to arbitration, along with certain questions of readjustment as to pay and conditions of employment which seemed to them to be either closely associated with the demands or to call for reconsideration on their own merits. The men absolutely declined arbitration, especially if any of their established privileges were by that means to be drawn again into question. The law in the matter put no compulsion upon them. The 400,000 men from whom the demands proceeded had voted to strike if their demands were refused; the strike was imminent: it has since been set for the 4th of September next. It affects the men who man

the freight trains on practically every railway in the country.

"The freight service throughout the United States must stand still until their places are filled, if, indeed, it should prove possible to fill them at all. Cities will be cut off from their food supplies, the whole commerce of the nation will be paralyzed, men of every sort and occupation will be thrown out of employment, countless thousands will in all likelihood be brought, it may be, to the very point of starvation, and a tragical national calamity brought on, to be added to the other distresses of the time, because no basis of accommodation or settlement has been found.

"Just as soon as it became evident that mediation under the existing law had failed and that arbitration had been rendered impossible by the attitude of the men I considered it my duty to confer with the representatives of both the railways and the brotherhoods, and myself to offer mediation, not as an arbitrator, but merely as spokesman of the nation—in the interest of justice, indeed, and as a friend of both parties, but not as judge; only as the representative of 100,000,000 of men, women and children who pay the price, the incalculable price, of loss and suffering should these few men insist upon approaching and concluding the matters in controversy between them merely as employers and employees rather than as patriotic citizens of the United States looking before and after and accepting the larger responsibility which the public would put upon them.

"It seemed to me, in considering the subject matter of the controversy, that the whole spirit of the time and the preponderant evidence of recent economic experience spoke for the eight hour day. It has been adjudged by the thought and experience of recent years a thing upon which society is justified in insisting, as in the interest of health, efficiency, contentment and a general increase of economic vigor. The whole presumption of modern experience would, it seemed to me, be in its favor, whether there was arbitration or not, and the debatable points to settle were those which arose out of the acceptance of the eight hour day rather than those which affected its establishment. I therefore proposed that the eight-hour day be adopted by the railway managements and put into practice for the present as a substitute for the existing ten hour basis of pay and service; that I should appoint, with the permission of congress, a small commission to observe the results of the change, carefully studying the figures of the altered operating costs, not only, but also the conditions of labor under which the men worked and the operation of their existing agreements with the railroads, with instructions to report the facts, as they found them, to the congress at the earliest possible day, but without recommendation; and that, after the facts had been thus disclosed, an adjustment should in some orderly manner be sought of all the matters now left unadjusted between the railroad managers and the men.

"These proposals were exactly in line, it is interesting to note, with the position taken by the Supreme court of the United States when appealed to to protect certain litigants from the financial losses which they confidently expected if they should submit to the regulation of their charges and of their methods of service by public legislation. The court has held that it would not undertake to form a judgment upon forecasts, but could base its action only upon actual experience; that it must be supplied with facts, not with calculations and opinions, however scientifically attempted. To undertake to arbitrate the question of the adoption of an eight hour day in the light of results merely estimated and predicted would be to undertake an enterprise of conjecture. No wise man could undertake it or, if he did undertake it, could feel assured of his conclusions.

"I unhesitatingly offered the friendly services of the administration to the railway managers to see to it that justice was done the railroads

in the outcome. I felt warranted in assuring them that no obstacle of law would be suffered to stand in the way of their increasing their revenues to meet the expenses resulting from the change so far as the development of their business and of their administrative efficiency did not prove adequate to meet them. The public and the representatives of the public, I felt justified in assuring them, were disposed to nothing but justice in such cases and were willing to serve those who served them.

"The representatives of the brotherhoods accepted the plan, but the representatives of the railroads declined to accept it. In the face of what I cannot but regard as the practical certainty that they will be ultimately obliged to accept the eight hour day by the concerted action of organized labor, backed by the favorable judgment of society, the representatives of the railway management have felt justified in declining a peaceful settlement which would engage all the forces of justice, public and private, on their side to take care of the event. They fear the hostile influence of shippers, who would be opposed to an increase of freight rates (for which, however, of course, the public itself would pay); they apparently feel no confidence that the interstate commerce commission could withstand the objections that would be made. They do not care to rely upon the friendly assurances of the congress or the president. They have thought it best that they should be forced to yield, if they must yield, not by counsel, but by the suffering of the country. While my conferences with them were in progress, and when to all outward appearance those conferences had come to a standstill, the representatives of the brotherhoods suddenly acted and set on strike for Sept. 4.

"The railway managers based their decision to reject my counsel in this matter upon their conviction that they must at any cost to themselves or to the country stand firm for the principle of arbitration, which the men had rejected. I based my counsel upon the indisputable fact that there was no means of obtaining arbitration. The law supplied none; earnest efforts at mediation had failed to influence the men in the least. To stand firm for the principle of arbitration and yet not get arbitration seemed to me futile, and something more than futile, because it involved incalculable distress to the country and consequences in all respects worse than those of war, and that in the midst of peace.

"I yield to no man in firm adherence, alike of conviction and of purpose, to the principle of arbitration in industrial disputes; but matters have come to a sudden crisis in this particular dispute and the country had been caught unprovided with any practicable means of enforcing that conviction in practice (by whose fault we will not now stop to inquire). A situation had to be met whose elements and fixed conditions were indisputable. The peace and patriotic course to pursue, as it seemed to me, was to secure immediate peace by conceding the one thing in the demands of the men which society itself and any arbitrators who represented public sentiment were most likely to approve, and immediately lay the foundations for securing arbitration with regard to everything else involved. The event has confirmed that judgment.

"I was seeking to compose the present in order to safeguard the future; for I wished an atmosphere of peace and friendly co-operation in which to take counsel with the representatives of the nation with regard to the best means for providing, so far as it might prove possible to provide, against the recurrence of such unhappy situations in the future—the best and most practicable means of securing calm and fair arbitration of all industrial disputes in the days to come. This is assuredly the best way of vindicating a principle—namely, having failed to make certain of its observance in the present, to make certain of its observance in the future.

"But I could only propose. I could not govern the will of others who took an entirely dif-

ferent view of the circumstances of the case, who even refused to admit the circumstances to be what they have turned out to be.

"Having failed to bring the parties to this critical controversy to an accommodation, therefore I turn to you, deeming it clearly our duty as public servants to leave nothing undone that we can do to safeguard the life and interests of the nation. In the spirit of such a purpose I earnestly recommend the following legislation:

"First. Immediate provision for the enlargement and administrative reorganization of the interstate commerce commission along the lines embodied in the bill recently passed by the house of representatives and now awaiting action by the senate; in order that the commission may be enabled to deal with the many great and various duties now devolving upon it with a promptness and thoroughness which are, with its present constitution and means of action, practically impossible.

"Second. The establishment of the eight hour day as the legal basis alike of work and wages in the employment of all railway employees who are actually engaged in the work of operating trains in interstate transportation.

"Third. The authorization of the appointment by the president of a small body of men to observe the actual results in experience of the adoption of the eight hour day in railway transportation alike for the men and for the railroads, its effects in the matter of operating costs, in the application of the existing practices and agreements to the new conditions, and in all other practical aspects, with the provision that the investigators shall report their conclusions to the congress at the earliest possible date, but without recommendation as to legislative action, in order that the public may learn from an unprejudiced source just what actual developments have ensued.

"Fourth. Explicit approval by the congress of the consideration by the interstate commerce commission of an increase of freight rates to meet such additional expenditures by the railroads as may have been rendered necessary by the adoption of the eight hour day, and which have not been offset by administrative readjustments and economies should the facts disclosed justify the increase.

"Fifth. An amendment of the existing federal statute which provides for the mediation, conciliation and arbitration of such controversies as the present, by adding to it a provision that in case the methods of accommodation now provided for should fail a full public investigation of the merits of every such dispute shall be instituted and completed before a strike or lockout may lawfully be attempted.

"Sixth. The lodgment in the hands of the executive of the power, in case of military necessity, to take control of such portions and such rolling stock of the railways of the country as may be required for military use and to conscript them for military purposes, with authority to draft into the military service of the United States such train crews and administrative officials as the circumstances require for their safe and efficient use.

"This last suggestion I make because we cannot in any circumstances suffer the nation to be hampered in the essential matter of national defense. At the present moment circumstances render this duty particularly obvious. Almost the entire military force of the nation is stationed upon the Mexican border to guard our territory against hostile raids. It must be supplied and steadily supplied with whatever it needs for its maintenance and efficiency. If it should be necessary for purposes of national defense to transfer any portion of it upon short notice to some other part of the country for reasons now unforeseen, ample means of transportation must be available, and available without delay. The power conferred in this matter should be carefully and explicitly limited to cases of military necessity, but in all such cases it should be clear and ample.

"There is one other thing we should do if we

are true champions of arbitration. We should make all arbitral awards judgments by record of a court of law in order that their interpretation and enforcement may lie, not with one of the parties to the arbitration, but with an impartial and authoritative tribunal.

"These things I urge upon you, not in haste or merely as a means of meeting a present emergency, but as permanent and necessary additions to the law of the land, suggested, indeed, by circumstances we had hoped never to see, but imperative as well as just, if such emergencies are to be prevented in the future. I feel that no extended argument is needed to commend them to your favorable consideration. They demonstrate their own necessity. The occasion only give emphasis to their importance. We need them now and we shall continue to need them."

POSITION OF RAILROADS.

On the same day the committee of eight railway presidents, which had been negotiating with the president, issued the following statement:

"We are unable, after the most earnest consideration, to agree with the proposal of the president of the United States, which is that we accept without arbitration 'the substitution of an eight hour day for the present ten hour day in all of the existing practices and agreements.' This is the main point in controversy, and we cannot surrender it without an opportunity to be heard in some form of fair arbitration.

"We do not assent to the statement that 'the eight hour day now undoubtedly has the sanction of the judgment of society in its favor.' We believe that society has not yet recorded its judgment upon this subject.

"We are not in this controversy, however, dealing with the conditions relating to the eight hour day in the industrial world. The difference between the eight hour day in business and manufacturing interests and in the railroad train service day has been fully explained. The railroad day is a basis for computing pay and overtime, the length of daily service being controlled by variable conditions.

"The demands involved in this controversy have not been presented, in our judgment, for the purpose of fixing a definite daily period of labor nor a reduction in the existing hours of labor or change in methods of operation, but for the real purpose of accomplishing an increase in wages of approximately \$100,000,000 per annum, or 35 per cent, for the men in railroad freight train and yard service represented by the labor organizations in this matter.

"After careful examination of the facts and patient and continuous consultation with the conference committee of managers and among ourselves we have reached a clear understanding of the magnitude of the questions and of the serious consequences to the railroads and to the public involved in a decision of them.

"As trustees for the public served by our lines and for the great mass of the less powerful employees (not less than 80 per cent of the whole number) interested in the railroad wage fund—as trustees also for the millions of people that have invested their savings and capital in the bonds and stocks of these properties, and who through the savings banks, the trust companies and insurance companies are vitally interested to the extent of millions of dollars in the integrity and solvency of the railroads of the country, we cannot in conscience surrender, without a hearing, the principle involved, nor undertake to transfer the enormous cost that will result to the transportation of the commerce of the country.

"The eight hour day without punitive overtime involves an annual increase approximating in the aggregate \$60,000,000, and an increase of more than 20 per cent in the pay of men already the most highly paid in the transportation service. The ultimate cost to the railroads of an admission in this manner of the principle under contention cannot now be estimated; the effect upon

the efficiency of the transportation of the country now already under severe test under the tide of business now moving and at a time when more instead of less effort is required for the public welfare would be harmful beyond calculation.

"The widespread effect upon the industries of the country as a whole is beyond measure or appraisal at this time, and we agree with the insistent and widespread public concern over the gravity of the situation and the consequences of a surrender by the railroads in this emergency.

"In like manner we are deeply impressed with the sense of our responsibility to maintain and keep open the arteries of transportation, which carry the life blood of the commerce of the country, and of the consequences that will flow from even a temporary interruption of service over the railroads, but the issues presented have been raised above and beyond the social and monetary questions involved and the responsibility for the consequences that may arise will rest upon those that provoke it.

"The questions involved are in our respectful judgment eminently suitable for the calm investigation and decision by the public through the agency of fair arbitration and cannot be disposed of to the public satisfaction in any other manner. The decision of a commission or board of arbitration having the public confidence will be accepted by the public and the social and financial rearrangements made necessary thereby will be undertaken by the public, but in no less deliberate or orderly manner.

"The railroads of the country cannot under present conditions assume this enormous increase in their expenses. If imposed upon them it would involve many in early financial embarrassment and bankruptcy and imperil the power of all to maintain their credit and the integrity of their securities. The immediate increase in cost, followed by other increases that would be inevitable, would substantially appropriate the present purchasing power of the railroads and disable them from extending and improving their facilities and equipment, to keep abreast of the demands of the country for efficient transportation service.

"For these reasons we are with deep regret unable to accept the suggestion made by the president of the United States.

"We propose, however, as a basis of settlement, the following:

"(a) The railroads will, effective Sept. 1, 1916, keep the time of all men represented in this movement upon an eight hour basis, and by separate account, monthly, with each man, maintain a record of the differences between the money actually earned by him on the present basis and the amount that would have been earned upon an eight hour basis—overtime on each basis to be computed pro rata. The amounts so shown will be subject to the decision of the commission provided for in paragraph (c) of this memorandum and payable in money as may be directed by said commission in its findings and decisions.

"(b) The interstate commerce commission to supervise the keeping of these accounts and report the increased cost of the eight hour basis, after such period of actual experience as their judgment approves or the president may fix, not, however, less than three months.

"(c) In view of the far-reaching consequences of the declaration made by the president accepting the eight hour day not only upon the railroads and the classes of labor involved directly in this controversy, but to the public and upon all industry, it seems plain that before the existing conditions are changed the whole subject in so far as it affects the railroads and their employees should be investigated and determined by a commission to be appointed by the president, of such standing as to compel attention and respect to its findings. The judgment of such a commission would be a helpful basis for adjustments with labor and such legislation as intelligent public opinion, so informed, might demand.

"The railroads will accept the findings of such

a commission upon the issue of an eight hour basis of pay as compared with the present basis, as well as upon any other matters now in controversy that may be submitted to it by either party.

"The commission should consist of not less than five members, and should also be authorized to hear and determine all questions that may arise in the application of the findings of said commission or in the working out of such plan as it may propose.

"The presidents of the railroads are prepared to continue negotiations on the subject with genuine anxiety, within the limits of their conviction above expressed, to find a solution of the situation."

ACTION BY CONGRESS.

Conferences between the administration leaders in the house and senate disclosed the fact that all the legislation desired by the president could not be secured. It was also felt that the brotherhoods should suspend the strike order so as to give congress time to consider the matter more carefully, but A. B. Garretson, chairman of the railway brotherhood conference committee, in a statement made before the senate committee on interstate commerce, said that it could not be done. If a bill satisfactory to the brotherhoods were passed by Saturday night, Sept. 2, the strike would be called off, but not otherwise.

Congress complied with the demand of President Wilson on behalf of the brotherhoods and passed what became known as the Adamson act, after William C. Adamson, chairman of the house committee on interstate and foreign commerce. The full text of the act follows:

ADAMSON ACT.

"Be it enacted by the senate and house of representatives of the United States of America in congress assembled, That beginning Jan. 1, 1917, eight hours shall, in contracts for labor and service, be deemed a day's work and the measure or standard of a day's work for the purpose of reckoning the compensation for services of all employees who are now or may hereafter be employed by any common carrier by railroad, except railroads independently owned and operated not exceeding 100 miles in length, electric street railroads and electric interurban railroads, which is subject to the provisions of the act of Feb. 4, 1887, entitled 'An act to regulate commerce,' as amended, and who are now or may hereafter be actually engaged in any capacity in the operation of trains used for the transportation of persons or property on railroads, except railroads independently owned and operated not exceeding 100 miles in length, electric street railroads and electric interurban railroads, from any state or territory of the United States or the District of Columbia to any other state or territory of the United States or the District of Columbia, or from one place in a territory to another place in the same territory, or from any place in the United States to an adjacent foreign country, or from any place in the United States through a foreign country to any other place in the United States: Provided, That the above exceptions shall not apply to railroads though less than 100 miles in length whose principal business is leasing or furnishing terminal or transfer facilities to other railroads, or are themselves engaged in transfers of freight between railroads or between railroads and industrial plants.

"Sec. 2. That the president shall appoint a commission of three, which shall observe the operation and effects of the institution of the eight hour standard work day as above defined and the facts and conditions affecting the relations between such common carriers and employees during a period of not less than six months nor more than nine months, in the discretion of the commission, and within thirty days thereafter such commission shall report its findings to the president and congress; that each member of the commission created under the provisions of this act shall receive such compensation as may

be fixed by the president. That the sum of \$25,000, or so much thereof as may be necessary, be, and hereby is, appropriated, out of any money in the United States treasury not otherwise appropriated, for the necessary and proper expenses incurred in connection with the work of such commission, including salaries, per diem, traveling expenses of members and employes, and rent, furniture, office fixtures and supplies, books, salaries and other necessary expenses, the same to be approved by the chairman of said commission and audited by the proper accounting officers of the treasury.

"Sec. 3. That pending the report of the commission herein provided for and for a period of thirty days thereafter the compensation of railway employes subject to this act for a standard eight hour workday shall not be reduced below the present standard day's wage, and for all necessary time in excess of eight hours such employes shall be paid at a rate not less than the pro rata rate for such standard eight hour workday.

"Sec. 4. That any person violating any provision of this act shall be guilty of a misdemeanor and upon conviction shall be fined not less than \$100 and not more than \$1,000, or imprisoned not to exceed one year, or both."

The bill was signed by President Wilson on Sunday, Sept. 3, and also on Tuesday, Sept. 5, in case the Sunday signature should prove to be illegal. The strike order was rescinded as soon as the senate had passed the bill.

VOTE ON THE MEASURE.

IN THE HOUSE.

The vote on the bill in the house was taken Sept. 1 and resulted in the passage of the bill by 239 yeas to 56 nays. Five members answered "present," while 132 refrained from voting or were not present. Those voting in the affirmative were:

EIGHT HOUR LAW BOARD.

Appointed by President Wilson Oct. 5, 1916.
 Maj.-Gen. George W. Goethals, U.S.A., chairman.
 Edgar E. Clark (Iowa), member interstate commerce commission.
 George Rublee (N. H.), member federal trade commission.

THE FEDERAL FARM LOAN ACT.

The federal farm loan act, also popularly called the "rural credits law," was passed by both houses of congress in May, 1916. It was approved by President Wilson and became a law July 17, 1916. Following is an official synopsis and interpretation of the act prepared by the office of information, United States department of agriculture.

OFFICIAL SYNOPSIS.

The primary purpose of this act is to promote agricultural prosperity by enabling farmers to borrow money on farm mortgage security at a reasonable rate of interest and for relatively long periods of time. To attain this object, two farm mortgage systems are provided: (1) A system operating through regional land banks; and (2) a system operating through joint stock land banks.

To attract money to the farm loan field, the act provides a method whereby those who have money to lend can find safe investments in the form of debentures or bonds, of small and large denominations, issued by the banks and based on the security of mortgages on farm lands.

These two systems are to be under the general supervision of a federal farm loan board in the treasury department, composed of the secretary of the treasury, as chairman ex officio, and four members appointed by the president. This board has authority to appoint appraisers, examiners and registrars who will be public officials.

FEDERAL LAND BANK SYSTEM.

Under the federal land bank system the act provides for federal land banks which make loans for the first twelve months exclusively through local national farm loan associations composed of borrowers. These associations shall be shareholders in the banks and in that way the members, who are the borrowers, will share in the profits of the banks. The money for the loans is to come partly from the capital of the banks and partly from the sale by the banks of bonds secured by first mortgages on farm lands. The act defines strictly the purposes for and the conditions under which loans are to be made and requires that the rate of interest charged on farm loans shall not exceed 6 per cent per annum.

The United States shall be divided into twelve farm loan districts and a federal land bank with a subscribed capital stock of not less than \$750,000, each share \$5, shall be established in each district. Each federal land bank may establish branches in its district. Within thirty days after the capital stock is offered for sale it may be purchased at par by any one. Thereafter the stock remaining unsold shall be bought by the secretary of the treasury for the United States. It is provided, however, that the government shall not receive any dividends on its stock. Ultimately, it is intended that all the stock in the banks shall be owned by the associations of borrowers and provision therefor is made in the law for transferring the original stock at par to these associations.

The act provides for the creation of local national farm loan associations through which it is contemplated that the federal land banks shall make their loans. In the event that a local loan association is not formed in any locality within a year the federal farm loan board may authorize a federal land bank to make loans on farm land through approved agents. Ten or more persons, who own and cultivate farm land qualified as security for a mortgage loan under the act, or who are about to own and cultivate such land, may form such an association provided the aggregate of the loans desired by the membership is not less than \$20,000. Each member must take stock in his association to an amount equivalent to 5 per cent of the amount he wishes to borrow. This stock the association holds in trust as security for the member's individual loan. The association, in turn, when applying for money from

the bank must subscribe for stock in the bank to an amount equivalent to 5 per cent of the sum it wants to obtain for its members. This stock is held in trust by the bank as security for the loans it makes through the association. If a prospective borrower has no money with which to pay for his association stock, he may borrow the price of that stock as a part of the loan on his farm land.

Under this plan, then, every borrower must be a stockholder in his local association and every association a stockholder in its district bank. Each stockholder in an association is liable for the acts of that association up to twice the amount of his stock.

OBTAINING LOANS.

A member of a national farm loan association before obtaining a loan must first fill out an application blank supplied to the loan association by the federal farm loan board. This application blank and other necessary papers will then be referred to a loan committee of the association, which must appraise the property offered as security. Such application as is approved by the loan committee is then forwarded to the federal land bank and must be investigated and reported on by a salaried appraiser of the bank before the loan is granted. This appraiser is required to investigate the solvency and character of the prospective borrower as well as the value of his land. When a loan is granted the amount is forwarded to the borrower through the loan association.

The act specifically defines the purposes for which loans may be obtained. These are:

"(a) To provide for the purchase of land for agricultural uses.

"(b) To provide for the purchase of equipment, fertilizers and live stock necessary for the proper and reasonable operation of the mortgaged farm; the term 'equipment' to be defined by the federal farm loan board.

"(c) To provide buildings and for the improvement of farm lands; the term 'improvement' to be defined by the federal farm loan board.

"(d) To liquidate indebtedness of the owner of the land mortgaged, existing at the time of the organization of the first national farm loan association established in or for the county in which the land mortgaged is situated, or indebtedness subsequently incurred for one of the purposes mentioned in this section."

Loans may be made only on first mortgages on farm land.

Only those who own and cultivate farm land or are about to own and cultivate such land are entitled to borrow.

No one can borrow save for the purposes stated in the act and those who after borrowing do not use the money for the purposes specified in the mortgage are liable to have their loans reduced or recalled. The secretary-treasurer of each association is required to report any diversion of borrowed money from the purposes stated in the mortgages.

No individual can borrow more than \$10,000 or less than \$100.

No loan may be made for more than 50 per cent of the value of the land mortgaged and 20 per cent of the value of the permanent insured improvements upon it.

The loan must run for not less than five and not more than forty years.

Every mortgage must provide for the repayment of the loan under an amortization plan by means of a fixed number of annual or semi-annual installments sufficient to meet all interest and pay off the debt by the end of the term of the loan. The installments required will be those published in amortization tables to be prepared by the farm loan board.

The bank is given power to protect itself in case of default by recalling the loan in whole or in part or taking other necessary action.

INTEREST RATE PAID BY BORROWER.

No federal land bank is permitted to charge more than 6 per cent per annum on its farm

mortgage loans and in no case shall the interest charged on farm mortgages exceed by more than 1 per cent the rate paid on the last issue of bonds.

For example, if the bank pays only 4 per cent on an issue of bonds, it cannot charge more than 5 per cent for the next farm loans it makes.

Out of this margin of not to exceed 1 per cent together with such amounts as it can earn on its paid in cash capital, the bank must set aside certain reserves and meet all its expenses. Any balance or net profits can be distributed as dividends to the loan associations or their stockholders. The loan associations from their bank dividends after setting aside the required reserves and meeting expenses can declare association dividends to their members. In this way the profits if any will be distributed among the borrowers and will to that extent reduce the amount of interest actually paid by them.

RESTRICTION ON FEES AND COMMISSIONS.

The federal land banks are specifically prohibited from charging in connection with making a loan any fees or commissions which are not authorized by the farm loan board. The authorized fees need not be paid in advance, but may be made part of the loan.

AMORTIZATION PLAN OF REPAYING LOANS.

It has been said that all loans are to be repaid on the amortization plan. This plan calls for a number of fixed annual or semiannual payments which include not only all interest and charges due the bank but the principal as well. These payments are so calculated as to extinguish the debt in a given number of years. After five years the borrower has the right on any interest date to make additional payments on the principal in sums of \$25 or any multiple thereof, thus discharging the debt more quickly.

The table given herewith illustrates how a loan of \$1,000 bearing interest at 5 per cent would be retired in twenty years by an annual payment of \$80.24. A study of the columns shows how from year to year the interest is reduced and the proportion of the payment which goes to discharge the principal steadily increases. The final payment cancels the debt.

Annual periods.	Total annual payment.	Interest at 5 per cent.	Paid on principal.	Amount of principal unpaid.
1.....	\$80.24	\$50.00	\$30.24	\$669.76
2.....	80.24	48.48	31.75	938.00

Total	1,604.89	604.81	1,000.00	

FUNDS AVAILABLE FOR LOANS.

After a federal land bank has loaned on first mortgage \$50,000 it can obtain permission from the farm loan board to issue \$50,000 in farm loan bonds based on these mortgages, sell such bonds in the open market and use the money thus obtained to lend on other mortgages.

This process of lending on mortgages and selling bonds in issues of \$50,000 may be repeated until bonds to the amount of twenty times the bank's paid-up capital are outstanding. If each bank should have only its required minimum paid-up capital of \$750,000, this plan will provide eventually, if all the authorized bonds of the

twelve banks are sold, over \$180,000,000 to lend on first mortgages on farm land. The banks, however, can increase their capital stock above the required minimum and so increase the amount of bonds they can sell and thus increase the total amount of money available for loans on farm mortgages.

To make these bonds attractive to investors the bonds, together with the mortgages upon which they are based, are exempted from federal, state, municipal and local taxation and are made legal investments for fiduciary and trust funds. The capital stock of the federal land banks is also exempt from taxation. Federal reserve banks and member banks of that system are empowered to buy and sell these bonds. They are to be issued in denominations of \$20, \$50, \$100, \$500 and \$1,000.

FUNDS FOR CURRENT EXPENSES.

To provide funds for current expenses the loan association may retain as a commission from each interest payment not to exceed one-eighth of 1 per cent semiannually upon the unpaid principal of the loan. This commission is to be deducted from the dividends payable to such farm loan association by the federal land bank. If the commissions are not adequate, and an association does not wish to assess members for current expenses, it may borrow at 6 per cent from the federal land bank to an amount not to exceed in the aggregate one-fourth of its bank stock.

The law requires both the land banks and the farm loan associations to make provision for certain reserves before they can pay any dividends.

JOINT STOCK LAND BANKS.

In addition to the system of twelve federal land banks and the national farm loan associations of borrowers the act permits the establishment of joint stock land banks and authorizes them to carry on the business of lending directly to borrowers on farm mortgage security and issuing farm loan bonds. These banks must have a capital of not less than \$250,000. They are under the supervision of the federal farm loan board, but the government does not lend them any financial assistance.

The joint stock land bank is free from many of the conditions imposed on the federal land banks. Subject to the 50 and 20 per cent value limitation and the limitation as to territory, the joint stock land bank may lend more than \$10,000 to a single individual and it is not restricted to making loans for the purposes specified in the case of the federal land bank.

The joint stock bank, like the federal land banks, cannot charge an interest rate on farm mortgages in excess of 6 per cent, nor shall such interest rate exceed by more than 1 per cent the rate of interest paid by the bank upon its last issue of bonds. A joint stock bank is limited in its bond issue to fifteen times its capital and surplus.

Among the restrictions placed on these banks under the act are (1) that their mortgages must provide for an amortization system of repayment such as is prescribed in the case of loans through the federal land banks, and (2) that they shall in no case demand or receive under any form or pretense any commission or charge not specifically authorized by the act and approved by the farm loan board.

The bonds of the joint stock land banks are exempted from taxation. Their capital stock, however, is not exempted.

GENERAL PROVISIONS.

The law, through the farm loan board, provides the necessary machinery for frequent examinations of the banks and the associations, for the proper cancellation of mortgages and for the safe custody of mortgages offered as security for bonds. When any mortgage offered as security for bonds is withdrawn the bank is required to replace the security with other mortgages or with other satisfactory collateral.

Heavy penalties of fine or imprisonment, or

both, are imposed for violations of the act, malfeasance in office, fraud, embezzlement, defalcation or other illegal practices. #

SUMMARY OF LAW.

FEDERAL FARM LOAN BOARD.

The act provides that there shall be established at the seat of government in the treasury department a bureau charged with the execution of the act, to be known as the federal farm bureau, under the general supervision of a federal farm loan board. This board shall consist of five members, including the secretary of the treasury, who shall be a member and chairman ex officio, and four members to be appointed by the president of the United States. Of the four members to be appointed by the president not more than two shall be appointed from one political party. All four shall be citizens of the United States and shall devote their entire time to the business of the federal farm loan board. They shall receive an annual salary of \$10,000, together with actual necessary traveling expenses. One shall be appointed to serve for two years, one for four years and one for eight years and thereafter each shall serve for eight years unless sooner removed for cause by the president. One of the members shall be designated by the president as farm loan commissioner, who shall be the active executive officer of the board. No member of the board shall be an officer or director of any other institution engaged in banking or in the business of making or selling land mortgages.

The federal farm loan board shall appoint a farm loan registrar in each land bank district to receive applications for issues of farm loan bonds and to perform such other services as are prescribed by the act. It shall also appoint one or more land bank appraisers for each land bank district and as many land bank examiners as it shall deem necessary. Farm loan registrars, land bank appraisers and land bank examiners appointed under this section shall be public officials and shall, during their continuance in office, have no connection with or interest in any other institution, association or partnership engaged in banking or in the business of making land mortgage loans or selling land mortgages. The salaries and expenses of the federal farm loan board and of farm loan registrars and examiners authorized under this section shall be paid by the United States. Land bank appraisers shall receive such compensation as the federal farm loan board shall fix, and shall be paid by the federal land banks and the joint stock land banks which they serve, in such proportion and in such manner as the federal farm loan board shall order.

FEDERAL LAND BANKS AND DISTRICTS.

The federal farm loan board shall divide continental United States, excluding Alaska, into twelve federal land bank districts to be designated by numbers. The districts shall be apportioned with due regard to the farm loan needs of the country, but no district shall contain a fractional part of a state. In each district there shall be established by the board a federal land bank with its principal office located in such city as the board shall designate. Branches may be established within the district. Each federal land bank shall be managed temporarily by five directors appointed by the federal farm loan board and receiving such compensation as the board may fix. The directors shall file an organization certificate with the farm loan commissioner and the bank shall then become a body corporate with power to adopt a seal, have succession, make contracts, sue and be sued, elect officers, prescribe by-laws and to carry on the business described in the act. When the subscriptions to the stock in any federal land bank by national farm loan associations shall have reached \$100,000, officers and directors shall be chosen who shall take over the management from the temporary officers. The board of directors of every federal land bank shall consist of nine members holding office for three years. Six shall be known as local directors and shall be chosen by the na-

tional farm loan associations. The remaining three directors shall be known as district directors and shall be appointed by the federal farm loan board to represent the public interest.

Every federal land bank shall have before beginning business a subscribed capital of not less than \$750,000, the stock to be divided into shares of \$5 each.

NATIONAL FARM LOAN ASSOCIATIONS.

Corporations to be known as national farm loan associations may be formed by persons desiring to borrow money on farm mortgage security under the terms of the act. Each association shall elect, in the manner prescribed for national banking associations, a board of not less than five directors who shall choose a secretary-treasurer, who shall receive such compensation as they may determine. They shall also elect a president, vice-president and a loan committee of three members. The directors and all the officers except the secretary-treasurer shall serve without compensation, unless the payment of salaries to them shall be approved by the federal farm loan board.

It shall be the duty of the secretary-treasurer of every national farm loan association to act as custodian of its funds and to deposit the same in such bank as the board of directors may determine to pay over to borrowers as sums received for their account from the federal land bank upon first mortgage and to meet all other obligations of the association. It shall be the duty of the secretary-treasurer, acting under the direction of the national farm loan association, to collect and transmit to the federal land bank payments of interest, amortization installments or principal arising out of loans made through the association. He shall be the custodian of the securities, records, papers, certificates of stock and all documents relating to or bearing upon the conduct of the affairs of the association.

The reasonable expenses of the secretary-treasurer, the loan committee, the officers and agents of national farm loan associations, and the salary of the secretary-treasurer, shall be paid from the general funds of the association, and the board of directors is authorized to set aside such sums as it shall deem requisite for that purpose and for other expenses. When no such funds are available the board of directors may levy an assessment on members in proportion to the amount of stock held by each, which may be repaid as soon as funds are available, or it may secure an advance from the federal land bank of the district, to be repaid with interest at the rate of 6 per centum per annum, from dividends belonging to the association.

Ten or more natural persons who are the owners, or about to become the owners, of farm land qualified as security for a mortgage loan may unite to form a national farm loan association. When the articles of association are forwarded to the federal land bank of the district they shall be accompanied by the written report of the loan committee and by an affidavit stating that each of the subscribers is the owner or is about to become the owner of farm land as the basis of a mortgage loan; that the loan desired by each person is not more than \$10,000, nor less than \$100 and that the aggregate of the desired loans is not less than \$20,000; that the affidavit is accompanied by a subscription to stock in the federal land bank equal to 5 per cent of the aggregate sum desired on mortgage loans, and that a temporary organization has been formed. If the federal land bank, after appraising the value of the lands and investigating the character of the applicants, recommends that a charter be granted the federal farm loan board shall grant it. Upon receipt of its charter the national farm loan association shall be empowered to receive from the federal land bank of its district sums to be loaned to its members under the conditions of the act.

The shares in national farm loan associations shall be \$5 each. No persons but borrowers on farm loan mortgages shall be members or shareholders of national farm loan associations. Every national farm loan association shall have power:

(1) To indorse and become liable for the payment of mortgages taken from its shareholders by the federal land bank of the district.

(2) To receive from the federal land bank of its district funds advanced by it and deliver the same to its shareholders on receipt of first mortgages.

(3) To acquire and dispose of property, real and personal.

(4) To issue certificates against deposits of current funds bearing interest for not longer than one year at not to exceed 4 per cent, convertible into farm loan bonds when presented at the federal land bank of the district in the amount of \$25 or any multiple thereof.

Loans shall be secured by recorded first mortgages on farm land within the land bank district in which the bank is situated. Every such mortgage shall contain an agreement providing for the repayment of the loan on an amortization plan by means of a fixed number of annual or semiannual installments sufficient to cover, first, a charge on the loan at a rate not exceeding the interest rate in the last series of farm loan bonds issued by the land bank making the loan; second, a charge for administration and profits at a rate not exceeding 1 per centum per annum on the unpaid principal, said two rates combined constituting the interest rate on the mortgage; and, third, such amounts to be applied on the principal as will extinguish the debt within an agreed period, not less than five years nor more than forty years. After five years from the date upon which a loan is made additional payments in sums of \$25 or any multiple thereof for the reduction of the principal or the payment of the entire principal may be made on any regular installment date under the rules and regulations of the federal farm loan board.

(The purposes for which such loans may be made are fully set forth in the foregoing outline of the act issued by the information office of the department of agriculture.)

POWERS OF FEDERAL LAND BANKS.

Every federal land bank shall have power:

(1) To issue, subject to the approval of the federal farm loan board, and to sell farm loan bonds of the kinds authorized in the act, to buy the same for its own account, and to retire the same at or before maturity.

(2) To invest such funds as may be in its possession in the purchase of qualified first mortgages on farm lands situated within the federal land bank district within which it is organized or for which it is acting.

(3) To receive and to deposit in trust with the farm loan registrar for the district, to be by him held as collateral security for farm loan bonds, first mortgages upon farm land, and to empower national farm loan associations, or duly authorized agents, to collect and immediately pay over to the land banks the dues, interest, amortization installments and other sums under the terms and conditions of the mortgages and of the bonds secured thereby.

(4) To acquire and dispose of property, real and personal.

(5) To deposit its securities and its current funds subject to check with any member bank of the federal reserve system and to receive interest thereon.

(6) To accept deposits of securities or of current funds from national farm loan associations holding its shares, but to pay no interest on such deposits.

(7) To borrow money, give security for and pay interest thereon.

(8) To buy and sell United States bonds.

(9) To charge applicants for loans and borrowers reasonable fees not exceeding the actual cost of appraisal and determination of title. Legal fees and recording charges imposed by law in the state where the land to be mortgaged is located may also be included in the preliminary costs.

No federal bank shall have the power:

(1) To accept deposits of current funds payable upon demand except from its own stock-

holders or to transact any banking or other business not authorized by the act.

(2) To loan or first mortgage except through national farm land associations or through agents.

(3) To accept any mortgages upon real estate except first mortgages created subject to all limitations imposed in the act and those taken as additional security for existing loans.

(4) To obligate itself for outstanding farm loan bonds in excess of twenty times the amount of its capital and surplus, or to receive from any national farm loan association additional mortgages when the principal remaining unpaid upon mortgages already received from such association shall exceed twenty times the amount of its capital stock owned by such association.

(5) To demand or receive any commission or charge not specifically authorized by the act.

AGENTS OF FEDERAL LAND BANKS.

Whenever, after the act shall have been in effect one year, it shall appear to the federal farm loan board that national farm loan associations have not been formed and are not likely to be formed in any locality, because of peculiar local conditions, the board may authorize federal land banks to make loans on farm lands through agents. Such loans shall be subject to the same conditions and restrictions as if the same were made through national farm loan associations, and each borrower shall contribute 5 per cent of the amount of his loan to the capital of the federal land bank and shall become the owner of as much capital stock of the land bank as such contribution shall warrant. No agent other than a duly incorporated bank, trust company, mortgage company or savings institution, chartered by the state in which it has its principal office, shall be employed under the provisions of this section.

Federal land banks may pay to such agents the actual expense of appraising the land offered as security for a loan, examining and certifying the title thereof, and making, executing and recording the mortgage papers; and in addition may allow the agents not to exceed one-half of 1 per cent per annum upon the unpaid principal of said loan, such commission to be deducted from dividends payable to the borrower on his stock in the federal land bank.

JOINT STOCK LAND BANKS.

Corporations to be known as joint stock land banks, for carrying on the business of lending on farm mortgage security and issuing farm loan bonds, may be formed by any number of natural persons not less than ten. They shall be organized subject to the requirements and under the conditions set forth in the section providing for the organization of federal land banks, so far as the same may be applicable. Shareholders of every joint stock land bank shall be held individually responsible, equally and ratably, and no one shall be liable for the contracts, debts and engagements of such banks to the extent of the amount of stock owned by them at the par value thereof, in addition to the amount paid in and represented by their shares. Joint stock banks shall have the powers of federal land banks and shall be subject to the same limitations. The United States government, however, shall not purchase or subscribe for any of the capital stock of such bank; and each shareholder of any such bank shall have the same voting privileges as holders of shares in national banking associations.

No joint stock land bank shall have power to issue or obligate itself for outstanding farm loan bonds in excess of fifteen times its capital and surplus, or to receive deposits or transact any banking or other business not expressly authorized by the act. No joint stock land bank shall be authorized to do business until capital stock to the amount of at least \$250,000 has been subscribed. It shall not issue any bonds until the capital stock is entirely paid up.

Joint stock land banks shall make no loans which are not secured by first mortgages on farm lands within the state in which such bank has its principal office or within some one state

contiguous to such state. Joint stock land banks shall in no case charge a rate of interest on farm land loans exceeding by more than 1 per cent the rate of interest established for the last series of farm loan bonds issued by them. Each joint stock bank shall have authority to issue bonds upon mortgages taken by it in accordance with the terms of the act.

POWERS OF FEDERAL FARM LOAN BOARD.

The federal farm loan board shall have power:

(a) To organize and charter federal land banks and to charter national farm loan associations and joint stock land banks subject to the provisions of this act, and in its discretion to authorize them to increase their capital stock.

(b) To review and alter at its discretion the rate of interest to be charged by federal land banks for loans made by them.

(c) To grant or refuse to federal land banks, or joint stock land banks, authority to make any specific issue of farm loan bonds.

(d) To make rules and regulations respecting the charges made to borrowers on loans for expenses in appraisal, determination of title and recording.

(e) To require reports and statements of condition and to make examinations of all banks or associations doing business under the provisions of this act.

(f) To prescribe the form and terms of farm loan bonds and the form, terms and penal sums of all surety bonds required under this act and of such other surety bonds as they shall deem necessary, such surety bonds to cover financial loss as well as faithful performance of duty.

(g) To require federal land banks to pay forthwith to any federal land bank their equitable proportion of any sums advanced by the land bank to pay the coupons of any other land bank, basing the required payments on the amount of farm loan bonds issued by each land bank and actually outstanding at the time of such requirement.

(h) To suspend or to remove for cause any district director or any registrar, appraiser, examiner or other official appointed by the board, the cause of such suspension or removal to be communicated forthwith in writing by the federal farm loan board to the person suspended or removed, and in case of a district director to the proper federal land bank.

(i) To exercise general supervisory authority over the federal land banks, the national farm loan associations and the joint stock land banks.

(j) To exercise such incidental powers as shall be necessary or requisite to fulfill its duties and carry out the purposes of the act.

APPLICATIONS FOR FARM LOAN BONDS.

Any federal land bank or joint stock land bank, which shall have voted to issue farm loan bonds, shall make written application to the federal farm loan board, through the farm loan registrar of the district, for approval of such issue. With the application the land bank shall tender to the farm loan registrar as collateral security first mortgages on farm lands or United States government bonds, not less in aggregate amount than the sum the bonds proposed to be issued. Upon receipt of the application the farm loan registrar shall verify the schedule and transmit it with the application to the federal farm loan board. The board shall then make such investigation and appraisement as it shall deem advisable and shall grant in whole or in part or reject entirely the application.

Whenever any farm loan registrar shall receive from the federal farm loan board notice that it has approved any issue of farm loan bonds he shall take such steps as may be necessary to insure the execution and delivery of the bonds to the land bank applying for them. The land bank shall transfer to the registrar, by assignment in trust, all first mortgages and bonds held by him as collateral security.

FORM OF FARM LOAN BONDS.

Bonds provided for in the act shall be issued in denominations of \$25, \$50, \$100, \$500 and \$1,000; they shall run for specified minimum and maxi-

mum periods, subject to payment and retirement, at the option of the land bank, at any time after five years from the date of their issue. They shall have interest coupons attached, payable semiannually, and shall be issued in series of not less than \$50,000, the amount and terms to be fixed by the federal farm loan board. They shall bear a rate of interest not to exceed 5 per centum per annum.

Whenever any federal land bank or joint stock land bank shall receive any interest, amortization or other payments upon any issue of farm loan bonds it shall notify the farm loan registrar, who shall cause such payment to be credited upon the mortgage entitled to such credit. Whenever any mortgage is paid in full the registrar shall cause it to be canceled and delivered to the proper land bank, which shall satisfy and discharge the lien of record and transmit the canceled mortgage to the original maker or his heirs.

APPLICATION OF TRUST FUND.

Amortization and other payments on the principal of first mortgages held by a farm loan registrar as collateral security for the issue of farm loan bonds shall constitute a trust fund in the hands of the federal land bank or joint stock land bank receiving the same, and shall be applied or employed as follows:

In the case of a federal land bank—

(a) To pay off farm loan bonds issued by the bank as they mature.

(b) To purchase at or below par farm loan bonds issued by the bank or by any other federal land bank.

(c) To loan on first mortgages on farm lands within the land bank district.

(d) To purchase United States government bonds.

In the case of a joint stock land bank—

(a) To pay off farm loan bonds issued by the bank as they mature.

(b) To purchase at or below par farm loan bonds.

(c) To loan on first mortgages.

(d) To purchase United States government bonds.

The farm loan bonds, first mortgages, United States government bonds or cash constituting the trust fund shall be deposited with the farm loan registrar as substituted collateral security in place of the sums paid on the principal of indorsed mortgages held by him in trust.

EXEMPTION FROM TAXATION.

Every federal land bank and every national farm loan association, including the capital and reserve or surplus therein and the income derived therefrom, shall be exempt from federal, state, municipal and local taxation, except taxes upon real estate held, purchased or taken by the bank or association under the provisions of the act. First mortgages executed to federal land banks or to joint stock land banks, and farm loan bonds issued under the provisions of the act, shall be deemed and held to be instrumentalities of the government of the United States, and as such they and the income derived therefrom shall be exempt from federal, state, municipal and local taxation.

Nothing shall prevent the shares in any joint stock land bank from being included in the valuation of the personal property of the owner or holder of such shares, in assessing taxes imposed by authority of the state within which the bank is located; but such assessment and taxation shall be subject to the conditions and limitations contained in section 5219 of the revised statutes with reference to the shares of national banking associations.

Nothing herein shall be construed to exempt the real property of federal and joint stock land banks and national farm loan associations from either state, county or municipal taxes to the same extent, according to its value, as other real property is taxed.

INVESTMENT IN FARM LOAN BONDS.

Farm loan bonds issued under the provisions of the act by federal land banks or joint stock

land banks shall be a lawful investment for all fiduciary and trust funds and may be accepted as security for all public deposits. Any member bank of the federal reserve system may buy and sell farm loan bonds issued under the authority of this act.

Any federal reserve bank may buy and sell farm loan bonds to the same extent and subject to the same limitations placed upon the purchase and sale by the banks of state, county, district and municipal bonds.

EXAMINATIONS.

The federal farm loan board shall appoint as many land bank examiners as in its judgment may be required to make careful examinations of the banks and associations permitted to do business under this act. The examiners shall be subject to the same requirements, responsibilities and penalties as are applicable to na-

tional bank examiners under the national bank act, the federal reserve act and other provisions of law. Whenever directed by the federal farm loan board, said examiners shall examine the condition of any national farm loan association and report the same to the farm loan commissioner. They shall examine and report the condition of every federal land bank and joint stock land bank at least twice each year.

The examiners shall receive salaries to be fixed by the federal farm loan board.

FEDERAL FARM LOAN BOARD.

Appointed by President Wilson, 1916.

Charles E. Lobdell, Kansas.

George W. Norris, Pennsylvania.

Herbert Quick, West Virginia.

W. S. A. Smith, Iowa.

William G. McAdoo, ex officio.

Secretary—W. W. Flanagan.

FEDERAL FUNDS FOR ROADS.

LAW PASSED BY CONGRESS.

The secretary of agriculture is authorized to co-operate with the states, through their respective highway departments, in the construction of rural post roads; but no money apportioned under the act to any state shall be expended therein until its legislature shall have assented to the provisions of the act, except that, until the final adjournment of the first regular session of the legislature held after the passage of the act, the assent of the governor of the state shall be sufficient. The secretary of agriculture and the state highway department of each state shall agree upon the roads to be constructed therein and the character and method of construction. All roads constructed under the act shall be free from tolls.

"Rural post road" is to be construed as meaning any public road over which United States mails are now or may hereafter be transported, excluding streets and roads in places having a population of 2,500 or more except that portion of any such road or street along which the houses average more than 200 feet apart. "State highway department" means any department, commission or official exercising the functions of a state highway department. The term "construction" includes reconstruction and improvement and "properly maintained" means the making of repairs and the preservation of a reasonably smooth surface considering the type of road.

For the purpose of carrying out the provisions of the act there is appropriated for the fiscal year ending June 30, 1917, the sum of \$5,000,000; for 1918, \$10,000,000; for 1919, \$15,000,000; for 1920, \$20,000,000, and for 1921, \$25,000,000. So much of the appropriation apportioned to any state for each fiscal year as remains unexpended at the close thereof shall be available for expenditure in that state until the close of the succeeding fiscal year, except that amounts apportioned for any fiscal year to any state which has not a state highway department shall be available for expenditure in that state until the close of the third fiscal year succeeding the close of the fiscal year for which such apportionment was made. Any amount apportioned under the provisions of this act unexpended at the end of the period during which it is available for expenditure under the terms of this section shall be reapportioned, within sixty days thereafter, to all the states in the same manner and on the same basis as if it were being apportioned under this act for the first time. Provided, that in states where the constitution prohibits the state from engaging in any work of internal improvements, then the amount of the appropriation under this act apportioned to any such state shall be turned over to the highway department of the state or to the governor to be expended under the provisions of this act and under the rules and regulations of the department of agriculture, when any number of counties in any such state shall appropriate or provide the proportion or share needed to be raised in order to entitle such state to its part of the appropriation.

So much, not to exceed 3 per centum, of the appropriation for any fiscal year made under this act as the secretary of agriculture may estimate to be necessary for administering the provisions of this act shall be deducted for that purpose, available until expended. Within sixty days after the close of each fiscal year the secretary of agriculture shall determine what part, if any, of the sums theretofore deducted for administering the provisions of this act will not be needed for that purpose and apportion such part, if any, for the fiscal year then current in the same manner and on the same basis, and certify it to the secretary of the treasury and to the state highway departments, and to the governors of states having no state highway departments, in the same way as other amounts authorized by this act to be apportioned among all the states for such current fiscal year. The secretary of agriculture, after making the deduction authorized by this section, shall apportion the remainder of the appropriation for each fiscal year among the several states in the following manner: One-third in the ratio which the area of each state bears to the total area of all the states; one-third in the ratio which the population of each state bears to the total population of all the states, as shown by the latest available federal census; one-third in the ratio which the mileage of rural delivery routes and star routes in each state bears to the total mileage of rural delivery routes and star routes in all the states at the close of the next preceding fiscal year, as shown by the certificate of the postmaster-general, which he is directed to make and furnish annually to the secretary of agriculture.

Within sixty days after the approval of this act the secretary of agriculture shall certify to the secretary of the treasury and to each state highway department and to the governor of each state having no state highway department the sum which he has estimated to be deducted for administering the provisions of this act and the sum which he has apportioned to each state for the fiscal year ending June 30, 1917, and on or before Jan. 20 next preceding the beginning of each succeeding fiscal year shall make like certificates for such fiscal year.

Any state desiring to avail itself of the benefits of this act shall, by its state highway department, submit to the secretary of agriculture project statements setting forth proposed construction of any rural post road or roads therein. If the secretary of agriculture approve a project the state highway department shall furnish to him such surveys, plans, specifications and estimates as he may require. The secretary of agriculture shall approve only such projects as may be substantial in character and the expenditure of funds hereby authorized shall be applied only to such improvements. Items included for engineering, inspection and unforeseen contingencies shall not exceed 10 per cent of the total estimated cost of the work. If the secretary of agriculture approve the plans, speci-

fications and estimates, he shall notify the state highway department and immediately certify the fact to the secretary of the treasury. The secretary of the treasury shall then set aside the share of the United States payable under this act on account of such project, which shall not exceed 50 per cent of the total estimated cost thereof.

When the secretary of agriculture shall find that any project approved by him has been constructed in compliance with the plans and specifications he shall cause to be paid to the proper authority of the state the amount set aside for the project. He may, in his discretion, from time to time make payments as the construction progresses, but these payments, including previous payments, if any, shall not be more than the United States' pro rata part of the value of the labor and materials which have been actually put into the construction in conformity with the plans and specifications; nor shall any such payment be in excess of \$10,000 per mile, exclusive of the cost of bridges of more than twenty feet clear span. The secretary of agriculture and the state highway department of each state may jointly determine at what times and in what amounts, as the work progresses payments shall be made under the act. Such payments shall be made by the secretary of the treasury, on warrants drawn by the secretary of agriculture, to such official or depository as may be designated by the state highway department and authorized under the laws of the state to receive public funds of the state or county.

To maintain the roads constructed under the provisions of the act shall be the duty of the states or their civil subdivisions, according to the laws of the several states. If at any time the secretary of agriculture shall find that any road in any state constructed under the provisions of this act is not being properly maintained he shall give notice of such fact to the highway department and if within four months from the receipt of the notice the road has not been put in a proper condition of maintenance then the secretary of agriculture shall thereafter refuse to approve any project for road construction in the state, or the civil subdivision thereof, as the fact may be, whose duty it is to maintain the road, until it has been put in a condition of proper maintenance.

There is appropriated the sum of \$1,000,000 for the fiscal year ending June 30, 1917, and each fiscal year thereafter up to and including the fiscal year ending June 30, 1926, in all \$10,000,000, to be available until expended under the supervision of the secretary of agriculture, upon request from the proper officers of the state, territory or county, for the survey, construction and maintenance of roads and trails within or only partly within the national forests, when necessary for the use and development of resources upon which communities within and adjacent to the national forests are dependent: Provided, That the state, territory or county shall enter into a co-operative agreement with the secretary of agriculture for the survey, con-

struction and maintenance of such roads or trails upon a basis equitable to both the state, territory or county, and the United States: And provided also, That the aggregate expenditures in any state, territory or county shall not exceed 10 per centum of the value, as determined by the secretary of agriculture, of the timber and forage resources which are or will be available for income upon the national forest lands within the respective county or counties wherein the roads or trails will be constructed; and the secretary of agriculture shall make annual report to congress of the amounts expended hereunder.

Immediately upon the execution of any co-operative agreement hereunder the secretary of agriculture shall notify the secretary of the treasury of the amount to be expended by the United States within or adjacent to any national forest thereunder, and beginning with the next fiscal year and each fiscal year thereafter the secretary of the treasury shall apply from any and all revenues from such forest 10 per centum thereof to reimburse the United States for expenditures made under such agreement until the whole amount advanced under such agreement shall have been returned from the receipts from such national forest.

Out of the appropriations made under this act the secretary of agriculture is authorized to employ such assistants, clerks and other persons in the city of Washington and elsewhere, to be taken from the eligible lists of the civil service commission, to rent buildings outside of the city of Washington, to purchase such supplies, material, equipment, office fixtures and apparatus and to incur such travel and other expense as he may deem necessary for carrying out the purposes of the act.

The secretary of agriculture is authorized to make rules and regulations for carrying out the provisions of this act. The act shall be in force from the date of its passage.

Approved, July 11, 1916.

APPORTIONMENT OF FUNDS.

The secretary of agriculture, under date of July 21, 1916, certified to the secretary of the treasury and the governors and state highway departments of the several states the following apportionment of the \$5,000,000 of federal road funds available for the fiscal year ending June 30, 1917. This is the first installment of federal moneys to be apportioned to the states under the federal-aid road act, approved July 11, 1916. Before making the division among the states, the secretary, in accordance with the act, deducted 3 per cent, or \$150,000, needed for administering its provisions. This left \$4,850,000 to be apportioned among the states, one-third in the ratio of area, one-third in the ratio of population and one-third in the ratio of mileage of rural delivery routes and star routes. For convenient reference in connection with the certificate of deduction and apportionment issued by the secretary of agriculture, the factors of apportionment of \$4,850,000 and the amounts apportioned to each state for the fiscal year 1917 are set forth in the following table:

State.	Area in 1910—		Population in 1910—		Star and rural—		Percent- age apportionment.	Sum apportioned.

Others are at Pittsburgh, Pa.; Augusta, Ga.; Benicia, Cal.; Columbia, Tenn.; Fort Monroe, Va.; Philadelphia, Pa.; Indianapolis, Ind.; Governor's island, N. Y.; Jefferson barracks, Mo.; Sandy Hook, N. Y.; San Antonio, Tex.; Dover, N. J.; Watertown, Mass., and Watervliet, N. Y. Some of the above are merely powder depots, the principal manufacturing plants being at Rock Island, Springfield and Watervliet. The navy yards are also arsenals.

BALLOT FOR VICE-PRESIDENT.

Only one ballot for vice-president was taken, the choice falling on Charles Warren Fairbanks of Indiana. Only three names were formally presented to the convention. Mr. Fairbanks was nominated by John Wanamaker of Pennsylvania, Elmer J. Burkett of Nebraska by Howard J. Baldridge and William Grant Webster of Illinois by Elbert Abraham of Oregon. The call of the roll resulted as follows:

State.	Fair-Burk.	banks.	ett.	State.	Fair-Burk.	banks.	ett.

Burton received one vote from Illinois. Not voting, 3; absent, 1. Total, 937.

DETAILS OF CONVENTION.

The republican national nominating convention of 1916 was held in the Coliseum, Chicago, beginning at 11:30 a. m. Wednesday, June 7, and ending at 2:02 p. m. Saturday, June 10. The feature of the first session was the "keynote speech" of United States Senator Warren G. Harding of Ohio, who had been chosen as the temporary chairman of the convention and subsequently became its permanent chairman. After the transaction of some routine business the convention adjourned until the following day. The intervening time was used in completing the platform and in efforts, chiefly of an informal nature, to reach some sort of agreement with the leaders of the progressives, who were holding their national convention at the same time in the Auditorium. The republicans were divided as to the choice of a candidate for president. Many of the delegates favored Charles E. Hughes of the United States Supreme court, others were pledged to various "favorite sons" and not a few were inclined to look with favor on Theodore Roosevelt, who was the unanimous choice of the progressives. It was felt that if success was to be attained in the election the party must unite on one candidate. It was suggested that an invitation be sent to Col. Roosevelt to appear before both conventions in the interest of harmony. No formal action was taken to that end, but William F. Jackson, republican national committeeman from Maryland, took the initiative and sent the following telegram to Col. Roosevelt on the evening of June 7:

"The national interest demands the complete reunion of the republican party, which unhappily divided in 1912. I believe this can be accomplished by a more perfect understanding between you and the republican convention now assembled. I therefore most earnestly urge you to come to Chicago immediately, to address this convention and to make common cause in our deliberations. If you will indicate your willingness to take this course, I will use my utmost endeavors to secure for you the privileges of the convention floor."

MESSAGE FROM ROOSEVELT.

To this message Col. Roosevelt sent the following reply from Oyster Bay, N. Y. June 8:

"Hon. William F. Jackson, Republican Headquarters, Chicago, Ill.:

"In answer to your telegram I can only say that the matter lies with the republican convention and that if the convention desires me to address it I shall be glad to do so.

"I very earnestly hope that the republicans and progressives assembled at Chicago will keep steadily in mind the gravity of this crisis, not only for America but for the world, and the need that their action in dignity, foresight and patriotism shall rise level to the crisis. I hope that their aim will not be merely to nominate a man who can be elected next November, but a man of such power, character, steadfast conviction and proved ability that if elected he will again place this nation where it belongs by making it true to itself and, therefore, true to all mankind. President Wilson, however amiable his intentions, has rendered to this people the most evil service that can be rendered to a great democracy by its chosen leader. He has dulled the national conscience and relaxed the spring of lofty national motive by teaching our

people to accept high-sounding words as the offset and atonement for shabby deeds, and to use words which mean nothing in order to draw all meaning from those which have a meaning. It will be no easy task to arouse the austere self-respect which has been lulled to slumber by these means. To this task we should bend our united energies in the spirit of Washington and Lincoln, the spirit of genuine democratic leadership, the spirit which sets the standard to which the nation ought to rise, and then with confident hope appeals to the soul of the people so that they may in fact support the standard thus raised.

"The differences that have divided, not merely republicans and progressives but good Americans of all shades of political belief, from one another in the past sink into nothing when compared with the issues now demanding decision, for these issues are vital to the national life. They are the issues of a unified Americanism and of national preparedness. If we are not all of us Americans and nothing else, scorning to divide along lines of section, of creed or of national origin, then the nation itself will crumble into dust. If we are not thoroughly prepared, if we have not developed a strength which respects the rights of others, but which is also ready to enforce from others respect for its own rights, then, sooner or later we shall have to submit to the will of an alien conqueror.

"These questions are not in the realms of abstract thought. They must be taken out of the world of cloudy promise and vague phrasing into the world of performance and of fact. They are to-day in concrete form before you and your fellows for decision. For two years, in the face of the awful world cataclysm, this nation has stood supine and helpless, and has not in the smallest degree prepared itself to ward off the danger. No promise, no excuse now made by those responsible for this inaction is entitled to serious consideration. It is for you and your associates to show the people that they have a worthy alternative to which to turn.

"The professional German-Americans, acting through various agencies, including so-called German-American alliances, are at this moment serving notice on the members of your convention that your action must be taken with a view to the interests not of the United States but of Germany and of that section of the German-American vote which is anti-American to the core. I believe with all my heart that the action of these sinister professional German-Americans will be repudiated with angry contempt by the great mass of our fellow citizens who are in whole, or in part, of German blood—and who, as I well know, are unsurpassed in rugged and whole-souled Americanism by any other citizens of our land. But the professional German-Americans are seeking to terrorize your convention; for they wish to elect next November a man who shall not be in good faith an American president, but the viceroy of a foreign government. It is for your convention, in emphatic fashion, to repudiate them. This can be done in effective manner only if such action is taken as to enable republicans, progressives, democrats who are true to the principles of Andrew Jackson, and independents—in short, all loyal Americans—to join in the effort, to reach the goal we all have in view.

"Can we not, forgetting past differences, now join, for the safety and honor of our country, to enforce the policies of genuine Americanism and genuine preparedness? Surely we can afford to act in accordance with the words of Abraham Lincoln when he said: 'May not all having a common interest reunite in a common effort to save our common country? May we ask those who have not differed with us to join in this same spirit toward those who have?'

"As far as my own soul is known to me it is in this same spirit that at this time I make my appeal to the republicans and progressives assembled at Chicago.

"THEODORE ROOSEVELT."

CONFERENCE COMMITTEES NAMED.

Col. Roosevelt's suggestion was acted upon at once by the progressives, who passed the following resolution at the afternoon session of their convention June 8:

"In the spirit of the statement approved at the meeting of its national committee, held on Jan. 11 last past, the national convention of the progressive party invites and requests the national convention of the republican party to appoint a committee of conference to meet and confer with a similar committee from this body."

The resolution was sent to the republican convention by Secretary O. K. Davis. When it was received by that body on motion of Senator Reed Smoot a resolution was passed accepting the offer of the progressives and providing for the appointment by the chairman of a committee of five to confer with a similar committee from the progressives. The conference committees appointed were: Progressive—George W. Perkins, chairman; Hiram Johnson, Charles J. Bonaparte, John M. Parker and Horace S. Wilkinson. Republican—Reed Smoot, chairman; W. Murray Crane, Nicholas Murray Butler, William E. Borah and A. R. Johnson.

The committees met at the Chicago club, but failed to agree on any candidate, reporting as follows to the conventions on Friday, June 9:

REPUBLICAN REPORT.

"To the republican national convention:

"Your committee appointed pursuant to the resolution adopted at yesterday's session met in conference with a committee representing the national progressive convention last evening. The progressive committee of conference consisted of Messrs. Perkins of New York, Johnson of California, Bonaparte of Maryland, Wilkinson of New York and Parker of Louisiana.

"The conference was frank, free and most friendly. The conferees were of one mind in believing that the good of the country and perhaps its repute and influence for years to come depends upon the complete defeat of the present democratic administration and the restoration of the control of the executive and legislative branches of the government to the hands of those who firmly believe in and will execute the policies that are so heartily supported by the republican and the progressive parties alike.

"The progressive conferees were unanimous in urging with temperateness and fairness the opinion that Theodore Roosevelt of New York had so large a personal following and such a close personal relation to the issues of the coming campaign as to make him the most desirable candidate upon which to unite.

"It was agreed that your conferees would report these facts to this convention.

"Respectfully submitted,

"REED SMOOT,

"W. MURRAY CRANE,

"W. E. BORAH,

"NICHOLAS MURRAY BUTLER,

"A. R. JOHNSON."

PROGRESSIVE REPORT.

"To the progressive national convention:

"Your committee appointed pursuant to the resolution adopted at yesterday's session met in conference with the committee representing the national republican convention last evening. The committee of conference representing the republican national convention consisted of Messrs. Reed Smoot, W. Murray Crane, William E. Borah, Nicholas Murray Butler and A. R. Johnson.

"The conference was most friendly. Immediately upon assembling your committee proposed as the joint nominee of both conventions the name of Theodore Roosevelt. The committee representing the republican national convention did not present the name of any candidate, nor did it attempt to refute our arguments relating to the unique availability of Theodore Roosevelt as a candidate to unite both parties or to serve our common country at the crucial period

in the history of the world. After several hours of friendly discussion, during which no concrete proposition was advanced by the republican conferees, except that a further conference might be desirable this afternoon or evening, the joint committee adjourned.

"GEORGE W. PERKINS,

"HIRAM W. JOHNSON,

"CHARLES J. BONAPARTE,

"JOHN M. PARKER,

"HORACE S. WILKINSON."

The committees had further conferences Friday evening and Saturday morning. The progressives at the instance of Col. Roosevelt suggested Senator Lodge of Massachusetts as a compromise candidate, while the republicans suggested Justice Hughes, but neither suggestion proved acceptable.

In the meantime the republican convention at the afternoon session of Thursday, June 8, adopted the party platform (which will be found in full on another page of this volume) and then on Friday listened to speeches placing the various candidates for the presidency in nomination. The feature of the session was the series of demonstrations given as each man was named. The time consumed in these was: For Roosevelt, 39 minutes; for Burton, 22; for Fairbanks, 35; for Sherman, 24; for Hughes, 20; for Cummins, 17; for Root, 14; for Weeks, 3; for Du Pont, 1; for LaFollette, 1, and for Brumbaugh, 1.

JUSTICE HUGHES SUGGESTED.

When the nominating and seconding speeches had been ended the convention at 7:50 o'clock in the evening began balloting. The roll was called twice with the result heretofore given and the convention then, at 9:50 p. m., adjourned until 11 a. m. Saturday. After the adjournment the delegates pledged to Sherman and Weeks were released and it was announced that they would go to Hughes. The conference committees of the two conventions met at 9 a. m. Saturday. The republican conferees sent the following communication to the progressive conferees:

"Chicago, June 10, 1916.—To the conferees of the national progressive party: On behalf of the republican conferees we present for consideration as a candidate for president Justice Hughes. It is plain that he will soon command the support of a majority of the republican convention. His availability as a candidate rests, first, upon his known character and ability; second, upon his public service as governor of New York; third, his removal from any association with the convention of 1912 and the differences which then arose.

"The support of Justice Hughes in the republican convention reflects spontaneous interest and belief in his candidacy, which have shown themselves in widely scattered states and among all classes and groups of voters. These have shown themselves without any formal organization in his behalf and are one ground for believing that the candidacy would be acceptable to all groups of republicans and would reunite them.

"His silence as to recent issues is the necessary result of his judicial position. His earlier speeches and declarations, however, give ground for the assurance that he is in accord with the platform that has been adopted by the republican and progressive conventions.

"Respectfully submitted,

"REED SMOOT,

"W. MURRAY CRANE,

"WILLIAM E. BORAH,

"NICHOLAS MURRAY BUTLER,

"A. R. JOHNSON."

To this the progressive conferees replied:

"To the conferees of the republican national convention: In accordance with the precedent set by yourselves with respect to the communication received from us we shall take pleasure in presenting your communication to the na-

tional convention of the progressive party, which meets at 10:30 o'clock this morning.

"Respectfully

"GEORGE W. PERKINS,
"HIRAM JOHNSON,
"HORACE S. WILKINSON,
"CHARLES J. BONAPARTE,
"JOHN M. PARKER."

The progressive convention tabled the report and proceeded to nominate a candidate of its own. When the republican convention went into session this fact was announced and thereupon the roll was called for the third ballot, which resulted in the nomination of Justice Hughes. Then the convention quickly nominated Charles Warren Fairbanks for the vice-presidency and adjourned.

MR. HUGHES' ACCEPTANCE.

Soon after being notified of his nomination for the presidency Justice Hughes resigned from the United States Supreme court and then sent the following message to the chairman of the republican convention:

Washington, D. C., June 10, 1916.

Mr. Chairman and Delegates: I have not desired the nomination. I have wished to remain on the bench. But in this critical period of our national history I recognize that it is your right to summon and that it is my paramount duty to respond.

You speak at a time of national exigency transcending merely partisan considerations. You voice the demand for a dominant, thoroughgoing Americanism, with firm protective upbuilding policies essential to our peace and security; and to that call, in this crisis, I cannot fail to answer with the pledge of all that is in me to the service of our country. Therefore, I accept the nomination.

I stand for the firm and unflinching maintenance of all the rights of American citizens on land and sea. I neither impugn motives nor underestimate difficulties. But it is most regrettable true that in our foreign relations we have suffered incalculably from the weak and vacillating course which has been taken with regard to Mexico, a course lamentably wrong with regard to both our rights and our duties.

We interfered without consistency, and, while seeking to dictate when we were not concerned, we utterly failed to appreciate and discharge our plain duty to our own citizens.

At the outset of the administration the high responsibilities of our diplomatic intercourse with foreign nations were subordinated to a conception of partisan requirements and presented to the world a humiliating spectacle of ineptitude.

Belated efforts have not availed to recover the influence and prestige so unfortunately sacrificed, and brave words have been stripped of their force by indecision.

I desire to see our diplomacy restored to its best standards, and to have these advance; to have no sacrifices of national interests to partisan expediency; to have the first ability of the country always at its command, here and abroad, in diplomatic intercourse; to maintain firmly our rights under international law, insisting steadfastly upon all our rights as neutrals, and fully performing our international obligations; and by the clear correctness and justice of our position and our manifest ability and disposition to sustain them to dignify our place among the nations.

I stand for an Americanism that knows no ulterior purpose, for a patriotism which is single and complete. Whether native or naturalized, of whatever race or creed, we have but one country, and we do not for an instant tolerate any division of allegiance.

I believe in making prompt provision to assure absolutely our national security. I believe in preparedness, not only entirely adequate for our defense with respect to numbers and equipment, in both army and navy, but with all thoroughness to the end that in each branch of the serv-

ice there may be the utmost efficiency under the most competent administrative heads.

We are devoted to the ideals of honorable peace. We wish to promote all wise and practical measures for the just settlement of international disputes.

In view of our abiding ideals, there is no danger of militarism in this country. We have no policies of aggression, no lust for territory, no zeal for strife.

It is in this spirit that we demand adequate provision for national defense, and we condemn the inexcusable neglect that has been shown in this matter of first national importance. We must have the strength which self-respect demands, the strength of an efficient nation ready for every emergency.

Our preparation must be industrial and economic as well. Our severest test will come after the war is over. We must make a fair and wiser adjustment of the tariff, in accordance with sound principles to secure our economic independence and maintain American standards of living.

We must conserve the best interests of labor, realizing that in democracy patriotism and strength must be rooted in even handed justice.

In preventing, as we must, unjust discrimination and monopolistic practices, we must still be zealous to assure the foundations of honest business.

Particularly should we seek the expansion of foreign trade. We must not throttle enterprise, here or abroad, but rather promote it and take pride in honorable achievement.

We must take up the serious problem of transportation, of interstate and foreign commerce, in a sensible and candid manner, and provide an enduring basis for prosperity by the intelligent use of the constitutional powers of congress, so as adequately to protect the public on the one hand and on the other to conserve the essential instrumentalities of progress.

I stand for the principles of our civil service laws. In every department of government the highest efficiency must be insisted upon. All laws and programs are vain without efficient and impartial administration.

I cannot, within the limits of this statement, speak upon all the subjects that will require attention. I can only say that I fully indorse the platform you have adopted.

I deeply appreciate the responsibility you impose. I should have been glad to have that responsibility, placed upon another. But I shall undertake to meet it, grateful for the confidence you express.

I sincerely trust all former differences may be forgotten and that we may have united effort in a patriotic realization of our national need and opportunity.

I have resigned my judicial office, and I am ready to devote myself unreservedly to the campaign.

CHARLES E. HUGHES.

PROGRESSIVE.

Held in Auditorium, Chicago, June 7-10.

OFFICERS.*

Chairman—Raymond Robins, Illinois.
Secretary—Oscar King Davis, New York.
Assistant Secretaries—A. Nevin Detrich, Pennsylvania; Paul V. Dunn, Missouri; Julian S. Mason, Fred S. Wilbur and Sumner S. Anderson, Illinois; Gordon C. Aymer, Massachusetts.

Chairman Committee on Resolutions—William Draper Lewis, Pennsylvania.

Number of delegates, 626.

Woman delegates, 33.

*Temporary and permanent.

NOMINEES.

For president—Theodore Roosevelt, New York. Nominating speech made by Bainbridge Colby of New York. (Nomination declined.)

For vice-president—John M. Parker, Louisiana. Nominating speech made by Everett Colby of New Jersey.

The national nominating convention of the progressive party was held in the Auditorium, Chicago, June 7-10, 1916. The sentiment of the delegates was unanimously in favor of nominating Theodore Roosevelt for president of the United States, but it was also desired that he should be the candidate of the republican party, it being recognized that should the situation of 1912 be repeated the result would be the same. The time of the convention was largely taken up in waiting for the result of the conferences between the committees chosen by the progressives and republicans to find some basis of agreement that would reunite the two wings of the republican party. The result of these negotiations is given in the account of the proceedings of the republican convention. The temporary chairman of the progressive convention, who was subsequently made permanent chairman, was Raymond Robins of Illinois, who delivered his "keynote speech" at the opening session on June 7.

The leaders had difficulty in preventing the radical wing of the party from forcing the nomination of Col. Roosevelt as soon as the organization of the convention was completed, but the counsels of George W. Perkins of New York, James R. Garfield of Ohio, Chairman Robins and others prevailed and the nomination was deferred until it became evident that Justice Hughes would be named by the republican convention. Then at 12:35 p. m. June 10, or four minutes earlier than the nomination of Justice Hughes, Col. Roosevelt was nominated for president by acclamation. After a recess the convention nominated John M. Parker of Louisiana in the same way. As the platform had previously been adopted by acclamation the convention went on record as having had no roll call.

ROOSEVELT DECLINES.

Reports that Col. Roosevelt would decline the nomination were confirmed in part by the receipt of the following message from him before the convention adjourned:

"Oyster Bay, N. Y., June 10.

"To the progressive convention: I am very grateful for the honor you confer upon me by nominating me as president. I cannot accept it at this time. I do not know the attitude of the candidate of the republican party toward the vital questions of the day. Therefore, if you desire an immediate decision, I must decline the nomination.

"But if you prefer to, I suggest that my conditional refusal to run be placed in the hands of the progressive national committee. If Mr. Hughes' statements, when he makes them, shall satisfy the committee that it is for the interest of the country that he be elected, they can act accordingly and treat my refusal as definitely accepted.

"If they are not satisfied, they can so notify the progressive party, and at the same time they can confer with me and then determine on whatever action we may severally deem appropriate to meet the needs of the country.

"THEODORE ROOSEVELT."

For the purpose of receiving Col. Roosevelt's final decision and taking such action as it might make necessary, a meeting of the progressive national committee was called to be held in Chicago June 26. At this meeting, which was attended by most of the committeemen, a letter was received from Col. Roosevelt declining the nomination and advising the party to support Mr. Hughes for the presidency. Following are extracts from this letter:

"In my judgment, the nomination of Mr. Hughes meets the conditions set forth in the statement of the progressive national committee, issued last January, and in my own statements. Under existing conditions the nomination of a third ticket would, in my judgment, be merely a move in the interest of the election of Mr. Wilson. I regard Mr. Hughes as a man whose public record is a guaranty that he will not merely stand for a program of clean-cut, straight-out Americanism before election but will reso-

lutely and in good faith put it through if elected. He is beyond all comparison better fitted to be president than Mr. Wilson.

"It would be a grave detriment to the country to re-elect Mr. Wilson. I shall, therefore, strongly support Mr. Hughes. Such being the case, it is unnecessary to say that I cannot accept the nomination on a third ticket. I do not believe that there should be a third ticket. I believe that when my fellow progressives coolly consider the question they will for the most part take this position. They and I have but one purpose—the purpose to serve our common country. It is my deep conviction that at this moment we can serve it only by supporting Mr. Hughes.

"Mr. Hughes has shown in his career the instinct of efficiency which will guarantee that, under him, the government will once more work with vigor and force. He possesses that habit of straightforward thinking which means that his words will be correlated with his deeds and translated into facts. His past career is the warrant for our belief that he will be the unfaltering opponent of that system of invisible government which finds expression in the domination of the party boss and the party machine. His past career is a guaranty that whatever he says before election will be made good by his acts after election. Morally, his public record shows him to be a man of unbending integrity; intellectually, it shows him to be a man of original and trained ability.

"We have the alternative of continuing in office an administration which has proved a lamentable failure or of putting into office an administration which we have every reason to believe will function with efficiency for the interest and honor of all our people. I earnestly bespeak from my fellow progressives their ungrudging support of Mr. Hughes."

COMMITTEE INDORSES HUGHES.

The committee, after a long and acrimonious debate, decided by a vote of 32 to 6 to indorse Charles E. Hughes and turn over to the republicans the working equipment of the progressive party. James R. Garfield of Ohio, William Flinn of Pennsylvania and George W. Perkins of New York led the committeemen who wished to go over to the republicans, while John M. Parker of Louisiana, A. D. Norton of Missouri, Henry Cochems of Wisconsin and Mathew Hale of Massachusetts were the leaders of the minority. It was agreed that the action of the committee should not be binding on the individual members, thus leaving the way open for those who wanted to go back to the democratic party. With the close of the meeting the history of the progressive party as a national organization came to an end.

DEMOCRATIC.

Held in Coliseum, St. Louis, June 14-16.

OFFICERS.

Temporary Chairman—Martin H. Glynn, New York.

Permanent Chairman—Ollie M. James, Kentucky.

Secretary—J. Bruce Kremer, Montana.

Assistant Secretaries—J. C. McNealus, Texas;

Leo L. Stevens, Iowa; Louis Goldman, Missis-

sippi; George R. Wyman, Arkansas; James J.

Walsh, Connecticut; W. B. Conover, Ohio;

William P. Powers, Massachusetts; W. J.

Quinn, Minnesota; W. V. Richardson, Ken-

tucky; William J. McTague, New Jersey; John

A. Grogan, Michigan.

Chairman, Committee on Resolutions—William J.

Stor, Missouri.

Number of delegates, 1,093; necessary to a

choice, 729.

Woman delegates, 13.

NOMINEES.

For President—Woodrow Wilson, New Jersey.

Nominating speech made by Judge John W.

Wescott, New Jersey.

For Vice-President—Thomas R. Marshall, In-

diana. Nominating speech made by Senator

John W. Kern, Indiana.

CONVENTION PROCEEDINGS.

The democratic national nominating convention was held in the Coliseum, St. Louis, June 14-16. It had been conceded beforehand that President Wilson would be renominated and that Vice-President Marshall would probably be his running mate as in 1912. The consequence was that "populist" interest in the proceedings was less than would ordinarily be the case. No ballot was taken either on president or vice-president and only one vote, that of Robert E. Burke, a delegate at large from Illinois, was announced as being in opposition to the nomination of Mr. Wilson.

The "keynote speech" was delivered by Martin H. Glynn, former governor of New York, who was chosen as the temporary chairman. One of the features of his address was praise of the president for keeping the country out of war by his foreign policy. He announced that the motto of Mr. Wilson was "to maintain our national honor by peace if we can, by war if we must." Senator Ollie M. James of Kentucky, who was chosen permanent chairman, also made a speech in which he eulogized Mr. Wilson for maintaining peace. William Jennings Bryan, former secretary of state, who was present as a reporter and not as a delegate, was subsequently invited to address the convention and in doing so he lauded the peace policy of the president and declared that he would support him.

Wednesday and the greater part of Thursday were devoted to speechmaking and routine work. There was some delay in getting the platform ready and it was understood that some of the business interests of St. Louis desired to have the convention carried over until Saturday. To this there was strong opposition by the majority of the delegates and Thursday night at 11:50 o'clock Mr. Wilson was renominated for president. Five minutes later Thomas R. Marshall was renominated for vice-president. Both nominations were by acclamation and no roll was called in either case.

WOMAN SUFFRAGE.

Friday afternoon at 3:13 o'clock the convention adjourned after adopting the platform which will be found given in full elsewhere in this volume. The only plank that brought any contest was that relating to woman suffrage. The committee on resolutions favored the declaration as it is given in the platform, but when the matter came before the convention Gov. J. E. Ferguson of Texas moved that the following substitute be adopted:

"The democratic party always has stood for the sovereignty of the several states in the control and regulation of elections. We reaffirm the historic position of our party in this regard and favor the continuance of that wise provision of the federal constitution which vests in the several states of the union the power to prescribe the qualifications of their electors."

On this motion a roll of the delegates was called, with the result that the motion was defeated by the following vote:

States.	For.	Ag'nst.	States.	For.	Ag'nst.
Alabama	1	23	Minnesota	9	15
Arizona	6	6	Mississippi	20	20
Arkansas	18	6	Missouri	4	24
California	26	16	Montana	8	8
Colorado	12	12	Nebraska	16	16
Connecticut	1	13	Nevada	6	8
Delaware	8	6	N. Hampshire ..	7	7
Florida	4	8	New Jersey	10	11
Georgia	23½	4½	New Mexico	6	6
Idaho	1	8	New York	90	90
Illinois	1	57	N. Carolina	11	13
Indiana	24	6	N. Dakota	10	10
Iowa	26	6	Ohio	20	28
Kansas	20	20	Oklahoma	20	20
Kentucky	26	26	Oregon	10	26
Louisiana	8	12	Pennsylvania ..	76	76
Maine	6	6	Rhode Island ..	1	9
Maryland	16	30	S. Carolina	18	18
Massachusetts ..	6	30	S. Dakota	10	6
Michigan	30	30	Tennessee	24	24

State.	For.	Ag'nst.	State.	For.	Ag'nst.
Texas	32	8	Dist. Columbia ..	6	6
Utah	8	8	Hawaii	6	6
Vermont	8	8	Alaska	6	6
Virginia	24	24	Philippines	1	4
Washington	14	14	Porto Rico	6	6
W. Virginia	8	8			
Wisconsin	26	26	Total	181½	888½
Wyoming	6	6			

Delegates from the following were absent: Maine, 6; Missouri, 8; New Jersey, 7; Philippines, 1.

The platform as reported by the committee was adopted by the convention on a viva voce vote.

PROHIBITION NATIONAL CONVENTION.

St. Paul, Minn., July 19-21.

OFFICERS.

Temporary Chairman—Daniel A. Poling, Massachusetts.

Permanent Chairman—Robert H. Patton, Illinois. Permanent Secretary—Mrs. Frances E. Beauchamp, Kentucky.

Number of Delegates—Eligible, 1,254; present, 727. Necessary to a choice, 364.

NOMINEES.

For President—J. Frank Hanly of Indiana.

For Vice-President—Ira Landtrith of Tennessee.

The national nominating convention of the prohibition party was held in the municipal auditorium, St. Paul, Minn., July 19-21, and resulted in the nomination of J. Frank Hanly, a republican until 1916 and governor of Indiana from 1905 to 1909, for president, and of Ira Landtrith of Tennessee for vice-president. The following names of candidates for the presidency were presented to the convention: J. Frank Hanly by Sumner W. Haynes of Indiana; William Sulzer of New York by Eugene W. Chafin of Arizona; F. C. Hendrickson of Maryland by George Gorsuch of the same state and Dr. James G. Mason of New Jersey by Dr. Grafton E. Day, also of New Jersey. Mr. Hanly was nominated on the first ballot by the following vote:

States.	For.	Ag'nst.	States.	For.	Ag'nst.
Alabama	4	1	Minnesota	9	15
Arizona	5	1	Mississippi	20	20
Arkansas	4	3	Missouri	4	24
California	121	21	Montana	8	8
Colorado	29	2	Nebraska	16	16
Connecticut	14	10	Nevada	6	8
Delaware	7	7	N. Hampshire ..	7	7
Florida	13	3	New Jersey	10	11

SOCIALIST LABOR.

New York, N. Y., April 29-May 3.

OFFICERS.

Chairman—First and fifth days, A. E. Reimer, Boston, Mass.; second and fourth days, August Gillhaus, New York, N. Y.; third day, W. W. Cox, St. Louis, Mo.
 Secretary—Albert Schnabel, Milwaukee, Wis.
 Delegates present—40.

NOMINEES.

For President—Arthur E. Reimer, Boston, Mass.
 For Vice-President—Caleb Harrison, Chicago, Ill.

SOCIALIST.

No national convention was held by the socialists in 1916. Instead ballots were sent out Jan. 10 to state organizations for a mail primary on candidates for president and vice-president of the United States and the result was announced March 11. The ballot on candidates for president resulted: Allan L. Benson, Yonkers, N. Y., 16,639; James H. Maurer, Reading, Pa., 12,264; Arthur Lesneur, Minot, N. D., 3,495. The vote for vice-president resulted: George R. Kirkpatrick, Newark, N. J., 20,607; Kate Richard O'Hare, St. Louis, Mo., 11,388.

NOMINEES.

For president—Allan L. Benson, Yonkers, N. Y.
 For vice-president—George R. Kirkpatrick, Newark, N. J.

WOMAN'S PARTY.

The woman's national party held a convention in Chicago June 5, 6 and 7, 1916, at which a platform was adopted. No candidates for president or vice-president were named, the organization deciding to be nonpartisan with reference to politics and to devote itself to working for the adoption of the Susan B. Anthony national suffrage amendment.

LEADING ART GALLERIES OF THE WORLD.

The following list includes only the principal collections of paintings and sculptures readily accessible to the public in Europe and America.

EUROPE.

AUSTRIA-HUNGARY.

Academy of Art, Vienna.
 Albertina, Vienna.
 Imperial art gallery, Vienna.
 Liechtenstein gallery, Vienna.
 National gallery, Budapest.

BELGIUM.

Museum, Antwerp.
 Palace of Fine Arts, Brussels.
 Musee Wiertz, Brussels.

DENMARK.

Thorvaldsen museum, Copenhagen.

Pennsylvania Academy of Fine Arts, Philadelphia, Pa.

*Of first rank.

NEW RUSSIAN-JAPANESE TREATY.

Signed in Petrograd July 3, 1916.

The imperial government of Japan and the imperial government of Russia, resolved to unite their efforts for the maintenance of lasting peace in the far east, have agreed upon the following:
 Article 1. Japan will not be a party to any political arrangement or combination directed against Russia. Russia will not be a party to any political arrangement or combination directed against Japan.

Art. 2. Should the territorial rights or the special interests in the far east of one of the contracting parties recognized by the other contracting party be threatened, Japan and Russia will take counsel of each other as to the measures to be taken in view of the support or the help to be given in order to safeguard and defend those rights and interests.

NATIONAL PARTY PLATFORMS OF 1916.

REPUBLICAN.

Adopted at Chicago June 8.

In 1861 the republican party stood for the union. As it stood for the union of states, it now stands for a united people, true to American ideals, loyal to American traditions, knowing no allegiance except to the constitution, to the government and to the flag of the United States. "We believe in American policies at home and abroad."

We declare that we believe in and will enforce the protection of every American citizen in all the rights secured to him by the constitution, treaties and laws of nations, at home and abroad, by land and sea. These rights, which, in violation of the specific promise of their party made at Baltimore in 1912, the democratic president and the democratic congress have failed to defend, we will unflinchingly maintain.

FOREIGN RELATIONS.

We desire peace, the peace of justice and right, and believe in maintaining a straight and honest neutrality between the belligerents in the great war in Europe. We must perform all our duties and insist upon all our rights as neutrals without fear and without favor. We believe that peace and neutrality as well as the dignity and influence of the United States cannot be preserved by shifty expedients, by phrase making, by performances in language or by attitudes ever changing in an effort to secure groups of voters.

The present administration has destroyed our influence abroad and humiliated us in our own eyes. The republican party believes that a firm, consistent and courageous foreign policy always maintained by republican presidents in accordance with American traditions is the best, as it is the only true, way to preserve our peace and restore us to our rightful place among the nations. We believe in the pacific settlement of international disputes and favor the establishment of a world court for that purpose.

MEXICAN AFFAIRS.

We deeply sympathize with the 15,000,000 people of Mexico, who for three years have seen their country devastated, their homes destroyed, their fellow citizens murdered and their women outraged by armed bands of desperadoes led by self-seeking, conscienceless agitators who, when temporarily successful in any locality, have neither sought nor been able to restore order nor establish and maintain peace.

We express our horror and indignation at the outrages which have been and are being perpetrated by these bandits upon American men and women who were or are in Mexico by invitation of the laws and of the government of that country, and whose rights to security of person and property are guaranteed by solemn treaty obligations. We denounce the indefensible methods of interference employed by this administration in the internal affairs of Mexico and refer with shame to its failure to discharge the duty of this country as next friend to Mexico, its duty to other powers who have relied upon us as such friend and its duty to our citizens in Mexico in permitting the continuance of such conditions, first, by failure to act promptly and firmly, and, second, by lending its influence to the continuation of such conditions through recognition of one of the factions responsible for these outrages.

We pledge our aid in restoring order and maintaining peace in Mexico. We promise to our citizens on and near our border and to those in Mexico, wherever they may be found, adequate and absolute protection in their lives, liberty and property.

MONROE DOCTRINE.

We reaffirm our approval of the Monroe doctrine and declare its maintenance to be a policy of this country essential to its present and future peace and safety and to the achievement of its manifest destiny.

LATIN AMERICA.

We favor the continuance of republican policies which will result in drawing more and more closely the commercial, financial and social relations between this country and the countries of Latin America.

PHILIPPINES.

We renew our allegiance to the Philippine policy inaugurated by McKinley, approved by congress and consistently carried out by Roosevelt and Taft. Even in this short time it has enormously improved the material and social conditions of the islands, given the Philippine people a constantly increasing participation in their government and if persisted in will bring still greater benefits in the future.

We accepted the responsibility of the islands as a duty to civilization and the Filipino people. To leave with our task half done would break our pledges, injure our prestige among nations and imperil what has already been accomplished.

We condemn the democratic administration for its attempt to abandon the Philippines, which was prevented only by the vigorous opposition of republican members of congress, aided by a few patriotic democrats.

PLEDGE TO FOREIGN BORN.

We reiterate our unqualified approval of the action taken in December, 1911, by the president and congress to secure with Russia, as with other countries, a treaty that will recognize the absolute right of expatriation and prevent all discrimination of whatever kind between American citizens, whether native born or alien, and regardless of race, religion or previous allegiance.

We renew the pledge to observe this principle and to maintain the right of asylum, which is neither to be surrendered nor restricted, and we unite in the cherished hope that the war which is now desolating the world may speedily end, with a complete and lasting restoration of brotherhood among the nations of the earth and the assurance of full equal rights, civil and religious, to all men in every land.

PROTECTION OF COUNTRY.

In order to maintain our peace and make certain the security of our people within our own borders the country must have not only adequate but thorough and complete national defense, ready for any emergency. We must have a sufficient and effective regular army and a provision for ample reserves already drilled and disciplined, who can be called at once to the colors when the hour of danger comes.

We must have a navy so strong and so well proportioned and equipped, so thoroughly ready and prepared that no enemy can gain command of the sea and effect a landing in force on either our western or our eastern coast. To secure these results we must have a coherent and continuous policy of national defense, which even in these perilous days the democratic party has utterly failed to develop, but which we promise to give to the country.

TARIFF POLICY.

The republican party stands now, and always has, in the fullest sense, for the policy of tariff protection to American industries and American labor, and does not regard an antidumping provision as an adequate substitute. Such protection should be reasonable in amount, but sufficient to protect adequately American industry and American labor and be so adjusted as to prevent undue exactions by monopolies or trusts. It should, moreover, give special attention to securing the industrial independence of the United States, as in the case of dyestuffs.

Through wise tariff and industrial legislation our industries can be so organized that they will become not only a commercial bulwark but a powerful aid to national defense.

The Underwood tariff act is a complete failure in every respect. Under its administration imports have enormously increased, in spite of the

fact that intercourse with foreign countries has been largely cut off by reason of the war, while the revenues of which we stand in such dire need have been greatly reduced.

Under the normal conditions which prevailed prior to the war it was clearly demonstrated that this act deprived the American producer and the American wage earner of that protection which entitled them to meet their foreign competitors and, but for the adventitious conditions created by the war, would long since have paralyzed all forms of American industry and deprived American labor of its just reward.

It has not in the least reduced the cost of living, which has constantly advanced from the date of its enactment. Welfare of our people demands its repeal and the substitution of a measure which in peace as well as in war will produce ample revenue and give reasonable protection to all forms of American production in mine, forest, field and factory.

We favor the creation of a tariff commission with complete power to gather and compile information for the use of congress in all matters relating to the tariff.

REGULATION OF BUSINESS.

The republican party has long believed in the rigid supervision and strict regulation of the transportation and great corporations of the country. It has put its creed into its deeds, and all really effective laws regulating the railroads and the great industrial corporations are the work of the republican congresses and presidents. For this policy of regulation and supervision the democrats, in a stumbling and piecemeal way, are undertaking to involve the government in business which should be left within the sphere of private enterprise, and in direct competition with its own citizens, a policy which is sure to result in waste, great expense to the taxpayer and in an inferior product.

The republican party firmly believes that all who violate the laws in regulation of business should be individually punished. But prosecution is very different from persecution, and business success, no matter how honestly attained, is apparently regarded by the democratic party as in itself a crime. Such doctrines and beliefs choke enterprise and stifle prosperity. The republican party believes in encouraging American business, as it believes in and will seek to advance all American interests.

RURAL CREDITS.

We favor an effective system of rural credits as opposed to the ineffective law proposed by the present democratic administration.

RURAL FREE DELIVERY.

We favor the extension of the rural free delivery system and condemn the democratic administration for curtailing and crippling it.

MERCHANT MARINE.

In view of the policies adopted by all the maritime nations to encourage their shipping interests and in order to enable us to compete with them for the ocean carrying trade, we favor the payment to ships engaged in the foreign trade of liberal compensation for services actually rendered in carrying the mails and such further legislation as will build up an adequate American merchant marine and give us ships which may be requisitioned by the government in time of national emergency.

We are utterly opposed to the government ownership of vessels as proposed by the democratic party, because government ownership, while effectively preventing the development of the American merchant marine by private capital, will be entirely unable to provide for the vast volume of American freights and will leave us more helpless than ever in the hard grip of foreign syndicates.

TRANSPORTATION LAWS.

Interstate and intrastate transportation have become so interwoven that the attempt to apply two and often several sets of laws to their reg-

ulation has produced conflicts of authority, embarrassment in operation and inconvenience and expense to the public.

The entire transportation system of the country has become essentially national. We therefore favor such action by legislation, or if necessary through an amendment to the constitution of the United States, as will result in placing it under exclusive federal control.

ECONOMY AND NATIONAL BUDGET.

The increasing cost of the national government and the need for the greatest economy of its resources in order to meet the growing demands of the people for government service call for the severest condemnation of the wasteful appropriations of this democratic administration, of its shameless raids on the treasury and of its opposition to and rejection of President Taft's oft repeated proposals and earnest efforts to secure economy and efficiency through the establishment of a simple businesslike budget system, to which we pledge our support and which we hold to be necessary to effect any real reform in the administration of national finances.

NATURAL RESOURCES.

We believe in a careful husbandry of all the natural resources of the nation—a husbandry which means development without waste, use without abuse.

CIVIL SERVICE REFORM.

The civil service law has always been sustained by the republican party and we renew our repeated declaration that it shall be thoroughly and honestly enforced and extended wherever practicable. The democratic party has created since March 4, 1913, 30,000 offices outside of the civil service law at an annual cost of \$44,000,000 to the taxpayers of the country.

We condemn the gross abuse and the misuse of the law by the present democratic administration and pledge ourselves to a reorganization of this service along lines of efficiency and economy.

TERRITORIAL OFFICIALS.

Reaffirming the attitude long maintained by the republican party, we hold the officials appointed to administer the government of any territory should be bona fide residents of the territory in which their duties are to be performed.

LABOR LAWS.

We pledge the republican party to the faithful enforcement of all federal laws passed for the protection of labor. We favor vocational education; the enactment of a generous and comprehensive workmen's compensation law, within the commerce power of congress, and an accident compensation law covering all government employees. We favor the collection and collation, under the direction of the department of labor, of complete data relating to industrial hazards for the information of congress, to the end that such legislation may be adopted as may be calculated to secure the safety, conservation and protection of labor from the dangers incident to industry and transportation.

SUFFRAGE PLANK.

The republican party, reaffirming its faith in government of the people, by the people, for the people, as a measure of justice to one-half the adult people of this country, favors the extension of the suffrage to women, but recognizes the right of each state to settle this question for itself.

Such are our principles, such are our purposes and policies. We close as we began. The times are dangerous and the future is fraught with peril. The great issues of the day have been confused by words and phrases. The American spirit, which made the country and saved the union, has been forgotten by those charged with the responsibility of power. We appeal to all Americans, whether naturalized or native born, to prove to the world that we are Americans in thought and in deed, with one loyalty, one hope,

one aspiration. We call on all Americans to be true to the spirit of America, to the great traditions of their common country, and, above all things, to keep the faith.

PROGRESSIVE.

Adopted at Chicago June 9.

This is the year of decision for the nation's future. As we now decide, so we shall go forward in righteousness and power or backward in degradation and weakness.

Of necessity, we deal with the foundations of our national life. We are facing elemental facts of force, of right and wrong, of extreme national peril. Our present choice of path will be irrevocable. The tradition of isolation has been ended. The United States is now part of a world system of civilization. We stand or fall as we prepare now to take our part in peace or war and hold our own therein.

As members of an international community we are subject to certain basic duties:

To secure the rights and equal treatment of our citizens, native or naturalized, on land and sea, without regard to race, creed or nationality.

To guard the honor and uphold the just influence of our nation.

To maintain the integrity of international law. These are the corner stones of civilization.

We must be strong to defend them.

The present war shows that it is the supreme duty of civilization to create conditions which will make for permanent peace. We earnestly desire to keep the peace, but there are higher things which we must keep if we would keep the faith as Washington and Lincoln kept it. Peace at the price of submission and cowardice is not desirable, nor is it the peace of justice which alone would make it permanent. Supine submission to the invasion of our rights or indifference to the wrongs of weaker nations will not long maintain peace, nor will mere threat of action enforce our rights under international law. There must be an unflinching determination and a prepared ability to defend our rights and to fulfill our international obligations. In such a readiness lies the surest safeguard of both national honor and continued peace. Failure to deal firmly and promptly with the menace of Mexican disorders and threatened violations of the rights of our citizens on the high seas have resulted in the wanton murder of our citizens and in the tragic weakening of our national self-respect.

Whatever our country can legitimately do to attain peace for war-stricken Europe, and to aid in the procurement of equal rights without discrimination because of race or creed to all men in all lands, should be done. We should not conclude a treaty with any country that will not expressly secure to American citizens such absolute rights.

Adequate provision for the common defense has become the task of foremost national concern. We must be ready, in spirit, arms and industry.

Beneath the structure of military and economic strength there must be a unified spirit of this cosmopolitan people, a deep loyalty and undivided allegiance to America, the land which has welcomed us and our immigrant forefathers. Back of any adequate national preparedness in arms or in industry must remain the democratic soul of an undivided people, determined to keep America's great heritage and traditions unflinchingly in first place. American problems must be faced and solved solely in the light of American ideals. American political action must be taken in the service of American ends. Unwavering patriotism and unflinching fidelity to America is the only spirit which should animate our citizens. In this melting pot of a hundred nations the children of any fall to find our common destiny worthy of common devotion and defense, we shall suffer irreparably in loss of national character.

In this spirit of Americanism action must be taken for the common defense.

Preparation in arms requires:

A navy restored to at least second rank in battle efficiency.

A regular army of 250,000 men, fully armed and trained, as a first line of land defense.

A system of military training adequate to organize with promptness, behind that first line of the army and navy, a citizen soldiery, supplied, armed and controlled by the national government.

In our democracy, every citizen is charged with the duty of defending our country. This duty is not new. It has existed from the foundation of the government. Under modern conditions it cannot be performed without military training; service without training means slaughter and disaster. As the nation has always recognized and exercised the right to enforce compulsory military service in time of war, so should there be universal military training for that service during times of peace.

We believe in preparedness for defense, but never for aggression. We must not sacrifice the lives of men for the glory or gain of military conquest. And we believe that the women of the country, who share with men the burdens of government in time of peace and make equal sacrifice in time of war, should be given full political right of suffrage, both by federal and state action.

Arms alone cannot maintain a nation. Of far greater permanent importance must stand a national industry efficient for the general welfare, a prosperity justly distributed, a national life organized in all points for national ends. Four years ago this party was born of a nation's awakened sense of these fundamental truths. In the platform then adopted we set forth our position on public questions. We here reaffirm the declarations there made on national issues.

A nation to survive must stand for the principles of social and industrial justice. We have no right to expect continued loyalty from an oppressed class. We must remove the artificial causes of the high cost of living, prevent the exploitation of men, women and children in industry, by the extension of the workmen's compensation law to the full limit permitted under the constitution, and by a thoroughgoing child-labor law; protect the wage earner; and by a properly regulated system of rural credits encourage the farmer and give to the landless man opportunity to acquire land. A country must be worth living in to be worth fighting for.

To make possible social justice, to maintain our position in peace and war, we must insure business and industrial prosperity. This can be done:

By a regulation of industry aimed at promoting its growth and prosperity, a just distribution of its returns, and a healthy expansion of foreign trade.

By a conservation and development of our national resources for the good of all.

By the re-establishment of our merchant marine.

By the development of a system of interstate national highways.

By making a new standard of governmental efficiency through a complete civil service system, a national budget, and the destruction of "pork barrel" legislation.

By the creation of a permanent, expert tariff commission with a view to intelligently and scientifically adjusting the tariff so as to build up rather than destroy American industry.

The protective system is essential to our national prosperity. Tremendous new pressures will be thrown upon our industries after the war by the highly mobilized production of Europe. At all times conditions of competition must be equalized between our own and foreign countries. We can only get the protection we need through the use of exact and complete knowledge, unaffected by prejudice or politics. We can secure that

knowledge, at all times and when needed, only through such a commission.

The industrial issues are chiefly national. The present and certain future make it imperative that the regulation and promotion of industry, and especially of transportation and foreign trade, be national, not local. Only federal power can work justice to capital and labor throughout the nation. Only national authority can mobilize industry for defense as the nation's need demands it.

We have set forth in this platform plain essentials of national existence. They are not new in principle. Most men agree with them. Any man may propose them. The urgent and immediate need is for their performance. We have had ample experience with the promiser; with words and the bitter taste of words retracted. We must choose a man who, not alone by words but by past deeds, gives guaranty that he can and will make these things good. The issue is one of men. In the midst of world changes unparalleled in history we cannot forecast the problems which will confront our government during the war and at its end. We therefore need as president a leader who knows the nations—a man who acts. If we continue longer to stand for words as above deeds, for fancies as above facts, we shall receive and merit the fate that surely awaits the man or people who do not face the truth.

We will meet and work with any man or party who sees the nation's need and puts forward a leader fit to meet it. We will accept no less, in plan or in the man, and we solemnly charge upon any who place partisan politics above country the responsibility for a nation's future, sacrificed to self-interest and spoils.

DEMOCRATIC.

Adopted at St. Louis June 16.

The democratic party, in national convention assembled, adopts the following declaration to the end that the people of the United States may both realize the achievements wrought by four years of democratic administration and be apprised of the policies to which the party is committed for the further conduct of national affairs.

We indorse the administration of Woodrow Wilson. It speaks for itself. It is the best exposition of sound democratic policy at home and abroad. We challenge comparison of our record, our keeping of pledges and our constructive legislation with those of any party of any time.

DEMOCRATIC RECORD.

We found our country hampered by special privilege, a vicious tariff, obsolete banking laws and an inelastic currency. Our foreign affairs were dominated by commercial interests for their selfish ends. The republican party, despite repeated pledges, was impotent to correct abuses which it had fostered. Under our administration, under a leadership which has never faltered, these abuses have been corrected and our people have been freed therefrom.

Our archaic banking and currency system, prolific of panic and disaster under republican administrations—long the refuge of the money trust—has been supplanted by the federal reserve act, a true democracy of credit under government control, already proved a financial bulwark in a world crisis, mobilizing our resources, placing abundant credit at the disposal of legitimate industry and making a currency panic impossible.

We have created a federal trade commission to accommodate the perplexing questions arising under the antitrust laws so that monopoly may be strangled at its birth and legitimate industry encouraged. Fair competition in business is now assured.

We have effected an adjustment of the tariff, adequate for revenue under peace conditions and fair to the consumer and to the producer. We have adjusted the burdens of taxation so that swollen incomes bear their equitable share. Our

revenues have been sufficient in times of world stress and will largely exceed the expenditure of the present year.

We have lifted human labor from the category of commodities and have secured to the workman the right of voluntary association for his protection and welfare. We have protected the rights of the laborer against the unwarranted issuance of writs of injunction and have guaranteed to him the right of trial by jury in cases of alleged contempt committed outside the presence of the court.

We have advanced the parcel post to genuine efficiency, enlarged the postal savings system, added 10,000 rural delivery routes and extensions, thus reaching 2,500,000 additional people, improved the postal service in every branch, and for the first time in our history placed the postoffice system on a self-supporting basis, with actual surplus in 1913, 1914 and 1915.

The reforms which were most obviously needed to clear away privilege, prevent unfair discrimination and release the energies of men of all ranks and advantages have been effected by recent legislation. We must now remove, so far as possible, every remaining element of unrest and uncertainty from the path of the business men of America and secure for them a continued period of quiet, assured and confident prosperity.

TARIFF FOR REVENUE.

We reaffirm our belief in the doctrine of a tariff for the purpose of providing sufficient revenue for the operation of the government economically administered and unreservedly indorse the Underwood tariff law as truly exemplifying that doctrine. We recognize that tariff rates are necessarily subject to change to meet changing conditions in the world's production and trade.

The events of the last two years have brought about many momentous changes. In some respects their effects are yet conjectured and wait to be ascertained, particularly in regard to our foreign trade. Two years of a war which has directly involved most of the chief industrial nations of the world, and which has indirectly affected the life and industry of all nations, are bringing about economic changes more varied and far reaching than the world has ever before experienced.

In order to ascertain just what those changes may be, the democratic congress is providing for a nonpartisan tariff commission to make impartial and thorough study of every economic fact that may throw light either upon our past or upon our future fiscal policy with regard to the changed and changing conditions under which the imposition of taxes on imports in our trade is carried on.

We cordially indorse this timely proposal and declare ourselves in sympathy with the principle and purpose of shaping legislation within that field in accordance with clearly established facts rather than in accordance with the demands of selfish interests or upon information provided largely, if not exclusively, by them.

UNITY OF NATION.

The part that the United States will play in the new day of international relationships which is now upon us will depend upon our preparation and our character. The democratic party therefore recognizes the assertion and triumphant demonstration of the indivisibility and coherent strength of the nation, therefore, as the supreme issue of this day in which the whole world faces the crisis of manifold change. It summons all men, of whatever origin or creed, who would count themselves Americans to join in making clear to all the world the unity and consequent power of America.

This is an issue of patriotism. To taint it with partisanship would be to defile it. In this day of test America must show itself not a nation of partisans but a nation of patriots. There is gathered here in America the best of the blood, the industry and the genius of the whole world, the elements of a great race and a mag-

nificent society to be melted into a mighty and splendid nation.

Whoever, actuated by the purpose to promote the interest of a foreign power in disregard of our own country's welfare or to injure this government in its foreign relations or cripple or destroy its industries at home, and whoever by arousing prejudices of a racial, religious or other nature creates discord and strife among our people so as to obstruct the wholesome process of unification, is faithless to the trust which the privileges of citizenship repose in him and disloyal to his country.

FOREIGN INTRIGUE CONDEMNED.

We, therefore, condemn as subversive of this nation's unity and integrity and as destructive of its welfare the activities and designs of every group or organization, political or otherwise, that has for its object the advancement of the interest of a foreign power, whether such object is promoted by intimidating the government, a political party or representatives of the people, or which is calculated and tends to divide our people into antagonistic groups and thus to destroy that complete agreement and solidarity of the people and that unity of sentiment and national purpose so essential to the perpetuity of the nation and its free institutions.

We condemn all alliances and combinations of individuals in this country of whatever nationality or descent, who agree and conspire together for the purpose of embarrassing or weakening our government or of improperly influencing or coercing our public representatives in dealing or negotiating with any foreign power.

We charge that such conspiracies among a limited number exist and have been instigated for the purpose of advancing the interests of foreign countries to the prejudice and detriment of our own country. We condemn any political party which in view of the activity of such conspirators surrenders its integrity or modifies its policy.

NATIONAL DEFENSE.

Along with proof of our character as a nation must go the proof of our power to play the part that legitimately belongs to us. The people of the United States love peace.

They respect the rights and covet the friendship of all other nations. They desire neither any additional territory nor any advantage which cannot be peacefully gained by their skill, their industry or their enterprise, but they insist upon having absolute freedom of national life and policy and feel that they owe it to themselves and to the role of spirited independence which it is their sole ambition to play that they should render themselves secure against the hazard of interference from any quarter and should be able to protect their rights upon the seas or in any part of the world.

We, therefore, favor the maintenance of an army fully adequate to the requirements of order, of safety and of the protection of the nation's rights, the fullest development of modern methods of seacoast defense and the maintenance of an adequate reserve of citizens trained to arms and prepared to safeguard the people and territory of the United States against any danger of hostile action which may unexpectedly arise, and a fixed policy for the continuous development of a navy worthy to support the great naval traditions of the United States and fully equal to the international tasks which the United States hopes and expects to take a part in performing. The plans and enactments of the present congress afford substantial proof of our purpose in this exigent matter.

NEUTRALITY ENFORCED.

The democratic administration has throughout the present war scrupulously and successfully held to the old paths of neutrality and of the peaceful pursuit of the legitimate objects of our national life which statesmen of all parties and creeds have prescribed for themselves in America since the beginning of our history.

But the circumstances of the last two years have revealed necessities of international action which no former generation can have foreseen. We hold that it is the duty of the United States to use its power not only to make itself safe at home but also to make secure its just interest throughout the world and both for this end and in the interest of humanity, to assist the world in securing settled peace and justice.

We believe that every people has the right to choose the sovereignty under which it shall live; that the small states of the world have a right to enjoy from other nations the same respect for their sovereignty and for their territorial integrity that great and powerful nations expect and insist upon; and that the world has a right to be free from every disturbance of its peace that has its origin in aggression or disregard of the rights of peoples and nations; and we believe that the time has come when it is the duty of the United States to join with the other nations of the world in any feasible association that will effectively serve these principles, to maintain inviolate the complete security of the highway of the seas for the common and unhindered use of all nations.

The present administration has consistently sought to act upon and realize in its conduct of the foreign affairs of the nation the principle that should be the object of any association of the nations formed to secure the peace of the world and the maintenance of national and individual rights. It has followed the highest American traditions.

It has preferred respect for the fundamental rights of smaller states even to property interests and has secured the friendship of the people of these states for the United States by refusing to make a more material interest an excuse for the assertion of our superior power against the dignity of their sovereign independence. It has regarded the lives of its citizens and the claims of humanity as of greater moment than material rights and peace as the best basis for the just settlement of commercial claims. It has made the honor and ideals of the United States its standard alike in negotiation and action.

FRIENDLY TO AMERICAN REPUBLIC.

We recognize now, as we have always recognized, a definite and common interest between the United States and the other peoples and republics of the western hemisphere in all matters of national independence and free political development.

We favor the establishment and maintenance of the closest relations of amity and mutual helpfulness between the United States and the other republics of the American continent for the support of peace and the promotion of a common prosperity. To that end we favor all measures which may be necessary to facilitate intimate intercourse and promote commerce between the United States and her neighbors to the south of us, and such international understandings as may be practicable and suitable to accomplish these ends.

We commend the action of the democratic administration in holding the pan-American financial conference at Washington in May, 1915, and organizing the international high commission which represented the United States in the recent meeting of representatives of the Latin-American republics at Buenos Aires, April, 1916, which have so greatly promoted the friendly relations between the people of the western hemisphere.

INTERVENTION IN MEXICO.

The Monroe doctrine is reasserted as a principle of democratic faith. That doctrine guarantees the independent republics of the two Americas against aggression from another continent. It implies as well the most scrupulous regard upon our part for the sovereignty of each of them. The want of a stable, responsible government in Mexico, capable of repressing and punishing marauders and bandit bands, who have not only

taken the lives and seized and destroyed the property of American citizens in that country, but have insolently invaded our soil, made war upon and murdered our people, has rendered it necessary temporarily to occupy, by our armed forces, a portion of the territory of that friendly state. Until, by a restoration of law and order therein, a repetition of such incursions is improbable, the necessity for their remaining will continue.

Intervention, implying, as it does, military subjugation, is revolting to the people of the United States, notwithstanding the provocation to that course has been great, and should be resorted to, if at all, only as a last resort. The stubborn resistance of the president and his advisers to every demand and suggestion to enter upon it is creditable alike to them and to the people in whose name he speaks.

SHIPPING BILL.

Immediate provision should be made for the development of the carrying trade of the United States. Our foreign commerce has in the past been subject to many unnecessary and vexatious obstacles in the way of legislation of republican congresses.

Until the recent democratic tariff legislation it was hampered by unreasonable burdens of taxation. Until the recent banking legislation it had at its disposal few of the necessary instrumentalities of international credit and exchange. Until the formulation of the pending act to promote the construction of a merchant marine it lacked even the prospect of adequate carriage by sea.

We heartily indorse the purposes and policy of the pending shipping bill and favor all such additional measures of constructive or remedial legislation as may be necessary to restore our flag to the seas and to provide further facilities for our foreign commerce, particularly such laws as may be made to remove unfair conditions of competition in the dealings of American merchants and producers with competitors in foreign markets.

CONSERVATION OF RESOURCES.

For the safeguarding and quickening of the life of our own people we favor the conservation and development of the natural resources of the country through a policy which shall be positive rather than negative—a policy which shall not withhold such resources from development, but which, while permitting and encouraging their use, shall prevent both waste and monopoly in their exploitation, and we earnestly favor the passage of acts which will accomplish these objects and we reaffirm the declaration of the platform of 1912 on this subject. The policy of reclaiming our arid lands should be steadily adhered to.

AGRICULTURE.

We favor the vigorous prosecution of investigations and plans to render agriculture more profitable and country life more healthful, comfortable and attractive, and we believe that this should be a dominant aim of the nation, as well as of the states. With all its recent improvement, farming still lags behind other occupations in development as a business, and the advantages of an advancing civilization have not accrued to rural communities in a fair proportion. Much has been accomplished in this field under the present administration—far more than under any previous administration.

In the federal reserve act of the last congress and the rural credits act of the present congress the machinery has been created which will make credit available to the farmer constantly and readily, and he has at last been put upon a footing of equality with the merchant and manufacturer in securing the capital necessary to carry on his enterprises.

Grades and standards necessary to the intelligent and successful conduct of the business of agriculture also have been established or are in

the course of being established by law. The long needed cotton futures act, passed by the 63d congress, has now been in successful operation for nearly two years. A grain grades bill, long needed, and a permissive warehouse bill, intended to provide better storage facilities and to enable the farmer to obtain certificates upon which he may secure advances of money, have been passed by the house of representatives, have been favorably reported to the senate and will probably become law during the present session of the congress.

Both houses have passed a good roads measure which will be of far reaching benefit to all agricultural communities. Above all, the most extraordinary and significant progress has been made under the direction of the department of agriculture in extending and perfecting practical farm demonstration work, which is so rapidly substituting scientific for empirical farming. But it is also necessary that rural activities should be better directed through co-operation and organization, that unfair methods of competition should be eliminated and the conditions requisite for the just, orderly and economical marketing of farm products created.

We approve the democratic administration for having emphatically directed attention for the first time to the essential interests of agriculture involved in farm marketing and finance, for creating the office of markets and rural organization in connection with the department of agriculture and for extending the co-operative machinery necessary for conveying information to farmers by means of demonstrations. We favor continued liberal provision not only for the benefit of production but also for the study and solution of problems of farm marketing and finance and for the extension of existing agencies for improving country life.

LABOR CONDITIONS AND LAWS.

We hold that the life, health and strength of the men, women and children of the nation are its greatest asset, and that in the conservation of these the federal government, wherever it acts as the employer of labor, should both on its own account and as an example put into effect the following principles of just employment:

1. A living wage for all employees.
2. A working day not to exceed eight hours, with one day of rest in seven.
3. The adoption of safety appliances and the establishment of thoroughly sanitary conditions of labor.
4. Adequate compensation for industrial accidents.
5. The standards of the "uniform child labor law" wherever minors are employed.
6. Such provisions for decency, comfort and health in the employment of women as should be accorded the mothers of the race.
7. An equitable retirement law providing for the retirement of superannuated and disabled employees of the civil service to the end that a higher standard of efficiency may be maintained. We believe, also, that the adoption of similar principles should be urged and applied in the legislation of the states with regard to labor within their borders and that through every possible agency the life and health of the people of the nation should be conserved.

We declare our faith in the seaman's act, passed by the democratic congress, and we promise our earnest continuance of its enforcement.

We favor the speedy enactment of an effective federal child labor law and the regulation of the shipment of prison made goods in interstate commerce.

We favor the creation of a federal bureau of safety in the department of labor to gather facts concerning industrial hazards and to recommend legislation to prevent the maiming and killing of human beings.

We favor the extension of the powers and functions of the federal bureau of mines.

We favor the development upon a systematic scale of the means already begun under the pres-

ent administration to assist laborers throughout the nation to seek and obtain employment and the extension by the federal government of the same assistance and encouragement as is now given to agricultural training.

We heartily commend our newly established department of labor for its excellent record in settling industrial strikes by personal advice and through conciliating agents.

PROTECTION OF AMERICAN CITIZENS.

We again declare the policy that the sacred rights of American citizenship must be preserved at home and abroad and that no treaty with any other government shall receive the sanction of our government which does not expressly recognize the absolute equality of all our citizens, irrespective of race, creed or previous nationality and which does not recognize the right of expatriation.

The American government should protect citizens in their rights not only at home but abroad, and any country having a government should be held to strict accountability for any wrongs done them, either to person or property.

At the earliest practical opportunity our country should strive earnestly for peace among the warring nations of Europe and seek to bring about the adoption of the fundamental principle of justice and humanity, that all men shall enjoy equality of right and freedom from discrimination in the lands wherein they dwell.

WATERWAYS.

We renew the declaration in our last two platforms relating to the development of our waterways. The recent devastation of the lower Mississippi valley and several other sections by floods accentuates the movement for the regulation of river flow by additional bank and levee protection below and diversion, storage and control of the flood waters above and their utilization for beneficial purposes in the reclamation of arid and swamp lands and development of water power, instead of permitting the floods to continue, as heretofore, agents of destruction. We hold that the control of the Mississippi river is a national problem.

The preservation of the depth of its water for purposes of navigation, the building of levees and works of bank protection to maintain the integrity of its channel and prevent the overflow of its valley, resulting in the interruption of interstate commerce, the disorganization of the mail service and the enormous loss of life and property, impose an obligation which alone can be discharged by the national government.

We favor the adoption of a liberal and comprehensive plan for the development and improvement of our harbors and inland waterways with economy and efficiency so as to permit their navigation by vessels of standard draft.

CANDIDATES INDORSED.

We unreservedly indorse our president and vice-president, Woodrow Wilson of New Jersey and Thomas Riley Marshall of Indiana, who have performed the functions of their great offices faithfully and impartially and with distinguished ability.

In particular, we recommend to the American people the splendid diplomatic victories of our great president, who has preserved the vital interests of our government and its citizens and kept us out of war.

Woodrow Wilson stands to-day the greatest American of his generation.

ALASKA, TERRITORIES.

It has been and will be the policy of the democratic party to enact all laws necessary for the speedy development of Alaska and its great natural resources. We favor granting to the people of Alaska, Hawaii and Porto Rico the traditional territorial government accorded to all the territories of the United States since the beginning of our government, and we believe the officials appointed to administer the government

of those several territories should be qualified by previous bona fide residence.

PUBLIC HEALTH.

We favor a thorough reconsideration of the means and methods by which the federal government handles questions of public health, to the end that human life may be conserved by the elimination of loathsome disease, the improvement of sanitation and the diffusion of a knowledge of disease prevention. We favor the establishment by the federal government of tuberculosis sanitariums for needy tuberculosis patients.

SENATE RULES.

We favor such an alteration of the rules of procedure of the senate of the United States as will permit the prompt transaction of the nation's legislative business.

BUDGET AND ECONOMY.

We demand careful economy in all expenditures for the support of the government and to that end favor a return by the house of representatives to its former practice of initiating and preparing all appropriation bills through a single committee chosen from its membership, in order that responsibility may be centered, expenditures standardized and made uniform and waste and duplication in the public service as much as possible avoided. We favor this as a practicable first step toward a budget system.

CIVIL SERVICE.

We reaffirm our declaration for the rigid enforcement of the civil service laws.

PHILIPPINES.

We heartily indorse the provisions of the bill recently passed by the house of representatives further promoting self-government in the Philippine islands as being in fulfillment of the policy declared by the democratic party in its last national platform, and we reiterate our indorsement of the purpose of ultimate independence for the Philippine islands expressed in the preamble of that measure.

WOMAN SUFFRAGE.

We favor the extension of the franchise to the women of this country, state by state, on the same terms as to the men.

PRISON REFORMS.

We demand that the modern principles of prison reform be applied in our federal penal system. We favor such work for prisoners as shall give them training in remunerative occupations, so that they may make an honest living when released from prison; the setting apart of the net wages of the prisoner, to be paid to his dependent family or to be reserved for his own use upon his release; the liberal extension of the principles of the federal parole law, with due regard both to the welfare of the prisoner and the interests of society; the adoption of the probation system, especially in the case of first offenders not convicted of serious crimes.

PENSIONS.

We renew the declarations of recent democratic platforms relating to generous pensions for soldiers and their widows, and call attention to our record of performances in this particular.

CONCLUSION.

This is a critical hour in the history of America, a critical hour in the history of the world. Upon the record above set forth, which shows great constructive achievement in following out a consistent policy for our domestic and internal development; upon the record of the democratic administration, which has maintained the honor, the dignity and the interests of the United States and at the same time retained the respect and friendship of all the nations of the world, and upon the great policies for the future strengthening of the life of our country, the enlargement of our national vision and the ennobling of our international relations, as set forth above, we appeal with confidence to the voters of the country.

PROHIBITION.

Adopted at St. Paul, Minn., July 21.

PREAMBLE.

The prohibition party, assembled in its twelfth national convention in the city of St. Paul, Minnesota, on this 20th day of July, 1916, grateful to Almighty God for the blessings of liberty, for our institutions and the multiplying signs of early victory for the cause for which the party stands, in order that the people may know the source of its faith and the basis of its action, should it be clothed with governmental power, challenges the attention of the nation and asks the votes of the people on this declaration of principles.

PROHIBITION.

We denounce the traffic in intoxicating liquors. We believe in its abolition. It is a crime—not a business—and should not have governmental sanction.

We demand—and if given power, we will effectuate the demand—that the manufacture, importation, exportation, transportation and sale of alcoholic liquors for beverage purposes shall be prohibited.

To the accomplishment of that end we pledge the exercise of all governmental power and amendment of statutes and the amendment of constitutions, state and national. Only by a political party committed to this purpose can such policy be made effective. We call upon all voters, so believing, to place the prohibition party in power upon this issue as a necessary step in the solution of the liquor problem.

SUFFRAGE.

The right of citizens of the United States to vote should not be denied or abridged by the United States or by any state on account of sex. We declare in favor of the enfranchisement of women by amendments to state and federal constitutions.

We condemn the republican and democratic parties for their failure to submit an equal suffrage amendment to the national constitution. We remind the 4,000,000 woman voters that our party was the first to declare for their political rights, which it did in 1872. We invite their co-operation in electing the prohibition party to power.

PEACE AND PREPAREDNESS.

We are committed to the policy of peace and friendliness with all nations. We are unalterably opposed to the wasteful military program of the democratic and republican parties. Militarism protects no worthy institution. It endangers them all. It violates the high principles which have brought us as a nation to the present hour. We are for a constructive program in preparedness for peace. We declare for and will promote a world court, to which national differences shall be submitted, so maintained as to give its decrees binding force.

We will support a compact among nations to dismantle navies and disband armies, but until such court and compact are established we pledge ourselves to maintain an effective army and navy and to provide coast defenses entirely adequate for national protection.

We are opposed to universal military service and to participation in the rivalry that has brought Europe to the shambles and now imperils the civilization of the race.

Private profit, so far as constitutionally possible, should be taken out of the manufacture of war munitions and all war equipment.

In normal times we favor the employment of the army in vast reclamation plans, in reforesting hills and mountains, in building state and national highways, in the construction of an inland waterway from Florida to Maine, in the opening of Alaska and in unnumbered other projects which will make our soldiers constructive builders of peace. For such service there should be paid an adequate individual wage.

Those units of our navy which are capable of being converted into merchantmen and passenger vessels should be constructed with that purpose in view and chiefly so utilized in time of peace.

We condemn the political parties which for more than thirty years have allowed munition and war equipment manufacturers to plunder the people and to jeopardize the highest interest of the nation by furnishing honeycombed armor plate and second rate battle ships which the Navy league now declares are wholly inadequate.

We will not allow the country to forget that the first step toward physical, economic, moral and political preparedness is the enactment of national prohibition.

TARIFF AND RECIPROCITY.

The countries at war are preparing for a fierce industrial struggle to follow the cessation of hostilities. As a matter of commercial economy, international friendliness, business efficiency and as a help to peace we demand that reciprocal trade treaties be negotiated with all nations with which we have trade relations. A commission of specialists, free from the control of any party, should be appointed with power to gather full information on all phases of the questions of tariff and reciprocity and to recommend such legislation as it deems necessary for the welfare of American business and labor.

MERCHANT MARINE.

The necessity of legislation to enable American ship builders or owners to meet foreign competition on the most favorable terms is obvious. Materials for construction should be admitted free of duty.

The purchase of ships abroad, when low prices invite, should be allowed and, when so purchased, such ships should be admitted to American registry.

Harbor rules and charges and navigation laws should not be onerous, but favorable to the highest degree.

Liberal payment should be made by the government for the carrying of mails or for transport services.

All shipping from the United States to any of our possessions should be reserved to ships of American registry.

The people should not overlook the fact that the effect of nationwide prohibition on labor and industry generally will be such as to lower the cost of shipbuilding per unit and at the same time permit the payment of higher wages. The increased volume of trade and commerce which will result when the wastage of the liquor traffic is stopped will quicken our shipping on every sea and send our flag on peaceful missions into every port. This is urged as an incidental effect of wise action on the liquor question, but is none the less to be desired and will aid in the solution of the problem of our merchant marine.

MEXICO AND MONROE DOCTRINE.

Mexico needs not a conqueror but a good Samaritan. We are opposed to the violation of the sovereignty of the Mexican people and we will countenance no war of aggression against them.

We pledge the help of this country in the suppression of lawless bands of marauders and murderers, who have taken the lives of American citizens, on both sides of the border, as well as of Mexicans in their own country.

The lives and property of our citizens, when about their lawful pursuits, either in the United States or in Mexico, must and will be protected. In the event of a breakdown of government across the border we would use, in the interests of civilization, the force necessary for the establishment of law and order.

In this connection we affirm our faith in the Monroe doctrine, proclaimed in the early days of the nation's life and unswervingly maintained for nearly a hundred years.

We cannot claim the benefits of the doctrine

and refuse to assume or discharge the responsibility and the duties which inhere therein and flow therefrom.

Those duties have long been unmet in Mexico. We should meet them now, acting, not for territory, not for conquest or for ourselves alone, but for and with all the nations of North and South America.

The democratic party has blundered and four years ago the republican party evaded and passed on the problem it now asks the opportunity to solve.

THE PHILIPPINES.

The abandonment of the Philippines at this time would be an injustice to them and a violation of our plain duty. As soon as they are prepared for self-government by education and training they should be granted their independence on terms just to themselves and us.

CONSERVATION.

We reaffirm our declaration in favor of conservation of forests, water power and other natural resources.

DEPARTMENTAL DECISIONS.

Departmental decisions ought not to be final, but the rights of the people should be protected by provision for court review.

THE CIVIL SERVICE.

In order that the public service may be of the highest standard the government should be a model employer in all respects. To enforce the civil service law in spirit as well as in letter all promotions should be nonpolitical, based only upon proven fitness; all recommendations for demotions or removals from the service should be subjected to the review of a nonpartisan board or commission.

The merit system should be extended to cover all postmasters, collectors of revenue, marshals and other public officials whose duties are purely administrative.

We reaffirm our allegiance to the principle of secure tenure of office, during good behavior and capable effort, as the means of obtaining expert service. We declare for the enactment of an equitable retirement law for disabled and superannuated employes, in return for faithful service rendered, to maintain a high degree of efficiency in public office.

AMERICANISM.

We stand for Americanism. We believe this country was created for a great mission among the nations of the earth. We rejoice in the fact that it has offered asylum to the oppressed of other lands and for those, more fortunately situated, who yet wished to improve their condition.

It is the land of all peoples and belongs not to any one—it is the heritage of all. It should come first in the affections of every citizen and he who loves another land more than this is not fit for citizenship here but he is a better citizen who loving his country has reverence for the land of his fathers and gains from its history and traditions that which inspires him to nobler service to the one in which he lives.

The federal government should interest itself in helping the newcomer into that vocation and locality where he shall most quickly become an American. Those fitted by experience and training for agricultural pursuits should be encouraged to develop the millions of acres of rich and idle land.

MARRIAGE AND DIVORCE LAWS.

We favor uniform marriage and divorce laws, the extermination of polygamy and the complete suppression of traffic in women and girls.

CAPITAL AND LABOR.

Differences between capital and labor should be settled through arbitration, by which the rights of the public are conserved as well as those of the disputants. We declare for the prohibition of child labor in factories, mines and workshops; an eight hour maximum day, with one day

of rest in seven; for more rigid sanitary requirements and such working conditions as shall foster the physical and moral well being of the unborn; for the protection of all who toil, by the extension of employers' liability acts; for the adoption of safety appliances for the safeguarding of labor, and for laws that will promote the just division of the wealth which labor and capital jointly produce. Provision should be made for those who suffer from industrial accidents and occupational diseases.

EFFICIENCY.

We pledge a businesslike administration of the nation's affairs; the abolition of useless offices, bureaus and commissions; economy in the expenditure of public funds; efficiency in governmental service, and the adoption of the budget system. The president should have power to veto any single item or items of an appropriation bill.

We condemn and agree when in power to remedy that which is known as "pork barrel" legislation, by which millions of dollars have been appropriated for rivers where there is no commerce, harbors where there are no ships and public buildings where there is no need.

ONE TERM ONLY.

We are in favor of a single presidential term of six years.

PUBLIC OWNERSHIP.

Public utilities and other resources that are natural monopolies are at the present time exploited for personal gain under a monopolistic system. We demand the public ownership or control of all such utilities by the people and their operation and administration in the interests of all the people.

FREE INSTITUTIONS.

We stand for the preservation and development of our free institutions and for absolute separation of church and state with the guaranty of full religious and civil liberty.

SOCIAL JUSTICE.

We stand for the rights, safety, justice and development of humanity; we believe in the equality of all before the law; in old age pensions and insurance against unemployment and in help for needy mothers, all of which could be provided from what is now wasted for drink.

INITIATIVE AND REFERENDUM.

We favor the initiative, referendum and recall.

AGRICULTURE.

While it is admitted that grain and cotton are fundamental factors in our national life, it cannot be denied that proper assistance and protection are not given these commodities at terminal markets, in the course of interstate commerce.

We favor and pledge our efforts to obtain grain elevators at necessary terminal markets, such elevators to be owned and operated by the federal government; also to secure federal grain inspection under a system of civil service and to secure the abolition of any board of trade, chamber of commerce or other place of gambling in grain or trading in "options" or "futures" or "short selling" or any other form of so-called speculation wherein products are not received or delivered, but wherein so-called contracts are settled by the payment of "margins" or "differences" through clearing houses or otherwise.

This party stands committed to free and open markets based upon legitimate supply and demand, absolutely free from questionable practices of market manipulation. We also favor government warehouses for cotton at proper terminals where the interests of producers require the same; and the absolute divorce of all railroad elevators or warehouses owned by railroad companies, either public or private, from operation and control of private individuals in competition with the public in merchandising grain, cotton or other farm products.

We furthermore indorse all proper methods among producers of those means of co-operative mutual enterprise which tend toward broader and better markets for both producer and consumer.

CONCLUSION.

This is the day of opportunity for the American people. The triumph of neither old political party is essential to our safety or progress. The defeat of either will be no public misfortune. They are one party. By age and wealth, by membership and traditions, by platform and in the character of their candidates, they are the conservative party of the United States. The prohibition party as the promoter of every important measure of social justice presented to the American people in the last two generations and as the originator of nearly all such legislation, remains now the only great progressive party.

The patriotic voters, who compose the republican and democratic parties, can, by voting the prohibition ticket this year, elect the issue of national prohibition.

To those, in whatever party, who have the vision of a land redeemed from drink, we extend a cordial invitation to join with us in carrying the banner of prohibition to nationwide victory.

SOCIALIST.

Adopted by party referendum vote closing Sept. 16, 1916.

In the midst of the greatest crisis and bloodiest struggle of all history the socialist party of America reaffirms its steadfast adherence to the principles of international brotherhood, world peace and industrial democracy.

The great war which has engulfed so much of civilization and destroyed millions of lives is one of the natural results of the capitalist system of production.

The socialist party, as the political expression of the economic interests of the working class, calls upon them to take a determined stand on the question of militarism and war, and to recognize the opportunity which the great war has given them of forcing disarmament and furthering the cause of industrial freedom.

An armed force in the hands of the ruling class serves two purposes: to protect and further the policy of imperialism abroad and to silence by force the protest of the workers against industrial despotism at home. Imperialism and militarism plunged Europe into this world war. America's geographical and industrial situation has kept her out of the cataclysm. But Europe's extremity has been the opportunity of America's ruling class to amass enormous profits. As a result there is a surfeit of capital which demands the policy of imperialism to protect and further investments abroad. Hence the frenzy of militarism into which the ruling class has made every attempt to force the United States.

The workers in Europe were helpless to avert the war because they were already saddled with the burden of militarism. The workers in the United States are free from this burden and have the opportunity of establishing a working class policy and program against war. They can compel the government of the United States to lead the way in an international movement for disarmament and to abandon the policy of imperialism which is forcing the conquest of Mexico and must, if carried out, eventually plunge the United States into a world war.

The working class must recognize the cry of preparedness against foreign invasion as a mere cloak for the sinister purpose of imperialism abroad and industrial tyranny at home. The class struggle, like capitalism, is international. The proletariat of the world has but one enemy, the capitalist class, whether at home or abroad. We must refuse to put into the hands of this enemy an armed force even under the guise of a "democratic army," as the workers of Australia and Switzerland have done.

Therefore the socialist party stands opposed to military preparedness, to any appropriations

of men or money for war or militarism, while control of such forces through the political state rests in the hands of the capitalist class. The socialist party stands committed to the class war, and urges upon the workers in the mines and forests, on the railways and ships, in factories and fields, the use of their economic and industrial power, by refusing to mine the coal, to transport soldiers, to furnish food or other supplies for military purposes, and thus keep out of the hands of the ruling class the control of armed forces and economic power, necessary for aggression abroad and industrial despotism at home.

The working class must recognize militarism as the greatest menace to all efforts toward industrial freedom, and regardless of political or industrial affiliations must present a united front in the fight against preparedness and militarism.

Hideous as they are, the horrors of the far-stretched battle field of the old world are dwarfed by the evil results of the capitalist system, even in normal times. Instead of being organized to provide all members of society with an abundance of food, clothing and shelter, and the highest attainable freedom and culture, industry is at present organized and conducted for the benefit of a parasitic class. All the powers of government and all our industrial genius are directed to the end of securing to the relatively small class of capitalist investors the largest amount of profits which can be wrung from the labor of the ever-increasing class whose only property is muscle and brain, manual and mental labor power.

The dire consequences of this system are everywhere apparent. The workers are oppressed and deprived of much that makes for physical, mental and moral well-being. Year by year poverty and industrial accidents destroy more lives than all the armies and navies in the world.

To preserve their privilege and power is the most vital interest of the possessing class, while it is the most vital interest of the working class to resist oppression, improve its position and struggle to obtain security of life and liberty. Hence there exists a conflict of interests, a social war within the nation, which can know neither truce nor compromise. So long as the few own and control the economic life of the nation the many must be enslaved, poverty must coexist with riotous luxury and civil strife prevail.

The socialist party would end these conditions by reorganizing the life of the nation upon the basis of socialism. Socialism would not abolish private property, but greatly extend it. We believe that every human being should have and own all the things which he can use to advantage, for the enrichment of his own life, without imposing disadvantage or burden upon any other human being. Socialism admits the private ownership and individual direction of all things, tools, economic processes and functions which are individualistic in character, and requires the collective ownership and democratic control and direction of those which are social or collectivistic in character.

We hold that this country cannot enjoy happiness and prosperity at home and maintain lasting peace with other nations, so long as its industrial wealth is monopolized by a capitalist oligarchy. In this, as in every other campaign, all special issues arising from temporary situations, whether domestic or foreign, must be subordinated to the major issue—the need of such a reorganization of our economic life as will remove the land, the mines, forests, railroads, mills and factories, all the things required for our physical existence, from the clutches of industrial and financial freebooters and place them securely and permanently in the hands of the people.

If men were free to labor to satisfy their desires there could be in this country neither poverty nor involuntary unemployment. But the men in this country are not free to labor to satisfy their desires. The great industrial population can labor only when the capitalist class

who own the industries believe they can market their product at a profit. The needs of millions are subordinated to the greeds of a few. The situation is not unlike that of a pyramid balanced upon its apex. Oftentimes this pyramid tumbles and industrial depression comes. There was such a crash in 1907. If the capitalist owners had been willing to get out of the way, industry could have been revived in a day. But the capitalist owners are never willing to get out of the way. Their greeds come first—the people's needs, if at all, afterward. Therefore business did not quickly revive after the industrial depression of 1907. Mr. Taft was elected to bring good times, but in four years failed to bring them. Mr. Wilson was elected to bring good times, but not all of the measures he advocated had the slightest effect upon industry. The European war has brought to this country tremendous orders for military supplies and has created a period of prosperity for the few. For the masses of the people there is but an opportunity to work hard for a bare living, which is not prosperity, but slavery. As against the boast of the present national administration that its political program, now fully in force, has brought prosperity to the masses, we call attention to the statement of the federal public health service that \$800 a year is required to enable a family to avoid physical deterioration through lack of decent living conditions, that more than half of the families of working men receive less than that amount, that nearly a third receive less than \$500 a year, and that one family in twelve receives less than \$300 a year.

The capitalist class for a great many years has been trying to saddle upon this country a greater army and a greater navy. A greater army is desired to keep the working class of the United States in subjection. A greater navy is desired to safeguard the foreign investments of American capitalists and to "back up" American diplomacy in its efforts to gain foreign markets for American capitalists. The war in Europe, which diminished and is still diminishing the remote possibility of European attack upon the United States, was nevertheless seized upon by capitalists and by unscrupulous politicians as a means of spreading fear throughout the country, to the end that, by false pretenses, great military establishments might be obtained. We denounce such "preparedness" as both false in principle, unnecessary in character and dangerous in its plain tendencies toward militarism. We advocate that sort of social preparedness which expresses itself in better homes, better bodies and better minds, which are alike the products of plenty and the necessity of effective defense in war.

The socialist party maintains its attitude of unalterable opposition to war.

We reiterate the statement that the competitive nature of capitalism is the cause of modern war and that the co-operative nature of socialism is alone adopted to the task of ending war by removing its causes. We assert, however, that, even under the present capitalist order, additional measures can be taken to safeguard peace, and to this end we demand:

MEASURES TO INSURE PEACE.

1. That all laws and appropriations for the increase of the military and naval forces of the United States shall be immediately repealed.
2. That the power be taken from the president to lead the nation into a position which leaves no escape from war. No one man, however exalted in official station, should have the power to decide the question of peace or war for a nation of a hundred millions. To give one man such power is neither democratic nor safe. Yet the president exercises such power when he determines what shall be the nation's foreign policies and what shall be the nature and tone of its diplomatic intercourse with other nations. We, therefore, demand that the power to fix foreign policies and conduct diplomatic negotiations shall be lodged in congress and shall be exercised publicly, the people reserving the right

by referendum to order congress, at any time, to change its foreign policy.

3. That no war shall be declared or waged by the United States without a referendum vote of the entire people, except for the purpose of repelling invasion.

4. That the Monroe doctrine shall be immediately abandoned as a danger so great that even its advocates are agreed that it constitutes perhaps our greatest single danger of war. The Monroe doctrine was originally intended to safeguard the peace of the United States. Though the doctrine has changed from a safeguard to a menace, the capitalist class still defends it for the reason that our great capitalists desire to retain South and Central America as their private trade preserve. We favor the cultivation of social, industrial and political friendship with all other nations in the western hemisphere, as an approach to a world confederation of nations, but we oppose the Monroe doctrine because it takes from our hands the peace of America and places it in the custody of any nation that would attack the sovereignty of any state in the western world.

5. That the independence of the Philippine islands be immediately recognized as a measure of justice both to the Filipinos and to ourselves. The Filipinos are entitled to self-government; we are entitled to be freed from the necessity of building and maintaining enough dread-noughts to defend them in the event of war.

6. The government of the United States shall call a congress of all neutral nations to mediate, between the belligerent powers in an effort to establish an immediate and lasting peace without indemnities or forcible annexation of territory and based on a binding and enforceable international treaty, which shall provide for concerted disarmament on land and at sea and for an international congress with power to adjust all disputes between nations, and which shall guarantee freedom and equal rights to all oppressed nations and races.

WORKING PROGRAM.

As general measures calculated to strengthen the working class in its fight for the realization of its ultimate aim, the co-operative commonwealth, and to increase its power of resistance against capitalist oppression, we advocate and pledge ourselves and our elected officers to the following program:

POLITICAL DEMANDS.

1. Unrestricted and equal suffrage for men and women.
2. The immediate adoption of the so called "Susan B. Anthony amendment" to the constitution of the United States granting the suffrage to women on equal terms with men.
3. The adoption of the initiative, referendum and recall and of proportional representation, nationally as well as locally.
4. The abolition of the senate and of the veto power of the president.
5. The election of the president and the vice-president by direct vote of the people.
6. The abolition of the present restriction upon the amendment of the constitution so that that instrument may be made amendable by a majority of the voters in the country.
7. The calling of a convention for the revision of the constitution of the United States.
8. The abolition of the power usurped by the Supreme court of the United States to pass upon the constitutionality of legislation enacted by congress. National laws to be repealed only by act of congress or by a referendum vote of the whole people.
9. The immediate curbing of the power of the courts to issue injunctions.
10. The election of all judges of the United States courts for short terms.
11. The free administration of the law.
12. The granting of the right of suffrage in the District of Columbia with representation in congress and a democratic form of municipal government for purely local affairs.
13. The extension of democratic government to all United States territory.

14. The freedom of press, speech and assemblage.
15. The increase of the rates of the present income tax and corporation tax and the extension of inheritance taxes, graduated in proportion to the value of the estate and to nearness of kin—the proceeds of these taxes to be employed in the socialization of industry.
16. The enactment of further measures for general education and particularly for vocational education in useful pursuits. The bureau of education to be made a department.
17. The enactment of further measures for the conservation of health and the creation of an independent department of health.
18. The abolition of the monopoly ownership of patents and the substitution of collective ownership, with direct rewards to inventors by premiums or royalties.

COLLECTIVE OWNERSHIP.

1. The collective ownership and democratic management of railroads, telegraphs and telephones, express service, steamboat lines and all other social means of transportation and communication and of all large-scale industries.
2. The immediate acquirement by the municipalities, the states or the federal government of all grain elevators, stock yards, storage warehouses and other distributing agencies, in order to relieve the farmer from the extortionate charges of the middlemen and to reduce the present high cost of living.
3. The extension of the public domain to include mines, quarries, oil wells, forests and water power.
4. The further conservation and development of natural resources for the use and benefit of all the people:
 - (a) By scientific afforestation and timber protection.
 - (b) By the reclamation of arid and swamp tracts.
 - (c) By the storage of flood waters and the utilization of water power.
 - (d) By the stoppage of the present extravagant waste of the soil and the products of mines and oil wells.
 - (e) By the development of highway and waterway systems.
5. The collective ownership of land wherever practicable, and, in cases where such ownership is impracticable, the appropriation by taxation of the annual rental value of all land held for speculation or exploitation.
6. All currency shall be issued by the government of the United States and shall be legal tender for the payment of taxes and impost duties and for the discharge of public and private debts. The government shall lend money on bonds to counties and municipalities at a nominal rate of interest for the purpose of taking over or establishing public utilities and for building or maintaining public roads and highways and public schools—up to 25 per cent of the assessed valuation of such counties or municipalities. Said bonds are to be repaid in twenty equal and annual installments, and the currency issued for that purpose by the government is to be canceled and destroyed serially as the debt is repaid. All banks and banking institutions shall be owned by the government of the United States or by the states.
7. Government relief of the unemployed by the extension of all useful public works. All persons employed on such work to be engaged directly by the government under a work day of not more than eight hours and at not less than the prevailing union wages. The government also to establish employment bureaus; to lend money to states and municipalities without interest for the purpose of carrying on public works, to contribute money to unemployment funds of labor unions and other organizations of workers, and to take such other measures within its power as will lessen the widespread misery of the workers caused by the misrule of the capitalist class.

INDUSTRIAL DEMANDS.

The conservation of human resources, particu-

- larly of the lives and well-being of the workers and their families:
1. By shortening the workday in keeping with the increased productiveness of machinery.
2. By securing the freedom of political and economic organization and activities.
3. By securing to every worker a rest period of not less than a day and a half in each week.
4. By securing a more effective inspection of workshops, factories and mines.
5. By forbidding the employment of children under eighteen years of age.
6. By forbidding the interstate transportation of the products of child labor and of all unspected factories and mines.
7. By establishing minimum wage scales.
8. By abolishing official charity and substituting a noncontributory system of old age pensions, a general system of insurance by the state of all its members against unemployment and invalidism, and a system of compulsory insurance by employers of their workers, without cost to the latter, against industrial diseases, accidents and death.
9. By establishing mothers' pensions.

SOCIALIST LABOR.

Adopted at New York, N. Y., April 29.

The socialist labor party, in national convention assembled, reaffirming its previous platform declarations, reasserts the right of man to life, liberty and the pursuit of happiness.

We hold that the purpose of government is to secure to every citizen the enjoyment of this right; but taught by experience we hold furthermore that such right is illusory to the majority of the people, to wit, the working class, under the present system of economic inequality that is essentially destructive of their life, their liberty and their happiness.

We hold that the true theory of economics is that the means of production must be owned, operated and controlled by the people in common. Man cannot exercise his right to life, liberty and the pursuit of happiness without the ownership of the land on and the tool with which to work. Deprived of these his life, his liberty and his fate fall into the hands of that class which owns these essentials for work and production.

We hold that the existing contradiction between social production and capitalist appropriation—the latter resulting from the private ownership of the natural and social opportunities—divides the people into two classes—the capitalist class and the working class; throws society into the convulsions of the class struggle, and perverts government in the interests of the capitalist class.

Thus labor is robbed of the wealth it alone produces, is denied the means of self-employment, and, by compulsory idleness in wage slavery, is even deprived of the necessities of life.

Against such a system the socialist labor party raises the banner of revolt and demands the unconditional surrender of the capitalist class.

In place of such a system the socialist labor party aims to substitute a system of social ownership of the means of production, industrially administered by the working class—the workers to assume control and direction as well as operation of their industrial affairs.

This solution of necessity requires the organization of the working class as a class upon revolutionary political and industrial lines.

We therefore call upon the wage workers to organize themselves into a revolutionary political organization under the banner of the socialist labor party, and to organize themselves likewise upon the industrial field into a revolutionary industrial union in keeping with their political aims.

And we also call upon all other intelligent citizens to place themselves squarely upon the ground of working class interests and join us in this mighty and noble work of human emancipation so that we may put summary end to the existing barbarous class conflict by placing the land and all the means of production, transpor-

tation and distribution into the hands of the people as a collective body and substituting the co-operative commonwealth for the present state of planless production, industrial war and social disorder—a commonwealth in which every worker shall have the free exercise and full benefit of his faculties, multiplied by all the modern factors of civilization.

NATIONAL WOMAN'S PARTY.

Adopted at Chicago June 5-7, 1916.

The national woman's party, convinced that the enfranchisement of women is the paramount

issue, pledges itself to use its united vote to secure the passage of the Susan B. Anthony amendment, irrespective of the interests of any national political party; and pledges its unceasing opposition to all who oppose this amendment.

(The Susan B. Anthony amendment is as follows: Article —, Section 1. The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any state on account of sex. Section 2. Congress shall have power, by appropriate legislation, to enforce the provisions of this article.)

NATIONAL NOMINATING CONVENTIONS SINCE 1880.

Place and date of each and names of nominees for president and vice-president in the order named:

- 1880—Democratic: Cincinnati, O., June 22-24; Winfield S. Hancock and William H. English.
 Republican: Chicago, Ill., June 2-8; James A. Garfield and Chester A. Arthur.
 Greenback: Chicago, Ill., June 9-11; James B. Weaver and B. J. Chambers.
 Prohibition: Cleveland, O., June 17; Neal Dow and A. M. Thompson.
 1884—Democratic: Chicago, Ill., July 8-11; Grover Cleveland and Thomas A. Hendricks.
 Republican: Chicago, Ill., June 3-6; James G. Blaine and John A. Logan.
 Greenback: Indianapolis, Ind., May 28-29; Benjamin F. Butler and Alanson M. West.
 American Prohibition: Chicago, Ill., June 19; Samuel C. Pomeroy and John A. Conant.
 National Prohibition: Pittsburgh, Pa., July 23; John P. St. John and William Daniel.
 Anti-Monopoly: Chicago, Ill., May 14; Benjamin F. Butler and Alanson M. West.
 Equal Rights: San Francisco, Cal., Sept. 20; Mrs. Belva A. Lockwood and Mrs. M. L. Stow.
 1888—Democratic: St. Louis, Mo., June 5; Grover Cleveland and Allen G. Thurman.
 Republican: Chicago, Ill., June 19; Benjamin Harrison and Levi P. Morton.
 Prohibition: Indianapolis, Ind., May 20; Clinton B. Fisk and John A. Brooks.
 Union Labor: Cincinnati, O., May 15; Alson J. Streeter and Samuel Evans.
 United Labor: Cincinnati, O., May 15; Robert H. Cowdrey and W. H. T. Wakefield.
 American: Washington, D. C., Aug. 14; James L. Curtis and James R. Greer.
 Equal Rights: Des Moines, Iowa, May 15; Mrs. Belva A. Lockwood and Alfred H. Low.
 1892—Democratic: Chicago, Ill., June 21; Grover Cleveland and Adlai E. Stevenson.
 Republican: Minneapolis, Minn., June 7-10; Benjamin Harrison and Whitelaw Reid.
 Prohibition: Cincinnati, O., June 29; John Bidwell and J. B. Cranfill.
 National People's: Omaha, Neb., July 2-5; James B. Weaver and James G. Field.
 Socialist-Labor: New York, N. Y., Aug. 28; Simon Wing and Charles E. Matchett.
 1896—Democratic: Chicago, Ill., July 7; William J. Bryan and Arthur Sewall.
 Republican: St. Louis, Mo., June 16; William McKinley and Garret A. Hobart.
 People's Party: St. Louis, Mo., July 22; William J. Bryan and Thomas E. Watson.
 Silver Party: St. Louis, Mo., July 22; William J. Bryan and Arthur Sewall.
 National Democratic: Indianapolis, Ind., Sept. 2; John M. Palmer and Simon B. Buckner.
 Prohibition: Pittsburgh, Pa., May 27; Joshua Levering and Hale Johnson.
 National Party: Pittsburgh, Pa., May 28; Charles E. Bentley and James H. Southgate.
 Socialist-Labor: New York, N. Y., July 6; Charles H. Matchett and Matthew Maguire.
 1900—Democratic: Kansas City, Mo., July 4-6; William J. Bryan and Adlai E. Stevenson.
 Republican: Philadelphia, Pa., June 19-21; William McKinley and Theodore Roosevelt.
 People's Party: Sioux Falls, S. D., May 9-10; William J. Bryan and Adlai E. Stevenson.
 People's Party (Middle-of-the-Road): Cincinnati, O., May 9-10; Wharton Barker and Ignatius Donnelly.
 Silver Republican: Kansas City, Mo., July 4-6; William J. Bryan and Adlai E. Stevenson.

- Prohibition: Chicago, Ill., June 27-28; John G. Woolley and Henry B. Metcalf.
 Socialist-Labor: New York, N. Y., June 2-8; Joseph P. Malloney and Valentine Remmel.
 Social Democratic Party of the United States: Rochester, N. Y., Jan. 27; Job Harriman and Max S. Hayes.
 Social Democratic Party of America: Indianapolis, Ind., March 6; Eugene V. Debs and Job Harriman.
 Union Reform: Baltimore, Md., Sept. 3; Seth W. Ellis and Samuel T. Nicholson.
 1904—Democratic: St. Louis, Mo., July 6-9; Alton B. Parker and Henry G. Davis.
 Republican: Chicago, Ill., June 21-23; Theodore Roosevelt and Charles W. Fairbanks.
 People's Party: Springfield, Ill., July 4-6; Thomas E. Watson and Thomas H. Tibbles.
 Prohibition: Indianapolis, Ind., June 29-July 1; Silas C. Swallow and George W. Carroll.
 Socialist-Labor: New York, N. Y., July 3-9; Charles H. Corregan and William W. Cox.
 Socialist-Democratic Party of America: Chicago, Ill., May 1-6; Eugene V. Debs and Benjamin Hanford.
 Continental: Chicago, Ill., Aug. 31; Charles H. Howard and George H. Shibley. (Nominees declined and Austin Holcomb and A. King were substituted by the national committee.)
 1908—Republican: Chicago, July 10-19; William H. Taft and James S. Sherman.
 Democratic: Denver, July 7-10; William J. Bryan and John W. Kern.
 Socialist: Chicago, May 10-18; Eugene V. Debs and Benjamin Hanford.
 Prohibition: Columbus, O., July 15-16; Eugene W. Chaffin and Aaron S. Watkins.
 Independence: Chicago, July 27-28; Thomas L. Hisgen and John Temple Graves.
 People's: St. Louis, April 2-3; Thomas E. Watson and Samuel W. Williams.
 United Christian: Rock Island, Ill., May 1; Daniel Braxton Turney and S. P. Carter.
 Socialist-Labor: New York, July 2-5; Martin R. Preston and Donald L. Munro. (Preston declined and August Gillhaus was named in his place.)
 1912—Democratic: Baltimore, June 25-July 3; Woodrow Wilson and Thomas Riley Marshall.
 Republican: Chicago, June 18-22; William Howard Taft and James Schoolcraft Sherman.
 Progressive: Chicago, Aug. 5-7; Theodore Roosevelt and Hiram W. Johnson.
 Socialist: Indianapolis, May 12-18; Eugene V. Debs and Emil Seidel.
 Prohibition: Atlantic City, July 10-12; Eugene W. Chaffin and Aaron S. Watkins.
 Socialist-Labor: New York, April 7-10; Arthur Reimer and August Gillhaus.
 Populist: St. Louis, Aug. 13; no nominations made.
 1916—Republican: Chicago, June 7-10; Charles E. Hughes and Charles W. Fairbanks.
 Progressive: Chicago, June 7-10; Theodore Roosevelt and John M. Parker. Roosevelt declined and party decided to support Hughes.
 Democratic: St. Louis, June 14-16; Woodrow Wilson and Thomas R. Marshall.
 Prohibition: St. Paul, Minn., July 19-21; J. Frank Hanly and Ira D. Landrith.
 Socialist: No convention held; Allan L. Benson and George R. Kirkpatrick nominated by mail primary Jan. 10-March 11.
 Socialist-Labor: New York, N. Y., April 29-May 3; Arthur E. Reimer and Cleb Harrison.

NATIONAL POLITICAL COMMITTEES (1916-1920).

REPUBLICAN.

Headquarters—Chicago and New York.
 Chairman—William B. Wilcox, New York.
 Secretary—James B. Reynolds, Wilkins building,
 Washington, D. C.
 Treasurer—Cornellus N. Bliss, Jr., New York.
 Assistant Treasurers—Fred W. Upham, Illinois,
 and Beverley R. Robinson, New York.
 Sergeant-at-Arms—William E. Stone, Maryland.
 Executive Committee—John T. Adams, Iowa;
 William H. Crocker, California; Fred W. Estabrook,
 New Hampshire; James A. Hemenway, Indiana;
 A. T. Hirt, Kentucky; R. B. Howell, Nebraska;
 Alvah H. Martin, Virginia; Herbert Parsons, New York;
 S. A. Perkins, Washington; Charles E. Warren, Michigan;
 Ralph E. Williams, Oregon.

In five states in 1892 the electoral vote was divided: California gave 8 electoral votes for Cleveland and 1 for Harrison and Ohio gave 1 for Cleveland and 22 for Harrison; in Michigan, by act of the legislature, each congressional district voted separately for an elector; in Oregon 1 of the 4 candidates for electors on the people's party ticket was also on the democratic ticket; in North Dakota 1 of the 2 people's party electors cast his vote for Cleveland, this causing the

electoral vote of the state to be equally divided among Cleveland, Harrison and Weaver. In 1896 California gave 8 electoral votes to McKinley and 1 to Bryan; Kentucky gave 12 to McKinley and 1 to Bryan. In Maryland in 1904 7 of the presidential electors chosen were democrats and 1 republican. In 1908 Maryland elected 6 democratic and 2 republican electors. In 1912 California elected 11 progressive and 2 democratic electors.

 Duties—The act creating the federal trade commission declares unfair methods of competition in commerce to be unlawful. The commission is empowered to prevent persons, partnerships or corporations, except banks and common

carriers, from using such methods. It gives hearings to persons or corporations suspected or accused of using unfair methods of competition and if it finds that such methods are used orders their discontinuance. If the orders are not obeyed the commission applies to the United States Circuit Court of Appeals for their enforcement. The commission also has the power to compile information as to the business methods of any corporation engaged in business, except banks and common carriers, and its relations to other corporations or individuals, to investigate violations of the anti-trust acts and to investigate trade conditions in foreign countries which may affect the foreign trade of the United States.

The Federal Judiciary

SUPREME COURT.

UNITED STATES DISTRICT ATTORNEYS.

Alabama—Northern district, Robert N. Bell, Birmingham; middle district, Thomas D. Samford, Montgomery; southern district, Alexander D. Pitts, Mobile.	Louis; western district, Francis M. Wilson, Kansas City.
Alaska—First division, James A. Smiser, Juneau; second division, F. M. Saxton, Nome; third division, William N. Spence, Valdez; fourth division, R. F. Both, Fairbanks.	Montana—Burton K. Wheeler, Helena.
Arizona—Thomas A. Flynn, Phoenix.	Nebraska—Thomas S. Allen, Omaha.
Arkansas—Eastern district, William H. Martin, Little Rock; western district, J. V. Bourland, Fort Smith.	Nevada—William Woodburn, Carson City.
California—Northern district, John W. Preston, San Francisco; southern district, Albert Schooner, Los Angeles.	New Hampshire—Fred H. Brown, Concord.
Canal Zone—Charles R. Williams, Ancon.	New Jersey—Charles F. Lynch, Newark.
Colorado—Harry B. Tedrow, Denver.	New Mexico—Sumner Burkhardt, Albuquerque.
Connecticut—Thomas J. Spellacy, Hartford.	New York—Northern district, Dennis B. Lucey, Utica; southern district, H. Snowden Marshall, New York city; eastern district, Melville J. France, Brooklyn; western district, Stephen T. Lockwood, Buffalo.
Delaware—Charles F. Curley, Wilmington.	North Carolina—Eastern district, James O. Carr, Raleigh; western district, William C. Hammer, Ashboro.
District of Columbia—John E. Laskey, Washington.	North Dakota—Melvin A. Hildreth, Fargo.
Florida—Northern district, John L. Neeley, Pensacola; southern district, Herbert S. Phillips, Tampa.	Ohio—Northern district, Edwin S. Wertz, Cleveland; southern district, Stuart R. Bohn, Columbus.
Georgia—Northern district, Hooper Alexander, Atlanta; southern district, Earl M. Donaldson, Macon.	Oklahoma—Eastern district, D. Hayden Linebaugh, Muskogee; western district, John A. Fain, Guthrie.
Hawaii—S. C. Huber, Honolulu.	Oregon—Clarence L. Reames, Portland.
Idaho—James L. McClear, Boise.	Pennsylvania—Eastern district, Francis F. Kane, Philadelphia; middle district, Rogers L. Burnett, Scranton; western district, Edwin L. Humes, Pittsburgh.
Illinois—Northern district, Charles F. Clyne, Chicago; eastern district, Charles A. Karch, Danville; southern district, Edward C. Knotts, Springfield.	Porto Rico—Miles M. Martin, San Juan.
Indiana—L. E. Slack, Indianapolis.	Rhode Island—Harvey A. Baker, Providence.
Iowa—Northern district, Frank A. O'Connor, Sioux City; southern district, Claude R. Porter, Ottumwa.	South Carolina—Eastern district, Francis H. Weston, Charleston; western district, J. William Thurmond, Greenville.
Kansas—Fred Robertson, Topeka.	South Dakota—Robert P. Stewart, Sioux Falls.
Kentucky—Western district, Perry B. Miller, Louisville; eastern district, Thomas D. Slatery, Covington.	Tennessee—Eastern district, Lewis M. Coleman, Knoxville; middle district, Lee Douglas, Nashville; western district, Hubert F. Fisher, Memphis.
Louisiana—Eastern district, Walter Guion, New Orleans; western district, George W. Jack, Shreveport.	Texas—Eastern district, Clarence Merritt, Paris; northern district, James C. Wilson, Dallas; western district, J. L. Camp, San Antonio; southern district, John E. Green, Jr., Houston.
Maine—John F. A. Merrill, Portland.	Utah—William W. Ray, Salt Lake City.
Maryland—Samuel K. Dennis, Baltimore.	Vermont—Vernon A. Bullard, Burlington.
Massachusetts—George W. Anderson, Boston.	Virginia—Eastern district, Richard H. Mann, Richmond; western district, Richard E. Byrd, Roanoke.
Michigan—Eastern district, John E. Kinnane, Detroit; western district, Myron H. Walker, Grand Rapids.	Washington—Western district, Clay Allen, Seattle; eastern district, Francis A. Garrecht, Spokane.
Minnesota—Alfred Jaques, St. Paul.	West Virginia—Northern district, Stuart W. Walker, Parkersburg; southern district, William G. Barnhart, Huntington.
Mississippi—Northern district, Wilson S. Hill, Oxford; southern district, Joseph W. George, Jackson.	Wisconsin—Eastern district, H. A. Sawyer, Milwaukee; western district, John A. Aylward, Madison.
Missouri—Eastern district, Arthur L. Oliver, St.	Wyoming—Charles L. Rigdon, Cheyenne.

UNITED STATES MARSHALS.

Alabama—Northern district, Henry A. Skeggs, Birmingham; middle district, McDaniel Cain, Montgomery; southern district, Christopher G. Gwin, Mobile.	Arizona—Joseph P. Dillon, Tucson.
Alaska—First division, Harry A. Bishop, Juneau; second division, Emmet R. Jordan, Nome; third division, F. R. Brennehan, Valdez; fourth division, Lewis T. Erwin, Fairbanks.	Arkansas—Eastern district, A. Jackson Walls, Little Rock; western district, John H. Parker, Fort Smith.
	California—Northern district, James B. Holohan, San Francisco; southern district, Charles T. Walton, Los Angeles.
	Canal Zone—William Howard May, Culebra.

Colorado—Samuel J. Burris, Denver.
 Connecticut—C. C. Middlebrooks, Hartford.
 Delaware—Martin F. Farry, Wilmington.
 District of Columbia—Maurice Spain, Washington.
 Florida—Northern district, James B. Perkins, Pensacola; southern district, Nathan H. Boswell, Jacksonville.
 Georgia—Northern district, Howard Thompson, Atlanta; southern district, Joseph S. Davis, Macon.
 Hawaii—Jerome J. Smiddy, Honolulu.
 Idaho—Thomas B. Martin, Boise.
 Illinois—Northern district, John J. Bradley, Chicago; eastern district, Cooper Stout, Danville; southern district, Vincent Y. Dallman, Springfield.
 Indiana—Mark Storen, Indianapolis.
 Iowa—Northern district, E. R. Moore, Dubuque; southern district, Nicholas F. Reed, Des Moines.
 Kansas—Otho T. Wood, Topeka.
 Kentucky—Western district, Edgar H. James, Louisville; eastern district, Robert C. Ford, Covington.
 Louisiana—Eastern district, Frank M. Miller, New Orleans; western district, John H. Kirkpatrick, Shreveport.
 Maine—John S. P. H. Wilson, Portland.
 Maryland—William W. Stockham, Baltimore.
 Massachusetts—John J. Mitchell, Boston.
 Michigan—Eastern district, Henry Behrendt, Detroit; western district, Herman O'Connor, Grand Rapids.
 Minnesota—Jas. A. Wessell, St. Paul.
 Mississippi—Northern district, W. S. Vardaman, Oxford; southern district, John G. Cashman, Jackson.
 Missouri—Eastern district, John F. Lynch, St. Louis; western district, William A. Shelton, Kansas City.
 Montana—Joseph L. Ashbridge, Helena.
 Nebraska—Thomas J. Flynn, Omaha.
 Nevada—A. B. Gray, Carson City.
 New Hampshire—Charles J. O'Neill, Concord.
 New Jersey—Albert Bollschweiler, Trenton.
 New Mexico—Andrew H. Hudspeth, Santa Fe.
 New York—Northern district, Clayton L. Wheeler, Utica; southern district, Thomas D. McCarthy,

New York city; eastern district, James M. Power, Brooklyn; western district, John D. Lynn, Rochester.
 North Carolina—Eastern district, W. T. Dortch, Raleigh; western district, Charles A. Webb, Asheville.
 North Dakota—Stephen J. Doyle, Fargo.
 Ohio—Northern district, Charles W. Lapp, Cleveland; southern district, Michael Devanny, Cincinnati.
 Oklahoma—Western district, John Q. Newell, Oklahoma City; eastern district, A. B. Enloe, Jr., Muskogee.
 Oregon—John Montag, Portland.
 Pennsylvania—Eastern district, Frank J. Noonan, Philadelphia; middle district, James S. Magee, Scranton; western district, Joseph Howley, Pittsburgh.
 Porto Rico—William R. Bennett, San Juan.
 Rhode Island—John J. Richards, Providence.
 South Carolina—Eastern district, James L. Sims, Charleston; western district, C. J. Lyon, Greenville.
 South Dakota—Thomas W. Taubman, Sioux Falls.
 Tennessee—Eastern district, J. R. Thompson, Knoxville; middle district, Jonas T. Amls, Nashville; western district, Stanley H. Trezevant, Memphis.
 Texas—Eastern district, Benjamin F. Sherrill, Sherman; northern district, William J. McDonald, Dallas; western district, John H. Rogers, San Antonio; southern district, Jacob A. Her-ring, Galveston.
 Utah—Aquila Nebeker, Salt Lake City.
 Vermont—Arthur P. Carpenter, Rutland.
 Virginia—Eastern district, John G. Saunders, Norfolk; western district, T. G. Burch, Staunton.
 Washington—Eastern district, James E. McGovern, Spokane; western district, John M. Boyle, Tacoma.
 West Virginia—Northern district, Clarence E. Smith, Parkersburg; southern district, William Osborne, Huntington.
 Wisconsin—Eastern district, Samuel W. Randolph, Milwaukee; western district, Frank P. O'Connor, Madison.
 Wyoming—Daniel F. Hudson, Cheyenne.

STATE MOTTOES.

Following are the mottoes adopted by the various states of the union and appearing on their state seals except as otherwise noted:

Alabama—Here we rest.
 Arizona—Ditat Deus (God enriches).
 Arkansas—Regnant populi (The people rule).
 California—Eureka (I have found it).
 Colorado—Nil nisi numine (Nothing without Providence).
 Connecticut—Qui transtulit sustinet (Who transplanted sustains).
 Delaware—Liberty and independence.
 Florida—In God we trust.
 Georgia—Wisdom, justice, moderation.
 Idaho—Esto perpetua (May it be perpetual).
 Illinois—State sovereignty, national union.
 Indiana—(No motto).
 Iowa—Our liberties we prize and our rights we will maintain.
 Kansas—Ad astra per aspera (To the stars through difficulties).
 Kentucky—United we stand, divided we fall.
 Louisiana—Union, justice, confidence.
 Maine—Dirigo (I direct).
 Maryland—Fatti maschili, parole femine (Deeds, men; words, women).
 Massachusetts—Ense petit placidam sub libertate quietem (By the sword he seeks repose settled under liberty).
 Michigan—Si queris peninsulam amoenam, circumspice (If you seek a delightful peninsula, look about you).
 Minnesota—L'étoile du nord (Star of the north).
 Mississippi—(No motto).
 Missouri—Salus populi suprema lex esto (Let the people's safety be the supreme law).
 Montana—Oro y plata (Gold and silver).

Nebraska—Equality before the law.
 Nevada—All for our country.
 New Hampshire—(No motto).
 New Jersey—Liberty and prosperity.
 New Mexico—Crescit eundo (It increases as it advances).
 New York—Excelsior (Higher).
 North Carolina—Esse quam videri (To be rather than to seem).
 North Dakota—Liberty and union, now and forever, one and inseparable.
 Ohio—(No motto).
 Oklahoma—Labor omnia vincit (Labor conquers all things).
 Oregon—The union.
 Pennsylvania—Virtue, liberty and independence.
 Rhode Island—Hope.
 South Carolina—Animis opibusque parati (Ready in soul and resource) and Dum spiro spero (While I breathe I hope).
 South Dakota—Under God the people rule.
 Tennessee—Agriculture, commerce.
 Texas—Has no official motto but "Texas—one and indivisible," adopted by the Daughters of the Republic of Texas, is sometimes used.
 Utah—Industry. (State seal indicates industry and independence.)
 Vermont—Freedom and unity.
 Virginia—Sic semper tyrannis (Thus ever to tyrants).
 Washington—(No motto).
 West Virginia—Montani semper liberi (Mountaineers are always free).
 Wisconsin—Forward.
 Wyoming—Equal rights.
 United States—E pluribus unum (Out of many, one).

Sixty-Fourth Congress.

From March 4, 1915, to March 3, 1917.

SENATE.

President, Thomas R. Marshall, vice-president of the United States; compensation, \$12,000 a year. Democrats 56, republicans 39, progressive 1. Compensation of senators \$7,500 a year, term six years.

 Turkey, war with Balkan states began, Oct. 8, 1912; Nazim Pasha assassinated, Jan. 23, 1913.
 Union of South Africa proclaimed, May 31, 1910.

IMMIGRATION LAW OF

The immigration law provides for a poll tax of \$4 for every alien entering the United States. This tax is not levied upon aliens who shall enter the United States after an uninterrupted residence of at least one year immediately preceding such entrance in Canada, Newfoundland, Cuba or Mexico, nor upon aliens in transit through the United States, nor upon aliens arriving in Guam, Porto Rico or Hawaii.

Whenever the president shall be satisfied that passports issued by any foreign government to its citizens to go to any country other than the United States or to any insular possession of the United States or to the Canal Zone are being used for the purpose of enabling the holders to come to the continental territory of the United States to the detriment of labor conditions therein, the president may refuse to permit such citizens of the country issuing such passports to enter the continental territory of the United States from such other country or from such insular possessions or from the Canal Zone.

The following classes are excluded from admission into the United States: Aliens who are imbeciles, feeble-minded persons, epileptics, insane persons and persons who have been insane within five years; persons who have had two or more attacks of insanity at any time previously; paupers; persons likely to become a public charge; professional beggars; persons afflicted with tuberculosis or with a loathsome or dangerous contagious disease; persons who have committed a felony or other crime involving moral turpitude; polygamists or persons who believe in the practice of polygamy; anarchists or persons who believe in or advocate the overthrow by force or violence of the government of the United States, or of all governments or of all forms of law, or the assassination of public officials; prostitutes, or women and girls coming into the United States for any immoral purpose; contract laborers who have been induced to migrate to this country by offers of employment or in consequence of agreements of any kind, verbal or written, express or implied, to perform labor in this country of any kind, skilled or unskilled; any person whose ticket or passage is paid for

Utah admitted as a state, Feb. 4, 1896.

 Wyoming admitted as state, July 10, 1890.
 Yalu, battle of, Sept. 17, 1894.

THE UNITED STATES.

with the money of another, or who is assisted by others to come, unless it is satisfactorily shown that such person does not belong to one of the foregoing excluded classes and that said ticket or passage was not paid for by any corporation, society, municipality or foreign government, directly or indirectly; all children under 16 years of age unaccompanied by one or both of their parents, at the discretion of the secretary of labor. Nothing in the act shall exclude, if otherwise admissible, persons convicted of an offense purely political, not involving moral turpitude. Skilled labor may be imported if labor of like kind unemployed cannot be found in this country. The provisions of the law applicable to contract labor shall not be held to exclude professional actors, artists, lecturers, singers, clergymen, professors for colleges or seminaries, persons belonging to any recognized learned profession or persons employed strictly as personal or domestic servants.

It is unlawful to assist or encourage the importation or migration of any alien by promise of employment through advertisements printed in any foreign country. This, however, does not apply to states or territories advertising the inducements they offer to immigration thereto.

All aliens brought to this country in violation of law shall be immediately sent back by the owners of the vessels bringing them. Any alien entering the United States in violation of law and such as become public charges from causes existing prior to their landing shall be deported at any time within three years after their arrival.

No person who disbelieves in or who is opposed to all organized government, or who is a member of or affiliated with any organization entertaining and teaching such belief in or opposition to all organized government, or who advocates or teaches the duty, necessity or propriety of the unlawful assaulting or killing of any officer or officers, either of specific individuals or of officers generally of the government of the United States, or of any other organized government, because of his or their official character, shall be permitted to enter the United States.

GREAT STEAMSHIP DISASTERS.

GENERAL SLOCUM.

Date—June 15, 1904.
 Place—East River, New York.
 Persons aboard—About 1,400.
 Lives lost—958.
 Cause—Fire.

TITANIC.

Date—April 15, 1912.
 Place—Atlantic ocean, lat. 41:16 north, long. 50:14 west.
 Persons aboard—2,223.
 Lives lost—1,517.
 Persons saved—706.
 Cause of disaster—Collision with iceberg.

EMPRESS OF IRELAND.

Date—May 29, 1914.
 Place—St. Lawrence river, near Father Point, Que.

Persons aboard—1,479.
 Lives lost—1,027.
 Persons saved—452.
 Cause of disaster—Collision with steamer.

LUSITANIA.

Date—May 27, 1915.
 Place—Atlantic ocean, off Irish coast.
 Persons aboard—1,906.
 Lives lost—1,198.
 Persons saved—708.
 Cause—Torpedo, fired by German submarine.

EASTLAND.

Date—July 24, 1915.
 Place—Chicago river, Chicago, Ill.
 Persons aboard—More than 2,000.
 Lives lost—812.
 Cause—Instability of steamer and overloading.

UNITED STATES PASSPORT REGULATIONS.

Passports are issued to citizens of the United States upon application to the state department in Washington. The application must be accompanied by an affidavit, attested by a notary public or other officer empowered to administer oaths, stating that the applicant is a citizen and giving the place of birth and age, and it must be accompanied by the certificate of one other citizen to whom he is personally known that the declaration made by the applicant is true. The application must also be accompanied by a description of the person, particularly as to age, height, complexion, forehead, eyes, nose, mouth,

chin, hair and face. Blank forms are furnished by the state department upon application. The fee for each passport is \$1. Citizens traveling abroad may also in some cases obtain passports by applying to United States ambassadors and ministers. Where any person has made a declaration of intention to become a citizen of the United States and has resided in the United States for three years a passport valid for six months may be issued to him. [Owing to European war special regulations for identification were issued in November, 1914. Apply to state department for further information.]

ELEPHANT BUTTE DAM.

The dam across the Rio Grande river at Elephant Butte, N. M., was completed by the United States reclamation service and formally dedicated Oct. 14, 1916. It is one of the monumental engineering projects of the world. The dam is 318 feet high and in storage capacity surpasses any other dam ever constructed. The reservoir, when filled, will contain 856,000,000 gallons—enough water to cover the state of Delaware 2 feet deep. This is one-third more

than can be stored in the \$17,000,000 Assuan dam in Egypt and two-thirds more than the combined capacity of all the reservoirs built or projected for Greater New York. The dam is 1,674 feet long at the top, contains 610,000 cubic yards of rubble concrete and weighs 1,000,000 tons. Placed on a city lot 125 by 25 feet it would make a block of concrete lacking only fifty feet of being a mile high. Its cost was approximately \$5,000,000.

CHURCHES AND RELIGIOUS ASSOCIATIONS.

ROMAN CATHOLIC CHURCH OF THE UNITED STATES.

Apostolic Delegate—Most Reverend John Bonzano, D. D.

CHRISTIAN SCIENCE CHURCH

The Christian Science church was founded in 1852 by Mary Baker Eddy, the discoverer of Christian Science and author of its textbook, "Science and Health, with Key to the Scriptures." The church was organized "to commemorate the word and works of our Master, which should reinstate primitive Christianity and its lost element of healing" (Church Manual). In 1892 the church was reorganized as the First Church of Christ, Scientist, known as the Mother Church, in Boston, Mass. The present officers of the Mother Church are:

President—Calvin A. Frye.

Clerk—John V. Dittmore.

Treasurer—Adam H. Dickey.

Directors—Allison V. Stewart, chairman; Archibald McLellan, James A. Neal, John V. Dittmore, Adam H. Dickey.

All Christian Science churches and societies in the United States and in foreign countries are branches of the Mother Church. Lesson-sermons compiled from the bible and "Science and Health, with Key to the Scriptures" are read at the services in Christian Science churches.

Mrs. Eddy founded the Christian Science Journal, Sentinel, Quarterly, Der Herold der Christian Science and the Christian Science Monitor (a daily newspaper), all of which are published by the Christian Science Publishing society in Boston.

There is in connection with the Christian Science movement an official board of lectureship designed to furnish the public correct information concerning the fundamental teachings of Christian Science. Lectures given by members of this board are free to the public.

CHURCH OF THE NEW JERUSALEM.

[Swedenborgian.]

THE GENERAL CONVENTION.

President—Rev. Julian K. Smyth, 230 West 59th street, New York, N. Y.

FEDERAL COUNCIL OF THE CHURCHES OF CHRIST IN AMERICA.

Organized in December, 1908.

A federation officially organized and including the following denominations: Baptist churches (north), national Baptist convention, Free Baptist churches, Christian church, Congregational churches, Disciples of Christ, Friends, German Evangelical synod, Evangelical association, Lutheran church (general synod), Mennonite church, Methodist Episcopal church, Methodist Episcopal Church South, African Methodist Episcopal church, African Methodist Episcopal Zion church, Colored Methodist Episcopal Church in America, Methodist Protestant church, Moravian church, Presbyterian Church in the United States of America, Presbyterian Church in the United States (south), Protestant Episcopal church (commissions on Christian unity and social service), Reformed Church in America, Reformed Church in the United States, Reformed Episcopal church, Reformed Presbyterian church (general synod), Seventh Day Baptist church, United Brethren church, United Evangelical church, United Presbyterian church, Welsh Presbyterian church.

Officers—President, Prof. Shailer Mathews; general secretary, Rev. Charles S. Macfarland; treasurer, Alfred R. Kimball; chairman of the executive committee, Rev. Frank Mason North; chairman of the administrative committee, Rev. William I. Haven.

The council meets quadrennially and its executive committee annually. Its work is carried on through the following commissions: The church and social service, peace and arbitration, evangelism, Christian education, foreign missions,

home missions, family life, temperance, Sunday observance, church and country life, and federated movements.

The national offices are at 105 East 22d street, New York, N. Y.

An office in the Woodward building, Washington, D. C., is in charge of Rev. Henry K. Carroll, associate secretary.

YOUNG PEOPLE'S CHRISTIAN UNION OF THE UNIVERSALIST CHURCH.

President—Rev. George A. Gay, Little Falls, N. Y.

Secretary-Treasurer—Carl F. Elsner, 359 Boylston street, Boston, Mass.

AMERICAN SUNDAY SCHOOL UNION.

Headquarters, 1816 Chestnut street, Philadelphia, Pa.

President—Martin L. Finckel.

Recording Secretary—William H. Hirst.

Treasurer—John E. Stevenson.

Secretary of Missions—Rev. George P. Williams, D. D.

Secretary of Publications—James McConaughy.

RELIGIOUS EDUCATION ASSOCIATION.

Organized Feb. 12, 1903.

President—Rt.-Rev. Francis J. McConnell, Denver, Col.

Recording Secretary—Charles M. Stuart, Evanston, Ill.

General Secretary—Henry Frederick Cope, Chicago, Ill.

Treasurer—David R. Forgan, Chicago, Ill.

Chairman Executive Board—Hon. Jesse A. Baldwin, Chicago, Ill.

Executive Offices—332 South Michigan avenue, Chicago, Ill.

The purpose of the association is to promote the improvement and extension of moral and religious education through existing agencies in the churches, schools, etc., by serving as a center, a clearing house and a bureau of information and promotion. The association publishes a bimonthly magazine, maintains a permanent library and exhibit, superintends local guilds, holds general conventions and local conferences. It enrolls in its membership any persons interested in moral and religious education regardless of sectarian or theological lines.

UNITED SOCIETY OF CHRISTIAN ENDEAVOR.

President—Rev. Francis E. Clark, D. D., LL. D.

General Secretary—Dr. William Shaw, Christian Endeavor headquarters, Boston, Mass.

Editorial Secretary—Prof. Amos R. Wells.

Treasurer and Publication Manager—A. R. Shartle.

Manager Western Office—Walter R. Mee, 405, 19 South LaSalle street, Chicago.

YOUNG MEN'S CHRISTIAN ASSOCIATION.

International Committee of Young Men's Christian Associations of North America—Alfred E. Marling, chairman; William Spence, William D. Murray, vice-chairmen; B. H. Fancher, treasurer; John R. Mott, general secretary; general offices, 124 East 28th street, New York, N. Y. The annual report made in 1916 shows: Associations, 2,757; members, 689,023; value of real property, \$90,290,394; total net property and funds, \$94,389,338; number of employed officers, 4,353; students in educational classes, 81,920; 719 gymnasiums; 477,731 members participated in the physical work; 238 athletic fields; 234 railroad associations with 85,287 members; 791 student associations with 72,527 members; boy membership, 160,166.

AMERICAN BIBLE SOCIETY.

Bible House, Astor place, New York, N. Y.

President—James Wood.

Corresponding Secretaries—Rev. John Fox, D. D.;

Rev. William I. Haven, D. D.; Rev. L. B. Chamberlain, assistant secretary.

Recording Secretary—Rev. Henry Otis Dwight, LL. D.

Treasurer—William Foulke, Bible House, New York, N. Y.
Agency Secretaries in the United States—Rev. S. H. Kirkbride, D. D., McCormick building, 332 South Michigan avenue, Chicago, Ill.; Rev. J. P. Wragg, D. D., 35 Gammon avenue, Atlanta, Ga.; Rev. M. B. Porter, 205 North 5th street, Richmond, Va.; Rev. Arthur F. Ragatz, D. D., Y. M. C. A. building, Lincoln and 16th streets, Denver, Col.; Rev. A. Wesley Meil, Y. M. C. A. building, Golden Gate avenue, San Francisco, Cal.; Rev. J. J. Morgan, 1304 Commerce street, Dallas, Tex.; Rev. G. S. J. Browne, D. D., 424 Elm street, Cincinnati, O.; Rev. L. W. Eckard, D. D., 701 Walnut street, Philadelphia, Pa.; Rev. H. J. Scudder, 137 Montague street, Brooklyn, N. Y.

BROTHERHOOD OF ANDREW AND PHILIP.

INTERNATIONAL COUNCIL.

President—Joseph M. Steel, Philadelphia, Pa.
Vice-Presidents—William M. Gordon, Harvey C. Miller, Levi L. Rue, H. E. Paisley, John Walton, John Wanamaker, Philadelphia, Pa.
Recording Secretary—G. Percy Fox, 2524 Girard avenue, Philadelphia, Pa.
Treasurer—William M. Nicholson, Philadelphia.
General Secretary—Norman J. Smith, 1214 Widener building, Philadelphia, Pa.

THE SALVATION ARMY.

Organized in London July, 1865.

Commander in Chief—Gen. Bramwell Booth.
International Headquarters—London, England.
American National Headquarters—120 West 14th street, New York, N. Y.
Commander of United States Forces—Evangeline C. Booth.
Western Territorial Headquarters—108, 114 North Dearborn street, Chicago, Ill.
Western Territorial Commissioner—Thomas Estill.
Posts in World—9,673.
Social Institutions—1,173.
Officers and Cadets—16,768.

THE VOLUNTEERS OF AMERICA.

Organized March 6, 1896.

Commanders—Gens. Ballington and Maud B. Booth.
National Headquarters—34 West 28th street, New York, N. Y.
Northwestern Headquarters—1201-1213 Washington boulevard, Chicago, Ill.
Territorial Commander—Maj.-Gen. Edward Fielding.
National Secretary—J. W. Merrill, New York, N. Y.
National Treasurer—W. J. Crafts, New York, N. Y.

AMERICAN TRACT SOCIETY.

Organized 1825.

President—William Phillips Hall.
General Secretary—Judson Swift, D. D.
Treasurer—Louis Tag.
Offices—Park avenue and 40th street, New York, N. Y.

THE FAMILY ALTAR LEAGUE.

The Family Altar league is a worldwide company of people who have made a covenant to maintain a family altar in their home. Covenant cards are furnished free on request, and to all who enroll by signing the covenant a wall-card certificate of membership is sent without cost. In 1916 300,000 cards had been sent out. It is estimated that more than 60,000 new family altars have been established and 250,000 lives are being touched and influenced every day in the home because of the league. The headquarters are at 508 Lakeside building, Chicago, Ill. The officers are: Rev. W. E. Biederwolf, D. D., president; Rev. J. W. Nicely, D. D., recording secretary; E. O. Excell, treasurer; Rev. R. Howard Taylor, general secretary.

INTERNATIONAL ORDER OF THE KING'S DAUGHTERS AND SONS.

Headquarters—280 Madison avenue, New York, N. Y.
Honorary President—Miss Kate Bond, New York, N. Y.
President—Mrs. A. H. Evans, New York, N. Y.
First Vice-President—Miss Annie M. Brown, Toronto, Canada.
Second Vice-President—Miss Jennie C. Benedict, Louisville, Ky.
Third Vice-President—Miss Susan R. Broken-shire, Waltham, Mass.
General Secretary—Miss Clara Morehouse, 280 Madison avenue, New York, N. Y.
Recording Secretary—Mrs. Robert J. Reed, Wheeling, W. Va.
Editor—Mrs. R. L. McLaurin, Vicksburg, Miss.

RELIGIONS OF THE WORLD.

According to the revised (1898) edition of Mulhall's Dictionary of Statistics, there were then 476,100,000 Christians in the world. The same authority placed the number of Roman Catholics in Europe, America and Australia at 223,090,000; protestants, 157,050,000, and Greeks, 88,660,000. It has been estimated that there are in the world 256,000,000 followers of Confucius, 190,000,000 Hindus, 176,800,000 Mohammedans, 148,000,000 Buddhists, 118,000,000 polytheists, 43,000,000 Taoists, 14,000,000 Shintoists and 12,000,000 Jews. Of the Christians more than 230,000,000 are Catholics, 98,000,000 Orthodox Greeks, 70,000,000 Lutherans, 21,000,000 Episcopalians, 17,000,000 Methodists, 11,000,000 Baptists, 9,000,000 Presbyterians and 4,500,000 Congregationalists.

NATIONAL SPIRITUALISTS' ASSOCIATION.

President—Dr. George B. Warne, Chicago, Ill.
Vice-President—Joseph P. Whitwell, St. Paul, Minn.
Secretary—George W. Kates, 600 Pennsylvania avenue, S. E., Washington, D. C.
Treasurer—Cassius L. Stevens, Pittsburgh, Pa.
Trustees—I. C. I. Evans, Washington, D. C.; Mrs. Eliza Harlow Goetz, Baltimore, Md.; Thomas Grimsbaw, Chicago, Ill.; Alonzo M. Griffen, Chicago, Ill.; D. A. Herrick, Rochester, N. Y.
